Polar Bear Deals Brutal Death to Mate in Zoo Pit

While hundreds attending the opening of the new eagles pits in San Francisco's Fleishacker zoo looked on, Big Bill, polar bear, attacked his mate, Min, and in a bloody half-hour battle, beat her, rent her limbs with his teeth, and held her under water to drown. Photo shows Bill dragging Min's body, with Jerry staying neutral in a far corner. While strait is one of the streams of water zoo attendants used—besides poles and gas bombs—to try to stop the fight.

London Digs for Bodies After Savage Nazi Raid

LONDON, Oct. 9 (AP)—Two German planes, dive bombing on a London district in a daylight raid, strewn the streets with dead and wounded today while rescue squads and horror-stricken civilian volunteers dug for the shattered bodies of men, women and children buried in the ruins of a big hospital building and an air raid shelter.

Fire in Reno Damages Big Liquor Stock

RENO, Nev., Oct. 9 (AP)—Fire damaged half a business block here today, destroying a bakery, a saloon, a meat market and damaging an estimated \$75,000 liquor stock.

30-Year-Old Patients

Three women and 22 patients out of the 108 in the destroyed block of the hospital were taken to other hospitals. A few others were believed also to have been transferred but it was feared that a large number, including some patients more than 80 years old, still were buried in the debris.

GARNER LEAVES FOR TEXAS HOME

WASHINGTON, Oct. 9 (AP)—Vice President John N. Garner was on his way back to Texas today, apparently believing that this session of congress has finished its work.

DEMOCRATS RAP BOTT'S CHOICES ON DRAFT BOARD

Firing vigorously at Gov. C. A. Bottolfsen's selection of almost 100 per cent Republican membership for the Twin Falls draft and advisory boards, draft agent and examining physician, Democratic leaders here today accused the governor of "playing politics" and "augmenting his political machine."

Edward Bulcock, county Democratic central committee chairman, was spokesman for the Bourbons in lashing at Bottolfsen's slate for the Twin Falls half of the county. He asserted that Democrats "have no quarrel with the caliber of the men chosen but do take strong exception to the governor's party action in a matter which emphatically should be non-political."

The Democratic blast was accompanied by sub-rosa rumblings from many leading Republicans. One expressed the opinion that the governor had acted without sufficient thought in dividing membership of the Twin Falls draft machine between the major parties. Most of the Republicans queried by the Evening Times indicated they believed Bottolfsen should have consulted local leaders of both political faiths, and at least three such consultation "would have averted any chance of political argument."

G. O. P. Not Consulted
E. M. Rayburn, Filier, Republican state committeeman, this afternoon issued the following statement when contacted by the Evening Times:

"So far as I know the Republican committee of this county was never consulted, made no recommendations and knew nothing of the appointments until they were announced in the newspapers. As state committeeman, I personally was never consulted on the matter."

The Twin Falls choices for this half of the county include Walter C. Musgrave, George A. Childs, W. W. Thomas, L. A. Chapin and Joe Koehler, draft board members; G. A. Bailey, Everett M. Sweeley and J. Paul Thomas, advisory board; Harry Benoit, government agent; Dr. John P. Coughlin, examining physician.

Demos Never Asked
Bulcock's statement for the Democrats pointed out that the Bourbon committee "was never asked to make any recommendations and was never presented none because we naturally believed the governor would be fair in this matter."

48 Boards Named to Handle Idaho Draft

BOISE, Oct. 9 (AP)—Machinery for operation of the selective service program in Idaho was ready to go today after appointment of more than 500 men by Gov. C. A. Bottolfsen.

The boards, approved by President Roosevelt, will work in cooperation with Brig. Gen. M. G. McConnell who was appointed by Gov. Bottolfsen as state selective service administrator.

Forty-eight draft boards and 48 advisory boards for registrants were set up. The latter will serve to answer questions of registrants resulting from service.

Americans Given Blame on Burma Road Reopening

By ROBERT BELLAIRE
SHANGHAI, Oct. 9 (AP)—Leaders of the Shanghai American community called the state department today for ships to speed the evacuation of United States citizens.

Officers of the American President Shipping lines reported that all passenger accommodations had been engaged up to the end of the year.

