BRITAIN, FRANCE BOW TO HITLER

JOHNSTON WILL ENTER MURDER PLEA ON WEDNESDAY

Rayborn and Larson Named as Attorneys To Defend Ex-Mayor

Duncan McD. Johnston, accused of the murder of George L. Olson, Salt Lake City jewelry salesman, last May will enter his plea to the charge next Wednesday at 10 a. m. in district court with Judge J. W. Porter presiding.

Johnston was arraigned before Judge Porter this morning and, after the information charging him with the crime was read to him, took the statutory time before entering plea.

The judge immediately set Wednesday at 10 a. m. as the time the plea would be taken. Judge Porter also named E. L. Rayborn and E. V. Larson, local attorneys, as defense counsel to "represent the defendant (Johnston) in all further proceedings." The two men had been serving as Johnston's counsel at request of the court but without pay since James Holbrook, original defense attorney for Johnston, dropped the case almost immediately after the preliminary was completed.

Handful of Spectators Only a handful of spectators, including William Dunn, attorney for William LaVonde, accused in the preliminary hearing along with Johnston and charged with murder in a joint complaint, but was released by a writ of habeas corpus issued by the supreme court of Idaho, were present when Johnston was brought before the court.

Johnston stood directly in front of Judge Porter as the proceedings set underway. Not once did he smile.

Asked by the judge whether or not he had "any means" to hire an attorney for his defense, Johnston answered "I have no means of employing counsel and I desire the aid of counsel." The two men were then named to defend the former Twin Falls mayor and, when asked if he would accept, Johnston said "yes."

Seven Injured in Pocatello Crash POCATELLO, Ida., Sept. 19 (UP)—Seven persons suffered serious injuries here today as result of a head-on automobile collision last night on the American Falls highway.

The collision happened between a car occupied by Mr. and Mrs. James Smith and their two children, and a car carrying Jessie Williams, James Swallow, Gordon Klotz and Beverly Graveline.

State traffic officer Solon Ellis said he had not been able to question the victims to ascertain who was driving. There were no witnesses to the crash. The injured were thrown from the cars and Miss Williams was pinned beneath one of the vehicles.

She was the most critically hurt, suffering a compound fracture of the skull and serious lacerations.

LOCAL BOY HURT Gordon Klotz, one of the seven persons hurt last night in a head-on smashup on the American Falls highway, is a Twin Falls youth attending the pharmacy school of the University of Idaho Southern.

His father, Mr. and Mrs. H. O. Klotz, reside on a ranch southeast of the city. Mrs. Klotz said today in calling from the hospital to the home that her son was broken.

Young Klotz is in his second year at the southern branch. He worked previously for two years at the Schramm-Johnson pharmacy here.

LDS WITHDRAWS EUROPE ENVOYS SALT LAKE CITY, Sept. 19 (UP)—The Mormon church has withdrawn all its European envoys, it was revealed today.

It is reported that the church's secretary for European missions, stressed that the withdrawal was only temporary and that the missionaries of Germany, Austria and Czechoslovakia will return to their regular posts when conditions become more settled.

It is also stated that church authorities believe the crisis will be settled soon without war. Until they receive the ordinary duties, the Central European missionaries are residing in Holland, Switzerland and the Scandinavian countries, the mission secretary said.

As Chamberlain Posed with Der Fuehrer

ADOLF HITLER — JACOB VON RIBBENTROP NEVILLE CHAMBERLAIN

These three men considered the possibility of plunging Europe into a war that threatened to be greater than the world conflict during the meeting last week at Bessie's garden. Hitler's Bavarian retinue, led today by Ribbentrop, was in London as Chamberlain and Hitler agreed to surrender the Czechoslovakian area of Sudeten to Germany.

Beet Plant will Start on Oct. 10

The Twin Falls plant of the Sugar Beet Company will start processing of sugar beets Monday, Oct. 10, marking the start of a run which is expected to continue for 85 days, it was announced this afternoon by H. A. Elcock, Idaho manager for the company.

Mr. Elcock also announced processing at the factory would start Thursday, Oct. 6 and at the Rupert, Idaho plant on Saturday, Oct. 8. Estimated tons to be processed at the three factories show that yields are good with estimated tonnage for the entire area coming to 13 to the acre, or approximately two more than the average of last year.

During the campaign at the Twin Falls plant, it was pointed out, 270 men will be employed, with 250 working at Rupert and 200 at Idaho. In each case local labor has been hired and all vacancies are being filled, according to Elcock.

