Rear-Guard Action Gives Protection to Evacuating Troops

Nazis 25 Miles out Of Athens

By NIKOS KYRIAKIDIS
ATHENS, (2:30 P. M.)
April 26 (U.P.)—Exhausted but unbroken, allied troops today were reported stubbornly resisting the German armies on Mount Kithiron in a last-ditch defense of Athens.

Driven back from Thermopylae after inflicting heavy losses on the enemy, the British imperials rallied, between Thebes and Athens and sought desperately to hold a line on Mount Kithiron to protect the withdrawal of the British and Commonwealth troops.

The Germans reported their advance units had captured Thebes and Chalcis and were within 25 miles of Athens, driving on toward the capital.

Air raids continued throughout most of the day in the Athens district. (This indicated continued German air attacks on shipping as the British sought to evacuate their forces from Greece ports.)

Submarine Action
The allied forces also were reported fighting a stubborn rearguard action on Mount Gerania, which protects the Corinth canal and commands the only road from Athens to the Peloponnese.

Inflict Heavy Losses
The Athens press said the British forces had inflicted heavy casualties on the Germans as they fell back from the scene of a three-day battle at Thermopylae.

But the Struggle Goes on

Yugoslavia has been beaten to earth in less than two weeks by the Nazi juggernaut. A few shake sad heads and mutter, "This is the end!" It is not the end. There is Greece yet to conquer, and Turkey. There is the wide dominion of an empire unshaken.

Victory will not come to the Germans by the conquest of Yugoslavia

Victory will not come though Greece be beaten, though the German panzer divisions park beside the Dardanelles.

Victory will not come if Turkey be beaten next. It will not come though Suez fall, and though the German hosts reach the long-dreamed-of Baghdad.

Victory will not come even though England should lie prostrate in a welter of its own blood.

The reason is that this war is more than a military campaign. It is a war of ideas, a war of the spirit, and it is here that the Germans cannot win.

Bob Shots: "That's the GUILTY PRIT that is big hearted enough to give his money to a benefit dance, and big pain in the neck. True, he may have genius, but if genius have to act like that great violinist Rubinoff, I'll take Jack Benny!"

NOTED WORDS BY FRESHWATER CANDIDATES:

After the election at Filer, in which Albert C. Travis lost to Clyde Madsen by 172 to 53, Ahtol remarked cheerfully: "Anybody who's lived as long as I have has had his share of friends—should be allowed to carry a gun!"

LAPSE RALLIES VIOL FOR CUBS, GIANTS, TIGERS

Pirates, Phillies, Browns, White Sox Toss Away Games

By GEORGE KIRKSEY
 NEW YORK, April 26 (U.P.)—The leading occupants of baseball's mourners' bench today were Frankie Frisch, Doc Prothro, Jimmy Dykes and Fred Haney. Every one of those managers thought his club had a game won yesterday but they found out the ninth inning still counts.

It's doubtful if they make a straightjacket strong enough to hold Frankie Frisch after he what he did last night after the Pirates blew yesterday's game to the Cubs, 3-7. Frisch scored four runs with Augie Galan's single driving in the winning run.

As if things weren't tough enough for Doc Prothro, the Phillies missed a game right into the first inning yesterday. They had the Giants licked, 4-2, going into the ninth but left against the Braves.

Jimmy Dykes is one of the original hitters of the Cleveland Indians following their mutiny last June, but he has not must have been unbound after the Tribe scored Newsums allowed in the ninth to steal a 5-3 triumph from the Indians.

But perhaps the fellow who feels worst of all is Fred Haney, the pilot of the Browns. He saw his team lead the Tigers 2-0, 3-7, 4-9, and 11-0 and then lose in the ninth, 12-1.

The other two American league pilots, Joe McCarthy and Joe Cronin has a pleasant afternoon. Ernie Bonham led the Yankees to a 6-0 victory over Philadelphia and snap their four-game losing streak.

RAINIERS FAIL TO SEND AID TO COWBOYS AS PROMISED . . . WHO'S OUTSTANDING HIGH SCHOOL ATHLETE IN SOUTHERN IDAHO? . . .

We're starting to wonder just when, if ever, the Seattle Rainiers are going to come through in the needed help for the Twin Falls Cowboys.

Here it is only six days until the opening of the third Pioneer league race—and still little, if any, help on the living line.

Jim Keesey to Give Pilots Good Hitter; Veteran Mound Corps

BOISE, April 26 (U.P.)—All under one big tent owner Hayden Walker of the Boise Pilots has rounded up a 1941 edition which will start off against Twin Falls May 2 with the outstanding pre-season record of the Pioneer league.

