## ITALY DECREES SWEEPING RACIAL PROGRAM

### ROOSEVELT WILL CONSIDER MEANS TO COMBAT SPIES

HYDE PARK, N. Y., Oct. 7 (AP)—President Roosevelt said today that he is concerned over the activities of foreign spies in America and is studying means of combating them.

The chief executive told newspapermen that he talked over the spy situation this week with Lamar Harbo, United States district attorney for New York.

Mr. Roosevelt said that foreign agents' activities presented a national problem without question. He stated that the government's objective was to separate the activities by foreign governments within our borders—propaganda and military and naval.

He observed that present federal machinery for rooting out the spy evil was not compact enough and indicated that the study pointed to the creation of a special agency to tackle the problem.

He observed that present federal machinery for rooting out the spy evil was not compact enough and indicated that the study pointed to the creation of a special agency to tackle the problem.

**In Larger Scale**

In response to questions at his regular Friday press conference, the president declared that spying in this country is being conducted on a much larger scale than it was 10 years ago, with activities of the foreign agents concentrated on the military and naval establishments.

At present spy cases are handled by the federal bureau of investigation, the navy and navy intelligence and some units of the treasury and state department.

### Buddy Badly Bumped

"You poor darling," said Mary Pickford to hubby Charles (Buddy) Rogers when she awoke at the Columbus, O., hospital where the former movie star and band leader was taken after his car overturned. Buddy suffered only torn shoulder ligaments, but his no-nonsense wife, one-time "America's sweetheart," flew from New York to his bedside.

### Wallace Outlines Drastic Changes in Personnel of Agriculture Department

WASHINGTON, Oct. 7 (AP)—Secretary Wallace, in the most drastic "shakeup" of agriculture department personnel in a quarter century, sent new executives to key positions today in a reorganization move to coordinate the New Deal's farm program.

Resorting to direct action from farm surpluses and declining prices, Wallace reorganized the administrative agencies of his department to coordinate the marketing and production control features of President Roosevelt's farm program.

Most important of the shifts was the transfer of H. R. Tolley, agricultural adjustment administration chief, to head the expanded bureau of agricultural economics.

**General Planning**

Tolley will supervise all general planning for acreage adjustment, conservation and marketing. He will direct the flood control work, the general adjustment administration control, tenancy and rehabilitation programs of the department.

A. G. Hinch, previously chief of the bureau of agricultural economics, was made director of marketing and regulatory work, an agency to coordinate the Federal Surplus Commodities Corporation, agricultural adjustment administration, agricultural marketing agreements, the sugar act and the commodity exchange act.

**Shifts in Personnel**

The re-assignments in executive branches of the department will include changes in personnel and responsibilities in thousands of minor agriculture department offices in Washington and other sections of the country.

Officials said the reassignment of administration and planning agencies would result in no immediate changes in application of the farm program.

Wallace announced the changes at a week's tour of southwestern and midwestern states in which he personally obtained farmer reaction to the 1938 agriculture program.

**MINE EXPLORATION**

LONDON, Oct. 7 (AP)—Exchange Telegraph dispatches from Tokyo reported today that 37 had been killed and 29 injured in a coal mine explosion of Yubark, and that 120 miners were trapped 7,000 feet below the surface and their plight seemed hopeless.

### STRIKERS CLOSE PLYMOUTH PLANT IN NEW PROTEST

DETROIT, Oct. 7 (AP)—One automobile plant was closed today, another was reopened after a one-day shutdown and a third was faced with a strike threat as production on 1939 models reached full swing.

The Plymouth plant of the Chrysler corporation shut after members of the United States Automobile Workers' Union refused to return to work on the 8 a. m. shift. Union officials insisted they were not striking but merely were protesting against working more than 32 hours.

**Wheels Turn Again**

Wheels were turning again at the Fisher Body and Pontiac plants at Pontiac after a shut-down yesterday. The General Motors corporation prepared to call a strike vote tomorrow unless the company scales seniority and other grievances.

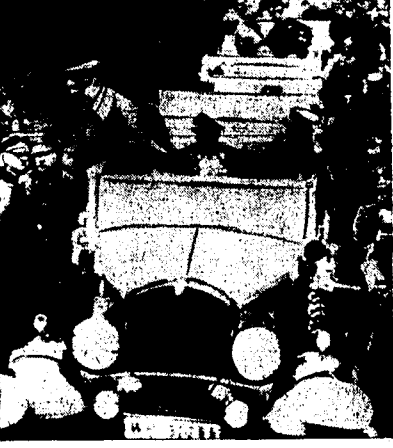

**32 Hours Per Week**

C. G. Eichen, chief UAW shop steward at the Plymouth plant, said the men would return to work today would return to their jobs Monday. He said the workers were being urged by their contract with the company by not working more than 32 hours a week. The plant does not operate on Saturdays.

