

# FEDERAL, CALIFORNIA AGENCIES INTERVENE IN DOCK STRIKE

## COAST GOVERNOR THREATENS WITH STATE OPERATION

SAN FRANCISCO, Nov. 28 (AP)—Gov. C. D. Young and federal agencies intervened today in a San Francisco dock strike by threatening state operation of the harbor facilities as an emergency measure to assure movement of goods and end economic losses.

With commerce paralyzed for the 10th straight day by a strike of the C. I. O. dock workers, Young named a five-man commission to consider peace moves and Secretary of Labor Frances Perkins assigned John E. O'Connor, department consultant, to the controversy.

The striking union, docked with employees for a single contract, covering 600 monthly and daily dock workers, welcomed the Olson intervention, the employers' union, commenting on an executive meeting.

The port dispute was returned to the same issue as the strike when CIO warehousemen refused to work at Oakland city-owned piers this morning.

## FINLAND ORDERED TO QUIT POSITION

on the radio and from military headquarters.

The Moscow radio broadcast directly to the Finnish people in their own language last night: "Overthrow your cowardly government which is leading your country on the disastrous path of former Polish leaders."

The general tenor of the Soviet statements was that Finland's attitude was "warlike" and the Red army was waiting and waiting for the order to march into Finland.

Fired Seven Shots

The alleged incident on the Karelian Isthmus, between Lake Ladoga and the Gulf of Finland where the two countries join 22 miles from Leningrad, had been disclosed Sunday night by Moscow when he handed a protest and demand to the Finnish minister here. He said the Finns had fired seven shots into the Russian lines, killing four and wounding nine Red army men, and the Finns must withdraw from the border at once, abandoning their "Mannerheim line" fortifications there.

The Finns charged that at about the time of the alleged incident Sunday afternoon, Russian trench mortars fired seven grenades behind the Russian lines and that if any Russians were killed or wounded, it was by their own fire.

Soviet newspapers and radio stations still withheld from the public the news that Finland had replied to the demand for withdrawal of Finnish troops from the border, but they continued to talk against "Finnish war mongers."

Mass meetings were still being organized throughout the country. At one, Russia's Baltic air force passed a resolution reading: "Our fliers are splendidly prepared. When the Communist party orders us, flocks of pursuit planes and bombers will crush the enemy mercilessly and prevent further anti-Soviet provocations."

**HORSES**

Sheriff's officers said today that as far as they know, five head of horses reported yesterday as "stolen or stolen" haven't been recovered.

The horses are owned by C. V. Griffith. They disappeared Sunday night or early Monday morning from the canyon in back of the sugar factory.

## Barefoot Boy Wins Backing Of L. A. Judge

LOS ANGELES, Nov. 28 (AP)—The barefoot boy won complete vindication in court today. His father was told he is not neglecting his duty by letting the son go shoeless.

It was the unusual case of Mrs. Theba Challenor who wanted to take custody of her son, Eugene, 10, away from his divorced husband, Howard Challenor.

She said the boy was allowed to go about in a shabby state of semi-nudity to the detriment of his health and well-being, to wit, barefoot, and with his shirt-tail hanging out.

"I have the fondest memories," said Judge Clement Shinn, "of the thrill of seeing the cool water in the tub when my parents permitted myself and my brothers to do our shoes at the first sign of summer." Shinn said.

When the mother complained the boy once stubbed his toe on a rock and hurt it badly, the court commented.

"A stubbed toe is the risk a small boy takes when he goes barefoot, and the fact that a boy should have responsibility to shoulder the risk."

Judge Shinn let the father keep the son, but suggested he encourage the boy to keep his shirt-tail inside his pants.

Small boy leaning on horn of parked pickup truck until main avenue pedestrians just about go mad. Two men and two youths lifting front end of touring car to get it out of too-tight parking space. Evening Times executive checking up and discovering, with some amazement, that employees in newspaper office have consumed contents of 4,000 bottles of soft drink since automatic dispensing machine went in. Drug store employee pretty chilly as cold air rushes through space in which big shop windows are being changed. And this sign on second floor courthouse: "Danger, High Seafile."

**BIDS OPENED FOR SECURITY OFFICE**

Bids were opened at the post office here this afternoon for a Twin Falls field office of the social security board. The office in Twin Falls will cover eight counties and will be staffed with civil service employees selected from the civil service register.

Announcement as to office personnel here will be made at a later date. Charles H. Cannon, manager of the Pocatello field office, said today that the headquarters in Twin Falls will be opened Jan. 1, 1940.

For Better Service

"Purpose of opening this office," Mr. Cannon said, "is to render service to the public of south central Idaho and to assist claimants under the amended act of the last congress."

Bids for the office must be forwarded to Washington for final decision.

Mr. Cannon pointed out that \$55,000,000 in wages has been recorded by the U. S. social security board to American commercial and industrial workers covered by the federal old-age insurance provisions.

Bank of Benefits

These wages will be used in determining the size of the retirement benefit checks which will be sent to beneficiaries or survivors when payments begin on Jan. 1, 1940.

