## CZECH MUNITIONS SEIZURE BASIS OF U. S. MOVE

## NAZI ACQUISITION OF SKODA WORKS INFLUENCED HULL

WASHINGTON, June 2 (U.P.)—Germany's acquisition of the Skoda munitions works by seizure of Czechoslovakia was one of the major reasons for Secretary of State Cordell Hull's request for the arms embargo provisions of the neutrality law be repealed, an unimpeachable authority informed United Press today.

Possession of these important works, together with the famous Krupp munition works in Germany, has made the Nazi government the world's principal source of military supplies, administration officials said. Small European nations now must depend on Germany for military equipment, even for normal maintenance of international law and order, they said.

**Forced Armaments**  
That situation has been aggravated by Germany's continued state of practical mobilization, thus making it necessary for other European governments to increase their armaments.

Hull, it was said, carefully tabulated the boots in military equipment and the increased armaments manufacturing potentialities obtained by Germany in the acquisition of Czechoslovakia. He concluded Germany had obtained a dominating position in the manufacture of armaments, and that that position was being exploited by her military preparedness.

**To Break Monopoly**  
Hull's request for repeal of the arms embargo provisions was made last Saturday in letters to the chairman of the senate and house foreign affairs committees. It was offered, officials said, as a step to break Germany's practical monopoly and to free small governments from obligations to that country for armaments requirements. The committees have been studying proposed neutrality amendments for several weeks.

Hull, it was said, was convinced that if Germany were permitted to obtain and maintain such a monopoly of the maintenance of international law and order would be impossible, except on Germany's terms. In his letters to the congressional chairmen, Hull said the most effective way of ensuring American isolation from the war was to prevent the outbreak of war in any part of the world.

## SUIT ASKS MINE WAGE PAYMENTS

Suit to collect wage claims totaling \$3,564.50 from nine asserted stockholders of the defunct Idaho Metals corporation had been started today in district court by J. H. Banning.

Named as defendants in the wage claims suit are V. W. Scribner, Roy Langsater, William Lutz, George M. Adams, Mill Lerman, Fred Lutz, A. H. McLain, Eric Adolph, O. S. Burgess.

On his own account Banning sued for \$1,220, representing unpaid wages plus penalty from the time his suit was filed Feb. 23, 1938, to work on the corporation's Elmore county properties, until he was discharged Nov. 30, 1938.

Six other claims assigned to Banning are included in the suit. In each, penalty of an additional 30 days' pay is asked because the employees were allegedly discharged without being paid.

Charles Stout of Clatsop Ferry and Charles S. Stout of Boise are attorneys for the claimant.

Salt Lake City has the lowest percentage of illiteracy (8.5) of any major city in the United States.

## Butter Increase Movement Halts

BOISE, June 2 (U.P.)—A drop in seasonal increase in creamery butter production in Idaho during April brought the first halt to an increased butter production since November of 1937, the U. S. bureau of agricultural economics reported today.

Idaho's butter production for April was 2,650,000 pounds compared with 2,674,000 the same month of 1938 and 2,430,000 in March of this year. The April production was average of 84 above the eight-year average for the years 1930-37.

## SAVINGS &amp; LOAN UNITS SHOW GAIN

WASHINGTON, D.C., June 2 (U.P.)—More persons are placing their savings in federal savings and loan associations in Idaho now than ever before, officials of the federal home loan bank board said today.

The number of investors in Idaho increased from 7,005 in April, 1938 to 9,077 on May 1 of this year. In the 12 months the amount of such savings rose from \$3,028,890 a year ago to \$3,808,880 on May 1, or an increase of \$779,990.

During April, the nine federal associations in Idaho made 70 loans on homes totaling \$104,000.

## U-P NAMES IDAHO DIVISION LEADERS

OMAHA, June 2 (U.P.)—Election of N. A. Williams as vice-president in charge of operation of the Union Pacific railroad, and Otto Jabelmann as vice-president in charge of research and mechanical standards, was announced today by President W. M. Jeffers.

Williams succeeds Howard C. Mann, who has been operating vice-president since Jan. 1, 1937, and who has been relieved on account of his health. The vice-presidency to which Jabelmann has been elected is a new office. Jabelmann has been assistant to the president in charge of research since November 16, 1937.

Jeffers announced also the following appointments: Charles P. Cahill

to be general manager of the eastern district, succeeding Williams, with headquarters in Omaha; Fred C. Paulsen, Pocatello, becomes general superintendent of the south-central district with headquarters in Pocatello; E. F. Tius becomes superintendent of the Idaho division with headquarters at Pocatello; John Gogerty becomes assistant general superintendent of motive power and machinery of the eastern district with headquarters in Omaha; Stanley C. Smith becomes assistant general superintendent of motive power and machinery of the western districts with headquarters at Pocatello.

