

British Hit 2 Hospitals; Nazis Angry

By FREDERICK C. OCHSNER. BERLIN, Oct. 21 (UP)—Angry Nazis, charging that British planes had dropped bombs on two hospitals in a raid on Berlin during the night and admitting that highly explosive bombs had struck at four points in the city, threatened a thousandfold revenge on England today.

Though a formal communique, charging that the British were conducting a terror campaign against Berlin civilians, said that only incendiary bombs had been dropped, the official news agency announced later that four sections had been hit by explosive bombs.

Bombs struck in the residential west end, the agency said, destroying an apartment house and causing casualties in killed and wounded. Confusion of an explosive bomb broke windows in the apartment of Donald Heath, first secretary of the American embassy.

The high command communique said the British raiders hit one military objective, a railroad track in western Germany, but did not cause interruption of traffic.

News Reports Continued. Attacks of residential districts several houses were destroyed and a number of civilians killed, the communique said.

Nazi authorities, in a sharply intensified lightning of news control, announced that their planes had destroyed a number of military objectives of one sort, might be sent from Germany between 10 and 11 p. m. and a number of military objectives.

Heavy Destruction. A high command communique said that during the night German planes, during London, caused heavy destruction and fire on the island of the Thames in the midlands and ports on the west coast were successfully bombed, it was said.

Crash Victim Not Expected to Live

Mrs. Maxine Lucas, 20, Twin Falls, who is not expected to live, as a result of injuries received in an early Sunday head-on automobile crash on the highway to Jerome, is shown above as she was being removed from an ambulance at the Twin Falls county general hospital.

Bloodstains on Fork Are Human, Chemist Asserts

Charge Looming if Death Follows Northside Crash. If any of three persons critically injured early Sunday in a head-on motor crash on the highway to Jerome, charges of involuntary manslaughter will be filed against the youthful driver of one of the machines, who himself is in a serious condition, state police said this afternoon.

Search Gains For Missing Farm Worker. Stains on the handle of a pitchfork found on a Hanney ranch—and the stains found near a haystack on the same farm—are definitely human blood, the Twin Falls sheriff's office announced this afternoon.

GIRL, 15, DIES IN THREE-CAR CRASH

BOISE, Oct. 21 (AP) — A three-car collision on the highway about four miles west of here today left one person dead and three others in serious condition.

Carol Jean Sims, 15, daughter of Mr. and Mrs. Joseph S. Sims of Boise, was killed when the automobile she was driving crashed into another car. The accident occurred when Miss Sims attempted to pass the car. A third auto struck the wreckage.

Ada County Coroner Clyde Summers said an inquest would be called today.

Injured in the accident were Edris Williams, 25; Lorraine Lowery, 25, all of Boise, and Charlene Wells, 21, of Caldwell.

Brazil's new constitution was promulgated on Nov. 10, 1937.

STUDENTS ENROLL ON SCHOLARSHIPS

Five Magic Valley boys and girls—winners of Union Pacific 1939 agricultural scholarships—utilized their scholarships in registering at the University of Idaho last month, according to a compilation announced here today by representatives of the railroad.

The five are James Percy, Cassia; Virginia Brewick, Gooding; Calvin Crandall, Jerome; Darle Nelson, Minidoka; and Charles Wilson, Twin Falls county.

Twenty-three Idaho winners registered at Moscow in September, the Union Pacific officials said in announcing that in 1940 and 1941 there will be 267 boys and girls given such scholarship opportunities in the 11 states served by the railroad.

Because of defense emergencies, local U. P. representatives said they have received word from President William M. Jeffers, Omaha, that any recipient of a scholarship who may be called for service in national guard or conscription troops may accept his award after completion of service. That proviso will apply, it was announced.

Recapitulation of the scholarships awarded since inception of the program in 1921 showed today that Idaho ranks third in number of awards made and is also third in the scholarships actually claimed by recipients. In the first product, Nebraska leads with 870. Kansas has 742 and Idaho 589. In awards claimed Nebraska also is tops with 570. Kansas is next with 495 and Idaho third with 370.

HOLLISTER

After a several days' visit at the home of her parents, Mr. and Mrs. A. E. Caldwell, Mr. and Mrs. Clair L. Gentry and son and daughter, left Tuesday for their home in Bellingham, Wash.

