National Leaguers Capture All-Star Game, 4 to 1

JUNIOR CIRCUIT'S SUPREMACY TALK HALTED BY WIN

By GEORGE KIRKSEY
CROSBY FIELD, CINCINNATI, O., July 6 (U.P.)—The speed and enthusiasm of a young National league team prevailed over the veteran American leaguers today in the sixth all-star game, the Nationals winning, 4-1.

A highly partisan National league throng of 27,067 packed Crosby field to capacity to see the National league win its second game in the mid-summer all-star series. It was a complete National league triumph in which pitching and superior defense led the vital roles.

The American league defense fell apart and the vaunted sluggers from the junior circuit were handcuffed most of the afternoon.

Under Manager Delmonico Johnny Vander Meer, Reds sensational young southpaw of no-hit, no-run fame, and big Bill Lee, Cubs right-hander, pitched a gem against American league hitters into a whisper. They made one hit off Vander Meer, in three innings, and one off Lee in the same stretch. The hit off Lee was a fluke as Leo Durocher lost a fly ball in the sun.

Macie Brown, Pittsburgh's relief star, finished the last three innings for the American leaguers found him for five hits, but he pitched his way out of trouble until the ninth when Joe Di Maggio's single and Joe Cronin's double prevented the junior league from being shut out.

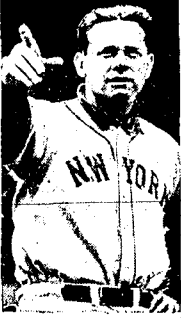

Four American Errors
Alec, the National league took a 2-0 lead in the second on an American league error. Fox, Cronin, Dickey and Di Maggio all committed one. A single American league error and three of them produced three runs.

Stanley Hack's single, Cronin's error, and a home run by Di Maggio's fly accounted for the first National league run off Letty Grove, Mel Ott's triple, 387 feet, off the center fielder, and Di Maggio's blasting single past third gave the National leaguers their only run and run in the fourth off Johnny Allen.

Unearned Runs
The National league runs in the seventh off Letty Grove were gifts. Frank McCormick, Reds' rookie first baseman, made a double, and Leo Durocher, Dodgers' shortstop, laid a hunt down the third baseman, Jimmy Foy, who shifted from first. Third when Lou Gehrig came in as a pinch hitter in the fifth, threw the ball back to the right fielder.

McCormick rared home, and Durocher sped around to third while Di Maggio retrieved the ball. Then Di Maggio uncorked a double, leaving catcher Bill Dickey's head, and Durocher also scored.

Winner, Loser

Bill Terry, and his gang of National league all-stars today exploded the myth that the National league was a "minor league" by soundly licking the American stars in the annual competition at Cincinnati, by a score of 4-1.

Consideration Assured in Johnston Attorney Plea

Formal Filing Given Motion Made by Wife

Formal filing of an affidavit and motion for hearing on a plea for appointment of an attorney or attorneys for Duncan McD. Johnston today had assured placing of the request before District Judge J. W. Porter.

Mrs. Virginia Johnston, wife of the ex-mayor who is accused jointly with William LaVonde in the murder of Charles L. Olson, filed the affidavit and motion late yesterday afternoon. Her action carried out the move predicted in the Evening Times 10 days ago.

Mrs. Johnston accused county jail officials of refusing to allow her husband to sign a motion asking for the legal aid.

Frank J. Smith, district court clerk, formally filed the document in the Johnston case. His records late last night, thereby assuring consideration of the request by the court before the September term, when Johnston and LaVonde will be arraigned. They are now in county jail after being bound over by Probate Judge Guy L. Kinney, but their cases have not come formally before the district tribunal.

Consideration of Mrs. Johnston's request for appointment of attorney to counsel and defend her probably will take up on the regular weekly motion calendar. The calendar is called each Friday. The presiding judge will consider the application and will either set a date for hearing or will reject the plea, holding over appointment of attorney counsel and defend her. Johnston is arraigned in September.

Called Unprecedented
Mr. Smith placed Mrs. Johnston's affidavit in the records after considerable deliberation. The request for district court action before the case officially came before the court was treated as unprecedented. The affidavit seeking appointment of attorneys to replace those who withdrew from the defense.

Unheard from Since June 20
Four men and two women who pushed unfired boats into the Green river at Green River, Utah, on a 666-mile voyage down the Colorado river through Grand canyon to Boulder dam were still missing today—unheard from since June 20. They were scheduled to make their appearance at Lee's Ferry on July 4, but to date no word has been heard of them. Members of the crew, pictured above, included: top, Don Harris, left, U. S. geological survey agent and Norman Nevins, expedition leader; lower, Louis Jotter, Elzada Colver and Eugene Aikins.

PRESIDENT WILL SEEK NEW BILL ON REORGANIZING

By IRL C. WILSON
WASHINGTON, July 6 (U.P.)—President Roosevelt led the faithful today into another battle for enactment of a government reorganization bill which congress rejected this year in a rebellion of house Democrats.

New words, uttered in his regular press conference, Mr. Roosevelt placed the reorganization bill into the 1938 campaign close to the top of the list of issues which he expected to present to voters in his trans-continental journey beginning July 7.

His plans were revealed after his conference yesterday with Chairman Louis Brownlow and other members of the committee which in January recommended to him the reorganization program which he immediately submitted to congress.

Must Alter Program
Observers judged that Mr. Roosevelt's new insistence upon the bill disposed of any belief that New Deal bumps during the campaign of the 75th congress would materially alter the general administrative program. He revealed that he feels congress will not pass the executive branch of government on what supporters of the bill call a business basis. He intends to present to the people and to congress again substantially the same reorganization proposals which were rejected by the house on April 8. Through the President indicated that he would be agreeable to a moderate compromise. He is convinced that the country wants a reorganization.

This decision to press again and apparently immediately for the bitterly disputed legislation will have its first test in the primary campaigns where Democrats are running as 100 per cent New Dealers unopposed and oppose the legislation and attempt to force their opponents to take a position.

Need Referendum
Some sort of referendum endorsement of the bill probably will be necessary before Roosevelt can urge congressional leaders to the fighting.

Reservoir Break Drowns Over 600 School Children

SAN FRANCISCO, July 6 (U.P.)—Globe Wireless announced today it received radio messages reporting a major flood disaster in Kobe, Japan, with "hundreds dead and heavy property damage."

Among those dead, the messages said, were "40 Europeans and 600 school children."

The messages, from the Dollar liner President Cleveland at Kobe, said three reservoirs, weakened by a three-day cloudburst that struck eastern and central Japan, had collapsed.

"Water on the Motomachi (Kobe) peninsula (the reservoir) was waist deep," the messages said.

