

FDR GETS FINAL BALLOT CHANCES

WASHINGTON, March 11 (AP)—President Roosevelt must call off the third term draft movement today or be prepared tomorrow to begin accumulating convention delegates pledged or favorable to his re-nomination.

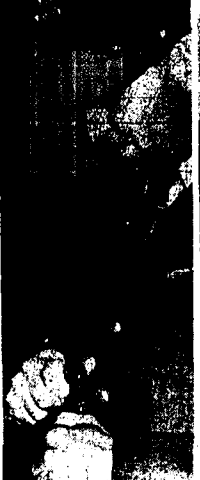

Lacking some word of disavowal from the White House, it appears now the draft-Roosevelt movement will have a substantial bloc of delegates, well over 200, when the Democratic national convention meets July 15 in Chicago. The Roosevelt drafters are active in almost 15 presidential preference primary states for a stake of 288 delegate votes, which is 263 short of the bare majority necessary to nominate.

First Roosevelt delegates are scheduled to be elected tomorrow in New Hampshire's preference primary which may or may not be binding according to nature of the pledge appearing on the primary ballot. New Hampshire leads off the primary list in an election in which Mr. Roosevelt is assured of at least some of the state's 12 convention votes because neither Vice-President John N. Garner nor Postmaster General James A. Farley are expected to run.

There is but slight expectation here that Mr. Roosevelt will recognize the impending New Hampshire primary with a statement of his 1940 intentions. The fact he has remained silent so long and must state his position today to prevent accumulation of delegates has convinced some observers that Mr. Roosevelt intends to withhold the big news until the Democratic convention meets.

Life's Little Dramas: History of a Parking Ticket

Getting Ready The First Step Overtime! Up Goes Tag

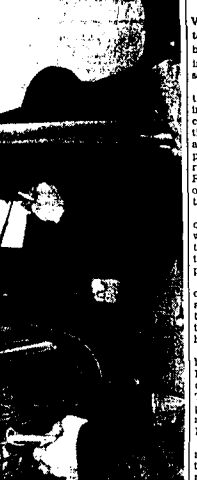

Most of you gentle readers, at least the ones in Twin Falls, have paid your "duck" for overtime parking. But here's the "behind the scenes" movements of the "cop what gets you." Here Patrolman Robert Winterholler sharpens the marking pencil. He's ready to go.

With the experience of months behind him, Winterholler puts a mark on the wheel of a local machine. It's parked in the two-hour zone. He's liable to mark them on the front or on the back tires, so the fact that he's pictured in front of the machine means little or nothing.

And now, two hours have passed and Winterholler returns to the find the automobile still in the same place. He gets out his book of tickets and writes. Incidentally, Winterholler points out this is not one way to make friends, although it does influence people to some extent.

And then the ticket goes on the windshield where it will welcome the motorist when he returns to get his car. The tickets are placed securely under the windshield wiper, and the wind will not blow them away, so don't try to tell the judge that one when you go before him.

MOUNTAIN AREA WINTER RETURNS

SALT LAKE CITY, March 11 (AP)—Winter returned to most of the intermountain states as what the weather bureau called a "low pressure area and a cold front" brought cooled, light snow flurries. Forecasters expected the storm to pass on to the east tonight and believed the weather for the next two days would be "partly or mostly cloudy with little change in temperature for Utah, Idaho and Montana."

TWO DEAD AFTER BOISE ACCIDENT

BANER, Ida., March 11 (AP)—State police today grappled for the body of John S. Young, 26, of Boise, second victim of an accident which sent a car hurtling over a 100-foot embankment into the Payette river three miles north of here. The body of Mildred Griffin, 31, Boise, was found near the river's edge. It was believed she was thrown free of the auto and was killed when she struck boulders. Two other occupants of the car, Clyde Dietrich, 22, and Robert McKay, 22, both of Boise, were also thrown free and suffered minor injuries. Search by police yesterday failed to uncover a trace of either the car or of Young's body.

ACTOR AT SUN VALLEY

SUN VALLEY, Ida., March 11 (AP)—Gregory Ratoff, film player and director, today was the latest addition to the colony of movie personalities in Sun Valley for spring skiing. Three inches of new snow fell here last night, making winter sports conditions excellent.

