## SENATOR BORAH CLINGS TO LIFE

### Alabama Foursome

Mr. Stork visited an humble farm cabin in the hills near Jasper, Ala., and before he departed, Mr. and Mrs. Clark Stork had an unexpectedly large family. It consisted of Alabama's first quadruplets. They are the sisters Faith, Hope and Charlotte and their brother, Franklin, pictured above. With their mother (right) they were taken to Walker county hospital, where an incubator was improvised for them.

### HATCHERY BLAZE DAMAGE \$15,000

PLAINS, Jan. 19 (Special)—With a loss estimated from \$12,000 to \$15,000, making it one of the most disastrous fires in the history of the country, the Chickadee hatchery was in ruins here today.

A defective fire plug believed to have caused the blaze which was first noted at 2 p. m. Thursday. Quick work of members of the Bush and Pler volunteer fire departments confined the blaze to the immediate structure and, aided by a brisk east wind, the fighters were able to keep it from spreading to the residence of N. L. Johnson, hatchery owner. The fire burned for nearly two hours as the entire building, including valuable and expensive equipment inside, went up in smoke. The five hundred for nearly two hours as the entire building, including valuable and expensive equipment inside, went up in smoke. ### ROOSEVELT STILL DUCKS QUESTIONS

WASHINGTON, Jan. 19 (AP)—President Roosevelt once again deflected off semi-weekly news conference inquiries designed to throw light on his mind from the press. Reporters tried an oblique approach to the subject today. A correspondent informed the President that Kenneth Crawford, Washington newspaperman, had been elected president of the American Newspaper Guild with the support of members in Maine, New Hampshire and Vermont. Mr. Roosevelt replied laughingly Crawford may be the fellow he has been looking for. A reporter then told the President Mrs. Roosevelt had been nominated as president of the guild but refused the nomination. Other rumors also withdrew, the reporter continued, suggesting the moral situation that would be involved in withdrawing the opposition clean up. Perhaps so, said Mr. Roosevelt, with a grin, but did his wife pick Crawford?

By JOE ALEX MORRIS  
United Press Foreign News Editor  
Extreme cold across northern Europe, which continued in many areas today, doubled the hardships of war in both western Europe and Finland.

### Detailed Plans Told For 'Farm Coliseum'

A vast agricultural structure which requires two entire city blocks, which is visioned as a major step to prosperity for Idaho farmers—and for which practical financing plans apparently could be arranged—emerged here today as the specific picture of the "agricultural coliseum" advocated by the agriculture committee of the Twin Falls Chamber of Commerce.

### End Looms For Severe Cold Wave

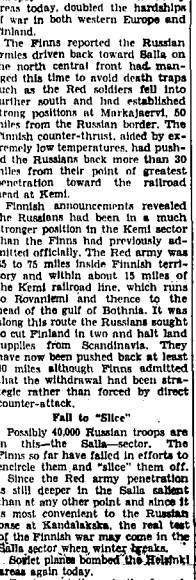

CHICAGO, Jan. 19 (AP)—Relief from the severe cold wave which swept most of the nation was forecast today and the U. S. weather bureau here predicted the mercury might rise to zero or a few degrees above in the central area. Snow storms were expected to accompany the rising temperatures. Higher temperatures were reported in the Dakotas and northwestern Minnesota. Devil Lake, N. D., reported a 25-degree rise to 11 degrees above zero. Comparatively mild weather was expected in the Ohio river and Missouri river valleys. Continued sub-zero cold was forecast for most of the upper Great Lakes region, however. Madison, Wis., was one of the coldest cities in the nation with 15 degrees below zero. The ice winds rolled eastward to the Atlantic seaboard and southward to the Gulf of Mexico. Schools were closed in many sections of the northern middle west because of the cold. Fires were numerous. Hailstorms in many cities scattered three cutters, and prevented freezing of perishable goods. The cold wave paralleled in the snow-covered northeast. The forecast for New York was colder Friday and continued cold Saturday. Bitter cold and strong headwinds accompanied three cutters, and a trailer which was trying to make port at Boston. The vessel, covered with ice, were trying to return to sea as they crawled slowly toward the coast, 200 miles away.

