IDAHO HOUSE KILLS 4-YEAR SCHOOL AT POCATELLO

BALLOT OF 36-25 ENDS FIGHT FOR CURRENT SESSION

BOISE, Feb. 12 (AP)—The Idaho house of representatives late yesterday killed a bill to establish a four-year university at Pocatello, but supporters of the proposal served notice immediately they would continue the fight until victory.

The measure to make the southern branch of the University of Idaho a degree-granting institution was rejected by a vote of 36 to 25 with two paired, after more than three hours of debate. The vote closed the bill for this session of the legislature.

However, Rep. F. M. Bladine, D-Bannock, leader of southern legislators, gave notice on the house floor the battle would continue.

"If we don't get a full-fledged university now, we will get it some time in the future, and I feel that challenge now," Bladine said in closing debate on the bill.

Hearings Conducted

Hearings on the bill had been conducted by a 10-man committee appointed in a compromise move last week when northern and southern forces appeared deadlocked on the issue. However, southern legislators decided to bring the measure onto the floor for debate, rather than permit it to die in committee.

On the measure to extend the two-year Pocatello branch centered around ability of the state to support two institutions of higher learning.

Rep. Bladine argued that the state of Utah, with a population about equal to Idaho's supports three universities.

"We can do just as much as the people of Utah," he declared. Bladine also charged northern legislators were trying to "run our southern institution" and said the Idaho constitutional convention specifically provided for location of universities in any part of the state.

Whom Approach

Rep. Allen Starnes, D-Nes Perce, said he believed solution of Idaho's education problems were not being approached in the right direction.

"We have not adequately taken care of the present institution," Newman said. "If this is building better education, I am mistaken."

Newman said he believed higher education in Idaho should be centralized and declared a "bill to create a vocational school where students would be taught to make a living with their hands would be commendable."

Rep. W. J. Taylor, D-Jefferson, suggested division of university subjects between the two schools. He said the Idaho school of agriculture should be transferred to Pocatello and hundreds of students from southern Idaho were forced to attend universities in other states.

Another change in the education system was offered by Rep. William Dewar, R-Jerome. He recommended the state supply and employ white collar workers. My recommendation is to turn the southern branch into a vocational school and establish a couple of others."

FRENCH PREPARE FOR CONFERENCE

for some triumph to offset Italian reverses.

The view here is that a request for German military facilities in Spain possibly for a march to Gibraltar, might be asked even if Mussolini did not try to get Spain in the war.

Another view here is that this request has been made before and that while Suner favors it, Franco always has refused.

May Ask Naval Base

Hence it was regarded as perhaps more likely that Spain would be asked to provide naval and air bases, in Spain or Spanish Africa or both, for a German-Italian attack on Britain in the Mediterranean area.

It was believed the Pelain-Franco talk might be an important one. They have many mutual problems to discuss, including not only politics but food.

There was speculation here also whether Franco might bring an Italian bid for settlement of French-Italian differences, as Italian claims on France would naturally be calculated to have diminished in ambition because of Italy's defeat.

DALE DARNALL'S RITES THURSDAY

Funeral services for Dale Franklin Darnall, 21, who was killed yesterday in a cinder pit cave-in, one-quarter of a mile north of the main road, will be held Thursday at 2 p. m. at the Jerome Presbyterian church. Rev. W. F. Williams, pastor of the church, will officiate and burial will be in the Sunset memorial park, Twin Falls, under the direction of the Williams funeral home of Jerome.

John Buchanan, 26, who was slightly injured in the mishap which took young Darnall's life, was injured today at his home. The mishap occurred as a wall of cinders fell on the two while they were loading a truck. Darnall was completely covered but Buchanan, had his head and left shoulder above the cinders. He was dug out by A. L. Kuykendall, Twin Falls, who was loading another truck nearby.

The cinder pit, geologists point out, is the remains of an eroding fire hole of an extinct volcano, and scene of one of the most recent volcanic eruptions in this part of the country, together with that at the Shoshone lava caves.

Darnall was born in Grenola, Kan., on Nov. 12, 1917. He is survived by his parents, Mr. and Mrs. Frank F. Darnall, Jerome, two brothers, John A. Darnall and Newell Darnall, both of Jerome, two sisters, Mrs. Frank Vonka, Kimberly, and Miss Jennie Mae Darnall, Jerome.

KOEHLER ENTERS MAYORALTY RACE

Boise, Feb. 12 (AP)—Mayor Koehler, 47, announced today that he will enter the race for mayor of Boise in 1942.

