Hitler Convoys Reichstag for Reply to Roosevelt

Nazi Heads Convene April 28 to Listen To Fuehrer Decision

By EDWARD W. BEATTIE, Jr.  
BERLIN, April 17 (U.P.)—Adolf Hitler today convened a meeting of the Nazi reichstag for April 28 to make his answer to President Roosevelt's appeal for peace.

A communique of the official news agency announced: "The American President Roosevelt requested the Fuehrer to take a stand regarding certain matters. The Fuehrer considers this affair so important that he has decided to make known his answer to the American President in the name of the German people before the reichstag."

"For that purpose he has called the reichstag for April 28 to hear this statement."

Before the announcement, Nazis had predicted Hitler's answer would be an angry and abrupt rejection of the President's appeal, if he did not ignore it altogether.

May Accept Fact  
But today's announcement was informed quarters expected belief he might accept parts of the President's proposals as a basis for further consideration and offer counter proposals of his own.

It was suggested he might take the view that the proposals came from the American people and discuss them on that basis, at the same time refusing to agree to the President being a sort of middle man between Germany and other nations.

Well informed quarters expressed belief Hitler would make the speech the occasion for a broad outline of the entire European situation from the Nazi viewpoint.

Made in Austria  
As the announcement of the reichstag meeting was made, Hitler was visiting his native Austria.

He was expected to meet there tomorrow his right hand man, Field Marshal Hermann Goerring, leaving Munich by special train last night after long conferences with Joseph von Ribbentrop, his foreign minister, Hitler arrived this morning at St. Pölten, 30 miles west of Vienna, and was met by Gen. Walter von Brauchitsch, commander in chief of the army.

Gen. Brauchitsch, who had been in the St. Pölten garrison and inspected infantry, cavalry, artillery and tank units.

Goering En Route Home  
Goering left home today after a week's series of conferences with Premier Benito Mussolini and Count Ciano, Italian foreign minister, on "axis" policy toward the President's message.

It was expected Hitler and Goering would meet at Vienna tomorrow and return to Berlin for Hitler's 50th birthday celebration on Thursday.

ALLEN LEADER GIVES TESTIMONY  
WASHINGTON, April 17 (U.P.)—David Lasser, president of the Workers Alliance, testified before the House subcommittee today that his organization of WPA was financed by his trip to Moscow in 1937 for the 25th anniversary of the Soviet revolution.

Lasser testified under questioning by Committee Chairman C. C. Young, that he also visited again through the WPA, European trip.

He appeared under subpoena before the house subcommittee investigating WPA. The announced purpose of the committee was to determine the relationship between the Alliance and the WPA.

GOERING CARRIES ITALY REPLY TO FDR'S PROPOSAL

By STEWART BROWN  
ROME, April 17 (U.P.)—Field Marshal Hermann Wilhelm Goering left for Berlin today with a draft of Premier Benito Mussolini's reply to President Roosevelt's peace proposals.

The reply was understood not to be a complete rejection but to reject at least the major portions of the proposals. A decision on when the answer should be forwarded will not be reached until Goering confers with Fuehrer Adolf Hitler and Foreign Minister Joachim von Ribbentrop.

May Be Delayed  
It therefore may be delayed for some time and perhaps be held up to coincide with Hitler's address to the reichstag. The possibility was not discounted that the reply might be changed after a further exchange of views between the dictators, or by international events in the interim.

Qualified Fascists insisted that Italy's and Germany's replies will be negative in substance but at the same time suggest that the general idea of non-aggression pacts and disarmament and economic conferences is not distasteful to Italy and Germany, the matter is brought in other ways.

Revel Inference  
The two leaders were said to be replying, any implication that Italy and Germany are trouble makers and that proposals based on that premise are unacceptable.

British Star's ally's apparent desire to delay a reply as long as possible is believed to lurk behind the cautious Italian and German replies. The reaction to make acceptable proposals which will take the sting from Mr. Roosevelt's clear inference that Italy and Germany are the only potential aggressors in Europe.

The Italian press meanwhile bitterly attacked the Roosevelt message, the Messaggero even saying that it should be "considered an act of war."

Court Rules Alien Not Liable for Deportation

Two men were in the county general hospital today, one in a serious condition, as the result of injuries received in an early Sunday morning crash 15 miles east of Twin Falls on the Old Oregon Trail.

The injured: Ira Johnson, 38, Murtaugh farmer, broken pelvis bone, fractured skull, cuts and bruises.

Frank Handell son of Mr. Johnson, broken jaw and injured hip.

Two other occupants of the machine who were slightly injured were relieved after treatment at the hospital. They were Norman Dragoon and Elmer Johnson, both of Murtaugh. A fifth occupant, Fred Thompson, was uninjured.

His Utility Pole  
The automobile, driven by Johnson and carrying the other four men as passengers, left the highway and crashed into a utility pole after traveling a distance of 16 feet. The car then started back toward the highway, traveling a distance of 96 feet before coming to a stop. It burned over four feet.

A passing motorist, Joe Hartz, Murtaugh, brought the injured to the hospital. The front end of the machine was demolished and the front end was split wide open according to Sheriff Al Parker and others.

Great Storm Blows Across Three States

LITTLE ROCK, April 17 (U.P.)—At least 33 persons were killed in the violent tornado storm which swept across Texas, the northwest corner of Louisiana, and Arkansas yesterday. United Press correspondents in the stricken areas estimated the injured to number 100 and reported severe damage.

The terrific wind first struck in southern Texas Saturday night and last night blew itself out in northern Arkansas near the Missouri line. Its worst toll was taken in southwest Louisiana, where it struck a country church at Center Point, Ark., nine miles from Dermott, and killed the pastor and at least 12 of his flock.

A short time before it struck the church its path took it through Haynesville, La., killing seven persons.