### Cold Wave Covers South Idaho Area

BOISE, Jan. 19 (AP)—A cold wave descended on southern Idaho today and dropped temperatures to around the zero mark. A piercing wind lashed city streets and residents bundled in their warmest clothing. A light snow fall was reported in southeastern counties. ### Congress at Standstill As Solons Await News on Condition of Sen. Borah

Congressional business was practically at a standstill today, because of the critical illness of Sen. William E. Borah. The senate convened at noon for a somber six-minute session. Only most routine business was transacted. As if by common consent, not a speaker rose to talk. After action on some minor presidential nominations, adjournment was taken until tomorrow.

### Easter Showings Aid to Business

NEW YORK, Jan. 19 (AP)—Preparations for spring showings for an early Easter held the trade spotlight this week, with buyer establishments at some snow establishing records. Dun & Bradstreet, Inc., said today. Favorable retail trade reports came from cities in the south. Favorable reports came from the southwest and Pacific coast. Retail volume for the week was estimated at five to 11 per cent over the corresponding 1939 week, compared with a year-to-year gain of seven to 12 per cent the week before.

EDITORIAL CITED IN SAFETY DRIVE

In carrying on the police department's drive to "make local streets safe for our children," Chief of Police Howard Gillette this afternoon pointed to a timely editorial...

The article, titled "You Guys Wouldn't Hurt Her, Would You?" follows.

"Dear Drivers: Today, my daughter who is seven years old started to school as usual. She wore a dark blue dress with a white collar—she had on black shoes and wore blue gloves. Her mother, who was on the porch, and whined his canine bellow in the folly of education, as she waved goodbye and started off to the hall of learning.

"Tonight, we talked about the school—she told me about the girl who sits in front of her—the girl with the yellow curls—and the boy across the aisle who makes the funny faces. She told me about her teacher, who has eyes in the back of her head—and about the trees in the school yard—and about the big girl who doesn't believe in Santa Claus. We talked about a lot of things, tremendous vital unimportant things, and then we studied spelling, reading, arithmetic—and then to bed.

"She's back there now, back in the nursery, sound asleep, with Prince as Kibitz that's a doll cuddled in her right arm.

"Up to Autolots "You guys wouldn't hurt her, would you? You see, I'm daddy. When her doll is broken or her finger cut or when her head gets bumped I can fix it—but when she starts to school, when she walks across the street, then she's in your hands.

"It's a nice kid. She can run like a deer, and darts about like a chipmunk. She likes to ride horses, and swim, and hike with me on Sunday afternoons.

"But I can't be with her all the time. I have to work, to pay for her clothes and her education. "So please help me look out for her. Please drive slowly past the school intersections and please remember that children run from behind parked cars.

"Please don't run over my little girl.

"Every Daddy." The magazine was handed to Gillette by J. G. Barkley of Twin Falls.

Jaycees' Oldsters Plot Way to Win Membership Race

It was a serious conference—and the "oldsters" started anew in their effort to defeat the "youngsters" in the current membership drive.

The youngsters leading by 71 points to 45 at the start of the day, the oldsters conferred this morning on ways and means of spurring through the final "quarter" of the unique "basketball game."

By this morning the total sign-up achieved by both teams reached 85 memberships. Last year's aggregate was 120.

Former Official Dies at Fresno Mrs. Margaret Ward, for a number of years county treasurer of Blaine county, assistant state treasurer during Byron DeFombach's administration, and well-known in Twin Falls, died at 11:30 p. m. yesterday in a Fresno, Calif., hospital, according to word received here by Mrs. F. P. McAfee, a sister.

Funeral services and interment will be held in Blackfoot probably next Monday. Her husband, Richard Ward, government engineer on the Indian reservation there, preceded her death a number of years ago. Also buried in the Blackfoot cemetery is a daughter, Margaret Cecilia Ward, who died in infancy.

Mrs. Ward had been ill for the past year, but the past month her condition had seemed to improve, according to relatives. She had been living with her sister, Mrs. Jedd Jones, Malad, until Thanksgiving when she went to Fresno to be with her daughter, Mrs. William Smith.

The daughter is a technician at the Fresno hospital where Mrs. Ward died last evening.

Other surviving relatives are another sister, Mrs. Charles Briggs, Malad; and three brothers, William Leigh, a mining engineer in California; Earl Leigh, Pocastello, assistant state treasurer of the Union Pacific railway company; and Arthur Leigh, a businessman of Reno, Nev.