Union officials said the attempt to increase the number of workmen at the Plymouth factory by holding the 32-hour limit was to prevent unionists from losing their seniority.

Workers who have been laid off for more than a year lost their seniority. In another month the seniority of many men would be cancelled, a union spokesman said.

### Heil the Conquering Hero

This picture was flown to London and returned to New York.

### New Order Bans Marriages with Non-Aryan Race

By STEWART BROWN

ROME, Oct. 7 (AP)—Italy's 43,000,000 people were presented today with a sweeping racial program affecting not only Jews but Italian gentiles.

It was announced that the Fascist grand council, in addition to approving a severe program for dealing with Jews:—

1. Banned marriages between pure Italians and "non-aryans," defined as "peoples of Semitic, Hamitic, Negro and other non-aryan races."
2. Forbade state employees to marry foreigners, even if the foreigners are "aryans."
3. Prescribed that marriages between Italians and non-Italians, even the non-Italians are "aryans," must be approved in advance by the government.

The severe Jewish program was expected. For Italy's 70,000 Jews, the council approved a full program including definition of what constituted a Jew and a conditional offer of Ethiopian immigration for Jews. The condition was that "international Jewry" refrain from showing an "unfriendly" attitude toward Fascism.

The council also set a basis for its race program first defined what constituted a Jew:

1. A person both of whose parents were Jews.
2. A person born of a Jewish father and a mother who was of foreign nationality.
3. A person who was born of a mixed marriage and who professes the Hebrew religion.

It was specified that a person born of a mixed marriage who had professed another religion than Judaism before October 1, 1937, should not be considered a Jew.

Persons excluded from the order that certain Jews must leave Italy within six months:

1. Foreign Jews who are married to Italians.
2. Persons who are married to Italian Jews.

Next it exempted from anti-Jewish laws:

1. Are children of fathers killed in the First World War, Ethiopian or Spanish civil wars.
2. Are members of families of men who volunteered for service in the war named.
3. Are children of soldiers decorated for bravery in the war named.
4. Are children of persons killed in the First World War, Ethiopian or Spanish civil wars.
5. Are children of mutilated invalids of the Fascist revolution.
6. Are children of Fascists whose names are on the list of names in the order before 1922 or who took part in the Gabriele d'Annunzio expedition to Fiume after the war.

Persons excluded from the order which merit exceptional consideration, the merit to be established by a special commission:

1. Can't become Fascists.
2. Can't become party members.
3. Can't become owners or (Continued on Page 2, Column 1)

### PHILLIPS LEAVES CORNER'S RACE

Stanley C. Phillips, who won the Democratic nomination for Twin Falls county corner with opposition in the Aug. 9 primary, dropped out of the race for that office today and urged support of Dr. A. A. Boston for the post.

Mr. Phillips announced that he has resigned the nomination in favor of Dr. Boston and has asked his friends to support him in the November election.

Dr. Boston, a physician and surgeon, is expected to be appointed as the Bourbon candidate by the Twin Falls county central committee, according to Thomas A. Heberston, secretary. In event of withdrawal of a nominee or failure to nominate for any post, the central committee will fill the vacancy on the party ticket.

Formal action to name Dr. Boston as Democratic nominee for corner was probably taken at the first of next week, it was indicated this afternoon.

Mr. Phillips did not explain his withdrawal from the race, but stated, stating merely that he does not wish to make the race and that "Dr. Boston is very highly qualified for the post."

### State Ends Life of Machine Gun Slayer

By JACK E. HELBERT

JEFFERSON CITY, Mo., Oct. 7 (AP)—Adam Richetti, a professional killer, who, with leveled machine gun, helped to mow down five men in the Kansas City Union station massacre of 1933, died in the lethal chamber today, murmuring: "What did I do to deserve this?"

Richetti was one of the most vicious criminals of his generation, one of the last survivors of the killing kidnapers and bandits all but exterminated by G-Men and other authorities.

A few minutes after midnight he was led into the lethal chamber of the Missouri state penitentiary, and strapped to the chair. He blubbered, declared his innocence. He watched many men die, some from his blazing machine gun, others—these included his own white chief, Pretty Boy Floyd—by the bullets of sheriffs and G-men which missed him, but he did not die readily. As the door closed on him, he screamed, and through the observation window, witnesses saw him screaming and wringing in the chair. A few seconds later, a gas pipe near beneath and choked his life out.

**Notorious 10 Years**

Richetti died at 29 and had been a criminal notorious in the south-west for some 10 years. He had not kept national notoriety until he teamed up with "Pretty Boy" Miller. The pair, known as "The Killer from the Cooks' hills" of Oklahoma, who, despite his degradation, was leading a charmed life.

