State Rests in Murder Trial; Defense Loses on Directed Verdict Mills Called to Tell of Viewing Car in Alleyway

The state, at 11:35 a. m. today, completed presentation of testimony in the Duncan McD. Johnston murder trial and at 2 p. m. the defense called the first witness to the stand.

Final witness for the state was W. H. Mills, 286 Alexander street—the man who indirectly was the reason for a retrial being ordered by the Idaho supreme court.

After the state's case had been concluded, W. L. Dunn, chief defense attorney, asked the court for an advisory verdict, claiming total failure on the part of the state to establish the defendant's connection with the "alleged crime."

Johnson is charged with the murder of George L. Olson, Salt Lake City gem salesman, about two years ago.

Dunn also asked that the defense be permitted under tomorrow morning to interview certain new witnesses, but the court recalled that the state has already introduced the testimony of those witnesses.

Dunn likewise moved that all witnesses in the case be examined by the state, and that evidence be removed, and that exhibits 14, 15 and 22 (two "cash" books and a cash register tape) be removed.

The list of prospective witnesses with the clerk of the court, being additional witnesses approved by Judge Porter.

It was the witness Mills who, the state contended in the first trial, was the man who saw the jewelry company as follows:

"I am sure it will pay you to investigate the Johnston jewelry very closely a jewelry especially the back room around the ally door. They might be lots of evidence there."

The letter came into the first trial, the state contended in the defense. It has not, as yet, been introduced in the present trial.

GERMANS BLAST WELLES, FRANCE ON MAP CHARGE

BERLIN, April 5 (U.P.)—Nazi concentrated their ire today on an alleged map of Europe now in the hands of Secretary of State Sumner Welles and premier—then finance minister—Paul Reynaud of France.

"If Welles allowed himself to be photographed with Reynaud's map it was a shameful act. If the photograph was taken without his permission then the 'French are playing an infamous game."

"Imagine the cry that would have gone up in the world if during Welles' visit to Berlin we had photographed him, with a map showing London separated from the rest of England, the west coast of England given to Ireland, a huge German domination into France and Burgundy hacked to pieces!"

The photograph of the map published here shows the position of the frontiers the allies would impose after the war.

OFFICERS BLAME YOUNGSTER FOR DEATH OF FOUR

LOS ANGELES, April 5 (U.P.)—Police today booked Chloe Davis, an 11-year-old child with blue eyes and two blond pig-tails, on a charge of suspicion of murder.

"She is cool, has no depth of feeling, has great powers of imagination for fantasy, and is distinctly capable of planning and committing the murders. But so far, I believe her story more than I disbelieve it."

"We must take into consideration the fact that Chloe might have had an 'Electra' complex. This would lead to her killing her father as a deed."

"She has read a great deal. She is intelligent, and her development may be led to her great activities in sports. Her mind is clear as a bell, very quick."

CHLOE WAS QUESTIONED for nearly an hour in the morning at the George street police hospital, but but refused to answer questions.

SENATE INVESTIGATION DEMANDED ON FOREIGN PROPAGANDA

MISSOURI SOLON ASKS PROBE INTO AGENT ACTIVITIES

WASHINGTON, April 5 (UP)—Propaganda activities of foreign powers and recent "nonscript uterances" alleged some leaders today to press for an early investigation of propaganda and the activities of foreign agents in this country.

Sen. James F. Byrnes, D.-S. C., chairman of a committee controlling senate funds, said he would call a meeting soon to consider a resolution sponsored by Sen. Bennett C. Clark, D. Mo. proposing a senate investigation of foreign propaganda. Clark's resolution has been approved by the senate foreign relations committee, with an expenditure of between \$15,000 and \$25,000.

Controversy Revived
Clark said his proposed investigation was designed to find out whether foreign agents have sought to influence public opinion in this country in favor of one of the other side in the European war.

Interest in the senate propaganda was precipitated yesterday by a speech by Gordon Conant, attorney general of Ontario, urging Canada to seek United States entrance into the war on the side of the allies. That also revived the controversy over the recent address of U. S. minister to Canada, James H. R. Clyburn, in which he denounced Germany and praised the allies.