A few friends from Berger had a surprise dinner for Mrs. Ida Dodd at her home Thursday. Those present were Mrs. J. M. Pieren, Mrs. Oren Mills, Mrs. Bert Morse, and Mrs. E. Furman, Mrs. J. Miller, Hollister.

Friends of Mrs. Ida Dodd surprised her Friday afternoon. Guests were Mrs. J. S. Miller, Mrs. Fred White, Mrs. Fred Dudley, Mrs. Wiley Hill and Mrs. M. Kaufman. Lunch was served.

Mr. and Mrs. A. P. Caldwell had as their guest Thursday and Friday their son, C. L. Caldwell, Battle Mountain, Nev. He returned home Saturday.

Mr. Joel Basham, wife and sons, moved to Twin Falls recently. Mr. Basham is employed there.

CHILDREN SHARE PIONEER'S ESTATE

Two sons and one daughter will share the \$10,000 estate left by the late Philip L. Sheneberger, under terms of the will which has been filed for probate.

Petition asking probate and requesting letters of administration was signed by the sons, E. J. and F. C. Sheneberger, both of Twin Falls. Third devise is their sister, a resident of Idaho Falls.

The older Mr. Sheneberger died in Twin Falls Oct. 7 while here on a visit from Iowa. The estate includes

about 80 acres of land, farm crops, cash and a motor car. The will, dated Nov. 21 of last year, ratifies an ante-nuptial agreement made with Mr. Sheneberger's surviving wife, Emma Sheneberger.

Probate Judge C. A. Bailey set Oct. 21 for hearing. Attorneys in the action are Wilson and Sheneberger.

Let's Have a U. S. Senator Who Will Be A Credit to Our State

Idaho is fortunate in having as a candidate for United States senator, a man like Senator John Thomas who is well schooled in the principles of American government, who understands thoroughly the innermost operations of congress, and whose reputation as a legislator has won him respect in Washington.

Perhaps no man in Idaho is more intimately familiar with the state's needs and problems, and it is unlikely that anyone in the state could be more influential in protecting and developing our interests.

Those who sense a real need for a return to sane government in the United States will recognize that in Senator Thomas they have all the qualifications for such representation from Idaho.

Senator Thomas has been serving during a tremendously important session of congress, when many vital issues were at stake. He has been a careful observer fully conversant with all developments, and has contributed much to these weighty deliberations.

Idaho cannot afford at this time to replace Senator Thomas with any man less capable of measuring up to all these important responsibilities. It cannot afford to experiment with representation in the United States senate when it has a man who has proven his qualifications with long, conscientious and capable service.

Let's consider carefully the candidates for this important office. Let's have a United States senator who will be a credit to our state.

Searchers for the Western Sea

Two centuries after Coronado made his unsuccessful attempt to find the "Seven Cities of Cibola," a French Canadian fur trader, Pierre Gauthier de Varennes de la Verendrye, and his sons, explored the wilderness of our mountain country, attempting to find a northwest passage to the Pacific Ocean.

After eight years of exploration, fierce encounters with Indians of many tribes, and the loss of a son, a nephew and many others of his party, he turned back discouraged.

In the spring of 1742 his two sons tried once more. Although their exploration was a failure in the same sense that Coronado's was, to the Verendryes belongs the credit of being the first white men to see the Rocky or "Shining Mountains."

There are pioneers today just as there were centuries ago—in business, in medicine, in engineering, in telephony.

Telephone pioneers built the speech trails over the vast stretches of this country of ours. Their efforts, while less spectacular than those of the early pioneers, have had an important part in developing the vast expanses of plains, deserts, and mountains.

A few years ago a transoceanic call was an innovation. Today friends or business associates in sixty countries around the world are as near as your telephone.

But telephone pioneering will never cease. Its policy and goal are unchanging, the most and best possible telephone service at the least possible cost.

Getting Magic Valley Apples Ready for America's Fruit Lovers

WASHING...

SORTING...

WRAPPING...

LABELING...

STORING...

Apples which soon will find their way to retail stores over the United States, are taken to the tables of rich and poor alike, start their long trek to market, as shown in the above picture. The photo was taken at the Floyd Brown orchard at Eden. Mr. Brown is at the extreme left as he watches the apples go through the washer.

Next step to market is sorting, and seven grades can be sorted at one time at the Harry Heller orchards, near Flax, where this picture was taken. Mrs. Alfred Bush is shown at the sorter, invented by Mr. Heller who found he couldn't purchase a device to do exactly what he wanted—so figured one out for himself. The machine has extremely high efficiency.

