Lord Baden-Powell, Founder of Boy Scouts, Dies

Famed Soldier and Intelligence Chief Succumbs at Home

NAIROBI, Kenya, Jan. 8 (UP)—Lieut. Gen. Lord Baden-Powell, 83, founder of the Boy Scouts and Girl Guides and one of the most famous soldiers and military intelligence operatives of modern times, died today at his home at Nyeri where he had been ill for years.

Funeral services were announced for tomorrow. (Imperial Scout headquarters in London announced that Scouts throughout the world would attend synchronized observances at 8 o'clock today and tomorrow for Baden-Powell, either Jan. 12 or Jan. 13.)

On Last Trail

LORD BADEN-POWELL

Late FLASHES

Retires in 1938 Lord Baden-Powell had retired to Kenya in 1938 and had lived at Nyeri where he died.

Remains of the late Baden-Powell had been world famous for many years for his many exploits.

His greatest was his defense of Mafeking. Britain had been dispirited over its lack of progress against the Boers, when news reached London of the sturdy stand of a small British force against an overwhelmingly superior Boer force.

Defense Thriller He organized a defense that thrilled the world. He erected fake breastworks and fake cannons to make his little force seem impressive. He sent a small force of scouts out, dressed in military uniforms, and sent them to Africa, to show themselves and make the Boers think relief had arrived.

Baden-Powell entered the British army by accident. At school in England he had spent much time roving through the woods, trapping rabbits and learning to use an axe and a knife.

He heard of an army examination and went about to take it. He was second on the "for fun" list. He was second on a list of 700, which decided him on an army career.

A junior lieutenant, he went to India. There he tracked a superior officer's horse which had been driven into the mountains, and was put on scout work. He went (Continued on Page 2, Column 2)

COMMENT VARIES ON FDR'S BUDGET

WASHINGTON, Jan. 8 (UP)—Congressional comment on President Roosevelt's \$17,485,528,049 budget followed today.

Sen. Arthur H. Vandenberg, R., Mich.: My digestion is not good enough to take it down at one gulp. I will have to digest it some more before I can comment.

Sen. Tom Connally, D., Tex.: I'm for adequate national defense if it takes our airt.

Sen. Elbert D. Thomas, D., Utah: I am glad he did not forget social security.

"Just the Beginning": Sen. Burton K. Wheeler, D., Mont.: I hope the taxpayers will wake up to what is going to be the cost of fighting another European war. This is just the beginning and I hope they will stop and think long enough to realize what is going to happen to this country after the war is over.

Sen. Richard B. Russell, D., Ga.: I'm delighted the president put in parity payments for agriculture.

Sen. Democratic Leader Alben Barkley, D., Ky.: The budget represents a minimum of what we ought to do in regard to the defense program.

"The Menace": House Democratic Leader John W. McCormack: The American people will subject themselves to any taxes necessary to finance our defense.

Rep. Richard B. Wigglesworth, R., Mass.: When you jump off a monument the question is how long you are going to keep.

Rep. Frank Crowther, R., N. Y.: I don't think the time has come to say "the sky is the limit" on the national debt.

Chairman Carl Vinson of the House naval affairs committee: I'm in favor of cutting to the bone all non-military appropriations so we can concentrate on the defense program, and of levying taxes so we can carry the burden.

GERMANS BLAST FDR SPEECH FOR 'FALSIFICATIONS'

By JOSEPH W. GRIGG, Jr. BERLIN, Jan. 8 (UP)—German newspapers angrily denounced President Roosevelt's aid-to-Britain congressional message today and the Hamburg Fremdenblatt called him "war prolonger No. 1 and war profiteer No. 1."

First to comment on the message, after receiving like other newspapers instructions on its attitude, the Hamburg Fremdenblatt said: "The message was a pile of historical falsifications, irresponsible, invasive and unqualified spitefulness."

"It lifted the mask ruthlessly from war prolonger No. 1 and war profiteer No. 1—Franklin D. Roosevelt."

Marked "Proactive": Informed German sources disclosed that inspired comment on which newspapers in over the country would base their editorials, would call the President's message "provocative, and marked by arrogance which could hardly be exceeded."

As regards the German official attitude, the sources said it would be "marked by the same party before it came to power."

"Comrade, do not let yourself be provoked." Inspired comment is that "no matter how much war material the United States sends to Britain it can do no difference as to the outcome of the war," informants said. They added: "Roosevelt's complete lack of understanding of the present great processes of historical development in Europe makes himself and the United States people victims of Germany, Italy, Russia and Japan."