The messages were signed by H. Estep of Berkeley, Calif., the Cleveland's radio operator.

Homes Destroyed
Globe Wireless is the Dollar company's radio subsidiary.

"Thousands of homes have been destroyed and all transportation is stopped," Estep reported.

Earlier reports from Kobe said the torrential rains had ended last night leaving 32 known dead throughout eastern and central Japan.

Hundreds were reported missing. Thousands were homeless.

Damage in only a portion of the stricken area was estimated at \$30,000,000.

All the central and water front areas of Kobe were inundated. Seventy per cent of the houses in the city were flooded.

"We found the main street a raging torrent of water," he reported. "We could cross the street only on certain places where wires were strung."

"The water was waist high."

Estep said the reservoirs collapsed at 9 a. m. July 5, Kobe time (4 p. m. July 4 P.M.).

"Thousands Drowned"
"Thousands of Japanese are said to have been drowned," the Cleveland's messages reported.

Kobe's business district was especially hard hit.

"Some sections of the district," the messages said, "seemed entirely wiped out."

"The reservoirs broke shortly before the Cleveland reached Kobe."

Rail and wire communication between Kobe and Tokyo was paralyzed.

Highways were impassable.

Water in Kobe's main railway station was five feet deep. All business was suspended.

SUGAR PLANT TO START SEPT. 25

Operations at the Twin Falls factory of the Amalgamated Sugar company will get underway this fall between Sept. 25 and Oct. 1, it was announced this afternoon by R. H. Tallman, Idaho manager of the company with headquarters in Boise.

Tallman was a business visitor in the city today. He was formerly employed in Twin Falls with offices at the local factory.

The company official commented that practically everything is in readiness for the season's run, even the early date. All machinery has been put in working order by the regular crew which is kept at work from the time the plant closes until it reopens, he said.

BRITISH-AMERICAN TRADE PACT SET

LONDON, July 6 (U.P.)—American Ambassador Joseph P. Kennedy has told Prime Minister Neville Chamberlain that negotiations for a United States-Great Britain trade agreement are nearing completion at Washington and most likely will be completed by the end of July, he was said in usually reliable quarters today.

Informants forecast that the agreement would be much more comprehensive than had seemed possible and it was reported, as an indication of the scope of the agreement, that Britain might receive substantial orders for merchant ships from the United States.

All Americans in Kobe Are Unhurt

WASHINGTON, July 6 (U.P.)—All American residents of Kobe, Japan, are believed to be safe, American Consul Walter P. McCaughey reported to the state department today.

McCaughey said the reservoir in the hills above Kobe had burst, sending a deluge upon the port city. He said property damage would probably be great, but did not estimate the loss of life.

U. S. Population Peak of 158,335,000 Seen in 1980

WASHINGTON, July 6 (U.P.)—The national resources committee predicted today a population peak of 158,335,000 in 1980, with a much smaller proportion of children.

In a voluminous report to President Roosevelt, the committee said that when the peak is reached, it will leave America "in a peculiarly advantageous position by providing each citizen with a greater share of the nation's wealth, it said.

Decline in Children
The decline in the proportion of children raises problems of "junior population" has been declining "for many decades," the committee found. A peak in the births per year was reached in the period 1921 to 1925. Since 1929, there has been a general trend toward an annual birth decrease.

"It is apparent that great changes are taking place in the population of the United States," Transition from one to a gradual decline of period of stationary or decreasing numbers, increase in the proportion of children surviving to maturity, limitations of births, "Redistribution of people in relation to natural resources and social institutions," the report said.

"Between 1936 and 1975, the committee estimated, the increase in persons 20 to 64 years old will be only six per cent, while those 65 to 84 years old will increase 60 per cent.

"As a result of this aging population," the committee said, "industry may be required to reverse its practice of releasing older workers."

PLANES TO BRING BIG GAME SALT

BOISE, Idaho, July 6 (U.P.)—The game commission completed plans today for airplane delivery of three carloads of salt to the state's big game country.

In previous years pack trains have slowly and painfully hauled salt to mountain riders to provide licks for the game animals. Planes can do the job quickly, and in addition get the salt to the very top of the ridges and spread the deposits to prevent undue hunching of animals as occurred through distribution from the ground, the commission believes.

A carload of salt at Cascade will be scattered by Bob Johnson, noted Idaho aviator, who is based at Lewiston. It will be hauled by Zachary Flying service, and Bennett Air service of Idaho Falls will distribute it, which is to be delivered at either Salmon or Mackay.

RAIL HEAD HITS U. S. OWNERSHIP

CHARLOTTE, N. C., July 6 (U.P.)—R. W. Fletcher, vice president of general counsel of the Union of American Railroadmen, said today that \$10,000,000,000 in rail investments are being made if government subsidization of other forms of transportation continues.

He predicted a situation in the future where the railroads will be so heavy that shippers ultimately will be forced to pay the entire cost of the carriage. "Including the cost of constructing and maintaining the highways or as much of such construction cost as is properly assignable to commercial use."

Fletcher spoke before the meeting session of the University of Virginia Institute of public affairs, opening the third day of the 31-day session after breakfast and Executive Commissioner Jerome N. Frank had warned last night's audience that the threat of Parker in the United States is more real than the threat of Communism.

"If our economically dominant citizens, activated by false apprehensions, attempt to break down political democracy they may temporarily succeed," Frank said. "They have control of free-living propaganda agencies and there are a large element of our people whose dislike and dread of Communism can easily be played upon."

CLAIM SURPRISES COUNTY OFFICERS

County officials, including Sheriff E. F. Prater and Attorney Edward Hubcock, this afternoon expressed surprise at charges made by Duncan McD. Johnston that her husband had been denied the right to ask the district court to appoint an attorney to defend her.

The charges were contained in a motion filed by Mrs. Johnston at the courthouse late yesterday afternoon in which she asked that the court appoint an attorney to defend her husband who, with William LaVonde, is charged with the murder of Charles L. Olson, state Lake City jewelry storeman whose body was found near the slide entrance of the Park hotel May 24, stuffed into the back seat of his car.

Asked Affidavit Before
The top county official held a preliminary hearing before Probate Judge Guy L. Kinney, through their attorneys, both of whom were present.

Sheriff Prater this afternoon informed the Evening Times that the affidavit had previously handed him on an affidavit asking for appointment of an attorney to defend him.

"I made inquiries regarding my husband," he said.

Name of person suspected of wounding Smith was withheld by officials until an investigation into the matter is completed. The investigation was launched this afternoon it was understood, however, that the shooting came as the result of difficulties over occupancy of the land which Smith farmed.

