WON'T SIT BACK, TAYLOR PLEDGES

Declaring that he would not play the usual role of the "silent watcher" in the U. S. senate during his first year if he were elected a member of that body, but rather would be "heard from in Washington as soon as I learned the rules," Glen H. He added that the average family income at the present time is \$1,600 and said that if we "take away that received by the big boys, the average would amount to only about \$700."

Speaking on the same program was Q. W. Witham, local attorney and candidate for state senator. Witham declared that in the past it is shown that progress came as a

While Stalin Smiles

Europe at death grips now whirls dizzily down to the very edge of the vortex of destruction. Can anybody win a war of the kind that is now convulsing Britain and Germany? What sort of prize awaits the victor?

The prize will be a Europe robbed of its best youth in France, Poland, Italy, Germany and Britain. It will be a starving continent whose crops have been destroyed or fed into the maw of the insatiable military machine.

Hitler chooses to jest lightly before delivering his "all-out" stroke. Churchill grimly prepares his people for worse to come. Petain wanders among the fragments of shattered France, picking up a piece here and there in mournful abandon.

Paris is concerned by its 300,000 unemployed—more than all France had in pre-war times. They are restless, they are hopeless, they are meat for the Communist agitators who industriously work among them to cash in on defeat, frustration, despair.

Danish agriculture is ruined, Norway broods sullenly, Poland groans under oppression. Italy, even as victor, may well be ruining itself.

Who can smile at the wretched cauldron in which Europe is now stewing? Only one man: Stalin.

Russia Drops the Curtain From Britain and Germany, America learns most of the time only what the governments of those countries will permit the outside world to learn.

Not so well known is the fact that censorship has dropped an equally tight curtain across the whole of Russia, from the Baltic to the Pacific.

Americans, striving to understand their relationships with the rest of the world, are handicapped by the fact that basic facts on which those relationships must be based are nearly all censored at the source.

ANYBODY BEAR THE DRAFT THIS MUCH?

Dear Friend Pats: I saw in Monday night's Evening Times that married men won't be drawn in the first draft.

I am 33 years old. I am average-looking, not pretty but not repulsive, either. My worst feature is my neck. It's too long. But I can wear high-necked blouses to hide it.

My tastes are pretty expensive. I can earn my own living. This won't help the prospective matrimonial applicants, however, as I think the army will decree later on that working wife is not a dependent.

I am frequently sarcastic. I am a good soldier with a sense. I won't stand for any nonsense. And that's the score, Friend Pats. If any of your male readers, aged about 30 to 35 inclusive, want to escape the draft, they can write to me in care of your column.

There Wasn't Any Electric Organ in Twin Falls So Orchestra Director Makes One in Spare Time

By O. A. KELLER

Up until 1938 Will Wright, local orchestra leader, had access to an electric organ and thoroughly enjoyed playing the instrument.

Then the electric organ he had been playing was taken away from Twin Falls. Not to be held back, Wright decided to do something about the situation so he started construction of an electric organ of his own. That was a little over a year ago. Today the organ is completed and he has presented several concerts with it.

Year and \$250 without such an instrument. I decided to build one in my spare time and as a hobby," he said. "It took me a little over a year and about \$250 but it was well worth it."

Records show that electric organs purchased on the market start at \$1,000 and then go up from there. Wright explained that the organ he built is different in its completed stage from other types of organs in that it is possible to couple four octaves of tones to any single key on the solo manual. A slightly complicated and original uniting system causes any one of all of five sets of reeds to "speak" in the reed chamber.

By using a combination of reeds in this manner, all of the heavy overtones are produced as fundamental tones and not as harmonics, thus getting the actual tone of the true pipe organ.

Used Old Organ Parts In starting the construction, Wright purchased two old reed organs and used the good reeds, keyboards and all valves from these machines in his electric organ. All other needed material was fashioned by the builder.

As to the organ itself, the reed vibrations are picked up microphonically inside the organ reed chamber and amplified by a high fidelity audio amplifier and reproduced in the loud speaker. The tremolo effect is produced by a motor driven rotary blade which uniformly breaks the sound waves and makes them pulsating.