The dead by communities: Center Point, Ark., 13; Haynesville, La., 7; Collins, Ark., 6; Pine Creek, Tex., 2; Haynesville, La., 1; Tiller, Ark., 1.

Center Point is a cluster of a few houses and a Baptist church in a community of farms. Some 125 persons, including a number of Negroes, gathered at the church about 2 p.m. Sunday for the funeral of W. B. Best, a minister. When the Rev. Thomas West had said the last prayer and Best's grave had been filled in, it was raining and blowing hard and about 60 of the mourners took shelter in the church.

Called for Hymn  
The Rev. West went to quiet the fears of several women in the church and called for a hymn. At the mixed voices were raised in the church's traditional funeral hymn, "God Be with You Till We Meet Again," the tornado's funnel came roaring out of the west, dipped to earth and struck the Holy building, breaking its steeple, blowing off the roof and the bodies of victims were sucked up and carried for several hundred yards.

The wind caught up with Undertaker Raymond Stevenson, who had departed the church when his office was hit, and he was carried about five miles away. He turned his automobile and sped back toward the church. The debris of trees, parts of roofs and outcrops blocked the road and it required him more than an hour to reach the scene of the devastation.

Called Police and Hospitals  
He called police and hospitals in Dermott, Warren and Monticello for the telephone he could reach. Ambulances were alerted but could not negotiate the roads laid by heavy rains. Stevenson managed to bring out the bodies of two victims.

STRECKER CASE DECISION GIVEN

WASHINGTON, April 17 (U.P.)—The supreme court ruled today that federal law does not authorize deportation of non-naturalized alien who belonged to an organization advocating overthrow of the government if they no longer belong to that organization.

The opinion was rendered in the case of Joseph George Strecker, an American-born man who had been deported on grounds of membership in the German party of the United States.

The decision, written by Justice Owen J. Roberts, was expected to be of vital consequence in the long-standing controversy over the status of Henry D. Butler, a non-naturalized Australian-born man who had been deported on grounds of membership in the German party of the United States.

Butler's case has been pending in the supreme court since 1935. He was deported on grounds of membership in the German party of the United States.

IN OHIO VALLEY

LOUISVILLE, Ky., April 17 (U.P.)—Heavy rain and flood waters from mountain tributaries poured into Ohio valleys today and threatened lowland towns in West Virginia, Kentucky, Ohio and Indiana.

The Ohio river was rising steadily from West Virginia to southern Indiana.

National Red Cross headquarters at Washington predicted 3,000 persons would be homeless in the valley by tomorrow if rainy weather continued. Forecasted meteorologists expected more rain.

Three persons drowned. A woman fell into the water from a bridge. A boy drowned at Reynolds, Ky., when his automobile was washed off a bridge by the swollen Youngs creek at Franklin, Ind.

Red Cross officials said many persons had already been rescued from their homes in sections of West Virginia and Ohio.

DANZIG SET FOR RETURN TO REICH

BERLIN, April 17 (U.P.)—An agreement between Germany and Poland for return of the free city of Danzig to the reich was reported in well-informed circles today to be near conclusion.

Although official sources were reticent to elaborate on the subject, it was generally reported in Nazi circles that an agreement on Danzig would be expected shortly. It was said to be concluded in the time to make the return of the free city to Germany compatible with Adolf Hitler's recent 50th birthday celebration Thursday was uncertain.

There has been no direct contact between Nazi Foreign Minister Joachim von Ribbentrop and Polish Ambassador Josef Lipski in Berlin during the past week, but reliable sources said they would resume conversations soon.

At the same time, reports from Warsaw said that secret conversations already had been started there.

It would be a great surprise to many in the reich if the Danzig question were already being handled by the Polish and the German governments.

# DEFENDANT WINS IN PHOTO CLASH

Without ruling on constitutionality of a Twin Falls city ordinance regulating photography solicitation, Judge W. Porter today has cleared the way for a defendant in a photo clash case.

The defendant, who is charged with violating the ordinance, was granted a writ of habeas corpus by the court.

The ordinance requires that photographers obtain a permit from the city clerk before soliciting for photographs.

The court ruled that the ordinance is unconstitutional as it infringes on the right of free speech.

## Gotham Romance Culminates Here; Army Man Weds

A Manhattan romance culminated in marriage here Friday when Mrs. Anita Valentine Melina, and Lieut. Anthony Quasada, both natives of New York, exchanged nuptial vows.

They were united in marriage at 8:30 a. m. yesterday morning at a nuptial mass at St. Edward's Catholic church. Father H. E. Hezian officiating the mass. The bride is the daughter of 77 and Mrs. Valentine Melina and the bridegroom is the son of Mrs. Anthony Quasada, New York City.

Lieut. Quasada is second in command at the Rock Creek CCC camp where he has been located for four months.

According to the couple were Lieut. and Mrs. Vincent Barera, at whose home the bride-elect has been a house guest since her arrival earlier in the week from New York City.

For her wedding, the bride chose a smart teal blue ensemble accented by an old-fashioned corage, with which she wore white accessories. The matron of honor was dressed in a blue dress and yellow accessories, and an old-fashioned corage.

A wedding breakfast was arranged informally at the future home of the couple in the Jutaniere Inn.

## LITTLE CONTEST FOR CITY POSTS

GOODING, April 17 (Special).—An exciting day for the Gooding city election looms in the near future. It appears that only one officer will be contested, unless last minute candidates toss their hats in the ring via the petition method.

On the final day for filing names, Anderson entered the race for city clerk against E. L. Stibben, city clerk for the past 20 years.

All other officers will be uncontested candidates for reelection. Mayor A. F. James, and councilmen Harold Bright, Bob Lyons, Fred Vandegrift and Herb Myers will all be up for reelection.