"Nothing Worth While": Intrinsically, informants said, there is nothing in the President's speech to make official comment worth while. Therefore, they said, they would not give correspondents "informative" or inspired comment to be published in German newspapers.

The German press will not withhold the contents of the speech from the German people," informants said. It is significant, they said, that the speech, in its consideration with the recent falsified news, contains nothing particularly new.

"The chief difference (mentioned informants) is that the speech (to congress) by the President of 120-000 American people in a still more undignified manner and more excited tone completely ignores the historic processes at present at work in the world."

"The speech was provocative as regards the axis powers and their friends."

WAR BACKGROUND ASKED FROM HULL

WASHINGTON, Jan. 8 (UP)—The senate foreign relations committee today asked Secretary of State Cordell Hull and his aides to furnish a "confidential" background picture of the European war and other world events.

Chairman Walter F. George said the invitations would be extended to the cabinet officers and their staffs to establish a better basis for close cooperation between the executive and legislative branches of the government.

17 Billion Dollar Budget to Cost \$2; Weight 4½ Pounds

By United Press WASHINGTON—The 1942 budget of the United States is \$17,485,528,049, but you can get it all for \$2. That's the price at the government printing office if a paper-bound copy will do. For the same price, it weighs 4½ pounds and looks like a metropolitan telephone book.

Getting the budget down to the minute: The government will be spending \$17,485,528,049 in 1942, compared with \$10,000,000,000 for the current year.

President Roosevelt's budget stuck at least one member of the house today. When the reading clerk called off the figures, a whistle shrieked in the chamber. "What the devil is that?" asked the speaker.

BUDGET AT A GLANCE

Further engineering study of several power sites in Snake river canyon north of Idris, the proposed development of which resulted in numerous protests from sportsmen last summer, was announced today by Ralph W. Carpenter, Twin Falls division manager of the Idaho Power company.

The power company, which has held its development of these sites in abeyance since objections to previous plans arose, now plans to refile on the Box canyon and Crystal and Niagara springs sites, in the hopes that revised plans for these proposed developments will prove satisfactory in every respect.

Careful engineering studies have eliminated previous difficulties in connection with these locations, Carpenter said, "and special consideration has been given to the natural beauty of these sites."

He explained that the power company was of the understanding that the chief objection to the original proposal resulted from the plans for the development of Box canyon, where water would be diverted from the canyon and delivered through a power plant located just outside the canyon's confluence with the Snake river.

Feared Flaming Huhn Many sportsmen protested that the development of Box canyon, which would be diverted from the canyon and delivered through a power plant located just outside the canyon's confluence with the Snake river.

Asks 17 Billion Dollars to Help Nation's Defense

By SANDOR S. KLEIN WASHINGTON, Jan. 8 (UP)—President Roosevelt today laid before congress a \$17,485,528,049 budget "for the total defense of our democracy."

He served notice he soon will ask still more billions to provide munitions for Britain and other countries battling the axis.

Informed legislators talked in terms of \$3,000,000,000 to \$10,000,000,000 for helping Britain over a long period. Any such sum would push the budget for past \$20,000,000,000.

But today's budget was all for America—an America in which the president said "democracy as a way of life is at stake."

It is going to cost the taxpayer a lot more to defend his stake than he is paying now and there will have to be many more taxpayers, but Mr. Roosevelt made no specific recommendations for new taxes. The when and how of the payroll will be worked out at conference between treasury and congressional experts and Mr. Roosevelt said that he hopes that the result will be a completely revised and improved tax system. His broad recommendations for the rule out such restrictive taxes as sales levies in favor of higher assessments on incomes, particularly the losses fattened by the defense program.

Shatter All Precedents The figures he presented for the 1942 fiscal year, he indicated, shattered precedents in almost every category.

Projected spending bill within a billion dollars of the 1918-19 all-time high when the nation actually was at war.

Under that reconstruction plan, which takes effect Feb. 1, three fleets will be set up: The Atlantic, the Pacific and the Atlantic-Each will be placed under the command of a chief.

He said no change in the size of the Atlantic fleet and it has authorized the dignity which warrants setting it up as a separate fleet.

He said no change in the size of the Atlantic fleet and it has authorized the dignity which warrants setting it up as a separate fleet.

The increase in enlisted strength also, applies to reserves. Knox said that as the fleet grows, further increases will be made.

Naval Commander Fleet Admiral Husband E. Kimmel will become commander-in-chief of the Pacific fleet with the additional title and duty as commander-in-chief of the United States fleet. He will succeed Admiral James O. Richardson, the present commander-in-chief, who was ordered to report to Knox for undisclosed duty.