He said he had been thinking about it for some time and that he felt it was his duty to do so.

Koehler is currently mayor of Boise and has served in that position for several years. He is a member of the Republican Party.

ROAD AND AIRPORT

"I also intend to see that highway 30 is kept on this side of the river and, if possible, that it is designated as a military road. I pledge myself to continue to work for the improvement of this local air field and will continue to press for completion of this work in the near future. The project now contemplated for the field, with the WPA, OAA and the city cooperating, will be pushed through. It is time Twin Falls had a first class airport so it can take its place among the leading cities of the state and I intend to continue to work toward that end."

The mayor also said that the city would sponsor many WPA projects for the betterment of the community.

"I will continue the animated administration which I have given the people of Twin Falls for the past two years," he said.

Mayor Koehler is the first candidate to announce in this year's race.

Honor Keys Given Eight For Community Services

Twin Falls today paid honor—in a tribute termed unprecedented in the nation—to a small group of its fellow-citizens who did outstanding community service in 1940.

Civic award keys were presented to seven honorees last night at a crowded Park hotel banquet hall into which a cross-section of Twin Falls thronged. And an eighth award went in a strictly surprise presentation to the immediate past president of the Junior Chamber of Commerce as the outstanding young man between the ages of 21 and 35.

Recipients of the community service awards gold keys were:

Carl N. Anderson, former president of the Chamber of Commerce; Joe Koehler, mayor and businessman;

Mrs. Arthur J. Peavey, sr., a leader in women's activities; Mrs. Peavey, now absent from the city, was unable to attend and her award was accepted on her behalf by Mrs. Arthur J. Peavey, jr.;

R. S. Tofflemire, publisher of the Times and News; Claude H. Detweiler, businessman; John B. Robertson, insurance agent.

The national Junior Chamber key for outstanding service went to Robert H. Warner, advertising executive.

Awards were presented by R. J. Vallion, who offered brief word-pictures of the achievements and qualities of the winners.

Tells of Jaycees
Allan Young, president of the Jaycees, the sponsoring unit for the first annual awards program, welcomed the 100 attendants at the gathering and accounted for the start and growth of the national Junior Chamber. He characterized the 300 chapters of that organization as "young men banded together in service to their communities."

Loyal J. Perry, general chairman of the awards project, discussed the national Jaycees distinguished service key and then explained the Twin Falls community award plan. He asserted that necessary forced limitation to achievements of 1940 but addressed this word to civic leaders of the past: "We might thank-ful for what you have done to make Twin Falls a magic city."

Double Goal
The awards plan, Mr. Perry said, has a two-fold goal—to act as an incentive "to the rest of us to lift the ball for our community" and to provide an annual occasion "for taking off our hats and paying tribute to those men and women who have made Twin Falls—and will continue to make it—a fine place in which to live."

Ralph W. Carpenter, inspiration speaker of the evening, praised the Junior Chamber achievements in the seven-year history of the Jaycees here. He paid honor to major projects such as the Harmon park swimming pool and the Jaycee park. Then he launched into a brief but significant message to civic groups of all types.

"Here in Twin Falls," he said, "we are not aware of our advantages. We have everything here to build a fine city—and we are building it. We are a city we wish."

Rejecting the assertion that Twin Falls is "over-organized," Mr. Carpenter called for wider coordination

of the work of the city's numerous organizations.

Urges Cooperation
"If we coordinate and work a little closer together," he said, "we can be a powerful force in the further development of Twin Falls."

He suggested as possibilities the creation of a clearing house for ideas among the various civic groups. "With something like that," he asserted, "we could all sail in and pool our energies."

Illustrating results which might be secured in such fashion, Mr. Carpenter pointed to Mayor Koehler's project for a \$141,000 Federal aid program for the airport, declaring that only the city council and the Chamber of Commerce have pushed this effort thus far, he said. "I can't see support of the device should be given by all other groups."

Head Town
Mr. Vallion, as prelude to awarding the honor keys, told his hearers: "I like to use the word 'home town'—our home town is just what we make it. We can have it dead as a doornail or we can have it live and progressive."

Mr. Warner, as toastmaster, announced the committee which will select community service award winners for 1941. Chairman of that group is Claude H. Detweiler. Other members are: A. J. Peavey, jr., Captain C. H. Thomas, Jean Dinkelacker and Lionel A. Dean.