After treatment, Smith was taken to the home of friends. Attention at the physician's office said there was no immediate danger from the wound, barring complications.

LADY GODIVA

EDMONTON, England, July 6 (U.P.)—Lady Godiva, Miss Mirabelle Miller, 12, in a white horse through the streets in the Teddington parkland today, clad in a hat and boots.

A grey-haired man, broke through the crowd, shouting "down with this disgusting exhibition," and tried to pull Mirabelle from her horse.

The girl's father, police and spectators came to her rescue and attempted to break down the political democracy they may temporarily succeed," Frank said. "They have control of free-living propaganda agencies and there are a large element of our people whose dislike and dread of Communism can easily be played upon."

WATCH SET FOR CLUE TO LOST EXPEDITION

LEE'S FERRY, Ariz., July 6 (U.P.)—Two U. S. geological survey employes, concerned about the safety of six scientists overdue on a cruise down the Colorado river, went on a 24-hour watch schedule today in the hope that they might learn the fate of members of the expedition.

One of the men will be on duty day and night. They will keep their eyes on the waters rushing down the flood-swollen Colorado, taking every precaution to make certain that no one is being swept away in the swift falls of the river, the men will summon aid and begin a search as it is possible in the dry canyons of the Colorado.

Even if the scientists have survived the rapids and ticks and flood waters, their food provisions must be getting low. They had planned to reach Lee's Ferry by July 4, and they carried only provisions enough for a few days. They could make the food last a few days longer.

KIMBERLY MAN IS WOUNDED IN LEG

Carl O. Smith, 49, farmer residing near Kimberly, was treated in Twin Falls this morning for a gunshot wound in the left leg. County Attorney Edward Hubcock said this afternoon.

The bullet, according to attorneys at the office of the attending physician, entered the leg above the knee and emerged about eight inches below.

Name of the person suspected of wounding Smith was withheld by officials until an investigation into the matter is completed. The investigation was launched this afternoon it was understood, however, that the shooting came as the result of difficulties over occupancy of the land which Smith farmed.

After treatment, Smith was taken to the home of friends. Attention at the physician's office said there was no immediate danger from the wound, barring complications.

GRAIN COMTINUES RECORD DUMPING

KANSAS CITY, Mo., July 6 (U.P.)—The record flow of wheat through the Kansas City market continued today.

Receipts for the day were 1,230 carloads—1,998,000 bushels, making the receipts for today and yesterday 7,094,000 bushels. This is enough wheat to make about 35,000,000,000 bushels of bread or almost a loaf for each dollar of the nation's money.

It was the largest run in the history of this market which is the "biggest" market in the world.

Grain was unloaded from the record receipts of 8,844 cars for one week and the monthly record of 29,041 cars would fall.

RADIO PLEA ASKS AID FOR INDIANS

KAYAPPO, Ariz., July 6 (U.P.)—A short wave radio today called "white man's medicine" to isolated outposts of the Navajo Indian reservation where an outbreak of diptheria has raged to have taken three lives and injured many more.

The radio, operated by Mr. W. P. Peters, health officer, requested serum with which to combat the disease.

Dr. Peters said unaffected members of the Indian population in the Kayapo region.

The Navajos, the diptheria said, are especially susceptible to the condition because their bodies have never had a chance to build up immunity.

PASSENGER RATE INCREASE

WASHINGTON, July 6 (U.P.)—The interstate commerce commission today authorized eastern railroads to increase passenger coach fares from two cents to two and a half cents per mile for a trial period of 18 months.

AMERICAN LEADER HITS "DUMPING" OF POLITICAL REFUGEES

ENVOY ATTACKS WORLD'S NATIONS FOR OPPRESSION

By WALLACE CARROLL. EVIAN, France, July 6 (UP)—Myron C. Taylor, chairman of the American delegation to the inter-governmental meeting on political refugees, today denounced nations that dump "unfortunate people" on the rest of the world.

Taylor reviewed the international refugee problem before delegates of 32 nations gathered here at the invitation of President Roosevelt to consider the refugee problem.

He pointed out that the conditions leading to the refugee situation are in addition to violating all elementary human rights.

He said that the refugee problem is so vast and so complex that the present intergovernmental meeting can do no more than set up and put into operation machinery which eventually will help ameliorate conditions.

Suggests Permanent Group. He suggested a permanent committee some time ago to deal with problems of forced migrations, and suggested that this committee meet at Paris.

HUNDREDS DIE IN JAPANESE FLOOD

(From Page One) Press dispatches reported 70 persons drowned or buried under landslides in Niichinomiya village. Little damage, however, was reported in the great industrial city of Osaka—a chief manufacturing making different to Kobe.

The Kobe prefectural government estimated that 136 bodies had been recovered in the province. The government also reported a preliminary estimate of 1,200 houses destroyed throughout the province, and 60,000 houses inundated to a depth of more than 10 feet.

There was danger of water and food shortage. Many vegetable markets were ruined. Kobe's city prison was badly damaged. Walls collapsed forcing authorities to transfer 800 convicts elsewhere.

A girl's school building collapsed, killing at least five students. Reports direct from Tokyo to San Francisco said the home ministry announced that in eastern Japan the known dead totaled 181, with 101 injured and "hundreds" missing. This area includes Tokyo and Kansai cities and factories of Saitama, Chiba, Tochigi, Shizuoka, Yamaguchi, Ibaraki, Niigata, Miyagi and Fukushima.

The clubhouses and flood were the severest in recent Japanese history. Captain Kohlmaster of the Prefectural Police, readied United Press as follows: "Reservoirs collapsed in Kobe. Hundreds dead. One schoolhouse collapsed killing many. City completely inundated. Many refugees, including foreigners, killed. United States consulate surrounded by sea of mud and water. Water supply gone."

A press dispatch from Manila said: "Kobe contained President Cleveland from here. Operator reported 'thousand Japanese dead, many homeless. Transportation paralyzed. Survivors fled in panic amid hills laden with students.' Official figures placed the known dead in the flood area of Hyogo prefecture at 441 and estimated more than 1,000 persons had been injured.

"Shortage of Men" The figures included 185 dead in Kobe, 38 at Hanshin and 220 at other points in the prefecture. There was some confusion over the number of reservoirs that actually collapsed. Most reports said three. Others, however, said only one.

Captain Kohlmaster reported that as far as he could ascertain no Americans lost their lives in the disaster. Japanese youth organizations were commended to the task of helping clear away debris due to "shortage of men."

DEATH TOLL NEAR 700 TOKYO, Thursday, July 7 (UP)—The official death toll in storms and floods which swept the main island of Japan from points north of Tokyo to south of Kobe neared 700 mark today as rescue workers combed devastated areas for hundreds of missing persons.

