

DWORSHAK CALLS FOR PATRIOTISM

Cong. Henry Dworshak today had declared there can be no impregnable national defense "merely by building up a military and navy establishment."

The declaration was made last night at the congressional spoke at the Elks lodge here following the initiation of a class of 27 candidates in honor of Gen. John J. Pershing. The music during the program which followed the initiation and at which Dworshak was speaker, was furnished by the newly organized Elks American band.

Need Loyalty

"There can be no impregnable national defense in this country merely by building up a military and navy establishment. There must be loyalty, devotion and patriotism on the part of all our citizens and allies in this country, with recognition of the need of personal sacrifices in the interest of the public welfare and national security."

"If democratic processes of self-government have served this nation well during the past century and a half of progress, it is even more essential that constitutional government continue to function in all national emergencies. We cannot successfully assault totalitarian governments which make the lives of our individuals, and then jeopardize our own rights and liberties by adopting similar policies which destroy the very basis of our own democracy," Dworshak said.

Praises Congressional Lies

The congressman commended the Dies committee, and commended the efforts of the administration to defeat the proposal for additional funds to continue its investigations after Jan. 3, 1941, when its current tenure expires.

He also stressed the imperative need of cooperation between the department of justice and the Dies committee, which recently have been engaged in a controversy over the only related campaign against the fifth column in this country."

ASSEMBLY SEES STUDENT FARGE

"The principal's office on a busy day" was the theme of a farce presented by Twin Falls Junior high school students at their regular assembly program yesterday in the high school auditorium.

Each of the students in the cast represented some member of the junior high school faculty. Members of the cast included Mary Virginia McFarland, Katheryn Greves, Janice Wirsching, Marie Norton, William Rogers, Jimmie Campbell, Harry Stralder, Tom Omatstead, Le Roy Moffitt, Don Robinson, Martin Fox, Junior Groves and Dick Pettigrove.

Musical numbers for the program were a baritone duet by Wayne Devereaux and Dick Pettigrove; piano solo, Marilyn North; quartet, "Patsy Jo Anderson," Patsy Ann Campbell, Georgia Burgess and Jean Griffard, accompanied by Betty Ostrander at the piano.

A humorous poem was presented by Junior Groves.

Don Kelo and Duane Peterson, dressed as clowns, announced the numbers.

In charge of the assembly was Mildred Throckmorton, Junior high school instructor.

Montana Girl Queen Of Artist's Dance

UNIVERSITY OF IDAHO, Dec. 6 (Special)—Ann Maguire, senior from Anacortes, Mont., was crowned "Miss Idaho's" last weekend at the annual Artists' and Models' ball sponsored by Tau Mem Aleph, town men's organization.

Miss Maguire was elected by popular vote during the dance from the 12 candidates nominated by each women's group here on the campus. Miss Maguire is president of the Associated Women Students and Alpha Chi Omega, student society.

One of the feet of a bronze statue of St. Peter in the Vatican City has been worn away by kisses of the faithful.

Wants Cabinet Job

Gottlieb Richard Werner, above, 76-year-old Kansas farmer, did not want President Roosevelt rejected. Since he lost his wish, however, he wants to make the best of the situation. He's pictured in Washington, where he hitchhiked to offer himself as secretary of agriculture. His promise: "No sinful slaughter of live stock."

Junior High Will Open Seal Sales

Sale of Christmas seals will be Monday in Twin Falls Junior high school, in cooperation with the Anti-Tuberculosis association.

The sales will take place in the social living classes and each room will have a general salesman.

With each 15-cent sale, a pencil will be given.

Building Contracts Reach Record Total

SAN FRANCISCO, Dec. 6 (AP)—Engineering construction contracts in the far west during November reached an amazing total of \$72,862,991, more than double the total for November last year and 4,000,000 over October, the daily construction service reported today.

Awards in western divisions included: Utah \$3,058,281; Montana \$372,712; and Idaho \$220,109.

CHOIR WILL SING CANTATA DEC. 15

"Christ Is Born," a cantata by Joseph W. Clokey, will be presented as a Christmas vesper service by the capella choir of Twin Falls high school at 4 p.m. Sunday, Dec. 15, in the high school.

The cantata puts forth the ideal of a modern American Christmas rather than the medieval conception of the Christmas story.

Readings from the works of Walt Whitman will be utilized in carrying the story along and a verse choir will be added to the musical choir in presenting them.

The use of shafts of light and planes and angles will be stressed in the stage setting to carry out the modern idea of Christmas.

Employment Hits Highest Peak in Years, Says AFL

WASHINGTON, Dec. 6 (AP)—The American Federation of Labor reported today employment has reached the highest peak in 11 years but that in Oct. 1940 there were still 8,100,000 unemployed.

AFL's estimate of unemployment in September was 8,467,000; in Oct. 1939 it was 9,181,000.

Reporting 46,063,000 persons at work in Oct. 1940, the AFL said that except for a few months in 1939 employment was the highest in history.

Treasured Linens... beautifully WHITE, EXTRA-SAF with Ultra-refined CLOXOR

FREE FROM CAUSTIC!

When it CLOXORS-CLEANS it's hygienically clean!

YELLOWED keepsake linens... dingy everyday cottons and linens... are all safely restored to snowy-whiteness by the extra-gentle touch of Ultra-refined CLOXOR. It's free from caustic and other harsh substances which are damaging to fabrics. And CLOXOR does more than bleach in laundering... it brightens fast colors... deodorizes, disinfects, lessens rubbing, thus prolonging life of fabrics and making wash-day easier. CLOXOR is also effective yet gentle in its many personal uses. Simply follow directions on the label.

Heart Attack Fatal to Man

PAUL, Dec. 6 (Special)—A heart attack suffered while working at the Paul sugar factory late Tuesday evening proved fatal to Martin Gerlack, sr., death coming at his home just east of the Merrill hatchery at 5:45 Wednesday morning.

Funeral services will be held Sunday afternoon at 2 o'clock at the Paul Congregational church; Rev. K. K. Malar in charge.

Although having suffered a slight attack last Thursday, he was apparently in good health and went to his work Tuesday afternoon. He suffered a heart attack at 11 o'clock and was taken to his home. A second attack followed at 3:30 a. m. Wednesday, death coming an hour later.

