WAR OF GUNS BREAKS TRUCE

Nazi Troops Are Concentrated on Yugoslav Border

BY HAROLD PETERS

BUDAPEST, Dec. 27 (UP)—An unconfirmed report circulated today that German troops have concentrated on the Danube river on the Rumanian-Yugoslav frontier just north of the Bulgarian border and another report asserted the Rumanian minister to Moscow, Grigore Gafencu, has been ordered back to Bucharest.

Both reports lacked official confirmation. Communications with Rumania were almost at a standstill except for official telephone calls and messages. The rumor concerning the Nazi military concentration on the Yugoslav frontier asserted German troops had assembled on the Danube across from the Yugoslav town of Negotin. A report they already had crossed the Danube and were strung out between Negotin and Bucharest. Another branch railroad leading to Nis was promptly denied by the Yugoslav legation.

PEACE PROPOSAL SHOWDOWN NEAR IN U. S. CONGRESS

By LYLE C. WILSON

WASHINGTON, Dec. 27 (UP)—Scattered but impressive congressional proposals for an immediate American peace movement are prelude today to a showdown on methods and extent of a short war with Great Britain. President Roosevelt will present his plans in a fireside chat Sunday night and a message to congress on or about Jan. 3, the first day of the new session.

At his press conference, Mr. Roosevelt said that he had no news on peace proposals today. Asked whether if that implied that he might have something later, he repeated that he had nothing to say today. He was asked to comment on the Christmas arm truce between Great Britain and Germany. He was asked whether he cared to comment. He didn't care to comment. He would be comment on the German official spokesman's declaration that the United States' foreign policy was one of "pinpoint accuracy" in American waters for use by the British would be a "war like" action.

Proposals for "peace feelers" or use of American economic pressure toward an end of hostilities appear to be based partly on the theory that should be certain peace is impossible before determining British aid policies. The nation's perplexities are evident in Capitol Hill today. It has become a cross roads of public opinion as legislators gather for the 77th congress. The division of opinion among the members is reflected in certain factions among the American people. That may explain why President Roosevelt has been so reticent in utilizing the automobile industry to produce 500 pursuit planes daily is being considered seriously by the supreme court.

WASHINGTON, Dec. 27 (UP)—The federal government, acting "to protect the public interest," today entered the war against music publishers and broadcasters of music. Attorney General Robert H. Jackson announced the Justice department after Jan. 1 would institute criminal proceedings under the Sherman anti-trust act against the American Society of Composers, Authors and Publishers, the Broadcast Music, Inc., the National Broadcasting company and the Columbia Broadcasting system.

SERIAL STORY CHRISTMAS RUSH

BY TOM HORNER

JERRY'S SURPRISE

CHAPTER III
"MERRY CHRISTMAS!"

Jerry pulled deeper into his black hood. "Go 'way, Lemmo step."

"Merry Christmas, son," Dr. Connelly sat on the bed. "You were up. It's 10 o'clock. You have to hurry to make church service."

Jerry mumbled something unintelligible. The doctor persisted, his voice low and calm. "The girls brought their dates to midnight church. They'll be waiting there—so you'll have to go alone."

Kathleen's been demanding that you get up for an hour—she wants to have Christmas, open her presents... But Mother won't let her... Come on, son. Never say you sleep so late on Christmas. You used to be beating a drum at 4 o'clock.

"Do we have to sing?" Sheila demanded as they all gathered around the table. "We always have," Martha answered.

"Mother, it's old-fashioned—kid stuff. Besides, I've got to hurry. Tim's taking me skating at 11:30."

"Then, anticipating her mother's reaction, Sheila said in plenty of time. Dinner is at 2, isn't it? I'll work up an appetite."

"No dates for dinner," Mrs. Connelly's lips set in a firm line. "Christmas belongs to your family. Tim should be with it."

"Cleo?" Dr. Connelly interrupted. "She's celebrating with us. Santa seems to have left something here for you."

"Cleo, Praline Lawd!" "This has been going on, just like the other years. Each year, Jerry whispered to Mary, his arm was around her, drawing her into the family circle. They love it—Dad and Mother, and Cleo. Wait until she opens her envelope. It's good, even after 20 times."

"Christmas means so much to your family, Jerry," Mary answered, as Cleo bustled with tissue paper wrappings, shouted gleefully each gift was revealed.