The field manager said that "increasing realization by both employers and employees of the significance of workers' social security account numbers has reduced the total of inaccurately reported wage items from 10 per cent to 100 less than two per cent during the first half of 1939."

**ITALIANS OFFER RUMANIA TRADE**

BUCHAREST, Nov. 28 (AP)—Preparations for trade negotiations with Germany were highlighted today by a report in financial circles that Italy is prepared to supply Rumania with armaments in exchange for oil and grain, in competition with Germany.

The German-Rumanian negotiations were broken off last week when the government of Premier Constantin Argetoianu resigned rather than accept Nazi demands for a virtual monopoly of this country's exports.

## ELDER OF CHURCH PAID LAST RITES

Impressive last rites for Ole C. Paulson, 70, elder of Christian churches at Minden, Neb., Greeley, Colo., and Twin Falls during his illness today. His father was for many years, were conducted at 11 a. m. today at the Twin Falls mortuary chapel.

The body was taken this afternoon to Minden for interment, accompanied by his wife and his son, George Paulson, local attorney. Mr. Paulson died Sunday at his farm home near Twin Falls.

More than 50 years ago Mr. Paulson joined the Central Christian church at Denver, Colo., and had been prominent in church work since that time. He organized a church at Minden, Neb., where he preached and baptized many in that community. He also assisted in organizing and building the large Christian church at Greeley, where he lived for 11 years.

Mr. Paulson at one time directed a choir of 50 voices and was known as a fine musician, both for his voice and cornet playing. He served as teacher, Bible school superintendent and at one time he committed the entire New Testament to memory.

At the time of his death he was the sole pastor of the Central Christian church. He was known in Twin Falls as an expert mason. Two children preceded him in death. In addition to his wife and a son, a sister, Mrs. Ella Small, Denver, and three grandchildren survive.

Rev. Mark C. Cronenberg, officiated at the services, and a quartet, Mrs. U. N. Terry, Mr. and Mrs. Ronald Graves and Charles Allen, sang "Auld Synn Mair" and "Auld My God to Thee." Mrs. F. W. Slack accompanied.

Honorary pallbearers were J. H. Glendon, W. S. Thietzen, J. W. McDowell, P. W. Carlson, N. V. Nelson and J. F. Farrar.

**Cruelty Charged; Woman Asks End Of 1904 Marriage**

Charging extreme cruelty, Mrs. Cora E. Hicks had filed divorce suit in district court today against Orval J. Hicks, whom she married 34 years ago on March 4, 1905. Three children are all of legal age.

Mrs. Hicks requested the court to issue a restraining order against possibility that her husband might seek to dispose of residence and property at 1216 10th avenue east. She also seeks \$10 per month alimony.

Rayburn, Rayburn and Smith are counsel for the petitioner.

**BADGES AWARDED FILER SCOUTERS**

Advancements of members of Filer Boy Scout troop 30 were announced today by Scoutmaster L. C. Gilliam.

Eight Scouts were awarded one or more merit badges. They were Archie E. Malone, Donald Travis, Jack W. Wagelin, Leonard Winkle, George Anthony, Dwight Johnson, Delmar Malone and Frank Morrison.

Paul Embree was elevated to life Scout. Paul M. Hurler received a first-class advancement.

Examiners were E. Allison, A. C. Travis, George W. Anthony, I. S. Mota and J. C. Musgrave.

**More Contributions For Iron Lung Fund**

Auxiliary of the Disabled American Veterans today turned over to the Iron Lung fund the sum of \$5, according to Mrs. Helen Gamble, chairman for the Twin Falls district.

Other recent contributions not yet reported include \$5, joint donation from the scrubbers and Twin Falls chapter, Idaho Writers' league, and \$5 from Mrs. William Middleton.

**GERMAN CHARGES HIT ALLIES' PLAN**

BERLIN, Nov. 28 (AP)—Official Nazi sources charged today that Great Britain was trying to "drag neutral ships" into the war zone after the British navy had been forced to go into action and abandon the North Sea and North Atlantic to the Germans.

"The British are unable to protect their own coast and are compelled to close some of their ports," the official German news agency said in comment on the sinking of the British armed merchant cruiser by the Nazi pocket battleship Deutschland.

"The activity of the Germans has shown the world what is to be thought of the British claim to British rule of the seas. The strategic weakness of the British navy is being clearly realized in neutral countries which had previously believed they must bow to the non-existent British rule of the seas."

Nazi took the viewpoint that the sinking of the Rawalpindi was important because the position of the battle southeast of Iceland, emphasized "England's weakness" extended to the North Atlantic as well as the North sea.

# COAL DEALERS ASK CITY TO CURB TRANSIENT HAWKERS

## SEEK ACTION TO HALT SALES BY NON-RESIDENTS

Representatives of major local coal companies today have petitioned the city council to adopt an ordinance regulating sale of coal and coke in the city of Twin Falls to the end that outside trucking competition might be met and controlled.