Average payroll at the Twin Falls plant during the run will amount to \$23,000 a week or \$135,000 for the duration of the operation this year. At Rupert the payroll for the campaign will amount to \$125,000 and at Idaho, \$125,000. At the same time as making the new record, according to Elcock.

Representing a cross-section from among leaders in Twin Falls, seven women and four men this afternoon voiced optimism emphasizing that the proposed new library building would fill an important need.

The 11 were contacted in an Evening Times survey as representatives of varied portions of the city's population.

Recent election to raise \$27,000 for the \$50,000 structure will be held from 9 a. m. to 7 p. m. Tuesday. Several of the leaders contacted today emphasized that the bonds would be "good business," since the federal public works administration will make an outright grant of \$22,000.

Eligible to vote Tuesday are taxpayers (and wives or husbands of taxpayers) who are on the city's election registration books. Polling places are city hall and the third floor annex of the city hall.

NO WAY SEEN TO GET RELIEF AID

BOISE, Sept. 19 (UP)—Attorney General J. W. Taylor today advised Governor Donnell Clark in a formal opinion that no legal means could be found to augment the state's relief program by appropriations from the federal fund.

Such action, the attorney-general said, could not be had without a special session of the legislature.

Delivery Opens Oct. 3 Deliveries of beets from the various farms to the factories will start on Oct. 3, the case of the Rupert factory and on Oct. 4 to the Twin Falls and Idaho plants. Figures show that yields are good with estimated tonnage for the entire area coming to 13 to the acre, or approximately two more than the average of last year.

SENATOR URGES POWERFUL NAVY ALLEGION MEET

LOS ANGELES, Sept. 19 (UP)—Sen. David I. Walsh advocated an American navy powerful enough to defeat any other in the world and big enough to defend both Atlantic and Pacific shores today in addressing the American Legion national convention.

Walsh's remarks were regarded as carrying added significance because he is chairman of the powerful senate naval affairs committee.

The Massachusetts senator said this big fleet must be backed by a rigid neutrality program entailing even the complete suspension of all trade with any and all belligerents; this despite economic losses.

In a blast against radicalism, he warned that a militant spirit of Americanism must combat "enemies without our gates."

Walsh was keynote speaker at the opening session of the five-day convention that has attracted 130,000 American veterans of the last war at a time when Europe is darkened by fears of a new one. He said "the most striking lesson of the present war spirit is that weakness encourages aggression."

Must Not Be Content "We must not be content," he declared, "until we have an American navy of such size that it may single-handed be a match against any foreign power or combination of powers."

It must be a navy of sufficient size and mobility as to afford adequate protection to both the Atlantic and Pacific seaboard, under any conceivable set of circumstances. Turning to neutrality Walsh declared "we have no preordained mandate to police the rest of the world."

HITLER ACCOMPLISHES GREATEST DIPLOMATIC VICTORY

ITALIANS CHOOSE "THEIR PLACE" IF NAZIS GO TO WAR

ROME, Sept. 19 (AP)—Political commentators declared today that Adolf Hitler of Germany, backed by Premier Benito Mussolini, had accomplished one of his greatest diplomatic victories.

The news that Great Britain and France had decided to capitulate to Hitler's demand for annexation of the Sudeten Germans of Czechoslovakia was received joyously, and part of the credit was given to Mussolini's speech at Trieste yesterday in which he declared that if a general war resulted from the crisis, Italy had already chosen "her place."

Mussolini demanded a plebiscite not only for the Sudeten Germans, but for all the minorities of Czechoslovakia. This caused favorable reactions in Hungary and Poland, both of which would like to annex parts of the Czech republic in which Poles and Hungarians form a majority of the inhabitants. In Budapest, there were demonstrations for revision of the World War peace treaty which gave part of Hungary to Czechoslovakia.

Mussolini, addressing 180,000 cheering men and women yesterday in Unity Square of what was, before the World war, an Austro-Hungarian city, said:

"Concerning the problem which is presently agitating Europe, the solution has one name—plebiscites for all nationalities who are for them, for those nationalities who were forced into what was intended to be a great Czechoslovakia and today reveals its organic inconsistency."

PROBE OPENS IN CCC BOY KILLING

MANMOUTH, Utah, Sept. 19 (AP)—Juab county and U. S. army authorities today were investigating the death of Ross Smith, 20, Ketchikan, Alaska, who was shot and fatally wounded during what officers described as a dance hall fight Saturday night.