Mr. Gerlack was born Feb. 25, 1881, in New Weimer, Russia. With his wife and family he came to America in 1910, settling first in Chicago. Moving westward, they lived in South Dakota and Wyoming before coming to Idaho. They settled in Burley in 1920, living there for 16 years. Four years ago they moved to Paul where he engaged in farming a small acreage.

Surviving are his wife, three sons, Martin, Jr., of Burley; Dave, Sacramento, Calif., and Alex, Heyburn; three daughters, Elga, living at home; Mrs. Essie Bishop, Clarksville, Calif., and Mrs. Emma Kowalski of Rupert, and 10 grandchildren.

Here's What a Doctor Has to Say

"A high proportion of colds, minor illnesses and slightness can be attributed to nutritional deficiencies," says Dr. M. L. Wilson, adviser on nutrition problems confronting the National Defense commission.

"Many of us do not get enough of vitamin B1 in our daily meals even when we think that we eat a well-balanced diet," he adds.

"The need for B1 increases with physical exertion."

GERM-O-WHEAT BREAD

is rich in Vitamin B1

B1 — that Vitamin so important in safeguarding your health — abounds in GERM-O-WHEAT Bread. Moreover, it is a natural, not an artificial vitamin, because it is contained in the heart of the wheat from which the flour is milled. The wheat germ from which GERM-O-WHEAT Bread gets its name is one of the richest sources of Vitamin B1, and each loaf of GERM-O-WHEAT Bread contains a liberal amount of this important ingredient. Remember this when you buy your daily supply of bread. Include a loaf or two of GERM-O-WHEAT as added protection for your family's health. Order it from your grocer.

Build your body's defense against winter's colds and illness with GERM-O-WHEAT BREAD

The Gentleman in the Third Row

Query: Was the Audience All Portly People?

SERIAL STORY
DUDE COLLEGE
BY OREN ARNOLD

YESTERDAY Andre also another secret report to his chief. He is visiting Mrs. W. when Army bombing plane strikes. He tells her she is safe. He tells her she is safe. He tells her she is safe.

“Is your pistol in your shoulder pack, Wes?”

“Yes.”

“Then we could shoot and make her see us, maybe.”

“The sound and echoes might carry down the canyon, although I doubt it. Anyway, it would seem that the girl wants solitude. Perhaps she is a distracted mentalistic seeking repose?”

Ronica considered that. “I don’t think—no.”

“I don’t know, just a hunch. She’s not the type for it.”

“I confess that we of the faculty have found her a little odd, difficult to classify. She is a fair student. But there is an air of mystery about her. Intensified now, in my mind.”

“She’s awfully pretty. Remember? You took me to—”

Ronica smiled, staring off down the canyon. “You’d be surprised, Wes!”

“Oh!”

“She was quite angry because I took you away that night. Remember? But you really did have the date with me, and—I didn’t like being stood up any more than she did, so—”

“Please, Ronica, all that was most embarrassing. I regret all of it. Things were—mixed up!”

“I’ll say! But what about now? Here we are and there she is. Won’t she see our horses, maybe?”

“Yes. I did them in shade on the floor of the canyon; you can see them from here, but she could never discover them. Remember, we are nearly 700 feet above them and her. And anyway—look, Ronica, she is not alone, after all.”

Ronica took the glasses then. She stared out intently, telling what she saw in little half-whispered tones. As if afraid Ronica might hear.

“Sure enough. . . . Wes . . . there’s a . . . man!” She tightened

Front Door Decorations
Give Yule Air to Home

Editorial Note: This is the third of a series of articles dealing with decorating of homes for the Christmas season. One, two or three small lights placed on the Christmas tree, the suggestion behind it will be sufficient to provide the desired illumination.

If the homeowner wishes to go a little more into the “festive” side, in a decorative tree star, he may construct a large star, some five or six feet across, and may then place numerous lights on this before mounting it so that the smaller star already mentioned will show in the center of the “festive” side.

These large stars are more simple to make than one would expect. Lath boards may be used advantageously as a frame for the star. The lath boards may be nailed in the shape of a star and then the decorative lights either mounted through it or framed by means of strings or insulated wire.

Use of this decorative idea will illuminate the entrance to the home although it centers around the front door.

U. S. Losing an Air Battle

It is all very well to talk about a good neighbor policy with Latin America and to found an Export-Import bank whose function it will be to help trade relations with the countries to the south of the United States. But something is wrong when Germany and Italy are allowed to beat the U. S. in the extremely important battle of the air.

Like it or not, radio has become an immense factor in the field of diplomatic strategy and in the battle for business.

There is danger that the United States will make the same blunders in handling Latin America that Great Britain did in broadcasts to the Arabs. It came to British notice that the Italians were sending daily and nightly broadcasts to the Moslem world of the Near East from a powerful station at Bari. So the British jumped in to counter-broadcast. But their transmissions bored the Arabs. The programs were too British. The Italian ones were slickly Arabic.

Just about the same thing apparently is happening in the battle in the air of Latin America. Many broadcasts from the United States mean exactly nothing to Latin Americans.

They are in English.

It appears also that American broadcasters, even when using Spanish, think of Latin America as one community speaking one idiom.

Excluding vast Brazil, whose language is Portuguese, the Spanish spoken in various parts of Latin America differs widely.

Argentine, Uruguay, Paraguay, Chile and Bolivia speak one kind. Central American and Caribbean lands speak another. The former group happens to possess 65 per cent of the radios.

Only about one-quarter of U. S. broadcasts are in Spanish. The Germans and Italians keep up Spanish programs all day long.

The Axis countries carefully watch their timing. Americans make the mistake often of sending programs when people are in bed.

The Axis broadcasters supply what they think Latin America demands in programs. U. S. broadcasts are said often to neglect this. Favorites in Latin America are high class operatic music, concerts by international stars, the best Hollywood stuff and, above all, the news which, unlike that from Axis countries, is free from bias.

If ever there was something to put upon the plate of Nelson Rockefeller's Committee to Co-ordinate Cultural and Commercial Relations with Latin America, this is it. Good will, a common front against “isms” and good business are involved.

