# ECONOMIC STRUGGLE HIGHLIGHTS EUROPEAN CONFLICT

## BOLD OFFENSIVE ON BRITISH NAVY SURPRISE OF WAR

(Editor's note: Here is the second dispatch in a series by the foreign news editor of the United Press reviewing the march of Mars across Europe in terms of developments which point to the future course of the war.)

By JOE ALEX MORRIS  
United Press Foreign News Editor  
This war is in a battlefield state of siege that might well last a century. But on other and probably more decisive fields it is being waged at unprecedented speed.

After the telescope around the conflict in Europe, it is possible to bring into focus some of the gains and some of the losses on both sides. The result cannot be foretold.

But for the purpose of clarification and study of progress so far, the conflict may be reduced to the fundamental struggle between Great Britain and Germany. These are the primary opposing war aims:

1. Great Britain's purpose is to defeat the Nazi and German forces by closing a devastating economic and military blockade around Germany, and thus, as the ultimate goal, restrict Great Britain's position as a great, if not the greatest, single influence in world politics and trade.

2. Germany's purpose is to destroy the British navy as ruler of the seas and thus remove the greatest single traditional obstacle to Nazi leadership in Europe.

Those are the barest fundamentals. They may be modified by necessity. They may be modified by future for the governments now in power.

So far, the British and French are sought to force Germany to fight on allied terms, believing that economic power will mean ultimate victory without wholesale loss of fighting men. They have been successful to the extent that Adolf Hitler, by failing to strike with full military power, accepted the challenge to an economic war. But in one respect Hitler has amended the allied plan of war. He has taken the offensive against the British navy.

Now, what are the gains and what are the losses? They fall normally into four classifications: Land, sea, air and economic.

**Casualties Slight**  
On the land, the armed force by both sides so far has had only incidental or indirect results. On the western front, it is estimated there have been more than 4,000 casualties, rather evenly divided between Germans and French with the British suffering probably a score of dead since their arrival in the front lines.

**AT SEA**  
Germany is on the offensive at sea with U-boats, mines, planes and armed sea raiders in a campaign to blow the British navy out of the water.

**ECONOMIC**  
The allied offensive has been mainly on the economic front, where Britain moved with spectacular speed to institute a "double blockade" of exports to and from the Reich and to reinforce it from the beginning with a ruthlessness that did not appear until the end of the war in the World War. The outstanding result in four months has been to destroy Germany's overseas trade, cutting off an estimated 40 per cent of normal imports and slashing the Reich's "Blitzkrieg" power by seizure of exports.

## New Year... New Leaf

# Why Not New Car?

The slate's clean, the past is past, you're making a new beginning on a new year you hope will be happier and finer and richer—how about doing the job up right?

You spot the fun possibilities in this brilliant and buoyant Buick just by watching it flash by, but have you been in to try it?

Do you know what it's like — first hand, we mean — to have a hundred-plus Dynaflex horsepower waiting your treadle-foot's nudge? Have you sampled the thrill in such an engine micro-poise-balanced to smoothness a wrist watch can't hope to equal?

Today's winter-roughened roads give you swell change to try out Buick Springing's gentle ride — raw weather emphasizes the stout snugness of Unisteel Bodies by Fisher and the convenience of the Flash-Way Direction Signal.

Now's when you most need firm new rubber — sure, soft, tiptoe brakes — Buick's automatic choke — stout, taut frames and rugged bodies, and why wait for spring to buy beauty that gives your spirits a lift?

Then too, driving speeds are naturally lower now and driving distances shorter, making this the best time of all to get a car properly started in life.

So figure it out! It's a new year. You've turned a new leaf. Ask your Buick dealer what a new Buick will cost you now — and let every month of 1940 contribute to a happy new year!

The model illustrated is the Buick Super Model 51 four-door touring sedan \$1100 delivered at Flint, Mich. White sidewall tires additional.

Will 1940 Be the Peace Year?
There has been a lot of talk about European peace during the past few weeks, and there will probably be a lot more in the days to come. It is a strange thing to talk of peace so early in the conflict, but it is an encouraging sign.
Thomas Mann, German refugee author now in the United States, recently ventured the prediction that Europe's struggles would end before 1941. At various times, others have forecast an early peace.

Whose Mistake?
Mistakes of Red army commanders, in charge of the Finnish coup, have reportedly caused Dictator Stalin considerable anguish. The No. 1 comrade of them all is not a bit delighted with the tactics that are pushing the Soviet army right toward the Kremlin's front door.
Only a short time ago, Stalin removed from high command Gen. K. A. Meretskov who is officially in disgrace for his "mistakes" along the Finnish front. To rectify matters, Gen. Grigory M. The Finns promptly ripped into shreds another Russian division and confiscated much needed mobile equipment and armaments.

### Health Cards

Issuance of certificates of sanitary approval will follow inspections of restaurants, food stores, markets, barber and beauty shops, hotels and other establishments slated to get underway this week. It was announced by Dr. L. C. Kroehler, director of the district health unit.

Such places of business come under the sanitary inspection service of the district health unit and issued annual certificates if stated requirements are met. The certificates are expected this week from Boise and inspections will start at once.

It was pointed out by Dr. Kroehler that after the establishment operating without a valid certificate is operating contrary to law.

The inspections consist of a complete checkup of all items of sanitation. In addition to physical inspection of the premises, all employees are required to have health certificates.

The certificates or health cards can be revoked at any time during the checkup if all items of sanitation fail to continuously meet all requirements.

Dr. Kroehler said that routine inspections are made from time to time throughout the entire 12-month period.

### Literary Bug Busy Around Resort Area

KETCHUM, Jan. 10 (Special)—The literary bug has taken flight to this part of the state for a time. It appears according to a McNeil, presiding judge of Blaine county, and formerly a resident of Shoshone, announced his "History of the Turtura and Blaine counties" is on the press, and he has accumulated a good many orders for it. His book contains articles of the early days in this county and have been printed in the Hailey Times during the past year, which paper has printed the copies, and they will be bound by the Oxtion Printers, Caldwell.

Then comes Pauline de Sutter, fancy ski dancer and owner of a newly alone at Ketchum, who states she is finishing a volume she began when she was 15 years old. It will be largely autobiographical.

Several other writers have "holed up" for the winter and will devote their energies, more or less, during the winter months, while several others are busy with proof and magazine work. There seems to be ample in the environment to suit the fancy of dreamers of the printed word.
