

JAPAN DEMANDS REVAMPING OF SHANGHAI SETTLEMENT

NIPPON LEADERS SEND PROTESTS TO 3 COUNTRIES

By H. O. THOMPSON
TOKYO, May 3 (AP)—Japan informed Great Britain and the United States tonight that it demands a "thoroughgoing reorganization" of the international settlement at Shanghai.

The Japanese demands were conveyed to Joseph C. Grew, United States ambassador, and Sir Robert G. Craigie, British envoy, by Renzo Sawada, vice-minister for foreign affairs.

The vice-minister demanded a "revamping" of the Shanghai land settlement—a step which might lead to abolition of the settlement in which the British have investments amounting to hundreds of millions of dollars.

Gives Answers
The ambassadors called at the foreign office separately, at Sawada's request, and were given answers to representations they presented two months ago relative to incidents in and around the Shanghai settlement in which Japan, Britain and the United States are all interested.

Sawada said that it is obvious, in view of the changed situation at Shanghai, that the settlement needs to be re-examined and "reorganized" in the present complicated arrangement generally are "justified."

British Demands
The criticisms cited by the vice-minister included assertions that: 1. The British dominate all important posts in the municipal council, the settlement's general government.

2. The British hold a majority of all offices at the disposal of the council.

3. The present control of the settlement tends to the continuation of power of a British-controlled "oligarchy."

4. Japanese forces in the settlement have a larger representation in all settlement affairs because of our enormous holdings in the Shanghai area.

Law "Out-Moded"
Sawada said that the present Shanghai land regulations, which have been in effect since 1886, are "out-moded."

"The Japanese government cannot overlook the fact," he said, "that the international settlement has been a base for the operations of anti-Japanese terrorism."

"It is incumbent upon the nations concerned to control terrorism, anti-Japanese propaganda, and all other malignant acts."

REVISION OF NEUTRALITY LAWS APPEARS UNLIKELY

ADMINISTRATION AID NEEDED FOR GETTING CHANGE

By LYLE C. WILSON
WASHINGTON, May 3 (AP)—General revision of neutrality legislation appeared unlikely at the session of congress today under the administration, takes a firm and public part in the dispute.

The senate foreign relations committee will attempt next week to commit the administration for or against a new neutrality bill when Secretary of State Cordell Hull may testify. Chairman Key Pittman, D. Nev., of the senate committee said he had informed him he would insist, on open rather than the usual secret proceedings when a secretary of state appears.

Joint Session
Acting Chairman Sol Bloom, D. N. Y., of the house foreign affairs committee, who also is considering the neutrality legislation, announced he had proposed a joint session with the senate committee to hear administration officials. He would call Hull and the secretaries of war, navy and commerce.

Well informed sources predicted there would be no major neutrality action unless Hull or the President spoke, and soon. It is likely, however, that congress will renege the cash-and-carry provision of the existing act which expired yesterday.

The United Press was informed on excellent authority that the state department at the moment would be content with mere reinstatement of the cash-and-carry provision and continuance of the remainder of existing neutrality law.

May Changes Bill
Administration desire for general revision probably will diminish considerably when Mr. Roosevelt learns that Pittman intends to change his bill to give congress as well as the President the right to determine when the act should be proclaimed in effect. The present law says its provisions shall be effective when the President proclaims that a state of war exists among foreign nations.

He has accepted that as a discretionary grant of power and, in the case of the war between Japan and China, holds officially that no war exists. Congress might be quicker to accept the evidence of conflict. The change contemplated by Pittman would be a major concession to "isolationists" but scarcely enough to persuade them to accept his bill.

He'll Dictate

Bolivia's President Gernando Busch, above, added his country to the list of totalitarian states by issuing decrees which abolished the constitution, suppressed the congress and established a political and financial dictatorship.

Varied Maneuvers
As the inspecting officer looked on, members of Company E constructed a pontoon bridge, went through various troop maneuvers and also repaired "roads."

"I am particularly well pleased with work of the medical detachment," Capt. Prentiss said after various treatments for hurts had been shown.

As regards the demonstrations by the engineers the officer said "Company E is always a good company. Their performance was commendable."

PRICE ON FARM PRODUCTS HIGHER

BOISE, May 3 (AP)—Idaho farm commodity prices on April 15 were one per cent lower than a year ago but higher than for any month since last July, Agricultural Statistician Richard C. Row said today.