Registration is now open at the office of the city clerk, and final date for registration is Saturday morning. Persons desiring to register may do so between the hour of 9 a. m. and 5 p. m. the city clerk announces.

## Girls' Home of Salvation Army Fills Vital Need

For the past 50 years, the Salvation Army has operated homes and hospitals on the Pacific coast and in western states for unfortunate girls.

# Metropolitan reports to its policyholders—

## HIGHLIGHTS OF 1938

The Metropolitan Life Insurance Company is a mutual company. It is operated solely for the benefit of its 29 million policyholders, whose life insurance with this Company totaled over \$22,612,000,000 at the end of the past year.

In 1938, more than \$566,300,000 was paid to policyholders and beneficiaries, and \$176,000,000 was added to statutory reserves for payment of obligations which will accrue in future years under present policies. Dividends paid in 1938 amounted to \$103,940,000. A still larger sum—\$118,042,000—has been set aside for dividend payments in 1939.

Metropolitan has paid, since 1927, more than \$5,000,000,000 to policyholders and beneficiaries.

More than \$1,800,000,000 of life insurance protection was provided by the 3,330,151 new policies issued during the past year.

Assets held for the benefit of policyholders and beneficiaries—which include more than 100,000 carefully selected, diversified investments—amount to more than \$4,900,000,000.

As part of its welfare program in 1938, Metropolitan distributed 68 million health booklets—an average of 1 every half-second—and published monthly health-education advertisements in magazines whose combined circulation for the year was over 300 million copies.

Metropolitan welcomes every opportunity to provide its policyholders with information that will enable them to have a clearer understanding of how the Company operates. To help accomplish this, the Company is publishing a series of educational advertisements in magazines, and seeks in various other ways to keep its policyholders informed. A booklet, soon to be available, contains a detailed account of Metropolitan's progress in 1938. We shall be glad to send a copy on request.

# Roosevelt Plea for Non-Aggression Fails to Halt War Processes

## BRITISH, FRENCH MORALE BOOSTED BY FDR'S PLANS

By WEBB MILLER  
(Copyright by United Press)

LONDON, April 17 (U.P.)—A week-end survey of European authorities indicates that President Roosevelt's peace plan has put Hitler and Mussolini "on the spot," but has utterly failed to halt the processes making for war.

The American President's move to preserve peace caught all of Europe's statesmen and men in the street, alike, by surprise.

It raised immediately the questions: Will the message tend to dispel the prospect of war? Will it accelerate or retard the tempo of the processes making for eventual conflict?

Telephoned authorities whose business it is to know every fluctuation in international affairs in Paris, Berlin and Rome. I talked to men in similar positions in London and lesser capitals.

The result of the survey was that the following positive results are emerging:

### Seizes Initiative

1. President Roosevelt appears to have seized momentarily the diplomatic initiative which the dictators had been holding by spotlighting before the world the positive extent of their ambitious plans.

2. He greatly strengthened the morale of the European anti-aggression front, which had been none too high.

3. He helped crystallize world opinion outside the totalitarian bloc toward the view that responsibility for war rests on Hitler and Mussolini.

Mr. Roosevelt's message convinced the leaders of the anti-aggression front in Europe that the United States is morally on their side and would be almost certain to be economically on their side in the event of war.

### Military Aid?

Further, it increased the opinion in some sources that the American people probably would lend military aid as well in an emergency.

In a general way, this reaction tends to solidify the masses in support of measures which the European governments are taking under the leadership of Great Britain and France.

### Can't Be Halted

I found, however, that not even the most optimistic believed that the processes which are making for war would be halted as a result of Mr. Roosevelt's message.

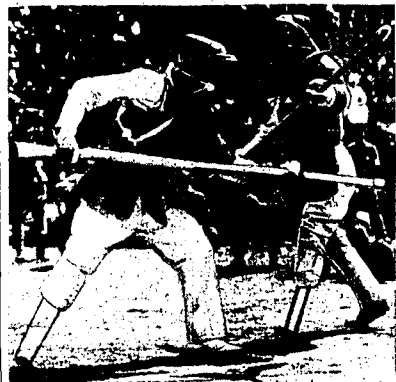

The outstanding reason for this view is that the totalitarian partnership of Germany and Italy and Japan has reckoned on advances in the possibility of American influence and—rightly or wrongly—on the possibility of American economic or even military aid to the British-French bloc.

### Oppose U. S.

Ever since the strong American reaction to the German anti-Semitic program and the invasion of Czechoslovakia and Albania, the Rome-Berlin axis dictators have been including United States aid or intervention on the side of the anti-aggression bloc in their calculations of what is to come.

As a result, the strengthened bond in Britain and France of American

## M'CLUSKY CAMP PROJECT STARTS

With only about two months in which to complete major phases of the M'Clusky memorial camp improvement program, a WPA crew will start Tuesday morning on the extensive project, according to John Griffiths, zone engineer.

The crew, consisting of a dozen workers, will start there on building a kitchen, refrigeration room, wading pool and boys' dormitory. Other portions of the program probably will be held over until after conclusion of this summer's camps for older girls and for younger boys and girls.

H. E. Scholz, operations director for Idaho WPA, said the work that meant start of the camp improvements will be held over until after conclusion of this summer's camps for older girls and for younger boys and girls.

## TWO BANDITS SLAIN

NEW ORLEANS, April 17 (U.P.)—Two bandits slain in a running gun battle near Lakeview, Miss., were identified by the federal bureau of investigation today as Arnon Clay Davis, 25, Mississippi badman, and James E. Holland, Dallas and Fort Worth, Tex. H. L. Morgan, New Orleans G-man was slightly wounded by a bullet from one of the bandits' guns.

help is not likely to weigh much with Hitler and Mussolini.

I found very little hope for the international economic and disarmament conferences suggested in Mr. Roosevelt's message.

