BRITAIN SENDS DESTROYER TO PROTECT SEA TRADE

DRASTIC STEPS SEEN FOLLOWING SHIPS' BOMBING

By JOE ALEX MORRIS
United Press Staff Correspondent

A slate-grey destroyer—symbol of Great Britain's sea power—moved into the Spanish war zone today as rebel bombs destroyed two more foreign merchantmen.

Arrival of the destroyer Vanoc at Alicante, on the Spanish Mediterranean coast, indicated that Britain had been forced to prepare for strong action to protect her shipping interests in a civil war that momentarily threatened serious international explosions.

Even as the Vanoc dropped anchor at Alicante, insurgent aerial bombs blasted an oil tanker and a freighter at Denia, 60 miles up the coast, killing a British officer of the international non-intervention patrol and three French sailors. And still further up the coast at Castellon de la Plana, more rebel planes sank the British steamer Ildora, latest of half a dozen bombed British vessels.

Follow Rebel Attack

These bombardments followed a rebel aerial attack on the British-occupied port of Gandia, 40 miles south of Valencia; and it followed, too, a declaration by rebel Generalissimo Francisco Franco that Britain had to take its chances with other "common smugglers."

The indiscriminate bombing of foreign vessels along the Mediterranean coast emphasized the sudden and reckless fury of the Spanish struggle whenever the outcome has appeared uncertain. Once before submarine piracy created a similar Mediterranean crisis, ended only by an international patrol. At present, however, the attacks on foreign shipping have been coupled with bombardment of French frontier points and with the outbreak of British protests, making international action more difficult.

Plans Considered

Several plans of action by Britain have been considered in London, including a proposal to station an international fleet of warships and planes in Spanish loyalist ports to fire on all raiders.

The insurgent offensive against the Spanish loyalist armies defending Valencia continued to gain ground. They occupied the village of Adzaneta, bombed Fillafames and reported they were driving the loyalists through the hills northwest of Castellon de la Plana.

Bombardment of loyalist cities continued despite foreign protests, including a new message from the Vatican said to deplore the aerial bombing of civilians by Franco's foreign volunteers. About 60 American volunteers in the loyalist international brigade were nearby and feared to be among 300 casualties at Figueras, near the French frontier, where rebel bombs struck a hospital, a school and an old folks home.

I. O. O. F. LEADER PRESENTS CHECK

Presley F. Horne, grand secretary of the I. O. O. F. grand lodge of Idaho, arrived in Twin Falls this afternoon and this evening will present the local lodge with a check for \$200, marking the initial subscription to the "William Hoops Memorial Fund" in connection with the regular lodge building fund.

The \$200 was given to the fund by Mrs. Hoops, widow of the late Twin Falls contractor and lodge member. It was given to her as a funeral benefit by the lodge but she, in turn, asked that Mr. Horne present it to the local organization for use in the building fund.

Horne, well known throughout Idaho, has occupied his present position for the past 25 years. On this trip here he will be accompanied by J. A. Lippincott, grand master of the grand lodge of Idaho.

At the present time, local officials state, the memorial fund has reached approximately \$1,000. Aside from the \$500 given by Mrs. Hoops, members and affiliated organizations have contributed the balance. Such contributions will be announced at the meeting tonight.

Mr. Horne is from Caldwell while Mr. Lippincott is a resident of Burley.

Ketchum Real Estate Draws Congress Eye

WASHINGTON, June 9 (Special)—The Sun Valley real estate boom at Ketchum has become a problem for congress.

Many of the folks, it seems, who own lots in Ketchum, bought them from the county at tax sales or from other sources without examining their titles. They now find that patents have never been issued by the federal government and the only way title can be perfected under federal statutes is by a public sale to the highest bidder. If such sales are held, most of the settlers would likely be overbid by outside interests and lose their lots.

Sen. J. P. Pope, with the assistance of the interior department, has drafted a bill to straighten out this local tangle. It allows persons owning property which has been held for 10 years or more, improved and taxes paid, to get their patents by paying the U. S. land office the appraised value of the property.

PLANS COMPLETE FOR RICE PARTY

Plans were completed today for two "Bowl of Rice" parties which will be held in Twin Falls on Friday, June 17, at the Shanghai Gardens, 125 Main avenue west.

