ALBANIA FIGHTS ITALIAN PLANES, TROOPS

Mussolini Studies Albanian Proposals for Treaty

FOUR VILLAGES REPORTED TAKEN BY ITALY ARMY

By REYNOLDS PACKARD

ROME, April 7 (U.P.)—Albania made new proposals to Italy today for a settlement as Italy officially announced the occupation of four Albanian towns by Fascist troops.

The towns captured were Santi Quaranta, Valona, Durazzo and San Giovanni di Medua.

The new Albanian proposals were forwarded to Rome and were being studied by Premier Benito Mussolini. An Albanian delegation accompanied by the Italian attack in Tirana, made contact with the commander of the Italian troops, Gen. Guzzoni, and submitted the proposals of King Zog, Guzzoni sent them to Rome.

Four hundred war planes and the first squadron of the Italian navy covered the landing.

"Population Calm, Cordial" An official communique said: "Our troops landed at the ports of Santi Quaranta, Valona, Durazzo and San Giovanni di Medua at dawn today.

"There was no resistance worthy of particular mention at Durazzo, where attempts to resist on the part of bands was immediately smashed.

"The Albanian population is calm and cordial.

"Four hundred airplanes of the Adriatic squadron are patrolling the Albanian skies with orders not to bomb inhabited centers and to spare the people.

"The Italian planes dropped hundreds of thousands of leaflets over Albanian towns and villages, urging:—

"Do not oppose useless resistance, which would be eliminated... The soldiers of his majesty the king-emperor Italy have come and assume responsibility for defense of its territory.

"Lord Berth, British ambassador, visited the foreign office to inquire of Italy's intentions under the British-Italian friendship agreement which provides for maintenance of the status quo in the Mediterranean and for exchange of all military information.

Italian troops, mobilized at Bari and Brindisi, crossed the narrow Adriatic during the night to occupy the coast and air squadron 'A' covered the landing.

It was announced that, under a protectorate such as that which Adolf Hitler exerted over Czechoslovakia, Italy would handle Albania's foreign policy and assume full responsibility for defense of its territory.

Albania's Fighters Leave Fields, Work To Offer Resistance

By ELEANOR PACKARD

TIRANA, Albania, April 7 (U.P.)—Albanians, famed in warfare as the "Sons of the Eagle," left their fields and workshops today to fight an Italian army which landed on their homeland's rocky coast this morning.

Official sources announced that Albanian soldiers, policemen and armed civilians, attacked the invaders at Durazzo and forced them to flee back toward their warships.

Italian war planes and battleships were reported bombing and shelling Durazzo, Valona and Santi Quaranta after meeting fierce resistance, government advisers said.

Hundreds of Planes The Albanian army of 12,000 men was opposed by a landing force estimated at from 30,000 upward, with hundreds of airplanes and a navy behind it.

Press reports were reported firing from their homes and throwing great stones down from mountain heights in a fight that was hopeless at the moment.

Advices to government quarters indicated that the Italian after overcoming the first resistance were advancing relentlessly, with direct motorized bombing planes blasting a path for them, and tanks leading mechanized infantry.

Zog Has 2 Planes King Zog had two airplanes, 12 tanks and less than 100 pieces of artillery.

The Italians had landed at dawn with orders to occupy the entire country within 48 hours and to make it a protectorate of Italy.

Three Italian warships had steamed into Durazzo harbor yesterday morning.

This morning, Italian bombing planes soared over this city, the capital, dropping leaflets warning the people not to resist their "friends" who were occupying the country to restore peace to it.

They came reports that Premier Benito Mussolini had landed troops today at 9,000 of his troops in the kingdom of Albania to conquer the area's 1,000,000 residents and make it a protectorate of Italy.

Reason for the invasion: "To protect Italian interests."

GERMANY WARNS NATIONS AGAINST AID FOR ALBANIA

By ELEANOR PACKARD

BERLIN, April 7 (U.P.)—Nazi today warned the democracies to avoid interference with Italy's invasion of Albania and declared that the reich must consider Poland as adding the "encirclement" of Germany.