# Your Own Popular SAFEWAY STORE

## Main Avenue East

### announces the installation of A COMPLETELY MODERN MEAT DEPARTMENT NOW OPEN

This is a service we have long felt the people of our community have deserved—the facilities of a completely modern meat market in the hands of experienced meat cutters and clerks where quality meats may be bought at unusually low prices. The installation of this new Meat Department will assure every resident of our community of this service. The best mechanical facilities, completely experienced and Safeway trained men—and choice, well-fed beef, much of which is selected from local packers—will mean that you can buy quality meats at consistently low Safeway prices. We invite your complete inspection of this new department in your favorite food store.

## Quality Meats...Popularly Priced

Upon the theory of the "best possible for the least amount of money," this Safeway Store Meat Department follows out the highly successful methods of other Safeway departments. You have become used to the fine quality groceries and canned goods which you always find in our markets—and the low, easily read prices at which they are sold. This market will bring you the same economy! Ample displays, complete facilities and helpful clerks will make shopping a distinct pleasure here!

We sincerely invite your patronage

## We urge your support in the Nation-Wide FARMER-CONSUMER CAMPAIGN on DAIRY PRODUCTS

The month of June marks another Farmer-Consumer campaign for dairy products. Dairy Products bring everyday revenue to the farm homes and afford the consumer a constant source of high quality foods. With 13,000 dairy cows in the county and each, according to State Extension Department figures, giving at least 200 lbs. of butterfat a year, the income to Twin Falls County farmers would run in excess of \$800,000.00 per year. Add to this figure the money expended for wages by the industry and the total would approximate the million dollar mark—a tidy income for our community. Such an income, of course depends upon the market our farmers find—that's the reason Safeway enters into such Farmer-Consumer campaigns with enthusiasm. Hence, we urge you to buy—wherever you buy—the fine dairy products which our own farmers are producing. In every Safeway store you'll find Idaho dairy products featured consistently. Buy them! Use them! They're high quality—and they are Home Products!

Idaho Dairy Products featured daily by our stores

## POT SHOTS WITH The Gentleman in the Third Row

YOWSAH, THE ELK CAN ADVISE 'EM!

Dear Pot Shots:

Here's a feminine dilemma for you!

A bunch of the gals were "blitting up the cards" last night, and most of them were novices at poker.

During one deal, they got into quite a squabble because one had a straight another a full house and the third a flush.

They were stymied, couldn't decide which was highest—can you imagine it?

One of the more resourceful members of the group picked up a phone and called "90" for information.

"We've got a flush, a straight and a full house, and we don't know which is the highest."

Said Jerry, "Well, if you're drawing hands like that, I advise you to come on down and get into a real game."

—Hometown Hannah

## The Senator Buys Into Golden Gate Bridge

My Good Man:

Having always the welfare of my constituents at heart, I feel I should warn them of some of the pitfalls yawning for them at the World's fair in S. F.

New the first thing I did there was to buy a block of stock in the Golden Gate Bridge.

When I bought the stock, I was told to the bridge and told me flat-footedly and emphatically that the Golden Gate bridge was a great thing and that I should be proud to own it.

Being a man of integrity myself, I naturally believed him. But folks lie! That bridge, though it does resemble a harp, has not a tune in it!

Those poor little cable cars that run up to Chinatown and are turned around by their crew on a turntable at Market St. and then go back down to the water.

Finally, a guy with a cant hook who had been helping out, tapped me on the shoulder and said:

"Buddle, screw it. Best it, we are paid for this work, we don't need you."

Those elephant trains are not, regardless of all reports, pulled by elephants.

Before the parade of nations, on opening day, was detailed to go 20 minutes ahead of it to prepare the populace, especially the old folks, for the parade of the S. F. band.

I and I have watched those little wobbly cars carefully for hours on end, and I have seen them go down the numerous steel tunnels and I swear you have nothing to fear, they always hit the hole!

I used to watch a car enter the tunnel then I would sprint over the hill and be at the tunnel's end to see the car emerge and never a scratch have I found on the car's side.

—Sen. Underpans

(Who is praying for anything for a fatigued man enough to get it better. Inspectors have all failed to exterminate them.)

SAID THE FISHERMAN TO THE TACK

Come here, you little friend.

You're gonna get beamed.

You're the one little pest.

I don't care for you.

That could make a fishing trip seem an awful slip.

That makes it seem like a fisherman's life.

Underneath my little fish.