The proposed ordinance was presented to council members by J. J. Winterholer, of the Utah Chalk Coal company; George Warburg, Warburg Bros. Coal and Transfer company; H. L. Hammond, Intermountain Seed and Fuel company; Clarence Nye, Magic City Fuel and Feed company.

Not "Green River"

Prior to the time the council received the proposed ordinance, the dealers present explained that it was not the "Green River" law which was recently discussed here by dealers, the council and also the Twin Falls merchants' bureau.

The new ordinance, as suggested last night and to be turned over by councilmen to City Attorney Harry Bennett for study, would provide for a \$25 annual license for each dealer. It also would make it unlawful to operate without a license and each dealer shall be required to maintain a place of business within the city limits with an attendant in charge during office hours. It further provides that anyone not licensed under the provisions of this ordinance engaged in the hauling of coal or coke intended for sale at fuel within the corporate limits of the city, shall be permitted to sell and deliver such coal and coke only to the yard or to the bins of a dealer licensed by the city under this ordinance.

**Dealer Trucks**

"Delivery of coal and coke, by any dealer licensed, shall be made only in trucks or vehicles licensed in said dealer's name, and bearing the license of the year in which said license was issued."

The proposition will be taken up again by the city council next Monday night at 7:30 p. m.

At the session last night, as regards the proposed ordinance, Mayor Joe Koehler said he was "entirely in favor" of such a move. He did mention, however, that a license rate of small amount would be made available to sub-dealers handling mostly small coal lots. Hammond informed councilmen that "sack business in the Twin Falls area doesn't amount to anything."

**Public Protection**

Winterholer, during the discussion, termed the proposed ordinance as a "protection to the general public" pointing out that "for instance" a check could be made on the weights of all local licensed dealers because records of each sale and the weight would be required under the law.

Councilmen also heard arguments for the adoption of another ordinance, one which would place a minimum of 25 cents on last fares within the city limits. At the present time some rates are 15 cents as a "taxi war" is in progress.

Representatives of three taxi firms presented the council with a copy of the Boise ordinance along this line and it was decided that this matter would also be taken up next Monday when the city attorney was in attendance.

Discussion was also held regarding payment of certain amounts due the contractors on the local library building and it was decided to recess until Wednesday at 7:30 p. m. at which time action will be taken on the matter.

## MAROA

Mrs. Lena Kneiss and Mrs. Kate Vaughn, Portland, Ore., are house guests of their sister, Mrs. B. H. McElhinney.

A farm sale was held at the Jim Swanson place last week. Mr. and Mrs. Swanson were guests at the home of Mr. and Mrs. Roy Blum over the week-end.

Mrs. and Mrs. George Henderson, Boise, were visitors at the homes of friends and former neighbors here this week.

## FIRE 'BUG' HELD IN KANSAS CITY

**SALT LAKE CITY, Nov. 28 (AP)—**Clifford Bramble, 47, confessed arsonist responsible for \$100,000 worth of damage here in 1927 and escape from the state mental hospital at Provo, was being held today in Kansas City, Mo., by federal authorities.

He was arrested there late Saturday night on a federal indictment charging unlawful flight to avoid prosecution.

Kansas City authorities said Bramble had been living there for more than a year, working as a painter. When arrested, he admitted his escape from the Utah institution and also repeated a confession made in Salt Lake City in 1927 that he had started 33 fires in Sacramento, Calif., which caused \$3,000,000 damage.

Bramble said he would fight return either to Utah to complete a sentence imposed for arson or to Sacramento to face arson charges there.

"I've spent about 20 of the last 25 years in prisons out west and I don't like them," Bramble said in Kansas City. "If it can be arranged, I'd rather go to prison in Missouri or Kentucky."

Bramble was convicted here of setting a fire in a Kresz store that caused nearly \$100,000 damage. He was sentenced to the state penitentiary but later transferred to the Provo hospital by court order.

Provo authorities said they had placed a "bond" order with federal authorities that would bring Bramble here if he were released in Missouri and not given to California.

**Our Tolerant Fire Equipment**

Would you be surprised to learn that Twin Falls has the poorest fire fighting equipment of any city its size in the state?

Of course you would be surprised, because it is well known that Twin Falls' fire department has an outstanding record, and for that reason you, like everyone else, have taken it for granted that the department must have good equipment to maintain such a distinction.

We'll have to agree we have an outstanding fire department from the standpoint of personnel, but that's about as far as it goes. That we have had no serious fire losses in recent years, however, can be attributed largely to the fact that we've been fortunate—if not outright lucky.

In other words, the many things that could happen with our obsolete fire fighting equipment haven't happened, and we have gone ahead gambling on this equipment in the belief that such things will never occur.

Briefly, the city's fire department has one 1,000-gallon-per-minute pumper which is now in its nineteenth year of service, one chemical and hose truck with no pump, and ladders that are only 24 feet long.

If the city were to have a bad fire and this 19-year-old pump should fail, we would have to depend entirely upon our gravity pressure. This could easily prove seriously inadequate with several lines of hose open.