"Since I have completed this organ I've developed other ideas which I'm going to incorporate in it," Wright said. "However, I don't plan to patent it or to go into the organ building business. I will use it for concerts for my own personal enjoyment and as a hobby."

ICC PONDER'S OIL RATE COMPLAINT

GREAT FALLS, Mont., Sept. 19 (AP)—The interstate commerce commission held formal hearings here today on a complaint filed by the Idaho Refining company, Pocatello, against the Great Northern and Union Pacific railroads.

The refining company asked a reduction in freight rates on crude oil shipments from Cut Bank, Mont., to Pocatello. It was joined in the action by several Cut Bank oil producers, one of whom complained that the Montana field had lost about half its Idaho market to Wyoming fields because of higher freight rates between Cut Bank and Pocatello.

F. C. Weems, Washington, D. C., attorney and examiner for the ICC, heard the testimony. He will make a

PROGRESS SHOWN IN WCTU EFFORT

BUHL, Sept. 19 (Special)—Mrs. G. L. Thompson, Buhl, district president of the Woman's Christian Temperance union, presided at the annual district convention held Tuesday, Sept. 17, at the Christian church in Rupert.

According to the reports made by local presidents of the various orders a marked progress in the work of the W. C. T. U. has been made in the past six months especially in the educational program.

Mrs. Bea Britt, music director of the Christian church, furnished special music during the convention. Mrs. Bertha Nutting, Cassia county superintendent of schools who is also the W. C. T. U. state director of "speech contests" spoke on the value of the temperance educational program being carried out in the public schools. She gave a clear demonstration of the work being done in the schools with a display of posters and poster style books which she said had proved most effective in temperance education.

"Following up Our Petitions" was the subject of an inspirational talk by Rev. Stump. He urged that every organization carry out a program to get before the public the value of the two measures, the sobriety act and local option, before the November election.

Mrs. Thompson was reelected district president of the organization. Mrs. Clyde Musgrave, Filer, was named vice-president; Mrs. Guy Pruster, Twin Falls, corresponding secretary; Mrs. Leighow, Buhl, re-

cording secretary; Mrs. Emily Drake, Burley, treasurer. A special issue of the meeting was the following resolutions adopted for the year 1941. They are that each union carry on more alcohol educational work in the schools during the coming year; that we strive

to observe the noon day hour of prayer for temperance work and the peace of our nation; that we give of our time, talent, money, and prayers, to the two temperance issues that are to be placed on the ballots this fall in the general election, and through the efforts of our

Woman's Christian Temperance union we will help to make Idaho a more law abiding state; that all W. C. T. U. women wear their badge the white ribbon, at all times. There may be as many as 30,000 seeds in one pod of the poppy plant.

Germans Down 11 British Planes Over Continent

NAZI HEADS HINT USE OF HEAVIER TYPE OF BOMBS

By FREDERICK C. OCHSNER
BERLIN, Sept. 19 (Special) — Nazi informants said today 11 British planes had been shot down over Germany during the night, including nine by anti-aircraft guns and two by night pursuit planes.

(The statement would imply British planes had been raiding in remarkable force.)

It was asserted British planes destroyed three hospitals, an administration building of a home for handicapped children at Berlin, near Bielefeld. Nine children were reported killed and a number wounded.

(Bielefeld is a city of 80,000 in the Ruhr industrial area of western Germany.)

An official news agency dispatch said "certain districts" of Hamburg had been severely damaged by British night raiding planes Tuesday night and some houses had been wrecked.

Continue Raids

Nazis said the Germans continued raids on England today and bombed London, Birmingham, Liverpool, Newcastle and other major industrial towns.

It was asserted 35 British planes had been shot down yesterday against 10 German fighters.

Weather reports for today showed conditions were favorable for "effective operations," Nazi officials said.

In general, Nazis continued to minimize effect of British raids on Germany or on alleged German infiltration operations along the English channel in recent days. They said the raids Tuesday night were directed mainly against the great seaports of Hamburg and Bremen and the railroad junction of Hamn, one of the most important in western Germany but only civilian and non-military objectives suffered.

Change Tactics

At the same time it was said the German air force had changed its tactics in the attack on London and was operating in small formations of 10 to 15 planes.