Mr. Wark was well acquainted throughout the Gem state in political, business and social circles.

BOISE, Jan. 19 (AP)—Gov. C. A. Bottifer remained in "about the same" condition in his fight to recover from an attack of pleurisy at the Veterans' hospital today, physicians reported.

The governor still was refused permission to return to his office, although his condition was said not to be critical.

H. S. ENROLLS FOR NEXT SEMESTER

Enrollment for the second semester took place in Twin Falls high school this morning, and classes were held for short periods this afternoon. In order that the new semester might start on schedule Monday morning.

Approximately the same number of students were expected to be enrolled as the last semester with a few students completing their high school work, and others re-enrolling after an absence of from a semester to two years, or transferring from other schools. Enrollment the last semester was about 500.

The first period of the day was held as usual this morning. Registration for new classes took place in the advisory period, and then students were dismissed from school until afternoon, when adjustments in class work were made.

LIONS LISTEN TO DENVER PASTOR

The present world conflicts, as he interprets them, are the methods by which people shall become educated to the wisdom of running the world on the plan of the brotherhood of man, rather than by armed force. Dr. C. W. Kemper, pastor of the First Baptist church of Denver, told members of the Lions club this noon.

Dr. Kemper addressed the service club at a luncheon meeting at the Park hotel. He is conducting a two weeks' series of meetings at the local Baptist church.

He declared that a "far complex" has catapulted the world into the present strife and struggle, and as an illustration of the power of fear, told of a scientist's experiment. The scientist gave 10 students glasses of milk; informed them that five of the glasses held toxins which would make them ill in 10 minutes.

The students drank the milk; watched the clock, and all became ill on the dot, having built up mentally the anticipated illness.

Dr. E. L. Holmes, associate of the Idaho Power company, was introduced as a new member. Announcement was made of the Burley Lions club's charter night, to be held in the near future.

### SABOTAGE SEEN IN BRITISH FIRE

LONDON, Jan. 19 (AP)—Fire of mysterious origin occurred during the night at an electrical engineering factory near the Waltham Abbey royal gunpowder works, it was today, a secret operative of the war office intelligence and Scotland Yard's crack criminal investigators took emergency precautions throughout the night against a suspected sabotage plot.

The electrical plant fire occurred at Enfield, five miles from Waltham Abbey, scene of a gigantic explosion yesterday. The fire was brought under control within an hour and did not damage but it stimulated the investigation of reports of a big sabotage plot against British war factories.

Scotland Yard said a secret conference at the gunpowder works this morning as local gossip buries reports that the explosion had been due either to German agents or Communists.

It was understood there had been three attempts at sabotage at the plant, which covers an area with a circumference of seven miles, before yesterday's blast.

Anonymous information had been received by authorities that "accidents might happen" at Waltham Abbey in the near future and that Scotland Yard operatives had been questioning hundreds of employees during the last week.

Authorities were understood to be prepared to believe that either German sabotage agents or operatives of the so-called "British republican army," outlawed both here and in Ireland, might have been responsible.

The Waltham Abbey incident in which five were killed and 50 injured, followed by 24 hours the disclosure that authorities had taken precautions against a suspected German intelligence sabotage plot aimed at railroads, bridges and public works, six hundred thousand railroad workers had been put on guard, among others, against such attempts.

### Note Reveals Warning from Nazis in July

BERLIN, Jan. 19 (AP)—Germany advised France last July of the circumstances in which it might "annihilate" the Polish army and added that if France, by giving Poland armed support, "wants war, it will find Germany prepared at any time." It was disclosed today.

The warnings were conveyed in a personal letter from Joachim von Ribbentrop, foreign minister, to Georges Bonnet, then French foreign minister.

The letter was published today in answer to a French diplomatic "yellow book" on origins of the European war.

In publishing the Ribbentrop letter, the official news agency accompanied it with an official statement which explained that when Ribbentrop visited Bonnet in December 1938 Bonnet agreed to definitely fix the French frontier and excluded Germany from France's sphere of interests. In return, it was said, Ribbentrop had been given to understand France would not disturb Germany's "vital interests" in central and eastern Europe.

Then on July 1 Bonnet in a note to Ribbentrop asked France was determined to fulfill its obligations to Poland, the statement said. Ribbentrop's letter followed, under date of July 13, written from Fusch.