BRITISH LEADER, WELLES CONFER

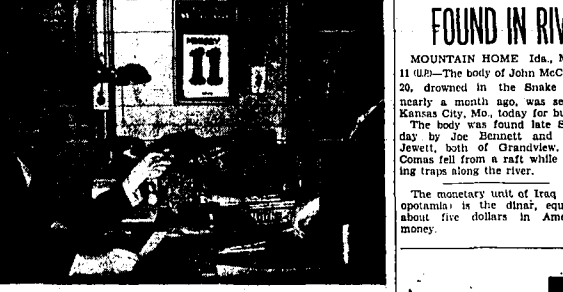

LONDON, March 11 (AP)—Sumner Welles, President Roosevelt's envoy to Europe, conferred with King George at Buckingham palace today after a meeting with Foreign Secretary Viscount Halifax. He arrived at Buckingham palace by automobile and was met by Piers Leigh, the king's equerry in waiting. They recalled their meeting in Washington last year and Leigh took the American envoy to a small audience chamber on the first floor of the palace.

The king invited Welles into his study. Welles was accompanied to the palace by United States Ambassador Joseph P. Kennedy. Welles and the king talked about half an hour and then Queen Elizabeth entered the study and greeted Welles. After chatting for a few minutes they walked through the audience chamber to the pine room, where they had tea.

REDS, JAPANESE STUDY TROUBLES

TOKYO, March 11 (AP)—Japan and Russia are making considerable progress in negotiations to settle their controversial, foreign office spokesman Yachihiro Suma said today. Suma denied reports that a non-aggression pact was being negotiated in Moscow but said an improvement was noticeable in general rotations covering boundary, fisheries, oil and coal disputes. Settlement of these issues would please quarters seeking a non-aggression pact, since it would remove the chief source of friction.

And Across Goes the Dollar!

And here's the "end of the trail" for the overtime parking motorist. Municipal Judge J. O. Pumphrey (left) gives Claude H. Detweiler a lecture, at the same time extending his hand to receive the dollar which the local businessman is offering. "I know it was all my fault," Detweiler is saying. "Well," says the judge, "better luck next time." Records show that since the parking law has been policed, there are actually places to park in the downtown area. Money collected from overtime parking (fines and bonds goes into the general fund of the city. (All Photos by O. A. Ketter—Times Engravings)

Two Die as Plane Crashes in Kansas

SHARON SPRINGS, Kan., March 11 (AP)—Two men killed when their plane crashed and burst during a heavy fog and fire storm on a rugged hill were identified today as Major Devrent M. Myers and Corporal Maurice E. Melvin of the army's Lowry field at Denver.

Their single-motored attack ship crashed on a flight from Albuquerque, N. M., to Denver. READ THE TIMES WANT ADS.

GARNER JOINS IN CENSUS DEBATE

WASHINGTON, March 11 (AP)—Vice-President John N. Garner today joined the senate group led by Republicans that seeks to eliminate questions pertaining to personal income from the 1940 census.

Garner has told friends that questions about income constitute "prying" and that citizens should not be compelled to answer them. His position on the census fight was learned as the senate commerce committee prepared to vote tomorrow on a resolution by Sen. Charles W. Tobey, R., N. H., declaring it to be the sense of the senate that the income questions should be struck.

Garner's position places him in opposition to President Roosevelt who recently told a press conference that everyone in congress knows that the furor about the census is political.

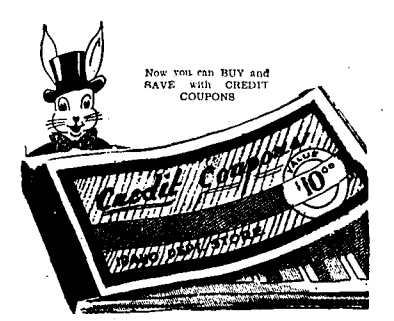

Tobey, who has characterized the questions as "malicious snooping," asserted in a radio address Saturday that he would risk jail by refusing to answer the questions. He advised his listeners to follow suit.

Tobey's statement was attacked last night by Sen. Claude Pepper, D., Fla., a member of the senate commerce committee. He accused Tobey of resorting to "partisan politics" in an attempt to undermine the public confidence in the 1940 census.

Pepper said that release of Tobey's radio speech by the republican national committee's publicity department "exposes the pious front behind which Senator Tobey made his attack and reveals its political nature."