Coupled with this danger is the traffic hazard involved in operating the city's fire trucks. Equipped with only two-wheel brakes, they are a serious menace to life and property as they race to fires through four-wheel brake traffic. Anything could happen.

These are the conditions that combine to place Twin Falls in a shameful position so far as its fire fighting apparatus is concerned.

Contrast this equipment with that of Buhl, for instance. Buhl has just purchased a \$9,400 fire truck that's modern in every detail. After seeing a demonstration of this machine while it was en route to Buhl, Boise was so impressed that it bought one just like it.

Meantime we cannot expect to be lucky indefinitely. One of these days the pumping system on our ancient fire truck will fail, and the law of averages will exact a toll that would pay for modern equipment many times over.

Shall we go on trusting to luck and courting a major disaster, or would it be wiser to follow the example set by Buhl and Boise?

**Capone Is Back Again**

Al Capone steps back into a world that must look as strange to him as his own glittering era of big business bootlegging looks fantastic to us. He went into prison 7 1/2 years ago as a swaggering bully; he comes out a whimpering psychopathic case.

The scar-faced, gun-toting, blustering Capone once personified the more sordid side of the frenzied twenties; today he is a left-over fragment of an age we would just as soon forget. There are reports that the ex-king of Chicago's underworld is fearful of his life and that the federal agents who once hounded him as a prize will now stay close at hand to protect him from possible underworld justice.

Capone was part of hangover America had from the last war. He steps back into a country that is watching another war and has no possible use for his kind. Capone once had almost a social standing in an era of jumbled moral codes. Now he rubs his eyes in the sunlight of a society that knows rackets and racketeers for what they are and is determined to stamp them out.

**Killers vs. Cures**

Militarists work overtime to invent more efficient methods of bringing death to the greatest number of people while scientists search for new ways to preserve human life. It's a tussle to see who comes out on top.

Within only a few days humanitarian scientists have announced several new developments. A new treatment for malignant endocarditis, which once took 98 out of every 100 victims, is being tried with some success. A synthetic male hormone has been developed to save effeminate young men from the tragedies of a frustrated life. A new metal, vitallium, was used to replace part of a man's skull, scraped off in an accident. The comparatively new science of eugenics has advanced another step with the announcement of a synthetic, fatherless birth of a rabbit.

Perhaps that has always been the essence of civilization—an eternal race between humanitarians and militarists with the former having just enough of an edge to keep the world going.

**BRUCE CATTON**

**IN WASHINGTON**  
By BRUCE CATTON  
Evening Times Washington Correspondent  
WASHINGTON, Nov. 23.—If President Roosevelt does what he has been saying he will do, and appoints Attorney General Murphy to the supreme court, we can expect Solicitor General Robert H. Jackson to be promoted soon more as a presidential candidate.

For several years Jackson has been the favored candidate for the New Deal group—including, it is said, Roosevelt himself—as FDR's successor in 1940. Chief trouble with the idea has been that the country at large has heard but little of him.

The office of solicitor general is a higher position than that of attorney general, but it does not bring its holder many headlines.

If Mr. Murphy should be put on the supreme court, Jackson would be the logical man to replace him as attorney general. In that spot would command plenty of headlines.

The anti-monopoly drive now in progress would insure that, if nothing else, the "bulldozer" which felled lamentably when it was tried a couple of years ago, could go forward in fine style.

JACKSON'S BACK MURPHY FOR JUSTICE  
Right now, the most part of the Murphy-for-justice talk in circulation proceeds, not from backers of Murphy, but from backers of Jackson.

Murphy is very happy where he is. A reliable report says he was offered a place on the high court but he has declined it. The understanding now is that he will take the place if the President sees him. But if he were to take the place, he would take the place of the President.

Early in 1938 a Jackson-for-President move was launched here in a mild way. New Dealers boomed him for the New York gubernatorial nomination, figuring that that would be an excellent stepping stone to the presidency.

The plan fell through when Postmaster General E. A. Tamm and other practical-minded politicians decided they needed Governor Lehman as a candidate again to oppose Republican Governor Roosevelt.

In that same winter of 1938 Jackson was nominated to the post of solicitor general.

**HISTORY Of Twin Falls City & County**

As Gleaned from Files of The Times

**15 YEARS AGO**  
DEC. 1, 1924  
No action was taken in the conference on specifications on the American Falls dam, which started in Denver Monday afternoon, according to word received by the Times of their United Press wire, and the conference has been transferred to Salt Lake City where the issue will be determined. Commissioner Elwood Mead of the reclamation department, Commissioner W. C. Swenson of the Idaho reclamation department, President R. E. Shepherd of the big district, and others were in the conference.

Practically 600 children in Twin Falls schools started to drinking milk for the first time today under the direction of Mrs. James Walker of the Parent-Teacher Association, and Mrs. D. L. Alexander, many of these children are overweight and are given the milk at the forenoon recess period.

**27 YEARS AGO**  
NOV. 25, 1912  
Twin Falls did not want any more children. It does not want anything but the children of the future. The children of the future are the children of the future. The children of the future are the children of the future.