Youthful Drum-Bugle Corps Meets Friday

Youthful members of the drum and bugle corps sponsored by the American Legion and the Legion auxiliary will hold their first general rehearsal at 8 p. m. Friday at Legion hall. It was announced here this afternoon. Boys and girls in the unit range from 10 to 16 years of age. The present membership list shows:

Directors of the young musicians are Dr. Orrin T. Fuller, Frank Warner and Jack Thorpe. Dr. Fuller is handling the bugle division; Warner will direct marching and general arrangements, and Thorpe will direct the drums and will handle the special drum try-outs which are also scheduled for the Friday night meeting.

Now Have 50. Membership list includes approximately 50 boys and girls. Warner announced. The bugle division lists 17 girls and 15 boys; drums, 12 boys and five girls. Additional Twin Falls youths may still try out Friday.

Those in the corps are to have their instruments at the rehearsal. Warner said. The instruments and books are now awaiting them at the Duesler-Warner music store. Tentative plans are underway for uniforms but that phase of the corps will be carried out after organization is fully completed. Jerome has the only other similar unit in south central Idaho.

Boys Scout drum and bugle corps, formed recently, "is not discontinuing as a result of the Legion organization," Warner said. Survivors include two sisters and two brothers, all of Kaufman, Tex. They are Mrs. R. T. Wilson, Mrs. Edna White, Roscoe Sullivan and Tom Sullivan.

Pending funeral arrangements, the body rests at the Willey funeral home.

Here is List Now Bugle—Margene Crow, Imogene Beth, Bonnie Jean Kunkle, Elaine Blockcamp, Don Van Auuden, Pauline Blockcamp, Mary Ellen Glesper, James Innes, Vera Stephens, Bobby Peters, Hugh Ross, Bobbie Jean Douglas, Phillip Kottraba, Bob Graves, Jean Hayward, Madge Hayward, Joan Bernier, Virginia Campbell, Elaine Petersen, Bill Noble, Marion Taylor, George Taylor, Noble Noble, Lloyd Lebert, Billie Lee Bicknell, Hazel Leighton, Milton Birch, Lucille Birch, John Durward, Dorothy Smith, Arlene Smith, Junior McCall.

CAUTION ADVISED IN WATER USAGE

Pointing out that the most common source of typhoid infection in this part of Idaho is by way of polluted water and that during the summer season the incidence of certain infectious diseases tends to increase, Dr. Robert Stump, director of the district health unit, this afternoon treated all of the water from doubtful sources before domestic use.

"With the coming of summer and its warm weather," Dr. Stump said, "the incidence of certain infectious diseases tends to increase. Among conditions which are prevalent in the summer are typhoid and paratyphoid fever, dysentery of infectious or non-infectious types besides diarrheas in various forms.

Long Fever
"Typhoid fever is an acute, infectious disease caused by an organism, the typhoid bacillus. It is a disease which is slow in onset, with a prolonged course of high fever, marked prostration and a slow convalescence.

"The most common source of infection in Idaho is polluted water. The water in our streams, irrigation ditches and canals, receiving runoff water from many areas, is bound to become polluted and is potentially dangerous to use untreated," Dr. Stump said.

He said that all water from doubtful sources should be treated prior to use for drinking. If for domestic use, the water should be filtered and chlorinated before stored in clean cisterns. If in doubt as to the quality of the water, all should be boiled before using.

Chief Measure
"Although the fundamental measure in prevention of typhoid and other gastro-intestinal infections is proper sanitation, it is often times impossible to control all the sources of contamination," Dr. Stump said.

"Another method of prevention of typhoid and paratyphoid fever is through immunization. In this way an individual is protected for two or three years. Your own family physician can provide this service for you.

Dr. Stump stressed the fact that several cases of typhoid fever already have been reported throughout Idaho, and one death has resulted from this preventable disease.

Rupert Rites for Former Resident

RUPERT, July 6 (Special)—Funeral services for Thomas Thacker, who died in a Spokane, Washington hospital June 26, were conducted in Rupert at 2 p. m. Saturday in the Goodman mortuary chapel by George G. Roseberry, pastor of the Methodist Episcopal church.

Music was furnished by Mrs. Fred Schluhbach who sang, "Jesus Saw Our Father's Name and 'Lord, Kindly Light'" with Mrs. Ray Williams at the piano.

Burial was by Percy Roe of Pocatello, John Kidd, Lloyd Chapman, Don Gardner, Henry Rickert and Ray Bailey, brothers-in-law and close friends of the deceased.

Interment, under the direction of the Goodman mortuary, was in the Rupert cemetery beside his mother, Mrs. D. D. Thacker, who died three weeks ago.

Thomas Thacker was born July 11, 1901 in Medford, Oklahoma, and came to Rupert with his parents in 1922. He later went to Washington where he made his home at the time of his demise.

He is survived by his father, A. D. Thacker, and two sisters, Mrs. Mildred Johnson and Mrs. Neva Gardner of Rupert, five other sisters, Mrs. Ethel Roe of Pocatello, Mrs. Edith Blair of Lamont, Wash., Mrs. Florence Ott of DeWinton, Wash., Mrs. Alice Chapman of Heyburn and Mrs. Dorothy Kidd of Hazelton, and one brother, Walter Thacker, of Spokane, Wash.

Nampa Woman's Body Recovered

BOISE, July 6 (U.S.)—New York car Monday night yielded the body of Mrs. Frank B. Hannon, of Nampa, who was drowned along with Mrs. Ray Hunt of Boise June 28 when their automobile plunged into the canal.

Raymond McManis and George M. Ammerman located the body in about six miles from the spot where the car in which the two women were riding with their husbands went into the river. The two men escaped from the submerged machine.

CAMP FIRE GIRLS PLAN BUSY WEEK

Numerous activities in Camp Fire Girl circles for this week got underway today as a number of groups and the board of sponsors scheduled meetings.

The sponsors will meet at 8 p. m. at the home of the chairman, Mrs. L. V. Morgan. They plan to hear a report on the leaders' training course attended recently at Butte, Mont. by the secretary, Mrs. Mary Aurora Brannin. Plans for the two camping seasons, which open July 21 at the Baptist camp grounds near Easley, will also be discussed.

Meet Today
Several of the girls' organizations were to hold meetings today. Nettop girls were to meet to work on occasions. Each member of the group earned money last fall and all hope to have their costumes completed for use at camp. Mrs. W. A. Van Engelen is guardian.

Koyakas with Mrs. A. Rommelvedt as leader were to meet at 2 p. m. at the home of Francis Reans and discussion was to center around camp plans. Wednesday at 4 p. m. Friday in I. O. O. F. hall by Judge M. C. Summers, La Verne, Calif., writer on business economies.