Bombed Again Wilkinson

In palmy days before the present war there was no saucier figure in Britain's house of commons than porky little Ellen Wilkinson, member for the business-depressed town of Jarrow. She was called “Red Ellen,” not only because of her unruly mop of red hair, but also because she was a decided left-winger in the Labor party.

In debate she was irresistible. There was a red flame of courage in her. That same courage inspires her now as parliamentary secretary to the ministry of home security, a job which keeps her close to besieged London.

Twice she has been bombed out of places she called home. After the last bombing, she sent a telegram to Jarrow where the folks were expecting her:

“Bombed again. Cannot come. Deeply sorry.”

Turning Tables on the Senate

It is an old newspaper wheeze that if a dog bites a man, that's nothing, but if a man bites a dog, that's news. So similar reverse Englishing has made news in Washington. As the capitol badly needed repairs, the United States senators betook themselves for safety to the old supreme court chambers in which in pre-civil war days the upper house of congress used to meet.

Many and many a time a bull-witted senator, uttering what pleased the people in the gallery, has brought the roof down.

This time the roof has brought the senators down.

Any Proposal for a Christmas Armistice Will be Rejected, Says Winston Churchill

There'll be no “Stille Nacht” in Germany.

Three men were pardoned in Alabama as innocent after serving seven years for bank robbery. It seems they were robbed of something.

Query: Was the Audience All Portly People?

Pot Shots wasn't able to attend the Little Theater production last evening so he's wondering today if the audience consisted entirely of fat and/or pleasantly-plump folks. Because, reading the Twin Falls account this a.m., Pot Shots finds the opening sentence starting off thusly:

“A generously proportioned audience enthusiastically received the second offering of the Twin Falls Community Theater players.”

SORRY—WE'RE JUST OUT OF BLACK BORDERS!

Dear Mr. Pot Shots:

May we submit this to your good column with the suggestion that it be run with a very black border about it indicative of the enthusiasm present at this week's Jaycee meeting?

UNFINISHED BUSINESS

What of what should have transpired at the hands of the general membership.

Resolution: Whereas, the board of directors of the Junior Chamber of Commerce enthusiastically and industriously phoned—or were phoned to phone—the membership in regard to the regular monthly meeting, and whereas, the royal group—though small—responded to the call and presented themselves and enjoyed a very interesting and profitable evening.

And it is further resolved, that the Twin Falls Jaycee heretofore with smiling Rip Van Winkle.

That's all!

—Three Who Attended

INCIDENT: GASOLINE MAN RINGING OUT OF GAS

Dear Holt-Shot:

What Twin Falls businessmen who sell gasoline. . . . RAN OUT OF GAS IN THE CAR about five miles this side of Jerome. . . . and was pushed some nine miles to his place of residence by a kind-hearted fellow last night?

He was hoping against hope that Pot Shots wouldn't get hold of the incident. . . . as well as tell you his name. But just ask me how much he weighs. . . . go on, just ask me.

—Don Herald

LOONY LYRIC

I speak of a man who's always opening windows,
No fear of cold air,
Some night, I hope, this pest will open his window wide
And will end up first!

—The Student Prince

HIGH (OR LOW) FINANCE

Offering no comment as who was out-generated, if any, Pot Shots unites in the intention of the reporter and the Deputy Sheriff.

Deputy A. B. Miller and the Missus Miller on their way to a local entry. In came John Brown, reporter. Delecting himself that there was a good chance for a joke, he flung out a couple of checks and put thereon a notation adding the price of a milkshake.

This seemed a strategic maneuver until Miller and the Missus were left. Then Deputy A. B. cheerfully signed Brown's name to the entire check, and sailed blithely out of the eatery.

We understand the reporter pondered this unexpected situation at length, then had a new made, paid for his own share only (presumably the milk shake), and left Miller to ponder the situation (the management hopes) by Deputy A. B.

All of which, we trust, illustrates the possibilities of the dangers of something or other. Anyway, it fits space.

27 YEARS AGO

27 YEARS AGO
DEC. 6, 1913

A. F. Henson has just received a portable Alfa Romeo and is doing his first job of running this week at A. B. Stevens farm near Harzorn. The mill is driven by traction engine and has a capacity of 20 tons a day. Mr. Henson is buying hay outright and expects to sell the surplus. The hay is offered for \$7.50 per ton, the meal to be delivered by the seller, of the hay weighs over 8,000 pounds in the going out of the Stevens place Tuesday some had culverts were enclosing which will necessitate pulling around and going another route. In making the turn the mill got off the track and the party pulling delayed starting the initial run. Mr. Henson is anxious the mill will prove a success and the experiment in this direction.

Attorney T. Bailey Lee, Husley, was a business visitor in the city between traina Tuesday.

IRRIGATION PROJECT GETS WPA APPROVAL
NOV. 26, 6 WPA

The Okanogan county local improvement project of irrigation facilities for the expenditure of \$46,832 in federal funds and \$72,364 in sponsor's funds.

Each month affords business to from 80 to 70 per cent better than the same month of the preceding year.

FAMOUS LAST LINE
“How many times I told you not to throw in case in the furnace?”

THE GENTLEMAN IN THE THIRD ROW

HISTORY Of Twin Falls City & County
As Gleaned from Files of The Times

15 YEARS AGO
DEC. 6, 1925

Announcement was made in the Presbyterian church by Rev. A. C. Pearson that Mr. and Mrs. J. H. Shearer will leave in two weeks for California where Mr. Shearer will commence duties as organist and music director of Pasadena Presbyterian church. This is one of the outstanding churches of America and the salary offered is the largest paid to any organist west of Chicago. Twenty-eight of the leading organists of the west were contacted and a unanimous call was given Mr. Shearer. During Mr. Shearer's short stay in Twin Falls he has done great work with the choir of the Presbyterian church, whose beauty of tone, expression and spirit of worship in music has generally remained popular to all ages.

Mr. Doherty, Great Falls, Mont. is here, the guest of her father, G. B. Walcott.

IT'S NEW—FOR CHRISTMAS
For the Boss

By W. H. WILSON

It's always ticklish business picking out something for the boss. To generally select something new and useful.

For instance, there's the “Smoke Ring” ashtray, with its snuffer tube, a “puffer” that really works. Visitors will compliment him on it. It is finished in heavy bronze.