Cromwell's address brought a stern public rebuke from the state secretary of state Cordell Hull. Of Conant's speech, Hull said that the "nonscript uterances" of minor officials or individuals in foreign countries would have no effect upon this country's foreign policy.

Press Groups Demand
Meanwhile, seven peace organizations called for immediate adoption of the following steps as the answer to demands that the United States join the European war:

"An unequivocal 'no' from the President to proposals from the allies that this country enter the war.

"Immediate passage of the Clark resolution.

"Adoption of a war referendum as the people's defense against present diplomatic and unneutral ambassadors."

TORONTO, Ont., April 5 (UP)—Premier Mitchell Hepburn of Ontario province, who has bitterly denounced the government's "no ill-star" war effort, said last night that if he had known in advance of the speech of his attorney general, Gordon Conant, urging that Canada try to get the United States into the war on the allies' side, he would have cautioned him about it.

CROP INSURANCE GAINS IN COUNTY

Newest feature of the farm program—Federal crop insurance—is enjoying a healthy growth in Idaho and in Twin Falls county, despite the fact it is still less than two years old, Kenyon Green, member of the county agricultural conservation program in charge of crop insurance, said today.

In Twin Falls county, 455 policies were written on the 1939 wheat crop, compared with 34 on the 1938 crop, Green said. Over the state, participation quadrupled, with 6,800 policies in force, compared with 1,700 last year.

Crop insurance is catching on with Twin Falls county wheat farmers, he said, because they can see how it fits into a long-time farm plan. By paying a small amount of wheat each year into the crop insurance reserve, which they share with wheat producers all over the nation, farmers are sure of wheat to sell every year, even when crop failure strikes.

Growers insure their crops before planting time, so risks will be representative instead of including only farms on which losses are expected. Crop insurance guarantees 75 per cent of a normal yield, and protects against loss by fire, hail, frost, drought, insects, rust and other unavoidable causes.

WASHINGTON, April 4—Another chapter in the unhappy story of the New Deal's attempt to bring economic life to Puerto Rico is being written—and it seems no more likely than its predecessors to bring the tale to a happy ending.

LECTURE TO Lady Who Snickers
Dear Folks: Pardon me while I read the riot act to a Lady on the Street.

Congress Thinks It Over
When budget estimates were presented to congress by the President, only one billion dollars was set aside for the WPA program for the ensuing fiscal year.

While congress might decree that WPA rolls be reduced by one-quarter and get away with it, the difficulty is that someone else will have to kick in to take care of the people thus displaced.

Foremost in the hordes clamoring for retention of current WPA levels are the mayors. If people are thrown off WPA, they will fall right in the laps of local taxpayers.

Poplacc Spreads Out
Depression-scarred families, forced to huddle up with friends and relatives during the early part of the Terrifying Thirties, are still pouring out of hibernation and finding brand-new homes for themselves.

A Goal Is Set
"What important problems do we face?" asked 700 young men attending the convention of Pi Kappa Delta, debating society, in Knoxville, Tenn.

365% Greed
For sheer swinishness, it is hard to beat the loan shark racket. New York investigators have turned up cases where small loans were made to yield as high as 365%.

DEATH VALLEY, Calif.—The income tax fellers have been pestering Death Valley Scotty again.

Every year, agents of the Internal Revenue Service trek into the desert to remind Walter Scott that he hasn't filled out Form 1040 and to ask how come.

They have heard the persistent legends of a fabulously rich mine. They have seen Scotty tossing \$10,000 bills on the bars of the night cages of Hollywood.

Presently we turned off the good road to a bad one. It got worse. Then we stopped at a gate while one of the men picked the padlock with a piece of wire.

The car bumped around a rocky trail to an unimpaired shack about 25 by 40 with boarded-up windows.

Mountain Lions A. La Scotty hospitably opened a bottle of Scotch, though, while he told how the boarding-up fellers had been after him again.

GERMANY PILES UP ORE DEPOSITS ON BOTHNIA GULF

INLAND ROUTE IS USED IN BRINGING METAL TO NAZIS

By PETER C. RHODES
NARVIK, Norway, April 5 (AP)—Germany is piling up a tremendous supply of iron ore at Sweden's port of Lulea on the gulf of Bothnia, awaiting a spring thaw which will permit its shipment across the Baltic by the inner route, far from the threat of British submarines, surface warships or airplanes. It was understood today.