It seems that a certain business establishment in Twin Falls hired a new male employee. So the feminine workers arranged themselves a "pool" drawing to see who "got" him.

Through the indefatigable gum-shoeing of our detective we can and do present the wording on the four slips of paper used in the drawing. Which was this?

"You do, if you have it."

"You do, if you can run fast enough."

"You do, if you tell them they're wrong."

"You do, if you can two-time somebody else."

"You do, if you can't say how the drawing came out or what young lady 'won' the youthful male."

Oh, in fact, it fell just "won."

Lately chocolate drinks, particularly chocolate milk drinks, have been especially popular with children. The reason for this is that many children like the flavor and will drink chocolate milk when they will not drink milk.

Chocolate milk drinks vary greatly. Some are made from skimmed milk of low grade and are not good for children. Some are made from high grade milk and are good for children.

# BRITISH BLOCKADE OF NAZI EXPORTS STARTS MONDAY

## ALL CONTRABAND GOODS WILL BE TAKEN OFF SEAS

By FREDERICK KUH  
LONDON, Nov. 28 (U.S.)—Great Britain's blockade on German exports will go into effect Monday, it was reported today from a reliable source.

The blockade was formally invoked today, with publication in the official gazette and all neutrals including Italy and Japan, despite that angry protests, were being notified that German goods are henceforth barred from the seas.

British warships in all seas are standing by for the admiralty's code signal starting the blockade.

Preliminary instructions already have been sent all warship captains.

**Confiscation Power**  
"You will have power to confiscate and impound all goods of German origin no matter in what ships they are carried or wherever they are found," they read.

"You will not sink or shell these ships. You will inspect the cargo then escort them gently but firmly to the nearest port."

In a few days, the order will go out to all ships by radio and all shore stations by telegraph: "Seize all German exports."

It will be a thorough blockade. Cargo will be examined minutely and a shipment of linen made from flax grown in Germany, for instance, will be contraband.

**New Bases Established**  
Many new contraband control bases will be established in the Mediterranean, the far east, the British Isles and France, to handle the seized cargo.

It is estimated \$250,000,000 worth of exports, or 30 per cent of Germany's normal foreign commerce, will be affected.

France is invoking an identical blockade.

As for the protests by Italy and Japan, which were the most bitter of all the neutrals' because of their friendship with Germany, the French pointed out that neither Japan nor Italy protested against Germany's unrestricted mine warfare. In violation of the British interpretation of international law, for which the blockade is a reprisal, even though both Japanese and Italian ships have been sunk by mines.

## SUBSIDY PAY IN FARM PROGRAM

WASHINGTON, Nov. 28 (U.S.)—Secretary of Agriculture Henry A. Wallace announced a 1940 farm program today calling for more than \$750,000,000 in government subsidy payments.

The program provides for increased payments for soil conservation practices in line with Wallace's plan to shift emphasis from acreage control to soil conservation.

Wallace said the 1940 program was contingent upon an appropriation of \$500,000,000 to the agricultural adjustment administration by congress.

The program calls for changes in the rates of payment on several crops, but total benefit payments would be about the same as this year. The national soil-depleting crop goal was unchanged at 270,000,000 to 285,000,000 acres.

Wheat acreage in 1940 would be increased from 55,000,000 acres this year to 62,000,000 acres. AAA wheat payments were reduced from 17 to nine cents a bushel.

## "Pollyanna" to Be Presented at Filer

FILER, Nov. 28 (Special)—"Pollyanna," all school play, will be presented in the newly completed and decorated auditorium at Filer High school Friday, Dec. 8.

Plot of the play revolves around the experiences of Pollyanna, an orphan girl who is thrust into the home of a maiden aunt. She always manages to find something to be glad about. Finally Pollyanna straightens out the love affair of her elders and finds happiness for herself.

Mrs. Karleen Davis of the high school faculty is director of the play.

## Calves Awarded to 4-H Winners

## THREE 4-H BOYS AWARDED CALVES

Three south central Idaho boys are proud possessors of calves as the result of superior work in club cattle projects.

Winners of a contest sponsored by the Jerome Cooperative creamery which put up the calves as prizes, the boys were Cecil Alderfer, 11, Burley, Mini-Canada district winner; Fred Olds, 16, Twin Falls district winner; and Dale Kuhl, 11, Jerome, first in the north side district.

**Eye to Future**  
"The next generation of dairymen in south central Idaho will spring from young club workers," asserted Thomas Speedy, Twin Falls, general field man for the creamery, in giving the reason for his organization's interest in the 4-H youth.

Judging and prize awarding was done by the extension division of the University of Idaho.

Each winner was allowed to name the breed of calf he wanted, and young Alderfer chose a heifer from the L. C. Freer Guernsey herd at Burley. He has spent two years in 4-H work, showing a prize-winning junior yearling Guernsey heifer at the Twin Falls county and other fairs in the past year.

**Seven Years**  
Fred Olds has seven years of club work to his credit. He has shown six calves at consecutive fairs, owns six purebred Holstein females and one bull calf. He received his call from the John Gott Twin Falls herd.

