## OLDTIME BARBECUE FIGURES AT NEW BRIDGE DEDICATION

CATTLEFORD, March 20 (Special)—An estimated crowd of 600 persons attended the dedication of the new bridge at the Cattleford crossing in the Salmon canyon Monday.

The dedication was sponsored by the Cattleford business men and sheepmen and some of the business houses of Buhl.

**Canyon Barbecue**  
Mutton, beef and pork were barbecued over open fires in the picturesque canyon to feed the crowd at the ceremony.

The new bridge, mostly of cement, was built by the Buhl highway district with WPA labor.

"Thirty thousand head of sheep were taken across the bridge Monday by the herders and camp leaders on the way to the desert for summer grazing."

The road at the Cattleford crossing is one that has been used for many years and before the building of the Lilly grade was the only way across the canyon to Roseworth, Bruneau and Jarbridge, Nev., and is still extensively used by the sheepmen.

**Bridge Spans Ford**  
The new bridge is over the old Cattleford in the river named from

the castle-like formations of rocks along the side of the canyon walls and it is from this that the village of Cattleford derives its name.

# ENGLAND POINTS TO STERN ATTITUDE TOWARD NEUTRALS

## NATIONS WARNED TO JOIN ALLIES TO AVOID LOSSES

LONDON, March 20 (AP)—A sharp speech by War Secretary Oliver Stanley today, foreboded a sterner British attitude towards neutrals in whose interests, he said, Britain is fighting.

In the stiffer British attack on neutrals to date, Stanley warned that their attitude, critical of Britain, may induce her to follow Germany's example and disregard their rights. By inference he reproached the United States, along with other neutrals, and warned that a defeat for Britain would mean a defeat for them also.

**Followers Warning**

The speech today followed an open warning by Prime Minister Neville Chamberlain in the house of commons last night that British warships and airplanes would enter Scandinavian waters to attack any German warships which violated them.

Chamberlain in effect warned neutrals they should line up with the allies and he rejected United States criticism of allied policy with regard to Finland.

Attacking American descriptions of the war as "phony" Stanley said:

"Too Willing"

"That language is culled from the ring-side where people, after a good dinner, watch other people hit each other and without danger to themselves urge them to do more hitting."

Stanley said the foreign press had criticized Britain for timidity and lack of enterprise regarding Finland "because we were tender hearted in sparing the rights of neutrals."

"That is a dangerous lesson for neutrals to start teaching us," he said. "Maybe we are only too willing to learn."

## MAN HUNTED FOR SLAYING MOTHER

SEATTLE, March 20 (AP)—Police today sought Denzel Davis, 23, with a warrant charging he stabbed his mother to death with an ice pick, wrapped a dog chain around her neck and pawned her watch to buy clothes for his wife and baby.

The body of Mrs. Harriet Arnold, 45, an attractive, well-groomed woman, was found late yesterday in a cupboard beneath her kitchen sink.

Mrs. Davis, who said her husband had confessed the slaying to her, tipped police where to find it.

Coroner Otto Mittelstadt said Mrs. Arnold had been stabbed 13 times in the chest. Her skull had been fractured, he said, and her body was tied with a light cord.

The leash had no strangler. Mittelstadt said she apparently was killed Monday as she dressed to go to work in a department store.

**Had Reconciliation**

This was the story Detective Captain Marshall Scraftford said Mrs. Davis told him.

She and her husband had been separated four months and met Monday for a reconciliation. Davis showed her a watch, which he said his mother had dropped, and they pawned it under the name "Teddy" for \$7.

Her husband bought her a pink sweater and their daughter, Carol May, 2, a dress. Then they went to a hotel for the night.

Yesterday, he kept insisting he loved her and the baby and suddenly confessed he had killed his mother because she had made a slighting remark about Mrs. Davis.

**Manner Changes**

His manner abruptly changed; he began to abuse his wife and threatened to kill her as he had his mother. He exhibited a blood-stained ice pick—later found in the room—and explained that he had slain and tied up his mother.

Mrs. Davis left for her home when her husband told her he would "lay low" until his mother's body was discovered and surrendered. She called Captain Scraftford.

A white puppy romped in the room where the body was found. There was no evidence of a struggle.