Entertainment features last night was a skit, "It Might Happen Here," by four men performers from the Twin Falls Community Theater association. There was "if men played cards like women," and names of award winners were worked into the skit around the card table.

Players were Melvin Schubert, Tom Alworth, Bert Sweet, Jr., and John Day. Director was Mrs. Tom Alworth.

Mr. Vallion's descriptive summaries of the award winners:

"A tireless leader in behalf of the playing and the unfortunate, far beyond the formal necessities of his position, he has taken an active part in the betterment of living conditions for the less fortunate. He has crystallized the Christmas basket distribution and has been responsible for the excellent manner in which it was carried out in 1940."

Man who took all men with the Christian ideal of brotherhood; always ready to help, always cheerful."
—Capt. C. H. Thomas

Chamber Leader
"The leader of the Twin Falls Chamber of Commerce during a period in which it believed some of its most important goals. The driving spirit behind the work toward many of these goals. The man whose amazing energy revived civic endeavors that might have become stagnant. The man who successfully pushed to completion the Chamber of Commerce activity fund drive. Last, but not least, the man who, late in 1940, took the action which saved organized baseball for Twin Falls and southern Idaho."
—Carl N. Anderson

"The fact that he is mayor of Twin Falls is only an incidental matter in the fact of untiring efforts to secure for his townsmen every possible improvement and advantage. Spending generously of his own money and time, he has worked diligently to achieve the things he has regarded as of benefit in making his community a better place. He has secured better train service. He is giving his untiring efforts to retain U. S. Highway 30 for Twin Falls and community. . . . He is fighting for an airport. . . . for years he has acted as 'god father' for the McCluskey health camp. . . . (the words it can't be done) are not in his vocabulary."
—Joe Koehler

Twin Falls Moose lodge has reached its quota in the recent membership campaign, it was announced as a session of the group last evening at the Odd Fellows hall.

A class of 10 candidates was initiated into the organization.

The drill teams of Jerome and Buhl had charge of initiation.

Addresses were made by visiting members. Plans were made to have the annual dance March 4, the committee to be Harold Halverson, Percy Smith and John Jones.

Wives of the visiting members from Jerome and Buhl were entertained at cards in the lower hall. Entertainment committee included Mrs. Harry H. Wallace, Mrs. J. W. White, Mrs. Blanche Jacklin, who also had charge of the supper served following the meeting, to 75 guests.

—Claude H. Detweiler.

. . . a man who has achieved an enviable record by his efforts . . . in 1940 this man handled one of the largest single community tasks, general chairmanship of the Magic City jubilee. He gave in time, work and worry more than any community should ask. And he achieved a brilliant success. The project climaxed civic endeavors that had placed him in the front of those who labor well for the benefit of their fellow townsmen and townswomen."
—John B. Robertson.

Jaycee Award Winner
"The distinguished service award key of the national Junior Chamber of Commerce . . . is based on the same principles as the other awards but is limited to a young man between the ages of 21 and 35. As evidence of this recipient's qualifications, it was his original idea that gave birth to this achievement award program. It would take the rest of the evening to enumerate the various activities he has been connected with . . . he has acted as president of the Junior Chamber; was an untiring worker in the Magic City jubilee . . . in fact, if we had enough workers like this man, we truly would have a Magic City."
—Robert H. Warner.

Service Paramount
". . . a man who, in 1940, climaxed a record in which community service stands paramount. Always on call to supply that spark without which work, essential to community advancement, must inevitably slacken. Buick SPECIAL 4-door Sedan, model 47, \$1021.*

Here are FOUR NEW ADDITIONS to the BUICK SPECIAL Line that Compact Motorcar Bigness into Handy Size

TIME was when you measured a car's ability and standing by the yardstick distance from bumper to bumper.

But not any more—not entirely.

Not since Buick made ready the four new additions to its 1941 SPECIAL series that are built for big-car travel tastes—and small-car garages!

They are cars to take the measure of almost anything on the road in the lift and life of their 115-hp. Buick FIREBALL engines.

They are cars with room for all the family, with all the little Buick luxury touches, with the unrivaled comfort of Buick's all-coil springing and steady-going roadability

But bumper to bumper they are shorter—so they fit your garage, park like a bicycle and fit through traffic with ridiculous ease.

And they go farther on every gallon—farther, even, than other Buicks.

So you can't take their measure with a yardstick.

You've got to measure them by what they do for you—in the easier handling, the bigger thrill, the extra convenience they add.