Mr. Roosevelt's message, as European nations in these days put little faith in validity of treaties or duration of agreements because of unhappy past experience.

## AMLIE NAME TO BE WITHDRAWN

WASHINGTON, April 17 (U.P.)—President Roosevelt, preparing formally to withdraw his nomination of Thomas R. Amle as interstate commerce commissioner, made public today a letter saying that the factor which prompted the withdrawal "all serves the Democratic form of government which this nation as a whole wishes to continue."

"I deeply regret that a certain type of opposition should deprive one as able and as wholeheartedly devoted to public service as you are," Mr. Roosevelt wrote.

Amle requested the withdrawal in a letter to the President April 7, after it became obvious that his opponents in the senate had made his confirmation impossible.

Opposition to Amle centered on charges that he sympathized with Communistic objectives. Amle denied the assertions Mr. Roosevelt said that he, too, was called a Communist and "wild-eyed radical," a quarter of a century ago because he fought for factory inspection, a 34-hour working week for women and children and other social measures.

## Read How This Road-Drying Sensation Gives You Quickest Non-Skid Stops On The Road!

**SENSATIONAL!** You bet! For here at last is a tire that automatically sweeps wet roads dry—no dry, in fact, that after a quick stop you can actually light matches on its track, convincing proof that the new Goodrich Safety Silvertown will give you the quickest non-skid stops you've ever had!

And here's the secret of this tire's amazing road-drying ability: As the never-ending spiral bars of the Life-Saver Tread roll over a dangerous film of water, they act like a rapid-fire battery of windshield wipers, sweep the watery film off—force it into the deep drainage grooves—make a DRY TRACK for the rubber to grip. The very first time you've experienced a SILVERTOWN STOP on a wet slippery pavement you'll realize that you have found a new kind of protection.

**NO EXTRA COST!**

And whether roads are wet or dry, Silvertowns AT ALL TIMES give you that other great life-saving protection—the famous Golden Ply. Its resilient internal fire heat, this exclusive Golden Ply invention provides you with scientific protection against dangerous high-speed blowouts.

But remember, to protect yourself against a possible skid or blow-out tomorrow, you must act today. For safety's sake come in and have your car equipped with streamlined Goodrich Safety Silvertowns. There is no extra cost!

**BEST LAST YEAR—BEST THIS YEAR!**

In two series of non-skid tests the regular and premium-piled tires of America's latest life-saver tread, in hundreds of tests which have just been introduced, were tested by the famous independent Pittsburgh Testing Laboratory. Here's their report:

"The new Goodrich Silvertown, with the Life-Saver Tread, gave superior resistance than any other tire tested, including not only the old established tire of these manufacturers—some listed at 40% to 70% higher in price—but also the new tires which were recently tested under the same road conditions."

# SENATOR TERMS NLRB "WHOLLY BIASED AND UNFAIR"

## BURKE DEMANDS SET-UP CHANGES IN WAGNER ACT

WASHINGTON, April 17 (UPI)—Sen. Edward R. Burke, D. Neb., today denounced the national labor relations board today as "wholly biased and unfair." He urged the senate labor committee to amend the Wagner act to set up amendments in the labor relations act which would make it impossible for a "reality."

Appearing as the second witness before the committee which is considering various proposals to change the present law, Burke accused the present members of the labor board of putting the federal government in the business of stimulating establishment of labor unions, and of being partisan advocates of a particular type of national unionism.

**To Present Opinions**

He asked the committee's permission to present later employers and employees "who will give you first-hand information as to how the act has affected them." This was in answer to Sen. Robert F. Wagner, D. N. Y., who said the labor act, which was passed in 1935, had been "a great success."

Burke's proposed amendments would completely reorganize the present personnel, drastically reduce its administrative functions and place equal responsibility for unfair labor practices upon employers and labor unions.

**"Blind Partisans"**

Burke criticized "blind partisans" of the present act and its administrative board who "make light of the suggestion that anything need be done to make this law fair."

He contended he was not opposed to the "broad objectives" of the act, but that he did not mean that "the interpretation" by an enforcing agency that has been rightly denounced from one end of the country to the farthest corner as wholly biased and unfair.

## OFFICIALS LINK ROBBERY SERIES

BOISE, April 17 (UPI)—Police and sheriff's deputies attempted today to link together a series of recent burglaries in Boise, Mountain Home, Parma and Melba as the work of the same men.

The burglars made off with \$3,000 in cash and checks from the Pacific Fruit and Produce company Saturday. They transported the sale in a stolen truck to an isolated spot, then looted the safe and burned the truck.

The Baron C. C. Anderson store, the Blunk Montgomery store in Mountain Home and the Wharton store in Melba were all robbed of merchandise and cash within the last week.

**Apastoli Battles Nichols Tonight**

BURTON, Tex., April 17 (UPI)—Middleweight Champion Freddie Apastoli of San Francisco fights George Nichols of Cleveland tonight in a scheduled 10-round bout.

Apastoli was the favorite. Nichols came out of retirement and has won four times since the first of the year.

## CHEMURGY HELPS FARMERS PROFIT

(From Page One)

set the same farmers to making rubber and rubber for chemurgy is confident that these crops can be successfully produced at home.

Thus, over a period of years, chemurgy's agricultural products would be put to work, new crops would be substituted for old new demands, and new wealth would be created.

Chemurgy, as a matter of fact, is already doing some of these things after four years intensive experimentation that began with the first chemurgy conference at Dearborn, Mich., in May, 1933. The two main fields are the headquarters offices of the National Plant Chemurgy Council at Columbus, O.

**The Chemurgy Pace**

Through chemurgy, the first section newspaper mill is now under construction at LaPorte, Tex., a \$6,000,000 plant pointing to a whole new industry for southern pine. Sixteen additional paper and pulp plants are planned or are being built in the south.