# VANDENBERG STAYS ON JOB: WON'T FIGHT FOR VOTES

## MICHIGAN SOLON WILL NOT ENTER MANY PRIMARIES

By LYLE C. WILSON

WASHINGTON, March 26 (AP)—Candidate for presidential nomination should stay on the job instead of stumping the country for support, Sen. Arthur H. Vandenberg, R-Mich., said today in refusing to campaign in Wisconsin and Nebraska against District Attorney Thomas E. Dewey.

Vandenberg and Dewey are opposed in preferential primaries in those states on April 2 and 3, respectively.

Democrats, meanwhile, learned President Roosevelt had denied calling callers that Postmaster General James A. Farley's Catholic religion barred him from the vice-presidential nomination.

Ickes to Texas  
From the interior department came announcement that Secretary Harold I. Ickes, leader of the third term drive, will go into Vice-President John N. Garner's home state to speak at El Paso, Tex., March 27. Five days later there will be a third term rally at Austin, state capital, as the opening move of an effort to break the Garner front of the Texas delegation to the Democratic national convention.

Less than a fortnight intervenes now between the first real test of Garner-Roosevelt strength in the Wisconsin primary. That vote also is important to Republicans because of a Dewey-Vandenberg contest there.

Kenneth S. Wherry, Nebraska Republican state committeeman, and Lieut. Gov. Walter S. Goodland, of Wisconsin, invited Vandenberg to come to their states before the April primaries. The senator replied he had business here and would remain on his job.

30 Stops in Two Days  
Dewey has announced plans for a two-day primary campaign in Wisconsin with 30 stops scheduled. Vandenberg's language apparently was directed also toward Sen. Robert A. Taft, R.-O., who probably is the campaigner of the presidential season with visits to 26 states today.

Convention gestures dominated Democratic side of the political net. Mr. Roosevelt made his own opportunity at yesterday's press conference to deny a charge published 10 days ago in which he was quoted as having said Farley should not be nominated for vice president.

The story was written by Ernest K. Lindley, and given amazing display in the Washington Post.

Physician Sends FDR Back to Bed  
WASHINGTON, March 26 (AP)—President Roosevelt today was ordered back to bed in an attempt to throw off a severe cold from which he has been suffering for more than a week.

Dr. Ross T. McIntire, White House physician, asked the President to cancel his engagements for today. Mr. McIntire found Mr. Roosevelt was running a temperature of 104 degrees—two tenths of a degree higher than normal.

Secretary Stephen T. Early said McIntire was not concerned about the President's condition. The physician, however, insisted Mr. Roosevelt remain in bed and take a complete rest.

The President spent a full day in his executive offices yesterday but admitted to reporters at a press conference that he felt bad.

Early said the chief reason Mr. Roosevelt left his bed yesterday was to hold his regular weekly press conference in view of the fact that he had been forced to cancel two previous conferences and had not met newspapermen for more than 10 days.

### UNEMPLOYMENT IS SYMPTOM: URGES HUNT FOR CAUSE

Editor, The Times:

Because of this world confusion and economic changes, every administration and every new congress finds itself faced with new problems, largely because we are progressive in every line of endeavor. But we are chagrined to find that a few are old and still unsolved. Moreover they are our major problems. Overproduction, underconsumption and unemployment.

Each of these is looked upon as a sin, or as a disease. If we could learn that they are only symptoms and begin to look for a cause, we may in time find a cure. For to treat a symptom is like pouring water on a duck's back. When we make a careful analysis of unemployment, among No. 1, we must come to the conclusion that no matter who is elected this fall, the 12 million jobless people with them into office. Ballots won't cure this symptom. We will also find that unemployment is caused by factors wholly beyond human control, under our form of government.

Find a job who has one million dollars in his pocket, and one can find 30,000 Henrys that haven't a dime to their name. But under our laws you can't take away from Mr. Jones and give to Mr. Henry, no more than you can send Henry to heaven. Money will buy bread and so will credit. But the victim of avarice and greed have lost both money and credit.

And the sad part of the picture is, they have small opportunity for their future. Suppose a wave of genuine prosperity should sweep over the country from coast to coast, and revive all business, industry and agriculture. Would that put 10 million workers into gainful jobs? Or would it mean just more profit, more gain for all those that have, and leave the have-nots just about where they are today, holding an almost empty sack.