### CALLAHAN LOOMS FOR BORAH POST

BOISE, Jan. 19 (AP)—An atmosphere of gloom settled over the Idaho capitol today as hope waned for the recovery of Sen. William E. Borah, the state's greatest leader.

Idaho officials expressed hope they would recover but speculated on the possible appointment of a successor. Gov. C. A. Bolin said he must fill the vacancy by appointment in the event Borah dies.

Don Callahan, Kellogg, former state senator and comptroller, was mentioned prominently for the post. The appointment would expire in January, 1941, less than a year from now. Idaho statutes require election of senator at the next general election following occurrence of any vacancy.

Borah's term does not expire until 1943. But the election of his successor would take place in November, if his present illness proved fatal.

J. M. Lampert, Boise attorney and friend of Borah, said he believed no man was ready to take the veteran senator's place.

"Borah has always been a statesman and never a politician," Lampert said.

Ray McKalg, Grange committee chairman, praised Borah for his independence and said he doubted that anyone could replace him adequately.

### CAMP FIRE GIRLS

WACANKIYA  
Members of the Wacankiya group of Camp Fire Girls met Thursday at the recreation center. During the meeting, they worked with cook making articles. It was tentatively planned to hold a skating party in the near future. Next meeting will be at the home of Anne Vandecree.

### KANSAS RECALLS YOUNGER BORAH

LYONS, Kan., Jan. 19 (AP)—The grave illness of Sen. William E. Borah brought back memories in Lyons today. For it was here that Borah first hung out his law shingle in 1887 and began a law practice with his brother-in-law, A. M. Lasky.

Borah came here after teaching school. Old-timers remembered him as a handsome and affable youth who made good political speeches—for others. But when the young Borah sought to be Lyons city attorney, local political powers decided he was not qualified for such an important position.

Refuted here, Borah went farther west and found his career in Idaho. At long intervals he wrote to old friends in Lyons—but he has never been back.

### AID TO FARMERS ASKED BY SOLON

WASHINGTON, Jan. 19 (AP)—Rep. James F. O'Connor, D., Mont., has demanded that congress "take care of the farmers of the country" and at the same time asserted this could be done without exceeding the President's budget requests.

Testifying before a house appropriations sub-committee which is preparing the annual appropriations bill for the agriculture department, O'Connor said he thought the congress was wasting too much time by concentrating attention on the European war. "We might better be devoting our efforts to take care of our own problems," he said, "by cutting off some of the hundreds of millions proposed for national defense."

"We will never have a peaceful or prosperous population," he said, "until we put the farmer on his feet and until we create jobs to take care of good American citizens who want jobs and are entitled to work."

Some historians claim America once was called Fu Sang and that a Buddhist missionary visited it as early as 459 A. D.

The Gentleman in the Third Row

Here's What a Husband Is

Dear Third Row:
It's about time that a couple of important matters were taken care of. One wise man has been trying to handle these matters for centuries but I am the first to reduce the propositions to simple terms.

Today I will explain for you:
What is a husband?
As briefly as possible, a husband is:
A necessary accessory around the house.

Something to tinker with the electric light when the electricity really has things to do when he finally arrives.
Something that wears trousers.

Something to take pointer winnings from.
And to raise Cain with for not winning at poker.

Antiques at a Premium
Dear Mister:
Since all the old-timers are being picked out, let's have a little fun. O.A.D. county fair. I give you a funny last line.

SERIAL STORY
BLACKOUT
BY RUTH AYERS

YESTERDAY, the policeman brushed the foot with a cloth. The woman looked at him with a mixture of defiance and hope.

CHAPTER XXI
MARY remained in the hospital a week longer.
In that week, Vincent was at her bedside almost continuously.

The next morning, her thoughts still perplexing her, Mary took her drawing board to Hyde Park, hoping to forget the scene with Vincent by finding something amusing to sketch.

The next morning, her thoughts still perplexing her, Mary took her drawing board to Hyde Park, hoping to forget the scene with Vincent by finding something amusing to sketch.

It was because of this that Mary refused to let Vincent take her home. "Afraid of a scandal, aren't you, sweet?" he teased.

In the days after she was home, Vincent seemed to relax. "We'll soon be out of this," he promised. "We'll be out in ten days, at the latest."