After sorting, the apples are packed for storage and shipment. Above, Mr. Heller looks on while workers individually wrap the "extra fancy" apples which gain the highest market prices and are much in demand. All are sorted by weight.

At the Heller plant, Alfred Bush pastes the labels on the boxes which are now ready for shipment or for storage. No less than 80,000 boxes can be stored at the Heller plant.

If they don't go to market immediately, the apples reach the "end of the trail" in the storage warehouse. This interior picture was snapped at the Brown storage plant, only recently constructed. There were over 10,000 boxes stored at the time the Times reporter-photographer visited the place. The men work in heavy clothing because the temperature is nearly at the freezing point.

This Magic Valley Industry Provides Lots of Apple Pies

By O. A. KEIKER
When you eat that baked apple pie, enjoy that apple pie, or muse over your apple pie, chances are you never realize that bringing those apples from the orchard to you is an important Magic Valley industry. Two of the largest apple plants in the state are located right in this section, the Harry Heller orchards at Flax and the Floyd Brown place near Eden. Both are privately owned and operated and the Heller place has the distinction of being the largest individual farm-owned plant in Idaho.

Buy Now
Right now is the "buy season" at both plants as the year's crop is taken in and prepared for market. The apples either being sold immediately or stored in frost-free houses right on the farm for future delivery.
While most orchard owners are pulling up their apple trees, an additional 15 acres are to be planted at the Brown place next year. At the present time there are 45 acres of apple trees in production at the Brown farm. Eleven men and eight women are employed in the plant and at the peak of the harvesting season there are 1,900 bushels taken from the trees.
The Brown orchard is one of the biggest on the north side. The plant is the largest on that side of the Snake river and the only north side

storage plant is located there. The new storage plant was constructed by John S. Kinner, Twin Falls, while the cooling and air conditioning system was installed by Dewcler Bros. Inc. also at Twin Falls. The temperature in the storage plant is maintained from 32 to 36 degrees at all times. By the end of last week there were 10,000 boxes of apples in storage—and more coming in all the time.
Apples coming from the Brown orchards are trademarked as the "Gold Nugget Brand."
At the Heller place all "hustle and bustle" as the sorting, grading and storage work goes on.
One feature of the Heller plant is use of an apple grader which can sort seven different grades at one time. The grader is an invention of Mr. Heller.
Lake Brown, Heller is even yet expanding and 20 acres of new orchard have joined the 100 acres of bearing orchard. Scores of persons are employed in the work and the annual payroll is "way up" in the thousands of dollars.
Many of Heller's apples, sold under the "Gold Nugget" trade name, are individually wrapped in colored paper before they are placed in boxes.
Yes, there's a lot of work behind those apples you eat—work which makes for one of southern Idaho's major farm industries.

Germans Angry at Japan for Restraint Shown in Far East

INSTITUTE CHIEF SPEAKS TUESDAY

A glance ahead—and a glance that carries optimism—will be given the Twin Falls Town Hall club and its Magic Valley membership Tuesday evening when Dr. James Shelby Thomas, president of the Chrysler Institute of Engineering, speaks at the high school auditorium.
Edward B. Roge, high school principal, will introduce the speaker at 8 p. m., according to President J. A. Cederquist.
Dr. Thomas, who is appearing in only 12 cities in the nation, will discuss "New Frontiers for Smart People." He is expected to point out the opportunities awaiting alert Americans as a result of economic and social changes.
Formerly president of the Clark College of Technology and chief economist for the Commonwealth and Southern corporation, Dr. Thomas ascended to a focal position in a huge industry when he took over the direction of the Chrysler engineering institute. A comprehensive trip through South America during the past summer probably will form the keynote of his discussion concerning new opportunities for business and careers.

"New Frontiers for Smart People" will be the arresting topic which Dr. James Shelby Thomas, above, president of the Chrysler Institute of Engineering, will address the Town Hall club at 8 p. m. Tuesday, Oct. 22, in the high school auditorium here.