Bank management and work on account books occupied Telahai Camp Fire Girls as they met at the home of Joan Ellison, 302 p. m. Miss Eugenia Elder is serving as leader during the summer months for this group.

Council Fire
Chip Kahki Ongki group of Camp Fire Girls will hold a council fire Thursday evening at the home of Jean LeClair, 302 p. m.

Wulaska girls will plan for camp as they meet at the home of their guardian, Mrs. C. S. Lee, Thursday.

Wulaska Camp Fire headed by a Miss Elizabeth Blake, has planned an overnight hike for the latter part of the week. Date remains to be definite because of weather conditions.

Other groups including two newly organized ones are expected to schedule meetings later this week.

RUPERT

Mr. and Mrs. B. F. Tulus of Idaho Falls and the daughter, Mrs. Howard Huse, and her husband and their sons, Delbert and Madlin, of Yakima, Wash., arrived in Rupert Saturday for a short visit with relatives and friends.

Roy Cunningham, Jr., of Boise, came Saturday to spend his fourth of July vacation with his parents, Mr. and Mrs. Roy Cunningham.

Mr. and Mrs. Ray Williams and small daughter, Rita Ray, and Mrs. Williams' mother, Mrs. D. L. Carlson, returned last week from a month's vacation in California.

Stanley Tremont returned Saturday from Moscow where he occupied special work in summer school at the university.

As a courtesy to her daughter, Mrs. George H. Curtis of Boise, who is here visiting, Mrs. W. A. Goodman entertained with a one o'clock bridge luncheon at her home Friday. Covers were laid for 28 and a color scheme of yellow and white was carried out by the use of robes, buttons and napkins. In house and table decoration. In the games high score prize was won by Mrs. Hugh A. Baker.

Mrs. Florence Otto, who accompanied the body of her brother, Thomas Thacker, to Rupert and remained until after his funeral Saturday left Monday for her home in Dennison, Wash.

Mrs. O. M. Mitchell returned Saturday from Boise where she went last week with her daughter, Miss Edie Jenn Mitchell, who recently returned from Europe where she had been doing special work in the University of Washington. While in Boise Miss Mitchell attended a four day institute for nurses and from there went to Coeur d'Alene, where she has accepted a position in public health work. Mrs. Mitchell was the guest of Mr. and Mrs. T. J. Swearingin while in Boise.

An alarm which proved to be a false one brought the fire department of the south side of town near Pershing school about 2 p. m. Sunday. A blaze near there was reported but on arrival the firemen found nothing.

N. W. Kimball, manager of the Hillside club, tonight will provide entertainment for Rupert's two day Fourth of July celebration left Tuesday for Okley. He will make arrangements for the races which will be staged by his company there July 22 to 24. From there they go to Lewiston, Utah, where a similar program will be given August 7 to 10; then to Tremonton, Utah, for a video September 15 to 17. Mr. Kimball's party consists of 105 head of horses, Brahman bulls, steers, cows and calves.

Mr. and Mrs. H. J. Chapman of Long Beach, Calif., who have been guests of their daughter, Mrs. E. J. Farnsworth, and family the last two weeks left for their home Wednesday. Their son, Lee, who accompanied them here, will remain for the summer as assistant to Mr. Farnsworth in his bee industry.

Group Returns from Institute Camp Site
WENDELL, July 6 (Special)—The Rev. Carl M. Davidson, Finer Young, Paul Holsinger and Arthur Johnson returned Friday evening from a trip to Camp Beatman on Wood Lake in preparation to help prepare the grounds for summer institute.

Approximately 275 will attend the camp this year from Epworth League over the state. The summer camp will open Monday, July 11, and will continue until Sunday, July 17, inclusive.

Taxes and banking in relation to the general welfare act—which embodies the Townsend plan—will be discussed here at 4 p. m. Friday in I. O. O. F. hall by Judge M. C. Summers, La Verne, Calif., writer on business economies.

JUDGE WILL TELL RECOVERY ROUTE

Pointing to the "general welfare act" as America's route back to prosperity, Judge M. C. Summers, La Verne, Calif., will address a mass meeting here under auspices of Townsend club No. 1 in Odd Fellows hall at 8 p. m. Friday, July 8.

Judge Summers, prominent as a writer on business economies, will speak on "Money, Bank Credit, Tax Laws and the General Welfare Act as the Way Out."

The expert on banking laws and taxes declared that "I believe I can prove to the business and professional men of Twin Falls that enactment of the general welfare bill, now in the house ways and means committee, will mean far more prosperous times for them than they have ever known." The bill embodies the Townsend plan. Judge Summers will answer queries on the measure following his address, which will deal chiefly with taxes and banking as they would be affected by the act.

Judge Summers achieved national prominence on the bench of the St. Louis, Mo., court of general sessions, which he established as a special court of criminal law. Since 1934 he has been lecturing on taxes and business problems. His present tour of 15 states will close with a state meeting in California.

TRIBUTE OFFERED JOHN R. STOCKING

PAUL, July 6 (Special)—Funeral services for John R. Stocking were held Sunday at the Paul L.D.S. church. Mr. Stocking died at Caribou hospital, Soda Springs, July 1, where he was taken following a heart attack while herding sheep in the mountains near Soda Springs.

Bishop Keith C. Merrill officiated. A women's double quartet sang, accompanied by Thelma Sanford; Charles Morrison offered prayer; Lucile Billington and Thelma Sanford sang, accompanied by Mrs. Ida Harper; C. C. Sanford gave the obituary. Speakers were Cyrus Steadman, Joseph P. Payne, President Horace O. Hall, Burley.

Special Music
Mrs. Reta Payne, Burley, sang a solo, and Mr. and Mrs. Payne, accompanied by Mrs. Genevieve Empe, Burley, offered a duet; Bishop Keith C. Merrill made closing remarks; the double quartet then sang, accompanied by Thelma Sanford; Leslie T. Harper pronounced the benediction.

Floral tributes were carried by the grandchildren of Mr. Stocking and by his sisters, Mrs. Mary Sullivan and Mrs. Emma Holt, Salt Lake City.

Interment was in Hyrum cemetery beside the grave of his first wife. Burial was under the direction of the Payne mortuary.

Mr. Stocking was born June 1, 1871, at Fort Hartman, Utah. He married Georgianna Wright, Draper, Utah, at the L. D. S. temple in Salt Lake City in 1893.

YEAR OF JAPAN-CHINA WAR TAKES 1,000,000 LIVES

INVADING TROOPS WIN ALMOST ALL MAJOR BATTLES

By ROBERT BELLAIRE
SHANGHAI, July 6 (AP)—The first year of the Chinese-Japanese war has cost more than a million lives.

