Partitioning Poland Has Been Sport of European Powers

1667—Poland in the days of its glory included all of what we now call the Baltic states and the Ukraine, including much of eastern Germany. It was one of the strongest military powers of all Europe.

1793—In the days when the U. S. government was getting under way, Poland had already been divided. Prussia had swallowed "Great Poland" or eastern Germany; Russia had seized the great southeast.

1795—Two years later, Poland was split, had ceased to exist, Russia swallowing another great eastern ally, Prussia and Austria gaining off the rest, leaving the Poles mere racial minorities.

1859—After Napoleon had been defeated at Waterloo, the treaty of 1815 divided his conquests. Russia called her part the Kingdom of Poland, gave it a constitution, but no independent existence.

## Drastic Rules Clamped on Sawtooth Area

### But Week-End Fun Not Lost, Officials Say

Serious fire hazard in the Sawtooth national forest— which will be the mecca for thousands of week-end vacationists over the Labor day holiday—had brought drastic restrictions on camping today. Attachments at offices of F. S. Moore, Halley, Sawtooth forest supervisor, said this afternoon that the restrictions will not substantially curtail the outdoor fun of the average week-end. They restrict mostly the campers planning longer pack and fishing trips into the interior.

"There are no allowed to camp only at improved camping grounds on Wood River, Redfish lake and Altimus lake," officials said. "This means that where there are no stoves, in which case vacationers need no special permit."

Campers are not permitted to go into the back country, and there will be no smoking permitted except at approved camp grounds. Labor day week-end, however, can go west of Ketchum to Warm springs summit, a distance of some 35 miles—but they may not cross that summit into the Big Snake country.

Unofficial reports from the Challis national forest, further north than the Sawtooth, indicated today that there will be little fishing and hunting in that sector this fall unless some convincing rains come to dredge the timber-dry woods.

Forest supervisors said that camping and camp fire building will be permitted for fishermen only at approved camping grounds where there have been erected. Redfish lake is one of them, as is Redfish lake in the Sawtooth forest. Some approved camping grounds are available along Salmon river.

"Fire cannot be built anywhere except at the designated camping spots."

### SOVIET COUNCIL MAY SCRAP PACT

LONDON, Aug. 29 (UP)—Soviet union's postponement of ratification of its new non-aggression treaty with Germany was described by Russian sources tonight as a move to delay the pact if Germany attacked Poland.

"It was suggested by Russian sources here that if Germany commences her aggression in the immediate future the supreme Soviet (parliament) meeting at Moscow would then be given chance to vote against ratification of the pact."

The new treaty would then cease to exist, as it has merely been signed by Soviet Premier Vyacheslav Molotov without consent of parliament.

BRITAIN TO BUY WHEAT  
RUSSIAN AGENCIES, Aug. 29 (UP)—Authoritative quarters reported today that Great Britain is negotiating for the purchase of 150,000 bushels of Argentine wheat virtually the entire exportable surplus.

## COUNTY WARNS ON 'LAZY' HUSBANDS

Twin Falls county fired an ultimatum today at husbands who refuse to support their wives and children, and at husbands who not only won't support their wives but who abandon them.

Filing of another charge in probate court today by Everett M. Sweezy, after several similar accusations were presented within the past two days—was termed the opening gun in a determined drive against husbands who won't work.

"We intend to take drastic action to support their wives and children," Mr. Sweezy said this afternoon. "We'll go on Sheriff Art Porter's 'wrecking force' so that they'll get a thorough education in law."

"The Probate court consists of county jail prisoners who must labor on county roads, poor farms, hospitals, and other public grounds and other tasks under direction of the board of county commissioners."

Mr. Sweezy pointed out that the charges of refusing to support wife and family, as well as the accusation of abandonment, are "indistinguishable misdemeanors." That means the defendants are liable for court, being bound over by judge or by justices of the peace.

More Coming

With several charges already filed and with one hearing scheduled this afternoon against Pay Young, Mr. Sweezy said significantly: "I have more on my desk."

He pointed out that "the county in many cases is forced to support the wives and children" and added that jail terms at labor will "partly recompense the county for its expense."

In the past some of the charges have been dismissed at request of wives after a reconciliation. "Sweezy warned, however, that "there will be no more dismissals."