Smith died in a Payson hospital yesterday from a wound in his back, which Deputy Sheriff Karl Eager of Juab county said he inflicted in self defense after Smith and two companions attacked him in the fight.

Candidate Ends His 'Don't Vote For Me' Battle

CAMBRIDGE, Mass., Sept. 19 (AP)—His funds exhausted, special officer Thomas H. Leary wound up his "don't vote for me" campaign today without the usual whirlwind tour.

When he found friends had placed him on the ballot as Ward 9 candidate for the Democratic state convention, Leary allotted 25 cents for expenses.

"That is how you," he said, "spent 20 cents to lure boys to throw rotten fruit at a sign some misguided person tacked up in my behalf. The other five cents went for the purchase of a 'babe' machine to frighten babies."

The election is Tuesday.

'Completes First Solo Flight

Mrs. Lisa Molony is shown being congratulated by Lamoine Stevens, local commercial flier, after she made her first solo flight at the local airport. She is the first woman ever to "solo" at the local airport. The 25-year-old mother plans to continue her flying to secure a government license which will permit her to carry passengers. (Evening Times Staff Photo).

AVIATRIX MAKES FIRST FEMININE 'SOLO' HERE

Mrs. Lisa Molony, 25-year-old Twin Falls woman and the mother of a seven-year-old son, today had become the first of her sex ever to make a solo airplane flight at the local airport.

Mrs. Molony, wife of Henry Molony of Twin Falls, made her first flight alone Saturday evening after receiving the required eight hours of instruction. Her instructor was Lamoine Stevens, commercial flier and operator of the Magic City Flying service. Eight hours of dual is required by government regulations before a student is permitted to fly alone.

Few Spectators

Only a handful of spectators was present at the field when Stevens stepped out of the Cub-Sport plane and told Mrs. Molony to "go on alone."

"She's a good flier," Stevens commented after the first woman to solo at Twin Falls had made two successful landings. "And not only that, but she's the first woman I have ever taught to fly and in fact the first one I ever saw solo for the first time. She was ready to solo after only six hours of instruction but government regulations say eight hours and so I had to give her the two extra."

Today Mrs. Molony said that, although she used to like skiing, flying is now "my favorite."

"I plan to continue on with my flying and secure a government pilot's license," she said. "I know of nothing more thrilling than taking a plane up by yourself and knowing that it's all up to you."

In taking a physical examination before her solo flight, Mrs. Molony received a commercial rating from the local examining physician. A commercial rating is the highest which can be given for a pilot's physical.

Sunday, after another round of the field with Stevens, Mrs. Molony made several more solo trips, each being described by Stevens as "perfect."

"I'll never be content to stay on the ground now," she told well-wishers who saw her fly at the airport Sunday.

LDS STORES FOOD SUPPLY AT BOISE

BOISE, Ida., Sept. 19 (AP)—President Heber J. Grant of the LDS church heard yesterday from Boise stake officials that local workers in the church's security program had prepared 25,000 cans of foodstuffs and had stored hundreds of bushels of wheat, beans and potatoes for use during the winter.

President Grant was given the report as he participated in dedication ceremonies for a new third ward chapel on the outskirts of Boise.

In his dedication talk, President Grant told his audience to remain faithful to the teachings of the church, and spoke of his experiences during his youth.

NO INQUEST SET IN GIRL'S DEATH

BOISE, Ida., Sept. 19 (AP)—The sheriff's office said today there would be no investigation into an automobile accident yesterday which took the life of Emma Loveland, 23, of Boise.

Miss Loveland drowned when the car in which she was riding with her brother, Elsworth, 21, and James Beebe, 18, ran off a grade and rolled into the waters of a diversion dam below Arrowrock.

Loveland and Beebe were not injured. They both dived for the car in futile efforts to extricate Miss Loveland's body. Loveland said the steering gear failed as she rounded a moderate turn at low speed.

Opportunity Knocks

One of the oldest of popular axioms is this: "Opportunity knocks but once."

That one knock is reverberating today from the portals of Twin Falls. It is up to a wide-awake and progressive citizenry to see that the echo of opportunity's knock doesn't fade into futile silence.

Quite aside from the inescapable fact that Twin Falls badly needs a separate library building, one other vital fact stands out as taxpayers prepare to go to the polls for the bond election Tuesday. A good and legitimate bargain is always an economy. And Twin Falls can have a \$50,000 library structure for only \$27,500.