Might possibly be YOU!

And I get very blue.

On the long journey back.

Wondering what lack.

Fourthhouse and together.

And then, heaven knows.

I told I shed my clothes.

And I was a fool.

My faith was wither.

Until I reach the tub.

For an eratic rub.

And then, I'm complacent.

On legs and parts adjacent.

Your efforts you redoubt.

Take THAT for your trouble.

—The Wooden Horse

How Much Freedom?

Always the perpetual problem—how much freedom?

All, every bit of it, that modern life will stand, in the answer of the liberal.

But between freedom and modern life there is an essential conflict. The term needs constant redefinition.

For instance, automobiles are a part of modern life. Every man ought to have the right to drive one if he can get it. Yet—it is certainly unwise to allow him to drive it while drunk, or when physically unfit, or when the car itself lacks brakes or a proper steering gear.

Seventeen states now require motor vehicle inspection, the International Association of Police Chiefs reports. The freedom to drive a car is subordinated to the freedom of others to be reasonably safe on the roads. Almost every instance of freedom today must be subjected to the same test: As much freedom as does not conflict with a like freedom for others.

Newest race idea is a contest between "walking fish." Suppose the winner gets thrown back in the

## SERIAL STORY

## DATE WITH DANGER

By HELEN WORDEN  
Copyright, 1939, N.E.A. Service, Inc.

Yearlings! Mary interviews the French family and police premises attending disclosure the next day about Justice French and her secret apartment.

CHAPTER XI

TUCKY THOMPSON had come home late. A cocktail party at Mrs. Van Zant's had lasted her. But she was not upset. She always hours behind schedule. Tonight she had only 30 minutes off.

"Corinne!" her high-pitched voice echoed through the apartment. "Corinne!"

"Oui, Madame, oui. I am here in a moment!" Tucky's maid answered rufkily from the kitchen. "I'm pressing that dress again for you to wear this night."

But even Corinne's ill-temper couldn't disturb Tucky's good humor. The afternoon had gone well. Humming a little tune, she rustled into her bedroom.

Her present home was a remodeled walk-up in the East Fifties. She had decorated it herself. The walls of the tiny drawing room were sea-shell pink and the furniture came white. There were white bars on the black painted windows, and white "fretwork" blinds at the windows. Her bedroom was done in the same manner. In its fenestration the series of cubicles had been called a railroad apartment, but since the architectural face-lifting had taken place they were dignified by the title of the English Chambers. There was a difference of \$50,000 to make the rent.

Tucky was proud of telling acquaintances, however, that her last apartment, the one where she had lived with her husband, had cost \$12,000 a year. She also explained that she'd taken the present modest home because she didn't think it was right to live in such luxury when so many people were suffering, but to closer friends she confessed that she'd been lured into this "dorm" until she got more alimony out of Pete Thompson. The job as hostess at the Dove, she told them, was also helping her bridge the gap.

She must dress with extra care tonight. So many people she was to impress would be at the Dove.

The Van Zant's cocktail party had been a great success. The head of a new cosmetics company had been there, and she had agreed to promote his business—so nearly as she could—until she was sure what to ask him for her efforts. Meanwhile he'd promised

to come to the Dove that night. "A big spender," she'd told Tucky. "A big spender."

But he wouldn't be grateful. He never was.

Maybe she'd give up being a hostess in his suite into Glen, where she'd let him have her. With a skin like hers, why shouldn't she? The time was ripe. If she was ever to endorse a cosmetic company, she must come to a decision. She'd soon be her old. Anxiously she glanced in her mirror. No, not a line yet.

From Italy, he'd come jumping to Tucky's room. She'd found she was wholly unacquainted with Italian, it gratified her to have him murmur compliments in that language. At least she hoped they were compliments. Heavens! Suppose he had proposed and she'd accepted! Those Italians never had any money. Little she should have said down her back. But they could make love! The Van Zants were so democratic. They always had exceptions. She'd been told of the slum rehabilitation work in Washington had been there, and a young Swedish prince who was painting them. There, there had been quite a circle of dramatic stars; Tilly Porter who was playing in the new London review; Sir Ronald "fretwork" blinds at the windows. Her bedroom was done in the same manner. In its fenestration the series of cubicles had been called a railroad apartment, but since the architectural face-lifting had taken place they were dignified by the title of the English Chambers. There was a difference of \$50,000 to make the rent.

Tucky was proud of telling acquaintances, however, that her last apartment, the one where she had lived with her husband, had cost \$12,000 a year. She also explained that she'd taken the present modest home because she didn't think it was right to live in such luxury when so many people were suffering, but to closer friends she confessed that she'd been lured into this "dorm" until she got more alimony out of Pete Thompson. The job as hostess at the Dove, she told them, was also helping her bridge the gap.