BRITONS PONDER NEW SALES TAX

LONDON, Oct. 21 (UP)—Great Britain's shoppers and salespeople had a groggy look today. They were trying to figure out the new sales tax which went into effect at midnight.
The purchase of a flower bowl, or a mouse trap, or a petticoat is no longer simple. For example, if you want to buy a glass bowl for cake mixing, the law provides a 14 per cent tax. But if you want to use the bowl for flowers the tax is 33 per cent. If you wanted to use the bowl for "sanitary purposes," there is no tax at all.
Such problems confronted buyers and sellers of virtually every article. The uses to which the article will be put generally determine the tax. Librarians and stamp collectors, for instance, were hit by the tax on transparent adhesive tape. The non-transparent tape is tax free.
Camphor bought as a toilet preparation rates a 33 1/2 per cent tax while camphor bought to combat tooth & tax free.
Almost the entire automobile production of the Dominion of Wales is manufactured in the province of Ontario.

BANK CUSTER LOGGING AS COACH AT IDAHO

Michigan vs. Penn. Tops Nation's Grid Schedule for Saturday

Heavy Dissension Rumored in Ranks Over 'Favoritism'

By HAL WOOD
Evening Times Sports Editor

Outing of Ted Bank as head football coach at the University of Idaho was rumored through this sector today as charges flew thick and fast at the Vandal campus that the former protege of Bernie Bierman was playing favorites, wasn't getting cooperation from his aides, mishandled the Vandal Booster fund and so on down the line.

While it appeared that Bank would last out the season, it was reported here on good authority that the current campaign and as a football coach at the end of the current campaign and as a football coach at the end of the current campaign and as a football coach at the end of the current campaign...

Clarifying the charges... There is so much dissension on the team that it's a wonder the players will even dress. A lot of the players are playing favorites too heavily, especially in the case of Maxey, Hecchi, and Ronnie Hays, tackle, Harris, although he may have only about two minutes to play this year, got to make the trip to Boston over a couple of other players. Glenn Jacoby, assistant coach, and former grid star himself, said that other charges include the fact that Bank doesn't keep his line-up in his place would go either Graduate Manager Gale Mix; Orville Hull, Albion Normal coach; Jacyg Hutton of Gonzaga; Walt Price, freshman coach; Glenn Jacoby, assistant coach; or J. A. "Babe" Brown, former Burley high school coach and now the guiding hand of Moscow high school teams.

Bank... The announcement of the removal of Bank as head of the Vandal Booster fund is reported to be the first step in the reorganization of the athletic situation at Moscow.

Charges Gain in Fury... The charges against Bank gained in fury today following the 60-0 crushing handed to the Vandals at Boston Saturday by the strong Boston college club.

Chicago Bears Move Into Western Lead... NEW YORK, Oct. 21 (AP)—The Chicago Bears, called by many the greatest powerhouse team operating in the NFL this fall, today moved into unimpeded possession of the western division lead of the National Professional Football league and pointed for its invasion of the chest next Sunday to meet the New York Giants.

Utags Upset Redskins in Big 7 Play

By STAN DECKER
SALT LAKE CITY, Oct. 21 (AP)—The Utah Aggies threw a tremendous upset into the otherwise calm waters of the Big Seven conference football race Saturday by slaying their annual upset over a favored team of the conference—this time University of Utah.

Utah... The unpredictable Stars chose the third week of the 1940 schedule to repeat their giant-killing performance on the Logan field by holding the Utah scores after pushing over the winning touchdown early in the first half.

Aggies Meet Idaho... Two conference games were on tap for this week-end, and the title race promised to become even more muddled. The Utah Redskins were scheduled to host the Vandals in Denver, while the yet-to-be victorious Wyoming Cowboys seek their first conference win against heavy odds at the home of Colorado university.

Harmon Closest Thing to Heston, Says Yost, Who Can Offer No Higher Praise

By JERRY BRONDFIELD
ANN ARBOR, Mich., Oct. 14.—Feeling H. Yost has seen football grow almost from its infancy and there are few men in better position to state the state of the game than the Grand Old Man of Michigan athletics.

Tom Harmon... Harmon is the greatest back ahead of Michigan's football this year. The only glimpse they won't get of the Wolverine's triple-threat All-America is the one at lower right, which shows him getting in a few extra minutes of study while waiting for class to commence.

Layden Uses 67 Men as Irish Crush Carnegie Tech, 61 to 0

By HENRY McLEMORE

NEW YORK, Oct. 31 (UP)—Monday night football here was featured by 67 players in scoring 61 points against Carnegie Tech and the nation is wondering who the six culprits are who couldn't get their point... Apparently the Irish squad is so good that Emer Layden could take a vacation and let Pat O'Brien, with or without makeup, cover for the rest of the season.