Buying Habits Analyzed

Many other interesting, important facts and figures are in this notable study, a great new survey for social scientists, business men and government.

NRA analysis has published the fact that 10 percent of the nation's 29,000,000 families and 10,000,000 single persons, considered as "consumer units," receive less than \$2,000 a year.

Local Duels Decide National Issues

All of this talk about the presidential party "purge" may be turning into something of a bore, but it ought to have one useful by-product; it is emphasizing anew the importance of the various state elections.

Although we do about as much talking about politics as any people alive, we Americans really don't pay a great deal of attention to it. Our four-year presidential contests are gaudy three-ring circuses, and so we give them a lot of our time. But between these elections we have a way of settling back and forgetting about politics, elections, candidates, and all the rest.

Radio Talk Charts Full Library Data

Full details of present library facilities, of the proposed facilities under the bond election which comes Tuesday and of the bond issue itself will be explained at 7:15 p. m. today over the local radio station by J. H. Blandford, chairman of the speakers sub-committee of the Twin Falls library committee.

Those who have their wives or husbands who are on the city's registration books will vote on the \$27,500 bond issue. The PWA will provide the remaining \$22,500 without obligation to Twin Falls.

In this radio talk tonight, Mr. Blandford will outline these facts:

Present Facilities
At the present time there are 17,429 volumes in the public library. During the year beginning June 1, 1937, and ending May 31, 1938, there were 142,834 calls for books, about 20,000 more than in the year ending in May, 1934. Book stacks fill 80 numerous as to leave but little room for those who desire to use the library. New books are constantly coming in and there are an increasing number of more shelves and more study room.

Not only are the present quarters inadequate, but the downtown location, with its long and steep stairway, makes the library inaccessible to some children and elderly people. Those who drive cars find it almost impossible to park them near the present library.

Proposed Facilities
The proposed new library building will be located on a lot east of the city park for years owned by the city of Twin Falls and maintained in the city of Twin Falls. The lot is at the corner of the east and second streets.

The proposed building will be of brick construction and approximately 80 feet long and 70 feet wide. It will have a children's reading room, an adult reading room and a debate room where students can engage in discussion or debate. The lighting equipment will be of latest approved design.

The drawing submitted by the architects, Morse, McQuaker and Lash, presents a beautiful exterior, which, when landscaped, will be a scenic attraction in this city.

The Bond Issue

"The proposed new building will cost \$30,000. Sen. J. P. Pope has definitely informed Mr. Emmett Hood, library committee chairman, that public works officials and President Roosevelt have formally approved a grant in the amount of \$27,500 to Twin Falls for the building. It will be necessary for this city to raise \$2,500 per cent of the total cost, or \$27,500.

The money will have to be raised by the issuance and sale of bonds. On Sept. 20 a special election will be held for the purpose of determining whether bonds in the amount of \$27,500 shall be issued and sold.

Only Slight Increase
If the bonds are authorized by the voters, taxes will be increased one mill each year during a period of six years, beginning in 1940. It will amount to 50c for each \$500 of assessed valuation. Other wards, if your assessed valuation is \$2,500 and you pay a tax of about \$100 per year, you will pay about \$102.50 per year if the bond election carries.

The upkeep of the new building will be approximately the same as the cost of the present quarters, or \$1,500 per year. Remember the date of the election—Tuesday, Sept. 20. Anyone desiring transportation may call 1252 or 1280. The polls will be open from 9 o'clock in the morning to 7 o'clock in the evening. All taxpayers residing in the city of Twin Falls, who have registered, are entitled to vote.

GRAPES

We are expecting the first truck load of those good ripe Concord from Emmett Sept. 20. Last year we sold nearly 1000 lugs. Expect to double that amount this year. Will have our Italian prunes for you six days after a good frost. Then they'll be good.

Redskins Held To 16-16 Tie

By United Press

The National League football season was only 10 days old and the already the world champion Washington Redskins appeared endangered.

The Redskins, without the services of Sam Baugh, were held to a 16-16 tie yesterday by the Brooklyn Dodgers. The Dodgers appeared much less powerful than several other title contenders. Washington was lucky to get a tie as Brooklyn was leading 10-13 with eight seconds to play when Doc Mastersen booted a 15-yard field goal to tie the score.