In 1923, the pair, known as "The Killer from the Cooks' hills" of Oklahoma, who, despite his degradation, was leading a charmed life.

Miller was arrested in Hot Springs, Ark., by federal agents and was taken to Kansas City by train.

Richetti fled to France and was arrested by French agents and returned to the United States by the Kansas City Union terminal, where they were met by a blaze of machine gun fire. The train was captured. Not only did they kill Nasha four guards, but Nasha.

**Gangster Vengeance**

Miller a year later was killed by gangster associates near Detroit, and two years later, Pretty Boy and Richetti were trapped by G-men near Belleville, O. Pretty Boy was killed and Richetti was captured. Richetti insisted he was innocent of any participation in the massacre, but the state prosecutor charged that he had been in Kansas City and was convicted.

### Did Famous Film Beauty Visit Here?

Was it or wasn't it Dolores Del Rio who spent the night in Twin Falls?

If it wasn't, then you'd have to develop a lot of convincing reasons to a lot of affirmative answers put up by local persons today.

"The woman in question, along with her husband, registered at the Roosevelt Hotel last night as Mr. and Mrs. Gardella, Los Angeles. They left this morning, driving a 'big gray' with a California license," according to local persons in the know.

A similar story was gathered by the presence of talking with the young woman for several minutes when she dropped in to make a purchase, the fountain girls expressed a similar opinion as to the "beautiful" girl's identity.

At no time, it was learned, did the visitor say anything concerning her name—least, least her screen name—but those who saw her and who didn't have to say a word concerning the number, because if she wasn't the screen beauty then she could easily get a job filling in for her should the star become ill or get too tired to work.

Hollywood was written all over her," one person who saw her said. (Continued on Page 2, Column 1)

### 33 RESCUED AS CRAFT EXPLODES

PORT EVERGLADES, Fla., Oct. 7 (AP)—The O. M. Bernuth of the Florida Everglades today needed for Fort Everglades today for 33 stamen rescued from another tanker, the E. J. Bullock, which exploded and sank 23 miles east of Dry Tortugas yesterday with a probable loss of three lives.

The coast guard here expected to meet the O. M. Bernuth off Port Everglades and take off the survivors.

"If that wasn't the movie star then I've never been to a movie."

A similar story was gathered by the presence of talking with the young woman for several minutes when she dropped in to make a purchase, the fountain girls expressed a similar opinion as to the "beautiful" girl's identity.

At no time, it was learned, did the visitor say anything concerning her name—least, least her screen name—but those who saw her and who didn't have to say a word concerning the number, because if she wasn't the screen beauty then she could easily get a job filling in for her should the star become ill or get too tired to work.

JERUSALEM, Oct. 7 (AP)—The death of 60 Arab rebels in a fierce, six-hour battle with British and British military airplanes today raised Arabian casualties to almost 200 in 24 hours of fighting throughout Palestine.

The possible battle, near Amman, resulted when the Arabs ambushed a Jewish convoy of auto trucks. Two Arab drivers were killed, one was wounded and one was missing. Police charged the raiders and killed 10 of them.

Palestine reinforcements and the fliers arrived a little later, pursued the Arabs and killed 50 more.

British military headquarters reported today that the bodies of 60 Arab rebels were slain today, although elsewhere they said two Arab drivers were killed, one was wounded and one was missing.

A Jewish special constable was wounded. The troops were in pitched battle with rebels in the northern districts and reported that they had killed approximately 130 Arabs yesterday, and that the Arabs' total losses in the past two weeks were 880 dead. ### IT'S A LONG LONG TRAIL—Colorado Pair, with Man Pulling Cart, Plods Eastward on Home Lap of 5,000 Mile Journey

It's a long, long trail—and it does plenty of winding. You're probably seeing a cart that sometimes weighs as high as 800 pounds.

That, in a nut-shell, is the story of "Tommy" and "Betty" Hazelton that tracked into Twin Falls last night and fringed out again today. Big wife, 28, and November, man, 40, are extra bargain hunters. And all their worldly possessions are piled under canvas in the big two-wheeled cart. Hazelton alternately pulls and pushes.

When they walked into Twin Falls along the truck lane at 6 p. m. yesterday, they had covered approximately 3,000 miles since last December. They've been at it through winter blazes, mid-zero temperatures, spring rains and during the worst and pulled it behind the truck.

Several Twin Falls residents glimpsed the pair last Monday on the highway. They had a cart and the grade didn't bother the 190-pound husband.

"I came up that grade on light feet," Betty Hazelton said.

Hazelton said he and his wife started the long walking journey which will take them over 5,000 miles before they stop because he had no steady job.