Another thing that really works is the “Pizra” automatic lighter. It's the thinnest and simplest lighter made. About the size of a thin match, it comes in six colors.

For his desk make the boss a “puffer” that really works. It's a “puffer” that really works. It's a “puffer” that really works.

SHOSHONE

The Old Fellows held their annual election Tuesday night at the Elks club. The officers elected were: President, H. W. Powell; Secretary, H. T. Heer; Treasurer, and Joe Heer; trustee for three-year term. Arrangements were made for the annual Old Fellow-Tekebek Christmas program Friday, Dec. 30. Rotary club Wednesday afternoon to the depot where they gathered to pay their respects to the late Dr. J. W. Heer.

Mr. Heer was returned to Jerome Wednesday noon from Rochester, Minn.

Miss Phillips, one of the best swimmers in the world, was confined to the Lincoln county jail since the opening of winter court. Mrs. W. Woodberry is acting as matron.

Immigration into Hawaii, except for citizens from the American mainland, virtually has ceased.

SHOSHONE

Rolling blotter has a long life.

Watch-also automatic lighter.

It's a simple, easy-to-read device, 3 1/2 inches in diameter in finished case with unbreakable crystal and is adjustable for altitude. Best dispenser has some new lines in luminous finishing lines this season. Made of plastic, the balls have a luminous glow that proves irrefragable to the eye in the dark pool, or to the manufacturer's eyes. Expose these lures for a few minutes to a flashlight and they'll glow for hours.

Nylon fishing lines have proved their value during the past season and one of three rubbery artificial lures might be an idea.

NEXT: For this employ.

Rotary club Wednesday afternoon to the depot where they gathered to pay their respects to the late Dr. J. W. Heer.

Mr. Heer was returned to Jerome Wednesday noon from Rochester, Minn.

Miss Phillips, one of the best swimmers in the world, was confined to the Lincoln county jail since the opening of winter court. Mrs. W. Woodberry is acting as matron.

Immigration into Hawaii, except for citizens from the American mainland, virtually has ceased.

U. S. TROOPERS, PREPARE FOR SERVICE IN TROPICS

MEN VACCINATED AGAINST FEVERS IN ARMY CAMPS

BERKELEY, Calif., Dec. 6 (UP)—Half of the growing American army is being prepared for service in tropical regions by inoculation against yellow fever, Dr. Earl P. Meyer, University of California scientist and a member of the United States public health service's national advisory committee disclosed today.

Dr. Meyer pointed out yellow fever is found only south of the Panama canal.

All members of the army and navy are being routinely vaccinated against smallpox, typhoid fever, paratyphoid and malaria, Dr. Meyer said.

Bolsters Health Defense

America is bolstering its health defenses, now menaced from abroad, by establishing a million dollar laboratory at Hamilton, Mont., where the public health service will produce vaccines against typhus fever and yellow fever on a huge scale.

This plant, many miles from any large community, is a completely equipped, air-conditioned institution. Every bit of entering is filtered and sterilized and every bit of air is treated again to minimize possibility of spreading disease.

The U. S. public health service has been informed Europe already is being ravaged by epidemics, Dr. Meyer said.

Stem Epidemics

To aid stemming of epidemics, the United States will send more than 1,000,000 doses of vaccine to England. In excess of 1,500,000 doses have been given in South America, and 150,000 shots now are ready for shipment to American military centers.

At present, Dr. Meyer said, most of the vaccine comes from the Rockefeller Institute which now is concentrating on influenza vaccine.

The new laboratory at Hamilton will turn out between a half million and a million doses a year for treatment of typhus and yellow fever.

INFLUENZA HITS TRAINING CAMPS

SAN FRANCISCO, Dec. 6 (UP)—Thousands of the nation's soldiers, mobilized in training camps along the Pacific coast, are ill with influenza, it was reported today.

At Camp Murray, Wash., where 12,000 men of the 41st National Guard division are mobilized, 1,400 men were hospitalized in wood-floored tents and it was estimated by officers 5,000 others have suffered some symptoms of the mild form of influenza which swept the west.

Army officers and physicians are reluctant to reveal exact figures on the number stricken in other training centers scattered through California and Washington.

Thousands of civilians have been stricken through the west in the last two weeks and the epidemic has spread farwike into the Pacific northwest and southwest into Arizona.

Other states affected were Washington, Nevada, Idaho and to a lesser extent, Oregon and Utah. They reported an increase in the incidence of influenza but state health officers refrained from calling it an epidemic.

Crime Lower in Mountain Region

SAINT LAKE CITY, Dec. 6 (UP)—The federal bureau of investigation, in an analysis of uniform crime reports for January to September, 1940, revealed today that the Rocky mountain district had the fifth lowest rate of capital crimes in the nation.

The United States has been divided into nine districts for such analyses. In other crime classifications, the mountain area comprising Utah, Idaho, Wyoming, New Mexico, Arizona, Nevada, Colorado and Montana had an even lower rate, in some instances placing third.

In HOLLYWOOD Today

By United Press

Read more of the things you want to continue feeling young. Deanna Durbin takes a husband next summer.

Only a few months ago she was the center of a controversy on the Universal pictures lot. Producers argued whether to permit her first screen romance to culminate in a kiss.

Two days ago she celebrated her 19th birthday and her production crew gave her a surprise party. Today these men hardly could believe their little girl was engaged to Vaughn Paul, 25-year-old producer. Her parents, Mr. and Mrs. James Durbin, announced their engagement today.

Elizabeth Jane Kern Green, daughter of Composer Jerome Kern, was free today to live as she pleases, without the "oblatio-ri-um" attempts of her husband to "make her over." She obtained an interlocutory decree of divorce from Richard Greene film director and brother of band leader Johnny Green, on her testimony that Green was hypercritical.

Marguerite Franz, Auburn-haired actress, today received the entire estate of her late husband, Louis Chitico, nationally prominent harpist, according to the terms of his will. Chitico died allegedly by a discharged employe as he sat in his office last September.

Singer Carl Brisson, returning from London, today told of a "relatively quiet" Atlantic crossing in which his ship was attacked once by a bomber and twice by submarines. He said American motion picture producers are doing a great deal for the morale of the British and each new film is "an vital right now as war supplies."