Since all industrial activity including agriculture is now definitely geared up to reduce production costs, it is logical that if an article can be made cheaper by machine than by human labor, then the machine will eventually displace the laborer. If, therefore, human labor is to compete with machines, then the machine must be used to reduce production costs.

And the end of this we cannot see. Or can we?

D. E. BURKEY.

Ruhl, March 12.

## SNOW FADES ON SPRING THAWING

Spring thaw melted fully seven inches of the average snow depth at Ketchum and in the Sun Valley area, according to the weekly report of the Sawtooth national forest supervisor, P. S. Moore.

Depth at Ketchum said downward from 22 inches a week ago to only 16 on Monday of this week, Mr. Moore said. The decline at Halley was almost as great, with a five-inch drop reducing snow in that area to six inches.

Old Baldy  
Similar substantial declines were registered for the higher areas including Galena, Macon mine and the Old Baldy level. Deeper point in those sectors is still Old Baldy No. 3 with 52 inches—a drop of eight inches. Galena went to 47 inches from 56 a week ago.

The onrush of spring is also taking its snow toll in other localities. Mr. Moore reported, Fairfield now has only six inches as compared with 11 on March 11. Soldier's ranger station dropped six inches to a present total of 20.

Depths Decline  
The snow departure ruled in the Featherhead, Rocky Bar, Big Smoky ranger station and Baumgartner regions. Baumgartner has the least snow among the four—14 inches compared with 17 a week prior.

In Sawtooth valley, however, the decline is less. In some cases, Mr. Williams' ranch now shows 28 inches. The total was 29 on March 11.

## RESERVOIRS GAIN AS USAGE NEARS

With the active irrigation season nearing, all three principal reservoirs serving this section of Idaho today showed substantial storage gains over readings taken a week ago, a report received by the Twin Falls Canal company from Lynn Grinnell, watermaster, shows.

Jackson Lake, the report shows, now impounds 43,060 acre feet of water against last week's reading of 42,750. American falls reservoir now impounds 1,458,850 acre feet against 1,410,480 and Lake Walcott is now holding 52,650 against 52,540 acre feet last week.

The report also shows that no precipitation was recorded at Ash-ton the past week and only 41 of an inch at Moran.

Snow depths include the following: 43 inches at Island Park; 76 inches at Crater Lake; 65 inches at Beecher river; 35 inches at Moran, and 16 inches at Blackfoot dam.

All snow depths are considerably below those of a year ago, the report shows. For instance, the report points out, Crater Lake's snow depth last year was 120 inches against the 76 inches now measured there.

Every civic organization interested in the temperance question is asked to send official delegates to this meeting. The general public is requested to give its support to this organization meeting, which is preliminary to the campaign to secure 50,000 signatures on the initiative measure to make local option possible in this state.

The state group, the P.T.A. and the Latter Day Saints church leaders as well as the Protestant churches of the state have all endorsed the program and promised their full support.

## VACCINATE HORSE, RANCHERS URGED

Early vaccination of all horses against encephalomyelitis was urged here this afternoon by Dr. H. R. Grooms, deputy state veterinarian.

"The season for recurrence of brain fever will be with us again soon," Dr. Grooms said. "Now is the time to seriously consider vaccination of all horses, especially in areas where the disease has been more or less prevalent."

It is recommended that animals be vaccinated in April and not later than May. This is good for the animal's health as well as an economic standpoint as well as a humane gesture to own your animal against possible suffering from this disease.

## A pre-Easter portrait of the WILLIAM BLAKES

(from the Saturday Evening Post of March 23rd)

MILLY'S HUSBAND said he'd throw it away if she ever tried to buy him another shirt or tie. But Milly was a woman, and last Tuesday evening when Blake arrived home with a package under his arm, Milly had a tidy, little package for him, too.

MILLY GIGGLED, "William, especially for Easter, I bought you the latest thing in shirts. I know it is the latest, because the clerk said it was." William said, "That, my dear Milly, is not even remotely possible. I have just bought the latest in shirts."

"MY SHIRT," he continued, "has a brand-new pattern—a combination of single and double stripes. It has the new soft shade of gray. It has an Arrow collar. It has an Arrow tie and handkerchief, please note, made especially to go with it. And..."