"I'm looking for work," he said. "I've done farm work most of my life. He asked that he didn't think he could do any picking because he broke his back in 1925 while working on a lumber yard. The man thought he had a job in Kansas City and now has a flogging job."

"This cart is our home," his wife said.

### GREEN ASKS END OF UNION STRIFE

CONVENTION HALL, HOUSTON, Oct. 7 (AP)—President William Green today called the American Federation of Labor's powerful executive committee to meet at least once a week in the next session tomorrow to consider a surprise and bluntly-worded demand that new peace talks be initiated with the unions for industrial organization and that the dispute be mediated by outside forces, if necessary.

The demand was made by Dan Tobin, president of the Teamsters. He called on his colleagues to "set an example for the labor movement, personal pride, ambitions and hopes," in the interest of saving the warping force of labor into a united front.

At the same time, it was revealed that President Roosevelt was approached by the American Federation of Labor's executive committee, last March with a proposal that the White House intervene in the dispute. These talks were in progress and Mr. Roosevelt refused to step into the situation.

### Farm Product HELD

WASHINGTON, Oct. 7 (AP)—The interstate commerce commission was called upon today to decide whether the bodies of "downers" held in stockpiles, wearing only a pair of stockings, was held in the city today.

The Idaho public utilities commission contends that it is only a five instead of a ten per cent freight rate increase.

Representatives of class 1 railroads asked for the 100 today, however, to subject honey to a ten per cent increase because it competes with canned goods.

Miss Murphy told him she had been a "light" woman and was trying to escape. He said her face was badly bruised but that no man had been seen with her.

# RETURNS AND HOPE FADES FOR SPECIAL LEGISLATURE

## GOSSETT FAILED TO RECEIVE DATA ON NEW SESSION

BOISE, Ida., Oct. 7 (Special)—Executive control of Idaho passed from Lieut. Gov. Charles Gossett back to Gov. Bardill Clark today and with it, hope that a special session of the legislature would be called to consider additional relet appropriations.

Governor Clark returned early today from his Maine potato picking and a subsequent tour of the east—"there was no official business transacted," he said. "That's a lot of hope that was turned over the business of running the state."

Gossett, during the 10 days he was governor, tried to collect enough information on which to base a bill for the legislature. He left no doubt that had he felt such an action was necessary, he would have called the session.

**Deadline Passes**  
But unwillingness to present their facts to Gossett seemed to hang on movements of county commissioners who had professed to be most interested in the Finance bill, without anything official in the way of a request being put before the Canyon county acting governor.

He didn't receive the minutes of the commissioners' convention in Pocatello, as he had requested. Sam Tunks, chief of the State Lands department of commissioners, was supposed to furnish them, but they were not mailed soon enough, clerks in the office of the acting governor.

Clark, exuberant over his trip, said Gossett "talked like he would have called the session if he had the chance."

**Couldn't Get Data**  
"But, the governor said, he couldn't get the information. If he had it, he would have called it. That's what the county commissioners thought," but the commissioners never called.

"I don't know why. They wanted to give that stuff to me, thinking I'd call it. But they didn't. I suppose a lot of fellows will go around now and say I'm playing politics with human misery."

## Man and Wife Pull Big Cart On Long Trek

The cart-pulling pair (find food skinny at times) if the husband can get a bit of work, they live well on the next stretch of trail, they pick up all the bits of metal debris they find along the highway—old copper, brass, iron and tin. Then they sell this for a few cents to the next junk dealer.

"Sometimes I get a good break," Brazelton said, pushing a cowboy hat over long hair. "Sometimes I don't get any break at all."

But both have gained weight on the long trek. The woman insisted that the reporter get her by the waist to show how solid she is in spite of something like five feet of height.

Brazelton was highly indignant at first and didn't want to talk to any newspapermen. Someone put a story about them in a Denver paper, saying that the couple had been working and were simply on exhibition. The story got around amazingly. The pair were even arrested once or twice on suspicion of theft.

"But we're no thieves and we aren't loafers," snapped the six-foot husband in frustration.

# GERMANS OCCUPY 5TH ZONE TOMORROW

## HITLER ABANDONS PLEBISCITE PLAN IN OTHER AREAS

**BY FREDERICK C. OCHSNER**  
**BELLEVILLE, Oct. 7 (AP)—**Germany will begin to occupy zone No. 5 of Czechoslovak Sudetenland, awarded by an international commission, at noon tomorrow, it was announced today.

The occupation will be continued Sunday and completed Monday.

Reliable sources said that when the German occupation of the Sudetenland areas had been completed, Adolf Hitler intended to hold a plebiscite similar to that in which Austria voters were asked to approve the absorption of their country last March. It would be intended as a demonstration that the people had wanted to join the Nazi reich.