The small formations relay over target areas continually, it was said, so London would get hit little, but in space between raids.

Nazis hinted German planes had started to use heavier bombs.

The official news agency asserted the British air force had lost 741 planes during the first two weeks of September.

DEMANDS UNCLE SAM EXPLAIN BIG EXPENDITURES

The Buhl Herald in one of its late issues demanded that "Every governmental official or board handling public money should publish at regular intervals of government by the people. It thinks the Herald.

It goes without saying that 90 per cent of the taxpayers would be intensely interested in such a program. We have adopted programs galore in the last 10 years, but here is one that has been sadly ignored. Perhaps not many would take time to read or study financial reports, and perhaps not many would be qualified to judge as to the merit or demerit of expense items. But that in itself would constitute an excuse or reason for not reporting in detail all financial statements. If economic efficiency be the goal to which every citizen and government and institution aim at, then why would it not also report to the federal government as well?

We have seen the congress, to our amazement, appropriate billions upon billions of dollars, and yet not one in a million can tell what or where this money was spent. It is not only a waste of time, but a waste of money. We have seen a member of congress to go before the country and explain the federal expense items. To a vague and hazy sort of way, we know where some of this money has gone, but we don't know where all the rest went. It is a waste of money to spend for highway construction, for public works, and recovery programs, if we do not know where the money goes. It is a waste of money, if it doesn't tell us anything, neither can we learn much from the fire-sid chais. This does not give us an accounting such as the people are entitled to.

If there is no law to provide for such accounting, then it is high time that such a law be enacted. However, for Uncle Sam to publish the dollar items, would be top cumbersome and impractical, even the \$10,000 items, may be considered as mere chicken feed nowadays. So we feel that every item of \$100,000 and over, should be accounted for. It would indeed be grand New Deal if we could have such a system. If every department of our government which has the spending of millions of the people's money each year would tell in plain language, just what and how much was bought.

If I were a candidate for congress or for President of the United States I would certainly make this an issue. I would assure the people from their forbearance for this lending and spending in a fog system. I would pay less attention about Hitler and his Europe, and more about Uncle Sam's business.

UTAH DOESN'T LIKE GRITS

SALT LAKE CITY, Utah (AP)—Horny grits as an article of food are thoroughly disliked by Utah relief clients, state officials disclosed here today. The reason probably was one reason why the food was unpopular. Grocery shelves are loaded with the "grits" which they were listed as a surplus commodity under the federal stamp plan but the packages stayed on the shelves, gathering dust.

GOODING STARTS ARTILLERY TROOP

GOODING, Sept. 19 (Special)—A meeting was called at the armory in Gooding Friday evening to discuss the organization of a field artillery battery of the national guard. Such a unit is being organized in accordance with instructions received from the war department and the military department of the state of Idaho. It will replace troop A, 18th cavalry, which has been in Gooding for the past 19 years, and whose members will be mustered out of service in the next week or 10 days.

A large group of interested persons met, including a number who are interested in joining the unit, but the number is still short of the 65 minimum required before the battery can be mustered into service. There will be openings for a number of officers and some specialists in electrical, mechanical and radio training are desired.

The artillery offers varied and interesting training to young men and those enlisting will have the advantage of selecting their branch of service while those who are drafted will have no choice. The unit will be called for a year's training sometime between Oct. 15 and Nov. 1.

Capt. Fred Vandergraff is in command of the unit and is at present making preliminary plans for the organization.

Dan Carter, agriculture and shop instructor at the high school, a first lieutenant, and John Cooper, coach at the high school and a second lieutenant, will hold two of the commissioned appointments.

Carter, a 7th lieutenant in the reserve infantry, served a year in the regular army at Vancouver, Wash., following his graduation from the University of Idaho.

As soon as the required number of men has been secured the unit will be mustered into service.

During the first World war, one British soldier was affected by disturbed action of the heart for every four actually wounded.

Other members of the board of governors are Wilton Peck, secretary-treasurer; Mrs. Miles J. Browning; Mrs. Kenyon Green; Mrs. J. H. Blandford; Charles Shirley and R. J. Walton.