These men and women and children have perished on far flung fields of battle; in bombed cities; in flooded river valleys; and from disease and famine in the wake of war.

Japan has won almost all the battles in this war that began outside Peking a year ago tomorrow. She now occupies 75 per cent of China's commercial and industrial areas.

And yet, according to the consensus of qualified foreign observers here, she is little nearer to the successful realization of her objectives than she was six months ago.

The battleships on which between 1,000,000 and 1,500,000 men have been mobilized by both sides spread out over an area more than half the size of Europe.

Foreign military attaches and war workers estimated that about 400,000 Chinese soldiers have been killed and 800,000 wounded. Chinese civilian casualties were estimated at 800,000, including 75,000 killed.

The same sources estimated that Japanese casualties were more than 300,000, of which roughly 90,000 were killed.

Although the Chinese have been driven far inland and the Japanese are in possession of most of the principal ports of China and their revenues, there is little prospect of peace.

Continued Chinese resistance, however, is depending primarily upon maintaining unity in the nationalist government in the face of increasing grudge, political rivalry and the chance that certain discomfited elements may accept expected peace offers.

Fail in Objectives
Foreign consular officials, military observers and business men said Japan had failed to attain her original objectives, which they said were:

1. Occupation of the territory north of the Yellow river and also Shantung province.
2. To establish peace in the occupied areas north of the Yellow river where a new puppet regime would be created.
3. To develop north China with foreign credits while forcing the withdrawal of competitive foreign business through the establishment of Japanese monopolies, high tariffs and the creation of obstructions and inconveniences designed to discourage foreign business.
- Reason for Failure
That this program was not completely successful was ascribed to the following:

1. China's continued support of Generalissimo Chiang Kai-Shek's campaign of resistance. This caused Japan to extend their lines hundreds of miles beyond the original objectives and put an unexpected drain on Japan's material and human resources.
2. Japan's sweeping declarations and threats, which made a compromise impossible without the loss of face. As a result Japan may be forced to undertake a costly invasion of south China.
3. The continued antagonism of the United States, Great Britain and France, resulting in the increasing uncertainty of foreign credits to assist Japanese development in the occupied areas.
4. Failure to establish puppet regimes commanding the respect and support of the Chinese people.

The most successful Japanese objective thus far has been the exclusion of foreign trade from the occupied areas. Despite the Chinese and American protests, not a single foreign firm has been permitted to resume business in the occupied areas except in a few sections in north China. These are along the railways and in the major cities, and even there foreigners must make sales through Japanese agents.

CONSIDER THE TREE
Editor, Evening Times:
The tree is King.
He has sent his legions to cover the earth. Man, bird, beast, reptile and insect have used them for homes, have feasted upon their bounties, have used their bark and leaves for beds and clothing. Man even spins them into clothing.

It was a wooden ladder upon which man climbed to civilization. He used it for a staff, weapon and bark to sail the rivers, lakes and seas, and finally he used wooden wings upon which he sailed into the sky.

Our children sit upon wooden chairs in school and study their lessons from books made from wood. The records of the past and dreams for the future are recorded upon wood. Extracts, dyes and chemicals are made of wood. In short, so over all is King Tree in his sustaining grace that if the things he gives were enumerated they would fill all the libraries on earth and then not tell the half of it.

His great armies climb the heights and pry out boulders and dash them down the mountain sides to be ground into soil by glaciers and rivers. He himself conserves the Good Earth from erosion, appreciative of its work (the vandals), has always bitten the hand of the greatest giver—King Tree. He has ripped up and burned forests to plant mountain ground into poor acres of corn, and nature then has washed gullies and left the barren rock.

Man, if he is going to plant a tree, generally says, "A tree is a tree. It will give me shade and

PLANS MADE FOR FIREWORKS SHOW

Completion of arrangements which will provide for seating of 5,000 persons during the "Siege of the Argonne" spectacle which will be staged here in connection with the "Idaho on Parade" celebration July 10 to 12, was announced here this afternoon by W. D. Stearns, chairman of the grounds and property committee for the show.

The "Siege of the Argonne" will be one of the highlights of the celebration which will attract thousands of twin Falls. The celebration is being sponsored by the local post of the American Legion.

Charles Russell, chairman of the streets and public relations committee, announced this afternoon that all arrangements for the public dance had been completed. He also said that several couples have signified their willingness to be married before a crowd of thousands.

Street decorations for the celebration will be put up throughout the downtown section next week. It was also announced by Otto Koster, chairman of the street decoration committee. Koster said that the decorations, for which the contract has been let, will be among the finest ever displayed on local streets.

At the same time members of the committee in charge urged local merchants to sponsor bargain day events during the celebration. In addition to the "Siege of the Argonne," the street dance and the public wedding, other features will include a baby parade and show, a "big" parade with all organizations of the city taking part, and the crowning of "Miss Victory."

Here are two swell reasons why flying is popular in Louisiana. They are Julia and Winston Wendt, junior journalism students at L.S.U., who were crowned as "Air Princesses" by Gov. Richard Leche. They are twins.

DISTRICT SCOUT CAMP POSTPONED

Rain and cold weather today forced postponement of the summer camp of more than 80 Boy Scouts from the Gooding and Lincoln districts, it was announced by Scout officials.

The camp was to have been held at Beaumgardner's park, 12 miles above Featherstone on the Boise river. The boys reached Fairfield but rain and cold prevented them from entering the mountain camp. The move to not hold camp at this time according to Sam Sullivan, district troop committeeman, was taken as a precautionary measure. The camp will, however, be held at a later date.

Postponement of the Kimberly-

Hansen-Murlough district camp from July 10 to 17 was also announced. This camp will be held on Alturas lake.

Edward G. Seubert

"... young men must get a start in earning their own way, and I don't know a more wholesome job for a youngster to start with."

Says Edward G. Seubert, President of the STANDARD OIL COMPANY of INDIANA

Looking back to his boyhood days, the present executive head of the Standard Oil Company of Indiana, writes from his presidential offices:

"About fifty years ago I began my business experience as a morning paper delivery boy in Syracuse, New York. I used to spend several hours every week day morning delivering my papers, go home for breakfast and then off to school. That work was good for me. It taught me responsibility, enterprise, self-discipline, and it started me on habits of liking hard work which have helped me all through my business career.

"I realize that conditions today are considerably different. There are more people available to do the work that needs to be done, for one thing. But young men must get a start in earning their own way and I don't know a more wholesome job for a youngster to start with, provided he is strong physically."

County's School Leader Honored

Twin Falls county superintendent of public instruction, Mrs. Doris Stradley, was vice president today of the Idaho Association of County Superintendents.