Through the semi-official D. N. B. news agency, the government said that it fully understood Italy's action in Albania but would be able "neither to understand nor approve any desire by the democratic western powers... to intervene in the incoherent position and actions of our axis partners."

Close Consultation The warnings to the so-called democratic bloc were made after close consultation between Adolf Hitler and Italian Premier Benito Mussolini regarding action to offset the "encirclement" of the reich.

The German government said that it could permit a permanent source of disorder to arise on the opposite coast of the Adriatic sea, which is so important to Italy's vital interests, which destroy general order and at the same time threaten the safety of Italians living there.

Duce Sends Army Marching to Tiny Europe Kingdom KING ZOG'S DEFENDERS PUT UP SEVERE BATTLE

TIRANA, Albania, April 7 (U.P.)—Italy invaded Albania today, hurling infantry, tanks and warplanes against the outnumbered but fiercely resisting soldiers of King Zog.

Aerial bombardment, shells from Fascist warships and machine gun bullets of the crack Bersaglieri Grenadiers marked the Italian offensive. Severe fighting took place in the Albanian coastal towns of Durazzo, Santi Quaranta, Alessio, San Giovanni di Medua and Valona.

(At Rome, Italians announced occupation of Santi Quaranta, Valona, Durazzo and San Giovanni.)

Fighting men famed in history as "Sons of the Eagle" rushed from fields and workshops to repulse the first four Italian attacks at the Adriatic port of Durazzo. Official messages said they gave ground only at high cost to the Fascists when the invaders opened up with their vast land, sea and aerial forces.

King Zog, in a radio proclamation that brought peasants and mountaineers hurrying to the front with their rifles, called upon his people to defend their independence for the end. The half-American queen, Geraldine, and her two-day-old son were reported to have been sent into Greece for safety.

The fighting along the coast was described in official messages as so severe that the port of Durazzo and Valona were destroyed and the town of Alessio, in the north, was "devastated" by Italian aerial bombardment.

Throw Back Invaders Four times, the government reported, Albanian troops aided by volunteers threw back the Fascist forces attempting to land at Durazzo. Other messages received here in the capital said that the first Italian forces landing at Valona and Santi Quaranta also were repulsed.

Later advices said the Albanian resistance had been overpowered and that Fascist columns were marching on the interior.

Italian warships were said to have shelled both Durazzo and Valona, causing heavy casualties among the

140 KILLED

TIRANA, Albania, April 7 (U.P.)—It was reported that 140 Albanians had been killed and 600 wounded in the fighting along the coast. The majority of Albanian casualties were described as having occurred among the so-called Albanian "minute men" who took out old rifles and joined armed bands attempting resistance.

The "minute men" were engaged in sniping from trees and roof tops.

Albanian population, Riflemen and even boys with rocks for weapons were reported harassing the Italians who pressed on toward Tirana, which was being shelled repeatedly by Fascist bombing planes.

(At Brindisi, Italy, it was estimated that a total of 60,000 Italian troops would land in Albania within the next day or two. Albanians' regular army numbers only 12,000.)

Compromise Mail Plan Advised for Twin Falls

With postoffice department officials convinced that early stage mail from Twin Falls is "unjustified" because of new train service, Twin Falls was advised today by Sen. D. Worth Clark to concentrate on working out a proposal for a "star route" from Twin Falls to Bliss.

Senator Clark made his suggestion in a letter to Tom Peasey, secretary of the Junior Chamber of Commerce. The Jaycees had dispatched a protest to the senator prior to the recent sent out by the senior chamber.

Answers to the senior group's resolution arrived today from Sen. William E. Borah of Idaho. Mr. Borah, both said they were contacting postoffice department officials in regard to the matter. Rep. Frank Clark said he had conferred with Ambassador O'Connell, second assistant postmaster general.

