HITLER MAPS 6-DAY AERIAL BOMBARDMENT

5,000,000 Britons Ready to Defend Coast

England Starts on Offensive as Raids On Isles Loom Near

LONDON, July 6 (U.P.)—Britain called 250,000 more men into the army today and took new, drastic steps to defend the coast, keep highways open for troops and conserve food in preparation for a German invasion.

For the defense of the British Isles, 1,250,000 men were already under arms, almost 3,000,000 were training in "broomstick" armies and 5,000,000 in all, will be ready to fight by end of July if the factories can provide them guns.

Phone Operator's Life Threatened At World's Fair

NEW YORK, July 6 (U.P.)—A telephone caller threatened the life of an employee of the British pavilion at the World's fair early today while police pressed their search for the person or persons who planted the July 4th bomb there which killed two detectives.

The phone rang in the apartment of Mrs. Marjorie Rosser, the pavilion's telephone operator, at 2 a. m. and her husband answered. He told the caller he was speaking for his wife. The caller then said, in a flat, even voice: "I'll kill her."

Mrs. Rosser had received a telephone call at the pavilion on Tuesday in which a man told her to clear the building before it blew up. Thursday afternoon the bomb was discovered. The detectives carried it to a clear space on the grounds where it exploded.

Police said, as they placed a heavy guard around the Rosser apartment, that they believed the call was made by the same man. Mrs. Rosser was not at home. The new development came as the police began questioning the pavilion's employees.

Face New Problems

But while the British stood firm on the home front, they faced new problems throughout the far-flung empire. The British commonwealth of nations was fighting alone now. It had the additional job of hunting down French warships throughout the world, and blockading the French coast to keep goods from reaching Germany.

Gibraltar had been bombed, although without effect; Italian troops were making inroads into the Anglo-Egyptian Sudan; difficulties with Japan were imminent over the shipment of goods to nationalist China; and conditions were uncertain at most French possessions, including French-Indo-China, from where British ships now were barred.

Armses Hostility

The seizure or destruction of a large part of the French fleet has eliminated one hazard—the possibility of Germany and Italy getting the ships—but the battle for French warships at Oran, Algeria, had aroused the hostility of France's Premier, Marshal Philippe Petain, and his government and raised the necessity for Britain to redistribute her fleet.

It was officially announced at Oran today that as a result of the British naval attack, the French battleships Dunkerque, Bretagne and Providence and the destroyer Mogador were aground and badly damaged and that 1,000 French sailors were dead, wounded or missing.

Move to Offensive

The naval action, and intensified air raids on Germany gave evidence that the British were moving to the offensive while strengthening the home defenses.

Still a serious problem here was Elze's neutrality and the Daily Mirror today reflected the increasingly popular view: "Are we going to take the lead in Ireland? Or are we to be too late again? What's the government's policy?" It demanded strong action and said the nation "won't tolerate another disaster through lack of foresight and initiative."

ARMY OF 1,000 BATTLES BLAZES

PORTLAND, Ore., July 6 (U.P.)—One new forest fire, at the head of Blow out creek in Marion county, broke out today in Oregon's dry forests, while three other major configurations were being controlled.

An army of 1,000 men had just enclosed a blaze that raged through 1,500 acres of cut-over land and virgin timber in the Mount Hood national forest.

A fire that threatened the town of Glenwood was gradually being placed under control today by a crew of 500. Another blaze in the same area roared toward the town of Timber, despite efforts of large crews to encircle it. Another high wind would whip it out of control, forest rangers said.

Reversing winds and an overcast sky promised relief to about 800 weary fighters battling flames that have spread to more than 13,000 acres of green timber on the south side of Bow Faw peak in Lewis county, Wash. An 8,000-acre blaze in Lewis county, Wash., was also reported under control.

City Temperature Hits 81 at Noon

With the temperature mounting to an official 67 degrees above zero yesterday, today's high reading was expected to also be in the 80's as it was recorded at noon.

GUARD INCREASED AT U. S. CAPITOL

WASHINGTON, July 6 (U.P.)—President's guard at the United States capitol were strengthened today by a detail of additional guards and requirements that all employees entering out of working hours carry identification cards.

House Sergeant-at-Arms Kenneth Romney said the identification card requirements were similar to regulations adopted during the World War.

Romney said 16 Washington police and federal bureau of investigation agents were detailed to the capitol last September to augment the regular police force. This number, he said, was increased to 20 on July 1.

HOLIDAY DEATH TOLL HITS 301

The nation counted a toll of 301 violent deaths as it entered the third day of the Fourth of July weekend, but safety experts were cheered by a reduction in traffic fatalities.

A United Press survey showed 131 deaths in highway accidents, 60 by drowning, 40 suicides, 5 in fire-related accidents, and 65 from other kinds of violence.

California was far ahead of other states with 42 deaths, of which 24 were traffic fatalities. New York and Washington counted 17 each, and Ohio and Pennsylvania reported 13.

The national safety council said the average of traffic deaths for the first two days of a four-day July holiday was 160, or 38 more than were reported killed in the same period this year.

The council predicted the total number of violent deaths for the week-end would be near 500.

Youth Haunts Deanna Durbin House Because He's in Love

HOLLYWOOD, July 6 (U.P.)—Robert Smith, 21, has never been any closer to Deanna Durbin than her front gate—and that got him into trouble with the police, it was determined today to see her, come what may.

Here are some of the 5,000,000 British Isle residents who will aid in the defense of the homeland when, and if, Hitler starts his long-expected "total war" on the enemy. Shown above are Londoners practicing the fall to prone firing position atop the roof of their office building under the British civilian defense program.

And here's one more reason the British expect the "total war" in the immediate future. The newest British aircraft carrier, the 23,000 ton Illustrious, was reported struck by a Nazi U-boat. The craft was not completed until 1939. It carried a complement of 1,600 men.

British Airplanes Bomb, Disable Big French Ship

LONDON, July 6 (U.P.)—The admiralty said in a communique tonight that the French battle cruiser Dunkerque had been hit six times this morning by bombs dropped by the fleet air arm.