Stay in Czechoslovakia

Official Sudeten estimates placed the number of Sudeten Germans in the five zones of occupation at 3,200,000 with about 200,000 Czechs remaining in the areas.

It was expected that about 300,000 Germans would remain in Czech territory, mainly in such towns as Prague, Brunn, Pilsen, Mairisch-Ostrow, Jatau and Tressburg.

Well-informed Nazi quarters expressed belief that with the occupation of the five zones surrendered to Germany the geographical phase of the Sudeten problem would have been settled.

Abandons Plebiscites

They said that Germany was willing to abandon the idea of any plebiscites to determine the wishes of the populations outside the zones. It was said that districts in which there was a strong German representation, but in which Czechs were in the majority, and which were closely related to the Czech industrial setup, might remain Czech so far as Germany was concerned.

It was said that Germany considered it better to assure the welfare of German groups outside the occupation zones by direct negotiations with the Czechs, than to hold plebiscites.

## HILL CONCERT ON GOODING'S SLATE

The Hill concert is the first of its kind to be held in Gooding and is an opportunity for all classes of Gooding to hear the most popular organist of the Hammond organ. Mr. Hill has appeared in theaters and in concerts in various large Idaho cities, according to Don Eastabrook, who has arranged the concert for the Junior Chamber of Commerce.

Proceeds of the concert are to be used for the Junior Chamber Christmas fund provided each year for underprivileged children. Most Gooding churches are cooperating with Mr. Eastabrook and will dispense evening services in time for the congregation to attend the program.

## COYOTE'S STAFF PICKING CHANGED

Staff members to work on the "Coyote," Twin Falls high school annual, will be selected soon. Choice will be made by the student council through the list of those wishing to work and signing up with the faculty sponsor, Miss Gladys White.

This makes an innovation in the method of choosing a staff. By having the council make the final selection it is thought that a more competent and willing-to-work group will be secured.

Contracts for the photography will be let soon with the local firm making the lowest bid securing the work. Engraving, printing and covers were contracted for by last year's staff.

As only the three senior high school classes will have a history in the annual, freshmen now being in junior high, a smaller book will be put out, Miss White said.

Miss White is the new commercial instructor at the high school and before coming to Twin Falls taught at Heyburn. She sponsored the Heyburn annual and a number of others while teaching in South Dakota.

## Couple Will Pledge Vows at Taperlight Ceremony Sunday

Immanuel Lutheran church will stary with taperlight for the marriage Sunday evening of Miss Elfriede Margareta Dohse, Kimberly, and Irvin Paul Eilers, Twin Falls. Before a flower-banked altar the couple will exchange vows at 7 o'clock, Rev. M. H. Zagel, pastor of the church officiating.

The bride-elect is the daughter of John Dohse, Kimberly, and the bridegroom-to-be is the son of Mr. and Mrs. Henry Eilers, Cawker City, Kan.

Myriad tapers, glowing in the windows and on the altar, will suffuse the church with soft light for the nuptials, and white bows will mark the church pews.

Gowned in White

Miss Dohse has chosen an all-white gown for her wedding. It is fashioned with a molten white velvet bodice and a bouffant skirt of white silk net banded around the bottom with white velvet. Short puffed sleeves and a sweetheart neckline distinguish the bodice.

With it she will wear a finger-ring case cascading from a small hair of orange blossoms. Her wedding bouquet will be of bride roses and lilies of the valley.

As maid of honor, her sister, Miss Elizabeth Dohse, Kimberly, will wear an Elizabethan model of Nile green more taffeta, fashioned with a long flowing ruffled collar and a gored skirt. She will carry an autumn bouquet.

Also attending the bride will be the bridesmaids, Miss Irene Thiese, Twin Falls, and Arlene Mueller, Flair, cousin of the bridegroom, who will be the flower girl.

The bride will be crowned in an ashes of roses satin floor-length model, made with a fitted bodice and a flaring skirt. Her bouquet will be blending autumn flowers.

Set in a peach ruffled silk frock, worn with a turquoise blue sash and trimmed with white bows, the flower girl will carry autumn blossoms. In her hair she will wear two small turquoise bows.

Best man for the occasion will be best man for his brother, is Herbert Eilers, Cawker City, Utah, will be Erhard Dohse, Kimberly, brother of the bride.

Nuptial Music

Edward Werner, presiding at the ceremony, will lead the wedding march from "Lohengrin" as the professional, and the Mendelssohn wedding march as the recessional.

The Lutheran League choir, young people's organization of the church, will sing "The Lord Is My Shepherd."

Following the wedding, 40 guests will assemble at the home of the bride's father at Kimberly for a reception in honor of the bridal pair.

A decor of pink and white will be featured at the reception, including pink and white flowers and the tapers which will mark the refreshment table.