Actress Gene Tierney and Actor William Tracy had a barefoot scene for the production "Tobacco Road." Miss Tierney contracted a bad cold; Tracy, poison ivy.

IBEX

BOISE, Dec. 6 (UP)—The ibex situation was being debated here and now today in the state fish and game department.

Because the 1940 fish and game law book initiates regulations against shooting of an ibex, officials sought to determine whether any of the strictly horned members of the goat family live in the state.

In polling hunters in remote sections of the state, the department received conflicting answers.

Jack Givney, who lives on the middle fork of the Salmon river, said he heard a report that ibexes lived in the region "but I looked it up and found nothing but sheep."

Another hunter, Lewis F. Ham of Torrey said he shot an ibex in 1902. In describing the animals, he said: "The horns of the fall grown were clear to the hocks long and there were little rocks in the base of the horns. The theory at that time was that they occasionally landed on their heads when they jumped off a rock."

Skillful Control produces Coors unexcelled flavor...

It is important to skillfully control every step in the brewing of beer like COORS... so the enticing taste and flavor qualities will always be the same. Keep a supply on hand... ready to serve.

COORS is not brewed down to a price. It never could be and still be COORS. Yet the price is less than you'd expect to pay for a domestic or imported beer of COORS' fine dry lager quality.

AIRLINER DEATH TOLL REACHES 9

CHICAGO, Dec. 6 (UP)—The death toll from the crash late Wednesday of a United Air Lines 21-passenger plane rose to nine persons today as government investigators renewed their study of hazardous weather conditions at the time of the accident.

Miss Florence Little, 22, Chicago, the stewardess, died at a hospital when a blood transfusion failed to sustain her. She suffered a basal skull fracture. The hospital also reported Paul Ryan, 40, Cleveland, a passenger, near death. Six other passengers were injured.

The 12-one giant "Main-liner" ripped into a horse-top two blocks from municipal airport as it prepared to land amid a cold mist at the end of a scheduled flight from New York.

Witnesses told a coroner's jury of aviation experts yesterday the ship circled the field for 20 minutes before starting to land and it flew seven minutes in "icing condition."

A quarter-inch coating of ice was found on the plane's wings after the crash. Experts said ice destroys the wings' lifting power at reduced speeds. The jury deferred its report to Jan. 8.

Ag Engineers

UNIVERSITY OF IDAHO, Dec. 6 (Special)—The Idaho chapter of the American Institute of Agricultural Engineers last week elected two southern Idaho students to head the group for the rest of the year. Carlisle Jones, Eden, was chosen president, and Harold Brevik, Wendell, vice-president.

Famed Greenwich Observatory Hit By German Bombs

LONDON, Dec. 6 (UP)—German high explosive and incendiary bombs recently damaged the famed Greenwich observatory. It was disclosed today.

Part of the observatory that was built in 1675 and designed by Christopher Wren was damaged. Authorities permitted disclosure of the fact that the revolving globe and observatory clock known to visitors from all parts of the world were damaged.

Parts of the telescope room also suffered from the bombardment.

Compression ratios in engines of 1941 cars show the sharpest rise in five years, averaging 0.65 in 50 new models presented by 17 manufacturers.

Assessors to Tax Rural Electricity

BOISE, Dec. 6 (UP)—The state board of equalization today notified county assessors that state assessments against rural electrification associations have been cancelled.

Cancellation of the assessments was voted after Attorney General J. W. Taylor held the power cooperatives were not public utilities, and could not be assessed by the state board of equalization. State law provides for assessment of public utilities by the state board, but other

property is assessed by county officials. The decision affected rural electrification associations in Kootenai, Clearwater, Idaho, Bonner and Fremont counties.

BASEBALL WILL AID U. S. DEFENSE PROGRAM

Six-Team Snake Valley Outlaw Cage Loop Organizes for Season

Minors Will Make No Objections On Player Draft

ATLANTA, Ga., Dec. 6 (UP)—Baseball will do its part in the national defense program, Commissioner Kenesaw Mountain Landis struck that keynote last night in his first public appearance at a minor league meeting in eight years.

The 75-year-old Landis told delegates he expected them to maintain integrity of the national pastime by aiding the country in these perilous times.

"I want the people to say that professional baseball in the United States held its own in the standards of respectability and integrity," Landis said.

"You men have an opportunity of tremendous importance and I call on you to maintain integrity of our game as we never sought to maintain it before."

The commissioner was cheered by more than 1,200 major and minor league officials after his speech before their annual banquet.

The bid for change was made by the minor leagues appointed a committee to make plans for contribution of bats and balls to training camps. The plan is to appoint a committee to work with the minor leagues on this project.

Although no present players have been called in the draft, several are expected to be before the end of the 1941 season. Hank Greenberg, American league batting champion and most valuable player, has draft order No. 621 and may be the first.

It was indicated by club and league officials that no attempt would be made to keep players out of the training camps during the baseball season or to obtain other privileges.

Bowman to Giants

The New York Giants purchased Bob Bowman, right-handed pitcher, from the St. Louis Cardinals for \$25,000, a nationally limited bid, at \$30,000 to \$50,000. Bowman won seven and lost five last season and won 13 and lost five in 1939, his first year up from Rochester. He is the fast-ball pitcher who "beamed" Joe Metchick of the Dodgers last season.

The Giants also made a deal with Hollywood of the Pacific Coast League, sending outfielder John Eichelberger to the Cardinals there and obtaining Shortstop Joe Hooper for 1942 delivery. They sold pitcher Hy Vandenberg to the Rochester International league club outright, which was construed by many as part of the Bowman deal with the parent St. Louis team.

Bill Meyer signed to manage the Kansas City American association club again.

BOWLING Made Easy

By NED BAY

(This is the third of a series of bowling lessons by Ned Bay of Milwaukee, Wis., national match game champion, and recognized as an outstanding bowling authority.)

VARIABLE DELIVERIES. Just as a baseball pitcher can resort to curves, changes of pace, screw balls and fast ones, so, too, does a bowler have an assortment of "stuff." There are four distinct pitches in bowling. Named in order of their importance, they are: the hook, the curve, the

straight and the backup.