And when you hear the prices on them—prices made lower by their new compactness—you'll find they measure up plenty BIG in the dollar-for-dollar value they put within your reach.

How about seeing them—now?

ADD Compound Combination of slight extra gas and horsepower—developed by Buick's special engineers goes even higher.

BUICK PRICES BEGIN AT \$915

CHAPTER I A PRIL BURNETT held the telegram gingerly. It was addressed to Ann and me, her sister, and Ann was 600 miles away.

DRAFTED FOR LOVE BY RUTH AYERS

In Washington By PETER EDSON

The Two 'Dear Charmers' Debonair Captain Macheath of Gay's 'Beggar's Opera' was torn between two loves—a sort of Siamese twin passion for Polly Peachum and Lucy Lockit.

The Who-Is-It Scrapbook

TOO BAD DEPT. ... Too bad, we mean, that Alton Young really couldn't enjoy his food at the awards banquet last night for worrying over the five-minute speech he had to make.

"Ann—Ann, darling!" Kent had said, his hands reaching for her. Suddenly April realized that he had mistaken her for her sister, that he wasn't seeing her at all.

CALLING ALL STENOGRAPHERS But that's only the beginning. OPM is expanding and doesn't need more than one to the next how many employees it has. The last directory showed about 2,000 names.

The United States is getting into a somewhat similar predicament. We love Polly England, but we also love Lucy Latin-America. And Polly is now suggesting that we do some things that we've promised Lucy not to do.

COULD STRICT PAPA HAVE WALKED IN? Dear Pot Shooters: Get your shooths on the trail of the why and the wherefore of the little scene I glimpsed in a certain Twin Falls restaurant along about 11 p. m. last Saturday.

you were blind you couldn't tell them apart. ... Kent had the same way of laughing and their voices when they talked were exactly alike.

It was up to her to do the sisterly thing. April would have the last word. "Maybe I won't be back at all."

HIGHLIGHTS FROM LATEST BOOKS WAR OR NO WAR. GERTRUDE STEIN. 15 BAMEX \$V. Gertrude Stein is loose again with her first novel in 12 years.

The difficulty is here: The United States would not seem to be free to do those things. There are carefully cultivated relationships with Central and South America to be considered.

CAN IT BE AMERUSH? I view with alarm— ... the new-melancholic scudding, some three even budding— ... Robins on the ground, ... Spring cats (often humorous), ... Overcast less numerous.

Octavia was still looking pale as she walked to the door. ... "What am I supposed to do?" she demanded anxiously.

Not in any too much time, either. With a mile and a half of the train and then started running. ... "Welcome home, Kent," she called out brightly to see you.

WASHINGTON SHORTS ... "Matters to was and many departments have to apply for three-inch identification buttons. The regular help wear badges showing their photo and name."

These principles we have agreed to jointly with the other American nations. We can scarcely abandon any of them, in letter or in spirit, of our own accord and without agreement with them.

How to Avoid Colds—V We've already given you constitution four lessons from the Pot Shots from Medical Almanac for Them as Buffers.

Grudgingly, April had to admit Octavia was right. Kent Carter, lean and dark and serious, meant a great deal to Ann.

April Burnett opened her lips to speak and then closed them. For the first time, in the wintry dimness of the train shed, she saw that Kent wore dark glasses and that while he was looking at her, he wasn't seeing her at all.

STATES' WATER RIGHTS PONDERED

WASHINGTON, Feb. 12 (UP)—Western states congressmen have discussed the problem of retaining state jurisdiction over irrigation and water rights in the arid high plains.

Gov. Ralph L. Carr of Colorado attended the meeting and reported on a meeting of congressmen in Denver last week, at which it was urged that action be taken to preserve state control over water rights.

Rep. Clyde T. Ellis, D. Ark., and Sen. John E. Miller, D. Ark., have introduced bills to create an interstate valley authority. Some western legislators fear that under terms of such measures they may be deprived of water for irrigation in the upstream areas.

They discussed in this connection the recent decision of the U. S. supreme court in the Appalachian power case which broadened the federal government's control over inland waterways.

Uncertainty of Hitler Plans Shown in Balkan Preparation

By J. W. T. MASON United Press War Expert

The fluctuations and uncertainties of Hitler's war plans are being once more exemplified by developments in the Balkans. Checked in France by the mobile front of Marshal Petain and prevented by the British fleet from sending aid to Marshal Graziani in Libya, the Fuehrer now is making the swastika conspicuous in southeastern Europe.