She must dress with extra care tonight. So many people she was to impress would be at the Dove.

The Van Zant's cocktail party had been a great success. The head of a new cosmetics company had been there, and she had agreed to promote his business—so nearly as she could—until she was sure what to ask him for her efforts. Meanwhile he'd promised

to come to the Dove that night. "A big spender," she'd told Tucky. "A big spender."

But he wouldn't be grateful. He never was.

Maybe she'd give up being a hostess in his suite into Glen, where she'd let him have her. With a skin like hers, why shouldn't she? The time was ripe. If she was ever to endorse a cosmetic company, she must come to a decision. She'd soon be her old. Anxiously she glanced in her mirror. No, not a line yet.

From Italy, he'd come jumping to Tucky's room. She'd found she was wholly unacquainted with Italian, it gratified her to have him murmur compliments in that language. At least she hoped they were compliments. Heavens! Suppose he had proposed and she'd accepted! Those Italians never had any money. Little she should have said down her back. But they could make love! The Van Zants were so democratic. They always had exceptions. She'd been told of the slum rehabilitation work in Washington had been there, and a young Swedish prince who was painting them. There, there had been quite a circle of dramatic stars; Tilly Porter who was playing in the new London review; Sir Ronald "fretwork" blinds at the windows. Her bedroom was done in the same manner. In its fenestration the series of cubicles had been called a railroad apartment, but since the architectural face-lifting had taken place they were dignified by the title of the English Chambers. There was a difference of \$50,000 to make the rent.

# SHINING WIN PROCKETS NOVA TO TOP STARS

## Youth Ready for Louis After He Batters Max Baer 'New Tunney' Victor on Technical Kayo in 11th

NEW YORK, June 2 (AP)—There's another Tunney on the punch that leads to the peaks today—a story book kid from California named Lou Nova who, barring fire, flood or epidemic, is going to be fighting for the heavyweight championship of the world by the time spring marches north again.

And the kid is ready. He said so in the early hours of today when he stepped out of a shower, pulled on his socks and remarked: "Okay, bring on Joe Louis."

The fight ended by a technical kayo in the 11th round. Glenside? Pohl? Sooner or later it will be Nova vs. Louis, provided, of course, that the Brown Bomber defeats Tony Galento on June 28. There is also a possibility that the sun may not rise tomorrow.

Sitting at the ringside in Yankee stadium last night, a little heavier and a little grayer than he was in the days of his greatness, was Gene Tunney. No one looking at Tunney and Nova could miss the parallel between them. Tunney was quiet, confident and studious. So is Nova. Tunney licked a killer when

he fought Dempsey. Nova licked a killer last night. Tunney fought six fights out of the book—left to the face, right to the body. So does Nova. Tunney didn't seem to have much natural equipment when he started. Neither did Nova.

One thing was settled once and for all last night inside the ropes: Nova can take it. Five times Baer got a clean shot at his jaw and five times he made him bleed. The last time sent Frank Campbell to his grave. The 24-year-old Californian shook 'em off and came on.

It was a technical knockout until the 11th round, but to this observer it seemed that the issue was decided long before the mad three minutes that made up the second round. In those three minutes Baer fired everything in his arsenal and a bewildered sort of look came across his face as Nova took it all and bared his, inviting more.

In the middle of the round Baer slammed Nova back against the ropes with a right to the head. He had him pinned there, all set for the kill. Once, twice, and a third time Max drew back his right and fired. Nova tried to throw his right and missed badly and then, for the fifth time in the round, Baer socked his right and left into Nova like a rocket. But instead of dropping, Nova fought his way off the ropes and pulled Baer across the ring.

The rest of the fight was a literal education in the art of carving up a man's face. Baer hit Nova's last shot and Nova went to work on him like a butcher.

By the eighth round Baer's vitality was gone, his left eye was a purple puff, and he was awing a hopeless, helpless roundhouse right on the off-chance that he might land. In the ninth, Nova planted a hard left on the mouth and a crimson stream spurted from Baer's lip.

Gave Max One More Between the 10th and 11th rounds Referee Frankie Pullan walked to Baer's corner and said: "I ought to stop this fight but I'll give you one more round."

That's all Nova needed. In one minute and 21 seconds of the 11th he had Baer back to the ropes and was pounding him into pulp. Then the referee stopped it.

## Another Tunney

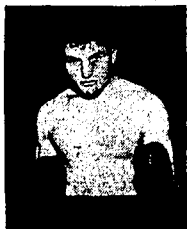

Illustration of a boxer in a ring, likely Lou Nova.