Two British planes were lost in the attack on the Dunkerque, which was grounded as result of Wednesday's Oran naval battle. The vessel was lying ashore off Oran when it was attacked today.

The Dunkerque was one of the French ships in Oran when the British fleet opened fire Wednesday following French rejections of a British ultimatum to comply with British demands to make certain that French naval units would not be used by the axis powers against Britain.

The Dunkerque was built in 1935 and is of 26,500 tons with a complement of 1,301 men normally. The ship is one of the fastest capital ships afloat, with a speed of between 29 and 31 knots. She is heavily armored and carries eight 13-inch guns; 15 5-inch guns, and 44 smaller guns.

The admiralty disclosed today that during the Oran battle Admiral Gensoul, commanding French naval units in Algeria, had signaled his ships were hors de combat and he was ordering his men to abandon them.

The admiralty said the Dunkerque was bombed today because "it was considered essential the ship should be in no condition to take part in war in case she should fall into enemy control."

It was explained that in view of Gensoul's signal that his ships were hors de combat that he was ordering their abandonment that it was not considered necessary to give warning before carrying out further operations against the Dunkerque.

MEDITERRANEAN—British deny German report that two British cruisers sank French destroyer Frondeur in two-hour battle off Crete. More than 1,000 reported dead in Oran naval battle which wrecked part of French fleet. Strong French units at Casablanca expect British attack; others at Alexandria reported submitting.

Climax Nears in "War of Nerves" as Germans Plan Attack With 3,000 Craft

Germany and Italy increased the tempo of their war of nerves and aerial bombardment against Great Britain today in a reported plan for a blitzkrieg air offensive within the next 10 days.

Adolf Hitler, returning from field headquarters to a vast organized celebration in the gaily decorated streets of Berlin, was said by Nazi sources in Stockholm to have approved plans for a six-day aerial bombardment of the British Isles by 3,000 airplanes, including new models with "surprising, death-dealing instruments."

Only after six days of continuous bombardment, in which glider bomb-carriers are to be used, will the axis powers attempt to deal with the British Isles by invasion or otherwise, the dispatches asserted.

Propaganda in High Gear Regardless of whether the Stockholm reports are an example of Nazi frankness such as has been demonstrated in the past, the reports left no doubt the Germans and Italians are throwing the "war of nerves" into high gear with propaganda threats and war preparations on a huge scale, accompanied by persistent small scale aerial bombardment of the British Isles.

One extremely important development was announcement by a Swedish spokesman who said permission has been granted for Germany to ship war materials—to be used in attack on Britain—across Sweden to Norway.

Fascist Foreign Minister Count Galeazzo Ciano was en route to Berlin for conferences on Sunday with Hitler and other high Nazi officials, after which it was hinted he might go to the front. (presumably in western Europe) from which the offensive against Britain will be launched. Italians repeatedly have said they would participate in the attack.

Trade Blows in Air For the time being, the intensified war of nerves and the submission of Sweden to Nazi demands—demands that may be of greatest interest to Soviet Russia in the north-overcast developments in the aerial war in western Europe, if naval conflict in the Mediterranean and land fighting in Africa.

In the air, Britain and Germany continued to trade powerful blows in daylight and night bombing raids on enemy objectives, with the Nazis seeking to soften up the British Isles for the blitzkrieg and the British hammering with high explosives in an effort to break up the projected offensive.

MEXICANS VOTE ON SUNDAY FOR NEW PRESIDENT

MEXICO CITY, July 6 (U.P.)—Amid reports and rumors of imminent revolution, the men and women of this republic of 20,000,000 elect tomorrow a successor to President Lazaro Cardenas, who today promised ballots and not bullets would dictate the choice.

Gen. Cardenas was elected by a majority of 2,185,000 July 1, 1934. Under the constitution, a president can serve but one six-year term.

Since yesterday, a ban on the sale of all intoxicating drinks, even light beer, has been in effect and was being strictly enforced. The ban continues through tomorrow.

Four candidates appear on the ballots but the two chief rivals are Gen. Manuel Avila Camacho, candidate of the Mexican Revolutionary (Government) party, and Gen. Juan Andreu Almazan, an independent.

Camacho is supported by the powerful Mexican workers' confederation—CTM—peasant groups, virtually all the state governors and ranking army officers and is favored to win.

Gen. Almazan, one of the wealthiest men in Mexico, draws his support from many sections of the middle-class, business men and some sections of the clergy opposed to the government's alleged harsh attitude to the church.

Church Followers Many devout church-going peasants are said to be among his followers. The heated battle between these candidates has forced the other two contenders far into the background. They are Gen. Rafael Sanchez Tapia, an independent, and Ramon de la Paz, a druggist from Mexico in Lower California, who entered the race at the last moment.

BROTHER, SISTER SLAIN BY YOUTH

BUFFALO, N. Y., July 6 (U.P.)—Police said today Frank Swiatek, 19, had confessed bludgeoning his nine-year-old brother and his 11-year-old sister to death in the same way he killed another brother three years ago.

The bodies of Gordon and Teresa were found by police in a blood-soaked bed in the family flat last night. Frank had walked into a police station to report they were there.

Frank was paroled about a year ago from Elmira reformatory. He had been convicted of manslaughter for killing his brother Leo, 17, with an ax, on Aug. 23, 1937.

Deputy Police Commissioner Joseph S. Jordan said last night's tragedy occurred while the children's mother, Mrs. Cecelia Swiatek Mizolek, and their step-father, Peter Mizolek, a chemical plant worker, were at a theater.

Police found a blood-stained hammer in a fruit basket on the kitchen window sill.

Commissioner Jordan said Frank asserted he had been "goaded" by his step-father to kill his sister and brother.

Late FLASHES

LONDON, July 6 (U.P.)—Two German airplanes were shot down by British defense forces today, bringing to 37 the number of German ships brought down since the start of intensive raids in apparent preparation for a blitzkrieg.