Able Substitute

Washington uncovered an able substitute for Baugh, however, in Bill Hartman, a University of Georgia product, who completed seven consecutive passes to give the Redskins two touchdowns in the second period. Baugh, who dislocated his right shoulder in Washington's opening game with Philadelphia last Sunday, probably will be on the sidelines this week when the Redskins play the New York Giants, turnup for the eastern division title last year.

The tie featured a week-end of the tightest games in the league's history and gave evidence of a hot fight in both divisions.

Bears Edge Packers

The western champion Chicago Bears nocked out the powerful Green Bay Packers, 2-0, with a last period safety. This gave the Bears their second straight victory and undoubted lead of the division.

Chicago's Cardinals, who dropped their opener to the Bears, scored a 20-14 victory over the Cleveland Rams, 7-6, in the other game, played Saturday night.

This week's schedule: Friday—Pittsburgh at Brooklyn; Sunday—New York at Philadelphia, Cleveland at Washington, Chicago (Cardinals) vs. Green Bay at Milwaukee.

3 MALAGA MEN SAW PLANE FALL

MANILA, P. I., Sept. 18 (UP)—Four authorities here today said they had received reports that three Malaga men had witnessed the actual sinking of the Hawaii Clipper, Pan-American Airways' trans-oceanic plane which vanished east of Manila July 28.

Officials of the Pan-American Airways were skeptical of the report and said they would not investigate until more definite information was received.

Provincial correspondents of the Manila newspaper reported the finding of "50 additional fishermen" to the crash, several of whom believed they would be able to locate almost the exact spot where they saw the ship fall.

The fishermen were quoted as agreeing that the crash raised a huge water spray followed by a cloud of thick black smoke. They said they tried to go to the scene immediately but were prevented from doing so by a strong westerly monsoon that was blowing up.

Lodge Starts on Ice Rink Site

SUN VALLEY, Sept. 18 (Special)—Work toward construction of a permanent ice skating site for this mountain resort was underway today.

The two hard-surfaced tennis courts are being torn up to make way for the skating pond. The tennis courts were erected on the former site of the rink, but the hard-surfaced courts have not proved highly satisfactory and lodge officials have ordered work on a new site.

Several clay courts on another location near the lodge and Challenger Inn.

NEGR0 WINN BET. LONES LIFE

OKLAHOMA, Okla. (UP)—William Stunley, a 32-year-old Negro, won a bet, but didn't like to brag about it. He said he had bet on the fact that he could drink a quart of gin at one sitting. He did it, but he died the next morning of acute alcoholism.

Three drums went to Yakima, Washington. I don't believe so many people anywhere doubt the quality of the ARKANSAS material. It is so pure and clear that you can stand in a barrel of it and count your toenails at the bottom of the barrel. It actually removes and will penetrate into the pores of your bearings and even though you wipe the bearing perfectly dry the outside, you could start your machinery up and it would throw enough oil out of the pores of the bearing to lubricate it for a while. While even conventional types of oil that cost as much as \$30 a quart will not penetrate into the bearing, it will also remove the dirt and grime that is added and even then it will not stand up under excessive heat. So we feel that we have been mighty lucky to have this wonderful material that we can sell at reasonable prices and satisfy about 99% of our customers.

Here's some more. The 2nd or 3rd of Sept. 10:30 to 10:30 P. M. Claude Pratt expects to put on a program over KCTV. This is the same night that Harry Magraw has the ARKANSAS program which it is a later hour. We're not going to try to imitate Harry Magraw because there is nothing in it. It is just a knock-out to my machine to keep it from rattling out. Well, getting back to the program, Claude Pratt has some more of the ARKANSAS material. It is a later hour. "Unknown" Beet

Laborers Given Help on Wages

Last year's sugar beet "toppers" whose names were turned in as "unknown" on the ranchers' application for payment may now take action here to speed up their bonus, the local AAA office announced this afternoon.

Headquarters at 119 Third street east is now equipped to take care of the "unknowns," and laborers were requested to contact the AAA office at once to sign a special form prepared at Washington.

Many of the workers were listed as "unknown" it was explained, because ranchers frequently negotiated only one man in securing the labor. That man secured the rest of the labor, but the ranchers were unaware of the workers' identities.

The Parent-Teacher associations of Twin Falls have recognized for years the fact that the school children in town are so vitally interested are not being adequately served by the present library facilities. The competent library staff is continuing remarkable service, but in overcrowded quarters.