Jack Sutherland must have laughed and the alumni waltz as Pittsburgh's "pure as snow" team was trashed by Fordham in a blowout... The Magicians union has demanded that Clark Shaughnessy take out a card and give a Stanford team that batted a brilliant 100 in the Pacific Northwest last year... Ohio State did everything a great football team should do—except win the game by a narrow margin. This is a common failing with the Buckeyes, whose trophy room is decorated with more moral victories than even an elephant

SCOREBOARD

BY HARRY GRAYSON
NEA Service Sports Editor

John Leonard Martin has been named manager of the Cardinals' Sacramento farm, which means that the young players that substitute will be broken in right... in the good-old-fashioned way.

If Pepper Martin develops just one player anything like himself, he will have succeeded.

If the Wild Hoes fails to do this in the next few days, the St. Louis club would be well to bring him back... for the effect his inspirational drive has on his players.

The Red Birds softened up when Ray Blades made Martin captain, and he commenced to keep his uniform fairly clean.

More than any other athlete, Martin typifies the spirit of baseball as it was played in the long ago.

Night baseball would have been unnecessary had all players the game up to the hit as did the haw-k-e-n-a-d, wide-shouldered, hard-chested and hairy-legged of his hips.

He is the most picturesque figure in the game.

Martin "boss" his way to training camps for early trials. He pitched, caught and played second, third, shortstop and in the outfield during his several seasons in the minors... did his best when they put him, just so long as they kept him.

Martin spent the season of 1928 on the Cardinals' bench. He was paid more than he got in Houston the following season, and he made a share of the world series money; but he was willing to accept a smaller salary than he would have received money in order to be able to play every day.

Martin was paid no more than \$600 in 1933 when he would have been the Cardinals merely an indispensable background for the next season or so.

It earned more than \$600 a year, with his world series share of \$4,484, a \$300 bonus, a share in the pennant money.

Baseball men said he was entitled to as much as \$30,000 as the next highest star in 1933, but when the new contract for only \$8,000 arrived at his Oklahoma City home, as he was preparing to leave with his wife on a hunting trip, he hastily scribbled his signature, and told his wife to drop it into the afternoon's mail.

Martin would rather play baseball for a bare living than practice as an actor for the rest of his life.

"That is why he was... and is... a player people will pay money to see," says one of his admirers.

That is why he has popular and personal appeal... brings them close to the customers... on and off the field.

There are too few of them left.

In Pepper Martin, the Pacific coast gets someone the National League will miss.

STOLEN CATTLE BILL IS RETOED

WASHINGTON, Oct. 21 (AP)—President Roosevelt vetoed today, for the second time, a bill introduced by Sen. Pat McCarran, D. Nev., that would have made it a federal crime to transport stolen cattle in interstate commerce.

The provisions for this bill are identical with those contained in S. 80, passed during the first session of the present congress. I withheld my approval of this measure because of my belief, as set forth in my message to the congress of May 24, 1939, that the bill represented an unjustifiable extension of the federal police power to embrace a particular class of offenses of a petty larceny type.

No additional information has been submitted to me which would justify action different from that which I found it necessary to take in connection with S. 80, and I am, therefore, withholding my approval of the present bill, S. 3768.

Early Sunday came and someone contacted the judge. "The plane found it necessary to land in connection with S. 80, and I am, therefore, withholding my approval of the present bill, S. 3768."

BRITISH BOMB NORTH ITALY DURING DUCE INSPECTION

TANK SUBMARINE USED TO REFUEL PLANES FOR AXIS

By REYNOLDS PACKARD

ROME, Oct. 21 (AP)—British airplanes bombed northern Italy, where Premier Benito Mussolini is making an inspection tour, the Italian north and east coasts during the night, and a high command communique disclosed today.

Seven persons were killed and 15 wounded in British raids on northern Italy, industrial heart of the country, a high command communique said.

In raids on Italian Africa, British planes bombed Decimane, killing one person and wounding 11 and damaging a barracks, and bombed Assara, Gura, Agordo, and Massaua in Ethiopia without doing damage, the high command said.

Military Targets

Italian planes bombed military targets in Kenya, including the Waipi airfield and mechanized units on the Waipi-Gherill road, and a British convoy, escorted by warships, in the Red sea, it was said.

In a previously reported raid on Pemba island at the entrance to the Red sea, Italian planes sank two light British warships, it was asserted.

Italian planes which bombed Bahrein island were refueled by newly invented tank submarines, it was reported.