Row said the farm prices were about two per cent higher than those received a month earlier and 87 per cent of the pre-war average. All groups in the crop index showed some gain for the month. Potato prices on April 15 were higher than for the previous month.

Map prices declined but were offset by advances of cattle and lamb prices. Poultry and dairy products continued to decline with dairy products reaching the lowest level since 1934. Livestock and products stood at 110 per cent of pre-war, a gain of one per cent from last month and eight per cent higher than a year ago.

Dad's never the "Old Man" to him

Why should he be? What is there about this father that is old? His face may be lined, yes—with the crinkles of good humor. His eyes have seen much, but they're merry—mirrors of a youthful heart. How did he get that way? He didn't! He stayed that way... youthful and unafraid... unskilled in the aimless art of worrying. He remembered that nothing worth while is given away—excepting Time—and Opportunity of which every American has an abundant share. At all costs, he kept the spirit of youth—Confidence, Courage, Vision, Action. It worked for him. It kept him young. It made America.

SEEING IS BELIEVING!

It's smart, popular... a striking way to compare cigarettes... AMERICAN AIRLINES PILOT GIVES A DEMONSTRATION...

SMOKERS... everywhere... are comparing cigarettes by just watching them burn! At the right, O. J. Brown, pilot for American Airlines, shows how one leading cigarette, compared to others, burns *much slower!* It's a CAMEL-E-L! Camels win in this comparison by a wide margin. The reason: Costlier tobaccos... carefully blended... in a cigarette made to burn slowly, completely and smoke cool, mild!

Recently, a group of scientists made this interesting laboratory test on a bigger scale. 16 of the largest-selling cigarette brands were tested impartially. CAMELS BURNED SLOWER THAN ANY OTHER BRAND TESTED—25% SLOWER THAN THE AVERAGE TIME FOR THE OTHER BRANDS. (Camels were remarkably consistent. Cigarettes of some brands smoked twice as fast as others right from the same pack.) IN THE SAME TEST, CAMELS HILD THEIR ASH FAR LONGER THAN THE AVERAGE TIME FOR ALL OTHER BRANDS.

Camel is the cigarette of costlier tobaccos... cool, mellow, more appealing in taste, always so uniformly delightful!

SMOKING IS BELIEVING!

TRY Camels for a really thrilling smoking experience... fragrance, ripe taste, mildness! Camels give everything you want in a smoke... including ECONOMY!

Camels have more tobacco by weight than the average of the 15 other brands tested. Besides, Camels burn slower than any of those other brands. And by burning 25% slower than the average of the 15 other of the largest-selling brands, Camels give you the equivalent of 5 extra smokes per pack!

Camels give you even more for your money when you count in Camel's finer, more expensive tobacco. Buy Camels... America's first choice for a luxury smoke every smoker can afford!

ACTIVITIES SEEN AT HEALTH CAMP

DUBLIN, May 3 (Special)—Work was started on the \$32,861 WPA project at the Buhl McCluskey health camp this week. John H. Griffith, Twin Falls district engineer, has placed John C. Nason, Buhl, in charge of the project.

The improvement project as sponsored by the city of Buhl, calls for the immediate construction of a large wading pool; an addition to the present kitchen with a large walk; installation of a refrigeration system for holding large quantities of food; and the construction of a new building (to be used as an isolation ward).

Isolation Ward
In this new building will be room for eight beds, a small kitchenette and bath facilities. It is to be constructed of the same materials as the present buildings.

A 50-foot long swimming pool is also included in the new project. It will be constructed on the site of the old swimming hole that had been in use until last year since 1916. The plan is to pump clear fresh well water for the new plunge when it is finished.

There is to be an addition to the boys' dormitory with a large fireplace, open on four sides, in the center of the room. It is planned to hold Boy Scout, Girl Reserve and other children's group meetings in this building. This part of the work must be completed before the opening of the camp June 11. After the opening, the work will center in the swimming plunge and will be carried on during the time the camp is in operation.

With the new enlargement to the dormitory, accommodations will be made for 110 children.

Teen-Age Camp

It is planned to open the camp this year with approximately 50 teen age girls, according to an announcement made recently by the chairman of the board, Mrs. C. O. Smithson. The main camp will open July 8 and close Aug. 22. During this period approximately 85 children will be enrolled.