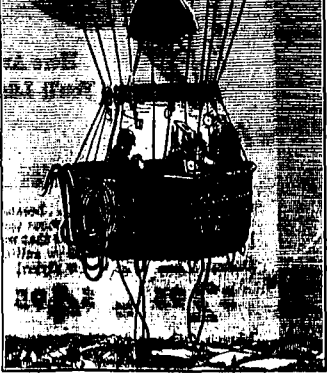

"AND," INTERRUPTED MILLY, "It is called ARROW AROLYN. It is the same shirt, darling, I bought, only I picked blue, you picked gray." "By golly, you're right," cried William. "Before I throw it away, suppose I take you to the movies."

COME IN TODAY to Arrow headquarters, and see this handsome new shirt—Arrow Arolyn. It comes in several handsome colors and costs just \$2. Ties are \$1; handkerchiefs, 35c and Arrow's seamless-crotch shorts to complete the outfit, 65c.

## One way of keeping our feet on the ground

What a changed world it was for the first balloonist. He saw hills and valleys level out. He saw dark clouds serving a thrilling purpose when they reflected a gorgeous sunset. He got a new perspective. Wise is the man who takes a broad view of today's events and keeps them always in true focus. He makes no mountain out of a rumor and sees no valley as deep as the despair of the pessimists. He is confident that he can take the hurdles as they come.

Such a man has the will to work—and the good judgment to relax when work is done. Moderate in all things, in his thoughts and in his activities, he is living—really living—with and for his family and among his friends. (He is unusual if he doesn't usually serve Budweiser.) He is, indeed, the backbone of America.

# WELLES STARTS HOME FRONT REPORT ON EUROPE'S WAR

## ENVOY EXPECTED TO OFFER LITTLE HOPE FOR PEACE

**ABOARD CONFÉ DI SAVOIA, EN ROUTE TO NEW YORK, March 20 (AP)—** Sumner Welles, United States under-secretary of state, sailed for home today to make a confidential report to President Roosevelt on his 25-day exploratory tour of Europe.

He was expected to tell Mr. Roosevelt that despite all reports of a peace offensive, Europe apparently was settling down for a long and stubborn war.

Developments of the last 48 hours, since the conference of Adolf Hitler and Benito Mussolini at Berne, had indicated the present war aims of Germany and the allies were irreconcilable.

The report which Welles may be able to make to Mr. Roosevelt, based on more than 50 conferences in four capitals with such figures as the pope, two kings, two dictators, a president and the premiers of both allied governments, is:

(1) Some indications exist, despite Germany's threats of launching a "big offensive" at any time, that the war may drag on in the present stalemate indefinitely with neither side finding a single place to deal a crucial blow.

(2) As long as the stalemate continues there is the chance that the need of peace may find root, because people in the warring countries are beginning to grow restless with inactivity, are asking how the war can ever be won under present methods, and are seeing their resources slowly being used up.

(3) Developments are under way looking to a German-Italian-Russian scheme for Balkan security designed to keep the war out of southeast Europe.

(4) Germany's suspicion that the United States favors the allies appears to have been somewhat softened. Welles failed either to try to sell the Germans a peace plan or to repeat to the allies what he had been told confidentially in Berlin. However, it was believed the time may not yet be ripe for the restoration of complete diplomatic relations between the United States and Germany, including the return of the ambassadors.

Young Anderson has participated in numerous rodeos in this section of the state including annual affairs at Piler and Rupert. He has also appeared in the national show at Chicago.

## GOVERNOR SCANS GOODING SCHOOL

**GOODING, March 20 (Special)—** Governor C. A. Bottolfsen; Earl Murphy, secretary to the governor; E. W. Sinclair, public works commissioner; John W. Condie, state superintendent of schools; and R. G. Young, purchasing agent, were visitors Tuesday at the State School for the Deaf and Blind.

The governor and his party, who arrived at the school about 11 a.m., inspected the school plant in the interest of the new dormitory for boys. The visitors had luncheon with the teachers and officers of the school at noon and later visited the classes of both the blind and deaf departments.

Governor Bottolfsen complimented the school staff on the high morale of the children, noting that kind treatment and a sympathetic attitude toward the children was evident. The party left for Boise about two o'clock.