Speaker Raises Issue Regarding Indispensability

JEROME, Sept. 19 (Special)—Dr. W. S. McClure, Bliss, was the guest speaker at the meeting of the Jerome county Women's Republican club at the home of Mrs. A. S. Gilbert Monday.

Subject of his talk was "The government the fathers founded and what is happening to it."

He emphasized that the early fathers made no through arrangements to guard the constitution on every point in order that no one person should ever be indispensable. They realized the weakness of pure democracy, such as had been practiced in early Athens, and even in some of our first colonial adventures, and they learned from their failures, many pitfalls to avoid, stated Dr. McClure.

Continued Dr. McClure, "The supreme court has continued to be of greatest dignity and importance until of late when the justices' took over in order that no President should ever feel indispensable. Careful provision was made that the executive should have absolutely no legislative authority and only congress was to valuate money, regulate foreign trade treaties and make laws for the nation."

At the close of Dr. McClure's talk, the women gave him an enthusiastic and spontaneous applause of appreciation, followed by a rising vote of thanks.

The next meeting will be at the home of Mrs. L. M. Zug at 2 p. m. Monday, Sept. 30. Mrs. William H. Detweiler, Hazelton, will have charge of the program. Mrs. William N. Handwick will give a talk on "Being the Spontaneous Call." Another speaker of prominence will also be present.

CINCINNATI REDS CLINCH NATIONAL FLAG

Vander Meer Hurls Champs To Second Title; Cleveland Regains American Loop Lead

By GEORGE KIRKSEY
NEW YORK, Sept. 19 (UP)—The dead-game Cincinnati Reds have clinched their second straight National League pennant and today destroyed the baseball axiom no team ever repeats after being crushed—in four straight world series games by the New York Yankees.

While the Reds were nailing down their title, the American league race with a long-dragging finish was being more fiercely than ever. Cleveland's "team of mutiny" battled its way back into the lead by half a game with a double triumph over Washington, 3-1 and 2-1. The Detroit Tigers, by splitting with the Athletics, dropped back to second place.

In repeating after being humiliated by the Yanks in four straight games last October, the Reds did what no other team has ever accomplished. The Pirates of 1927, the Cardinals of 1928 and the Cubs of 1929 and 1932 fell apart the following season after taking four successive trouncings from the Yanks.

Vander Meer hurls Clincher. Oddy ody, Johnny Vander Meer, the double no-hit no-run hero of 1938 who went into decline last season and only recently came back from Indianapolis, pitched the pennant-clinching game. He beat the Phillies, 4-3 in 13 innings, with a final inning of relief help from Joe Eggs.

The St. Louis Cardinals' 14-7 victory over the Brooklyn Dodgers made it possible for the Reds to nail down the lead yesterday. Babe Phelps' homer with the bases loaded in the first inning was rendered useless by a 17-hit Cardinal attack which featured six runs, scored in by Johnny Mize.

Bullet Bob Feller pitched the lead-in into the American league lead by pitching a 5-hit game to beat Washington, 7-1, with only two runs in the bottom of the ninth to head the opener, 3-1, with Ken Cose forcing in all the Cleveland runs on walks. Manager Will Vander Meer to use his trump, Feller, in the nightcap.

Tigers Beat Athletics. The Reds beat the Athletics, 10-0, and then had beat, 6-4, going into the ninth inning of the nightcap when the Athletics scored the winning run. Babe Phelps' homer with the bases loaded in the first inning was rendered useless by a 17-hit Cardinal attack which featured six runs, scored in by Johnny Mize.

Hurls Reds to Second Pennant

Johnny Vander Meer, he spent most of the summer in the minor leagues regarding a semblance of the form that made him the most talked of pitcher in history. But he made good in the American association, and when he was recalled a month ago by the Cincinnati Reds to aid a faltering pitching staff, he came through with a bang. Yesterday he pitched the Reds to a 4-3 13-inning victory over the Phillies to clinch the 1940 pennant.

Accidental deaths in the United States decreased about one per cent in 1939 from the preceding year.

Giants Play to Empty Seats in New York

By HENRY McEMORÉ
NEW YORK, Sept. 19 (Special)—New Yorkers are using the Polo Grounds these days as sanctuary from the noise, the bustle, the excitement, and the general wear and tear on the nerves that life in the city's biggest city entails.