The McCluskey health camp is for all southern Idaho and is one of three such institutions in the state of Idaho. All are under the general supervision of the Idaho Anti-Tuberculosis association.

Again this year the camp management will be under the supervision of Mrs. C. O. Smithson, vice-president of the Twin Falls Anti-Tuberculosis association. Others on the committee are Mrs. L. P. Rayson, treasurer; Mrs. M. B. Weber, Mrs. C. Hamilton and Mrs. A. F. McCluskey.

The L.O.S. church grounds were worked and planted into lawn Friday and Saturday, and the inside of the building was thoroughly cleaned and kaboiled.

Mr. and Mrs. Anderson, Twin Falls, were the speakers at the L. O. S. church Sunday night. Their talk was on genealogy work. Elvin Blackbourn took charge of the meeting, after the opening exercises.

Mrs. and Mrs. Hyrum Pickett had a week-end guests their daughter, Mrs. Leonard Christensen and family, Nephi, Utah.

Guests at the Clyde McFarland and John Jones home are Warren Campbell and daughter, Alberta, Canada.

Joe Cane and daughter, Mrs. Verda Ogilvie, Los Angeles, will spend the summer here and in Twin Falls with relatives.

Mrs. Howard Hall was hostess to the Pioneer Bridge club at her home last week at a no-host dinner. Guests were Mrs. Olinette Street and Mrs. Alvin Kohn. Honorary waiters were Harold James and Mrs. Claude Street.

MATERNAL AND CHILD HEALTH IN IDAHO

Last week I described the program started in 1938 for the care of mothers and infants in Idaho. But so much progress can be handled successfully unless people understand what sort of care these women and children need.

Adequate Care

Prospective mothers need teaching and doctors, busy with their practices, cannot take time to teach each of them individually. Besides the ordinary course of pregnancy, the type of clothes suited to mother and child, and the preparation of the home for confinement are better dealt with by experienced nurses.

But medical care during the months before confinement is most important. The doctor should see the prospective mother once every four weeks for the first six months, every two weeks during the seventh and eighth months, and every week during the last month. Her heart and lungs must be examined. X-ray films are needed in many cases. She must have a blood test to detect unsuspected syphilis, and if infected must be treated at once. (Such treatment spells the difference between a healthy baby and one born syphilitic.) She should have a urine examination and blood pressure measurement at each visit to the doctor.

She must instantly report to her physician headache, swelling of the hands or feet, bleeding.

These precautions would go far toward saving the lives of mothers' deaths caused by diphtheria of pregnancy, and the thousands of wretched syphilitic infants born every year.

Prevention of Infection

Skilful assistance during confinement, the provision of plenty of sterile supplies, and nursing supervision after delivery will reduce the danger of infection following childbirth.

Better than anyone else, doctors who practice in rural communities and small towns know how hard it is to avoid infection when delivery must be done in a home where no preparations have been made and which can be sterilized except in the family washbowl. No one who comes more heartily than they the nursing care now possible for such cases in the areas in Idaho where health units are operating.

Hospital Care

If all goes smoothly, home confinement is entirely satisfactory. But for hemorrhage and the other accidents of delivery hospital care ought to be available. If surgery must be done, there ought to be as good equipment for it as for an appendicitis operation.

It is true that doctors know that generally speaking the less they interfere the better and that the tendency is toward less operating and especially toward fewer Cesareans. But no one ever knows when an emergency may arise. And no doctor can drive off to a confinement on a belated June without an nurse or another doctor to call on for help without a sinking feeling in the pit of his stomach.

What About the Baby?

Too often the baby, if he seems healthy, gets a rather rough reception.

Remember he is used to the temperature of his mother's body and to perfect quiet and perfect darkness. Suddenly he finds himself in a noisy, brightly lighted room, being spat to make him cry, wrapped in scratchy blankets, and then put aside out of the doctor's way. Besides all this, he must begin breathing for himself—something he never had to do before. If these things adjust to his totally new way of life.

Newborn babies should be kept quiet and warm and away from bright lights. They should not be shown to all callers. They ought to be fed often and regularly and have plenty of water. If they are delicate or premature a carefully warmed bed is necessary until an incubator can be obtained.