The early mail service via stage was discontinued two weeks ago by order of H. L. McKinnell, chief clerk of the railway mail service at Pocatello.

Clark, in making the suggestion that Twin Falls concentrate on the Twin Falls to Bliss service, enclosed Mr. McKinnell's detailed reply in a telegram sent to him by the senator March 26. That reply, in one phase, suggested this:

"It can be proven that the quantity of mail service for dispatch is insufficient to justify the service. It is suggested to justify the service, from Twin Falls to Bliss, over Union Pacific stage, run 5, which would be Twin Falls at 11:10 p. m. and arrives at Bliss at 12:34 a. m.

"This would permit direct connection with east and west bound Union Pacific stage at Pocatello. A round-trip route is established provides a 7:23 a. m. arrival at Bliss and affords an excellent all-mail outlet for the northwest. Also would be under at Pocatello, where direct connections are made for Blackfoot, Idaho Falls, Odean and Lake City.

"Arrival at Odean would be 8:45 a. m., direct to Lake City 9:05 a. m., with direct connection for Los Angeles and San Francisco at Pocatello. A 20 minutes later than the present stage arrival, which is 9:30 a. m. Direct connection for all eastbound mail would be under at Pocatello. A more desirable dispatch for eastern mail can be made at Pocatello where connections are made with Union Pacific stage leaving at 8:45 a. m. (Continued on Page 8, Column 4)

CATTLEMAN WILL FIGHT RUSTLERS

LEWISTON, Ida., April 7 (U.P.)—Cattlemen of northern Idaho tonight decided to organize an association to combat modern "gasoline" cattle rustlers.

The plan was made at a meeting attended by 52 cattle raisers from every county in northern and central Idaho.

The group decided some method of combating modern cattle rustlers, who load stock into fast trucks and dash across state lines, had become imperative.

It was hoped to have a state livestock commission appointed to coordinate and systematize the handling of questions and needs of stockmen.

Delegates were asked to contact the cattlemen in each county and form county organizations. One delegate was to be a member of the central association which would attempt to effect an affiliation with the Idaho Cattle and Horse Growers' association. Greater centralization was expected to be effective in curbing the rustlers.

Albania Area Totals Eighth Size of Idaho

Albania, the tiny kingdom today being attacked by Italy, has a total population of 1,000,000, according to a 1930 census.

It has an area of 10,000 square miles, about the size of New Hampshire or Vermont, and one-eighth the size of the state of Idaho.

Albanians' king, Ahmed Zog, is 44 years old. He was made president of the republic in 1928 and assumed the crown in 1928. He married the daughter of an American woman, Gladys Vignelli, a sister of New York City's several years ago, and their son, born two days ago, would have been the first monarch to ascend the throne with American blood in his veins.

Down through the ages the Albanians have been known as fighters and their country has been a battleground. The country declared its independence in 1912. However, it immediately fell a victim to the Balkan wars. The World war came along. At the conclusion of the war, Yugoslavia and Italy controlled it. Italy, however, drove out the Italians, and left the nation free to run its own affairs.

The capital of the nation is Tirana, which has a population of 75,000. Other main cities are Durazzo, Valona, Alessio, and Medua. The state is bounded on the north and east by Yugoslavia, on the south by Greece, and on the west by the sea.

LEADER INDICTED FOR TAX EVASION

KANSAS CITY, Mo., April 7 (U.P.)—Thomas J. Pruden, leader of the Kansas City Democratic machine, was indicted today on charges of income tax evasion.

He faced \$100,000 in back taxes, according to the indictment. Pruden was indicted on the charge of income tax evasion.

Pruden was charged with failure to report and pay taxes on \$50,000 which he allegedly received in the settlement of a controversy of the life insurance rate case in 1935.

The rate case settlement and the manner in which \$44,000 was disbursed has been under investigation to work. The trustees of the fund were Robert J. Fink and the late Charles H. Fink.