STOCKHOLM, Sweden, July 6 (U.P.)—German sources predicted today a blitzkrieg would be loosed on Great Britain within 10 days and it would begin with six days of incessant air bombings, with 3,000 planes a day engaged.

They said the German planes would include new and hitherto unused models equipped with "surprising, death-dealing instruments."

BERLIN, July 6 (U.P.)—The German wireless, quoting a Vichy dispatch, said today two British cruisers had intercepted the French destroyer Frondeur, 1,762 tons, off Crete and sank her after a two-hour battle.

The wireless claimed the engagement occurred several days ago while the French destroyer was attempting to reach a French port.

Tunney Sees Revolution in Next 5 Years

LAKE GENEVA, Wis., July 6 (U.P.)—Ex-heavyweight Champion Gene Tunney pushed the organization of a rival to the American Youth Congress today, claiming the United States faced "a bloody revolution" within five years.

He addressed a meeting of the "pro-American" rump of the congress last night, while the congress, in its annual convention, was approving a resolution condemning the rearmament program and President Roosevelt's foreign policy.

See Revolution. "We can look for a bloody revolution in this country inside five years generated by a fifth column, and we have nothing with which to back up a bluff," he said. He said Mr. Roosevelt's administration had been lax in defense matters, that "there have been too damn many dilettantes in our government for the last eight years."

He told his segment of the youth congress that he favored military conscription for youth, that he believed in "Theodore Roosevelt's policy of speaking softly and carrying a big stick; not in the President's policy of speaking loudly and carrying a feather duster."

Meets Rump Delegates The congress made two efforts to invite Tunney to address its convention, while pointing out that he was not a youth. (Tunney is 42.) That he represented no youth organization, and that he had not been interested in youth activity until very recently.

Expert Sees No Chance For Capturing Gibraltar

By J. W. T. MASON United Press War Expert Air attacks now being directed against Gibraltar could cause some damage to British warships at anchor in the harbor if the bombing were sufficiently intensive, but the rock fortress itself is in no peril from the air. During recent aviation raids, British destroyers stationed at Gibraltar put out to sea where space and movement give them greater immunity. Their policy is to return to the rock when raiding ceases.

The inability to harm Gibraltar from the air and the small chance of damaging shipping anchored close to the sheltering cliff would not warrant a major air attack. Nor could enemy aviators impose serious difficulties on troops and civilians. Ships, residences, and military barracks are along narrow thoroughfares at the base of the rock, which towers 1,400 feet high. Accuracy from the air has not reached the point where deliberate hits could be scored by bombs aimed at such confined targets.

The narrowness of the Gibraltar terrain, however, though providing protection from the air, seriously interferes with the port's utility as an offensive air base. There is lack of adequate landing space for airplanes and large concentration of planes at Gibraltar would require the use of airplane carriers.

The Gibraltar dockyard would be under the constant fire if Spain became a belligerent making Gibraltar vulnerable as a British fleet repair station. But an artillery bombardment would not affect the rock itself, within whose sides are innumerable chambers for big guns. To capture Gibraltar an invading force would have to cross a low, sandy isthmus half a mile wide and one and one-half miles long, leading from Spain to the rock. The devastating fire that could be brought to bear on this exposed position would make any attack hazardous in the extreme.

As long as Gibraltar is in British possession no shipping can enter or leave the Mediterranean from or to the Atlantic ocean without Britain's consent. Great Britain's blockade of the European continent is greatly facilitated by this fact, which will have an important bearing on the outcome of the war if Hitler's threatened invasion of the British Isles fails.

U. S. SHIPS GO TO MARTINIQUE ISLE

WASHINGTON, July 6 (U.P.)—The United States was believed today to have dispatched a number of neutrality patrol warships to the general vicinity of French Martinique in the Caribbean to investigate reports that a French naval detachment there is awaiting a British ultimatum.

The American vessels—five destroyers—were said to have been dispatched from the Virgin Islands to observe the Martinique situation at first-hand. Reports from St. Thomas, Virgin Islands, said the ships left yesterday for an unknown destination. St. Thomas is about a day's run from Martinique.

While most officials declined to comment on the movement of the destroyers, one authoritative source said they "are not bound for the Panama canal." He added, however, if the ships actually reach the Martinique area they will act strictly as observers. One of their functions would be to warn American shipping in the vicinity if hostilities developed between the French and British.

Among the French ships at Martinique are a number of submarines, small craft and possibly the 22,140-ton aircraft carrier Bearn. British authorities in London have denied British cruisers are blockading the island, but declined further comment.

Kai-Shek Calls for U. S., Soviet Help

CHUNGKING, July 6 (U.P.)—Generalissimo Chiang Kai-Shek in a message addressed to "friendly powers" on the eve of the third anniversary of the Sino-Japanese war, said today that it was the "bounden duty" of the United States and the Soviet Union to give all possible aid to China and stop arming Japan.

After saying that the United States and the Soviet Union were not involved in the European war and therefore could give material aid to China, Chiang declared that those powers would help China "there could be little doubt about the stabilization of Pacific affairs, which would not benefit China alone."

# HITLER GETS CONQUEROR'S WELCOME ON RETURN TO BERLIN

## THOUSANDS JAM RAILWAY STATION FOR CELEBRATION

**By FREDERICK C. OCHSNER**  
BERLIN, July 6 (U.P.)—Adolf Hitler returned to a conqueror's welcome in Berlin today after eight weeks in the field at the head of German armies which overran the Netherlands, Luxembourg, Belgium and France and now are preparing for a blitzkrieg against England.

His arrival at the Anhalter railway station, decked with flowers, was the signal for the start of a tumultuous, organized demonstration by masses thronging the streets and squares from the depot to the reich's chancellery.

As the fuhrer returned Italian Foreign Minister Count Galeazzo Ciano was coming here by train from his Italian air force command in northern Italy to confer with the fuhrer. Ciano was expected to see Hitler tomorrow in what were regarded as important talks.

