

ECONOMY-TAXATION-SPENDING FIGHT LOOMS FOR CONGRESS

FDR ALLOCATION POSSIBILITIES IN 1939 SEEN SLIM

By LYLE C. WILSON

WASHINGTON, Oct. 5 (Special)—The New Deal administration appeared today to be on the way toward a new fiscal year spending record as congressional committee discussions of budget and probably futile economy plans.

A bitter economy-taxation-spending battle is brewing for the 75th congress which will be elected next month and meet the first week of January in 1939. But with three months to go before the congress meets there is but slight prospect that major cuts in expenditures will be imposed by congress on the administration.

Much more probable is that the conservative Democrats who were offended or directly affected by the 1938 primary "purge" effort will join conservative Republicans in an effort to earmark future appropriations, perhaps reduce them slightly.

No Allocation
One of the top senate Democrats whose influence is considerable, told the United Press:

"I don't think congress will vote the President another great sum of money to be spent by his allocation by allotment of WPA or PWA authorities."

The idea behind the statement is that congress should reassert its authority over all federal spending. It does not necessarily signify that the federal government would spend less for relief or public works. Rather, it means that there is a growing bloc in congress which would prefer to vote for such appropriations in bills which specify where, when and for what the money would be expended.

Less Political Dynamic
The actual voting of federal economy measures will be done reluctantly, if at all, as in the case of new taxes. But even income tax increases on middle and lower income groups would carry less political dynamism than a cut in the source of income of the millions of persons who now are supported in whole or in part by federal funds.

The economy group, however, will be loud if small and it will make its figures well reflected in steadily mounting national debt. The debt figure now is well over \$38,000,000,000.

LAST HONOR PAID JEROME PIONEER

JEROME, Oct. 5 (Special)—Largely attended funeral services were conducted from the Jerome funeral chapel Monday afternoon for Steven Jerome, 68, one of Jerome's first pioneers, who died Friday noon at his home from a second stroke of paralysis. There were many tributes from friends indicating the high esteem in which he was held. The Woodmen of the World, of which he was a member, attended services in a body.

The Rev. Albert E. Martin, pastor of the Methodist church officiated and eulogies were Harold B. Roberts, James Davis, Richard Lee, and Sam Otto. Ruth Giesler accompanied at the piano. Songs were "Auld Lang Syne" and "A Gold Mine In The Sky."

Funeral services were held at 10 a. m. at the Jerome cemetery. Burial was in Jerome cemetery under the direction of the Jerome funeral chapel.

Mr. Robertson had been a resident of Jerome since August, 1909, and came here to make his home from the Nez Perce prairie country. He had been an employee of the North Star Canal company for 28 years and had served that organization continuously up until last May when he suffered a stroke. He was born in Ontario, Canada, March 17, 1870. He leaves his wife, Mrs. Anna Robertson, Jerome, and two sons, Kenneth Jerome, and Marvin S. Robertson of Boise. A grandson, Stuart, also of Boise, survives.

Archery Contest Plans Completed

Three Day Celebration Marks 50th Anniversary

RUPERT, Oct. 5 (Special)—Monday marked the close of a three-day celebration of the golden wedding anniversary of Mr. and Mrs. Henry Catmull, prominent Rupert citizens who were married Oct. 3, 1888, in the L. D. S. temple at Logan, Utah.

Saturday they were honor guests at a reception by their son and his wife, Mr. and Mrs. George Catmull in their new home.

Colorful Flowers
Baskets and vases of colorful asters and other autumn flowers provided decoration for the living room. Dainty pink roses in crystal vases centered the refreshment tables in the dining room and formed the corsage and the boutonniere of the bride and bridegroom of 50 years.

Nearly 100 friends called during the afternoon and evening to express their good wishes and congratulations to the honored couple.

Sunday Mr. and Mrs. Catmull were host and hostess in their own home to a company of 57 for dinner. They were assisted in entertaining by their eight children: Albert of Burley; Alma of Pocatello; Mrs. Zella Humphreys, George, Reed and Fred.

Mr. Catmull is a graduate of the University of Utah at Salt Lake City. Other guests were their 23 grandchildren and one great-grandchild; Mrs. Catmull, two brothers and her sister and their married sons and daughters and their families from Idaho Falls.

Friends Call
Monday was spent quietly with the immediate members of the family and calls from intimate friends. The out of town sons left for their homes that afternoon.

Mr. Catmull was born March 30, 1857, at Gravelly, Cambridgeport, England. At the age of ten, with his eight brothers and sisters and his parents, he came to America and settled in the Benson ward on 2nd street near Logan, Utah.

In 1882 he went to Idaho Falls, then known as Eagle Rock, a small village in the midst of Indians among whom, because of his musical ability, Mr. Catmull became very popular. He helped widen from narrow to standard gauge the Utah and Northern railroad that then entered Idaho Falls. He later engaged in the mercantile business and after his marriage to Mrs. Mary Eliza Brunt established a home there.