When federal treasury agents failed to find the \$44,000 accounted for in Pruden's financial report they began efforts to trace it.

The indictment alleged that Pruden received \$50,000 in connection with the insurance controversy. Pruden was charged with failure to report and pay taxes on \$50,000 which he allegedly received in the settlement of a controversy of the life insurance rate case in 1935.

REDS PICKED TO COP NATIONAL PENNANT

Expert Sees Cubs And Giants in Race for Crown

By GEORGE KIRKSEY
NEW YORK, April 7 (UP)—Pennants are won with pitching. The Cincinnati Reds have the pitching, and that's why they'll win the National league pennant. The Reds have their weaknesses, but what National league club hasn't? Shortest criticism of the Reds is directed at their second base combination. It's my prediction that the play of Billy Myers and Lonnie Frey around the keystone bag will be one of the big surprises of the 1939 season. Myers is far from the "dog" some critics hint he is and Frey will prove one of the league's most improved players.

The Reds main threats will be the Chicago Cubs and the New York Giants. The Cubs will make a real bid but the dramatic condition of shortstop Dick Bartell is likely to be a serious handicap to last year's champions. The Giants can make trouble but their pitching and infield problems are likely to cause Bill Terry's club to falter in September or earlier.

Infielders Pitching
The astute handling of Cincinnati's pitchers by William Boyd McKechnie will play one of the big roles in deciding the National league. The only club in the league which can show a good pitcher every day—Paul Derringer, Bucky Walters, Johnny Vander Meer, Lee Grissom and Whitely Moore. Behind the "big five" the Reds have a formidable group of second-stringers.

Adrian of the Warbler has "made" the Reds' infield. All talk about his being a troublemaker narrows down to the fact that his conversation is on a somewhat higher plane than the average ball player's.

Cubs Strong
The Cubs appear as a strong contender again, and are picked to finish second. Bill Lee and Clint Bryant can't carry the entire pitching load. Cubbie Barnett's team and the burden of running the club will slow him down and the Cubs will miss him plenty when Gus Mancuso catches. The Cubs likely to show big improvement are Joe Mauer and Billy Herman. The departure of Jurgens weakened the Cubs' superb defense and Bartell, even if he is healthy, can't match Jurgens' fielding.

The Giants have more punch but are weak in the infield and their pitching has gone back. Whitehead is a question mark at second, and Bonura at first and Myers at third are no fielding wizards. Bonura's bat, however, is likely to give the Giants more kick. But the big problem is pitching, where Carl Hubbell and Hal Schumacher may have gone over the hill.

Cards May Surprise
The surprise club will be the St. Louis Cardinals. Their youth, fire and punch will land them in the first division. You can't laugh off Medwick and Mize, and Enzo Slaughter is going to have the year everyone thought he would last season. If their young pitchers get hot, the Cards might be tough indeed. With a few breaks the Cards could easily get into the pennant scramble.

Pittsburgh will fall apart and drop into the second division. The club had its chance last year, and is demoralized. It needs rebuilding.

Bartell Ready To Hold Down Infield Berth

CHICAGO, April 7 (UP)—Dick Bartell can't miss having a great year at shortstop for the Chicago Cubs—bump ankle or not. He says so himself.

After playing in 22 different line-up combinations for the New York Giants last year, it'll be a pleasure to have Billy Herman on one side of me and Stan Hack on the other," he laughed.

"Forget that stuff about me being washed up," Dick pointed to the huge, electrically heated hood over his swollen left ankle. He was lying on a hospital bed, looking more like an auto-crash victim than the regular shortstop for the National league champions.

"See that thing? They tried to make a mystery out of a sprained ankle," he said. A little more rest and heat from this light and I'll be ready for the opener—and a lot more.