By HENRY McLEMORE  
NEW YORK, June 2 (AP)—A new American world's record for trying to make friends and influence people was established by Tony (Two-Ton) Galento in the ring at Yankee stadium last night.

At his very best, Dale Carnegie never gave such a superb exhibition of free-style negotiation as did Galento when introduced from the ring with Joe Louis just before the Nova-Baer fight.

Oh, What Warmth! Faced by the man he has called a bum in every language at his command, and whom he must fight in a few weeks, Galento greeted him with a warmth worthy of a father welcoming a prodigal son or a sweetheart meeting her lover home from the war.

Already in the ring when Louis' name was announced, Tony set himself up as a one-man cheering section as Joe walked to the side. He clapped his hands with the vigor of a paid applauder curtaining an eventful scene, and his face, wreathed in smiles and aglow with good will, was just one huge and living welcome mat.

Lou scarcely left the ring before Tony, moving with an alacrity amazing in one his size and age, was beside him, shaking his hand. When Louis was about to enter the ring, Tony grabbed it and shook it as though it were a volleyball. He was parched into bowl fervor.

Wouldn't Let Go He seemed reluctant to release Joe's right hand, and kept holding on to it until someone in the front row yelled:

"That's right, Tony, don't let it go!" "Hold right on, until after June 28."

Louis finally freed himself of his good friend and devoted friend, and he stepped to the ring. He took his first step and then to Nova. Then he started to go back to his seat in the ring.

But Tony was not taking any chances on Joe's getting away without realizing how deeply he loved him. He kept on shaking him all over again. And before Joe could find the time to wonder how the 11th round would end, he was tapping Louis on his back.

Joe Surprised Joe turned around, and there was Galento, the man who has castigated him for months, smiling and holding out his hand. Before Louis had time to react one way or another, Tony grasped his hand and started shaking it all over again. And he kept on shaking him until Louis was out of the ring.

Shaking as Galento's behavior to his friends, they admitted to a man that it was a mere stroke of diplomacy. Like the early American settlers pacifying up the Sahara with two men and a head, like a delectable smile on the jury that holds his fate in his hands, Tony was doing his best to get on the good side of Louis before the fateful night of June 28.

New York Times  
The Chicago is a desert bird that promises to do well on some of the Idaho desert areas. Four hundred and thirty-nine birds are being raised at the Jerome farm.

The birds are beautifully marked on the wings with definite patterns, but are principally gray.

## She-Shocked Cowboys Invade Ogden Today

### Dodgers 'Save' Home Clubs From Blanking

By GEORGE KIRKREY  
NEW YORK, June 2 (AP)—Brooklyn's not-so-funny Dodgers 'spilled' one of baseball's rarest occurrences early today when they squeaked through a 3-2 triumph over the Chicago Cubs in a 14-inning battle—longest major league night game yet to be played.

By their triumph the Dodgers prevented a blankety loss by all the home teams in both major leagues. Gene Moore stole home in the 14th to break up the game played before nearly 35,000 fans at Ebbets field. Until that steal about 12:45 a. m. not a single home club had won.

Decisive Wallops Bill Brubaker's homer in the eighth proved the deciding wallop as Pittsburgh dominated the Phils, 5-2, in the other National league night game before 8,000 at Philadelphia. The victory enabled the Pirates to move into third place ahead of the Cubs.

Cincinnati held its two-game lead in the National league with a 13-inning decision over the Boston Bees, 4-3. Johnny Vander Meer and Danny McFadden waged a pitcher's battle until the seventh, when the Reds pushed over three tallies. Vander Meer threw in the eighth, and the Bees tied it up. The Reds slugged a five-run rally in the 13th.

Bill McGee pitched the Cardinals to a 1-0 triumph over the New York Giants for his fourth straight victory. Manuel Balvo lost his own game with a wild throw to first on Don Gutteridge's bunt in the ninth, which allowed the winning run to score.

Ears Joe's Jitters Lefty Owens returned to form to quiet Joe McCarthy's jitters over the Cardinals' three homers in the second, third and sixth innings. Lefty pitched a gem, allowing only a 1-0 triumph over the New York Giants for his fourth straight victory.

An 18-hit attack led by Bobby Doerr, who hit a home, triple and double, gave the Boston Red Sox a 14-5 triumph over the Detroit Tigers.

Washington trimmed the Chicago White Sox, 10-7. The Athletics made it a clean sweep in the top of the first, before the year's smallest crowd—487 paid customers.