Mrs. Stradley was named to the state post in the elections which concluded the annual conference and short course for superintendents at the University of Idaho, Moscow. D. W. Nelson, Rexburg, Madison county school chief, was named president and Mrs. M. E. McLeod, Lewis, Nez Perce superintendent, was chosen secretary-treasurer.

The superintendents attended intensive classes under visiting and Idaho educational experts. The sessions lasted from June 20 to July 1. Thirty-six county leaders were in attendance, including all but one of the south central superintendents.

DEATHS BLAMED ON SPEED, ROADS

BOISE, Ida., July 6 (AP)—Excessive speed, considering road and weather conditions, was blamed today for most of Idaho's first deaths of July holiday fatalities by E. T. Spencer, director of the state department of law enforcement and safety education bureau.

The toll of six compared with no deaths over the Independence day period in 1937.

"July rains left the roads with a wet and slick surface that caused skidding of cars which burying drivers could not control in an emergency," Spencer said.

The holiday deaths brought Idaho's traffic fatality total for the year to 71, compared with 73 at the same time a year ago.

Cardozo Condition Stays Unchanged

PORT CHESTER, N. Y., July 6 (AP)—The condition of Supreme Court Justice Benjamin N. Cardozo was reported unchanged today.

Justice Cardozo, 68, has been ill with a heart ailment since last December.

Doctors here say that a warm climate is making a cold easier.

LICENSE INCOME SHOWS ADVANCE

Climbing upward again in June motor vehicle license receipts last month outstripped those of June, 1937, and boosted the collections for the first six months to \$174,720-\$225. County Assessor J. D. Barnhart announced today.

June income was \$10,000.25, as compared with \$9,794.10 in the same month a year ago.

Receipts for the first six months, Mr. Barnhart said, have moved to within less than \$4,000 of the high 1937 figure. For the half-year in 1937 the total was \$178,530.70.

Every classification except dealers showed a gain last month, a report shows. The totals:

Passenger cars 409 in June and 417 a year ago; trucks 40 and 38; farm trucks 61 and 62; commercial trucks 10 and 13; dealers 1 and 2; motorcycles 7 and 5; commercial trailers 2 and 2; trailers 187 and 184.

Luncheon Arranged for Visitor from Virginia

Mrs. Boyd Swetnam, who is here from Alexandria, Va., for a vacation visit, was the inspiration for a charmingly appointed luncheon this afternoon. The event was given by Mrs. E. J. Wall and her sister, Mrs. James B. Miller, at the Wall home, 214 Seventh avenue east, Mrs. Miller, Potomac, Okla., is spending the summer here.

Also present were Mrs. Marshall Jeffries and Mrs. Richard Smith, mother and sister of Mrs. Swetnam, at whose home she is a vacation visitor. The 16 guests found their places at one large and two small tables. Pink and blue larkspur and delphinium formed graceful central trim for the tables, and the same flowers were employed in the room decorations.

The afternoon was spent playing contract, and Mrs. Swetnam was presented with a guest favor. Mr. and Mrs. George Sprague were dinner hosts recently in honor of Mrs. Swetnam. Mrs. Jeffries, Mrs. Smith and Miss Gaily Jeffries, prior to Miss Jeffries' return to Spokane. The dinner for six was served at a table covered with blue cloth and centered with a bowl of roses.

NLRB TO DECIDE ON BANK CLERKS

LOS ANGELES, July 6 (UP)—A national labor relations board hearing that will decide whether workers in 18,000 banks throughout the country come within the Wagner act's scope, neared an end here today.

The OIO United Office and Professional Workers of America filed a petition accusing the Bank of America of discharging Edward C. Washer, an investment specialist, for union activities. The board rest-

ed its case late yesterday and reported for the bank will announce this afternoon whether they will present further evidence.

Special Examiner Robert Denham of Washington took under advisement a motion by the bank for dismissal of the case. The Bank of America claimed that national banks are arms of the federal government and thus are not engaged in commerce as defined in the Wagner act.

Buhl, July 6 (Special)—Buhl and Burley were set today to tangle for the district American Legion youth baseball championship here on Thursday following the same club's 9-7 victory over the invading Twin Falls crew last night.

The victory gave the Buhl team a 2-1 edge in the series and clinched the title, despite the fact that a protest on player used will be entered by managers of the losing club.

The Burley club, 1937 state champions, easily won its regional title by scoring two straight victories over Rupert, 18-2 and 21-1, with Earl Toolson starting on the mound for the winners.

St. Louis' hit. Twin Falls could get only five safe hits off the combined offerings of Conyers and Harmon.

Conyers was the star of the game, hitting for four times up.

Capt. George E. T. Eyston. NEW YORK, July 6 (AP)—He looks and acts as little like a professional as any one could imagine.

CAPT. GEORGE E. T. EYSTON

His way hair is brushed with gray, and his pale blue eyes look like the clear, cold water of a mountain stream.

His favorite topic of conversation is the raising of chickens, and he would much prefer to discuss that than the game of polo.

His last name is George E. T. Eyston—Capt. George E. T. Eyston—and today he is flying toward Salt Lake City and the salt flats of Bonneville for another record of his own world's land speed record of 314.2 mph.

He'll Never Forget. Those runs on the salt flats, professional centers attend the most eerie sight in sports.

Solons Win in Only Coast League Battle

Sacramento's league-leading Solons opened a series at home Tuesday night by trimming San Francisco, 8-1, in a Pacific Coast League night game.

Johnny Vergez hit a homer in the third inning to start the scoring and his teammates pushed in two more runs each in the fifth and sixth innings and another in the seventh.

All Teams Idle. All other teams in the league were idle, traveling to new ball parks after the successive doubleheaders Monday.

Big Small Hitter. Big Small Hitter of Hollywood and Oakland is the league's leading hitter with a batting average of .402 for the season.

Johny Comes Marching Home a Hero

It was a tumultuous reception that awaited Johnny Vander Meer as the Red returned to Cincinnati from the war on the road, following the young southpaw's record no-hit, no-run and other low-hit accomplishments. But the North Jersey lad, smiling in the right foreground, took it in stride... Just as he handled the American League's hardest hitters today.

U. S. Attorney Says Bund Joiners Swear Allegiance to Hitler
RIVERHEAD, N. Y., July 6 (UP)—The U. S. attorney here today said that six Nazi camp officers that members of the German-American Bund have sworn allegiance to Hitler and pledge allegiance to Adolf Hitler.

Speeding Costs \$25
McCarthy, salesman, arrested on a charge of speeding 80 miles an hour on a state highway, told the court he was driving a Buick when he was running away. Fined \$25, he explained he could not pay the fine as his wife had taken all his money except \$1.40. A note explained that she was going home to "mum."