GERMAN FOREIGN MINISTER CONFERS WITH POPE PIUS

NAZIS REPORTED SEEKING BETTER VATICAN TERMS

ROME, March 11 (AP)—Joseph von Ribbentrop, German foreign minister, talked with Pope Pius for almost an hour today.

The visit had been regarded as the high point of Ribbentrop's stay in Rome, and additional importance was attached to it because the audience was of unusual length.

It had been emphasized the visit was arranged at request of Diego von Bergen, German ambassador to the Vatican.

Emerging from the pope's apartments, Ribbentrop went direct to the Vatican secretariat of state to visit Cardinal Maglione, secretary of state.

Before his audience with the pope, Ribbentrop had had a 45-minute audience with King Victor Emmanuel.

Accompanied by Enver Ribbentrop was escorted to the Vatican from the villa Madama, where he is staying, by two Vatican secret chamberlains of deep and ancient lineage.

A. A. U. W. Convention Deferred Until May

State convention of the Idaho chapter, American Association of University Women, originally scheduled for April 12-14 at Twin Falls, has been postponed until sometime in May, according to announcement made Saturday when the local chapter met for luncheon at the home of Mrs. Margaret Peck, 219 Eighth avenue north. By deferring the convention until later it will be possible to secure a speaker of national prominence, it was announced.

Award of 11 fellowships of \$1,000 each, announced by the American Association of University Women through Mrs. H. L. Walter, Piler, state chairman of fellowship work in Idaho, will enable women scholars to advance research in varied fields. Mrs. Virginia Margaret Bever, Bellingham, Wash., was winner in the north Pacific section of A. A. U. W. to which the local branch belongs.

Research Topics
Subjects of research include the part played by American piracy and smuggling in bringing about the American Revolution; causes of the high mortality of infants under two weeks of age; the inter-relationship of genetic and endocrine factors in embryonic development; the life of O. Henry; use of radioactive indicators in biological problems; changes in the concept of the character of Hamlet and of other symbolic literary characters; sculptural technique; the normal modes of vibration of the paraffin hydrocarbons; experimental embryology; Helianthus history and philosophy of art. Each year for 50 years the A. A. U. W. has been awarding fellowships to enable women to extend the boundaries of knowledge in scientific and scholastic fields.

Julius O. P. Durall addressed the chapter on problems of present-day youth at the College of Idaho, Caldwell, week-end guest in Twin Falls. Miss Esther Tubert and Miss David Green, Twin Falls high school students, represented the Girls' League at yesterday's session. Mrs. Peck, Mrs. O. G. Shenberger, Mrs. C. R. Fox, Mrs. Harry Elcock and Miss Margaret Hill were the hostesses.

PUDDING WITH FRUIT
To dress up a plain rice pudding, add drained crushed pineapple, dried canned peaches or apricots or thinly sliced bananas.

Famous Windows Discussed For Methodist Group

An illustrated talk on "Famous Cathedral Windows" by Mrs. H. L. Boveck, first given in January for the fine arts department of the Twentieth Century club, was repeated at a meeting of the General Ladies Aid society of the Methodist church Thursday in the church parlors.

Eighty-five members were present to hear the program, arranged by division No. 2 of the society, headed by Mrs. Carl Boyd. Assisting Mrs. Boveck by operating a moving picture machine to show slides of famous cathedral windows was Fred Babel.

Presiding at the silver service during the refreshment hour were Mrs. Roy Evans and Mrs. Scott Ellis. An arrangement of spring flowers centered the lace-covered table. Devotions were led by Mrs. C. V. Jones and Mrs. Edith Smith. Business session was conducted by Mrs. George W. Bice.

"SPEED for bob-sledding thrills! SLOW-BURNING for smoking thrills!" says champion "Bucky" Wells

THEY'RE OFF on the mile-long Mt. Van Hoevenberg run at Lake Placid, N. Y., with "Bucky" Wells driving. Fifteen breath-taking turns to go. Different chances to taste the ultimate hills of speed. But in smoking it's fifteen, very different. It's slow-burning that makes a cigarette tick with me," "Bucky" Wells says. And he means what he says, because he's smoked slow-burning Camels for an year.