Americans crowded shipping offices in hope of getting passage, and some engaged cabins on the round-the-world liner President Garfield, leaving for the United States via Cape Horn October 14, rather than risk waiting here for months.

There were several indications the situation might become acute at any time, even aside from the always smoldering dispute over control of the international settlement and the French concession, which the Japanese have long sought to dominate.

Japanese naval parties occupied the island of Lukang off the Shanghai peninsula, long leased by the British government.

Authoritative reports said the tension between French Indo-China and Thailand (Siam) was tightening and that the Vichy government had rejected Thailand's territorial demands despite pressure from Japan to accept them.

It was believed here there was a secret agreement between Thailand and Japan aimed at Indo-China. The two Japanese army organs here, Taihoku and Sin-Shun-Pao, denounced the United States ultimatum.

Blame United States
Taihoku, blaming the United States for Great Britain's decision to reopen the Burma road for supplies to China, said the decision was an Anglo-American challenge to Japan, and to Germany and Italy as well.

"Any military interference with the reconstruction of the new order will be dealt with seriously," the newspaper said.

Acting American Consul General Richard P. Butrick said he was preparing to notify American citizens by mail of the state department's advice to go home.

Americans Calm
Americans generally remain calm. News here on British evacuation agency, though the general belief was that Japanese-American relations would be improved if British students should be sent home within the next few months.

The British embassy, continuing Japanese landings on Hainan in Hainan, said that they were regarded as unimportant because Britain had used the island only as a recuperation base for its military forces since the outbreak of the war and because the Japanese apparently were not interfering with British property.

ROOSEVELT SIGNS EXCESS PROFITS TAX BILL

BILLION DOLLARS ANNUALLY TO BE RAISED BY LEVY

WASHINGTON, Oct. 9 (AP)—President Roosevelt has signed the excess profits tax-amortization bill designed to raise \$1,000,000,000 more a year for defense, prevent the growth of "war millionaires," and ease repayment of defense plant expansion costs.

The White House announced today the bill was signed at 11 o'clock last night.

The bill, including an amendment providing low-cost insurance for men serving in the armed forces, including convicts and national guardsmen, goes into effect immediately.

The measure sets up a 25 to 50 per cent extra tax on profits roughly in excess of what are considered "normal" corporation earnings, and will affect approximately 50,000 firms throughout the country.

Billion Annually

The tax provisions are expected to raise \$1,000,000,000 annually after the first year of the law's operation. Estimates of the expected revenue increase for the current fiscal year are not available.

In its final form the law differs in some respects from the version approved by the treasury department, permitting firms to compute their normal earnings rate by the "average earnings" method, without incurring a penalty, was opposed by that department.

Penalty Clause Deleted

A penalty clause in the original house version was deleted by the senate in favor of a flat 3.1 per cent increase in normal income taxes for corporations making more than \$25,000 net annually. This raises the total rate of taxation on such corporations to 24 per cent—including the permanent rate and temporary national defense taxes.

Under the excess profits provision, corporations can compute their theoretical "normal" income by two methods:

Average earnings in the years 1934-35, inclusive as base; or 95 per cent of that figure plus \$5,000 would be free from excess profits tax.

Consider a corporation's profits normal up to a return of eight per cent on invested capital, plus an additional \$5,000 exemption.

GOP HEARS TALK UPHOLDING BOTT

GOODING, Oct. 9 (Special)—Donald S. Whitehead, lieutenant-governor, and Edward J. Bloom, state representative from the Republican national committee, were the principal speakers at a Republican meeting held in the high school gym in Wendell Monday evening with a good crowd in attendance.

Wendell high school band played at the opening of the meeting with the national anthem their concluding number.

Upholds Bott

Mr. Whitehead, speaking on "State Issues," gave figures to show Governor Bott has given the state a clean, honest and efficient state government; that he has no political machine and that he has a clean record as a public official.

Mr. Whitehead pointed out the various campaign promises which have been fulfilled including the removal of important boards from politics to non-political boards; the honest handling of the office of purchase agent; reorganization of the state police; the \$5 license fee, and changes in the highway department. Several "trials" were listed by the speaker, who said for the first time no property tax was used for administration of the state government for the first time politics were taken out of administration of the state; for the first time in 10 years there was no special session of the legislature necessary for the first time 20 per cent of the gas tax was diverted to the counties; the cost of state government has been reduced; there has been honesty, efficiency and dignity in the office of the governor.