The fact Bartell's ailment turned out to be an injury and not a chronic disorder again has made the Cub offer primary importance. Until a diagnosis by the club's physician, Dr. John F. Davis, they feared they had bought another "lemon." Bartell, second highest salaried player on the roster, came to the Cubs from the New York Giants in a deal sending away shortstop Bill Shurtleff, outfielder Steve Olin and catcher Ken O'Dea for Bartell, outfielder Hank Leiber and catcher Gus Mancuso.

Henry Sails For England
NEW YORK, April 7 (UP)—Mike Jacobs had business instead of pleasure on his mind when he boarded the Queen Mary to bid Henry Armstrong "bon voyage" today.

Henry was sailing to London to risk his welterweight title against Ernie Roderick May 22, and promoter Mike wanted to be sure he did not leave it over there without a chance of getting it back.

Jacobs holds a five year contract on Armstrong that prohibits Henry fighting without his consent. The journey drew up a contract which Roderick will have to sign before Mike's permission will be forthcoming. The contract calls for Roderick to give Armstrong a return bout in this country within 90 days should he win the welter title.

Mac Tells This Golfing Story in Future Tense
By HENRY McLEMORE
ASHVILLE, N. C., April 7 (UP)—At 15ville, N. C. last night I will be arranged on the Asheville Country club golf course and charged with assault and battery. He will be charged with a judge and immediately acquitted when he explains his provocation.

He will tell the judge that he stepped on the first tee box and hit the \$5,000 Ashville Open golf tournament and found himself paired with Henry McLemore, sports writer, and Frank Willard, cartoonist, who draws Mule Mullins.

What's wrong with that? The judge will ask, and Little, looking himself against a nearby ball-fil, and brushing aside his attorney, will plead his own case.

Eight Per Title
"Your honor," Little will begin, "In the first place, it never was their 'honor.' Neither one of them ever had better than an eight on my hole, yet they spent most of their time congratulating one another on congratulating sons. Another fact is, I never had lost a stroke with the \$5,000 Ashville Open golf tournament and found myself paired with Henry McLemore, sports writer, and Frank Willard, cartoonist, who draws Mule Mullins.

At this time, the judge, being sick and tired and looking at Little, will say, "Bring that to the attention of another judge. I will change his facts and get him out of here."

Comic Strip Conversation
"Can you imagine Judge, trying to hit a putt in a hole while one of you playing partners is asking the other one what Lord Phosphorus is going to do to the next day? Or how funny and funny and funny it is, getting along? And Judge, can you imagine playing in a threesome where two of the members are with laughter when one of the other of them gets in a trap or one out of bounds or gets an unplayable lie? These gentlemen I

played with did. The only time they were quiet was when one of them made a diversion hole which was more important to them than my winning the \$5,000 tournament."

"Besides, Judge, they didn't start out with enough equipment to play 18 holes of golf. Mr. Willard had never played of the 14 club rule and started out with only three, and was continually borrowing from and woods from me. McLemore brought only one tee, a big wooden one with a string and tassel attached, and after every one of his long tee shots we had to spend 10 minutes looking for it. When I offered him a handful of my tee he explained his was a lucky tee and he couldn't play his real game without it."

Loose Patience
"I finally lost my patience on the fifth hole. We had been out two hours and played only four holes. The rest of the players were backed up against us like the Mississippi against levees. They had been shooting into the air. If we were any players, trying to get by. On the fifth green, with a tricky putt, I took a minute to let it up and McLemore told me to hurry—that he was holding up the field. Judge, I let him have it right then and there. He said, 'I'll be back in a minute.' He couldn't play his real game without it."

Little immediately will be acquitted.

Leishman Drops Six From Cowboy Roster

SPOKANE, April 7 (Special)—Thirty-nine players still remained on the roster of the Twin Falls Cowboys today after the first cut of the season was announced by Manager Eddie Leishman.

Those dropped from the squad today were Pete Schoolcraft, Bryce Osborn and Blatnits, infielders; McComb, catcher; and Trasteth and Gordon Smith, pitchers.