Bruce Catton in Washington

By BRUCE CATTON
Evening Times Washington Correspondent

WASHINGTON, Dec. 27.—One reason why the President won't get the help-Britain business on a "loan or lease" basis without a sharp fight in Congress is that the isolationist leaders are still unconvinced Britain's supply problem is truly desperate.

"To support their skepticism they cite a couple of rather odd facts. One is that American munitions exports to Great Britain for the first 10 months of this year—by state department figures—total just \$134,822,363. For all of 1939, which of course included nine months of peacetime trade, the figure is \$31,000,000.

On the Tax Trail

The ever-sharpening hunt for more tax money is now blowing its hot breath on the back of the neck of property long considered as tax-exempt because it belongs to religious, educational or charitable institutions.

Such exemption is a matter of state action. States are tightening up. The North Carolina supreme court, for instance, has ruled that property owned by an institution must be used for institutional purposes to be exempt from taxes.

The National Association of Assessing Officers has led the trend toward such tightening up, citing properties as valuable as the Chrysler building in New York, which belongs to Cooper union and escapes taxes a result.

Such tendencies in times of higher government costs are inevitable and they suggest that in coming years seasons and legislatures will have a job to cut out for them to make rulings that will be alike to the general taxpayer and those who have become accustomed to a privileged position.

COLLEGE DOWNHILL SKI RACE SET SUNDAY

Spectacular Event Scheduled to Start at 11 a. m.

SUN VALLEY, Dec. 27 (Special)—In order to give more ski fans a chance to see the spectacular downhill event in the coming Intercollegiate Four-Event combined meet, the race, originally scheduled for Monday, has been moved up to Sunday at 11 a. m., the race committee announced today.

The cross-country event, the committee added, will be held Monday at 9 a. m., with the start and finish in Sun Valley.

The slalom will be held on the Roundhouse slope at 12:30 p. m. Tuesday and the jumping events New Year's day at 2:00 p. m., on the Rudd mountain 40 meter jump.

According to Friedl Pfeifer, the downhill event will be one of the most interesting races to be held in Sun Valley. The planned course is approximately a mile and three quarters long. It starts just above the run on Baldy which last year was known as "Rock Garden," but which has since been smoothed out and greatly improved.

Difficult Turn
The first high spot for the racers will be the difficult turn from the lower end of the "Rock Garden" into the Canyon run on Baldy's eastern face. The Canyon, greatly widened this year, is a very narrow and there is another trying turn into River.

Pfeifer said that the River run, while not as difficult as the Canyon, is a fast way to the bottom. But slower was on the more precipitous "Rock Garden" and Canyon run is to make the going easier in the section. Hence the winner will be the one who is best able to combine speed with his skill to the terrain underfoot.

Snow conditions, Pfeifer pointed out, probably the most perfect possible for a downhill race. The course is covered with a minimum of 22 inches of snow with hard-packed base underneath. At the time, the course will be packed, assuring the racers smooth running.

Better for Spectators
Several other factors add interest to the new skiing thing. It will be one of the first times that spectators at a downhill ski race will be able to observe the proceedings on the mountain. The race will start here today by Bill Powers, Wilcox coach.

The Negro club will tackle an all-star southern Idaho team banded together by Powers. This outfit will probably include Ed Kerpe, the former star of the Canyon, and other outstanding talent from this area.

Shaughnessy Credits Alertness, Quickness for Team's Success

By HENRY MELMORE
PARADISE, Calif., Dec. 27 (Sp.)—Why is Stanford in the Rose bowl?
This pointed question was put to Clark Shaughnessy during a jolt in the Indiana first workout for Stanford here yesterday. The head man from Palo Alto had an answer equally direct and concise.
"Because Stanford is the most alert and the quickest team I ever coached or ever saw."
These two virtues—quickness of mind and quickness of foot—credits with Shaughnessy's rise from coach to the top of the college football to the top of the profession. Shaughnessy placed them ahead of the famed "T" formation in importance, because as he explained, the "T" formation would have been a flop without the proper boys to operate it. The mysterious, he said, "it is as nothing as a grade for alertness, but the

All Prophet—No Loss

Young Fighter Gets Crack At Bill Souse

NEW YORK, Dec. 27 (Sp.)—Terrible Tom Maurelio, the Bronx terror, says "it's funny about my punch; it came all of a sudden."

A lot of guys have said that about other fellows' punches, but rarely about their own, because punching power usually is born with you or developed gradually.