FOR THE THRILLS AND EXTRAS IN SMOKING - EXTRA MILDNESS EXTRA COOLNESS EXTRA FLAVOR AND EXTRA SMOKING - I PICK THE SLOW-BURNING CIGARETTE ... CAMEL

In recent laboratory tests, CAMELS burned 25% slower than the average of the 15 other of the largest-selling brands tested - slower than any of them. That means, on the average, a smoking plus equal to **5 EXTRA SMOKES PER PACK!**

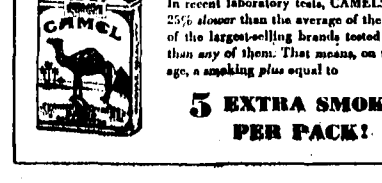

If you want to know how it feels to go 80 miles an hour on a racing bob-sled, "Bucky" Wells of Keene Valley, N. Y. can tell you. But when it comes to cigarettes, "Bucky" Wells is on the slow side... the slow-burning side. If you know your cigarettes, that means Camels! "I know Camels burn slower," "Bucky" says. "There's cool comfort in a slow-burning Camel. Mildness - more flavor. Every puff is a fresh treat to the taste, and - get this - there are many more puffs to enjoy to a Camel. Slow burning means extra smoking. 'I'd walk a mile for a...' Even if a gust of wind did carry away "Bucky's" last word, not many people would fail to realize it was C.A.M.E.L. Camels are made from cooler tobacco - drawn from the greatest treasure of mollied tobacco ever brought together in one place in the world.

Announcement

On April 1, 1940, Dr. Wallace Bond, formerly of Boise, Idaho, will continue the practice of Dr. Lloyd E. Onks at 144 Fourth Avenue East. Dr. Bond who has had ten years of experience in general surgery prior to post-graduate studies in Diseases of the Digestive Tract at Northwestern University and in Diseases of the Ear, Nose and Throat at Iowa Medical College and the Central Free Dispensary, Chicago, Illinois, comes well qualified to carry on the work which Dr. Onks was temporarily compelled to give up due to serious illness. The many friends and patients of Dr. Onks will be pleased to learn that his progress toward recovery is very satisfactory and that he will resume practice in the not too distant future. Dr. Bond will be assisted in limiting their attention to the Diseases of the Eye, Ear, Nose, and Throat.

BRITISH CITIZENS WORRY OVER FUTURE OF BATTLE

EXPECT SAVAGE WARFARE DURING COMING MONTHS

By WALLACE CARROLL
LONDON, March 11 (AP)—One of the most striking developments in Great Britain as the face a possible turn of events this spring is that the people appear to be wondering whether Hitler is really as badly off as he has been pictured.

For more than six months the press and government have presented the German situation as that of a trapped beast who would be strangled slowly but certainly by the allied blockade.

Speculations are being fired at the government in parliament which reveal an uneasy suspicion that Germany is getting enough food and raw materials despite the blockade. The people are beginning to abandon their complacency.

Preparations for war are being made in the form of air raid alarms. The people seem convinced that they may have to endure savage warfare in the months ahead and are preparing to face it.

In the end, the pressure of British publicity is flowing. You may have a hard time getting a table at expensive restaurants and champagne cocktails are popping as they never did in the past.

Moreover, the war so far has brought little real hardship to the majority of Britons—at least nothing compared to what they went through in the last war.

Lots of Food, Clothes

Butter, bacon, ham and sugar are plentiful and there is plenty of everything else for those with the money to buy. Store windows are filled with delectable fruits from Australia, South Africa and Palestine. Shops have plenty of good, durable clothing and shoes.

FARMER PRAISES WILDLIFE EVENT

In response to a personal inquiry by the Idaho Evening Times, Lee Leichter, prominent farmer of the Salmon track, this afternoon announced that Idaho Wildlife Federation headquarters had informed him of the declaration of the third annual Wildlife Restoration week which is to be observed throughout the nation from March 17 to 23.

"I should like to take this opportunity of pointing out that farmers of Twin Falls county, as well as the entire country, owe a great debt of gratitude to the birds and animals of the land," Mr. Leichter said.

"Here in Twin Falls county, if it weren't for the presence of various types of birds which destroy insects of a destructive nature, the chances are most of us would be in pretty bad shape. The birds and animals would eat up our crops and everyone else would have to pay your share of that rice."