The governor said he plans to call his department heads into conference "soon" to consider the new building for the school. The last day evening, March 17, the legislature approved \$100,000 for new dormitory on provision that federal funds be obtained to match that grant. Providing the U. S. money can be secured, the legislature approved \$100,000 in bonds for the structure.

Bottolfsen indicated that hope of federal grants has been abandoned.

## Upsets Burial Plan

**EL CENTRO, Calif., March 20 (Special)—**Law the road this week summer will smooth over the only remaining "bad" spot on the north-south scenic route, U. S. 93, according to announcement made here by Robert Hays, secretary of the International Four States Highway association.

Hays said he was advised by Gov. O. A. Bottolfsen of Idaho that short but important stretches of the highway in Coeur d'Alene, Idaho, near Challis—are to be improved to a high, modern construction standard on or before July 1. The sum expended will be about \$100,000 and the project calls for the reconstruction and surfacing of the highway from Challis to the oil road at West bridge.

In addition to this improvement for highway No. 93, it is understood a contract will reconstruct the road from the end of the oil at the Iron creek school house, towards Challis for a distance. Also in the program announced by the governor this week there will be included a stretch of 24 miles below Paimalino on highway 93 at a cost of \$25,000 which the federal government will furnish \$15,300 in Lemhi county, at McKim creek.

This report from Idaho comes as good news because directors of the association have been anxious that progress should be announced in Idaho—and that there might be important construction undertaken on the sector north of Ketchum. This latest announcement follows earlier news of construction on either side of Galena summit—and the expenditure of \$25,000—and the result is going to be that the end of the year finds much of the present unsurfaced stretch in Idaho completely paved.

## PLANE ORDERED FOR AIR SCHOOL

Order made for a new Cub cruiser airplane, powered with a 75 horsepower motor, today indicated that it "won't be long now" before the government flight training school will get underway at the municipal airport.

Order for the plane was placed by Jack Wise, local commercial pilot who is directing the ground school course now in progress. Classes are held each night under Chamber of Commerce auspices at the high school. Wise will probably be selected as flight instructor.

The ground classes are expected to conclude by March 28. After that time Mr. Wise, W. H. (Pete) Hill, state director of aeronautics, and also a flier representing the CAA of the federal government will direct a written test on subject matter covered during the course. Those students receiving the 10 highest grades will be selected for the flight course, providing they can meet the physical requirements.

Wise announced this afternoon it is expected that flight training at the local field will get underway within 10 days after the ground school tests are given.

# Brooklyn Club Looks Good For at Least Third Place

**By GEORGE KIRKSEY**  
CLEARWATER, Fla., March 20 (U.P.)—There's more conversation, play and popping off in the camp of the Brooklyn Dodgers than in any other major league base in Florida. President Larry MacPhail and Manager Leo Durocher are indefatigable. Even when you beat them, you can't stop them from talking.

MacPhail has spent something like \$375,000 to corral talent for the Dodgers during his regime, and he has carte blanche to pop the rubber band off his bankroll any time he can locate a ball player that might help the club.

During the Dodgers' strictly on what they have won, they seem reasonably assured of third place, the first division spot they grabbed last year after straight wins in second division.

The Dodgers have the league's best infield, capable pitching, and adequate catching. Their crying need is a power hitter. Their outfield is still a headache but is improved over last year's. The tipoff on the outfield is the fact that Ernie Koy, the club's best outfielder last season, is going to have to hustle to make the grade this year. Joe Voornik, bought from the Red Sox for \$25,000, has ousted Koy from left. If Voornik has a big year at the plate, it will make a tremendous difference in the Dodgers.

Roy Cullenbine, signed for \$25,000 after he was cut out from the Tigers by commissioner Landis, and Koy are battling for the center field job. Jimmy Riddle, the Giant castoff, looks like he'll be the right flier.

The dark horse in the outfield set-up is Charley Gilbert, who's played only one year of professional baseball and won't be 21 until July 8. If he stays, he'll be the center fielder. But he's too bright a prospect to sit on the bench and he may be sent to Nashville for another year's seasoning.

The infield is something to rave about, defensively with Camille at first, Coccinelli at second, Durocher at short and Lavagetto at third. Added to this quartet the Dodgers have the \$15,000 beauty, Pee Wee Reese, and reliable Johnny Hudson.