The Atlantic fleet will be placed under Rear Admiral Ernest J. King, present commander of the Atlantic patrol force.

The Atlantic fleet will continue under the command of Admiral Thomas C. Hart.

Despite the huge revenue, the deficit will be \$2,100,000,000. It is the 12th consecutive deficit and the largest in peacetime since the war.

The national debt will reach \$69,300,000,000 by June 30, 1942, Mr. Roosevelt carried out his present deficit all statutory limits on the debt should be removed. The present limit of \$49,000,000,000 will be passed this June 30.

Every American, Mr. Roosevelt said, regarded the necessity for leadership in peacetime with almost expenditures.

"A way turn of fate places the burden of defense on the backs of a peace-time people, but we must see that the burden which cloaks leads to the house and senate.

"The whole program set forth in this budget has been prepared at a moment when the nation could see all the signposts ahead. One marker alone stands out all down the road. That marker carries with it a message of defiance as a command to defend our democratic way of life."

The message contained little more (Continued on Page 8, Column 2)

NEW SUPER DEFENSE AGENCY STARTS "ARSENAL" DRIVE

PRESIDENT PICKS KNUDSEN LEADER OF ORGANIZATION

By T. F. REYNOLDS

WASHINGTON, Jan. 8 (AP)—President Roosevelt's new super defense agency, ready to subordinate everything in national life to rearmament efforts, began its drive today to make the United States the world's great arsenal for the defense of democracy and freedom.

OPM—the office for production management—was created by an executive order. It came into existence last night when Mr. Roosevelt signed commissions of the four members—Industrialists William S. Knudsen, Labor Leader Sidney Hillman, Secretary of War Henry L. Stimson and Secretary of the Navy Frank Knox.

Not since Woodrow Wilson made Bernard E. Baruch chief of the war industries board during the World War has the United States moved so close to rigorous federal regulation of national economic life. For the first time during the present emergency—which Mr. Roosevelt has warned is "as serious as war itself"—the national rearmament effort will be delegated to a small organization.

Hansen Juniors To Present Play

HANSEN, Jan. 8 (Special)—The play "The Man From Nowhere," junior class play to be presented Thursday at 8 p. m. at the Hansen high school, is being directed by Richard Paris, music director and class advisor of the junior class.

The play deals with a terse situation concerning a strange young man's appearance in a small town, and his resulting troubles when he steals the heart of the village belle. What appears to be a cliché case of robbery against the young man suddenly falls through and has a happy ending.

The cast includes Anne, charming young girl of 20, Louise Gaultney; Hilja, young Swedish maid, Virginia Somerville; Mrs. Craddock, sharp tongued woman of 60, Dorothy Cowan; Dora Fry, bold and extreme in everything, News Stanger.

The timid old maid, Eunice, is portrayed by Marjorie Tysor; Rodney, whimsical though charming young man, Charles Anderson; a strapping young man of 25, Bruce Walker; Mr. Graydon, easy going man of 50, Reed Holley; the typical absent-minded professor, Marvin Washburn, and Mr. Cox, a bulldog of a man, Edward Blevins.

GATHERINGS SET BY FARM GROUPS

JEROME, Jan. 8 (Special)—Several important meetings for promotion of various agricultural and livestock products are scheduled for Jerome county and southern Idaho during the rest of January. Meetings to be held in Jerome county include the annual meeting of the Jerome county marketing association Jan. 16 and Potato day, Jan. 23.

Members of the marketing association who will sell lambs and hogs through the pool will meet at the court house at 1:30 p. m. Jan. 16. At this meeting they will hear a report of the past year's business, elect officers for the coming year, and hear several prominent livestock speakers. Of special interest will be the report of E. P. Rinehart, extension livestock specialist. A special meeting to avoid injury will be shown, Spud Day.

Potato day, scheduled at the Moose hall in Jerome, Jan. 23, will include an all-day meeting with exhibits, talks, motion pictures, a soil clinic and a handling contest of interest to potato growers. The county Chamber of Commerce is assisting in sponsoring the meeting in the county.

Meetings held outside the county but which will be of interest to many Jerome county farmers, include the conference for cooperative associations, pea growers' meeting, and the Idaho woodgrowers' meeting. The conference for cooperatives will be held at Caldwell, Jan. 8, and at Idaho Falls, Jan. 10.

Indian Planned Return From 'Happy Hunting,' Judge Rules

SALEM, Ore., Jan. 8 (AP)—Just before Tim Brown, 60-year-old Klamath Indian, died in 1936, he had \$75 in gold placed in his hand, a bottle of whiskey put in his pocket and food laid on his grave.