However, of the 30 remaining, 18 are pitchers and Leishman must cut this number down to at least six by the opening of the season on May 2 at Pocatello. A goodly number of these youngsters will probably get the pink slip in the next few days.

Featuring a long workout yesterday, the Cowboy mentor used four complete innings in an effort to line up a clicking combination. Corley Carlson and Glen Burke displayed some classy fielding during the initial sack. Ernie Bishop stood out at second, while Bill Stenger started at short. Bud Marler, Frank Costa and Steve Bogdanoff alternated at all four corners. From this group Leishman hopes to mould a line defensive combination — with himself at the second base, howitzer.

Starting in the hitting department during the work-outs were Outfielder Dick Carlson and second baseman, Ernie Bishop, second sacker.

Some of the best news to reach the club was that Joe McLemore, the slugging backstop who showed so well in the Seattle Rainer camp and who is slated to catch for the Cowboys, is expected to arrive here on April 18.

McLemore is still traveling with the Rainiers, gaining experience and Manager Leishman feels that he has received no notice that the youngster will not be sent to Twin Falls.

"It is my understanding that he will be sent to the Cowboys on April 18 and I haven't been notified of a change in plans," Leishman declared.

BURLEY, April 7 (Special)—Jim Edwards, husky and youthful golf professional from Ogden, Utah, has been hired to handle the new Burley municipal course for the coming season, it was announced here today.

Edwards, an expert shot-maker who learned his golf along with Ernie and George Schneider, held down the instructor's job at the Twin Falls Country club two years ago and is considered one of the better teachers of the finer points of the game.

The new course, featuring a 9-hole layout, will be one of the finest in the state, with grass greens. The course will be open for play on Saturday, April 8—Easter Sunday. However, the official grand opening will not be held until April 30, when pitching, driving and putting contests will be held for both men and women. **TIP-OFF LEADS TO
 BANDIT'S DEATH**
 ST. LOUIS, April 7 (UP)—Clara
 Cambron, 19, a waitress, said today
 that Benny Dickson, Kansas bad-
 man who was killed last night by
 G-men, had been "put on the spot"
 by a woman in black who sat with
 him at a hamburger stand while he
 ate his last meal.
 G-men denied the story, as they
 did when Anna Sage, known as
 the woman in red, betrayed des-
 perado John Dillinger at Chicago
 in 1935 and led him to a spot where
 he was before being killed in his
 cell.
 If true, Miss Cambron's story re-
 veals Dickson's death as an exact
 parallel of Dillinger's—the small-
 town boy from an infamous fam-
 ily who followed the path of crime to
 gain money and notoriety, only to be
 betrayed by a woman and killed.
 Dickson, 27, was two-gun bank
 robber and kidnaper. He and his gun-
 ning wife, Estelle, 26, an excep-
 tionally attractive blond, had terror-
 ized the midwestern states for more
 than a year. Last night four agents
 of the federal bureau of investiga-
 tion, acting on an information tip,
 surrounded him at a west-end ham-
 burger stand and called on him to
 surrender. Instead, he reached for
 one of two pistols carried in his
 belt. Each G-man fired once and
 Dickson fell with two bullets in his
 chest. He died without saying a
 word.
 Miss Cambron examined a photo-
 graph of Dickson's wife and said it
 was not the likeness of the woman
 she had seen in the hamburger
 shop with Dickson. Mrs. Dickson's
 whereabouts were not known.

 versity men turn private op on the

 The girls - Jean Ulmer, home-
 coming queen, and Mary Dunfee,
 a senior campus leader-started the
 blushing by conducting a "date be-
 havior" session in the college audi-
 torium.
 Miss Ulmer and Miss Dunfee told
 the boys emphatically that they

 duct.

STATE ORGANIZES TO FIGHT CANCER

"Early cancer is curable" is the watchword of the Idaho division, Women's Field Army of the American Society for the Control of Cancer. Twin Falls leaders and today as state officers mobilize the women of Idaho in the third April educational campaign to reduce cancer deaths.