Pressure's on For Gooding's Loop-Leaders The pressure will be on for Gooding's 8 C. I. league team Sunday, Saturday, before the year's loop with an unbeaten standing of four wins and no losses. Gooding must dispose of a dangerous Kimbly club in its perch at the head of the parade. Right on the heels of the leaders are Shoshone and Burley, each just one game behind. Defeat for Gooding and victory for the two second-place clubs would mean a three-way deadlock.

Both Burley and Shoshone, however, will have their hands full Sunday. Burley opposes Tuttle, surprising outfit that barely lost 10-7 to Shoshone last week-end. And Shoshone tangles with Hagerman, which staged a win and a walk-off before bowing to Burley 17-16 last Sunday.

As for locations of Sunday's duel the schedule is: Hagerman at Shoshone, Burley at Tuttle. Eden and Shoshone at Gooding, Kimbly at Gooding.

### 21-15 Loss to Cards Divides Series; Wes Gets 3 Homers

POCATELLO, June 2 (AP)—Leaving behind them a split-series that had the Pocatello and Twin Falls pitching corps in a state of extreme shell-shock, the Twin Falls Cowboys headed today for Ogden to open a three-game series against the Reds tonight.

The Cowboys dropped a 21-15 game to the Cardinals last night in as hectic and slam-bang an affair as this town has ever seen. Twin Falls lost in spite of the mighty efforts of Wes Spulmerich, who smashed out three home runs for a new Pioneer league record.

It might have been an aerial bombardment from enemy planes as far as the seven pitchers who worked the game were concerned. No less than 37 hits exploded from the offerings of four Twin Falls and three Pocatello hurlers. And out of the 37, there were 14 two-baggers, four triples and four home runs.

That Three Hours And that's what you find when the game took nearly three hours to play and left a fair-sized crowd in a state of near-hysteria. Spulmerich's three homers—in the second, third and sixth innings—placed the husky Twin Falls outfielder just one home run from the league leadership held by Hughes, Ogden right fielder. Spulmerich now has nine; Hughes has five.

Highest scoring inning was the second, when the Cardinals made seven runs and Twin Falls three. "Bugle" Takes Mound The battle-scarred Twin Falls pitching staff finally found its Bogdanoff, right fielder who can also pitch and catch, called in to replace Wyr in the fifth frame. Steve did better than some of his predecessors. Bill Schubel, ordinarily the Cowboy ace, lasted one round, John Sletten and Charlie Wyr two.

Pocatello's hurlers, no less wearied as a result of a series that has been a carnal for hitters except in the opener, Twin Falls' Municipal day, had almost as bad a time as the invaders. Nelson started.

Owens took over in the second inning, but he was not in the top of the four games in the series, twice as relief man. Owens got credit for the victory, his sixth of the year.

Leaving behind them a split-series that had the Pocatello and Twin Falls pitching corps in a state of extreme shell-shock, the Twin Falls Cowboys headed today for Ogden to open a three-game series against the Reds tonight.

The Cowboys dropped a 21-15 game to the Cardinals last night in as hectic and slam-bang an affair as this town has ever seen. Twin Falls lost in spite of the mighty efforts of Wes Spulmerich, who smashed out three home runs for a new Pioneer league record.

It might have been an aerial bombardment from enemy planes as far as the seven pitchers who worked the game were concerned. No less than 37 hits exploded from the offerings of four Twin Falls and three Pocatello hurlers. And out of the 37, there were 14 two-baggers, four triples and four home runs.

That Three Hours And that's what you find when the game took nearly three hours to play and left a fair-sized crowd in a state of near-hysteria. Spulmerich's three homers—in the second, third and sixth innings—placed the husky Twin Falls outfielder just one home run from the league leadership held by Hughes, Ogden right fielder. Spulmerich now has nine; Hughes has five.

Highest scoring inning was the second, when the Cardinals made seven runs and Twin Falls three. "Bugle" Takes Mound The battle-scarred Twin Falls pitching staff finally found its Bogdanoff, right fielder who can also pitch and catch, called in to replace Wyr in the fifth frame. Steve did better than some of his predecessors. Bill Schubel, ordinarily the Cowboy ace, lasted one round, John Sletten and Charlie Wyr two.

### Cards Widen Edge by Win Over Cowboys

By United Press  
Pocatello lengthened its lead to three full games over the Idaho Indians Thursday by trouncing the third place Twin Falls Cowboys 21 to 15 in a free-scoring contest at Pocatello.

The loss dropped Twin Falls out of a second place tie with Lewiston into third place and continued moving the Cowboys around in the standings. Since the season began, the falls city boys have held every position in the standings except first place.