He couldn't read or write, so he had J. O'Neil, Klamath Falls attorney, draw up his will. He cut off his own relatives with \$1 each and left his \$229,000 estate to O'Neil and a friend, Frank J. Schmitz.

Today, the Oregon state supreme court held O'Neil and Schmitz couldn't have the estate on the ground that Tim expected to return from the happy hunting ground and only wanted the money held in trust for him. The estate will probably revert to Tim's sister, Emily Weeks, who contested the will.

In reversing a lower court decision which had awarded the money to O'Neil and Schmitz, the high court held:

"In keeping with the belief of many old Indians, Tim believed when he died he was going on a long journey to the happy hunting grounds, and some day he would return to enjoy his estate. The evidence shows such was his religious belief. Otherwise, why did he have them put \$75 gold in his hand, a bottle of whiskey in his pocket and meals on his grave?"

"Tim knew he was coming back."

RUSSIANS BOOST COPPER IMPORTS

WASHINGTON, Jan. 8 (AP)—Russia, which imported little American copper before the war, now is this country's third best copper customer, the bureau of mines said today.

Russia imported 108,955,900 pounds of American copper in the first 11 months of 1940. The United States sold 45,496,194 pounds of copper to Russia in 1939, mostly after the war started.

British Minister of Economic Warfare Hugh Dalton recently charged that American war supplies are reaching Germany via Vladivostok, Siberia.

Italy bought more American copper than in 1939. Japanese purchases lagged a little behind those of the previous years but that country remained first in total imports of American copper.

Italy imported 56,028,758 pounds in 1939 and 67,872,284 in the first 11 months of 1940. Japan's imports of 24,276,881 pounds in 1939 dropped to 22,065,811 in the first 11 months of 1940.

Smelter production of copper from domestic ores during the year, the bureau said, was 1,814,000,000 pounds, an increase of 21 per cent over the 1939 output of 1,425,343,488 pounds.

REVISE

STANFORD UNIVERSITY, Calif., Jan. 8 (AP)—Prof. Paul R. Farnsworth of Stanford's psychology department today revised the order of the Ten Commandments in the light of modern social importance, on the basis of a survey of students and teachers.

Farnsworth asked 119 Wisconsin students, 53 Stanford students and 55 "old maid" teachers of Wisconsin to re-rank the Commandments of Mt. Sinai as they would best apply to the modern world. The consensus ranked the Commandments in this order, with their Biblical number in parentheses:

- 1—Thou shalt not kill, (6).
- 2—Thou shalt not steal, (8).
- 3—Thou shalt not commit adultery, (7).
- 4—Thou shalt not bear false witness, (9).

BOISE, Ida., Jan. 8 (AP)—Union Pacific railroad officials today announced the schedule for potato meetings and exhibits which have been arranged in cooperation with state agricultural colleges, county agents and local officials.

The exhibits will be moved from Lewins and cities of Oregon, Washington, Idaho, Utah, Colorado, Nebraska and Wyoming in a challenger merchandise car.

The potato train was organized this year after exhibits which toured the United States received a good reception, officials said.

The tour started in Redmond, Ore. Jan. 8, and will end at Torrington, Wyo., Mar. 1.

First Idaho towns to view the special train will be Lewiston, on Jan. 13. On successive dates, the train will be open for inspection at Wiser, Jan. 14; Payette, Jan. 15; Caldwell, Jan. 16; Gooding, Jan. 17; Shoshone, Jan. 20; Rupert, Jan. 21; Burley, Jan. 22; Jerome, Jan. 23; Twin Falls, Jan. 24; Blackfoot, Jan. 27; St. Anthony, Jan. 28; Rexburg, Jan. 29; Tully, Jan. 30, and Idaho Falls, Jan. 31.

CROWDS KEEPING KETCHUM ACTIVE

KETCHUM, Jan. 8 (Special)—The past few days registered some extremely cold weather, the mercury dropping to 23 below at Sun Valley and Ketchum, with about 12 below at Hatfield. It also brought a crust to the new snow, which has made the going a little tougher for some of the ski parties, though the various runs are experiencing good crowds.

Hotels and auto camp accommodations are in demand and that condition will prevail well into February, according to reports from the various institutions. Inquiries are reaching the Chamber of Commerce from nearly every state, and some dates have been made several weeks in advance.

CONSCRIPT'S WIFE

BY BETTY WALLACE

Bill was beside her, his arms enfolding her. And in his fingers, that white paper. "Martha, this is it!" he said. "I've been drafted!"