Latest complaint filed was presented in probate court against Walter Richards, of Challis, and Mrs. Doris Richards. The wife signed the complaint. Similar charge was filed once before against Richards, Mr. Sweezy said, but was dismissed at request of the wife.

## CALLAHAN TALKS TO MINING MEN

SALT LAKE CITY, Aug. 29 (UP)—Joseph A. Callahan, state controller of Idaho and Wallace, Idaho, mining man, asserted before the American Mining congress here today that the administration of the Wagner labor relations act has brought about a reign of terror against employers of labor in this country.

"With the objectives of this law, no one who desires a more harmonious relationship in industry can possibly quarrel," Callahan said. "However, like most grandiose attempts to work out ideal conditions, this law is suffering from defects in the actual operation of the law."

Callahan declared that the difficulty with "this kind of legislation is that it suffers from defects in the actual operation of the law."

Upon their duties with a conception that the relation of employer and employee necessarily comes into conflict.

"Until the law is rewritten to provide for equal treatment of employers and employees it will never be a means of bringing about the objective—that of diminishing the cause of labor disputes," the controller asserted. "The attorney general's recent statement today in a business session of the mining congress, Callahan said the mining industry is in a 'horrible' state of affairs and that amendments have been offered to the present act."

MORE FORTNIGHT

## Judge Denies Demurrer In Mayor Ouster Case; Witnesses to Testify

Defense witnesses were to be called today in H. A. DeNeal's ouster suit against Mayor C. C. Voeller, Buhl, District Judge J. W. Porter overruled and denied a demurrer and motions filed by counsel for the plaintiff in the morning session.

The demurrer filed by DeNeal's attorneys, Bothwell and Percy, pointed out that the defendant in the amended answer filed by the defense. Motions asked that inconsistencies be taken from the record and the defense be ordered to file the amended answer, using an approved "affirmative defense."

Inconsistencies charged were that the amended answer to the complaint stated that alleged illegal voters were legal voters, and if they were legal voters, then they voted for Voeller. The amended answer also asserted that the number of alleged illegal voters was not sufficient to change the result of the election.

"The court finds no merit in the charge of inconsistency and the motions to cause and elect and the demurrer are overruled and denied," said Judge Porter.

### Seeks Ouster

H. A. DE NEAL

Snapped as he arrived at district court this morning, this former state senator is plaintiff in a suit by which he seeks to have election of Mayor C. C. Voeller, Buhl, ruled an illegal, DeNeal wants an order declaring the most widely interested party in the suit, and would be affected most by it.

Before court recessed at noon today, Judge Porter summarized the points involved in the trial as follows:

1—Question of illegal voters.  
2—Question of the number of illegal voters in large enough to change the result of the election.  
3—Question of whether or not the three candidates involved in the election received the illegal votes.

DeNeal is seeking a court decree that Mayor Voeller was elected by illegal votes cast in the 1931 election April 28. Voeller won over the former state senator by a vote of 299 to 287. DeNeal is alleged to have been illegal voters because of insufficient number of residence.

Voted for Voeller

Three of the voters were called to the witness stand during yesterday's session of court. They were Lewis M. Henderson, Am and Compton and Floyd Olson. Each testified that their vote was cast for Voeller.

## G-MEN CAPTURE WESTERN ROBBER

CHICAGO, Aug. 29 (UP)—The government moved quickly today with prosecution of Joseph Paul Greizer, 27, G-men's public enemy No. 4 and "most wanted bank robber," who was seized with his wife, Edna Mae, in a north side apartment late yesterday.

Agents under Daniel M. Ladd, chief of the Chicago office of the federal bureau of investigation, made the arrest. Greizer had a pistol but did not attempt to resist. Agents also took the couple's car, a 1931 Buick, and a 1932 Buick.

Greizer is wanted for eight bank robberies on the west coast. His wife is wanted on a charge of having acted as lookout for him in the robberies. Greizer is charged with having harbored him. Both also had been sought for shooting a Michigan City, Ind., policeman who stopped them for questioning last June.

Greizer's criminal record, G-men said, started in 1927 when he was sentenced to a 30-day jail term at Leavenworth for burglary. He has been arrested at least 20 times since then.

Fourteen charged Greizer participated with James D. Conroy, alias David M. Hartmann, 28, Lewistown, Ind., and Arnold Thomas Kyles, brother of Mrs. Greizer in bank robberies at Seattle, Los Angeles, Portland, Ore., and Oakland, Calif. He also was wanted for a robbery at Las Vegas, Nev.