In traditional fashion, the bride will cut the wedding cake.

Preside at Reception

Mrs. Edward Dohse and Mrs. Henry Eilers, sister-in-law of the bride, will preside at the refreshment table, and Mrs. Carl Helene, Seattle, sister of the bridegroom, will assist in the dining room.

Mr. and Mrs. Eilers will be at home to their friends in Twin Falls. He is associated with the Independent Meat company.

# CUBS, YANKEES MOVE EAST FOR THIRD GAME

## Idaho and Santa Clara Loom as Toughest Teams on Coast

### Bryant, Pearson To be Opposing Hurlers Saturday

By HARRY FERGUSON  
United Press Sports Editor

ABOARD THE WORLD SERIES SPECIAL EN ROUTE TO NEW YORK, Oct. 7 (UP)—The traveling circus called the world series rolled westward today to open in New York tomorrow. If there is a magician in any of the sideshow tentacles, Gabby Hartnett of the Chicago Cubs would like to hire him to pull a spark of victory out of the ashes of defeat.

For only a magician can save the Cubs now, preferably one with a low, snaky curve who can keep that ball down where the New York Yankees can't blast it out of the park. The swaggering, cocky Yankees go into the friendly home territory today, leading the Cubs two games to none in the series and saying that they will make it four straight.

Tomorrow, in Yankee stadium, Manager Joe McCarthy sends Monte Pearson to the mound to pitch against the Cubs. Monte Pearson, who is listed as a no-hit man this season, Monte Pearson who, when he is right, comes close to being as effective a pitcher as there is in baseball.

Hopes Ride on Bryant  
For the Cubs, all their hopes and a thin chance at the winners' share of the series—ride on Clay Bryant, a youngster who will try to do a job too big for Bill Lee and Dizzy Dean. Bryant throws smoke and it

### SCHEDULE

(By United Press)

Today—No game, teams traveling.

Tomorrow—At Yankee Stadium, New York, 1:30 p. m. (EST). (11:30 MST).

Sunday—At Yankee Stadium, 2:00 p. m. (12:00 MST).

Monday—At Yankee Stadium (if necessary) 1:30 p. m. (11:30 MST).

Tuesday—No game, teams traveling.

Wednesday—At Wrigley field, Chicago (if necessary) 1:30 (CST) (12:30 MST).

Thursday—At Wrigley field (if necessary) 1:30 p. m. (12:30 MST).

is said that there is nothing the Yankees love better than a chance to beat their opponent in a tie-off against a fast ball slinger.

So it looks dark for Mr. Bryant and the rest of the Cubs. They lost to the Yankees yesterday, and back there in Wrigley field, when old Dizzy Dean plucked his heart out and threw it up to the plate but could not turn the ball.

For seven innings of as good a ball game as you will ever see, old Dixie Dean's best was out there yesterday, commanded the stormy winds and waves of the Yankees to stand still. And the winds and the waves obeyed, heaven only knows why, for all Dixie had out there was a prayer and an old brown glove. But in the eighth inning, the waves rolled and the winds roared. Frankie Crosetti arched a ball toward the left field wall and it cleared the bricks by a yard, giving the Yankees two runs and ending them out in front of the ball game.

Hurricane Hits in Ninth  
Dixie dugged at the bill of his blue cap and stayed in there and pitched, though, and it was not until the ninth that the hurricane blew him out of Wrigley field. Hence, on the strength of a near strike, was on first base and up there at the plate waving a big yellow bat with a round hole in it. Joe DiMaggio. Up went old Dixie dead arm and in came the ball.

Crack! On the street beyond the left field wall at Wrigley field there is a yellow brick apartment house, five stories tall. It's just a guess, but the ball that DiMaggio hit probably bounced close against a second-story window of that building after clearing the wall. That was the end of Dixie for the afternoon, and for all anybody knows today, for all time, Hartnett waved to the bull pen and Larry French came in to take up his position.

Another No-Hit Fitcher  
Mazatlan, Calif., (UP)—No novelty in the fact that the world's best no-hit pitcher, Freitas, pitched two such games, and another no-hit pitcher this season. He pitched two such games when one run was scored on two walks and two errors in one inning.

### A Yankee Caught Stealing

Henry of the Yankees out at second, caught stealing in the third inning of the opening world series game at Chicago, which the American League won, 3-1. Hee shows it Henry's sliding, Billy Herman of the Cubs tagging him, and Ziggy Sears of the National League is the umpire on the play.

### "They Haven't Licked Us Yet," Roars Gabby Hartnett

NEW YORK, Oct. 7 (UP)—Only fools rush in, or attempting to pick tomorrow's football winners: Arkansas-Baylor—Baylor, but don't ask why.