# JOB EXAMS FOR COLLEGE GRADS

The United States civil service commission today announced a series of competitive examinations for the purpose of selecting to recruit young college graduates for junior professional and scientific positions with the federal government.

**\$2,000 Salary**  
Examinations will be held under the title of junior professional assistant, at a salary of \$2,000 a year. Optional branches included in the examination, all in the junior grade, are administrative technician, agricultural economist, agronomist, animal breeder, archaeologist, architect, biologist, chemist, anthropologist, sociologist, forester, geographer, information assistant, legal assistant, librarian, metallurgist, meteorologist, ornithologist, plant breeder, poultry husbandman, public welfare assistant, range examiner, rural sociologist, social anthropologist, soil scientist, statistician, technical zoologist and veterinarian.

**College Course**  
Applicants must have completed a four-year college course leading to a bachelor's degree with major study in the field of optional subject chosen. Senior students or, for the less assistant option, law students, now in attendance at institutions of recognized standing, may be admitted to the examination subject to their finishing during the existence of the eligible required proof of completion of the required course on or before July 1, 1940.

Applications must be on file with the civil service commission, Washington, D. C., not later than Feb. 3. Full information can be had by contacting local postoffice officials.

124 DELEGATES PLEDGE VOTES FOR FDR 3RD TERM

BOOM GAINS TO RETURN LEADER TO WHITE HOUSE

By RONALD G. VAN TINE
WASHINGTON, Jan. 19 (AP)—President Roosevelt has picked up comparatively secure claim to 124 Democratic national convention delegates in the last few days and today the third term draft movement definitely was under way.

Latest third termer is Mayor Edward J. Kelly of Chicago who called on Mr. Roosevelt yesterday and, thereafter, announced Illinois' 58 delegates would vote for his renomination with or without the President's sanction.

Sen. Claude Pepper, D., Fla., just back from his home state, said 14 delegates in the Roosevelt column yesterday shortly after Chairman Arthur Limbach of the Ohio state Democratic committee.

Sen. Charles McNary, D., Ore., said 14 delegates in the Roosevelt column yesterday shortly after Chairman Arthur Limbach of the Ohio state Democratic committee.

Point to Trend
The promises and predictions of Kelley, Pepper and Limbach are not 100 per cent political and neither are 124 out of 1,100 delegate votes conclusive. But they point a trend which now has become a lead and a momentum to keep Mr. Roosevelt in the White House.

It is not clear today that the delegates of those states are unquestionably his, it is equally true that he appears now to have a greater claim there and in many other states than has any other Democratic statesman.

Lia Alternatives
All of this has not altered a general conviction that Mr. Roosevelt has not made up his mind whether to run again. The alternative seems to be discovery of a man who will not only be as good as the same time, would be satisfactory to New Dealers and conservatives and also possess vote-getting ability.

Secretary of State Cordell Hull still is the most likely compromise candidate, but there is talk again of Robert H. Jackson, the State Dealer from New York who took office yesterday as attorney general and Associate Justice William O. Douglas, baby member of the supreme court, another New Dealer who is suggested as meeting the specifications Mr. Roosevelt would like to see established for his successor.

GOODING PAPERS
GOODING, Jan. 19 (Special)—Consolidation of the two weekly newspapers in Gooding has been consummated today to give this county the most complete newspaper which will be published under the masthead of the Gooding Leader.

Editor and publisher will be W. F. MacKnight, former owner of weeklies at Coquille, Ore., and Helper, Utah. F. F. Swan, for 21 years publisher of the Leader, will retain principal interest in the paper but will devote his time to business interests.

Mr. MacKnight bought the Independent from County Assessor Herb Love. He took up the lease-option under which Ottie (Mrs.) and Larry Robinson have been co-publishers for the last two years.

The consolidation approximated \$72,000 but details as to payments were not made public.

PAUL
The Portville club met at the home of Mrs. Verne Ellis Wednesday. A desert luncheon was served by the hostess, after which three tables of cards and bridge were played. Mrs. Fred Widman receiving high score prize, and Mrs. D. W. Dawley co-prize.

The Epworth League met at the home of Mr. and Mrs. Fay Coon last week. After the devotional meeting songs were played and refreshments served by the hostess.