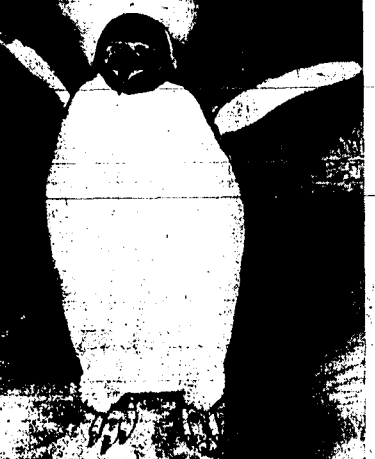

Reviewing the wildlife situation generally, Mr. Leichter added: "The national federation informs me that the birds and animals of America do \$350,000,000 worth of destructive insect killing every year. Quail alone do an enormous amount of good to the farmer. Their diet is almost wholly insects and weeds. Furthermore, quail have developed a liking for the dreaded Japanese beetle, and no farmer needs to be told the value of that."

Value to Farmer

"Let me give you a concrete example of the value of wildlife to the farmer. Let us suppose that game is plentiful in our locality. The hunting season opens and visitors from other sections flock to our county. They spend money at the hotels, stores and restaurants of Twin Falls and other towns. This money goes into circulation and when the time comes to harvest my crop, my neighbors have the cash to pay for them, which in turn enables me to buy equipment and material to plant my next crop."

Mr. Leichter also urged all farmers not to "clean farm" their entire planting areas. By clean-farming, he means plowing under every vestige of vegetation. He asked farmers to leave strips of thickets and underbrush as homes for wildlife. The birds, he declared, would more than pay for their keep by feeding on destructive insects.

CHURCH TO HAVE MISSION SESSION

Ministers and Christian workers of the Assemblies of God of southern Idaho will meet in Twin Falls March 13 and 14 for a missionary convention. Rev. B. E. Hoffman, pastor of the local Assembly of God tabernacle, announced today.

The first service of this convention will be held at the Assembly of God tabernacle Wednesday at 7:30 p. m. Services on Thursday will be held at the First Christian church, with sessions at 10 a. m., 2:30 and 7:30 p. m.

Speakers will include Rev. Noel Perkin, missionary secretary of the Southern Assemblies of God of God, having general oversight over the missionary work in foreign lands of about 400 missionaries. Thirty-five new missionaries were given appointment in 1939.

Rev. Perkin has made extensive visits to the work in Palestine, Egypt, Gold Coast, Ivory Coast, Liberia, Cuba and Puerto Rico, besides visiting many other countries briefly.

Rev. Fred Vogler, assistant general superintendent of the Assemblies of God, with oversight of the home missionary activities in the United States and Alaska, will be another major speaker. Rev. Vogler has also made several trips home and visited the work in New Zealand, South China, Japan, Australia, Cuba and Peru recently. He has had extensive experience in administering the work in the field.

Rev. Frank Gray, district superintendent for the northwest, will be another guest speaker at the convention.

LANDON OPPOSES FDR THIRD TERM

TOPEKA, Kan., March 11 (AP)—Re-election of President Roosevelt might be taken by him as a mandate that would result in "some-thing drastic" in foreign affairs, former Gov. Alf M. Landon said today.

"His reelection in 1936 apparently was interpreted by Mr. Roosevelt as a green light to proceed as he pleased so we had the supreme court reorganization plan," Landon told the United Press.

"If he's given a third term, I can't help but wonder if there would be something equally drastic in the field of foreign affairs," said the 1936 Republican presidential nominee.

Landon said he also saw in a third term a "dangerous precedent" in an official card, to a fourth and fifth term "for any man who sets himself up behind a big national political machine such as the New Deal has established."

RADIO

Sheriff's officers had their last radio back today, and the department's brand-new 1940 motor car will have radio facilities after a week.

Stolen from the wrecked 1930 car which had been parked for several months near a local auto concern, the radio was found two weeks ago by highway maintenance workers. The theft from the machine, however, wasn't discovered until last week.

Finally somebody put two and two together—and found where the radio came from.

Possibly fearing the radio might be too "hot" as goods stolen from an official car, the thieves apparently abandoned it.

PERRINE

The Charles Marshall sorting crew is sorting and hauling potatoes now.

Miss Mavis Heyworth was confined here for some time with a severe cold last week.

David Purdum is enlarging his home and expects to finish it this week.

Charles Marshall was a caller at his farm here Tuesday.

Miss Purdum visited last week in Jerome.