But he didn't think they'd take Bill, either. It was only when Bill was ordered to report for a physical examination that they became uneasy. "And I'm so damn healthy!"

"Wait, Paul comforted. 'Wait till they get a load of your knock knees.' 'I'll have you understand, Martha informed him proudly, 'my Bill has beautiful knees.'"

Bill's voice brought her back to the little blue breakfast nook and the reality of the present. "Quit dawdling, Martha. Paul and I must hasten to present ourselves, give our pedigree, all for the glory of the cause."

THEY were to remember that, later, when the questionnaire came. Because Bill Marshall's service had been among the first drawn in the national lottery in Washington.

Bruce Catton in Washington

By BRUCE CATTON, Evening Times Washington Correspondent. WASHINGTON, Jan. 8.—Gov. Gilbert L. Olson of California rolled one right down FDR's alley when he was elected to the Central Valley Authority for the next Central Valley project in California: Nevertheless, Olson's plan has a big skeptical of the plan's chances.

THESE ROADS, ALL ROCKY. Power distribution systems all up and down the Central Valley are being tied up in the huge network of the Pacific Gas and Electric Co. and the public power authority operating in the valley could do one of three things—duplicate the distribution system, at great expense and likely on a non-profit basis, acquire P. G. & E.'s lines by a tender, expensive and unduly prolonged process of condemnation, or simply sell power at the dams to P. O. E. for transmission.

It Is No Longer Ours to Decide

It would be fine indeed if the United States faced the simple decision of whether or not it wished to go to war.

But it does not. That momentous decision now rests largely with others, with circumstances and developments, not all of which we can foresee.

Our key decision has been made—all aid to Britain short of actually going to war. In line with carrying out that policy, we shall face a series of more concrete decisions in detail. Every new phase of the aid-to-Britain campaign, every new means and kind of aid extended, means a separate problem, a new decision.

It is along the line of that series of concrete proposals for further aid that the battle of public opinion must now be fought.

Any one of these new steps may lead to a declaration of war against the United States by Germany, Italy, Japan, or all three. We might as well face that. The United States is not going to declare war against any of them. But it has decided on its own course in the light of reason, justice, and right. It will steer that course. If there is any war-declaring, somebody else must do it. We face the fact that they may.

It is very hard to see how the United States course can be interpreted as war. By whom? By nations which dumped seasoned troops, trained pilots and bombers, as well as unlimited material into a civil war in Spain—and said it was not war?

By a country which has had vast armies conquering half of a neighbor country for three years—and says it is not war? By countries which receive a constant and quite similar stream of war supplies from Sweden and Russia—and back up those countries' claim to neutrality?

It is indeed difficult to see how countries in those positions could claim that the sending of war supplies to Britain is an act of war. But they might. To that extent the decision is no longer our own.

The key decision of general policy has been made. We will not be turned from that. The only room left for argument is in details of what shall be furnished, and now.

We wish war with no nation. But the threat of war is not going to turn us from the path we consider wise and right.

We have put our hand to the plow. We must meet the test which Jesus set for the hesitant follower in the Gospel According to St. Luke: "No man, having put his hand to the plow, and looking back, is fit for the kingdom of God."

A Time of Opportunity

Most of us think of these as pretty scabby times. Our lives are interrupted, our spirits are frayed, and wherever we look about us there is no peace.

Yet Dr. Alexis Carrel, who looks at mankind from a somewhat longer viewpoint than most can achieve, believes "there has perhaps never been a moment so opportune for human progress."

Responsibility, sacrifice, and heroism are as essential to health, strength, agility, and endurance, Dr. Carrel believes, and moral training, too long neglected, should be added to physiological training. He believes it possible in America today to develop "men of greater physical and spiritual value than have lived at any other time in the history of the world."

It is easy today to look downward and backward. It is good that we have still some men who can look upward and forward.

The Plastic Age

Changes in the everyday things of life come so slowly that we feel that they do not change. The automobile, the telephone, radio, come upon us by natural degrees, and take over great positions in our lives so insidiously that we do not realize it at all.

So with those new materials, plastics, which little by little are moving in on our daily life. A model stood the other day in Boston's Institute of Modern Art, clad from head to foot as follows: Hat and raincoat of exylon, bathing outfit of rayon; nylon stockings and a vinylite handbag with lucite knobs; imitation rattan shoes with lignin heels; cellulose acetate parasol with plastic handle; heads of lucite.

In short, here is a mannequin, dressed throughout in materials which were utterly unknown 20 years ago, utilizing raw materials not used for such purposes before. The effect not only on our daily life but on our economy is not yet measured, but both will be very great.