The resolve, defeat pursuit of a major objective, which is strongly emphasized in German military teaching, has been so changed, however, to wavering tactics since defeat of the air blitzkrieg over Britain, that it is impossible to determine what Hitler finally will do in the Balkans. His strategy shifts from one end of continental Europe to the other, not to confuse the enemy, but more obviously because the problems involved are becoming too complicated for a direct and easy solution.

Fear of revolution in the Near East is true, that the Nazi war machine is now preparing to strike at Greece through Bulgaria, they must mean, primarily, that Hitler means a revolution in Italy unless he comes to Signor Mussolini's help. Some evidence of intense anti-Fascist feeling among Italians is provided by American correspondents who entered Benghazi with the British troops and report that the inhabitants burned pictures of Il Duce, crying "Long live England."

Since start of the Italian defeats in the Balkans, Hitler has held aloof, presumably not wishing to let the Balkans aflame. But that is the

Rev. Willis Gets Pulpit in Iowa

JEROME, Feb. 12 (Special)—An announcement was made this week by the Rev. W. F. Willis, pastor of the Jerome Presbyterian church, that he has received a call to be minister of the First Presbyterian church of Cedar Falls, Ia.

A congregational meeting will be called Sunday, Feb. 23, to ask the Presbytery of Twin Falls to dissolve the pastoral relation in order that the Rev. Willis may take up his new duties on April 1.

This call is a distinct promotion for the local minister. Rev. Willis has been pastor of the Jerome church for the past five years.

The Cedar Falls church has approximately 475 constant members, a large constituency of students and teachers from the Iowa State Teachers College. It is the only Presbyterian church in a community of approximately 10,000 people.

THE RAILROAD LINCOLN PLANNED FOR NATIONAL DEFENSE

was then — is now

THE Strategic MIDDLE ROUTE

WHEN Abraham Lincoln sought a strategic route for a transcontinental railroad to unite East and West, he chose the path first marked by buffalo herds... the same Overland Trail followed by the 49ers... the direct, middle route across western America.

Today, as our National Defense Program speeds ahead, shippers know how well Lincoln planned. Union Pacific is relied upon for fast, dependable transportation of materials required for both National Defense and industry's national needs. The Strategic Middle Route offers every advantage of prompt service between the East and the West.

And for travelers to and from the great western states served by Union Pacific, its "strategic route" reaches more of the scenic wonderlands, National Parks and metropolitan cities of the west than any other railroad. Whether you Ship or Travel... use Union Pacific.

ADMINISTRATION MAY ACCEPT WILLKIE AID-BILL CHANGES

LEADER CONFERS WITH PRESIDENT AT NIGHT MEET

By WILLIAM H. LAWRENCE
WASHINGTON, Feb. 15 (AP)—Well-informed senate sources indicated tonight the administration would accept Wendell Willkie's proposal to restrict benefits of the aid-to-democrats bill to Great Britain, Greece and China.

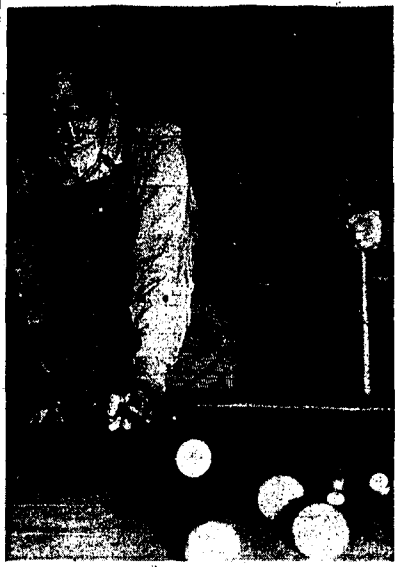

The senate foreign relations committee met today in executive session to begin considering proposed amendments. Supporters of the measure will confer also to map their strategy with Chairman Walter P. George, D., Ga.

Willkie, 1940 Republican presidential nominee against President Roosevelt, felt the administration's bill a final push toward enactment at final public hearings yesterday with a statement generally supporting the measure.

But the bill collapsed because of ineffective aid from the United States, this country would be at war with Germany in 30 to 60 days.

He went far beyond the Roosevelt administration by asserting the United States, if it is to aid Britain effectively, "should provide her with five to 10 planes an hour."