Doped as favorites for the pennant, the Pilots under a new manager, Jim Keesey, have attempted to combine power in the outfield, a tight infield and a classy hurling corps.

Keesey was replaced by Hayden Walker, who was considered one of the most valuable additions to the 1941 squad. A first baseman, he has played in the Texas league, Pacific Coast league, Piedmont league and American league. His batting average is well over .300 and he played the last four years in the Texas league with a fielding average of .906.

Keesey and Walker have assembled a strong corps of outfielders, including Felix Anido, hard-hitting center fielder, another rookie, and Joe Eganic, regular center fielder in 1940.

Keesey has several infielders to choose from. Playing first base himself, Keesey and Eddie Sheehan, hold-over shortstop, turn the heart of the Pilots' infield.

For the second and third base posts, the Pilots have Eddie Donato, a rookie, and first baseman, Hal Shoning and Bill Stenger.

Five veteran hurlers were obtained by Walker to form the backbone of the 1941 team. Keesey regards Bobby Snyder, a 1940 rookie at the age of the group, Larry Stacey, who was ill most of last season, has returned fully recovered, and Con Hamann, Darrel Peltz and Lefty Larry have improved over last year, Walker reports.

Walker has promised Boise fans a winner this year and declares that if the boys he has can't get through he will go out and get someone who will.

RAILS HANDLE GREATEST TRANSPORTATION INCREASE

EXPERT REPORTS TRAFFIC HEARING RECORD OF 1929

WASHINGTON, April 26 (UP)—Defense Transportation committee member Ralph Budd said today the largest traffic increase ever experienced by the nation's railroads, a direct result of the multi-billion dollar rearmament program, is being handled promptly and satisfactorily.

President of the Chicago, Burlington and Quincy railroad, Budd said that carriers plan to build and put into service this year approximately 100,000 new freight cars in anticipation of even greater expansion. This would compare with a rough average of 50,000 new cars annually during the past two years.

Shift in Traffic
During 1941, railroads will handle a little less than 80 per cent of the 1929 tonnage increase, Budd said. But although they will have fewer cars on hand than in 1929, he said, they will be able to handle larger loads per car because of faster trains, larger cars and other factors.

"There has been a very decided shift in traffic from secondary lines to the main lines, and traffic can be handled far more efficiently on the main tracks," he said. "Much of the traffic which in the past has gone on secondary lines has been shifted to the highways."

Percentage of equipment in need of repair also has been sharply reduced. Asked whether the transportation facilities in the country will be able to provide without interruption or limitation all of the services the defense program may require, he replied:

"Peaks and valleys"
"It is a question which has been much discussed almost constantly for the past year. It will be asked more than one occasion that transportation people must answer the question of 'peaks and valleys' by asking another: 'How much traffic are we to handle, and when and where are we to move the freight?'"

"The answer will be that the railroads and other transportation agencies are equal to any emergency conceivable in the past, that they can handle all traffic that may be offered without knowing more of what the emergency may be."

"But," he said, "I can't inform a responsible man in advance as to how much the volume will be increased in the past two years, together with new cars and locomotives and other improvements which have been made or are being made would seem to be reassuring."

"He pointed out that railroads, like other industries, have their 'peaks and valleys.'"

"The more nearly uniform the loads that can be delivered, the more easily they can be handled," he added.

BOARD CHIEF TO VIEW HOSPITALS

Decision to finance the inspection trip by Mr. Kempeleman was made by commissioners Friday afternoon at a conference with members of the hospital advisory board.

The "Teeth"
As for the teeth in the regulations the state headquarters bulletin to the Twin Falls board points out bluntly:

DEATH

Red Our Highways

The Black Flag is flying... and all Magic Valley mourns Friday's traffic fatality. Eleven times the consecutive series of White Flags, which fly so proudly in your daily newspapers, has been interrupted — this time after a march of 49 days without a traffic death. Not since March 7 did the Black Flag fly!

Help Keep The White Flag Of Safety Flying in Magic Valley!
The Black Flag is In Retreat... but...
The Black Flag Need Never Fly!

Since a group of Twin Falls merchants united to sponsor the White Flag campaign of highway safety... traffic fatalities have decreased. Present figures indicate that the year of the program will bring a decrease of at least 14 traffic deaths.

But that is not enough. Even if YOU... driver, pedestrian, passenger... continue to practice sanity on the highways, at the present rate — even then, many Magic Valley homes will mourn traffic fatalities during the year.

The White Flag has just finished a long flight of 49 days. Tomorrow it begins another attempt to fly uninterrupted. For a month? For two months? For a year? You decide. Help keep it flying. As a constant reminder that many lives can be saved by careful, considerate driving... Twin Falls merchants urge you to do your share.

We CAN Reduce Traffic Deaths...
We Have!