Psychologist of Albion Blacklists 'Baby Talk'

Parents—yes, and grandparents, too—shouldn't permit or encourage "baby talk" on the part of their young hopefuls, even if it does "sound cute". That was the opinion of Richard L. Averill, professor of psychology at Albion State Normal school, who addressed members of the Business and Professional Women's club Monday evening at the Park hotel.

"Baby talk" and other speech defects or abnormalities can become a permanent handicap if not corrected early. It is estimated that one out of every 100 children in the United States with some sort of speech handicap. According to Prof. Averill, there are four approaches to these defects: physical, mechanical, mental and emotional.

Mental Hygiene
Stressing the importance of teaching mental hygiene, the speaker defined it as a philosophy, or a point of view, that seeks to establish the best conditions under which a child can learn.
"Accurate, articulate speech is essential to a well-integrated personality and learning is a step-by-step procedure. Proper supervision and guidance early in life are absolutely necessary," he pointed out. The most formative time in a child's life is from 12 to 36 months of age. At the end of that time speech defects can be detected.
Outlining some of the emotional phases of speech defects, he said that stammering, stuttering and

COULDN'T RETAIN FOOD

TILL HOYT'S COMPOUND MADE ME A NEW PERSON

Mr. Holt says Acid Taste, Gas, Bloating, Headaches, Indigestion and Constipation were Aided by Hoyt's.
If you suffer from physical misery, you should not hesitate to learn about and try Hoyt's Compound, the modern, concentrated liquid extract of medicinal roots and herbs so popular everywhere today. Such well-known people as Mr. D. W. Holt, of 140 Adams St., Twin Falls, praise it generously. Mr. Holt states: "For years I suffered with indigestion. Foods laid in my stomach like a solid heavy ball, causing an acid taste, gas and bloating. Very often I could not retain my food at all. I was constipated and needed strong cathartics. I had sick headaches, and because my nerves were so bad, I couldn't get a night's sleep."
"Then I tried Hoyt's Compound, and since that time I am feeling like another person. I eat what I like, and enjoy my meals. Gas, bloating, acidity, and vomiting spells have left me. My bowels are natural and regular. All my nervousness is gone, and when I go to bed, I can get a good, sound, restful night's sleep. When I get up in the morning, I am feeling fine, and ready for a good day's work."
"Sufferers, why not take the advice of Mr. Holt and of countless like him who recommend Hoyt's Compound for the very good reason that it has renewed their health? Come to, or place an order with the Majestic Pharmacy, its \$1.25 per bottle, \$2.10 for two, so you can save 31 cents. Hoyt's Compound is also recommended and sold by all leading druggists.

DEATH

Rode Our Highways

The Black Flag has flown... and all Magic Valley mourns Monday's fatal train-car accident. Nine times the consecutive series of White Flags, which fly so proudly in your daily newspapers, has been interrupted—this time after a march of 25 days without a traffic death. Not once during the dangerous holiday season did the Black Flag fly!

Help Keep The White Flag Of Safety Flying in Magic Valley!

The Black Flag Is In Retreat... but...
The Black Flag Need Never Fly!

Since a group of Twin Falls merchants united to sponsor the White Flag campaign of highway safety... traffic fatalities have decreased. Present figures indicate that the year of the program will bring a decrease of eight traffic deaths.

But that is not enough. Even if YOU... driver, pedestrian, passenger... continue to practice sanity on the highways at the present rate—even then, 31 Magic Valley homes will mourn traffic fatalities during the year.

The White Flag has just finished its longest continuous flight... 25 days. Today it begins another attempt to fly uninterrupted. For a month? For two months? For a year? You decide. Help keep it flying. As a constant reminder that many lives can be saved by careful, considerate driving... Twin Falls merchants urge you to do your share.

We CAN Reduce Traffic Deaths...
We Have!

B-Club Rejects Proposal to Join Southern Idaho Fish, Game Group

Members of the B-Club of Sportsmen today had taken a decided stand that future operations of the organization would be "planned for the benefit of sportsmen and residents of this section" and that the Southern Idaho Fish and Game association members could "work out their own program."

This declaration was made last night during the annual meeting of the B-Club membership held at the Chamber of Commerce rooms. The meeting was called by George Van Tilburg, retiring president, had informed club members that a proposal to consolidate with the Southern Idaho group, which was advanced by that group, had been in turn voted down by a vote of directors of the fish and game body.

Planned Consolidation The proposal, Van Tilburg explained, would have seen the two units consolidate as one club with four members of the Southern Idaho body and four members of the B-Club on the board of directors and with the president coming from the Southern Idaho unit.