It is predicted that in three weeks, barring unexpected delay, the gulf will be open and German can begin importing its ore direct from Lulea without having to depend on the Outer North sea route from Narvik.

Big Ore Trains
I arrived at this port, far above the Arctic circle, to investigate the iron ore situation with reference to the new British drive to cut off the German ore supply from Bothnia.

During a three-hour train run between Boden, down near Lulea, and Gellivare, in north central Sweden, the great iron ore center, four trains, each with 50 iron ore cars, passed on the way to Lulea. I was assured by railroad men that the line had been busy for weeks past.

Heavy Traffic
As the daily production of the Gellivare area is only about 13,000 tons a day, it appeared that much iron ore was passing through the Kiruna mines, to the north, where product would normally go to Narvik.

Heavy railway traffic towards Lulea might indicate that Germany had not lost the more than 500,000 tons of ore by which her January and February imports from Narvik had dropped below normal peace time levels, but that rather ore was being diverted to Lulea to await the thaw.

About 40 people attended.

Following the banquet a short program was given. A vocal duet by Betty Bonning and Mary Jane Griffith was sung; Mrs. Gretchen Sluder, who presented four numbers with either accompaniment. A humorous number by Mrs. George Venable. Mrs. George Flowers gave two piano solos, and the season closed with popular and classical songs. Games occupied the balance of the evening.

State Case Moves Fast As 15 Parade to Stand

(See page one for today's trial proceedings)

Moving swiftly as the state's case neared the resting point, prosecution of Duncan McD. Johnston saw no less than 15 witnesses parade to the stand yesterday afternoon to discuss, by testimony, various phases of the state murder charge against the ex-mayor.

The witnesses heard during the afternoon were U. M. Terry, insurance man; J. H. Ramsey, service station operator; M. L. Matheny, musician; Mrs. M. L. Matheny, wife of the musician; E. B. Eilers, bookkeeper at the Decker Jewelry company, Salt Lake City; Leo R. Evans, formerly a Twin Falls Jeweler; M. C. Scardier, Hatley Jeweler; Loyol Perry, assistant cashier of the Fidelity National bank of Twin Falls; Lyle Prader, teller at the same bank; J. B. Walhoff, also a bank teller; Miss Betty Leonard, secretary to Curtis Turner, cashier of the Twin Falls Bank and Trust company; also a witness; Deputy Sheriff W. W. Lowrey; Bernice E. Campbell, retail merchant; Claude Detweiler, retail merchant.

Gun Fingerprint
Terry testified that on August he visited Johnston at the county jail and at that time the defendant told him that there might be fingerprints of his on the gun sent to the FBI. Under cross-examination by W. L. Dunn the discussion centered around whether the letters "FBI" had been used in the conversation. Terry also said that Johnston had borrowed the checks being delivered to the Bank and Trust on Monday, May 23, to pay off a loan \$444 on his life insurance.

Ramsey, former operator of the Sinclair service station across the street from the Union Motor company, testified that when Olson bought gasoline for the Bank and Trust on Monday, May 21, 1938, he saw the defendant.

Chief of Police Howard Gillette testified that Johnston told him that he accompanied Olson on the trip to the gas station. Ramsey also said that several guys were in the back of Olson's car at the time. Gillette told the jury that Johnston told him the guys were in his shop at that time.

Read in Times
Under cross-examination Ramsey said that the first he knew of the murders was when he read it in the paper (Evening Times) the evening of the day the car was located at the side of the Park hotel (May 24, 1938).

Lowrey testified as to the date on which the Statkin bankrupt material was in possession of the sheriff's office and Mrs. Campbell said that none of her employees ever went into the basement under her store, entrance to which was through a trap door in the alteration room.

Detweiler testified that on May 23, 1938 Johnston borrowed the key to the back basement door from him, saying that he wanted to store some Statkin material which was "too bulky" to carry into the basement through the Johnston Diamond shop front door. He said Johnston returned the key the next day.