ORANOVILLE, Ida., Aug. 29 (UP)—An 11,000-acre fire whipped by high winds blasted along the north wall of the Salmon river canyon, 11 miles east of Riggins, out of control today, defying the efforts of more than 1,000 men led by Nez Percé forest service officials.

Fire fighters subdued a 2,000-acre fire west of Priest lake and a 1,700-acre fire on Dominion mountain.

Other fires continued to burn in the Salmon, Flathead and Kootenai forests. More than 1,500 spot fires ranging in size from one acre up were started by lightning storms throughout the state's forest lands this week.

## GERMAN SHIP IS HELD BY POLICE

NEW YORK, Aug. 29 (UP)—Customs agents, searching the giant liner Bremen, disclosed today that they had delayed the sailing of the North German Lloyd liner to determine whether it was carrying "implements of war" as prescribed by presidential proclamation.

The search, unprecedented on ships of the luxury line, was held up until late today, although line officials had emergency orders from Berlin to speed off without passengers by 3 a. m. today. Hours added of schedule.

Police guarded the North German Lloyd pier. Armed coast guard and police boats lay in the stream near the Bremen during the search.

The Bremen, bound for Antwerp, carrying 1,400 passengers, most of them Americans fleeing the war zone, arrived during the morning after a long delay. The ship was under strict surveillance. Checkpoints were ordered and no radio communication was permitted from the ship.

## ITALIAN PAPERS SEE EARLY TURN TO EUROPE WAR

By REYNOLDS PACKARD

ROME, Aug. 29 (UP)—Italian afternoon newspapers bantered today that the European situation was growing more critical and Il Piccolo headlined that first reports of Britain's note to Hitler "would seem to exclude any serious possibility of conciliation."

Other headlines were: "Crucial Hour for Europe Has Arrived." "Germany Ready for War of Any Duration." "Italy, as in Germany, newspapers are inspired frequently by government sources."

"Italy and Germany are maintaining during these decisive hours a firm, serene attitude," the editorial of Corriere della Sera, Rome, stated.

"The newspaper linked President Roosevelt with Jews and said: 'Roosevelt vainly tries to hide his real desire for war by launching appeals to chiefs of states. Totalitarian states consider Roosevelt their bitter enemy because he has poisoned United States relations with Germany and Italy.'

"So long as the Jew Litvinov was foreign minister of Russian policy, Soviet policy was anti-German and anti-French. When Stalin displaced Litvinov, Soviet policy was pro-German and anti-French. The political scene at Moscow became possible to conclude a Soviet-German non-aggression pact."

Poland seemed as determined as ever not to yield, and France and Great Britain were just as determined to fight on Poland's side.

## AD VALOREM TAX HITS NEW HIGHS

BOISE, Aug. 29 (UP)—The 1939-40 ad valorem tax levy for Idaho was set at 62.3 cents on every \$100 of assessed valuation by the state board of equalization at a meeting held tonight, Gov. C. A. Bottoliver announced.

The rate was 20 cents per \$100 higher than in 1938 and one of the largest in the state's history. The board explained the increase by pointing up the state assumed the relief burden formerly handled by the counties.

They predicted county levies would be correspondingly lower so that the average taxpayer would pay a tax about equal to that of last year.

## Literary Distinction Defined by Educator

"The secret of literary distinction is being interesting to other people, but that does not necessarily mean being liked," Dr. E. M. Hopkins, for many years dean of the English department of the University of Kansas, Lawrence, Kan., told members of the Twin Falls chapter, League of Western Writers, last evening at the home of Mrs. Elinor Fowler, Kimberly.

An author's success in creative writing is in proportion to his knowledge of his own personality, his ability to express his experiences and those of others, and his capacity to "let himself go" in a style that is truly individual, Dr. Hopkins, one of the foremost authorities on English in the United States, told his audience.

**Likes Idaho Fishing**  
Dr. Hopkins was introduced to chapter members and guests by Mrs. John Vetter, Bully, president of the chapter. Dr. Hopkins, for many years an intimate friend of Mr. and Mrs. Vetter, is making an annual visit to their home.

Of distinguished appearance, Dr. Hopkins' scholarly expression is accentuated by his mustache. V. Dyke, his dark-tinted glasses, but his interests extend far beyond the classroom and the world of letters.