Cites High U. S. Budget

Mr. Bloom, who was introduced by Chaney Willard of Wendell, the president of Gooding County Young Republicans, spoke on "National Issues." Mr. Bloom read actual figures from the national budget which lists all expenditures except for national defense. One item considered was for building of refrigerator ship in which to ship commodities from South America, duty free, commodities which compete on the market with Idaho products such as various beet products, and wool. Also listed were some of the numerous commissions which have been established with their expenditures paid from federal funds. Mr. Bloom also told of the personal qualifications of Wendell Willkie and Charles McNary.

Bill Bird, Gooding county Republican chairman, presided at the meeting and before the speakers were presented, introduced county candidates with an appropriate bit of information about each. He paid special tribute to Senator John McNary as a true representative of the people of Idaho. Mr. Bird also introduced Chaney Willard.

Concluding the program of speaking, W. N. Hardwick, Jerome, gave actual figures on amount of taxes paid by Gooding county last year in comparison to the previous years, showing that with the credit back for relief, decrease in auto license and other credits the taxes were not more as has been stated during this campaign.

Scouts Dine on Antelope Bagged by 12-Year-Old

Members of Boy Scout troop 66, Presbyterian church, today knew what antelope meat tastes like. Last night they were guests of Gerald Painter, 12, a troop member, and the antelope meat served came from the animal the young hunter bagged during the recent permit hunt. Above, the boys "stew it away" while (left to right, standing) Wait Williams, assistant Scoutmaster; W. I. Johnson, chairman of safety and health, and Gerald do the serving. In the picture below, Austin Wallace, Scoutmaster, is shown as he cooks the meat in the Painter home on Shoshone street north.

Boy Hunter's Antelope Is Scout Feast

Members and officials of Boy Scout troop 66, the Presbyterian church unit, last night feasted royally on antelope.

And a member of the troop, Gerald Painter, 12, furnished the meat, having "bagged" the antelope on Sept. 29 during the special hunt allowed by the state.

The "feed" for troop members was staged at the Roy Painter home on Shoshone street north with Austin Wallace, Scoutmaster, and W. I. Johnson, former Scoutmaster who now serves as chairman of the committee on health and safety for the district, serving as cooks. More than 20 of the troop members attended.

Gerald bagged his antelope as a result of his first big game hunt. He shot the animal, a doe, in the Pahsimeroi river valley which is about 200 miles northeast of Twin Falls.

The Washington school student frankly admits that he didn't make the kill on the first shot, using a .35 S&W Winchester.

"I took five or six shots at it before it fell over," Gerald commented to his Scout friends last night.

CUT LOOMS FOR IDAHO GAS PRICE

BOISE, Oct. 9 (AP)—Gov. C. A. Bottolfsen announced today a reduction of about 25 per cent in gasoline freight rates has been obtained by the Idaho public utilities commission.

The new rail rate would amount to a saving of about one cent per gallon of gasoline if passed on to Idaho motorists, or an annual saving of \$1,000,000, he said. The rate becomes effective Oct. 25.

Similar decreases were obtained in rates on gas oil, fuel oil and liquid asphalt. The rates apply to products shipped from Portland, to southwestern Idaho and from Salt Lake City, to southern and southeastern Idaho. In northern Idaho the rates have been effective for several weeks.

If forthcoming gasoline freight rate reductions are passed on to motorists in the form of lower gas prices, the reduction will mark the second in the Twin Falls area within approximately one month. Prices were slashed here from one to two cents recently by practically all dealers following action by distributors.

Thanks a Million, Folks! It is only natural that the Idaho Evening Times and Twin Falls News should express their sincere appreciation for the public response to the "Open House" conducted by these newspapers during the past week.

With the schools, churches, civic clubs and chambers of commerce joining hundreds of individuals in availing themselves of an opportunity to become better acquainted with their newspapers, the total attendance during the week reached approximately 5,000.