Three home runs by Wes Spulmerich, Twin Falls left fielder, went to no avail as the Cardinals pounded out 22 hits, one of them a homer by Manager Tommie Robble. Spulmerich's feat was a league record. In the only other game Thursday, Owens shut out the Salt Lake City 10 to 0 in the Reds' home town. Bird yielded only seven hits in shutting out the Bees, as his mates gathered in 10 runs on 13 hits off Tom Monks.

The win pulled the Reds out of a tie for the cellar and left them in fifth place, only one game behind Salt Lake. Lewiston travels to Salt Lake, Twin Falls goes to Ogden and Pocatello entertains Boise in the first games of the coming series today. Salt Lake will play under the lights for the first time tonight.

### Five Bout Listed For Burley Mat Program June 12

BURLEY, June 2 (Special)—A wrestling card will be sponsored by the Booster Athletic Club at the Eagles' hall June 12. Five good local bouts have been signed for the match. This will be a pre-match and the best boys will be used in the wrestling card at Rupert July 3 when Del Kunkel, Ugreweight champion of the world, and Wally Hartnett, high school wrestler from Salt Lake City, will be featured in the main event. If Kunkel can make 160 pounds, his championship belt will be at stake. He now weighs around 108.

Word was received by Red, Burley that the committee will accept terms of the July 4 committee and will appear at Rupert on the July 3 card.

### Chlorinator Here So Swim Pool Will Open Sunday

With the arrival of a new chlorinator yesterday, the opening date of the municipal swimming pool at Harrison park was scheduled for 1 p. m. Sunday. Lionel A. Dean, commissioner of city parks and buildings, announced yesterday.

L. G. Satterlee, superintendent of the Twin Falls filtration plant, will install the chlorinator. Mr. Dean stated in a telegram from the manufacturing firm supplying the chlorinator, that their engineer would not be available for several days.

Installation of the chlorinator will begin this morning with the work expected to be completed Saturday afternoon.

The pool will be maintained again this year by Bill Powers, filter high school swimmer from the university. Bill Carpenter and Roy Tager are guards at the pool.

The schedule of special swimming classes and open swimming hours will be announced later by Powers.

# Business Chiefs Give FDR Candid Summary

## PRESIDENT GETS VIEWS ON WHAT MUST BE FIRST

WASHINGTON, June 2 (AP)—Eight top-flight industrialists left President Roosevelt today a candid picture of business problems which they believe must be tackled immediately if economic equilibrium is to be restored.

The men, all members of the business advisory council, dined at the White House last night and later met Mr. Roosevelt in the second study. They discussed the economic situation with him for two hours. No formal announcement was made. It was learned from one of those present that the business leaders "got off the chest" in a friendly manner many of the things they tell the President should hear.

"It can report that as a result of the business rapprochement between business and government is an accomplished fact," he said. "Much of the credit for the success of the discussion goes to Harry Hopkins. He certainly has done a swell job."

Secretary of Commerce Hopkins arranged for the dinner. According to informed sources, the businessmen had requested it because of a desire to make known their views directly to the President before the summer recess.

Mr. Roosevelt did not attend the dinner because he is suffering from a recurrence of sinus trouble. Hopkins presided and shortly after 8 p. m. the guests adjourned to meet the President.

All phases of the economic situation were discussed. It was learned, including such topics as labor, taxation, business legislation and government regulation.

Those attending were W. Averell Harriman, chairman of the board of the Union Pacific railroad and council chairman; A. D. Whiteside, president of Dun and Bradstreet; E. R. Stettinius, Jr., United States Steel corporation chairman; J. P. Foparty, president of the North American company; Carl G. Conway, chairman of the board, Continental Can company; Gano Dunn, president of the White Engineering corporation; and John D. Biggers, Toledo, O., glass manufacturer.

A telegram was received here this week definitely scheduling the Union Pacific miniature train for appearance in the parade which will open Pioneer day, July 21. The train is much in demand and will be one of the main attractions that day. Efforts also are being made to get a prominent motion picture shot to be "adopted" by the community.

Ex-Lawmakers Politely Banned At Royal Event

WASHINGTON, June 2 (AP)—The joint committee arranging the congressional reception for King George VI and Queen Elizabeth broke the bad news to lame ducks today.

If the nearly 2,000 ex-representatives and ex-senators who at one time or another have served in congress see Great Britain's monarchs June 8, they'll have to do it from the sidelines. The committee announced with regret that ex-congressmen will not be admitted to the capital that day. It will be open to incumbent congressmen and a selected committee of 30 newspapermen.

The decision, it inferred, was necessitated because many former congressmen apparently were planning to exercise the influence remaining from their former offices to find a place in the receiving line.