He has just returned from a pack trip to the Middle Fork of the Salmon river, a country he loves. Fishing is one of his hobbies, and Idaho scenery was his profound admiration. His fondness for the west prompts him to make an annual visit to this section of Idaho.

His friendship with the Vettlers began when Dr. Hopkins made a pack trip from their ranch near Mackay a number of years ago. A devotee of music, Dr. Hopkins was an accomplished organ player for many years, but has given up musical performances since he became semi-retired. He has the long, tapering hands of a musician.

**Author of Books**  
He is the author of three English text books which are widely used by educators. Commenting on his writing, Dr. Hopkins said, "There are five more books that I should like to write—in the next hundred years—and the last will be my autobiography."

The graduate of Princeton university, who has spent 30 years in the study of literary distinction, told his listeners to "make yourselves different by finding, knowing and adding to your own experience; to be aware of the differences of personality and appearance in another; to imagine what has caused those differences, and then learn to reveal them to others."

He continued, "To discover the differences of personality and appearance in another; to imagine what has caused those differences, and then to express it, is the technique of writing alone."

"Literary standard is based on implication rather than direct statement. The more the implication, the higher literary style you have. Poetry and criticism are 100 per cent more implication than fiction and the monetary rewards are proportionately less," he concluded.

Mrs. H. C. Strunk, Kimberly; Mrs. Beale Oyler and Miss Margaret Ellsworth, Twin Falls; Otto Fowler, Kimberly, and Dr. Hopkins were guests.

**Chapter Officers Prize**  
The chapter voted to contribute \$2.50 toward the first award in the poetry division of the Idaho Writers contest sponsored jointly by the Boise and Twin Falls units, which closes Aug. 31.

Publications were reported by Mrs. Fowler, Mrs. Budie Hager, Mrs. Doris Goertzen, Mrs. Olive Mae Cook, Mrs. Vetter and Miss Jean Hinkelacker. Mrs. Hager received an honorable mention for a short story she submitted in the national contest sponsored by the League of Western Writers in connection with the recent national convention in San Francisco.

Mrs. Hager and Mrs. Florence Benson were appointed in charge of the broadcasts for September. The contest was won by Mrs. Hager. Announcement was made that the group would meet Sept. 25 at the home of Mrs. Alice Snook, Mrs. Cook and Miss Dinkelacker will discuss article writing and Mrs. Edith MacDonald Graham will present a book review.

Mrs. Fowler served a buffet supper following the program. White roses and green foliage floating on the surface of the water in a low power bowl, formed a striking centerpiece for the table which was covered with a beautiful embroidered white Chinese linen cloth.

## Likes Pack Trips

Taking pack trips into the high lake regions of Idaho where trout fishing is "super" is the favorite hobby of Dr. E. M. Hopkins, senior member of the English faculty of the University of Kansas, who was guest speaker last evening at the meeting of the Twin Falls chapter, League of Western Writers.

# PIONEER LEAGUE PREPARES FOR FINAL DASH

## Cowboys Tackle Reds in Twin Bill Here Tonight

Pioneer league teams today prepared to swing down the final stretch in the pennant drive of the infant loop—four clubs howling lustily on the heels of the leading Twin Falls Cowboys and the Pocatello Cardinals, who top the pack with few games to spare.

As the last drive started—there are only 20 more games on most of the schedules—only 12½ games separated the first-place Cardinals and the last place Boise Pilots. Boise was only a half game out of fifth place, and Twin Falls had only half a game behind Pocatello in first.

Tonight the Cowboys open a three-game stand against the Ogden Reds, who hold fifth spot, with a double-header at Jaycee park. The first game is scheduled to start at 8 p. m. Wednesday night at the local park.

Manager Charley Wry today announced a revamped lineup that will probably see Kenney Myers behind the plate, Corky Carlson, if he is in condition, at first, Ernie Bishop at second, George Farrell at third, Verne Reynolds at short, and Ed Leishman in left field. Frank Falconi is center, and Bill DeCarlo in right. Wry probably will see Bob Kinnaman in left field for the majority of the games tonight. Both these hurlers are action in the Boise series as reminders of getting the boys out of the loss in that series (fair after getting beautiful ball for five men).

At Louisville, Business Manager Hugh Pace announces that the deadline on the 15-player limit will be lifted tonight and that starting tomorrow 21 players may be carried on the club. As a result, Joe Nokes and Frank Kendall, two men who have been carried on the suspended list for the last while, will be made eligible for play in the final drive.