The local parties, two of several thousand being held in cities throughout the United States, will aid in raising funds for relief of 50,000,000 Chinese men, women and children non-combatants who are suffering because of war in the far east.

At the local observance, citizens will have the opportunity of purchasing a bowl of rice and a cup of tea either at 2:30 or 8:30 p. m. at the Shanghai Gardens. No set price has been set for the food but each contributor will be allowed to give any amount he sees fit. All local funds will be forwarded to national headquarters for the drive.

Arrangements for newspaper and radio publicity were completed last night as members of the local committee met. Headed by H. H. Freed-

BRUNEAU MAY BE NEXT U. S. MOVE

WASHINGTON, June 8 (Special)—Idaho is likely to be the recipient of a large-scale power development comparable to Bonneville and Grand Coulee.

Usually reliable sources are now saying that the President wants in round out the Pacific northwest power program by such a project. It is still in the investigation stage, but events are shaping that way.

It may be the long discussed BrunEAU project; it may be on the Salmon river, or elsewhere—in any event, it is a good time for Idaho to look for sales.

The objective of the administration seems to be making available electric power in the Pacific northwest commensurate with hydro-electric resources.

PETTEKILL BILL BELIEVED KILLED

By RALPH GIMSTEAD
 WASHINGTON, June 8 (Special)—The Pettekill bill to repeal the long and short haul clause of section four of the interstate commerce act apparently is dead. Administration leaders are afraid to let it come before the senate because it would provoke a filibuster delaying adjournment indefinitely.

Farmers and shippers' organizations are turning the issue over to the senate to kill the bill and even if voting, prefer not to favor it.

The interstate commerce commission is exercising considerable influence in stopping the Pettekill proposal, having recommended against it. Idaho's William E. Lee, a member of the commission, in a public discussion with Senator Pope makes this statement:

"If the Pettekill bill becomes a law... the carriers will be free to publish lower rates for longer hauls than for the shorter hauls, subject to protest by interested parties and suspension by the Commission. This, of course, places the burden on the shippers to examine all schedules containing proposed rates and to seek suspension by the Commission, whereas at the present time the burden is on the carriers in the first instance to justify the rates before they are permitted to become effective."

The fight will probably begin again at the next session and the proponents of long and short haul repeal will have to start over and get new action by both Houses of congress.

SOUTHERN SENATORS ISSUE ULTIMATUM ON FILIBUSTER

SOLONS DEMAND FLEXIBLE FORTY CENT PAY RATE

By ALLEN C. DIBBLE
WASHINGTON, June 9 (UP)—Seventeen southern senators today issued a filibuster ultimatum effective unless a flexible 40-cent standard is placed in the wage-hour bill.

The southern group charged that the compromise provision upon which senate and house conferees did not provide sufficient flexibility in reaching the 40-cent standard to meet southern demands.

The ultimatum demanded that no rate wage standard of more than 25 cents an hour be included in the bill and that the administrator of the proposed new act be allowed discretion in raising industry standards to the goal of 40 cents an hour.

The compromise to which the southern bloc objected provides a 25-cent minimum immediately, a 30-cent minimum the second year followed by five years in which wages 30 and 40 cents an hour would be recommended by industry boards and placed in effect by the administrator of the act. Seven years from now the 40-cent standard would become universal unless an industry could show that this wage level would reduce employment opportunities.

PLAY STARS NATIONAL OPEN GOLF MEET

168 Amateurs And Pros Seek Crown

BY HENRY McLEMORE
DENVER, Colo., June 9 (UP)—That wild and woolly national open championship started here in the wild and woolly west today.

Over fairways as narrow as the mountain trails that pierce the near-by Rockies, over traps as treacherous as the wily rockhounds, and over roughs as dense as the hairy forest, 167 amateur and professional golfers sought the blue ribbon of golf. They will play for three days for the open golf trophy to them as precious a nugget as was ever mined in the high hills that look down on the course. Eighteen holes today, the nine tomorrow, and then thirty-six on Saturday will produce the winner.