Mrs. William Wolter, chairman of the P. T. A. council, said: "To have a new library building under these conditions is an opportunity that should be taken advantage of by the people of this progressive community."

Speaking as an individual member of the Parent-Teacher organization, Mrs. E. J. Wolter, state president, and present state public library chairman, stated:

"In my opinion a new library building is badly needed. It is needed in the city for the sake of our children."

Important Factor
What an important factor in the life of the community of this type is emphasized by Mrs. Sturgeon McCoy, for 30 years a resident of Twin Falls, in organizing the women's division of the citizens' library campaign:

"Of the 166 boys and girls who were graduated from our high school last year, less than 20 percent are having the opportunity to continue their education in higher education. This is a tragedy."

Men Voice Opinions
Four Twin Falls men, representatives of the various groups of the community, also voiced their opinions as to why the city should have an adequate library.

Rev. Mark C. Greenberger, president of the Ministerial association, speaking as an individual, said:

"Churches, schools and libraries represent the spirit of our community. A society interested in the greatest possible development of individuals will provide the very best facilities for culture, as well as spiritual advancement."

"Twin Falls certainly has a definite challenge in the issue that is before the people for the creation of a suitable library building. Regarding the cost, it will be cheaper than paying for delinquency and the investment will pay dividends to the community."

"A new library building will be a forward step in keeping with our new schools and other civic improvements. It will lend a new civic pride and sense of civic pride that is indispensable in any community with the high type of citizens that live in Twin Falls," Rev. Greenberger said.

Dr. H. J. Stowe, secretary of the Twin Falls county hospital staff, expressed a similar opinion.

"I am most decidedly for an adequate library building," Dr. Stowe said, and he believes that local citizens should take advantage of this opportunity to secure such a library building at such a small cost.

"It is a community credit which nearly everyone uses, at one time or another, and for this if no other reason it should be having and adequate," he said. "It is a very easy step for community advancement."

At the same time Leonard Avard, city commissioner in Jerome county, has formally filed its application for a public works administration grant of \$50,000 according to word received here today from C. H. Hocking, Portland, regional administrator.

The application was sent by Ray Looney, chairman of the board of the new building, as previously announced in the Evening Times, with the understanding that the city of Twin Falls would provide about \$11,000 from bonds already voted.

BEET PLANT WILL

START OCT. 10TH

(From Page One)
announcement of when the three plants would start operations, Mr. Elock pointed out that the AAA in a recent announcement, set the 1939 sugar beet acreage allocation for the United States at 1,000,000 tons. This, he pointed out, would be an increase over this year's planting of only 360,000 tons. This will mean, under the present setup, a 200 percent increase in this section will be about the same next year as it was this year.

The 1939 year period (1927-38) saw an average tonnage for Idaho of 484,000 in sugar beets. In 1937 it increased to 515,000 tons and this year the estimated tonnage for the state is 936,000.

"This means that during the last three years the increase has been about 200,000 tons a year, due to the development of the resistant curly top beet," Elock said. "Present indications point out that another large increase will be demanded for next year because of the extremely low prices of other agricultural commodities."

"However, because of the new beet allotment, no large increase can be expected and officials of the beet growers associations are anticipating a battle to keep as high an acreage as was had this year," Elock said.

BURLEY AND PAUL
BURLEY, Sept. 19 (Special)—The full campaign of the amalgamated Sugar company factory in Burley will start Oct. 6 according to R. O. Hatch, manager. They will select 25,000 tons of sugar beets, employ 210 men in the mill, with 60 men receiving on beet dumps.

At Paul, the factory begins humming Oct. 5, clearing 107,000 tons of sugar beets. In the mill there 205 men are employed.

These Children Have Pledged Themselves to Safety! Have You?

Above is pictured the Twin Falls Junior High School Safety Patrol. These young citizens have pledged themselves to the safety of their schoolmates and each noon and afternoon patrol the streets adjacent to the school in an effort to prevent traffic accidents involving the children coming to and from school.

You can aid them in their fight for safety by observing the rules in force in

the vicinity of our schools . . . not only at the high school block but at every block in which there is a school.

And to further the cause of safety, sign a safety pledge and receive a safety sticker which you can paste on your car . . . a constant reminder to your self and your companions that you have pledged yourself to drive safely at all times . . . under all conditions.

Remember, that you may lose a minute

by driving carefully at a reasonable speed . . . but you will accomplish something that is truly important . . . you may save a life. Isn't that worthwhile? Sign YOUR safety pledge today!