Oldest Idahoan Dies at 102

Joseph (Uncle Joe) Gordon, oldest resident of Twin Falls county and believed to be the oldest person in the state, was dead today just before celebrating his 103rd birthday. Death came to the former Indian scout at the county farm last night. He is shown above as he played a game of pool for the Times cameraman on his 102nd birthday last year at White W. G. Shipman, former superintendent of the Bull to American Falls plantings. (Times Photo and Engraving)

Death Closes Colorful Career Of Oldest Resident, Near 103

Joseph (Uncle Joe) Gordon, the man who on his 100th birthday said that from then on it was "all a down hill run," is dead today, just 31 days before he was to celebrate his 103rd birthday.

Death came to Uncle Joe, oldest man in Twin Falls county and probably the oldest resident of Idaho, at the county farm yesterday about 10 p. m. He had been ill for only a week and during that time was forced to remain in bed. Condition of his heart was a contributing cause to his death.

Colorful Life

His death marks the close of a colorful career which had seen him migrate from the southern states as a youth and set out to "make his mark" in the then wilderness which was the west.

In the early days of this section of Idaho he was employed by the federal government as an Indian scout and was stationed at Fort Pocatello. Later he toured the nation with Buffalo Bill in the days when the great westward was operating a circus.

In his later years he specialized in cooking and after moving to Twin Falls about 30 years ago operated "Joe's Do-Nut shop" on the spot where the State apartments are now located.

His reminiscences of the old west were many. He once told how he chased a "bad" Indian horse driver from Fort Hall to a point in Rock creek canyon near the present Jerome cooperative creamery and captured them. He then returned them, single handed, to Ft. Hall and "Indian Justice."

It was learned that his wife died in St. Joseph, Mo., about 60 years ago and a son died in infancy. He never spoke of relatives and so far as known he was an orphan.

Born in South

Place of his birth is not known although friends say it was in "some southern state."

Until the last week of life, Uncle Joe was extremely active, although his hobby used to discuss past history with other residents of the farm.

On his 102nd birthday last year (March 1, 1940) he played a game of pool for the Times cameraman on the premises of the farm.

The meeting in the afternoon was conducted by J. H. Handy, chairman of the Jerome county AAA program.

The morning session was conducted especially for the county and community commitments, when his programs were discussed, giving special emphasis to the crop insurance program. Mr. Handy reviewed the program and discussed at length the plan sheets of the set-up.

Ross Dimock, crop insurance representative from the state office at Boise, Stanford Richards, headmaster of the ACA wheat program; Lyle Kaufman, range examiner for this territory, and Eugene Williams, county agent, were the speakers.

J. H. Handy, chairman; Parley O. Thompson, vice-chairman, and L. E. Pool are the county committee.

WHITE TO BUILD STAGE TERMINAL

Ernest White today had begun construction of a new stage depot at the rear of the Rogerson hotel building, his bid being \$11,500, it was announced today by local officials in charge of the construction.

Completion of the new depot, located at the corner of Second street and Second avenue east, is expected by May 1. Sub-contractors have been let to Delweller Bros. for \$2,400 for plumbing and heating, and John Beaton, \$325 for wiring.

The structure will be terminal for Union Pacific stages and connecting lines here.

Others included on the general contract including Fred Reed, John C. Kimes and Tony Sobler.

Patent Given On Harvester For Potatoes

Arlee B. Standlee, 432 Fifth avenue west, today had received a patent on an underground potato harvester which, according to the inventor, can be fitted to the various tractors within a period of 30 to 40 minutes.

Standlee, who exhibited his invention at last year's Twin Falls county fair, made application for the patent on May 21, 1938, but it was not until the fourth of this month that it was approved because of the long process of checking all back farm inventions to be sure his was not a duplication of anything which had been invented before.

Hooks Under Machine

The local invention, unlike the present "trill diggers" which are pulled by the tractor and which hook onto the rear, is different in that it hooks under the machine. The equipment has a power lift and is power driven and operates from the driver's seat.

The machine will dig potatoes row by row and applications for lifters then into a single row at the rear of the machine as it moves along. A special feature, Standlee points out, is a vine elevator which disposes of the vines by automatically forcing them to enter the digger.

Made It Himself

The model which he displayed at the fair last year was made by himself. He said today that if some large tractor or farm equipment concern does not want to enter into the manufacture of such a machine, then they will be produced locally and offered for sale.

Because the digging device is a single wheel tractor, it gives "perfect traction" at all times, the inventor said. The digger will lift, even in the roughest ground. The inventor has been a farmer in this section for the past 20 years.