Move to Rupert
After his business was destroyed by fire twice in a single year, the Catmulls came to Rupert early in 1905 and purchased the realignment to a home land which they improved and made into one of the beauty spots of the project. Often they had to sit up nights to keep the hordes of rabbits from destroying the young fruit trees they had planted and to which they hauled water until the irrigation system was installed.

Mr. Catmull built and operated the first mercantile institution in Rupert. It was a one story frame building on the site now occupied by the Wall and Rawlings grocery. During the process of construction a violent hurricane laid it flat. Mr. Catmull was instrumental in replacing the old town hand pump with one operated by a gasoline engine.

Poetry Hobby
Mr. Catmull's hobby or avocation is poetry. His own verses, many of which appear in the school and town paper, reveal his strong personality.

When the L. D. S. church was established here Mr. Catmull was chosen as the first Bishop and has served in some official capacity ever since. He is at present Stake Patriarch.

Twenty years ago, with his family he moved from the farm to a home in town. For the past 18 years he has been head janitor of Lincoln and high school buildings. Mrs. Catmull, whose aim is character building, is a quiet, home-loving woman. In addition to her home duties, Mrs. Catmull takes an active part in all church activities. She is at present a member of the Stake Relief Society, holds various positions of honor and trust.

The oldest of a family of six children, she was born in Kalamazoo, Michigan. When but nine years of age she came to the United States with her parents and brothers and sisters. They docked at San Francisco and later made their way to northern Utah where they lived several years, then went to New Zealand. for Stopped-Up NOSTRILS

WHY try to open stuffy nostrils by blowing into your handkerchief until your nose is red? Simply insert a little Mentholum into each nostril. Note how effectively, yet gently, it relieves the stuffiness and soothes irritated membranes. Instead of being a "blowhard" use Mentholum. It's the clean, gentle way to open stopped-up nostrils due to colds.

WITH THE Gentleman in the Third Row
NOW, MR. BANK, PONDER WHAT YOU'VE DONE!

Coming Down to Earth
Why haven't we had this housing boom that everybody has been looking for during the last half dozen years?

If we could talk ourselves into it we would have had it, long since. The subject has been given enough columns of type to reach from here to the moon.
We have discussed pre-fabricated houses, mass production building methods, resettlement projects, slum clearance schemes, and cheaper financing until everyone concerned ought to be blue in the face.

There is no use denying that Mr. Average Citizen is just a wee bit gun-shy on this matter of home building. He has lived through home building booms in the past, and he has confused but lively memories of high financing costs, high building costs, and a completed product which sometimes didn't quite seem to be worth all the expense.

Life Magazine performed an excellent service recently by devoting some 23 pages to the job of bringing the average citizen to this realization.
The magazine remarks that financing a home is just as easier and cheaper now than ever before.

By way of demonstration, the magazine prints pictures and plans for the homes that men in different income groups can buy.

A campaign based on this point might well actually give us this building boom we have been waiting for so long.
Simple Pleasures
Speaking of fun in the home:
An inventor in Cleveland, O., has just come through with drinking cups made in the likeness of moving picture stars.

That political house of cards that you hear the Versailles treaty built on the continent seems to have been constructed entirely of jokers.

A Yale astronomer says he suspects the world's getting fat around the middle. And he might have added it's also getting circles under its eyes these days.
Consider the poor movie stien who just couldn't get away from her work—even on vacation she found herself willing away her time.

There's a boy in Europe who has won a philosophy degree at the age of 14. But then, in these times, they all get pretty philosophical at an early age over there.

A cow town had a male beauty contest the other day, but cheer up, girls: there's a still plenty of rugged scenery around.

The Czechs have discovered by now that sanctions speak louder than words but that nobody ever asks them to say anything.

THEY sat there in the little cubby-hole of an office—Pat and Bill—while the day drew to a close. The boy's words had shaken Pat more than he realized.

She pressed her hands against her throbbing temples and twisted around in her desk chair.
"You must promise not to do it, Bill. You can't do it. If Larry is innocent he can prove it without putting you on the stand to lie for him. If he is guilty—"

WHY FALSE TEETH-WEARERS HAVE Bad Breath

You can't notice any odor from your plate or bridge—but others can! Dentists call this odor "denture breath" and it's serious. It comes from a mucin-scum that collects on plates and bridges. This scum is almost invisible—but it can make your breath so bad that friends shudder. It can breed decay-bacteria that infect your other teeth, actually hurt your health and spoil your pleasure.

Ordinary brushing cannot get it away as practical. Dentists use a special "denture brush" but just try Polident! Polident not only cleans—it actually purifies plates and bridges without brushing. It gets every bit of scum, tartar, stain and odor dissolved away and leaves your plate sweet and clean as new.

Your breath will be fresher, your mouth feel cleaner—and your plate last longer and look better. Polident is approved by dental authorities. Good Housekeeping and tens of thousands of users. Long-lasting can cost only 30¢ at any drug store.

POLIDENT
Cleans, Purifies Like Magic

Put plate or bridge in 2 glasses of water. Add 1 little Polident powder. Stir. Leave in 10 to 15 minutes. Rinse. It's sweet and pure. Use—ready to use!