Soybeans, with scores of actual and potential uses, a little known crop a few years ago reached a production of 57,000,000 bushels in 1938. Likewise, tung oil trees now represent an estimated 135,000 acres on the Gulf coast.

Flax for the first time is being turned into cigarette paper and a new mill is rising in Piquet, Pa. Synthetic wool made from rayon and cotton may be produced soon on a commercial basis.

"Acrid," the motor fuel distilled from corn, has already been produced commercially at Abbeville, Kan., and Idaho is doing the same with potatoes.

Chemurgy is now used in 35 states for lining ditches, and in highway and airport run construction. It is being tested for a variety of other uses as well, ranging from houses to hospitals.

Plastics, utilizing cotton, soybeans, and other crops, are now being used in the most rapid growing of all chemical industries.

# JACK ROPER GETS CRACK AT TONIGHT

## Senators Meet Yanks and Reds Tangle with Pirates in Openers

### Louis Expected to Score Knockout in 6th Defense Of His Heavyweight Crown

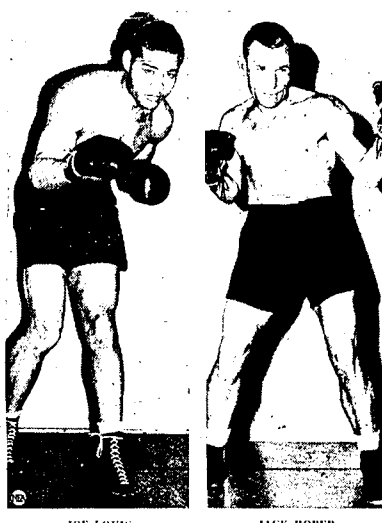

#### Odds Favoring Negro Quoted At 15 to 1

By RONALD WAGONER  
LOS ANGELES, April 17 (UPI)—The movie folk took up strange celluloid dramas, but none more malapropos than tonight's in-the-flesh heavy-weight title fight between an ancient studio electrician and the most savage puncher of the era.

The cinema story-tellers would hesitate to script the likes of venerable Jack Roper into the same ring with a killer like Joe Louis, but no situation is so improbable as the fight between the two. Jack and Joe will be in the ring tonight for their eues-the-gone-at 10 p.m. 1 Round will be the only one.

If Roper who claims to be 36 years old, lasts a full round against the Detroit dynamiter, it will be taken as a sure indication that Joe is slipping. Jack, who plays in Klieg lights and handles electrical equipment around one of the big film canneries, never has done anything to make anyone feel he might have a chance against Louis.

#### Battle for World Heavy Crown

JOE LOUIS JACK ROPER

There is virtually no betting because every one is so sure Roper hasn't a chance. It seems to be only a question of when he will be counted out. The wagering is even money that he will not come up for the fourth round. That is, he will be counted out before the fourth round, and 5-1 that he will not be on his feet at the final bell.

Some so-called "wise money" (taking advantage of the odds) is reported going on Roper to win at prices from 10-1 to 15-1.

Both men entered training in good condition.

Except for the 11 admitted years in Louis' favor, there is little physical difference between them. Joe is an inch taller and has an inch longer reach.

### Bott to Toss Opening Ball at Pocatello

POCATELLO, April 17 (Special)—High dignitaries of the state of Idaho will take part in the gala opening day celebration to be held here in connection with the inauguration of the Pioneer League baseball season on Tuesday afternoon, May 2, when the Pocatello Cardinals play host to the Twin Falls Cowboys.

Gov. C. A. Bottrell, Lieut. Gov. Donald S. Whitfield and Milton Hunsley of Soda Springs, speaker of the house, have accepted the invitation of Art Rountout, business manager of the Cardinals, to attend the opening and take part in the pre-game ceremonies. They will join Mayor Robert A. Terrell of Pocatello and Jack Hallock, state representative from Hammar county and president of the Pioneer League, in helping to toss the ceremonial ball.

Bottrell, now and completely modern baseball park, in the neighborhood of 4,000 feet, will be ready by May 2 and club officials are preparing to take care of a capacity crowd.

The Chamber of Commerce is backing the opening day celebration and will ask local merchants to give their stores early reservations to attend the game. There will be a parade through the downtown section in which members of teams and state and city officials will take part. The parade is scheduled for 1 p.m. with the ceremonies at the park at 2 p.m. and the game starting promptly at 3 p.m. Out-of-town fans are asked to arrive early to insure themselves a place in the grandstand seats which will be available at 4 cents and bleacher seats at 20 cents.

The Cardinals, backed by the 14,000 Cardinals of the National League, are in training now at Woodland and will arrive in Pocatello on May 1, the day before the opening.

**Sixth Defense**  
This will be Louis' sixth defense of the title he won from Jim Braddock in June 1937.

His only defeat came with a secret gymnasium workout yesterday, and John Rothbard, one of his managers, said, "It is very, very good condition. We are not understanding Roper." Roper, who thinks his left hook is good enough to knock out Louis, is in the best shape of his career, according to Trainer George Lewis.

### Boaters Spend Day at Springs

Pleasure boats, owned by members of the Southern Idaho Boating Club, Sunday invaded the Snake river valley near Thousand Springs to enjoy the day. The boats, which were out for the day, were seen on the river from the annual regatta and carnival which will be staged there Sunday, May 1.

During the afternoon more than 1,000 persons visited Thousand Springs park and nearly 300 persons took advantage of pilot boating, which is the only sport which was operating and handling passengers.

With boats from over the state entering the river, more than 30 craft are expected to take part.

Members of the Inland Junior Chamber of Commerce will meet at 8 p.m. Tuesday night to discuss further plans for the regatta, sponsored by that organization in cooperation with Charles Wing, operator of the park.