Who will be that winner? Outdoors, Win Titles No one knows any more than anyone knows what number will next come up on the roulette table. Because the national open, of the big sports events, is a forest, in Sam Parks, Jr. to win in 1937 or Tony Manero in 1936 or Ralph Guddahl in 1935 or the hill, they came swinging through the mist of obscurity to take it; to humble showmen who overshadowed them in renown.

might possibly put four good rounds together and win. That brings up the question of what constitutes four good rounds at Cherry Hills.

When the tournament was given to Cherry Hills, bringing it farther west than ever in history, it was believed that the best men would break 280. Because Cherry Hills—the Cherry Hills it's members play—is a single golf course. The Cherry Hills course took 15 1/2 years. It has been gone over by experts and toughened. Big fairways have been made into ribbons; rough has been allowed to rear its ugly head at will; and traps have been deepened and furrowed with a calculating hand.

Autograph Hunters Besiege Champion Ralph Guddahl

BY HENRY McLEMORE
DENVER, Colo., June 9 (UP)—The man and the cap stood surrounded by autograph seekers.

He wasn't nervous at the thought of defending his title fact, he scoffed at the old belief that the greatest pressure is on the titleholder.

No Strain
Another golf belief which Guddahl has no patience in the one that the biggest strain is always on the leader in a tournament.

Pennant Contenders Miss Good Catching

NEW YORK, June 9 (UP)—Gabby Hartnett, Bill Dickey and Rollie Hemley—hurry up and get well. That was the fervent plea today of major league pilots Charlie Grimm, Joe McCarthy and Oscar Vitt.

Without Hartnett the Cubs aren't the same scrapping, hustling ball club. With his injured hand in tape the Cubs crumbled today before the New York Giants yesterday and lost the National League lead to the Giants.

With Bill Dickey nursing an injured leg the New York Yankees broke all precedents of recent years by losing a double-header at the stadium—two to the Chicago White Sox.

Star Hurlers Feature Softball Tilts

Wiley Drug will test out the new found power of the Twin Falls Softball Club today.

Rebels Kill Britons, Frenchmen

SPANISH BOMBS SINK TWO SHIPS

By HARRISON LAROCHE

ENDAVE, French-Spanish Frontiers, June 9 (Special)—Spanish nationalist airplanes sank a British merchantman and a French merchantman in the Mediterranean coast between Valencia and Alicante.

British Ship Sunk
The British steamship *Isadora* was reported bombed and sunk by nationalist planes, at Castellon de la Plana, above Valencia.

(Lloyd's register lists a steamship *Isadora*, 1212 tons, of Belfast, but no *Isadora*.)

Despite mounting evidence of Britain's anger at the bombing of her ships, and growing international anxiety over casualties to civilians, the nationalists continued their attacks on loyalist coastal towns.

Italian Planes
Nine airplanes described officially as Italian Savoias dropped more than 100 explosive and incendiary bombs yesterday on Figueras, 12 miles from the French frontier. Thirty were known killed, loyalist dispatches said, and 23 buildings including a school, an old folks' home and a hospital were destroyed.

It was feared that American wounded of the loyalist international brigades were among the victims.

SIREN BOOMERANG
BERKELEY, Calif. (U.P.)—William Duncan, 45, of El Centro, Calif., who manufactures automobile sirens, suffered the humiliation here of being halted by one of his own products. The policeman who was operating it charged him with driving at 70 miles an hour.

Impressive Rites For Wendell Man

WENDELL, June 9 (Special)—Funeral services were conducted Sunday for Thaddeus Delbert Stevenson, 55, at the Presbyterian-Baptist church, Rev. Carl M. Davidson officiating in the absence of Rev. N. Ralph Smith, who is ill. Mr. Stevenson died last Sunday at the hospital.

Robert Baylinger and Volney Fitzschman. He was born in Pomeroy, O., in 1872 and received his early education in Kansas. He married in 1908 to Miss Inez Virginia Armstrong, at Richmond, Kan., where he entered business. He has operated threshing machines and worked as a carpenter since coming to the Wendell country in 1927.

2 Jerome Men Plead Guilty on Drunkenness
JEROME, June 9 (Special)—Vern Carlisle and Robert Charles were brought before Probate Judge Heber M. Folkman Tuesday morning on charges of drunkenness. After pleading guilty to the offense each was fined \$8. In default of payment Charles was placed in the county jail here to serve out the fine. Carlisle was released after payment.