**Triumphant Ride**  
Hitler and his entourage entered automobiles for the triumphant ride to the chancellery.

Thronged, ordered by their party district chiefs to report, mingled with soldiers for the welcome. A call to greet the fuhrer on an unprecedented scale had been issued through morning newspapers.

Bands played along the line of march and flowers and flags made the streets gay with color.

High Nazi officials and Nazi party leaders greeted Hitler at the station and news that he had come back to Berlin set church bells ringing throughout the capital.

**"Seething Mass"**  
German radio announcers described the scene to the nation and called the crowds around the chancellery a "seething mass."

As Hitler stepped from his train a hand struck up the Badenweller march and the crowds broke into a roar.

The fuhrer was accompanied by Field Marshal Hermann Wilhelm Goerring, No. 2 Nazi. They were greeted by Propaganda Minister Paul Goebbels in his capacity as Nazi gauleiter of Berlin.

The boulevard leading to the chancellery was a carpet of flowers. Thronging lining it waved flags and at times the cheering drowned out the music of the bands.

When Hitler arrived at the chancellery the din was so great that within a few minutes he was forced to step to a balcony to respond to the cries of, "We want to see our fuhrer!"

**Inspects Guard**  
After greeting the crowd, Hitler beckoned to Goering, Col. Gen. Walter von Braunscheit and Gen. Wilhelm Keitel to join him.

children. Mrs. Francis claimed she had left the two children in the truck for only 15 minutes.

Testimony before the magistrate showed that the sheet steel canopy enclosing the entire truck body had no windows and no ventilation of any kind. An old carpet and pillow on the steel bed of the vehicle were all the children had to rest on.

Officers told Judge Bailey that metal sides of the truck were so hot from the sun's rays that contact with them might have inflicted second degree burns on the youngsters.

**Hot Treatment?**  
"I don't believe you'd bring a bunch of hogs in and leave them like that," Judge Bailey told the father.

"I'm positive I wouldn't," Francis replied. "I thought my wife was taking care of the children."

Complaint against the couple was signed by Virgil K. Barron and Virgil R. Borden, the officers who discovered the sweating children.

Francis, an "owner" of a now-defunct "Shantytown," was held overnight in county jail for lack of \$500 bond. Mrs. Francis was held at liberty under her own recognizance to appear at this morning's hearing.

The couple has five other children, sheriff's officers said.

**Cricket Invasion Fails in Idaho**

BOISE, July 6 (U.P.)—For the first time in half a dozen years, the annual invasion of Mormon crickets into Idaho's farmlands has been halted, a report sent to Gov. C. A. Bottolfsen by field supervisor Keith Evans revealed today.

Evans said success in controlling the pests which have taken thousands of dollars worth of Idaho's crops since 1935 was due mainly to weather conditions which were unfavorable for crickets and grasshoppers.

Another factor in stamping out invasions in 13 of the 44 counties was an early offensive waged against them in the early spring by county and state agents.

"Crop losses," Evans' report said, "have been lessened considerably this year as compared to 1936, 1938 and 1939."

Counties in which the fight has been most extensively waged follow: Ada, Adams, Bannock, Blaine, Clark, Fremont, Elmore, Jefferson, Madison, Owyhee, Payette, Twin Falls and Washington.

"Workers who assisted in the tremendous job did remarkable work," Robertson said, "and as chairman I want to extend sincere thanks. The jubilee couldn't possibly have been staged in the manner it was without this wholehearted cooperation."

The chairman added that the cooperative spirit was not confined to the Jaycees, the sponsoring unit. "Many others assisted us materially, and to these and the Jaycees should go much of the credit."

Final check-up as to what sum the jubilee will turn over to the Jaycees fund for development of the civic recreational park project will await payment of outstanding claims, Mr. Robertson said. Directors will probably call a general meeting for next Tuesday evening, although complete returns on the jubilee will not be available by that date.

## GOP MEET WILL HEAR CANDIDATES

Republican primary candidates from the governor down to the least of county office aspirants will be given an opportunity to lay their views before G.O.P. voters at 8 p. m. Thursday, July 11, at a countywide Republican rally.

The Young Republican club of Twin Falls county will act as sponsor for the G.O.P. convale, which will be held at the Filer fairgrounds, it was announced today by E. M. Rayborn, Filer attorney who is state committee man and also district leader of the Young Republican club.

**FINIS**

The mardi gras parade occurred in Twin Falls last night.

## ARMY HEAD BANS U. S. 93 REQUEST

Corroborating Sen. D. Worth Clark's reluctant but apparently final report that U. S. 93 will not receive military designation as a defense road, Sen. John Thomas, Idaho's junior senator, advised the Chamber of Commerce today that the war department sees no chance for favorable action.

Senator Thomas sent the chamber his copy of a letter submitted to him by Gen. G. C. Marshall, chief of staff, United States army. The letter was virtually identical in wording to that forwarded by Senator Clark from Louis Johnson, assistant secretary of war.

Both war department officials pointed out that the value of U. S. 93 is chief commercial; that U. S. 93 in the Nampa territory has been designated as a defense route; that in any event, the war department has no road funds and its designation of defense highways is simply to guide the public works department.

### Outdoor Wedding Principals

Standing beneath a wide-spreading walnut tree on the lawn at the country home of the bride's grandparents, Mr. and Mrs. C. H. Eldred, Miss Elaine Eldred, Fullerton, Calif., and Robert Baker, Santa Monica, Calif., exchanged marriage vows in the presence of relatives and friends last evening. Photographed in the garden just after the ceremony are the bridal pair, who will be at home at 512 North Pomona, Fullerton, following a brief wedding trip.