Anglers Lack Control
BROOKLINE, Mass. (UP)—Two tuxedo-wearing fishermen cast their lines on Beacon street about a clock in the morning. The lead angler from one of their lines went through the plate-glass window of a nearby drug store. Whereupon the fishermen in disgust climbed into an automobile and drove away.

BEKKE STATE AUDITOR POST
BEKKE, July 6 (UP)—P. C. Winkler, of Rexburg, filed completed petition with the secretary of state's office today, seeking the Republican nomination for state auditor.

THIS CURIOUS WORLD

By William Ferguson

The BLADDERWORT PLANT LIVES PARTLY ON INSECTS, WHICH IT CAPTURES IN TRAP DOORS ATTACHED TO STEMS SUBMERGED IN WATER.

WESTERN TEXAS ONCE HAD A PRAIRIE DOG TOWN 100 MILES WIDE AND 250 MILES LONG! IN AUSTRALIA, POISONOUS SPECIES OF SNAKES FAR OUTNUMBER HARMLESS KINDS.

It is estimated that Texas, at one time, had prairie dog towns covering a total area of 90,000 square miles. Some idea of the number of animals thus represented can be gained by the fact that one square mile of an Arizona prairie dog town contained more than 7,500 burrows.

World Parley Eyes Help for Refugees

By United Press
At the invitation of President Roosevelt, delegates of 27 nations met at Evian, France, today to consider means of opening their borders to destitute refugees, including homeless Jews from Germany and Austria.

Of the 32 nations, 21 were from North and South America, traditional refuge of the oppressed, Germany was not represented, nor was Italy.

Uggs Palestine
Jewish leaders urged the conference to persuade Great Britain to open Palestine to more extensive Jewish settlement in the ancient cradle of their race. Even as the delegates met, however, news was received from Palestine of further grave disorders between Arabs and Jews, so that it seemed unlikely Britain would want to antagonize the Arabs further by admitting more Jews.

Problem of Aiding Refugees
The problem of aiding refugees from war-torn Spain also was before the conference. It was considered almost certain that if the insurgents capture Valencia and then force the capitulation of Barcelona or come to terms with the Catalonians, ending the war, there will be thousands of loyalists attempting to flee abroad.

Rebels Push Ahead
The insurgent drive on Valencia continued its seemingly inevitable course, the nationalist driving steadily down the eastern coast, methodically capturing towns and consolidating for renewed thrusts into the Orient. The undeclared war between Japan and China ended its first year and it was estimated that war so far had cost more than 1,000,000 lives, as well as incalculable destruction.

JAPANESE START ON 3-POINT DRIVE

SHANGHAI, July 6 (AP)—The Japanese, having captured the Yangtze river, opened today a fierce three-point drive to crush the last Chinese resistance in the city of Hankow, the Chinese capital. Japanese airplanes blasted a way for the troops, meeting with little resistance because the best of China's first-line planes had been annihilated in a great aerial battle on Sunday.

Generalissimo Chiang Kai-Shek observed the war's first anniversary with a statement today directed to the Japanese people and obviously designed to bolster Chinese morale and national feeling.

"Do you know that your army has become the most barbarous and most cruel force for destruction in the world?" Chiang asked the Japanese.

ACCUSED NEVADA KILLER TRAPPED

ELKO, Nev., July 6 (AP)—Tony Valdes, 46, shepherd, accused of killing one man, wounding another and firing two shots at a third, was arrested early today while he slept at the Cibola ranch in northern Elko county near the Idaho line.

Sheriff C. A. Harper, Deputy C. O. Whorton and Constable Dick Walker brought Valdes to Elko where District Attorney D. A. Castle was expected to prepare charges accusing Valdes of murder. A telephone call to authorities last night disclosed Valdes' presence at the ranch and ended a three weeks' search that had extended throughout northern Nevada and southern Idaho.

Valdes, according to Sheriff Harper, shot and killed Justice W. H. Stegman, 36, seriously wounded Joseph Aste, 40, and fired two ineffective rifle shots at Barney Monesterio. Neither Aste nor Monesterio could ascribe a motive for the shootings, which occurred June 15. They said they were sawing wood when Valdes suddenly started firing.

Strong Undertone In Copper Buying

NEW YORK, July 6 (AP)—World copper markets maintained a strong undertone today with fair buying continuing at yesterday's advance, here and abroad on consumers' fears that a runaway market may be in the offing.

Other non-ferrous metal markets also were strong. Producers this morning announced a \$3 per ton advance in lead prices, bringing to \$18 per ton the rise since mid-June. The 15-point advance lifted the New York price to 450-55 cents and the East St. Louis price to 470 cents.

Good demand was noted for tin and zinc at the firm levels prevailing yesterday.

Raps Bickering

CANDIDATE DAVIS Wants harmony.

Aspirant Asks Less Jealousy

BOISE, July 6 (Special)—A plea for more harmony and cooperation among state elective officials instead of bickering and jealousy was made today by Charles H. Davis, Boise accountant and Democratic nominee for state auditor.

Davis' plea was embodied in a primary campaign statement.

"What the state needs," said Davis, "is development of an efficient system to prevent payment by the board of examiners of illegal claims by the state and less costly grand jury investigations."

4 TIE FOR LEAD IN BRITISH MEET

SANDWICH, Eng., July 6 (AP)—Four players turned in sub-par rounds over the Royal St. George's course to tie for the early lead today in the British open golf championship.

James Fallon, 25-year-old Scottish internationalist who set the pace yesterday and Monday for 28 qualifiers, moved into a tie for the lead along with Marcel Dallemagne of France after James Adams and Ernest Whitcombe of Britain had made it a two-day affair earlier in the day.

Fallon carded a 34-35-70, two under par, and Dallemagne had 34-34-70.

Adams carded a 33-37-70, two under par, while Whitcombe had 32-35-70 to tie for the early lead.

Veteran Jim Braid of Britain, who is 68 years old, turned in a remarkable 35-35-70. He was two under fours for 14 holes.

The weather was clear and sunny but a stiff southwest wind whipped over the course. One heavy shower dampened a crowd of 3,000 earlier in the day.

Stallion Dispute To High Tribunal

Appeal to the Idaho supreme court will be taken by the Metz Livestock company, Twin Falls, against a \$1,500 judgment of district court, according to a notice of appeal which had been filed today by the firm's attorneys, Chapman and Chapman and Lionel T. Campbell, Tinsley Land company, Layton, who awarded \$1,500 after trial of a suit over a stallion.

The Antarctic region is about 30 degrees colder than the Arctic region.