Above all they should be protected from infection. Not only must their eyes be treated, after birth, to prevent blindness, but the navel dressing must be antiseptic and adults with colds and sore throats must be kept away from them.

This is only a sketch of the care which every mother and even newborn child ought to have. Much of it is not now available in Idaho. If it is to be made available in the future, two things are necessary:

(1) an understanding by people generally that childbirth is not so simple that all preparations urged by doctors and nurses can be ignored safely, and (2) a wide support of public health so that nursing and medical care can be provided for families who have had bad luck financially.

Move Seeks Less Vegetable Names To Halt Mix-Up

MOSCOW, May 3 (Special)—In an effort to standardize the naming of garden vegetable varieties, the Idaho agricultural experiment station is cooperating for the second year with stations in other states in a project aimed to classify garden varieties.

"At the present time too many names are used in the vegetable kingdom," Prof. George W. Woodbury of the university horticulture department declares. "One variety may have half a dozen names yet is the same vegetable regardless of where it is grown. This project is designed to eliminate the extraneous names and help bring about a standard system of naming the varieties."

More than 30 different varieties have been planted this year. Woodbury said, most of them at the Parma branch of the experiment station. Vegetables planted included corn, tomatoes, cabbage, peas, carrots, peppers, beans and beets.

Nationally-known seed houses furnish seed which is planted by experiment stations and observed for growth, yield, shape, color, size, resistance to disease and length of growing season. At the end of the growing season, this information will be sent to a central office which will record the habits of the variety grown in the various sections of the country.

Sponsors of the project include that it may eventually be necessary to establish a system of variety registration and to create a national trial grounds which would discourage the rehashing of old varieties, all in an effort to reduce confusion in the mind of the buyer of garden seeds.

Grain Grading Schools Set

MOSCOW, May 3 (Special)—Meeting a demand on the part of grain dealers and grain growers three two-day grain grading schools are announced by officials of the U. S. department of agriculture and the University of Idaho.

Northern Idaho dealers and growers may attend the first school at Spokane, May 12 and 13, while central Idaho representatives meet at Lewiston on May 15 and 16. Southern Idaho dealers may attend a similar school at Logan, Utah, May 19 and 20.

"Each dealer who attends the school will receive an individual set of 30 samples illustrating the various grading problems peculiar to his region," Dr. K. H. Klages, agronomist with the Idaho agricultural experiment station, announces.

"These samples are to be analyzed at the school, and the dealer can take them home with him for further study."

B. W. Whitlock, federal grain inspector, Portland, and Willis B. Combs, marketing specialist for the U. S. extension service, will attend and take leading parts in the school.

A complete program has been arranged for the two days in cooperation with the county extension agents at each place.

Holy Name Group Forms at Jerome

JEROME, May 3 (Special)—The senior Holy Name society was officially established in St. John's parish Sunday, April 30. Father E. A. Schermsman, pastor of the St. Jerome's church, acting as director of the society, received 21 men of the parish into the organization.

Father H. E. Heilmann, Twin Falls, was celebrant at the mass and presided at the sermon to the group on "Followed Be Thy Name." The ritual of admission into the society took place following the mass and was conducted by Father Schermsman. The official Holy Name buttons were blessed and each of the men were invested with this insignia. The impressive ceremony closed with "Benediction of the Most Blessed Sacrament."

The group then enjoyed breakfast in the dining room of a local cafe, after which a meeting was held for the election of officers. The following were chosen: President, Emmett Emmett; Vice-president, James Hanafin; and secretary-treasurer, Frank A. Titus.

Members decide to hold meetings of the society at the parish house on the second Sunday of each month at 8 p. m.

George Seidel, Twin Falls, gave an address on the origin and purpose of the Holy Name society.

1,000,000 POLISH TROOPERS PATROL GERMAN BORDER

SPEECH BY BECK SET FOR FRIDAY ON DANZIG CASE

WARSAW, Poland, May 3 (AP)—Poland, with 1,000,000 troops massed along its German frontier, celebrated Constitution day with elaborate parades and manifestations of national unity in the streets of Warsaw today.

It was a civil rather than a military demonstration, because the troops could not be spared from border duty.

The government sped its military preparations by doubling the number of officers on active duty, and seeking emergency powers for President Ignacy Moscicki to rule by decree until next November.

Constitution Celebration

Today's parades, air force maneuvers and public gatherings were in celebration of adoption of the first Polish democratic constitution in 1921, on the French revolutionary model.