There could be no better evidence that the people of Magic Valley are vitally interested in their newspapers, and if they now have a better appreciation of the value of a free press in America, the Times and News "Open House" will have been more than worth while.

The entire personnel of the Times and News hopes that all who went through our plant derived as much pleasure from their visit as we experienced in having them as our guests.

We repeat our standing invitation: You are always welcome to visit our plant at any time you wish, and we'll endeavor to extend your every courtesy in familiarizing you with its operation.

Which Church Does Hitler Attend? "If the parents of Adolf Hitler had taken their child to Sunday school or a school of religion, and if in later years he had formed the habit of entering at least once each week into some church or synagogue to kneel reverently for quiet meditation, self-examination, life-adjustment and worship, would the world catastrophe of today have been averted?"

With that thought-provoking question, the Golden Rule foundation announces an observance of Loyalty days on Oct. 5 and 6. Purpose is to stimulate church attendance in a mobilization of moral and spiritual forces.

All of us in America are being called on to make sacrifices in the mobilization of arms and men in an effort to keep war away from our shores. Some are giving a year out of their lives; all of us are giving money. It doesn't seem too much to ask that each of us also give a little time and influence to the support of tenets which are stronger than the strength of arms.

It is such a small sacrifice, such a great goal. Neglecting Nothing Nothing is being left undone in the preparedness program. Along with all the other things an army needs, it must have caskets, or at least know where it can get them.

Those fears no longer hold good. In most cases, state laws will permit absentee voting by draftees and National Guardsmen. And the first draftees will still be home this coming election day.

The boys in the army are, after all, citizens of the United States—very good citizens, or they wouldn't be there.

Adolf boasts of Germany's small crime rate, but naturally, that's where murder, arson and blackmail are government monopolies.

Demand for money places U. S. Mint on a seven-day week. As if there hasn't always been a demand for money.

BRADDOCK APPEALS AT BURLEY OCTOBER 17

World Series Title Gives National League Clean Sweep for 1940

Former Champion Of Heavyweights Fights Exhibition

James J. Braddock, ex-heavyweight champion of the world and known throughout the land as the "Cinderella man" of boxing, will display his talent at Burley on Thursday, Oct. 17, it was announced here today by Al Sparks, promoter for the Burley Athletic club.

Braddock will meet a worthy opponent in a four-round exhibition that will top a complete card featuring south central Idaho battles. Sparks announced.

The ex-heavyweight champion is making a tour of the so-called "hinterlands"—getting in shape for what he hopes will be a comeback campaign for a return to the ring. He is now adorning the brow of Joe Louis.

Braddock feels he is the only heavyweight now left in the world in the same class with the Brown Bomber and he would like another shot at the title. He has been down to Louis to put up one of the greatest fights that the colored battler ever participated in.

Could it Manager Braddock still fight under the banner of Joe Gould, the old-time boxing manager, who handles all details of J. J.'s big fight? As the headliner will be some 20 to 30 rounds of boxing featuring outstanding talent from throughout southern Idaho.

The boxing arena at Burley has a seating capacity of 1,200 and it is expected that it will be packed for the fight. A top heavy-weight ring performer in many years, last time a top-flight bout against George Satterfield, he won the brothers Burch-Buddle and Max showed at Lincoln field in Twin Falls about five years ago.

That year James J. Braddock beat all his opponents and became a fitting successor to Jack Dempsey as the savior of the "Cinderella" division. His debut in the prize was made at 17. There was no money in boxing as an amateur on Brother Joe's trip back to Virginia.

Young Braddock made his pro debut against George Satterfield, he scored a knockout in the second of a six-round bout at Ridgeway Park, N. J., and collected \$20 as his purse.

Joe got some managerial assistance in those days Jim trained "Fighting" Jimmie at Union City. One afternoon Joe could tell a spar made for his heavy opponent.

Braddock, a big athletic lad, shy and retiring, was working out at Joe's gym looking for a "What's your name? What do you weigh?" Gould asked the youngster.

"Braddock," the kid replied. "I think I weigh 162 pounds." "What's your name? What do you weigh?" Gould asked the youngster.

"Certainly," came the quick reply. So Jimmy entered the ring against Joe in the class of "Cinderella" stable. He spared Harry with some rights that made the latter wince. Gould sat up and took notice and the result was that Braddock found himself under Joe's management.