Recalls No Appointment
Mrs. Leonard said that no her "knowledge" she had no appointment with Mr. Johnston May 21 and didn't see him that day.

Bogskar Wins Grand National Steeplechase Before 500,000

25-1 Shot Cops 102d Running Of Famed Race

Happy Birthday—Man o' War at 23

AINTREE, England, April 5 (AP)—Bogskar won the 102nd running of the historic grand national steeplechase at Aintree today before 500,000 spectators.

Bogskar, a rangy horse with a wide, sweeping stride, carried the silks of Lord Buxbridge to victory before the largest crowd assembled in England since the war broke out in September.

Lightly backed Bogskar, at odds of 25-1 in the betting and not given a chance in the pre-race expiring, Bogskar swept into the lead less than a furlong from home when Royal Danelli, one of the low-priced choices, fell on the second jump last jump after leading for the first four miles of the tortuous course.

Bogskar completed the race in nine minutes, 20 and 3/4 seconds—second fastest time in the 102-year-old history of the race and only one-fifth of a second slower than the race record established by Golden Miller in 1924.

Capt. Scott Brigg's Macdonald, an 8-1 choice, was second in the field of 30 starters while James Nell's Golden Arrow, another dark horse at 50-1, came on with a rush for third.

U. S. Horses Fall

Both American-owned horses, Mrs. Louis Stoddard's Kean and John Hay Whitney's National Night, finished out of the money. National Night fell at the 14th jump the first time around the triangular course.

Bogskar was ridden over the four-mile, 556-yard course by professional jockey M. A. Jones and carried 144 pounds, 23 less than the top-weighted Royal Danelli. Macdonald, ridden by Ian Adair, Golden Arrow, one of the light-weights at 143, was under the hand of Peter Lay.

Man o' War, greatest of thoroughbreds, sound as a dollar and just a bit stout, poses proudly for cameramen and visitors who help him Red celebrate his 23rd birthday on Samuel D. Riddle's Faraway farm, near Lexington, Ky.

THE PAYOFF

by HARRY GRAYSON (NEA Sports Editor)

COLUMBIA, S. C.—One of the finest stories in baseball is the reformation of the veteran Ralston Hemsey under the influence of young Bob Feller.

It was at Feller's suggestion that the Cleveland club made a deal for Rolly Hemsey two years ago, the Iowa farm boy having found it a pleasure to pitch to him on a barnstorming trip the previous fall.

"The kid made Hemsey completely over by the simple process of regarding him as a somebody," says one of the older Indians who prefers not to be quoted.

In St. Louis and elsewhere Hemsey was regarded as a bum, and treated like one. He didn't care.

"Now he has been made to realize he's a part of his club and an important part; that the team needs him and he's a valuable man. You wouldn't know Hemsey any more.

"The faith which Bob Feller has shown in Rolly did what abuse and neglect couldn't do."

Rolling back Rolly Hemsey strengthened up because he couldn't let Feller down.

He is proud of being the battlement of and the man to whom baseball's greatest pitcher listens for advice.

Lundy Did Not Fix Player's Salary

Larry MacPhail says the story that Judge Landis fixed the amount of salary to be paid Lindsay Deal, holdout Brooklyn recruit outfielder, is erroneous. . . The commissioner only made certain suggestions, according to the Dodger director, which easily could amount to the same thing.

The Giants haven't even fitted out a new uniform for Zeke Bonura, rather definite proof Bill Terry means what he says about not keeping the big first baseman. . . Young Bob Kennedy of the White Sox scooped up the ball on swinging bunt with his bare hand and makes throw from third base that remind Jimmy Dykes of Joe Dugan, the old Yankee.

The Giants will not train at Wyter Haven next spring. . . Coral Gables may get them. Several Reds became ill on the trip to Havana and were a week slipping off the effects of the voyage. . . Paul Dean, now a Giant, appears loose and strong.

Yanks Prep Chartak for First Base Job

Mike Chartak, a converted outfielder, will play first base for Newark. . . Chance are he will be first in line for that position with the Yankees. . . He is the type they like.