Alabama-North Carolina State—Alabama, if you believe the Dixie roosters, is rolling toward a return engagement at the Rose Bowl.

Army-Columbia—The Cadets squeaky through—but watch Luckmann.

Brown-Lafayette—Brown, on its form last week in taking Harvard.

Colgate-Duke—Duke by three touchdowns.

Georgetown-Tech-Notre Dame-Notre Dame, with the substitutes not getting as much work as they did last week against Kansas.

Harvard-Cornell—Harvard takes it on the chin again.

Illinois-Indiana—Indiana too strong all the way.

Wisconsin-Improved

Iowa-Wisconsin—Wisconsin improved; Iowa not so good anywhere.

L. S. U.-Rice—Day's best bet for the Michigan-Chicago—Michigan, Michigan, Michigan.

Minnesota-Purdue—Minnesota, with enough power to light a good sized town.

Navy-Virginia—All Virginia has is a fine nickname—the Cavalier.

Nebraska-Iowa, State—Nebraska slows the Cyclones to a sepher.

North Carolina-Duke—Carolina by 15 points or more.

Northernwestern-Drake—Drake is playing out of its league.

Ohio State-W. G.-U. S. G. in the day's seven-star special.

Penn.-Yale—Yale looks awfully bad without Art Baker.

Pittsburgh-Duquesne—The Pittsburgh make the smoky city forget about those ball-players.

Pittsburgh-Duquesne—The Pittsburgh makes the smoky city forget about those ball-players.

Portland-Dartmouth—Dartmouth moves out of the bush league division and wins its first big one of the year.

Rensselaer-Smeal Aggies

Santa Clara-Texas A. and M.—Santa Clara smears the Aggies.

Stanford-Washington State—Washington State has one consolation—the coach, Babe Hollingbery, is one of the funniest guys in the business.

Syracuse-Maryland—Syracuse, Syracuse, Syracuse.

Tennessee-Tulane—This might be a tie, if not Tennessee.

Washington-U. O. L.—Washington a little too strong for that bunch of little boys which swims upstream.

The Cubs naturally should have much in common with these strange specimens.

The Stork Club—This palace of pleasure was named after a bird that stands on one leg. It should interest the Cubs because they too have only one leg to stand on at this point.

Grant's Tomb—Here is buried the man who said he would fix it out. It took all summer but the Cubs should be interested. I'd like to take them all winter to beat the Yankees.

NEW YORK, Oct. 7 (UP)—The Chicago Cubs reached New York today for a very brief stay.

The History—This is the finest battery in the world, which should be a distinct novelty to the Cubs. Here they may study at first hand the game they must win upstream.

The Subway—Lower than the Cubs and travels much faster.

Brooklyn bridge—A good place to jump from.

George Washington bridge—A better place to jump from.

River drive—This will be the first drive the Cubs have seen since they overtook the Pirates.

Holland tunnel—A good place to hille.

The Yankee Stadium—You'll have to go here anyway, whether you like it or not.

Looked like the northern lights at the bowling alley last night, but it was just those dazzling skirts of the Dell's bowlers—but that made the difference in the matter. Baker boys, who took two out of three—shirts or no shirts.

The third master, Ted Emeric, with 600, took high three game honors for both teams and also set a new high for the season. Coleman's 576 was tops. Ted had a 210 bonus game.

Holly Jones led the Dell's bowlers with 536 to his credit. Holly had a very nice last game of 108—which was Dell's best game.

Bonnie's 224 takes the weekly prize in the Commercial League.

In taking two out of three from the Firestone, Emeric's set two new scores for the City League—2,322 and 2,322 for three games and six for a single. Flour Mill held both other scores of 2,323 and 2,323.

Don Pfaff led both teams with 524 for high three games, closely followed by Lou Hasting, who got 521.

Pfaff's 104 was also high single score. Stierling with 102 was again a close second.

For the Firestone boys, there was George Carver, who had 104. Warner rolling 485 against King's 460. King won high single game 163 to Warner's 176.

Emeric's 2,322 looks good for the top bowling net week. And Addy Adkins' 226 looks better at the time for the City League weekly individual prize.

### Six Junior High School Girls Team Play Ball

Baseball games among junior high school girls progressed with all-time for the girls participating in yesterday's games.

The sports activities are conducted under the supervision of Miss Margaret Egbert and Miss Margaret Garvin.

Derivative scores were clinched up by two teams as 97 runs from 2071 in a 13 to 9 score and 91 downed 100 by 7 to 1 score. Rooms 216 and 215 were tied at 13.

Dr. Emanuel Johnson wrote his famous "Razeeles" in the evolution of a single week to meet the experience of his mother's funeral.