Expected to be a 300-400 pound butterfat producer per year is the grade Guernsey heifer from the L. C. Freer herd that Dale Kuhl received as prize.

Ronald Wilson was Alderfer's 4-H club leader; Frank Southwick led Olds' group; and Mait Kuhl worked with Kuhl.

## MARINE RECRUIT TOUR UNDERWAY

U. S. marine corps traveling recruiting party will be in Twin Falls Friday, Dec. 1. It will be stationed in the vicinity of the post office from 8:30 a. m. to 5 p. m. to examine eligible young men for enlistment in the U. S. marine corps.

"Men must be between the ages of 18 and 30 years, single, of good physique, sound mind, and have no police or juvenile records," Fred Correll, recruiting sergeant in charge, stated.

Men with previous service in the marine corps and who have been discharged less than four years may re-enlist at their previous rank.

The recruiting party is in Rupert today and will visit Burley tomorrow, centering in the vicinity of the post office in both cities.

## BOTTOLFSEN SETS TAX GATHERINGS

BOISE, Nov. 28 (U.S.)—A series of seven tax hearings were held today by Gov. C. A. Bottolfson for the purpose of securing "better equalization" of taxes.

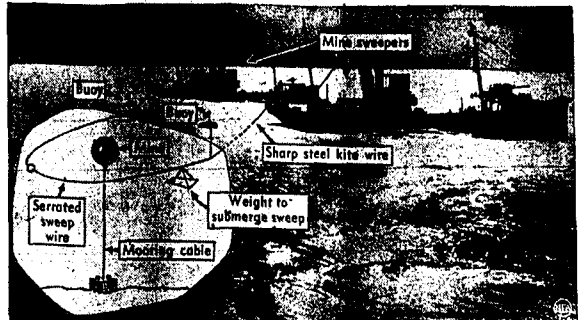

The meetings were county prosecutors, Dec. 5; county commissioners, Dec. 6; state Grange, Dec. 14; retail merchants, Dec. 15; sheep growers, Dec. 19; horse growers, Dec. 20; railroads and power companies, Dec. 21.

The state tax commission will preside at the hearings.

## CHEERED

NEWPORT, Vt., Nov. 28 (U.S.)—Cheered on by her three-year-old brother, Jeanine Fournier, 1, climbed up a steel pole. At the top, she touched electric wires carrying 24,000 volts and toppled to the ground, dead.

## How Britain Fights Mine Menace

Here's one method of mine sweeping being used by British vessels in the North sea as they seek to clear waters of the hidden belts of TNT that railed havoc with shipping off the English coast. Sharp wire cuts through mooring line of hidden mine, allowing it to bob to the surface.

## CAST PICKED FOR PLAY BY SENIORS

Taking the title role of Tish, Mary Roberts Rinehart's unforgettable spinster, in the Twin Falls high school senior class play, "Tish," will be Mary Strain the first night, Dec. 7, and Barbara Sutcliffe the second night. It was announced today by Miss Florence Reed, director.

As her two boon companions and comrades in trouble Lizzie will be portrayed by Phoebe Jane Francis and Pat Wilson, and Aggie will be Madeline Bracken and Fran Thompson.

## Romantic Tale Leads

Charlie Sands, Tish's nephew who plays the romantic lead opposite Ellen, will be taken by Harry Bennett and John Miller. Ellen, who manages the hotel where "Tish" party stays, will be taken by Mary Haney and Martha Weddle.

Portraying Charlie, formidable Mexican maid at the hotel, will be Irma Goodnight and Delores Campbell. The western sheriff, Lem Pike, will be Bob Colner and Kenneth Bantyne. Callie, friend of Ellen, will be cast with Fern Bailey and Margaret Correll, and Luther Hopkins, her father, is Dee Jenkins and John Smith.

Virginia Commons and Arlene Smith will be Bettina Trent, young lady who arrives at the hotel, and David Wilson and Jim Kinney will be a young man in the plot.

## Varsity Debate

Varsity debate for Twin Falls high school students will start with opening competition for a place on the squad Dec. 19, Gerald Wallace, coach, announced today.

Each student taking part is to prepare a five-minute introductory speech and a two minute rebuttal. He may take either side of the question that he wishes. Question for this year is "Resolved: That the United States should own and operate all railroads."

Neils and coffee refreshments are served people who suspect brewsters in Australia.

Mr. and Mrs. Parley Harmon have sold their farm to Valentine Barnaga and will move to the place farmed by Frank Goodwin. The Goodwins are moving to the place that Walter Brown has farmed, while the Browns are moving to their own farm, adjoining the one on which they have been living.

Miss Phyllis Haley was honored at a birthday party last week by relatives and friends, who gathered at her apartment.

## THE PAYOFF

by HARRY GRAYSON (NEA Sports Editor)

NEW YORK—While unbeaten and unscathed on Tennessee makes Rose bowl plans it might be well to remember that the Vicious Volunteers still have two hurdles to negotiate.

Major Robert Reese Neyland's men tackle Kentucky in Lexington, Nov. 30, and Auburn in Knoxville, Dec. 8.