Several families in Perrine attended the funeral of Mrs. Anna Swenson, Eden, Tuesday.

FIRES BREAK OUT IN WEEDS, AUTO

Two fires, one in weeds near oil company storage tanks and the other in a parked automobile, were extinguished by firemen yesterday afternoon, records show.

The first alarm was turned in at 2:40 p. m. when a weed fire, set by children, got out of control near the Shell Oil company storage tanks on Blue Lakes boulevard south. It was extinguished in a few minutes.

Firemen had barely returned to the station when another alarm came in at 3:10 p. m. A car bearing an out-of-state license caught fire when gas on the motor ignited. Little damage resulted. Name of the owner was not learned. Records at the fire station show.

The population of America's Virgin Islands is 78 per cent Negro.

Mac Pats Welby Van Horn on Back, Raps Tilden for "Ego" Remark

By HENRY McLEMORE
MONTICOMERY, Ark., March 11 (AP)—Having seen quite a bit of Welby Van Horn while I was in Los Angeles, and having had the opportunity of getting to know the youngster well, I can only hope he doesn't read what the newspapers report Bill Tilden has been saying about him.
Tilden was reported somewhat, and I have no doubt but that he was, he said Van Horn had too colossal an ego for his own good. I think back to the hurburston conversation I had with the gangling, 18-year-old youngster a few weeks ago. I know nothing he could read about himself could hurt him any worse.
Because, like every boy who has lived, Welby Van Horn has his ideal. He is not a dreamer, but a realist when I asked him questions about his own game and what he thought the future held for him. The only thing he seemed proud of, was the fact he had met Tilden, talked to him, and seen him play.
"Gosh," Welby said, "even right now he could beat almost anybody. I don't suppose anybody could beat him if the match was only for a set or two."
So I repeat I hope Welby doesn't see Tilden's criticism of him. But I do hope Tilden will see this article when I tell him he has Welby Van Horn pegged all wrong.
Here's a boy, Bill, who isn't bragging off his reputation as a tennis player, despite the fact he went to the final round of the national championship at Forest Hills last year, and was acclaimed as the boy wonder of the year, he didn't let it go to his head. Pursuant to his own ideal, he went on it, and you know better than I, Bill, the many who have.
Where do you think he is right now, bragging, boasting, swaggering around some resort where tennis players with a national reputation can make a living? No, he isn't. He is in Los Angeles, working eight to 10 hours a day with a meat packing plant. He is

"When you think of the extra dinners it will help me get invited to, this gown isn't too expensive."

Big Ten Slaps At Charge of "Dishonesty"

CHICAGO, March 11 (AP)—All Big Ten schools were at a standstill today in a drastic move to force the University of Chicago to back up its "unidentified" applicant withdrawal from intercollegiate football last fall, the mysterious spokesman charged the Maroons quit because they could not "play football" in the Big Ten and remain honest.
Representing the inference that their own methods were under fire, athletic directors of the nine other schools announced Saturday night they will draw up no more conference schedules until Chicago turns over to Commissioner John L. Orfith any material it may have bearing on integrity of the conference.
In effect, it's a sit-down strike against Chicago.
If Chicago fails to reply, it was reported the Maroons may be dropped from all other Big Ten sports.
With that report, the drums again started beating to adopt Chicago as the 10th conference school in case Chicago withdraws.

Let's have more fun in '40!

One woman's fun may be another's drudgery—but, today, modern electric cookery gives you a two-way choice of having fun!

First, if you want more time away from the kitchen—time to do things your housework won't permit you to do now—modern electric cookery gives you time for that kind of fun. Time to spend with your family, time to get out of the house, to see more friends, to do more outside things you can't do now. For modern electric cookery is simplified cookery—with accurate controls and simplified recipes, with oven-cooked meals that allow you to be away all afternoon, and still have a grand meal ready for dinner.

Or, if fun for you is the joy of creating something new, or something perfect—a new dish with which to surprise the family at dinner—or an original idea of your own—then modern electric cookery will bring YOU fun, too. For it's taken the pitfalls, the uncertainties and the guesswork out of one of the homemaker's most important jobs—that of giving her family three good meals every day.

So, choose your fun for '40—and have it. Make up your mind now to see the new electric ranges, to find out for yourself what new and wonderful things they can do—for you. Any dealer in electric ranges will explain—ask him.