The hook ball is thrown out of the right hand with the fingers in a clockwise twist to impart spin to the ball. The thumb comes out first and the fingers then spray the spin to the ball. The hook ball is placed on the alley eight to twelve boards from the right hand gutter. It travels in a straight line toward the pins 3 p.m. Just before it reaches the ball it hooks sharply into the 1-3 pocket.

The hook ball is used by practically all of the world's outstanding bowlers because of its high strike percentage.

The curve ball is used by bowlers who throw a slow ball and it is very effective in hitting wilder hitters. The straight ball is the easiest to master, and for that reason it is sometimes recommended for beginners until they perfect their own pitch and delivery. The backup ball is used only by a few bowlers (the few distinct pitches in bowling) and for that reason it is not recommended.

A Nomination for All-America Centaur

College gridiron has long been populated with Wildcats, Tigers, Bears, Panthers and so on through the whole gamut of the animal kingdom, but this is the first football centaur. Resemblance to the Greek mythological figure, shown in inset, came when Sid Sadoff, North Carolina footballer, tackled Dinky Darrell from behind as the Duke end took a short pass from Wes MacFarle.

Chalcedon Tops Entry List For \$100,000 Handicap

Grayson's SCORE BOARD

BY HARRY GRAYSON
News Service Sports Editor

Because the Chicago Bears have a more diversified attack, I pick them to win the National league championship in the playoff with the Redskins in Washington, Dec. 7.

A rough guess would be that the Cardinals will take it for the Redskins and the last Texas team will again be the occasion.

Laugh is the daddy of passers, but Sid Luckman of the Bears also can throw the ball, and Davey O'Brien's compelling 31 for 40 yardage is the best all-time record in something in the way of evidence that the Redskins' defense in that department has not been impregnable. Not one of O'Brien's 69 tosses was intercepted.

Talback though is not a great ball carrier of the strong side, as Washington is more formidable on the ground with Johnson and Dick Tinsley the leader off the weak side.

Speaking of Davey O'Brien's amazing final game against the Redskins, it was too bad the game was not held in Washington. It is more formidable on the ground with Johnson and Dick Tinsley the leader off the weak side.

The Bruins' side is as open as that of the Redskins. It has a man-in-motion, and his club really will be the miscalculation. The Redskins prevailed, 7-3, in their only meeting this fall, but the men at Wiley field had the ball on the one-yard line in the closing seconds and were within eight yards of pay dirt on two other occasions.

It was in the playoff against the Bears in Chicago in 1937 that Slimmy Sammy Baugh pitched this first game to take it for the Redskins and the last Texas team will again be the occasion.

Laugh is the daddy of passers, but Sid Luckman of the Bears also can throw the ball, and Davey O'Brien's compelling 31 for 40 yardage is the best all-time record in something in the way of evidence that the Redskins' defense in that department has not been impregnable. Not one of O'Brien's 69 tosses was intercepted.

Talback though is not a great ball carrier of the strong side, as Washington is more formidable on the ground with Johnson and Dick Tinsley the leader off the weak side.

More Valuable

Witherite was discovered in a mine in Durham county, England. It is four or five times as valuable as gold, and both minerals now are being mined at the same time.

The only Oriental race to make as much use of ladies and gents as the English is the Chinese.

Although it is a colony of Great Britain, Newfoundland is a self-governing dominion and not a part of Canada, either geographically or politically.

Shoshone, Gooding, Declo, Jerome, Burley Set for Play

A six-team league will function in the Snake River Valley Outlaw cage loop this year and play will get underway on Thursday, Dec. 12, it was decided at the annual meeting held in Jerome last night.

The six clubs in the league will be Burley Elks, Declo, Jerome, Gooding, Shoshone and one other club—to be chosen from among Rupert, Eden and Filer.

Walt V. Olds, Jerome high school principal, was re-elected president of the organization; Cliff Parks, Declo, was named vice-president, and Hal Wood, Twin Falls, was again named secretary-treasurer.

No Pay Allowed

The organization voted to prohibit players from receiving pay of any kind over traveling expenses to and from a game—this ruling being placed in the by-laws to halt any possible action by AAU committees against Idaho clubs of this sector.

It was also voted that the forfeiture fee for all clubs be retained at \$10 and \$3 was to be assessed against each team for league expenses.

Tourney Dates Set

Announcement was made at the meeting by the Gooding delegation that the annual Gooding outlaw tourney would be held on Jan. 30-31 and Feb. 1—one week earlier than last year. The Burley meet has tentatively been set for two weeks later—Feb. 13, 14 and 15.

Cities represented at the meeting included Jerome, Murray, O'Rourke, Declo, Cliff Parks; Filer, Pete Taylor and Bill Powers; Gooding, John Cooper.

Complete round-robin schedule for the league follows:

Thursday, Dec. 12—Declo at Jerome.

Friday, Dec. 13—Blank at Shoshone.

Tuesday, Dec. 17 — Gooding at Burley.

Thursday, Dec. 19 — Jerome at Blank; Shoshone at Gooding; Burley at Declo.

Monday, Dec. 23 — Shoshone at Burley; Blank at Declo.

Monday, Dec. 30 — Gooding at Blank; Declo at Shoshone; Burley at Jerome.

Monday, Jan. 6—Blank at Burley; Jerome at Shoshone.

Tuesday, Jan. 7—Declo at Gooding.

Friday, Jan. 9—Burley at Gooding.

AAU May Ban All-Star Cage Players

DENVER, Dec. 6 (UP)—A rumor persisted at the 52nd annual amateur athletes union convention today that 12 college basketball players, who, as an all-star team, played a professional team in Chicago last week, would be banned from further amateur sports events.

The all-stars defeated the Harlem Globe Trotters, the national professional champions, for a mythical "open basketball championship."

The A. A. U. was reported to have told the players it could not sanction their participation against professional teams when they applied for permission to play in the game. According to the rumors, they ignored the ruling.

If the organization declared them ineligible, they would be banned from participating in A. A. U. sanctioned events for at least a year and then reinstated only after admitting a violation of the amateur code.

Among those involved were Ralph Vaughn of Southern California.