CANCER

Nearly 10 per cent of all deaths in Idaho in 1938 were due to cancer. Of the people killed by cancer over 6 per cent were less than 35 years old. The Twin Falls section furnished 50 of the victims, and Twin Falls county alone, 30. About half had the disease in the digestive system, and about 20 per cent were women with cancer of the breast or pelvic organs.

DISTINCTION BETWEEN CANCER AND TUMOR

Any new growth forming in or on the body is a tumor. Tumors are divided into benign and malignant varieties. Benign tumors remain confined to the place where they originate, do not recur when removed, and if they cause symptoms it is because of their size, pressure, or similar secondary effect. Cancers are tumors which cause the patient to lose weight and strength and become anemic, which spread into distant parts of the body and recur after complete removal.

Pituitary tumors of the uterus, for example, are not cancers. They cause pressure symptoms and bleeding, which often brings on an anemia, but when removed they do not return and the patient recovers promptly.

Malignant tumors, on the other hand, are malignant and spread rapidly over the body, invading distant organs such as the lungs and causing untimely death.

Cause of Cancer

Much is known about what does not cause cancer. Among the things which do not produce cancer are: German, food, bad drinks, electric refrigeration, aluminum cooking pans, any known form of diet, constipation, worry, overwork.

The exact cause of cancer is not yet known, but there seem to be in all cases two factors: (1) an in-born and probably inherited susceptibility to (2) the external factor which excites the formation of the tumor.

This external factor may be chemical (e.g., tar, benzene derivatives), physical (e.g., repeated injury, ultra violet light in excess), or prolonged irritation (e.g., from rough teeth, poorly fitted plates, chronic infection, or the lacerations due to childbirth).

Why Cancer is Dangerous

Like tuberculosis cancer gives no really early symptoms. It is usually painless, does not cause fever, and it often remains stationary for months or years. Therefore, even when the disease is on the skin of the face or neck where it is noticed, the patient nor his friends can fail to see it. The average case waits more than a year before consulting a doctor.

When a tumor has reached a size with which it does not feel and vague stomach distress and pain in the back and legs, until women with lumps in the breast and unusual discharge from their bodies learn not to ignore these danger signals we shall never make a beginning at cancer control. Doctors can not go out on the street and compel people to come into their offices for examination.

Traffic signals

Here are some signals that must never be ignored if cancer is to be found early: (1) a lump in the breast, even though small, movable and painless, and even though the patient is a young woman.

Rapid loss of weight and strength in the absence of visible cause.

Unusual discharge from the body.

Unusual change in the skin.

Unusual change in the voice.

Unusual change in the appetite.

Unusual change in the sleep.

Unusual change in the general health.

Unusual change in the family history.

Unusual change in the community life.

Unusual change in the national life.

Unusual change in the world life.

Unusual change in the universe life.

Unusual change in the God life.

Unusual change in the eternal life.

Unusual change in the infinite life.

Unusual change in the divine life.

Unusual change in the immortal life.

Unusual change in the eternal life.

Bleeding from stomach or bowel

(hemorrhage of bright red blood or soft, black, tar-like stool, or pain in the lower back or down the legs, in the absence of injury or other visible cause.)

Irregular or unusual bleeding or discharge from the pelvic organs, or bleeding from kidneys or bladder.

Diagnosis

Proof that a growth is or is not cancer is made by expert study with the microscope of the cells that compose the tumor. All approved hospitals provide for such examination of tumor tissue removed at operation. Without this no intelligent treatment of new growth is possible.

But experienced physicians can make shrewd estimates of tumors. They can see or feel. For instance, the appearance of skin cancer is characteristic; so is that of cancer of the lungs, of the uterus, and such typical signs and symptoms that it is seldom mistaken. The skillful X-ray specialist can recognize most cancers of the stomach and bowel.