The fact the New York Giants are playing in the Polo Grounds right now doesn't disturb the calm and rest of the uptown retreat. The Giants are in sixth place, loser in their last 10 games, and completely out of the fight, even for a place in the first division.

It was like walking into another world to visit the Polo Grounds yesterday for the game between the Giants and the Cubs. Outside the grounds New York City thundered and roared, but inside here drowsed and dozed, the spectators, many of them in the seats in whistles, as they disturb the players, athletes' sandy seats on the grasskeepers' turnouts.

Business Poor. High in the upper stands, built to seat 25,000, a pair of spectators, both hands and feet tucked under their knees, feeling safe from inquisitive eyes. The bleacher crowd shared a few dollars and a few cents from the sale of hot dogs and peanuts and five hot dogs were sold from the grandstand.

A crowd of 1,200 on Monday came to see the Giants, only 1,200 the next day, and a handful of 1,500 yesterday. A fellow crowd more than that by dropping a quarter more.

The only spark of life shown by the Giants as they went through the motions of playing out the 1940 season, was shown by a rookie, Bushy, who was hit by a line drive from the dugout swinging his club in a nearby area, and dug in at the plate as if a hit meant the championship of the world.

Normally Terry would have told Diener to hunt. But as if wanting to see what the youngster could do under pressure, with French beating him, he let him hit. Try to hit, rather. The wise French whiffed a newball to a fan. His first pitch. Then he threw another, and with his third pitch drove Diener

Seattle Stays In Running For Play-off

By United Press
Seattle's dentists kept themselves in the race for the championship playoff dough with a smart 2-1 victory over Oakland last night while the Athletics were dropping the first game, 6-3. The St. Louis Browns bumped the Boston Red Sox, 1-2.

In the other National games, the Chicago Cubs handed the New York Giants their 10th straight loss and the Boston Red Sox beat the Pittsburgh Pirates, 4-1.

Los Angeles, Sept. 19 (UP)—Frank Kovacs, Oakland, met Don McNeill today in semi-finals of the Pacific Southwest tennis championships. The other match paired Billy Hugg, former national champion and Jack Kramer.

Bank Pessimistic Over Chances of Vandals

Hult to Rely On Deception In Albion Club

ALBION, Sept. 19 (Special)—Coach Orville Hult today looked forward to one of the toughest schedules in his six-year career at the Albion Normal with one of the lightest teams in history of the local institution.

And the result was that the easy road would bring his offense forward to one of the toughest schedules in his six-year career at the Albion Normal with one of the lightest teams in history of the local institution.

With a nine-game schedule, the Albion coach sends his charges into action Sept. 28 against Eastern Oregon Normal here, next to the west, out it will be a tough row to hoe.

Expect Successful Year. However, local backers are looking for another successful year because Hult has never had a poor season. In the past five grid seasons the Panthers have played a total of 29 games under their watchful eyes. And of these 29 have been chucked up on the winning side, eight have been lost and two tied. And that's a record any coach in the nation could be proud of.

While there are quite a few lettermen back, Hult may have to depend on newcomers to plug many a gap. Returning lettermen this year are very many an uncertainty. For instance, Dale Waite, the Twin Falls boy who was expected to be a regular, will be packing a gun in the army instead of a football in college. He's with the Twin Falls national guard that was called to the colors. And the same may be true in many another instance. Jim Throckmorton, the big Ripper tackle, may be another veteran who will not return.

Lettermen Return. Other lettermen who are expected in the regular lineup include Walt McGee and Dean Lewis, guards; Douglas Mahoney, center; Ralph Hephworth, Ferris Freestone, Stan Barrett and Bill Peters, line backs; and Doug Mack, fullback. Men on hand with experience include Bill Price and Maurice Clayton, ends; Joe Allen, tackle; Roy Rudder, guard; Clarence Parrish, center; and James James, Parker Richards and Ernie Kueck, backs.