Under the original proposal one "objectable" member of the Southern Idaho board was to have resigned. The B-Club directors, however, asked that the names of two "objectable" persons. After conferences which lasted through-out Sunday the Southern Idaho of the board voted against the consolidation.

Reads Letter In a letter from Larry Bassett, Southern Idaho secretary, which Lud Drexler, secretary of the B-Club read at last night's session, the B-Club membership was asked to come to the other organization's annual meeting, slated next Tuesday night at the Idaho Power company building, and participate in the election of three directors. The possibility was seen that the three could be selected from among B-Club members.

Those members of the B-Club present at last night's session applauded when W. R. Pribe suggested that "we keep our own good men in our organization and not give them to the Southern Idaho club to serve as directors there."

It was the general opinion at last night's session that if any B-Club members would participate in the Southern Idaho session next Tuesday night, it would be for the purpose of membership of the B-Club is the strongest organization of its kind in this section of the state.

Increase Directorship Because of another "heavy" program anticipated for the coming year a vote was taken last night on the directorship was increased from five to nine members. After the voting was completed the following officers had been elected to serve the coming year: Dr. George Scholer, chairman; George Van Tilburg, vice chairman; Lud Drexler, secretary; Earl Davidson, treasurer; Roy Atwood, Harold Halverson, Lawrence Murphy, Phillip Olsen and Ben Moore.

Appointment of committees will take place at the next regular session with exception of the chairman of the membership committee who was named last night. Mr. Davidson, who was named by Dr. Scholer to head the committee, said that membership drive would get underway in the immediate future. The club will be divided into two sections for the drive and the rural area will also be canvassed.

Bass Planted A report given by Drexler showed that 31,005 bass, from six to 12 inches long were planted in Salmon dam last year. The cost of approximately \$330. Other fish planted through efforts of the club include 15,000 rainbow trout at Anger falls in the Snake river; 51,500 rainbow in Salmon dam; 35,000 rainbow in Magic reservoir; 80,000 perch in Mountain Lake; and 174,000 more rainbow trout in Magic.

Five members were named to represent the club at the state session of the Idaho Wildlife federation at Boise Saturday and Sunday. They were Drexler, Pribe, Dr. Scholer, Van Tilburg and Davidson. Possibility was seen that two more members will make the trip. Pribe is vice-president of the federation.

King Hill Scores "Moral Victory" Over River Pilots

KING HILL, Jan. 8 (Special)—King Hill basketball team scored a "moral victory" over the Inland Empire Perry club here last night. While the Perryemen came out on the long end of the score, the home club connected with their first basket in two games with the victors. Score last night was 14-5 for King Hill, with the home club getting one basket and three free throws. While the two clubs met last week Empire Perry scored a 21-0 victory. Last night's game was a great River Pilot defense doing a good job again and the score at the half time was 4-2. The game was won by King Hill with four points, while James Wood topped King Hill with three.

Preliminary game the Empire Perry girls score a 40-23 victory leading the home club all the way.

Castleford and Hansen Cagers Split Two Games SALT LAKE, Jan. 8 (Special)—Castleford and Hansen basketball teams broke even in a double-header here last night with the home team annexing the "big" contest of the evening by a score of 25-22.

The preliminary extra went to the Castleford reserves by a lumpy 27-9 count. In the final, Castleford held a narrow 10-6 advantage at the half time, but the home club climbed back to knot the count at 20-20 and then more shot to victory. High scoring honors went to Castleford of Hansen and Shaver, Castleford, each with 10 points.

THE SCOREBOARD

While NEA Sports Editor Harry Grayson vacations, The Scoreboard is being edited by reading editors and sports authorities. BY GORDON WILLIAMS Reading, Tenn., Times Sports Editor He's admired by every person who knows the difference between a brass and a niblick. Fellow pros call him the greatest golfer alive. Newspapersmen write about his putting and his powers of concentration on the course. Yet, he is "stranger" to all. Your observer refers to Byron Nelson, 1935 National Open champion, 1940 P. G. A. titleholder, and recent winner of the Miami 1939 Open after three years for three year professional at the Reading country club, now is located at Inverness Country club, Reading, Penn.

GRAND JUNCTION, Colo., Jan. 8 (Special)—A veteran Weber basketball team will tangle with Albion Normal at Albion Saturday, Jan. 11, in a game which will be an important one for the Mountain Junior college conference. Seven men, Childs, Snelson, Oskander, Johnson, Clark, Bell and Oskander, are the letter winners on the Weber team that recently defeated Montana State, 72 to 62. In addition to the veterans, Coach Reed Swenson has some promising freshmen from the nearby high school team of last season, including Hanney, Bodin and Larson. Coach Orville Holt's Albion hoopers are scheduled to play a powerful contest at Albion.