## BLIND BUHL SCULPTOR TO RECEIVE COLLEGE DIPLOMA

BUHL, June 2 (Special).—Archie Lowe, Buhl blind student at the College of Idaho, will receive his degree as a member of the 1939 graduating class from the college, at the 48th commencement which is scheduled for 2 p. m. June 5 in the Caldwell high school auditorium.

Bernard Mainwaring, publisher of the "Idaho Free Press," will be the speaker, and Rev. Robert D. Steele, president-elect of Westminster college, Salt Lake City, will deliver the baccalaureate address Sunday, June 4 at the Caldwell Methodist church.

Injured Years Ago  
Mr. Lowe, blind student at the college, has been doing outstanding work in sculpture during the past year. One Saturday, 13 years ago, Archie was rearing at the carbide can of a farmhouse lighting system. The following Tuesday he required consciousness to find that he no longer could see, as the result of the carbide explosion which threw him onto a pile of jagged rocks, crushing his head.

He was taken to the Mayo Brothers clinic at Rochester for treatment which did not prove to help. After four weeks he was able to sense the proximity of persons, trees and other objects, and after five years at the Gooding school for the blind where he learned to read and write Braille, Archie was entered at the College of Idaho at Caldwell, where

he is now nearing the close of his senior year and has a B average.

Archie enrolled in the sculpturing class under the direction of Con Matthews, in September of this year. All his work bears a remarkable likeness to his subject and is the product of his imagination or what he can remember of the object as a child.

Mr. Matthews never touches the clay while Archie works on it, but merely tells him where more is needed and Archie, through the sense of touch, adds to it. Among his finished models are a horse's head, a dog, a cat, a bear, a rabbit and a model of himself.

On Track Team  
For the past three years Archie has been a member of the College of Idaho track team, specializing in the shot put with a distance of 38 feet and 11 inches. He also wrestles, roller skates, ice skates and dances.

He is a regular attendant at the theater. Archie plans to continue his school work with training for law.

Archie is the son of Emmett Lowe, residing southeast of Castleford. He attended the grade school at Castleford until the accident. After attending the Gooding school for the blind five years, he graduated from the Castleford high school with the class of 1935.

U. S. PROTESTS BOMBING HANKOW, June 2 (AP)—The United States consulate today protested

to Japanese authorities against the damaging of the American Baptist mission at Chengchow, in Honan province, by Japanese airplane bombs on May 26. A wall of the mission courtyard was demolished. It was the fifth time the mission had suffered from Japanese raids.

Mr. Matthews never touches the clay while Archie works on it, but merely tells him where more is needed and Archie, through the sense of touch, adds to it. Among his finished models are a horse's head, a dog, a cat, a bear, a rabbit and a model of himself.

On Track Team  
For the past three years Archie has been a member of the College of Idaho track team, specializing in the shot put with a distance of 38 feet and 11 inches. He also wrestles, roller skates, ice skates and dances.

He is a regular attendant at the theater. Archie plans to continue his school work with training for law.

Archie is the son of Emmett Lowe, residing southeast of Castleford. He attended the grade school at Castleford until the accident. After attending the Gooding school for the blind five years, he graduated from the Castleford high school with the class of 1935.

U. S. PROTESTS BOMBING HANKOW, June 2 (AP)—The United States consulate today protested

to Japanese authorities against the damaging of the American Baptist mission at Chengchow, in Honan province, by Japanese airplane bombs on May 26. A wall of the mission courtyard was demolished. It was the fifth time the mission had suffered from Japanese raids.

Mr. Lowe, blind student at the college, has been doing outstanding work in sculpture during the past year. One Saturday, 13 years ago, Archie was rearing at the carbide can of a farmhouse lighting system. The following Tuesday he required consciousness to find that he no longer could see, as the result of the carbide explosion which threw him onto a pile of jagged rocks, crushing his head.

He was taken to the Mayo Brothers clinic at Rochester for treatment which did not prove to help. After four weeks he was able to sense the proximity of persons, trees and other objects, and after five years at the Gooding school for the blind where he learned to read and write Braille, Archie was entered at the College of Idaho at Caldwell, where

he is now nearing the close of his senior year and has a B average.

Archie enrolled in the sculpturing class under the direction of Con Matthews, in September of this year. All his work bears a remarkable likeness to his subject and is the product of his imagination or what he can remember of the object as a child.

Mr. Matthews never touches the clay while Archie works on it, but merely tells him where more is needed and Archie, through the sense of touch, adds to it. Among his finished models are a horse's head, a dog, a cat, a bear, a rabbit and a model of himself.