Complete schedule for the Panthers follows:
Sept. 28—Eastern Oregon Normal at Albion.
Oct. 5—College of Idaho at Albion.
Oct. 12—Boise Junior college at Albion.
Oct. 19—Ricks college at Rexburg (conference game).
Oct. 26—Idaho Southern at Pocatello.
Nov. 2—Westminster at Albion (conference, homecoming).
Nov. 11—Weber at Ogden (conference).
Nov. 16—Lewiston Normal at Albion.
Nov. 23—Mesa at Grand Junction, Colo. (conference).

Coach Expects Green Team to "Profit by Mistakes" in 9 Games

By PORTER WARD
MOSCOW, Ida., Sept. 19 (UP)—Coach Ted Bank advises University of Idaho football followers not to expect too much this year of the Idaho team in its nine-game schedule that includes four Pacific Coast conference opponents and a major inter-sectional foe.

"We'll have a good green team that will profit by its own mistakes," Bank said as he surveyed the Vandal chances.

He talked something like that in 1938, when Idaho had its greatest recent football year with six wins and three losses. Last year, however, the figures were almost reversed when the Vandals dropped a 7 to 6 opener to O. S. C., tied Washington at Seattle 12 to 12, and then went out and got thumped by Gonzaga, W. S. C. Montana, Nevada and Utah. Altogether, the Vandals lost six and won only two games.

Sixteen lettermen will be mainstays of the 1940 squad. They'll take over the wings, center, tackle, half back and fullback berth—providing they can beat out 19 sophomores. Weakest links in the Vandal armor appear to be at guard, center and quarterback spots.

Line Prospects. Italo Caccia, Pocatello, and Leonard Zerkovich, Auburn, Me., are a couple of experienced guards, but three sophomores have yet to develop. Tony Aschenbrenner, Nampa, and Tom Solinsky, Spokane, head the center list. Sophomores bidding for the berth are Henry Crowley, Lewiston, Me., and Charles Chandler, Bonners Ferry.

At quarterback, it will be a field day for the soph, with no veterans to dim their chances. Pete Hoco-movich, Marble, Mann, and Chester Long, Algonia, Ia., hold an edge. No matter what happens, Bank will bolster his forward wall with four fast stepping, experienced wing-men. They are Paul Ryan, Moscow;

The Pennsylvania Academy of Fine Arts is the oldest art association in the United States.

But the backfield is another question.

Lacking outstanding possibilities for quarterback, the Vandal team will place more weight on his half-backs, Rex Engleking, Albion, and Earl Acuff, Pace, plus five sophomores will fill the left halfback berth with plenty of power. The right side will have Rudy Franklin, Wallace, and Charles Atkinson, Pocatello, both veterans.

Bill Is Regular. Lavern B. Bunn is the letterman expected to be regular at fullback, but his understudy is expected to shine before the season is over. The understudy—Bill Michels, who hails from West Allis, Wis.—is said one of the best soph prospects ever developed at Idaho. His line class are said to be things of power and beauty, while he punts like a veteran and uses his head on defense.

Idaho opens its season against Oregon State at Corvallis, Sept. 28, then plays Washington at Seattle, Oct. 5; Gonzaga at Moscow, Oct. 12; Boston college at Boston, Oct. 19; Utah State at Boise, Oct. 25; Washington State at Moscow, Nov. 2;

KIMBERLY, Sept. 19 (Special)—Kimberly today laid claim to one of the finest athletic fields in the state of Idaho as work was rushed toward completion of the new stadium for the 1940 grid season.

With the first game now set for here under floodlights on Friday night, Oct. 4, against the Thurston Pirates, the local team was undergoing daily workouts under instruction of Max Kimberly, head coach, and his assistant, Al Hurlbert.

Originally the first game had been scheduled for tomorrow night, but it was postponed because of a shifled and the local club journeyed north for the encounter, as men busy work on preparation of the local field.

A new stand, with a seating capacity of 1,000, has been erected and now only installation of the lighting remains to be done. The lighting system will have 10 poles, each supporting four 1,500 reflectors, giving a total of 6,000 square feet of lighting.

Montana Confident Over Grid Prospects for 1940

MISSOULA, Mont., Sept. 19 (U.P.)—From head coach down to waterboy, University of Montana's 1940 football squad was a mighty confident lot today. The best material in six years was on the practice field, and the feeling was "We'll show the Coast conference a couple of things this year."