High School 'Bowl' Game Proposed At Moscow Site

MOSCOW, Idaho, Dec. 6 (UP)—Moscow football fans have proposed a "bowl game" to be played next year, and that if a southern Idaho high school team were not available, a team be chosen from eastern Washington.

With exception of Seabiscuit, now retired, and War Plumage, every horse in last year's starting field has been named for another try this season. Strongest challenger is expected to be Charles S. Howard's Kayak II, second behind his stablemate Seabiscuit.

The eligible list was studied with the names of 1940 turf stars from tracks throughout the country. There were 10,000 American entries by victor; the Kentucky derby winner, Gallantfox; Sweepstakes, California; and winner of the Santa Anita derby, and Wood Wolf, which won the Hialeah Florida stakes.

Most American, English and New Zealand stars were prominent on the entry list.

An entry fee of \$100 accompanied each of the 92 names. Most of the horses will be eliminated during the course of the season, until between 10 and 20 entries will pay \$250 to box their horses through the entry box and an additional \$750 to start the race.

Here's how

Here's how

AN EXPERT MAKES STRIKES!

Described by Al Jones, EDITOR, BOWLERS' DIGEST

1. First step—starts with right foot; ball, held in both hands, pushed away from the body and toward the pins. 2. Second step—ball swings backward in its natural arc; the left arm moves outward for balance; knees bend, body inclines forward. 3. The ball, continuing its backward swing, reaches the height of its arc at end of third step.
4. Fourth step—ball is brought down and forward. 5. Left foot slides toward the foul line and ball is released; right foot crosses to anchor the slide. 6. The follow through, as the ball starts rolling down the polished lane.
7. Here, note how the perfectly-delivered ball reaches its goal, the pocket between No. 1 and No. 3 pins, touching off the ball for (8) the explosion of sound and rousing that says, "Perfect Strike!" Nice going, Joe Falcaro!

BOWLING TIPS. Remember that proper direction is more important than speed. Select a ball that fits the hand comfortably. Beginners should walk, not run, to the foul line. Correct footwear is vital. And at all times, stay relaxed!

Mac Suggests Nebraska Stop at Las Vegas to Teach Club Gambling

BY HENRY McLEMORE
LAS VEGAS, Nev., Dec. 6 (AP)—Does Nebraska university want a real gambling quarterback at the helm of its team wing? It plays football in the Rose Bowl?

Do the Cornhuskers want to perfect the mouse-trap game as it never has been perfected before? Do they want to learn the real intricacies of the spinner?

If they do, then Major Butt Jones should immediately accept the invitation of the Las Vegas Chamber of Commerce to make this town a stop en route to the Rose Bowl.

In offering the invitation the Chamber, by becoming modest, mentioned only such Las Vegas virtues as clinics, training facilities, and proximity to Pasadena.

It didn't mention the possible learning a football team might gain from the gambling facilities of this town, which recently were listed as the "Last Frontier."

This is only my second trip to Las Vegas but I'll know more about the spinner business

than fellows who have been playing football eight or 10 years. They have a good spinner teacher here. It goes under the name of roulette. There is any number of formations you can operate from on the Las Vegas spinner. I like a little play called 31-20-14. If it works it can shake you right from the cellar toward the payoff land, and if it falls there is no offense penalty. You just start off from scratch.

Now take that mouse-trap play. It is an important deal during the season. But there is a little game that is operated here that will teach a fellow more about the importance of a mouse and trap in 10 minutes than all the coaches could in a year.

I won't describe this device to you in full, because the memory of it is too painful. But there is this about it: A mouse sits in a little box that has a trap underneath the mouse and the box is a wheel with 35 little openings in it. The wheel is spun. The mouse is dropped through the door and eventually runs into one of the

numbered openings. If he happens to select the opening you choose you are rewarded 30 to 1.

I have known some contrary mice in my time, but the mouse who was playing the leading role when I visited this town was 102. He approached the openings of my choice as if they had been baited with 10 pound cats.

No quarterback could stay around Las Vegas without developing a gambling instinct. Every other building houses a gambling place of one sort or another, and the citizens consider them as the citizens of other towns do the butcher shop, the bakery, the dry goods emporium and the dentist's office. If you don't like roulette or the mouse game, you can have a try at the leaping vortice, the bird cage, the faro bank, poker, bingo and horse races for 102. There may be another town like Las Vegas, but I'll be damned if I have run across it, and I've been a scout for Rand-McNally for 12 years.

Paul Waner Gets Pirate Release After 15 Years

PITTSBURGH, Dec. 6 (AP)—Paul Waner, for 15 years a fixture in the Pittsburgh Pirate outfield, today was a free agent, with permission to make a deal for himself among National league clubs.

The 37-year-old Waner was released by the Pirates late yesterday after playing with the team for 15 years, in three of which he led the National league in batting.

His brother, Lloyd, who came up with Paul from the San Francisco Seals, remains with the Pirates.

GOODING

Orchard Valley, Westport, Cedar Draw and Shoshone schools of Gooding county recently have begun serving hot lunches to the children at noon. Hagerman and Wendell have been carrying on the project for some time and next week the Bliss schools will begin.

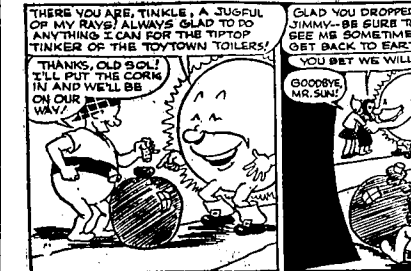

H. V. Holston, who has been a teacher at Westport, left Monday for San Francisco. Mr. Holston received a call to report for military duty and will be in civil service, employed at clerical work. Mr. Holston's wife, Mrs. Grace Holston, will complete the year teaching in the Westport school. Mrs. Bob Bryan is substituting this week and Mrs. Helene Millard, Shoshone, will take over the duties of Mr. Holston beginning next Monday.

BW club met Monday evening at the home of Edna Robinson for the monthly dinner meeting. Following dinner, a brief business meeting was held with Miss La Pearl Moore presiding. A donation of \$6 was voted for the P.-T. A. hot lunch and milk project, and also a donation for the Children's home in Boise. Program given by Miss Neil Lindsay was the review of an article, "The Refugee."