But Maurelio's punch came so suddenly it will be used to lift the lid of Madison Square Garden's new boxing year, a week from tonight, although Traffic Tom never fought more than eight rounds before in his young life.

Now Starter
"I can't think this Souse out tonight in his own time, but I will do, he will get himself a very fine present for his 21st birthday, next day, when Promoter Mike Jacobs will give him a little match with Champion Ken Overlin.

Young Maurelio of the Bronx is unbeaten in 21 straight professional bouts, 18 of which he won by knockouts. Every professional opponent he met was on the canvas at least once. This kid can punch—ok, with either hand.

Maurelio's fight with Souse will be the first of the year for the young fighter. He was dazed, too, because the Souse was so quick and he was practically stranger to him, will be the 11 men who take the field for the kickoff against Nebraska.

The quickness Shaughnessy spoke of doesn't necessarily mean speed. It means alertness. It means that the player who is quick is ready. This latter may be able to do 100 yards in much better time, but not be able to handle himself with the quickness that is necessary for sharp-breaking plays. Shaughnessy has players with speed, but they are also quick, being just as modest a coach as a grade for alertness, but he

But once they were mentioned as a bowl prospect, eager eyes followed their every move and reported it through the newspapers.

It is probable that not one football fan out of a thousand can name off-hand two players on the Nebraska team.

East Picked to Make Clean Sweep in Bowls

NEW YORK, Dec. 27 (Sp.)—The East will make a clean sweep of the New Year's bowl games.

I'm playing a hunch and picking them as follows:
Rose bowl—Nebraska over Stanford.
Sugar bowl—Boston college over Tennessee.
Cotton bowl—Fordham over Texas Aggies.

Orange bowl—Georgetown over Mississippi State.
Sun bowl—Western Reserve over Arizona State at Tampa.

Shriner's All-Star game—East over West.

All the choices but the Eastern All-Stars are underdogs in the early betting but I'm still going to ride with the east because—

Rose bowl, Nebraska has plenty of power and is rich in reserve strength. It lost only one game—to mighty Minnesota—and that was only one game in three seasons. The battles of the season: Stanford won all its games on the Pacific coast.

STANFORD UNIVERSITY.
Calif.—Babe Hollingbery and Maitly Bell, co-coaches of the Western All-Star Shrine team, today said their squad had been working brilliantly on a muddy field.

DALLAS—Fordham's football team, which meets the Texas Aggies in the Cotton bowl, T. arrived here today. The Aggies were working brilliantly on a muddy field.

COLLEGE STATION—Coach Homer Norton hoped for an outdoor practice session for his Texas Aggies today, Rain forced them to work out in the college arena yesterday.

MIAMI—Mississippi State and Georgetown, opponents in the Orange bowl game here today, were ready to settle down for their last few practice sessions. Both teams arrived yesterday.

CLEVELAND—Western Reserve held its last heavy practice today before departing tomorrow for the Sugar bowl in El Paso where they will meet Arizona State on New Year's day.

PARADISE, Calif.—With all of his squad recovered from the influenza epidemic that had confined almost half of the team at one time, Coach Clark Shaughnessy returned today on time, and working the Indiana back into a winning working unit.

MONTGOMERY, Ala.—All-star teams from the north and south, who meet here in the Shriner's annual post-season game tomorrow, were scheduled for light sparring and limbering up exercises today.

NEWCASTLE, Calif.—Miss Coach Bob Neyland said his Tennessee football team needs plenty of scrimmaging before meeting Boston college in the Sugar bowl next week. He said the weather is competing against him. Boston college, training camp in the Sugar bowl next week, has the same problem.

EL PASO, Tex.—Arizona State's football team, sponsored at Western Reserve in the Sun bowl here Jan. 1, arrived here today to complete training.

PHOENIX, Ariz.—Coach Bill Ivey, following a week's concentration on a defense to stop Stanford's "T-formation" in the Rose bowl next Wednesday, plans to give his Nebraska backfield the last intensive work during the remainder of his practice time.

Conn Voted as Top Fighter Of 1940 Year

By JACK CUDDY
NEW YORK, Dec. 27 (Sp.)—"The Ring" magazine's annual rating of the world's fighters today proclaimed Maxie Baer the No. 1 heavyweight contender, ranking him above Billy Conn.