These two have been together ever since, suffering privation, earning nearly a half-million dollars, squandering the fortune, and climbing back again to the road to success.

Could and Braddock have made a wonderful combination. The former makes the matches and handles the business, and the latter does the fighting.

710 in First Prize Gould battler was given Joe Doherty for \$75 prize. Three years later in 1929, he collected \$20,000 for his end of the Tommy Loughran-Billy Harvey fight at Madison.

From jags to riches truly is the story of James J. Braddock. Jimmy was placed with his team against Primo Carnera and never dreamed that some day some place he would defeat Bear and wear the heavy-weight title. That actually happened and the man who was on top reaped himself into fame and fortune.

Jimmy lost his crown to Joe Louis and now feels that he is the only heavyweight of the present day capable of regaining the crown from Louis. Jimmy is looking to prove his right to a match by meeting Bear, Billy Conn or any other worthwhile challenger.

IDAHO HUNTER WOUNDED SUPERIOR, Mont., Oct. 8 (AP)—Adrian Burns, a hunter from Sandpoint, Ida., was in a hospital here today after being wounded in his right leg by a bear. Burns was wounded by another bear who did not see him until he was fired at. He is recovering from his wounds.

SHORT

Out at Plate, Bases Full as Reds Even the Series

Left Fielder Ripple of Cincinnati was out on this play to the plate, but the bases were still loaded in the sixth game when the Reds tied up the series again. Ripple was out when Myers grounded and threw to the plate. Tiger Catcher Tebbett eyes the loaded bases, and Umpire Orsmyr's behind him. The Reds won on the 11th play, 2-1.

Judge Landis, Jimmy Ripple Get Credit for Cincinnati Victory

By GEORGE KIRKSEY CINCINNATI, Oct. 9 (AP)—Judge Landis and Jimmy Ripple won the world's championship for the Reds. Five weeks ago the "Old Judge" dug back in his files and consulted a bulletin he issued in August, 1938. Saturday he dispatched his telegram to the Montreal International League club.

"I have player Ripple report to the Cincinnati Reds immediately," the commission's verdict based on his August, 1938, bulletin, enabled the Reds to obtain Ripple on waivers from the Brooklyn Dodgers in Montreal, where he was farmed out. The price was \$7,500, a mere drop in the bucket as it turned out.

Ripple reported to the Reds at 10:30 a. m. and played against his former Brooklyn teammates, thus beating the world's series eligibility deadline by two days. If Landis hadn't acted promptly on a technicality and awarded Ripple to the Reds after they claimed him as a waiver, the world series would have been a far different story.

Derringer, Walters Heroes of Cincy Wins Over Detroit

CINCINNATI, Oct. 9 (AP)—It's a clean sweep for the National League. The year 1940 will go down in baseball history as the one in which the domination of the American league was broken, the one in which the New York Yankees collapsed and Bill McKechnie of the Cincinnati Reds emerged as the top manager in the game.

Yesterday the Reds had Derringer to throw into the battle. It was spotted made for one of the best club pitchers in the game.

Working calmly and confidently, big Paul played the distance and allowed only one run.

4 Teams Head Eastern Grid Prospect

NEW YORK, Oct. 9 (AP)—Eastern football looks for Cornell, Boston college, Fordham and Princeton to capture the banner of sectional prestige this year.

Stunned by the defeat of Dartmouth, Yale, Holy Cross and New York University last Saturday, the east experts, Army, Navy and Harvard to be removed from the undefeated ranks this week.

Cornell, more versatile and better balanced even than the one that went through the 1939 season undefeated and with two weeks of rest, has an easy game Saturday against Temple, which boxed to Georgetown in its opener.

Not Disgraced The Detroit Tigers were defeated but not disgraced when they dropped a 2-1 ball game yesterday afternoon and lost the world series to the Reds, four games to three. On form, the Tigers didn't figure to win the American League pennant and certainly they didn't figure to make the world series the close, exciting contest it turned out to be.

Other top games are: Yale-Pennsylvania, Dartmouth-Columbia, Syracuse, Penn State-West Virginia, Brown-Colgate, Manhattan-Boston U., and Georgetown-Wayneburg.