### Tennis Club Will Elect

Election of officers and charting of 1959 activities will be carried out by the Twin Falls Tennis club at its annual meeting set for 7:30 p.m. Tuesday. President Henry Graham announced this afternoon.

The club members will convene at that time at his business office at 100 E. 1st and 7th.

The elected staff, which will be up for replacement or reelection, includes: Mr. Graham, president; Mr. W. C. Hunsley, secretary; and Mrs. L. L. Mohr, secretary-treasurer. Al West, treasurer, chairman of the maintenance committee, and a number of the club's standing committees.

Among business matters to be considered after election of officers will be the election of what insurance policy, if any, are to be made at the club court located at Addison and 12th avenues. Also to be discussed will be the question of a number of tennis matches be arranged. With some possibility to be played by the club's tennis team, the Klamath Falls tennis team and the new Klamath Falls tennis team.

### Bobby Riggs Wins New Net Crown

CHATTANOOGA, Tenn., April 17 (UPI)—Bobby Riggs, national top-ranked tennis player, won the singles championship of the Tennessee Valley Invitation tennis tournament, and teamed with Elwood Cooke of Portland Ore. to win the doubles crown.

Riggs, 31, defeated Wayne Fabin, Los Angeles, 6-1, 6-1, 6-1 in the finals. Fabin and Cooke defeated Robin and John Johnston of Chicago, 6-4, 6-1, 6-0, 6-4.

He is automatically unfortunates enough to have an uninvited referee sitting on the line. The person you should get to act as umpire. Thinking it only a game, the referee will not realize the utter satisfaction you are getting out of saving.

You know.

You think you do.

You wouldn't, no good reason.

Get out of out of here, you big cheat!

When lunchtime comes you should drive on a lukewarm dog. But a hot dog is a hot dog, because there never was such a thing as a hot dog served at a ball park. When on the lukewarm dog an inferior mustard substitution wrap this in paper napkin, and allow it to sit for a full hour. In the meantime drink a good deal more soda pop and then the dog, mustard and most of the napkin which has become an integral part of the dog.

The afternoon should be spent almost entirely in second guessing. Nothing much place you. Wait until something is done and then tell everybody in the house how you would have done it, and how much better your way would have been than theirs.

Late in the afternoon move your chair to a position in the window where the sun shines directly on your eyes and last things you. Later at just about the time you would be watching a ball game, gather the entire family, read the newspaper, and then, on a sudden, everyone try to get through it at one time.

The evening, of course, should be spent in trying to square things with your loss as to why you weren't at the office all day.

### Angels Capture 15th Straight In Coast Loop

(By United Press)  
The rampaging Los Angeles Angels, last year's pennant winners, held a 15-game winning streak today by virtue of their double victory over Portland Sunday.

The Angels started their win streak in the second game of a double-header April 2 against Hollywood. They then beat Sacramento seven straight, and wound up with a clean sweep of the seven-game series against Portland. The Angels took Sunday's doubleheader, 6 to 3 and 16 to 7.

Seattle pulled up in second place game back of the Angels when the Rainiers blasted Oakland for a double win, and took the series two games to two. Paul Gregory, ace of the Rainier pitching staff, won the opener, 5 to 3, in 12 innings. In the second game the Rainiers scored four times off Le Roy Hermann for a 4 to 1 victory.

Hollywood ended another otherwise disastrous series with Sacramento by taking both games of Sunday's doubleheader, 12-2, and 6-0. Jack Puccinelli, 19-year-old outfielder, hit three consecutive homers in three times at bat in the first game.

San Francisco took both games of its Sunday double bill with San Diego. Sam Gibson took the opener, 2-1, after a 10-inning pitching duel with Byron Humphries. Lefty Powell gave the Padres two hits in the second game and shut them out, 4-0. The wins gave the Seals the series, four to three.

### How to Play Baseball By Eddie Leishman

Baseball is the first sport I know of for a young fellow to become interested in, whether he takes it up professionally or as a hobby. It develops good fellowship, a competitive spirit, clear thinking and above all, fast thinking in a crisis. Most players take place in a fraction of a second and it is up to the player to be alert enough to carry them out properly.

There are a few things that pertain to every position on the diamond. Common sense is one. It is most important, as far as signs, or the inner working of the game is concerned. The will to win is another. A boy that doesn't have this feeling is of no help to the club or to himself. There are many ball players today that have the ability to play in the major leagues, but are not due to the lack of this one thing. Relaxation is very important. Most fellows starting out don't make good so badly that they are too tense and tighten up. No one can play good baseball in this condition, as the nerves will not work with the brain. This condition is very common in young rookies. Good physical condition is absolutely necessary.

**FIRST BASE**  
A first baseman if possible, should be tall in order to make a good target for throws from infielders. This is not compulsory, as many small men have played great first base, but they have all been very light on their feet. This enables them to cover as much ground as taller men. Catching is a fine way to condition boys who are not able to hit on their feet. This builds their muscles and makes them more flexible.

A number of first basemen believe their job is finished if they learn to "take a throw from the infielders." This is only the beginning of good first base. He should be as good on ground balls as an infielder and able to diagnose plays. For instance, if the first baseman knows the pitcher is going to throw a ball, he should be in position to catch the ball. He should be in position to catch the ball. He should be in position to catch the ball.

base closest to the pitcher protected in an effort to make the mound slide around him. This gives the first baseman an advantage on a close play.

One of the hardest plays to master is in connection with a double play. He must field a ground ball, throw to second and cut back to first in order to take the throw back from the shortstop. This is a play that has to be practiced until the timing is down perfect. A left handed first baseman finds this play a little easier, as he is in position to throw as soon as he fields the ball. A right handed player has to make a full turn with his body to be in position to throw. This amounts to a loss of two or three steps in running. A snap throw should be practiced on this play in order to save time. That is, throw from where you catch the ball, instead of straightening up.