McNamee Los Hurts

While the loss of Joe McNamee the remainder of the season is considered a serious blow to the pennant chances, Pace today said that the club was doing everything possible to strengthen the first drive down the line.

All the rest of the team, with the possible exception of Carlson, who has strained shoulder muscles, injured in a slide while on base, are in good shape.

Falconi, who is hitting around the .375 mark, is moved into the clean-up spot for the rest of the season. The speedy outfielder is a dangerous man with runners on base, as is Steve Bogdanoff, who will be batting in the fifth spot. George Holcher doesn't appear ready for Pioneer league play yet, but he is batting in the fifth spot in much better shape now, is back at the shortstop berth, batting second in the lineup. He got two safe blows and two walks in four trips to the plate on Sunday night, and will probably aid in the Cowboy punch off the Reds.

Hurlers Ready

If all goes well, the pitching staff should have the most strength that it has had at any time during the season. Five men will be ready for regular duty—Manager Charley Wry, Ed Leishman, Mike Bault, Bob Kinnaman and John Stefan. Kendall will probably be used exclusively as a relief hurler.

The Twin Falls team, after the three-game series here with Ogden, leaves for Lewiston where five games will be played in four days.

## Lowly Beavers Lead League In Run Getting

(By United Press)

The seventh-place Portland Beavers are level with the first-place Seattle Mariners in team batting average, with .293. Pacific Coast averages revealed today.

The Beavers have scored more runs than any team in the league—835, six more than the leading Rainiers. And they also are third in home runs, behind the Athletics (which has 104) and San Francisco (which has 74) with 61 circuit clouts.

Don Dileasandro of San Diego was all the leading hitter of the club with a mark of .367. He is trailed by Dom DiMaggio of San Francisco who is hitting .346, Gene De-Beauvoir of Seattle with .344, George and Alan Estrange of Seattle with .340 and .336, respectively, and Bill Brown, Portland's manager, with .342.

Julio Bonetti of Los Angeles still is the most effective pitcher, with 17 victories against four defeats. Wally Hebert of San Diego has won 18 and lost eight. Sam Gibson of San Francisco has 18 wins to his credit against nine losses, tied with Hal Tipton of Seattle.

Rip Collins of Los Angeles leads in home runs with 24.

Last week San Francisco led Oakland, Los Angeles is at second, Sacramento goes to San Diego and Seattle is at Portland.

## Connie Mack Quits 'Night' Life; Back to Baseball

PHILADELPHIA, Aug. 29 (U.P.)—Connie Mack, 76-year-old pilot of the Philadelphia Athletics, today planned to retire definitely from all public life to devote his remaining years exclusively to his baseball activities.

Still wan and drawn from a gall bladder ailment, Mack otherwise appeared to be recovering from his long illness and discussed plans for "another win or two" with his old-time rival, said, however, that spectators, public dinners and receptions were for him a thing of the past.

## DiMaggio, Ott, Williams Lead Clubs to Victories

### SPORTS

by Hal Wood

EXPLANATIONS GIVEN ON COWBOY SLUMP . . . UMPIRE TROUBLE . . . AND PITCHERS IN PIONEER LOOP FIND GOING EXTREMELY TOUGH . . .

When a ball club apparently "goes to pieces"—drops a string of games, the fans usually start to pick to pieces to yell what could be done; and possibly, to explain what should have been done.

With the recent decline of the Twin Falls Cowboys—(should we say "deviling" when they are only a half game out of first place?) there have been lots of reasons given for the blow-up that caused Owner Bill Ulrich's club to lose nine out of its last 10 games. Some blame Manager Charley Wry, others say it is because the boys aren't hustling, because they are dispirited or because there is dissonance on the club.

It may be any one—or all—of these, as far as we are concerned. But we'll offer another solution:

First, since Eddie Leishman left, the team has been without a good fielding shortstop.

Second, removal of Wes Schumacher to Spokane; and then the injury to Junior McNamee took away the two long-distance power hitters of the club.

And third, but not last, a run of injuries that would cripple any club in any league has made the team very much a patch-work organization. If you want proof of that, look at the line-up that went through the final game of the Boise series here on Sunday night—and lost by a score of 11-8.