While the odds are against the Wildcats and Plainsmen, each outfit is capable of spilling the apple-cart. Has Kentucky any chance against Tennessee?

"Well," replies Hank Hardbood, from down in them thar hills, "has Bimblech any chance to win Kunkel Bradley's fifth Derby?"

Although Tennessee won, 46-0, a year ago, Kentucky players and followers see no reason why the Wildcats should fall this trip.

The Kennuckians haven't done so badly themselves this season in winning six, tying one and losing one. They have high hopes of once more blasting Major Bob Neyland and his orange clad gridders out of a Pasadena bid.

If they do, it won't be the first time.

Good Enough

Just 10 years ago, the good major brought another "dream" team to Lexington en route to Southern California and was fortunate to get off undefeated.

The score that afternoon was 6-0, but the Wildcats gained the glory, piling up 14 first downs to two for the Vols.

Again in 1931 Tennessee had high hopes of a trip to the gold coast, but with the fragrance of roses in the Vols' noses the peppy Kennuckians sprang up with another 6-0 dead-

## Bradon Seeks 6-Day Week For Majors

By PAUL DIX

ST. LOUIS, Nov. 28 (UP)—If Sam Bradon, president of the Cardinals, has his way about it at the major leagues meeting at Cincinnati in December, baseball will officially go on a six day week next season.

Although Monday games have virtually been abandoned by most clubs, Bradon says he will suggest that the schedule makers go all the way and wipe them out entirely. In place of the Monday games, Bradon says he will recommend that double-headers should be scheduled for each Sunday for all clubs wanting them.

Bradon declares clubs playing night baseball frequently are forced into Sunday double-headers because of opening dates following their night games. "Why shouldn't we who have no night games have them if we want them?" he asked.

For Early Double-headers

The Cardinal owner pointed out that last season's National League schedule included a number of Sunday double-headers, although it was the middle of June before a scheduled weekday game could be moved up to provide a double-bill on Sunday. He says he will propose that the double-headers start on the second Sunday after the opening date.

Bradon believes the first Sunday doesn't need a twin-bill to attract the customers. "That's an event in itself," he says. "The last Sunday doesn't need to be a double-header, either, because if your team is up in the running you won't mind it and if it's down in the losing column it wouldn't do any good anyhow."

Bradon insists it is necessary to provide considerable incentive to induce players to drive long distances to see a ball game now that so many counter-attractions have arisen.

Players Need Rest

"The ball player would have every Monday to himself, and I think he's entitled to it," Bradon says. "A player goes virtually seven months without a rest, except for a day off when it rains. He can't prepare for that, so it doesn't do him much good."

"A day off, on the road doesn't do a player any good, either," he pointed out. "It will be up to the clubs to provide exhibition dates on open dates to keep them occupied. For the home team, however, it would fit in well. Most players are married and a regular day off would give them some time to spend with their families."

With or without George Cafego, who has been out with a bad knee, Tennessee will have no picnic in Lexington on our second Thanksgiving day.

PITT CONTINUES POLICY

PITTSBURGH, Nov. 28 (UP)—Despite a record of five wins and four losses, the worst football season since 1928, the University of Pittsburgh will continue its "football for fun" policy, Chancellor John O. Bowman said today.

Mullins almost ran Alabama out of the Birmingham stadium single-handed. His alternate, 185-pound Charley Ismael, is another on whom Wildcat followers pin faith. The Cats have a whole of a tackle in 240-pound John Eibner.

Kentucky's coach, Al Kirwan, struck back in his second year on the job. He is a former Wildcat end who captained the Kentucky team of 1925 which repelled Tennessee.

## Seven Horses Rudely Jolted In Car Wreck

JEROME, Nov. 28 (Special)—Horses were scattered over the landscape and were generally getting the worst of it as the result of two accidents here this week.

Last night seven horses being chauffeured by George H. Hansen and a Twin Falls employee were thrown out to the side of the highway when the truck in which they were riding overturned as it left the road on the "H-mile" curve north-east of Jerome.

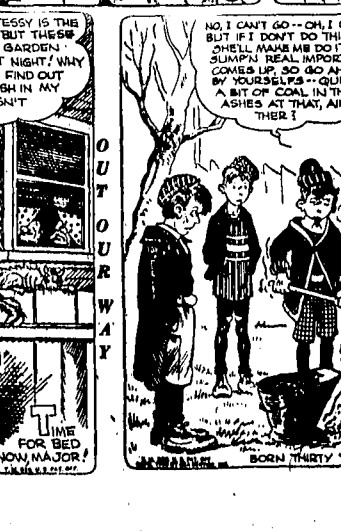

The animals were shaken up and frightened but suffered no serious injuries. Hansen and his assistant were unhurt, Sheriff Lee Johnson, investigating officer, indicated.

Possible cause of the accident was that the horses grouped to one side as the machine rounded the curve, thus making it capsize.

Sunday night Lloyd Mettla was driving east of Eden when he struck a horse in the road as he was negotiating a curve.