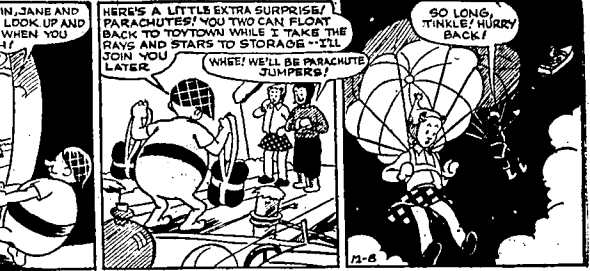

Gooding county rural schools are selling Anti-Tuberculosis stamps and is Wendell and Hagerman, the schools and health councils are cooperating in the sale.

Before and After Firemen Fix Toys for Needy Tots

They're doing Santa's job, are the Twin Falls firemen—but they're almost out of materials to work with. So the Twin Falls Junior Chamber of Commerce hopes for a handsome response to its toy show at the Orpheum Saturday morning and its toy collection throughout the city Sunday. Above, three firemen and a collection of battered playthings. At left, holding the broken doll is Bill Hansen; waiting the doll buggy is Ray Snow; holding the repaired doll and the renovated duck toy is E. O. Tyler. (Times Photo and Engraving)

Nazis Not Sabotaging U. S. Because They Know That May Push America Into War, Says Expert

By O. A. KELLER
With a wave of his hand to "my newspaper friend" each time he made statements he didn't want in print because of the season or another, Major W. H. Drane Lester, former assistant to J. Edgar Hoover of the federal bureau of investigation, last night informed a Town Hall audience at the high school auditorium that totalitarian governments are not resorting to acts of sabotage in this country "because they want to keep us out of the war, not get us into it."

MAJOR DRANE LESTER

Speaking with a strong southern accent, the Mississippi lawyer declared that "the real fifth column in this country, to be effective, will not be a foreign agent but rather a disgruntled American citizen."
"If you think there is any sabotage now, wait until the day after tomorrow is declared."
The speaker emphatically declared that it was "absolutely impossible" to protect all our basic industries from sabotage because the country is too big.
Speaking of espionage work here, Major Lester said that such acts will not be performed by the foreigners themselves but rather by some American citizen in most cases.
Sabotage and espionage do not worry him at the present time, the speaker declared. Something about which he is very concerned, however, is propaganda.
He pointed out that in his belief

the propaganda which is coming from Britain, and which is designed to get us into the war, is the most dangerous of all propaganda flooding this country from both sides. Adding that totalitarian propaganda is designed to "keep us out."
"English propaganda has led us to the belief that we may be attacked," Major Lester said. "It has scared us into the formation of a draft army. I don't believe that England cared for the formation of an army to protect us, but rather hope that that army will come down step in and save the empire."
"However, in this case, the propaganda worked to our advantage because we are now developing the army necessary to protect ourselves."
Termining this country "Uncle Santa Claus," the speaker said that he had not read one word of how much money England was going to get, or was getting, from India, Africa, or Australia or Canada.
"We are not told how much aid is coming or could come from those countries," the speaker said, "and yet we swallow lock, stock and barrel the plea for funds for England and also for credit for them."
"I would like to see these British possessions put some money into the kitty rather than the United States of America being called upon to do it all."

The latter remark brought applause from the audience and Lester continued by saying:
"Watch Own Interests
"Don't get me wrong. I'm not for Germany winning. I hope that England beats the socks off Hitler. But I do believe that we should be selected and look out for our own country first. There are hundreds, yes thousands, of American families needing help. Let's help them first and then, if there's anything left over, give it to the people of Europe."
The speaker also discussed the crime problem of the nation and declared records show that it doesn't belong on the doorstep of the foreigner, but rather "right upon our own doorstep."
He said that youngsters' educations should include respect for law and order, the real problem today being crime among youth.
He told of the modern methods of crime detection and said that for perfect control of crime "a tripartite setup is necessary, with the federal forces at one corner, the local forces at the second corner and all citizens at the other corner."
"The federal force cannot do the job alone. The federal and the local forces together cannot do the job. The most important side of that triangle necessary in law enforcement is you—the people of the United States."

Needed—Toys So Santa Can Help Children

Many needy youngsters of Twin Falls this year will not know the joy of Christmas toys unless more are received by local firemen for repair. It was announced today by Robert Greene, chairman of the Junior Chamber of Commerce toy project committee.
Greene said that results of the toy campaign to date show the number collected to be "far below" the number which will be needed.

Two More Chances
"We have two more chances to get the toys which will go to needy youngsters after local firemen fix them up," Greene said. "If we don't get them in these two more attempts then the project this year will be a failure and 'Santa Claus' will skip needy children of Twin Falls."
The "two more chances" to which Mr. Greene had reference include a toy show at the Orpheum theater Saturday starting at 10 a. m. and also a city-wide collection Sunday between the hours of 10 a. m. and 2 p. m.
The toy show, although it doesn't start until 10 a. m. tomorrow, will see the doors of the theater opening at 9:30 a. m. Admission will be one toy and the toy can be either new or used. It must, however, be repairable and it cannot be wrapped. Each toy will be inspected to determine that it is repairable before the child receives the toy is admitted.

Sunday Collection
On Sunday, four trucks will tour as many areas of the city for the purpose of collecting toys and taking them to the fire station. Persons wishing to donate toys of any description should have them placed on the front porch, or some like conspicuous place, before 10 a. m. Sunday.
Boy Scouts will man the trucks, which will be driven by employees of the firms donating them.
"We sincerely hope that the general public will cooperate in this project," Greene said. "The original collection last Sunday proved a failure and very few toys were received. We received many others from the Boys' club of the high school but the number is still inadequate."
"We have these two more chances to get the toys which will go to the needy youngsters. We trust that both the toy show Saturday morning at the Orpheum and the truck collections Sunday starting at 10 a. m. will be met by a generous response," Greene said.

Givens Speaks
UNIVERSITY OF IDAHO, Dec. 6 (Special)—Justice Raymond L. Givens of the supreme court of Idaho, is delivering a series of lectures on the Idaho Workmen's Compensation act to juniors and seniors in the college here. Justice Givens concluded his lecturing Friday.