Behind the plate was Ken Myers, a catcher and on the mound was Mike Budnick, a pitcher. Not surprising. But look at this: On first base was Steve Bogdanoff, an outfielder, performing for Corky Carlson, who had injured arm muscles; later in the game Charley Wry, a hurler, was at the initial call when Ernie Bishop was removed from the game, and Bogdanoff moved over to second base. In the late innings, Holcher looked so bad at short that George Farrell moved over from his third-base spot, leaving a shortstop—Holcher—on third.

In the outfield we had Verne Reynolds, an infielder, in left; Frank Falconi, an outfielder (right) in center; and Bill DeCarlo, a catcher, in right.

However, even with that maffish lineup, the boys were right in there battling and they collected 11 hits to 11 for the Phils. However, they did commit six errors—and that will ruin anybody's ball game.

Well, all those reasons may or may not be getting the Cowboys down—but to listen to the box office there at Jaycee park on Sunday night you could trace the trouble to only one spot—umpires.

In any league that is getting under way for the first season there is always trouble with the umpiring staff—until the president of the league is able to get hold of good men. But the Pioneer appears to be having more than its share of tough luck in the matter of men sent to work the games.

Ten, too, it appears that some of the gentlemen in blue don't use very good judgment. The final game of that Boise series was a good example.

All during the three games played on the Pilot squad haggled with the umpire—talked loud and held up the game on several occasions. But Ernie Bishop squawked on a third called strike and right away he was out of the game—and then had a \$2.50 fine plastered on him for losing his bat—which, incidentally, is a league rule.

It just happens that Bishop is about the most popular player on the Twin Falls squad and the fans didn't like it a little bit. We believe it was the umpire's error to let one side hold up the game to argue, then the other side should have the same privilege. Actually, neither side should have it.

Anyway, in their losing streak the Cowboys haven't been getting any breaks from the umpires on close decisions and that also adds to the discomfiture.

Testimony on the batting prowess of the Pioneer League—as compared with some other circuits of the league—is given this week with the announcement that Charley Schanz, who was with Salt Lake City for a spell this spring, has been called in from Tucson to pitch for the San Francisco Seals.

Another such call is Marion Oppelt, the fine looking prospect that Manager Eddie Leishman brought down to Twin Falls in the spring. Oppelt had a world of stuff, but he couldn't make it work and he was pounded out of the box consistently until he had to be cut aridit. Now he is going great in the Western International league with the second-place Tacoma club.

## 21 Will Take Part In Tin Lizzie Derby on Sept. 9

Entries in the 100-mile (in late derby, set for the Twin Falls county fair on Saturday, Sept. 9, will close as soon as 21 men, signifying their intention to compete, say Jerry Edwards, race sponsor, stated today.

Only eligible to compete are those who have taken part in previous races in the state of Idaho sponsored by Capt. Edwards.

A wrist watch will be given to every man who enters, and it is suggested that all entries be mailed early, so that the names of those participating may be used on the official fair program. The race for the fair is a strictly 100-mile affair, with no preliminaries. The 21 drivers will compete in the long grind.

## Yankees' Star Clouts Two Homers, Single

By GEORGE KIRKESY  
NEW YORK, Aug. 29 (U.P.)—This is the time of year when the boys are beginning to pick their all-star clubs. Anybody can pick one, so go ahead.

I recommend for your outfield Ted Williams of the Red Sox, Joe DiMaggio of the Giants, and Mel Ott of the Yankees. My reason was clearly illustrated in yesterday's games.

DiMaggio hit homers No. 21 and 22, the first coming with the bases loaded, and the second with two on, and added a single for good measure. He drove in eight runs as the Yankees bombed the Tigers, 18-2.

Ott Leads Giants

Now take Mel Ott, and where would the Giants be without him? Sure as shooting his name will be in the baseball hall of fame at Cooperstown, N. Y., when he hangs up his spikes. Yesterday he personally accounted for the Giant's 11 victory over the pace-setting Reds. His single in the first score Moore and then his 27th homer in the fourth with a mate on base wound up the Giant's scoring.

And why take a rookie like Ted Williams? The eighth inning at Cleveland illustrated why. Williams came up with the Red Sox trailing and clouted homer No. 20 with two bases on base to give Boston a 6-5 victory over the Indians.