In many locations a bit of the growth can be easily snipped off for microscopic examination. But in others (e.g., the breast) the patient should be prepared for surgery and a fairly large (cancer) glandular operation can be done. Long delay between removal of a section for study and proper treatment is dangerous because the tumor may suddenly enlarge or spread, but an interval of a few hours or days offers no hazard.

Great Britain Seeks Hungary for 'Stop Hitler' Bloc

PRIME MINISTER WOULD ADD TWO MORE COUNTRIES

By WEBB MILLER
(Copyright by United Press)
LONDON, April 7 (U.P.)—Great Britain sought to include Hungary in a "stop Hitler" bloc today as Benito Mussolini's Fascist legions fought their way through Albania. The occupation of Poland was regarded here as the answer of the Berlin-Rome "axis" to Poland's entrance into a British-French anti-aggression combination.

Prime Minister Neville Chamberlain replied by:

1. Starting active negotiations to include Rumania in the "stop Hitler" bloc.
2. To sound out Hungary on the possibility of a British guarantee of her independence, provided she agreed to resist any crossing of her territory by German soldiers.

Negotiations so far have been exploratory, were proceeding in London, Paris, Warsaw, Bucharest and Budapest on the Hungarian plan.

Rumanian Minister Viorel V. Tila, fresh from Bucharest with instructions from King Carol, began negotiations regarding Rumanian participation in the active membership of the "stop Hitler" group.

Josef Beck, Polish minister who came here to sign the British-Polish agreement, was understood to have persuaded Chamberlain to approach Hungary.

Beck insisted that Hungary, Germany's war ally, was not lost to Nazi Germany; that Admiral Nicholas de Tora, the Hungarian agent, would never submit to Adolf Hitler as did Austria; that Hungary and Rumania should be brought into the anti-aggression combination on equal terms.

Beck agreed to mediate between Rumania and Hungary, who already had troops concentrated on their mutual frontier, and to try to make them friends.

It was reported in authoritative Bucharest quarters that the present Polish-Rumanian alliance, ostensibly covering only a joint defense against any attack from Russia, had a secret provision binding the nations to mutual aid in event of an attack by another "third nation" which would be Germany or Hungary.

HEYBURN TOPS IN CLASS B DECLAM

HEYBURN, April 7 (Special).—Dramatization and dramatic contests from Heyburn high school, the host to the district Class B meet, captured top honors over competing schools of south central Idaho.

Heyburn qualified the largest team to enter the state meet at Burley—five students in declamation events and the Heyburn one-act play with a cast of four girls. In declamation, Heyburn won three excellent (top ranking) and two superior.

Hazelton took second ranking with two excellent. Murrenough also qualified two for the state meet by gaining one excellent and one superior. Castelford achieved one excellent rating. Other schools placing one entry in the state event are Bliss, Hagerman and Hialeah, each with one superior.

Concluding event last night was the one-act play presentation by four schools. Three others had offered their plays Wednesday evening. Only presentation graded excellent was "Overtones," the Heyburn drama in which cast members were Barbara Whiting, Dorothy Schuch, Valerie Blair and Evelyn Campbell.

State Police Office Looms In Twin Falls

BOISE, April 7 (U.P.)—District officers at Boise, Twin Falls, Coeur d'Alene, Pocatello and Idaho Falls all agreed by a telephone system are envisioned in the preliminary plans for the Idaho state police system drawn by Commissioner Harry M. Haver.

Haver mapped the plans under mandate of a 1938 legislative enactment which makes a state police force out of the former state traffic patrolmen, giving them wide duties. The existing 43 officers will comprise the force.

The district officers probably would each be in charge of a lieutenant. In addition to the five, a telephone station would be set up at Lewiston to within north Idaho coverage.

Although the legislature made no specific appropriation, present traffic patrol funds will be available and Haver expects the telephone system, although costing considerable for installation to effect a substantial saving on money now used for long distance telephone calls.

Action by Chas. C. A. Battalione will determine what becomes of the present initiative plans.