### Newark Near to Series Crown

KANSAS CITY, Oct. 7 (UP)—The Newark Bears needed only one more victory today to retain the minor league baseball championship.

The Bears took a 3-2 lead in the "little world series" when they defeated their Kansas City "farm hands" 6-1 here last night. Joe Beggs scored his second victory in the best-of-seven series by holding the Blues to eight well distributed hits.

Newark barmen collected but nine saleties, but they bunched them effectively, scoring two runs in the first inning, adding three more in the third. Washburn, Bonham and Piechota worked for the Blues.

If Newark wins tonight it will give the International League its second straight victory over the American association, and create a 10-10 tie between the two circuits since the series began.

The score: Newark 6-1, Kansas City 1-0. R. J. E. Beggs and Rosar; Washburn, Bonham, Piechota and Riddle, McCullough.

There are now approximately 172,000,000 acres of national forests in the United States.

### Non-Conference Clubs Steal Spotlight; Vandals Play Dakota

By JACK GUENTHER

LOS ANGELES, Oct. 7 (UP)—Even early in October the suspicion is growing that two football teams which are not members of the Pacific Coast conference, and for that reason are barred from the Rose Bowl, may possibly become the eventual standouts in far-western America.

One is Idaho, which the conference kicked out. The other is Santa Clara, which never got in. While six of eight league bigwigs have been toppled at least once, those two have been marching steadily, but not so slowly, ahead.

An August tip not to sell Idaho short was proved to be good when Idaho shipped Oregon State 13-0 and played a 12-12 tie with Washington, another conference foe. U. C. L. A., Oregon and Washington State all are to be met at Stanford in a chance to date Idaho ranks as an even choice with any of them.

Broncos Appear Greatest

Any Stanford man will attest that the greatest team of all, Stanford went down, 22-0, before the charge of the brilliant Bronco forward wall and the more scores were called back or missed by the Bronco. Only two remaining opponents should give the Broncos a battle—Texas A. and M. This week and Arkansas later on.

A new Stanford team will line up tomorrow against Washington State. After the Santa Clara licking, Coach Tony Stewart has called back for an entire new deal, moving back to the line, tackles to guard, and halfbacks to the fullback post.

Santa Clara is victory-hungry after Washington is victory-hungry after being whipped by Minnesota and tied by Idaho. The Huskies take on U. C. L. A., who dropped a decision to Oregon.

Oregon, topping the conference with two victories, is idle this week.

and California, the only other unbeaten team in the conference, play an easy engagement, taking on California Aggies and College of the Pacific the same afternoon.

The other two conference teams are playing outside Oregon. Oregon State hopes for its first triumph as it lines up against University of Portland and U. S. C. ventures far afield to meet the Ohio State Buckeyes at Columbus.

Other big games of the week-end include Idaho against North Dakota State; Montana vs. DePaul of Chicago; St. Mary's vs. Loyola, Sunday; and University of San Francisco against Santa Barbara in a Friday game.

### Injuries Hit Idaho Gridiron Squad

MOSCOW, Ida., Oct. 7 (UP)—Idaho fought itself best with injuries today as final workouts were held prior to a clash with North Dakota tomorrow. Pullback Harold Durham was definitely out of the game with injuries.

Others on the crippled list were Merle Stoddard and Fred Retberg.

# Minidoka Hunt Sets Record for Four Years Under Special Set-Up

## DAVIS SAYS 462 TOTAL WILL NOT DAMAGE SUPPLY

Setting a record-breaking total for the number of deer shot by south Idaho sportsmen in the Minidoka forest special hunt, this year's fourth annual hunt bagged 462 deer—largest number since the special hunts were inaugurated—Grover C. Davis, district deputy game warden, announced today after compiling final statistics.

The total last year was 451. Of the 462 taken in the five-day season this year, 317 were bucks and 145 were does, Davis reported.

"We can take that many deer out of the Minidoka forest indefinitely," he said, "and the number of deer in the forest will still increase. It wouldn't make any appreciable showing on the brood stock."

Only a few of the 500 men and women who drew permits did not check into the forest during the five days, he said. At least four-fifths of the 500 were hunters from the forest's surrounding counties.

Davis pointed out that the 462 persons who bagged deer in the special hunt are finished for the year as far as deer shooting is concerned. Only one deer is allowed to any one hunter, whether the animal is bagged in a special hunt or in the regular open season now in effect in certain counties.

**Shoshone Station Tops**

The checking station count showed today that Shoshone ranger station led by a wide margin over its nearest competitor in the number of deer checked out by hunters. The figures by stations, as listed by Mr. Davis on final check-up today: Shoshone ranger station—177; Mud Springs—51; Rock creek—11; North water—87; Basin patch—29; Trapper creek—28; Elba mountain—50; Piney—28.