### Hobson May Quit As Oregon Coach

PORTLAND, Ore., April 17 (UPI)—George Bretz, sports editor of the Oregon Journal, said today the University of Oregon "is in danger of losing the services of its basketball coach—Howard Hobson."

Bretz said Hobson has been up to his ears in the University of California at Los Angeles to take the job, recently vacated by Gaddy Works.

### New Infielder Stars for Cowboy Club

SPOKANE, Wash., April 17 (Special)—It took but one infield practice to show Eddie Leishman that he was not in error in acquiring George Fernal, third baseman from Stanford University to fill the third base spot for the Cowboys.

Fernal is a husky gent, has a nice pair of hands, and can rifle that ball across the diamond in the style, in hitting practice, Fernal took a few hard and true off on several fast ones, parking the offerings of Mattion Duffell far into the outer borders.

The ten remaining infielders of the pitching contingent were sent through a stiff fielding practice, review of hitting fundamentals, and throwing to hitters, working up the day's work with proper games.

Light catches that have been bothering the boys are rapidly being eliminated under the attention of "Doc" Reid. Arnie Anderson, out-pipe infielder, is troubled with a sore leg. Gusden Hill is recovering from an ankle sprain. Bill Stenicek short stop has a small bone loose in his right hand, while Sam Carls, lanky outfielder pulled up with a lame back. The entire squad, however, is working out daily for the three hour training session.

### Mac Tells Citizens How to Get in Training For Opening of Big Baseball Season

NEW YORK, April 17 (UPI)—Every kid thinks American who has ever thrown a ball at a target is about a manager knows that today is the opening of the baseball season.

Many of us fans would be able to see a game because the teams are out of town, but I think we would be less than patriotic if we let the day pass unthwarted and did not pay some sort of tribute to the national sport.

Baseball is an integral part of our nation. If you don't believe it, ask the owner of any team. He will tell you that home plate means as much to our country as Plymouth Rock. He will tell you that the Adamses, the Jeffersons, and the Hamiltons contributed no more to the life of this country than the Rubes Waddles, the Blues Rymonds, the Cletus Poffenbergers, and that the eagle is no more an integral part than the "bird" from the bleachers.

So let us rally on this day, and even though we cannot go to a game, let us give it a little more attention. When arising from bed let us jump straight to attention and, while saluting, say:

I pledge allegiance to my team, as long as it lives in the first division.

Then, let us have a breakfast of peanuts and our favorite soft drink. The peanuts should be fresh from the soft drink can. They should be gulped down a whole small members of your family walk back and forth across your feet. To help you and proper behavior, effect your chair should be placed behind a post.

Breakfast over, the next step in training for the baseball season is to practice double batting. If you are not naturally unfortunates enough to have an uninvited referee sitting on the line. The person you should get to act as umpire. Thinking it only a game, the referee will not realize the utter satisfaction you are getting out of saving.

You know.

You think you do.

You wouldn't, no good reason.

Get out of out of here, you big cheat!

### President Tosses Out First Baseball at Washington Ceremony

By HARRY FERGUSON  
NEW YORK, April 17 (UPI)—Baseball, 100 years old today, enters its second century with the prospect that tight races in both major leagues will set an attendance record in 1959.

President Roosevelt, throwing out the first ball in a game between Washington Senators and the New York Yankees, will start one of the busiest seasons in the history of the national sport. The only other game today is between the Pittsburgh Pirates and the Cincinnati Reds, but tomorrow all 16 major league teams go into action.

For the National League, President Ford Puck predicts a typical day-outside field with seven teams having a chance of staying in the race. Although he names no names, it is obvious that he thinks the Philadelphia Phillies are out of the race before they start.

### HERE and THERE in the SPORTS WORLD

By United Press  
Rolly Hemmely, Cleveland catcher, penitently joined his Cleveland teammates in a workout today, forgiven again for his violation of training rules, but with the warning that the next time he's through.

A wild crowd of 16,891 crammed Boston garden last night to see the Bruins open the national ice hockey title from Toronto. Pitcher Harry Matlack of the Philadelphia Phillies has been returned to Baltimore.

Approximately 1,500 Chicago state and sports celebrities will attend a testimonial dinner tonight for Gabby Hartnett, manager of the Chicago Cubs. They will give him an automobile.

For the first time since 1932, the University of Washington lost a rivalry to California Saturday. Al Ulisich's varsity was defeated by six lengths, his junior varsity by three feet, but his freshmen were victorious by five lengths.

The Chicago Cubs and White Sox are booked to play a benefit game today for Monty Stratton, whose career was blasted last November when an accidental pistol shot shattered his leg while he was on a hunting trip. It was expected that \$25,000 would be realized for Stratton, who now acts as an office secretary and coach.

Rodde Woodrow Rich went the distance as he hurled the Boston Red Sox to a five-hit, 1-0 win over the Boston Reds yesterday. Second baseman Burgess Whitehead, sparkling of the New York Giants infield, signed his 1959 contract at a salary reported at \$10,000. Whitehead apparently has recovered from the nervous breakdown suffered last year following an appendicitis operation.

Mac Tells Citizens How to Get in Training For Opening of Big Baseball Season

By HENRY McLEMMORE  
NEW YORK, April 17 (UPI)—Every kid thinks American who has ever thrown a ball at a target is about a manager knows that today is the opening of the baseball season.

Many of us fans would be able to see a game because the teams are out of town, but I think we would be less than patriotic if we let the day pass unthwarted and did not pay some sort of tribute to the national sport.

Baseball is an integral part of our nation. If you don't believe it, ask the owner of any team. He will tell you that home plate means as much to our country as Plymouth Rock. He will tell you that the Adamses, the Jeffersons, and the Hamiltons contributed no more to the life of this country than the Rubes Waddles, the Blues Rymonds, the Cletus Poffenbergers, and that the eagle is no more an integral part than the "bird" from the bleachers.