### Baker-Eldred Nuptial Performed in Garden

On the arm of her father, A. R. Eldred, Miss Elaine Eldred, Fullerton, Calif., marched down a flower-bordered lane to stand beneath the shade of an historic, wide-spreading walnut tree, when she and Robert Baker, Santa Monica, Calif., exchanged marriage vows at 7 o'clock last evening at the country home of her grandparents, Mr. and Mrs. C. H. Eldred. The ceremony on the spacious lawn was solemnized by Rev. E. L. White. Choice flowers from the gardens of Byrd Walter and William Lambing, in wicker baskets arranged in a semi-circular arc beneath the tree, made a colorful background for the rites.

Tokens of sentiment worn by the bride were her mother's class ring; an antique pin belonging to the great-grandmother of the bridegroom, and a necklace, wedding gift of the bridegroom. She was frocked in a white and green flowered print crepe dress with a chiffon redingote to match, and carried a bouquet of pink roses.

Miss Norma Larick, Filer, maid of honor, wore a light rhapsody crepe dress and a floral corsage. Thomas Shouse, Filer, was best man. Nuptial music was furnished by Mrs. Nellie Ostrom and Wilton Peck.

Mrs. Helen Eldred, Fullerton mother of the bride, wore a dubonnet crepe ensemble and Mrs. M. B. Baker, Filer, mother of the bridegroom, wore a light blue sheer frock. Corsages completed the ensembles.

Refreshments were served from a flower-decked table during the wedding reception following the ceremony.

Dodgers Edge Boston Bees In 20-Inning 6-2 Thriller

NEW YORK, July 6 (U.P.)—If there's a psychology professor in the house with some spare time on his hands, he might take up the case of the Brooklyn Dodgers and the Boston Bees and their extra-inning ball games.

The longest major league game in history was played between them, the longest game last season was their doing, and the longest game of the 1940 season was also their handiwork.

The Dodgers used five pitchers in their winning streak to six straight while the Bees called on four.

Joe Sullivan, who came to the Boston mound in the 10th and pitched until the 20th when he lost his control was the losing pitcher.

Dick Coffman finished up for the Bees. Sullivan walked Dolf Camilli with the bases loaded to force in the run that broke the tie.

The Cincinnati Reds kept pace with the Dodgers by pulling a 3-run rally in the ninth to upset the Pittsburgh Pirates, 5-4.

Home runs by Galan, Nicholson and Rip Russell featured the Chicago Cubs 11-5 victory over the St. Louis Cardinals.

Giants Unlose Barrage The New York Giants snapped their 4-game losing streak with a 15 to 2 triumph over the Phillies.

With Jimmy Fox hitting home No. 20 and Ted Williams clouting No. 11, the Boston Red Sox walloped Washington, 9-4.

The Chicago White Sox beat the Browns, 10-8, hanging up their fourth straight victory.

Home runs by Frankie Hayes and Bob Johnson gave the Philadelphia Athletics a 5-3 victory over the New York Yankees last night.

Punchers Lose At Boise by Score of 9-2

The Cowboys and the Pilots, after completing a four-game series at Boise, resume hostilities at Jaycee park tonight in regulation Pioneer league play that will see the Twin Falls club start its first full series here under its new manager, Ray Jacobs.

Last night the Punchers dropped their fourth try in five starts to the high-stepping Pilots by a count of 9-2 at Airway park in Boise as Manager Andy Harrington's boys clouted three home runs off the offerings of Rube Sandstrom.

In tonight's encounter Con Rasmussen, who held the Twin Falls club to five hits and scored a 10-0 shutout here in his last try, will be on the mound for the visitors, while Manager Jacobs probably will start Sam Baker, late of the University of Washington.

The new lineup which finds John Arnerich on the bench, Verne Reynolds at short and Ernie Edmond on the outfield, probably will be retained for tonight's battle.

Last night Jack Mentz chalked up his eighth victory of the campaign with very little difficulty. The Pilots gave him an early lead and he coasted in to victory. Mentz didn't allow any Cowboy batter over one hit during the evening and the total collected was only eight, with everybody in the regular lineup except Dick Wake getting one.

Meanwhile, the Pilots were playing errorless baseball, with their new shortstop, Gordy Williamson, in the lineup. Williamson will be remembered as a member of the Lewiston Indians last year and was rated the best shortstop in the loop, standing out in the all-star game at Salt Lake. He has been acting as baseball coach at the University of Idaho this year, while attending school.

Hitting homers for Boise were Eddie Adams, Walt Lowe and Joe Egnatic.

An estimated 1,500 witnessed the contest.

BOISE, July 6 (Special)—The Boise club of the Pioneer league has signed Ernie Edmond, Portland, Ore., infielder, who played with Lewiston last year. Williamson played his first game for Boise last night against Twin Falls.

Joe Louis to Make 2 Defenses in '41

NEW YORK, July 6 (U.P.)—Joe Louis will make only two defenses of his heavyweight title in 1941, both outdoors, Co-Managers John Roxborough and Julian Black said today.

He will only make two defenses each year as long as he holds the title because the co-managers believe that too many Louis defenses have tended to cheapen the title and lessen the big-fight gates.

## RUSSIA TO TAKE RUMANIAN JEWS

BUCHAREST, Rumania, July 6 (AP)—Russia has agreed to accept 11,000 Rumanians, most of them Jews, who were unable to cross the new frontier from Rumania into Russian-occupied Bessarabia within the time allotted, it was disclosed today.

The deadline for evacuation was yesterday. When Russia completed the occupation of Bessarabia and northern Bukovina province which it seized from Rumania, the 11,000, preferring Russian to Rumanian domination, were stranded temporarily but it was learned the Russians had permitted 2,000 of them to cross the Danube from Galatz yesterday evening and would accept the other 9,000 today.

Of the 36 British citizens living in the Rumanian oil fields, who had been given until last midnight to get out of the country, 27 got away on time but the others were unable to get their affairs straightened out by the deadline. It was understood, at intercession of the United States legation, the nine were given more time. They were forced out of the oil fields, but permitted to stay temporarily in Bucharest.