Hugh Casey, Luke Hamlin and Whit Wyatt will be the Dodgers' big three. Casey looks like he'll be the top winner. Van Mungo is in better spirits than at any time since his arm trouble started. Tex Carleton, reclaimed from Milwaukee, looks as if he has recovered the old effectiveness in his side arm pitcher. Mr. Tammie will shoulder the left-handed pitching chores. Fred Fitzsimmons, signed to a joint pitching-coaching job, and Al Hollingsworth will share the spot-pitching assignments with Carleton. Wes Perrell is hustling to stage a comeback. Max, Macdon and Al Hollingsworth, two other lefties, are trying to hang on.

Babe Phelps will be the No. 1 catcher with Gus Mancuso. Durocher is the No. 2 man. Chris Hartle and Herman Franks from the Cards are battling for the No. 3 job.

## Jitterbugs Battle Holy Terrors for Do-nut Loop Crown

Jitterbugs, Class B champions in Twin Falls high school boys' do-nut league play, were selected last night as the team to meet the Holy Terrors, Class A champions, in the finals for school honors when they beat the Transcendents, Class C champions last evening by a score of 17 to 14.

High point man for the winners was Smith, with five points, while Mingo of the losers tied in number of errors made.

Holy Terrors and Jitterbugs play in the finals today after school.

## Sportsmen Hear Salmon Plans From Oregonian

Steps being taken by the U. S. bureau of fisheries in stimulating migration of salmon around Coos and other dams were explained here last night by W. B. Black, president of the Portland (Ore.) Casting club, as he spoke before members of the Southern Idaho Fish and Game association.

The session was held at the Idaho power company auditorium and 25 members were present. Refreshments were served at conclusion of the meeting.

Mr. Black pointed out the importance of sportsmen working together to achieve the same end. He also urged that fishways be opened at Coos falls for steelhead, sea trout and salmon. Local members expressed interest in the project.

## Hogan Leads North-South Golf Tourney

**PINEBURST, N. C., March 20 (U.P.)**—Ben Hogan of White Plains, N. Y., who has never won a major tournament but is second money winner of the season, toured the difficult championship course yesterday with a six-under-par 66 to take the lead in the 38th north-south open golf tournament.

Hogan's 66 tied the course record set last year by Harry Cooper and was three strokes better than today's runner-up, Paul Runyan, of

## Ski Champions Practice on Resort Slopes

**SUN VALLEY, Ida., March 20 (U.P.)**—Ski champions from north, east and west slid down 9,200-foot Baldy mountain today as they practiced for national downhill and slalom championships to be run here this week-end.

The downhill event, over one of the nation's fastest courses, will be held Friday and the slalom race Saturday. Besides running for the national titles, entrants will also be competing for the Harriman trophy.

Among those now practicing whose records place them as favorites are Fred Pfeiffer, national open slalom champion; Toni Matt, national downhill titlist; and Dick Durkance of Sun Valley, former Dartmouth ski

Other top-notch entrants included Bobby Blatt of Palo Alto, Calif.; Martin Pop of Davis, California; Walter Prager, Dartmouth ski team coach; Bep Benedicter of Bishop, Calif.; Alf Engen of Sun Valley; Charles N. Proctor of Yosemite, Calif.; and Gordon Wren of Steamboat Springs, Colo.

Blatt, the 18-year-old U.S. team skier who walked off with the Valley Interstate meet, was expected to be among the leaders but he will be moving in fast company.

## Godoy Listed As No. 1 Challenger

**MILWAUKEE, March 20 (U.P.)**—Arturo Godoy, Chilean heavyweight, replaced Tony Galento as No. 1 challenger to Champion Joe Louis in national boxing association rankings announced today by Fred J. Sandy, chairman of the association's championship committee.

Godoy, 26, of the New Jersey barkeeper by training, is 15 rounds with Louis in a title match at New York recently. Galento was ranked No. 2 challenger with Pastor of New York, Lou Nova of California, Tommy Parr of England, Max Baer of California, Red Burman of Maryland and Johnny Pylech of Iowa following.