Foreign Minister Josef Beck will address parliament Friday in reply to Adolf Hitler's demands for control of Danzig and a roadway through the Polish corridor to east Prussia.

Nature of Reply in Doubt

While the nature of Beck's reply to Hitler was in doubt, it was considered certain he would reject all demands and probably would make some demands of his own, particularly for extending Polish influence in Danzig which has an overwhelmingly German population.

Poland's defiant attitude was emphasized by the announcement that copy of Beck's speech would be handed to the German foreign office five minutes before he starts speaking, in the same manner that a copy of Hitler's speech which denounced the Polish-German friendship treaty was handed to the Polish foreign office five minutes before Hitler began speaking.

SALESMAN DIES BY SUICIDE SHOT

GOODING, Ida., May 3 (Special)—Self-inflicted wound from a 12-gauge shotgun took the life of Glen Radloff, 42-year-old clothing salesman from Denver, according to findings of Justice Gilbert Brinton, acting in place of Governor J. E. Muesel.

Brinton's body was found in his car four miles south of Gooding Sunday afternoon.

The body had been sent to Denver today, where the salesman's wife and son survive him.

Motorists and others who passed the parked machine on the Wendell highway indicated that the suicide shot was fired at approximately 4:30 p. m. Justice Brinton and Sheriff Wayne Plack, who investigated, said that death came instantaneously. Radloff had placed the shotgun muzzle below his heart and then pulled the trigger with a piece of sagebrush.

Note found in the car gave directions for disposing of personal belongings. L. E. Andrews, Gooding, discovered the body.

Officers said they believed the Denver man was despondent.

Jaycees Buck "Dictatorship" By Voting No on State Plan

Echoes of "dictatorship" reverberated at the Park hotel last night as Twin Falls Junior Chamber of Commerce members voted an emphatic no to one of the state by-law amendments to be submitted at the Idaho Jaycee convention in Boise May 13-14.

The group voted an equally vigorous no to another of the proposed amendments but opposition to that one wasn't on grounds of coercion.

Forces Subscriptions

The proposal raising the "dictatorship" opposition was the amendment to be introduced by the state Jaycee board forcing every Junior Chamber to have its entire membership subscribe 100 per cent to "Future," the national Jaycee magazine. Failure to subscribe would cause expulsion of the individual chamber from the state group, if the Boise convention approves the amendment.

Discussion at the dinner-meeting in the Park hotel last night indicated that local Jaycees regard the magazine as an excellent publication to which many members will subscribe of their own volition. But Twin Falls doesn't want the state officers wielding a club over the heads of affiliated units. As a result, the local delegation to the convention was instructed to "vote against and work against passage."

Would Boost Dues

Other amendment on which the delegation will vote is a state Jaycee proposal increasing to 50 cents per member the dues each individual club must pay the state officers. The rate now is a flat \$10 per chamber. The increase, it was explained, would mean a considerable boost in the payment that must be made by Twin Falls and by other south central Jaycees.

On motion of E. W. McRoberts, past president, the organization voted to pay the \$5 convention registration fee for all members attending.

COWBOYS POINT FOR WIN OVER CARDS TODAY

Yankees Minus Gehrig and DiMaggio, Slaughter Detroit Tigers

'Just One of Those Days,' Says Leader After Initial Loss

POCATELLO, Idaho, May 3 (Special)—Manager Eddie Leishman of the Twin Falls Cowboys this morning nominated John Steffen, the Seattle hurler, to go to the mound for his team in an attempt to stop the slugging of the Pocatello Cardinals, who yesterday blasted out a 17-1 victory in the opening game of the season.

"We'll win today," said Eddie. "Shucks, it was just one of those days. We hit everything right—we hit it to double plays every time we threatened. Reverse that sort of luck for today's game and we'll win 'em."

The Cowboy manager, so ill that he could barely stand on his feet because of an attack of the flu, seemed somewhat better today, and expects to enter the game on Thursday, or not later than Friday at Twin Falls.

Everybody loses. "Sure, we have to take a beating like that, but everybody has to at one time," Leishman said yesterday. The Yankees beat the Cardinals 17-1 and the chances are they'll turn things around and hit New York today. However, it's too bad it had to happen on opening day.