## TWO-DAY RUPERT EVENT LURES CROWD OF 7,500

RUPERT, July 6 (Special)—According to conservative estimates more than 7,500 people participated in Rupert's two-day Fourth of July celebration. From early morning till the wee small hours of the next day the streets and parks and places of amusement were thronged with enthusiastic celebrators both days.

Perhaps the happiest person in all Wednesday's crowd was little Miss Eleanor Goodman, nine-year-old daughter of Mr. and Mrs. Rodney Goodman. It was her lot to be the winner of the handsome Shetland pony. The little miss proudly rode her new mount in Thursday's colorful parade.

The two rodeo performances drew enormous crowds. Wednesday's program started at 10 a. m. with a concert in Central park by the 40-piece Union Pacific band of Ogden with its eight attractive drum major-ettes.

This was followed by the rodeo at the athletic park at 2 p. m. At 7:30 p. m. a special musical program, under the general direction of George Catmull, head of the music department of the Rupert high school, was given in Central park.

This concluded with a patriotic address on "Idaho's Fifty Years" by Attorney C. W. Thomas, Burley. At 9:15 p. m. Wednesday a boxing card was staged at the civic auditorium. Thursday's program began at 9:30 a. m. with a concert by the Union Pacific band in Central park. This was followed by races and street sports and novelty events for celebrants of all ages. # SOLONS REBUKE NAZIS FOR MONROE DOCTRINE STAND

## SOUTH AMERICA TERMED AIM OF GERMAN BOSSES

By HOBART C. MONTEE

WASHINGTON, July 6 (U.P.)—Chairman Key Pittman of the senate foreign relations committee said today that Germany's rejection of this country's warning that it would not tolerate the transfer of western hemisphere territory from one European country to another, established a foundation for future violations of the Monroe doctrine.

Pittman and other congressional leaders, including Chairman Sol Bloom of the house foreign affairs committee, took sharp issue with what they termed a German insinuation that the United States had violated the doctrine by interfering in European matters.

Sen. William H. King, D. Utah, charged Germany already is seeking "to influence or control" South American governments.

### Double-Barreled Rebuke

A double-barreled rebuke directed at Germany by Secretary of State Cordell Hull appeared to have imposed on U. S.-German relations an even greater burden. Many observers believed any further strain might well result in their severance.

Hull's rebuke was contained in his sharply worded rejection of Germany's contention that enforcement of the Monroe doctrine is "untenable," and in a state department announcement that foreign diplomats in the United States must not be engaged in "public discussions of questions relating to this country's policies and attitudes."

He told Germany the United States would uphold the Monroe doctrine—come what may—and that it intends to continue cooperating with European nations in all but "purely political" matters where cooperation serves the cause of international law and order.

Germany's reply to the United States warning said, in effect, that the United States had warned the wrong country since Germany, "in contrast with other countries, especially in contrast with England and France, has no territorial possessions in the American continent."

### Foundation for Future

Pittman commented: "It would seem evident from the statement of the German minister in this particular that the German government has laid a foundation upon which it may subsequently take issue with the United States government with regard to the Monroe doctrine."

"Again, the note insinuates that the United States, contrary to the Monroe doctrine, as it alleges, has violated the Monroe doctrine itself through interference in the affairs of the European continent. This statement may have been made as a justification for a future violation of the Monroe doctrine."

"Of course, there is no foundation for such intimation. The United States government has in no way interfered in continental European affairs and has not committed any act in contravention of international law or in violation of its own neutrality laws."

## Fun and Frolic at Mardi Gras Hi-Jinks

The best-dressed mule in town was part of the unrestrained fun at last night's mardi gras, final parade of the Magic City Jubilee. And here's the mule, not quite sharing in the laughs by the spectators. He (or perhaps she) pulled a comic junk wagon.

And here are two of the comely characters who entertained the mardi gras. Above, in the underwear of pre-streamlined days, the "high diving" Skip Towan brought down the house. Below, John DeWeller has himself a unique bath, splashing water on all spectators within 30 feet.

registered at the camp) throughout the day by Mrs. Jessie D. Gordon. Personnel is planning to take care of 55 girls and 35 boys. Approximately 50 of the 90 children will be from Twin Falls county.

Miss Irene Scott, Hansen, older boys' play supervisor, will return.

Other members of camp personnel will be Edith Prestidge, Aberdeen, younger boys' play director; Miss Wandalee Dospain, Rupert, older girls' monitor; Mrs. Martha Litson, Paul, older girls' play supervisor; Miss Beth Winslow, Shoshone, Junior girls' supervisor; Mrs. Esther Under-

koffer, Boise, younger girls' monitor; and Miss Joan Jensen, Duluth, younger girls' play supervisor.

### Nazi Planes Bomb British Objectives

BERLIN, July 6 (U.P.)—German planes yesterday successfully bombed air fields and ports in southern and central England and set fire to oil tanks at Plymouth, the German high command said today.

Adolf Hitler's field headquarters said German planes bombed and sank a British submarine in the North sea and seriously damaged another.

Continued British air raids on Germany, it was said, resulted in the death of a number of civilians.

## 300-Year-Old Displays Lead Museum Items

Twin Falls' pioneer museum, one of the numerous features of the Magic City Jubilee which ends tonight with a baseball game between the Boise Pilots and the Twin Falls Cowboys at Jaycee park starting at 9 p. m., was closed today but many a visitor had seen things he never saw before.

The museum, under the direction of Mrs. C. L. Luke, was open throughout the celebration in the building which will soon become a part of the Newberry store in the downtown section of the city. Admission was free and exhibits were donated by various local citizens.

### 300 Years Old

Some of the exhibits were of the "rare pioneer" variety, their origin dating back at least 300 years, or about 20 years after the Pilgrim fathers got to this country.

Oldest thing on exhibit was a snuff box which was made in 1640. It is owned by H. C. Ericson.

From that point on the exhibits were unique and varied.

Among the displays were found a sword and kettle belonging to W. W. Thomas. The kettle is over 200 years old and the sword was carried by an ancestor of Thomas' in the Revolutionary war.