The driver sustained cuts on his hand and the animal was lacerated. Damage to the machine was estimated at \$60 by state police.

## AROUND THE WORLD

By United Press  
 LONDON—Seventy-three German soldiers, including 10 officers, were landed at a west Scottish port this morning from a British military cruiser.

PARIS—The Germans have had such success using shepherd dogs to hunt out French outposts that the French are now training dogs for counter hunting. The German dogs go off individually through the forest "no man's land" at night, and in open terrain in day, advance cautiously, as if upon a covey of quail, and come to a dead halt on finding a French outpost or patrol.

PARIS—The British navy today confirmed that one of her naval units last week had sunk the British converted auxiliary cruiser Sardinia but they did not mention that the naval unit was the sailing Naui pocket battleship London.

LONDON—The royal air force conducted a successful flight over northwest Germany last night, the air ministry announced today.

OSLO, Norway—The newspaper Tidens Tegn said today that "outside Russia, hardly anyone will believe that the Russian border is so close to the German border as it is."

BERLIN—The incident on the border should come simultaneously with a violent press attack on Poland.

BRUSSELS—Anti-aircraft guns today fired on several German airplanes flying over Brussels. The planes appeared to be flying to hide behind the clouds. After a few minutes they disappeared toward the west.

BERLIN—Authoritative sources said today that the German navy was not directly interested in Russia's quarrel with Finland. The Russian viewpoint was fully understood here and it was a great power had a right to secure its route to the sea and cannot be expected to breathe through a lung.

MANILA—The municipal board today to order foreign businessmen to vacate Manila's public markets within three months. The bill would limit to Philippine and United States citizens the right to conduct business in the markets.

It is possible to reach many parents, Miss Robinson said, only by working through the schools.

The Washington specialist spoke in probate courtrooms. With Mrs. Margaret Crumley, Idaho WPA supervisor in charge of the program, she visited the Twin Falls nursery school project this morning.

They were then to leave for Boise where Mrs. Robinson will address several organizations.

Mrs. Doris Bradley, county superintendent of schools, presided at last night's meeting.

## Story Claims 12 Nazi Ships Sunk in North

LONDON, Nov. 28 (AP)—Reports in naval quarters said today that British warships, blockading the Atlantic coast of Germany, had sunk 12 German merchant ships which had sailed from the United States.

The reports were published today by the News Chronicle, quoting a member of the crew of the armed British merchant ship Clive, which was captured by the German auxiliary cruiser Havelund.

The Havelund, a former liner of 16,000 tons, was sunk in a fight with the German pocket battleship Geyser off the southeast coast of Ireland last Thursday.

It was disclosed British warships were extremely active in the north Atlantic and that the Clive, although an easy victim over the Havelund, had fled quickly because a British cruiser had come into view and other British fighters were nearby.

Meanwhile, the international sea lanes claimed the ship in 11 days. The British freighter Uak-moth, 2,483 tons, it was announced that 27 of the Uak-moth's crew were picked up by a passing British ship and three were missing. Cause of the sinking was not disclosed.

## 11 COPPER FIRMS RAP TARIFF CUT

WASHINGTON, Nov. 28 (AP)—Eleven domestic copper companies protested any reduction in the four cent a pound tariff on copper in the proposed Chilean trade pact.

A. K. Peterman, counsel for the companies located in Michigan, Arizona, Nevada, North Carolina, Texas and Tennessee, told the committee for reciprocity information it is not certain whether the state department or President Roosevelt has authority to modify excise taxes under the trade agreements program.

He contended it was the intent of congress that the excise tax on copper was not to be disturbed.

Not Congress intend "Even if it should ultimately be determined that the reciprocal trade agreements act does confer a power to alter this tax, neither the state department nor the President would be justified at this time in reducing it, merely because their judgment it is unnecessary or too high," he said.

Rep. W. C. Robinson, D. Utah, also contended that the congress, in passing the trade agreements act did not intend that excise taxes could be lowered by the executive. He asserted any change in the copper tax in the Chilean agreement would not be in accordance with the wishes of congress.

He asserted a large part of Utah's population was dependent upon copper for employment and that any reduction in the copper tax would result in unemployment and distress in his state.

See Other Cuts  
 Peterman asserted that under the trade agreements program any concession granted on copper to Chile automatically would be extended to other copper producing countries, whose production costs are below those in the United States.

Representatives included in the representation were Calumet & Hecla Consolidated company, Copper Range company, Isle Royale Copper company and Centennial Copper company, all of Michigan; Consolidated Copper Mines corporation, Nevada; Magna Copper company, Arizona; and Phelps Dodge, Arizona; and Phelps Dodge, Tennessee, and Phelps Dodge, corporation, of Arizona and Texas.

Better housing for low-income families in "slum" quarters of larger cities as well as in poorer sections of small communities as a vital need in order to improve national morale, Isabel J. Robinson, associated with the Washington, D. C. Housing Corporation, said today.

Telling of her work in settlement houses, Mrs. Robinson said that the work in underprivileged homes to be followed with classwork for parent education.