The association said it would like to see Lou Jenkins of Texas fight Davy Day, Chicago lightweight, before going against Champion Lou Ambers, New York. The winner of the Jenkins-Day match, the N. B. A. said, would be considered a "formidable" opponent for Ambers.

The N. B. A. said it hoped to match Enrico Ubrinatti of Italy, No. 1 contender, and Little Dado of the Philippines, the champion, for the world's flyweight boxing title. Unless Champion Joey Archibald fulfills his promise made a year ago to sign a featherweight title bout with Prie Socho of New York by March 28, title recognition will be withdrawn from Archibald, the N. B. A. said.

Eddie Mulligan of the Salt Lake Bees, who is looking over some of his rookies at the San Francisco Seals training camp, says so far Red Knobe, pitcher-outfielder, Ray Fryer, third baseman, Fred Kuback, outfielder, and Fred Morasco, 18 year old Italian pitcher, look mighty good.

White Plains, who fired a 35-34-69.

Defending champion Byron Nelson, national open champion, shot a 35-35-70 and finished third.

## WILDLIFE VITAL, SPORTSMAN SAYS

Rube Randall, whose angling and hunting trophies are familiar to most of the sportsmen of Twin Falls county, this afternoon expressed his views on the value of wildlife when interviewed by an Evening Times reporter.

Randall's "hunting lodge," located one mile east and three miles south of Kimberly, is a mecca for sportsmen. Because he is an authority on the subject of wildlife, Mr. Randall was asked to add his views to those of others made during National Wildlife Restoration week, now being observed.

**It's Happiness**

"I'm pretty positive I couldn't be happy unless I could get out in the fields and forests once in a while with a gun, or wade some stream with fly casting rod," Randall said. "Hunting and fishing to me are the greatest sports in the world. It's hard to say which gives me the greatest thrill, a duck flying swiftly overhead or the flash of a trout when he strikes a well placed fly. The sight of a well-trained pointer or setter in action also packs a mighty big wallop."

In discussing the benefits derived from wildlife restoration, Randall said that "I wish to call to the attention of my friends and neighbors the celebration of National Wildlife Restoration week. Those of us who like to hunt and fish enjoy and profit by the presence of wildlife in our country. The man with the gun or fishing rod isn't the only one who profits. The merchant, the farmer, the professional man—all get some good out of nature."

**Stamps for Sale**

To commemorate the week, a series of stamps of various forms are now available. These stamps can be purchased by the public, and I urge everyone who can make such a purchase to do it promptly. The funds realized from the sale of these stamps help the conservation program in our own state and finance the national educational conservation program."

Stamps are being sold in this section by members of the B Club of Sportsmen and the Southern Idaho Fish and Game association. Many downtown stores have the stamps available for sale at the present time. Observance of the week closes Saturday night.

At Mongolian dinners, the eye of a sheep is a special delicacy offered to honored guests.

**CARD OF THANKS**

We want to sincerely thank our many friends for their expressions of kindness and for their willing assistance in the search for our missing husband and son. We are grateful to the organizations, newspapers, K. T. F. I., and officers for their faithful help, and to the Rim to Rim Bridge officials for granting passes to searching parties. Your efforts have been truly appreciated.

## CAMP FIRE GIRLS

**OYACANZE**

A hike to the home of Maurice Gibbs was taken Saturday by Oyacanze group of Camp Fire Girls. Two high school girls led the group. Some interesting facts about some birds and their nests were found. A fire was built and the girls toasted bread, cooked meat, eggs and roasted marshmallows. This was to fulfill a requirement for two of the girls.

A short talk about the grand council fire was discussed. A party was also given for the losing side in a contest. Punch, cookies and fudge were served. Nadine Howard and Esther Beer were guests.

A visit to the recreation center was taken. There the girls spent the afternoon making hot mats.

A meeting last week was held at the home of Donna Rappley. A hike was planned and the contest that has been going on between the groups ended and the losing side made plans for the party to be given this week.

**NETOPPEV**

A tour through the Twin Falls county general hospital was made Thursday by Netoppew group of Camp Fire Girls. Miss Marjorie Jewell, dietitian, showed them through the diet kitchen, and they saw the records kept in the kitchen and preparation of food. Miss Jewell served refreshments.

After the tour, they went to the home of Mrs. Guy Shearer, who had accompanied them. There they held