Scattered Objectives

Special importance was attached to British raids by Italians because of Mussolini's presence in northern Italy.

Objectives bombed were widely scattered ranging from Genoa area on the Tyrrhenian sea to Verone, close to the Adriatic on the other side of Italy, and from the mid-way province of Alessandria.

According to some reports the British raids were carried out in two waves, one took the eastern side of north Italy while the other took the western side.

Clark Invades Twin Falls County

Chase Clark, Democratic candidate for governor (left), will bring his campaign to Twin Falls and Buhl when he fills speaking engagements in this county Tuesday. Clark talks at Buhl at 2:30 p. m. Tuesday and at Twin Falls at the American Legion hall, at 8 p. m. Sharing the speaking platform with Clark at the rally here will be C. E. Roberts, candidate for superintendent of public instruction, who is also shown above. The candidates were taking a little "time out" to read how the campaign is going in other parts of the state at the time the picture was snapped. Clark's talk Tuesday night will be broadcast. 6 DIE IN THRILL SHOW'S ACCIDENT

MARIANNA, Ark., Oct. 21 (AP)—Investigators said today six persons were killed in an unscheduled phase of a "circus of death" performance when a small airplane, carrying four passengers, stalled and fouled the lines of a parachute.

Other victims were the pilot and the parachutist.

The accident occurred on a plowed field near here Sunday at the climax of the Ace Lillard air act auto show. Just after Paul Nalewajko, 30, had jumped from a plane at 2,000 feet and had begun a parachute drop that was to have ended directly in front of a crowd of spectators.

Another ship, piloted by 25-year-old George Zorn, began to circle the parachutist in order to give his four surviving passengers a better view of the descent.

When Nalewajko was but 200 feet from the ground, his ship stalled, dived and fouled the parachute, snapping the shroud lines and wrapping the silk about the nose and wings of the plane. The parachutist plummeted to the ground before the crowd and the ship dug its nose into the soft earth less than 200 yards away.

The passengers were Joseph Campbell, 37, of Forest City, Ark.; Lawrence Demarko, 24, of Marianna; J. M. Cooke, 65, Marianna; Paul Boyle, 30, of Berkeley.

More than 1,500 spectators saw the accident. Many thought for a moment that the crash was a part of the show.

Economic Weakness Seen in Nazi-Balkan Trade "Pacts"

By J. W. T. MAHON
United Press War Expert

Increasing German economic weakness under the strain of war is indicated by terms of the new Nazi trade agreement with Jugoslavia and by Berlin's announcement today that similar commercial treaties will be negotiated with other southeastern European countries.

Despite Berlin's denials today of German diplomats are using threats to obtain what they want because the trade conditions are so disadvantageous to the Balkan powers.

The Germans are compelling Jugoslavia to forego present payments to large measure, for exported goods, and are demanding credit to be met after the end of the war.

Too, Jugoslavia has agreed to a revaluation of the rate of money exchange with Germany that gives Nazi currency an advantage of 20 per cent. No nation would accept such conditions of international trade unless irresistible pressure were brought to bear on its government.

The new rate of exchange means Germany will have to sell its goods to Germany at a lower cost than to other foreign purchasers. The same concession has been forced on Rumania where oil now is being sold to Germany at a specially reduced price.

Germany cannot afford to pay cash for all imports at present because to do so would be to threaten the Nazi financial stability. The war is costing Germany about twice as much as it is costing Great Britain and any large increase in expenses would threaten inflation.

At the same time Germany is unable to enlarge her barter system about whose success German economists have been so unduly enthusiastic, as a substitute for gold.

British bombings of German industrial centers have damaged equipment for the output of manufactured goods, while scarcity of raw materials and the transfer of workmen to the army have added to Germany's handicaps.

Thus, the Germans are short of domestic manufactures to exchange for the output of manufacturing countries like Britain and Jugoslavia and other Balkan markets. The only alternative is to compel the Balkans, where possible, to accept Germany's future promises to pay, at least in part.

VOTERS REGISTER FREE OF CHARGE

With a rumor circulating in some sections of Twin Falls, and in one low-rent district in particular, to the effect a charge is made of each person registering for the general election, Edward Babcock, Democratic county chairman, this afternoon declared such rumors to be "entirely false and unfounded."

"It is true that the registrar gets paid a certain sum by the county for each registration that registrar gets," Babcock said, "but there is no truth to rumors circulating now that a vote must pay to register.

"There is no charge when any citizen registers. We would appreciate learning the names of any persons who are spreading such rumors."