Pittsburgh's Billy may be mollified, however, at having won the magazine's "fighter of the year" award, which was voted the heavyweight King because of his victories over Maxie Baer and the Ring's board of 168 experts in the United States, Canada and Cuba.

The Ring's board of 168 experts in the United States, Canada and Cuba, when they tabbed madcap Maxie Baer as the top heavy contender, ranked him above Billy Conn, a virtually unbeaten fighter of the championship picture.

Second Two Victories
The Ring's board named Baer the leading contender because of his knockout victories over the outstanding heavy threats, Tony Galante and Pat Comsey, according to Editor Nat Plesch's copyright story in the Ring's February issue.

Commenting upon Conn's chances against Plesch, he said, "It is my prediction he won't last long against Louis' powerful wallop, and that defeat by the Bomber may force the heavy contender to the boxer in captivity."

Fighter of Year
Though Conn's victories over four big fellows were not as significant in the heavy division as Baer's two knockouts, nevertheless they won for Baer, 28 for Henry Armstrong, 27 for Ken Overlin, 17 for Louie Fisher and 12 for Max Baer.

The board's balloting gave the Ring its eight divisional leaders a following of 100,000 votes. High heavy, Conn; middleweight, Ken Overlin of Washington, D. C.; welterweight, Fritzie Zivic of Pittsburg; featherweight, Jimmy Terry of Baltimore; bantamweight, Jimmy Collins of Baltimore; flyweight, Jackie Paterson of Scotland.

OLD CITY HIDES BOMB MARKINGS; STATUES UNHURT

LONDON, Dec. 27 (U.P.)—Traffic in the Thames and on the streets flows almost as normally here as it does in New York.

In Trafalgar square, pedestrians walk about as though a war center with scarcely a glance into it, and around St. Paul's cathedral, they gaze up at the progress of workmen repairing bomb damage with about the same idle curiosity that Americans stand around building projects.

AGENCY FORCES REFUND OF PAY

Claimants who attempt to draw unemployment compensation benefits to which they are not entitled, may be required to return the money, it was announced this afternoon by H. A. Sallisbury, chief adviser.

Sallisbury made this announcement after receipt of word to this effect from Samuel D. Hays, executive director of the unemployment compensation and employment service divisions.

Sallisbury said that in a communication received from Hays today he was informed that more than \$6,000 has been returned to the benefit fund by claimants who received benefits to which they were not entitled. The two principal reasons why claimants draw benefits to which they are not entitled were listed as being (1) the improper reporting of part-time earnings during weeks of unemployment for which benefits are claimed and (2) improper statements by the claimant about being able to work and available for work during the weeks for which benefits are claimed.

"A perpetual control is maintained by the unemployment division," Mr. Hays wrote Sallisbury, "which will pick up any and all claimants who

Civil War Veteran Succumbs in Boise

BOISE, Dec. 27 (U.P.)—Elder Smith, 82, pioneer Irishman and one of the state's few remaining Civil war veterans, died last night at the Veterans' hospital here.

Smith, who was stricken with influenza five days ago, was at Appomattox when General Lee surrendered. He came to Idaho in 1856 at the close of the war, and settled in Idaho City. Smith was adjutant commander of the G. A. R. at the time of his death.

Funeral arrangements were not yet completed.

draw benefits to which they are not entitled. Their record of earnings from employers which is submitted at the end of each calendar quarter, a clearance with the department of public assistance and the WPA, the constant vigilance of field advisors who are located in the principal cities of the state and the assistance of public spirited employers make it almost impossible for a claimant to receive benefits to which he is not entitled either by deliberate misrepresentation or through misunderstanding."

REDUCTION SEEN IN CANAL HEADS

Stockholders of the Salmon River Canal company on Jan. 13 will vote on a plan calling for reduction of the number of directors from nine to five, it was announced this afternoon.

The revision is a part of proposed changes in the articles of incorporation of the irrigation company. With the five directors, the project would be divided into five districts, with one director being elected from each district each year.

If passed, the amendments would take effect on the second Monday of January, 1942. On that date the term of office of the directors then serving would terminate and the directors serving during 1941 would define the boundaries of the five districts, this job being completed by Sept. 1.

On the ballot, under the new system, each nominee would have the number of his district written on his name. Any stockholder is eligible for office but not more than one director will be elected from any of the five districts, it was pointed out.

Date for filing of proxies for the coming election has been set as Jan. 8.