Only other change in the lineup was the plate where Joe McMahon will take over the backstop duties. He will probably catch the next four games in a row. A youngster just 19 years old, he was considered good enough to travel with Seattle for the first month of the season. However, due to his inexperience, Leishman didn't start him in the opening game. He got into the contest and caught the final frame.

Oppett Wild, the Centralia, Wash. school teacher, whom Leishman figures on becoming one of the outstanding hurlers of the league, started the game yesterday afternoon. He was having difficulty with his control and was behind the hitters all the time. He was replaced by Dave Stewart, who came on in the second inning and ran like a scorch across the plate. Stewart couldn't do any better, and after retiring the side he got into trouble in the next frame when a Card uprailing scored 10 runs on seven hits. Walker, error and hit batted playing a big role and finally Maury Davis, a left-hander, replaced Stewart. The Italian had the same trouble and finally Lyle Turpin took over the duties with only one out.

Turpin got by better in the two and three frames he hurried, allowing the run to score. Cards Get-15 Hits. While the Cards were pounding out 15 hits in collecting their 17 runs, Twin Falls got only six singles and hit into three double plays.

Frank Nelson, Pocatello hurler, was in line to pitch, but he was hit in the pitchers, got four hits on four trips to the plate to lead the batting average.

Friday the veteran Charlie Wiy will lose the opening game in the Twin Falls pack and will be in the meantime, Leishman awaited possible word on the arrival of big Mike Budnick from Seattle to bolster his hurling staff.

The game yesterday was played before a crowd that overflowed into the grounds—an estimated 4,000 being in attendance. Official attendance was 3,203. Many cardinals were present from surrounding territories, including Twin Falls.

Twin Falls Wins Girls' Net Duel
Twin Falls high school girls' tennis team took all five matches in a bout with Gooding feminine racket wielders on the Northside courts yesterday afternoon.

The local girls will play at Burley on Saturday and a return match before entering the state meet at Boise May 15.

Remila yesterday were as follows:
Hazel Terry, Twin Falls, won over Mary Arambert; Gooding, 6-4, 6-4, 6-4; and Arlene Lewis, Twin Falls, won over June Cox, Gooding, 6-4, 6-4.

Donnelly Dean Hudeleston, Twin Falls, defeated Arlene Lewis, Gooding, 6-0, 6-1; and Ann Streifus, Twin Falls, won over June Cox, Gooding, 6-0, 6-1.

In doubles play, Ann Streifus and Dorothy Dean Hudeleston, Twin Falls, won over June Cox and Arlene Lewis, Gooding, 6-0, 6-4.

Twin Falls had won an earlier match by a score of 3-0.

The total population of the district is 66,770,000.

Lewiston and Salt Lake Score Wins

By United Press
Opening day victories placed the Salt Lake Bees, Pocatello Cardinals and Lewiston Indians at top of the Pioneer league standings, as play in the newly organized Class C league began Tuesday.

In Salt Lake City, 2,000 fans saw the Bees, under leadership of Eddie Mulholland, defeat Ogden, 10 to 6. The Bees pounded Ogden pitcher for 14 safeties, while Harry Kessler kept the visitors' 13 hits fairly well scattered.

Cardinals' victories came in the form of a 10-0 win over the Pocatello Cardinals, who were outscored by 10 runs in six innings.

The Pocatello Cardinals blasted four, Twin Falls pitchers for 15 hits, rolling up 17 runs in six innings. The game was called on account of darkness, with Twin Falls scoring but one run. Four thousand fans jammed the Pocatello park, to see the league's roughest scoring in the Idaho city.

Boise was the only home team which failed to survive the opener. In a wasteful, Lewiston bested the Pilots, 14 to 10. Each team used three pitchers.

Special ceremonies were held in the three parks, with Gov. Henry Blood of Utah participating at Salt Lake City, Gov. A. Bateman of Idaho, League President Jack Halliday and others at Pocatello, and Mayor James L. Straight of Boise leading the first ball in his home city.

The same schedule will be carried out Wednesday and Thursday, and then the teams shift to Ogden, Twin Falls, and Lewiston, for opening games in those cities.

Rainiers Gain On Angels in Coastal Race

Seattle moved up to within two and one-half games of the league-leading Los Angeles Angels today on the basis of games played in current coast-to-coast league series.