DRAFT BOARD ACTIVITY WILL START ON OCTOBER 17

MACHINERY SET FOR HANDLING OF WORK IN IDAHO

WASHINGTON, Oct. 9 (AP)—The 6,500 local draft boards will begin to operate within 24 hours after the estimated 10,400,000 men register on Oct. 15, conscription officials said today.

The 24-hour test was disclosed after President Roosevelt approved recommendations by governors of Maine, Idaho, Arizona and Colorado establishing local draft machinery in those states. Rapid approval of the setup for other states is expected to follow.

All local boards, as well as state headquarters in 52 states and territories, must be operational immediately on Oct. 17, the day after the nationwide registration, the headquarters said.

The local boards must receive the notices received from registrants at 125,000 polling places, shuffle them, and assign them serial numbers for the lottery to be held to determine the order of men called to service. The lottery is expected to be held within 10 days after registration is completed.

Meantime, draft officials were preparing to issue quotas to the various states for the first call for conscripts. Each state is given a credit for the number of men voluntarily serving in any branch of the armed services of the nation.

Bingo Game Will Be Jaycees' Fun

Entertainment for the Twin Falls Junior Chamber of Commerce election meeting next Tuesday, Oct. 15, will feature a bingo game conducted by the board of directors, it was announced today as plans were set for the annual ball.

The session, planned for 6:30 p. m. at the Park Hotel, will see election of a president, two vice-presidents, secretary, treasurer and three directors. Nominates were listed yesterday in the Evening Times.

President Robert H. Warner pointed out today that the information bulletins showing the names of the nominees and the ballots, the bulletins were mailed to all Jaycees. Actual voting, he said, will be done at the meeting.

AROUND the WORLD

By United Press

VICHY—British naval forces have cut maritime communications between south Africa and the great French colony of Madagascar and have ordered the French freighter Esperance, bound for Djibouti with food supplies, it was disclosed today.

BUDAPEST—The pro-government newspaper Magyar Orszag said today that the government in Hungary is in a state of emergency because of the withdrawal of the Rumanian army over recent territorial losses had made it necessary for German troops to enter the country.

LONDON—Great Britain, following its decision to reopen the Burma road to China, has notified Japan it reserves all right to facilities in Lukung Island, off the China coast, which Japanese marines were reported to have occupied last week, it was said authoritatively today.

ROME—Premier Benito Mussolini was near the Yugoslav frontier today, inspecting the 11th army corps under the command of Marshal T. J. C. The Italian general was in the district. Mussolini arrived at the Gorizia airfield, piloting his own plane.

HANOI, Indo-China—Maj. Gen. Isaka Nishihara, commanding Japanese forces in French Indo-China said today that withdrawal of Americans from the far east could be interpreted as an act unfriendly to Japan.

SAN FRANCISCO—The San Francisco Redline association representing reduction plant operators, today reached agreement with fishermen and boat owners from Seattle, San Pedro and Los Angeles, and agreed to pay \$150 per ton for this year's sardine catch. The fishing fleet, it said, would get to sea immediately.

BIG STAFFS FOR DRAFT ENROLLING

From 10 to 30 volunteers—preferably business and professional men and women—will be needed in each precinct for the draft registration Oct. 16, Lieut.-Col. Norman B. Ashton, Boise, selective service executive officer, advised County Clerk Walter C. Mougware by teletype today.

Previously it had been thought here that the regular precinct election boards would handle the load providing numbers volunteered.

May Be All New

As now outlined, however, the precinct election boards need not be on the draft registration boards unless county officials decide to utilize them. Colonel Ashton wired today that the groups conducting the draft registration are an entirely new slate of volunteers.

The executive officer urged "alert business and professional men and women" to volunteer.

Men for Chief Registrars

He said appointment of "an alert, capable man" as the chief registrar is one of the most important of the county. That appointee must be familiar with regulations involved in the Oct. 16 registration, and he will supervise the work in his particular precinct.

Regarding draft-age men who will be absent from their own precincts Oct. 16, Colonel Ashton said that such men must register "in the nearest precinct." Men who find it impossible to register on the appointed day, he said, "must do so with the nearest local board immediately thereafter."