Displayed by Jane Johnston was a mourning dress which was owned by Mrs. Margaret Cutler who brought it into Utah in 1858 from Scotland. When the dress owner was in mourning for a friend or relative the dress was her appropriate garb.

### Hair Wreaths

One unique feature of the display was hair wreaths, made of human hair. It was the practice in the early days to take strands of hair from each member of the family and weave it all into a wreath. Such wreaths, under glass, were displayed by Mrs. M. Anderson, Mrs. Nettie Montgomery and William Edward Johnston.

Dr. Floyd Ham displayed an account book which was dated 1818. In addition to the accounts, it also had "news" reports of happenings of those times, done in ink, and also various recipes, one of which tells how blood can be cleared.

### Mrs. Parker Richards

Mrs. Parker Richards displayed a mechanic's book, published in 1846, and also a child's book of nature, published in 1868.

J. E. Cress had on display a small spinning wheel which was formerly the property of his great-grandmother. The date, 1846, was carved in the side.

### First Train Reminder

Several displays were donated by Mrs. O. L. Anderson. One was a coat, banner, worn at the celebration of the arrival of the first train in Twin Falls. Also among the collection was a hand made pressing iron.

Mrs. C. L. Luke displayed a shawl which is over 60 years old and which was worn by her grandmother, Emma West Smith. An infant's dress was displayed by Mrs. L. G. Kirkman and a dress for a three-year-old girl by Mrs. Iris P. Orchard. The latter was made by Mrs. Mary S. Peck, grandmother of Mrs. Orchard, and is 53 years old.

Also among the displays was a black silk cape belonging to Nettie B. Montgomery. It is over 60 years old.

Knitting needles, used by Mrs. Armina Cramer for over a period of 60 years, were also on display. They are now the property of a daughter, Mrs. N. Anderson.

Hundreds of persons, a visitation book shows, visited the exhibit during the three days it was open. Members of the Daughters of Utah Pioneers were instrumental in making the exhibit a success.

## CLUB MEN HEAR PIONEERS SPEAK

High points in the early-day settlement of the Twin Falls tract were recounted by several of the 52 pioneers, residents of Twin Falls 30 or more years, who were guests of the Junior Chamber of Commerce and Lions club yesterday noon at the Park hotel.

Henry Wendling gave the address of welcome, introducing John E. Hayes, project engineer on the Twin Falls tract when it was started. Mr. Hayes told graphically of the beginning of irrigation in this country.

Mrs. H. C. Miner told entertainingly of her experiences as first postmistress of Twin Falls; Mrs. H. J. Wall described the "fun and fury" of an early-day dust storm, and Mrs. Hayes was especially requested to tell of the first Christmas observance in Twin Falls.

H. C. Ericson reminisced on the first restaurants and stores of this community.

Principal speaker of the day was J. H. Blandford, local attorney, who told of the significance of the Fourth of July. He gave the independence day address Thursday at the city park.

## Thorpe Declares For State Office

JEROME, July 6 (Special)—S. L. "Vern" Thorpe, Jerome businessman, has announced that he plans to file for state senator on the Republican ticket.

He has been in business here for 17 years; is a member of the city council; is clerk of the Jerome highway district and served on the bridge commission, giving his aid to effective purchasing of the Twin Falls-Jerome inter-county bridge span.

Mr. Thorpe is also an ex-service man and is former commander of the American Legion post.

William H. Seward was the chief contender for Republican nomination in 1860 against Abraham Lincoln.

## Virginia Ikard Wins Jerome Contest and Trip to Resort

JEROME, July 6 (Special)—Miss Virginia Ikard, daughter of Dr. W. L. Ikard, prominent Jerome veterinarian and sportsman, was acclaimed winner of the Miss Jerome beauty contest here during the Fourth of July celebration staged on the north and south parks. Miss Ikard, chosen by judges whose names were unknown to spectators, will enjoy a three-day, expense-free excursion trip to Idaho's famed resort, Sun Valley, it was announced.

Chosen from among 11 other young women, Miss Ikard was crowned during the evening's festivities here by Mayor L. M. Zug.

An estimated crowd of more than 2,000 Idaho residents converged here all during the day's celebration which concluded after 10 p. m. with a rollicking jitterbug contest and an elaborate fireworks display at the city park.

Winners of the jitterbugging feature were two couples from Twin Falls and Mr. and Mrs. Wallace White of Jerome, who were awarded second prize of \$10. Twin Falls couple winning first was Ralph Taylor and Bonnie Busbie, \$15. Homer Dunn and Vivian Nelson, won third, \$5. Contestants also included Rupert Hachlya, with Wanda Marie Wilde, Twin Falls; Irene Sinclair, Jerome, daughter of Commissioner of Public Works E. W. Sinclair, and Nell Hulst, also of Jerome.

### Parade 'Opens'

Opening the day's festivities was the parade which was led with Leighton Ives, Jerome, and Mrs. Arlie Burns on horseback, both attired in cowboy regalia. The couple was followed by children with pet entries and character interpretations. American Legion members of Jerome post No. 46, were followed by the Jerome high school band members in white and red uniforms, led by their twirlers, Miss Molly McMahon and Miss Jean Beveridge, and drum majorette, Irene Callen.

National guardsmen of Jerome, headed by Capt. Ward C. Howard and Lieut. George B. Bennet, were followed by the recently acquired automotive equipment of the national guard.

Hazelton girls' softball team attired in maroon and white uniforms preceded the bathing beauty contestants who graced the fenders of automobiles of Jerome citizens followed by the Jerome girls' team.

Outstanding among the floats were the Showers Ice and Cold storage and dancing pupils of Miss Alta Deck. Miss Deck presented her pupils in a dance revue during the evening at the high school auditorium where a packed house witnessed the performance. The cold storage plant depicted ice cream cones and small girls stood atop the exhibit representing various kinds of ice cream sold by that company.