Hunt and Strayer got homers for the Rainiers as they bested Hollywood, 8-3. Bill Walker was the winning pitcher.

San Diego, meanwhile, routed the Angels, 4-0, behind the four-hit pitching of Howard Graggs.

He knew it three days ago, but it was not until yesterday Graggs announced he had decided to quit his streak of 130 consecutive games—a streak that is a record.

McCarthy made it clear before yesterday's game with the Detroit Tigers, started that Gehrig had been back in the lineup when he himself decided he was ready to play again.

With Gehrig in the line-up the Yankees had been in a slug. With Gehrig out, the line-up was a liability and he had to be replaced by a man who had been in the lineup for 22 runs. Babe Dahlgren, substituting for Gehrig, got a home run, a double, a single and a sacrifice in the first four innings.

YOUR OLD-AGE REPORT ISN'T SHORT-CHANGED BY EMPLOYER

Fear of some workers that their employers aren't reporting the actual full amount of earnings to the social security board to be credited on old-age insurance accounts is without foundation, Charles H. Cannon, manager of the board's Pocatello field office, said here this afternoon.

Mr. Cannon was in Twin Falls all day at Idaho state employment offices, handling matters in connection with the old-age insurance program.

Examination of more than 76,000 old-age insurance accounts, at the request of wage earners desiring statements of their reported earnings, he said, "has revealed that less than two per cent show a difference between the total as reported by employers and that which the board believed should be credited to him."

Metal Plates
Concerning that little pastebored "board" to every worker in a "covered" employment, Cannon today explained the matter of metal plates now being put on the market by some concerns. These metal devices, he said, are not official and are not required.

Appearance of these metal plates and other devices carrying the nine-digit number used to identify each wage earner's account, he explained, "has been followed by a fairly widespread—not entirely erroneous—belief that the social security board has these devices for sale. Many inquiries are arriving at the Pocatello office, and many more at the Washington office, enclosing money and asking for a metal card."

Money Returned
"In all cases, the board's field representative returns the money. The presumed price ranges from a dime to a half-dollar. When the money is returned, it is carefully explained that the only thing the board issues is the small cardboard account number card, now held by more than 4,000,000 workers."

Cannon said that although such metal plates may be one practical means of keeping a permanent duplicate record of the account number, "the government does not require its participants in the federal old-age insurance system, to have anything of this nature."

Bomb Chungking**
CHUNGKING, China, May 3 (U.S.)—Twenty-two Japanese airplanes bombed Chungking today, setting fire to the business district in several places, including a quarter-mile area of the river front.

Chinese planes went into action and one Japanese plane was shot down. Its crew of two died itself by parachute.

Casualties were believed heavy.

Outcrops are shady characters, since they do their work of cutting the plants off below ground surface during the night. Use poison bait, 100 pounds bait, two quarts arsenic, 5-8 gallons of water, and two gallons of molasses.

Truck Driver, A Quiet Hero, Averts Crash

A quiet hero who thought nothing of his instantaneous decision to drive a 40-ton truck into the borrow pit for 400 feet to save the lives of a Montana man and wife and of a Montana man and wife and of his infant son, was going about his truck-driving work with no fanfare today.

He is Rex Johnson, Twin Falls, 27, driver for Conroy Freight lines. He was en route to Los Angeles today with his giant truck as state police officers revealed the story of how he averted a fatal crash Sunday between Blackfoot and Pocatello.

A car driven by Robert Mohler, Nashua, N.H., skidded on the wet pavement as Mohler tried to pass two other machines, which had stopped. The skidding auto headed straight for the oncoming truck driven by Johnson. The Twin Falls man promptly averted into the borrow pit, where his huge vehicle bumped and swayed until he managed to pilot it back onto the highway.

The truck stayed right-side-up and was undamaged, freight line officials said.

State Officer "Dutch" Clark from eastern Idaho said that Johnson's driving feat was a spectacular demonstration of skill and quick thinking. The officer said Mohler, Mrs. Mohler and their baby son would probably have been killed if their car smashed into the truck.

Speaking parts will be given by Ronald Christensen, Jean Christensen, Dale Rowley, Alfred Lee, Richard Tolman, Jimmy Kreamer, Kenneth Blackburn, Ruth Tolman, Kay Egbert, Vaughn Deamer, Melba Egbert, Leta Lee and Burns Egbert.