Forty experienced men—20 of them lettermen—answered Coach Doug Fessenden's call, and the "Silent Scot" was pretty happy about it all. Every man on the squad was in top physical condition because of summer jobs with the forest service, in section gangs, road construction outfits, and on ranches.

FOOTBALL BRIEFS

For every position on the team, Fessenden had plenty of material, particularly for the backfield. Among the men expected to make regular berths were Billy Jones, Livingston, who kicks and passes from the left side and who is a heavy ground-gainer; John Reagan, a triple-threat sophomore; Don Boyer, a veteran passer and signal-caller; Bob Sparks, sensational sophomore fullback; and Howard Farmer, a 210-pound fullback who is an all-American six-man gridiron player in his prep-school days.

Back this year was Eric Naranche of Butte, a line-smashing back who was out most of last year because of a bad leg. Two other veterans were Karl Fisk and Billy Leaphart. The Montana line, powerful last year, was expected to be the best in the coast's recent history. The only apparent weak spot was at center, and Fessenden was trying to find a substitute for Bob Tidwell, who was graduated last spring.

For the center spot, there were two candidates—John Draz, Hank Dahm, Verne Reynolds and Roy Elms. If these fail to plug the hole satisfactorily, Fessenden was expected to shift Captain Tom O'Donnell over from tackle.

Lots of confidence. Except for this one spot, the coach had plenty of men for every place in the line. In addition, there was lots of confidence on the Montana campus, and a firm belief that when the school goes into the Pacific conference in 1942 as a full-fledged member, the Grizzlies no longer will be "step-brothers."

Montana's 1940 schedule: Sept. 28—Eastern Washington college (Cheney) at Missoula. Oct. 5—Washington State at Pullman. Oct. 12—Texas Tech at Missoula. Oct. 19—Montana State college at Butte.

Oct. 26—Gonzaga at Butte. Nov. 2—University of Oregon at Eugene. Oct. 19—University of Idaho at Missoula (homecoming).

Nov. 15—U. S. Marines at Sandpoint. Nov. 23—University of Portland at Portland.

Game Hunters Plan Treks to Get Antelope

South central Idaho big game hunters today ciled up their rifles as they prepared for the first hunt of the season—the antelope hunt set for Sept. 28-30, inclusive, in five counties.

With only 425 applying for the 400 available permits, hunters everywhere in the territory are "satisfied" with the outcome of the draw and parties were being formed to enter the various hunting points in Butte, Camanche, Lemhi, Clark and Jefferson counties.

Reports were that antelope were plentiful in all areas and it was expected that most of the hunters would return with a kill.

One of the first parties to leave Twin Falls will be that of Reuel Blaymer, Harry Walters and W. O. Cox, who head for the Perimeter country Sept. 28. There, Cox asserts, antelope are thick enough so you can just shoot into the herd—a fascinating statement if true.

Rupert Athletic Club Elects New Head, Directors

RUPERT, Sept. 19 (Special)—Election of officers and directors of the Rupert Athletic club was completed last night, with Laet B. Kestelky named as president of the organization.

The meeting was attended by a good representation of merchants and sportsmen, who gathered at the Olivio auditorium. Officers and directors are temporary.

Named with Kestelky were Fred Dickson, vice president; R. J. Baldwin, secretary; A. W. Fricke, treasurer; Club directors are W. O. Hunt, H. E. C. Halloran, Nampa, and Merker and Dr. D. P. Slavin.

A membership drive was launched and the teams will be reactivated by Andrew and Martin Moore. Next meeting will be held Wednesday, Sept. 20, at Fred's Club cafe.

HAILEY

Mrs. Dora Worry, who has been in charge of the maturation for several years, left town for Boise, where she will make her home with her daughter, Geraldine. Mr. and Mrs. W. C. Halloran, Nampa, will be in charge of the maturation. George Bluffler has signed to join the team, and expects to be called around Oct. 1.

Word has been received that Miss Anna Booth, who has been coaching in Boise, Ind., has secured employment and plans to return there.

UNIVERSITY ADDS COURSE IN VANCOUVER, B. C. (U.P.)—First sign of war's impact on the University of British Columbia's curriculum came today when it was learned that numerous new courses dealing with military instructions have been added.