Show college of Ephraim, Utah, leading champions of the circuit, are slated to have another smooth functioning contest. Conference games this week are: Jan. 10—B. A. C. vs. Carbon at Price; Snow vs. Grand Junction, Colo.; Dixie vs. Weber at Ogden, Jan. 11—Weber vs. Albion at Dixie; Snow vs. Grand Junction; Snow vs. Carbon at Price; Dixie vs. Westminster at Salt Lake City.

Bulldogs Edge Eden Quintet

KIMBERLY, Jan. 8 (Special)—The heavy-scheduled Kimberly Bulldogs nearly bit off more than they could chew here last night in a tough Eden Grizzly band—but stayed off a last half rally to win a 26-25 victory. The win gave Kimberly an even break for the evening, as the waiting second team came from behind a 10-6 disadvantage in the first contest to score an 18-15 victory. The varsity battle found the two quintets tied at 7-all at the end of the first quarter. Coach Bill Sorenson's club moved into a 16-11 advantage at the half and when the final quarter got under way the score was 20-10—still for the Bulldogs.

The Eden quintet threatened all during the last period, but never quite caught up—the point-margin as the game ended being the closest they ever got. Outstanding games were turned in by Woodland, Kimberly, art, who connected for 12 points, and Barnhill, Eden, who got eight counts. On the defensive side, Bob Emerson, Kimberly, and Bode, Eden, put out good games. During 1935 only four automobiles were registered in the United States.

JOBLESS BENEFIT PAYMENTS CLIMB

Unemployment in Idaho is again on the increase, it was reported here today in a communication received by officials of the Idaho state employment office from the unemployment benefit commission and employment service offices of the industrial accident board.

The communication showed that a total of \$137,239 was paid in unemployment benefits during the month of December, 1940, the amount exceeded by \$41,613 the amount of benefit payments during November, 1940 and \$49,089 the amount in December, 1939.

Initial claims for benefits were filed by 3,334 unemployed workers last month. This is the highest number of initial claims for benefits filed per month since May, 1940.

The state auditor, the communication issued \$150 benefit checks during December in payment for 12,213 weeks of unemployment. The \$137,239 distributed during the month represents an average weekly benefit payment of \$11.24.

The communication pointed out that it is not unusual for unemployment to increase this time of year because of weather conditions and the seasonal nature of certain industries dependent upon good weather for the continuation of their activities. It is, however, the communication continues, noteworthy that unemployment this year exceeds unemployment last year. It is evident that the national defense program and the upswing in employment generally throughout the United States does not reach into those basic industries in Idaho, which are responsible for unemployment during this period of the year.

COUNTY'S DOCTOR HAS BUSY SLATE

During the month of November a total of 299 office calls was handled by Dr. J. H. Murphy, county physician, a report released this afternoon.

In addition to the office calls, the county physician made 298 hospital calls during that period. 27 house calls, performed by Dr. Murphy, included one major and 12 minor operations. Only one other local physician reported on inpatient work during November, Dr. Murphy said. The report of that particular physician showed 10 office calls and two house calls cared for.

Pilot Takes Plane off In 3 Inches Water, Mud

EDINBURG, Tex., Jan. 8 (UPI)—Licut. Murray Hanson, who brought a 13-ton navy bomber down in a spectacular forced landing on a shallow Texas lake last Thursday, accomplished a feat almost as difficult yesterday when he took the plane off safely.

The big bomber was tilted down in mid and three inches of water. It was stuck so fast that Hanson and Ensign Robert Clark could not even turn its nose into the wind.

But they got a tractor to pull the ship around. Then they un-

Cattle on Cassia West Area Of Forest Show Big Decline

Number of cattle grazing in the Cassia west division of the Minkola national forest during the past two years is 25 per cent below a few years ago and approximately 50 per cent below the maximum number grazed several years ago, Forest Ranger Emer C. Ross said today in a report released here.

In the report it was pointed out that 53,000 acres of the 24,000 acres in the west district are used exclusively for cattle grazing while the cattle also share an area of the same size in the east district. The cattle range has been in use since 1870.

Causes Listed

Reduction in the number of cattle grazed has been caused by range depletion resulting from drought and other factors, the report shows. It is an "incomplete drought" conditions more than 25 springs had been developed and trenched to furnish additional watering places and the number of such developments increases from year to year, Ross said in the report. He added that a majority of the de-