Buck with the Phillies, but in St. Louis, Chuck Klein will miss the short right field fence of old Baker bowl. . . Connie Mack had a tough time with the names of California towns. "The venerable Athletic greeted the customers in Long Beach with 'we're glad to be in Long Branch' . . . and still refers to Anaheim, the training base as Anaheim. . . Because he is plagued by excess poundage, Hugh Casey is the only Dodger with a clause in his contract prohibiting beer drinking.

Another Yankee farm hand has been sold to a National league club—the Phillies, but just plain Herman Schulte, a second baseman, isn't prominent enough to raise those who squawk about the Yankees disposing of their surplus material outside of the American league.

Oakland Moves Into Lead in Coast League

(By United Press)

Oakland stepped proudly into the leadership of the Pacific Coast league today by unmercifully trouncing on the coasts of the San Francisco Seals for the third straight time while San Diego was dropping its first game of the season to Hollywood.

Manager Johnny Verger's Aces once more put on a last-minute stampede to smother the Seals, 10 to 2. San Francisco had a com-

fortable 3 to 0 lead behind Ed Stutz' one-hit pitching until the last of the fifth when Oakland tied the count on three hits. Stutz gave way in the seventh to Frank Dasso after the Aces scored their third, and winning run. Then the Seals infield booted three bad ones. Dasso gave up three hits and five more runs camped across.

The Los Angeles club, making hay on its own field, rapped out three more home runs—total: 13 in four games—to punish Portland 8 to 5. A three-run rally in the eighth inning led the game.

Tony Freitas, who tola often and successfully for Sacramento, held no terror for Seattle and the Rainiers licked him 4 to 2. It was Tony's second defeat of the season.

The Hollywood Stars landed on

Byron Humphreys and Morris in the eighth inning to drive in five runs and defeat San Diego 5 to 8 and knock the Padres out of the undefeated column.

Inquest Held In Starving Of Two Men

ZEBALLOS, B. C. April 5 (UP)—An inquest was held today in a little cabin on Vernon lake where James Ryckman, 54, starved to death, and Lloyd Coombs, 27, near the same death, shot himself.

After the inquest, their bodies were flown here for burial.

They left a diary that told of the agony of slow starvation and the torrential rains that prevented them from hunting and fishing for food after their supplies were gone. It began Nov. 25, ended March 17, the day Ryckman died and Coombs committed suicide.

Besides the diary, they left an epitaph scrawled in fungus on the door of the cabin. It said: "A. L. Coombs and J. H. Ryckman from Vancouver, B. C.

"This date Jan. 30, 1940, have been living on fish and squirrels with some corn and marten for the last 100 (obliterated). Landed here by Ginger Coote airways July 30, 1939. We're both too weak to hike a mile a day. Can't do nothing but stay here until plane comes in."

Despite the diary, Constable N. J. Wadegren could not understand why they had starved.

"Ryckman knew the Vernon lake country well and had been there many times," he said. "Game around Vernon lake is not plentiful, but there are lots of fish and five to 10 miles north are plenty of elk and bears, which Ryckman well knew."

"They were never more than a week's hike from help. It is mysterious that even when their grub was running low, they believed some pilot would happen in Vernon lake, and they held to this belief until they were too weak to trek out."

Student Orators Speak at Jerome

JEROME, April 5 (Special)—Jerome Civic club members were privileged to hear orations on problems of American youth at their meeting Tuesday.

Also delivering his original oration was John Stiele, speaking on "Our Individualism."

He will compete in Kimberly April 6.

A group of Junior high school boys, Danny Connor, Donald Rice, Fred Burkhalter and James Mann, played a trumpet quartet, "South of the Border" and "The World Is Waiting for the Sunrise." Vernon Achenbach also offered two violin selections, "Oriental" and "The Beatrice."

Hostesses were Mrs. E. E. Sher-

wood, Mrs. O. A. Jensen, Mrs. Malcolm Stuart and Mrs. Dean Clark. Pouring were Mrs. R. H. Callen and Mrs. John Stiele.

Announcement was made of the silver tea of the Civic club April 16, which the public is urged to attend. In charge of the program is the cancer control committee, which will present Dr. L. C. Kroetch, Twin Falls health unit physician, as principal speaker. Hostesses will be the Civic club board. Funds will be used to increase the sum for cancer control.