Babcock added that "from now on until election we probably will be getting the usual unfounded rumors from time to time."

"Don't take any rumor for truth

Quotes on Voter

"If Democracy is to survive, then America must vote to preserve it," Robert H. Warty, past-president, Twin Falls Junior Chamber of Commerce.

"until you investigate it," he said. "Data concerning any election detail is available at no cost and can be had for the asking."

Boy, 10, Dies in Bike-Auto Crash

MONTPELIER, Ida., Oct. 21 (AP)—Ten-year-old Billy Inman, son of Mr. and Mrs. Fred Inman of Montpelier, was dead today as the result of injuries suffered when knocked from his bicycle by an automobile.

Bear Lake county sheriff's officers reported the boy suffered a fractured skull, fractured arm, cuts and bruises. Lawrence King, Sharon, driver of the auto, said he swerved from time to time to avoid the cyclist but the reg. driver of his car struck the bicycle.

TODAY'S QUOTES

(By United Press)

"We have to carry this fight into the enemy's fields until we win," A. Alexander, first lord of the British admiralty.

"Hitler won't have to come to the United States to fight, the fifth column will do it for him. We used to have fighting men in this country, but now they're all weaklings and slaves."—Bernard MacFadden.

"Certain indications and inclinations have become apparent in the cinema which provide cause for concern and apprehension among those desirous of maintaining high standards of decency and morality in the films."—The Rev. John J. McClafferty, executive secretary, Legion of Decency.

"We need chains on the eastern and western doors of North America to prevent our being surprised by the international gangster and to keep him out. Canada and the U. S. share these doors."—Col. O. M. Bigger, chairman of the Gwendolin section of the Joint defense board.

UTAH SOLON HITS WILLKIE SPEECH

CHICAGO, Oct. 21 (AP)—Sen. Elbert D. Thomas, D. Utah, said today that Wendell L. Willkie's speeches on labor showed the Republican presidential candidate was unfamiliar with current problems and activities of labor.

Thomas, chairman of the senate education and labor committee, said that at Cincinnati, O., Willkie told an audience "when recovery begins to come to America under a Republican administration there'll be an actual shortage of skilled workers."

"Mr. Willkie does not know the facts of the labor situation," he said. "There is an actual need for skilled workers at the present time."

He criticized Willkie's proposal that labor and other groups be invited to participate in a training or apprentice program and said "it is appalling to any thinking person that Mr. Willkie does not know or has not been advised of the vocational training program being conducted by the Roosevelt administration."

Another ship, piloted by 25-year-old George Zorn, began to circle the parachutist in order to give his four surviving passengers a better view of the descent.

When Nalewajko was but 200 feet from the ground, his ship stalled, dived and fouled the parachute, snapping the shroud lines and wrapping the silk about the nose and wings of the plane. The parachutist plummeted to the ground before the crowd and the ship dug its nose into the soft earth less than 200 yards away.

The passengers were Joseph Campbell, 37, of Forest City, Ark.; Lawrence Demarko, 24, of Marianna; J. M. Cooke, 65, Marianna; Paul Boyle, 30, of Berkeley.

More than 1,500 spectators saw the accident. Many thought for a moment that the crash was a part of the show.

Backstone's Commentaries, Book III, Chapter XXII, states that "the jury" after the proofs are summed up, withdraw to consider their verdict, and to avoid caustic replies, are to be kept without meat, drink, fire or candle till they are unanimously agreed."

CAR HITS BRIDGE; MAN IN HOSPITAL

County hospital attendants this afternoon announced that Vera Augustus, 36, Buhl, Idaho, who was injured in an early-Sunday automobile mishap near Buhl, was in "good condition."

Augustus was injured when, according to Deputy A. E. Perkins of the state police, she went to sleep at the wheel of her 1938 sedan while nearing the Deep creek bridge on highway 20 four and one-half miles northwest of Buhl about 1:30 a. m. Sunday.

The left fender of the machine scraped the bridge and as the front wheel on the same side struck the steel girders, the machine bounded a distance of 45 feet before touching the ground again. It went eastward across Deep creek. The machine landed on the side and then stopped in an upright position. It was practically demolished and damage was estimated at \$900. Augustus was en route home at the time of the crash.

Deep creek bridge was the scene of this county's first fatal accident of the year when the car being operated by Ralph Larson, of Twin Falls produce dealer, crashed into the span early in January.