So let us rally on this day, and even though we cannot go to a game, let us give it a little more attention. When arising from bed let us jump straight to attention and, while saluting, say:

I pledge allegiance to my team, as long as it lives in the first division.

Then, let us have a breakfast of peanuts and our favorite soft drink. The peanuts should be fresh from the soft drink can. They should be gulped down a whole small members of your family walk back and forth across your feet. To help you and proper behavior, effect your chair should be placed behind a post.

Breakfast over, the next step in training for the baseball season is to practice double batting. If you are not naturally unfortunates enough to have an uninvited referee sitting on the line. The person you should get to act as umpire. Thinking it only a game, the referee will not realize the utter satisfaction you are getting out of saving.

You know.

You think you do.

You wouldn't, no good reason.

Get out of out of here, you big cheat!

When lunchtime comes you should drive on a lukewarm dog. But a hot dog is a hot dog, because there never was such a thing as a hot dog served at a ball park. When on the lukewarm dog an inferior mustard substitution wrap this in paper napkin, and allow it to sit for a full hour. In the meantime drink a good deal more soda pop and then the dog, mustard and most of the napkin which has become an integral part of the dog.

The afternoon should be spent almost entirely in second guessing. Nothing much place you. Wait until something is done and then tell everybody in the house how you would have done it, and how much better your way would have been than theirs.

Late in the afternoon move your chair to a position in the window where the sun shines directly on your eyes and last things you. Later at just about the time you would be watching a ball game, gather the entire family, read the newspaper, and then, on a sudden, everyone try to get through it at one time.

The evening, of course, should be spent in trying to square things with your loss as to why you weren't at the office all day.

ROOSEVELT QUIETLY MAKES GOOD "QUARANTINE"

16 NATIONS OF LATIN AMERICA APPROVE PLAN

WASHINGTON, April 17 (AP)—Diplomatic officials today believed President Roosevelt was quietly making effective against Germany and Italy the quarantine of aggressor nations which he advocated 18 months ago.

Reaction of Mr. Roosevelt's appeal to Chamberlain, Hitler and Mussolini for a 10-year non-aggression pledge was anticipated today. It was believed a number of people would emphasize the isolation of these two nations.

Foreign diplomats, cited the fact with which the president's message fixed responsibility on Germany and Italy for any war that may develop. They said that in doing so he had acted in advance to place responsibility for "war guilt" and that enforcement from major governments of the western hemisphere had confirmed that judgment.

Latin America Approves Disappointment of the administration over unavailing unilateral reception of the plan in Germany and Italy was compensated somewhat by approval of 16 Latin American governments, and of Great Britain and France.

Such consolidation of public opinion against the two nations, now considered to be the principal threats to peace, was regarded by some officials as the first step toward realization of Mr. Roosevelt's proposed "quarantine."

In Chicago on Oct. 5, 1937, the president, referring to German treaties and acts of international aggression, said:

"It seems to be unfortunately true that the epidemic of world lawlessness is spreading."

Joins in Quarantine "When an epidemic of physical disease starts to spread, the community approves and joins in a quarantine of the patients in order to protect the health of the community against the spread of the disease."

Officials stated, however, that alienation of public opinion of great world areas must carry with it to be effective, heavy economic penalties through voluntary refusal of people to purchase products of "quarantined" nations.

Chairman Key Pittman, D. Nev., of the Senate foreign relations committee, said he would not be surprised if Mr. Roosevelt's proposal to Hitler and Mussolini were rejected.

"It would be very surprising if Mr. Roosevelt's proposal were accepted instantly and in toto," he said, "but such a result might serve to pave the way toward obtaining a basis for eventual negotiations aimed at peaceful settlement of Europe's problems."

The president's order for the fleet to return immediately to the Pacific was interpreted in most official quarters as indicative of his conviction in advance that the two dictators would reject his appeal.

The fleet orders were viewed as an emergency move to restore the balance of world naval power and as an indication of this government's belief that a European war was an imminent possibility.

Officials believed that the promptness with which other governments endorsed Mr. Roosevelt's appeal made Germany and Italy responsible for the next move.

Argentina Agrees It was noted that the first Latin American endorsement came from Argentina. That government is investigating a reported plot by German agents to separate Patagonia from Argentina and annex it to Germany.

Canadian Prime Minister Mackenzie King said "It gives the world a chance to hold on the brink of a catastrophe." Mr. Roosevelt's letter, a peace conference before a war instead of after it.

Harvard, Chile, Colombia, Costa Rica, Cuba, Bolivia, the Dominican Republic, Ecuador, El Salvador, Mexico, Nicaragua, Panama, Peru, Venezuela, Uruguay, all added their approval.

French Fleet At Gibraltar On Maneuver

GIBRALTAR, April 17 (AP)—The largest French fleet in many years arrived at this strategic British naval stronghold today as extraordinary military, air and naval preparations were taken throughout the Mediterranean basin.

Three French battleships arrived in connection with concentration of fighting ships that included the battleships Bretagne and Lorraine and the cruisers, Marceau, La Galissonniere and the Jean de Vienne, and the destroyers Tempete, Sismou, Le Fort, La Ralloue, Aqueduct, Mosador and Vella.

The Italian government meanwhile considered it necessary to give Portugal assurances regarding Italian troops in Spain.

The assurances by Italy to Portugal, Spain's neighbor on the west and Britain's oldest ally, represented a new factor.

A guardedly phrased Portuguese government communique told of the Italian government assurance that Italian troops were nowhere near Portugal and thus presumably, could not be a threat to Portugal.

Authorities here had placed defensive boom across entrance to Admiralty harbor and strengthened all land defenses.