See Infield Best

With DiMaggio, Ott, and Williams on your side the rest of the club would be easy to pick. You can take the best infield and the Phils' pitching staff and give anybody a good run for their money with Ott, DiMaggio and Williams swinging for you.

The Reds held their five-game lead as the Cardinals practically removed themselves as serious threats by losing to a rookie pitcher no one had ever heard of, except Bob Quinn. Al Moran, recently recalled from Hartford, pitched the Reds to a 10-5 victory over the Cubs.

Cubs Out of Slump

Charlie Root brought the Cubs out of their slump after losing two on Sunday to the Phils by pitching the Windy City gang to a 5-3 victory.

In the Yankees' triumph Maris Russo pitched a four-hitter for his fourth win.

The St. Louis Browns slugged out

17 hits to trim Washington, 12-2. Johnny Rigney scored his ninth straight victory, and his 12th of the year by pitching the Chicago White Sox to a 4-4 draw over the Philadelphia Athletics in a night game before 15,000 fans at Chicago.

SALT LAKE CITY, Aug. 29 (U.P.)—Speed King John Cobb left last night by plane for New York, where he will sail Wednesday for London on the Aquitania. He said he had no plans for further speed runs, because of unsettled European conditions.

## Great Coaches Listen as Dutch Meyer Explains Forward Pass

(seasonal don but mounts the platform in a simple seersucker and tan brogues—he talked on forward passing at a football clinic at the world's fair yesterday. Among those who listened and took notes at the lecture were Lou Little, Wallace Wade and Bill Kern.

For one who has done so much to spread the use of the forward pass, Meyer said, it was a foot ball weapon that belongs to sunny days, warm days and dry days. In cold weather, a passer has imperfect use of his hands and arms as do his receivers. In snowy or rainy weather the passer and his catchers are handicapped by a heavy, slippery ball and uncertain footing. The weather must be reckoned as the most important element in the tremendous success of forward passing in the southwest. We can nearly always count on ideal weather for our games. Because of all this I believe teams in the east, Midwest, northeast and northwest can't never hope to match us in throwing the ball around. I think that they waste a lot of time in trying to perfect a play which depends on perfect weather conditions for success.

There are some who believe that Professor Meyer and his Horned Frog pupils at T. C. U. have exhausted the possibilities of the forward pass. He doesn't agree with them at all, which must come as discouraging news to those opponents who have been baffled by his present day aerial circus. Meyer sees the forward pass with lateral passes as the next field to be explored. Already he is mapping plays which call for everyone but the president of the school to handle the ball on its way toward touchdown. He thinks the shovel pass has been ignored, too, and plans to tap it for touchdown runs.

17 hits to trim Washington, 12-2. Johnny Rigney scored his ninth straight victory, and his 12th of the year by pitching the Chicago White Sox to a 4-4 draw over the Philadelphia Athletics in a night game before 15,000 fans at Chicago.

## TWO NEW TESTIMONIALS!

**TO WHOM IT MAY CONCERN:**  
I have been a sufferer of numerous ailments for over 40 years. I have suffered such as headaches, liver fever, stuffy and dry nostrils, tired and aching feeling, kidney and bladder ailments—and I've paid out for dollars and pounds for medicine and relief—until I came in contact with the Chinese Herbs. The Chinese Herbs have done more for me in one week than all the other pills and drugs did in 30 to 40 years. Thanks a million to the people who found the Chinese Herbs. I feel like a new man again. Yours truly, FRED J. KLEIN, Twin Falls, Idaho.

**TO WHOM IT MAY CONCERN:**  
For a number of years I have been suffering with sour stomach, dry spells and headaches. Constipation also caused me a great deal of daily trouble. Coupled with these ailments I found that my right arm was in such a condition that I could do very little work before it tired so that I could not use it. Despite the fact I was over sixty years of age, I felt that I should enjoy better health and having read of Chan & Wing's Chinese Herbs, I decided to try them.  
A six week's course of Chan & Wing's Chinese Herbs proved to me they were what I needed. Today I am well and happy. All the old conditions are gone. I work easily with either arm and am as spry as again. I am happy to recommend Chan & Wing's Chinese Herbs to those who read this.

# Cost of Water Survey Set at \$4,000

## COUNCIL TABLES PLAN FOR MOVE NOT SO COSTLY

The city of Twin Falls, for \$4,000, could obtain a complete survey of the plan to take water from Blue lakes and use it for domestic consumption, members of the city council were informed last night.