Little Misses Wanda Marie and Wilma Jean Cole, daughters of Mr. and Mrs. Marvin Cole, proceeded on their plumed Shetland ponies which they will present here during the

grandstand attractions of the Jerome county fair this fall.

In the children's float section, Joe Cutler, 11, son of Mr. and Mrs. Mark Cutler, of the Jerome hotel, won first prize of \$15.

Second prize of \$10 went to Vesta Davison, 10, daughter of Vesta Davison, who was attired in a nurse's uniform.

In the charades section for the children's groups the first prize of \$10 went to Aol Smith, for his goats which he had dressed as new-weds. The second prize of \$5 went to Kenneth Humphries for his portrayal of Tom Sawyer and Huckleberry Finn. His partner was unluckily. Third prize of \$2.50 went to Johanna Reasch who was attired in a nurse's uniform.

Goats Get Prize  
In the pet parade section Harold Smith was awarded first prize of \$10 for his collection of costumed goats. Second prize award went to Laurene Aslett for her collection of small dogs in costume. Prize was \$5. Misses Wilma Jean and Wanda Marie Cole, daughters of Mr. and Mrs. Marvin Cole, received third prize for their trained ponies. Prize was \$2.50.

Attracting throngs of spectators to the north park during the afternoon were the contests arranged especially for children ranging from ages of six to 18 years. In each instance worthwhile awards were given. Especially attractive to the children was the greatest pole contest. Award to the winner who could climb to the top of the pole was \$15 in cash. Unable to cope with the situation alone, finally three boys with each other's assistance, climbed to the top and took the prize. They were Van Daniels, Tommy Walgamott and Aaron Daniels.

Attractions were also planned for parents of the children later during the afternoon's entertainment. Especially entertaining were the wife and husband calling contests and the hog calling contests.

Prize winners for the hog calling: first, Earl Erwin; second, Ernest Hoghurst; and third, Ernest Erwin.

Wife calling contest, Marvin Cole, first, \$5; Myron Oliver, \$3, and Hank Jones, \$2. Husband calling contest, Mrs. Jay Hoskins, of the Pleasant Plains district, \$5, for first; \$3 for second; Viola Morgan and Mrs. Phil Hochhalter of Hazelton for second.

Exciting Water Fight  
No feature of all the day's entertainment was more exciting than the water fight between the Wendell and the Jerome fire departments. Those taking part were Fire Chief Morris Jamison, Bliss Jepperson, Bus Parr and Dutch Bell, all from Wendell. Those from Jerome were Ronald Burke, G. Peterson, John Hosman and Lew Pratt.

Jerome firemen emerged victorious. The prize was \$15.

Principal speaker of the day was Dr. Charles F. Zeller, prominent pioneer physician of southern Idaho. Dr. Zeller warned of the dangers

## WILLKIE PLANS COLORADO REST

NEW YORK, July 6 (U.P.)—Wendell L. Willkie, Republican presidential candidate, announced today he would spend his pre-campaign vacation in Colorado.

Willkie continued today to confer with representatives of the Republican national committee, and will fly to Washington Monday to meet Sen. Charles L. McNary, R. Ore., his running mate, and Republican member of congress. From Washington he will fly to Colorado for a two or three week vacation at a spot still unrevealed.

The Colorado vacation was decided upon last night after telephone discussion with Gov. Ralph Carr, of that state, who was one of Willkie's Republican national convention floor managers.

Willkie said no announcements regarding campaign managers or other matters of campaign organization will be made until he has conferred with congressional Republicans in Washington.

Confronting America today because of the war crisis. He emphasized need for enforced military training among youth in order that the U. S. may be prepared to protect and preserve itself.

Dr. Zeller pointed out that the problem has become increasingly more menacing and urged that American units to protect the people from the onslaughts of European nations who have been constantly at war with one another be formed.

During the afternoon's program winners of the handsome cedar chest filled with linens; the silk cover and the tufted bed spread were announced by the band mothers organization. The cedar chest went to Fife Bingham; the silk cover to Joe White, son of Mr. and Mrs. Walter White, and the tufted bed spread to A. L. Fyfe. In order to raise needed funds the cedar chest was purchased and its contents acquired through the hand mothers.

Receipts will go to aid in purchase of band uniforms for the band members.

No casualties either from traffic or firecrackers were reported to mar the celebration. Approximately \$1,000 was spent by the sponsoring organization, the Chamber of Commerce for the celebration.

General chairman in charge of the festivities were Tadd Nelson, general chairman; Berynn Burke, Charles DeAtley, Roy Potter and Oscar Thoreson.

## Comic Parade Tickle Huge Night Throng

There are probably a lot of tired—but contented—people in Twin Falls today, especially among those who participated in the mardi gras parade which kept the community awake late last night.

Most of the local residents and hundreds from other communities were in the downtown section watching the fun. Those who didn't go down were wishing they had, because sleep was impossible.

### Invade Spectator Ranks

Firecrackers found competition from two bands and other noisemakers as the parade, which formed at the city park after the cavalcade, moved through the downtown section. After reaching the downtown area the event turned out to be an "every man for himself" affair as participants "invaded" the sidewalks and carried on the carnival antics among the thousands of spectators numbered among what observers said was the biggest crowd to witness a downtown event at night in Twin Falls.

The parade got away from the city park shortly after 10:30 p. m. and was headed by Patrolman Virg Barron, seated atop a float. He won the coveted position as parade marshal by winning the most artistic design award in the afternoon band contest. It was the fourth feature parade of the jubilee.

Bathubs to Bands  
As for makeup of the mardi gras march, it included everything from a bathtub male to an underwear-clad high diver (sex, male; dive, approximately two feet). The Union Pacific band and two comedy musical units provided melodies. The "floats" included the whisker winner and near-winners, a junk wagon pulled by a costumed mule, and various comic characterizations of which the throngs roared.

Among the latter entrants was a three-man skit representing Pot Shots of the Idaho Evening Times. One, an employer of the annual summer health camp at McClusky Memorial grounds for children between the ages of six and 13. Ninety children between those ages will be