The information came in the form of a communication from J. C. Stevens, coast engineer who recently made a survey of possible new water sources for the city, and was read at the regular council session.

The engineer representing Stevens would require the city to furnish a small crew of men to dig test holes and do other work, the city standing this part of the expense. The \$4,000 which the completed survey would cost would be paid in the following manner: \$1,000 10 days after arrival of the engineer, \$1,000 30 days thereafter, \$1,000 60 days thereafter and the remaining \$1,000 upon completion of the report.

**No Funds Now**

The information was tabled for future reference and councilmen expressed the opinion that another plan could be worked out whereby the move would not be so expensive. At the present time no money is available for the project as all revenues are budgeted.

Meanwhile council members anxiously await completion of the \$4,000 storage reservoir in order to find out what effect it will have on the taste of local water.

The reservoir is now under construction at the filter plant.

Councilmen last night decided to set off for another week any action they might take toward re-awarding the license to operate a beer parlor to R. A. Armstrong, whose license to operate the Idaho Cigar store was cancelled by the body a week ago.

At the discussion last night, Armstrong was accompanied by Guy L. Kinney, attorney.

**Makes Changes**

Armstrong told councilmen that several "objectionable" features of the place had been removed, namely that he had cancelled the lease and had a Baque woman for the upstairs rooms and that they would be given to no one in the future; that former bartenders had been discharged and that in the future, should his license be returned, only non-Baque help will be employed, said help to be approved by Police Commissioner Carl Ritchey and Chief of Police Howard Gillette; that he (Armstrong) would spend "one shift" at the establishment every day although he also owns another place at Rock creek.

The council, Armstrong and Kinney spent more than 30 minutes discussing the subject before it was decided to withhold an action.

**Loose Faith**

Commissioner Ritchey declared he had "lost faith" with "these fellows who have failed to keep their promises" and that personally he was in favor of "standing pat" and keeping the "place locked up."

Councilman Lloyd A. Dean expressed the opinion that if Armstrong could "put his time in there and run the place" he should be given another chance, while Councilman Leonard Avant said that Armstrong "never got into a jam before." Councilman Taber also expressed the opinion that he should be given another opportunity.

Chief Gillette said he had "nothing personal against Armstrong," but he said that the old-time saloons did not compare in any way with the beer parlors which are operated under the Idaho law.

**Many Terms "Disgrace"**

"I'd like members of the council to make a tour with me some Saturday night. They will find that many of these places are a disgrace to any civilized city. The Idaho Cigar store is not the only one in this city."

"But I suppose we need something for the rats to wallow," Gillette said.

Councilmen, during the two hours and 30 minutes session, also discussed the barber ordinance which was recently passed.

Several bartenders were present and it was shown that about 90 per cent

## Board Increases Sugar Refinery Tax Valuations

Walter Musgrave, county auditor, had reported today a 20 per cent increase in assessed valuation of Amalgamated Sugar company property and equipment in Twin Falls county as increased by the state board of equalization.

The valuation to be used for 1939 taxation is \$500,000 as compared with \$307,750, the figure for last year, reported Byron Deffenbach, secretary of the state board of equalization.

The valuation does not include lands or sugar owned by the company, but only buildings and equipment.

**Zone Hearing Set**

Action was also taken during the session which may result in permitting apartment houses to be constructed along Sixth avenues north and east by changing the zoning ordinance. A public hearing on the matter was set for Monday, Oct. 2, at 7:30 p. m. at the city hall where arguments for and against the contemplated change in the zoning ordinance will be heard.

If enacted, the ordinance would change the following sections from first residential zone to the second residential zone:

1—All the territory from the alley between Fifth and Sixth avenues north, extending from Shoshone street to Third street north.

2—All the territory from the alley between Fifth and Sixth avenues east to the alley between Sixth and Seventh avenues east, extending from Shoshone street to Blue Lakes boulevard.

In addition the ordinance would provide that the territory in the northwest Five Points addition, from Pine street to Addison, be changed from the second residential to the business area. Under the ordinance, construction of apartment houses of two or more apartments would be permitted on Sixth avenues north and south.

Councilmen also heard a petition from local newspapermen asking that a table lamp be placed at the press desk in order that the main lamp in the chambers could be turned off "thus preserving the eye-sight of all concerned." Mayor Koehler announced he will donate a lamp for that purpose.
