## BUILDING FIRM, AFL UNION MAY BREAK DEADLOCK

By United Press  
Negotiators appeared near agreement today in a dispute which has been a stumbling block to settlement of the Pacific coast shipyard strike.

It was believed the Bethlehem Building Corp. and the AFL metal trades council might reach an agreement tonight that would send 6,000 strikers back to work. The settlement would have no direct effect, however, on the strike of 1,700 hulled ironworkers at shipyards.

AFL and CIO machinists which had the 1,700 hulled ironworkers at the shipyards in the San Francisco area May 10. Bethlehem, which holds more than half the 6,000 in the metal trades contracts among the 11 plants, agreed to accept provisions of the cost-of-living agreement which rejected an agreement which would have closed a shop.

**Deny Part in Pact**  
Machinists denied they were parties to the pact but AFL spokesmen said Bethlehem's refusal to accept the agreement was the main cause of the deadlock. The agreement provided an hourly wage of \$11.2 and time and a half for overtime. Strikes are demanded until both sides agree to overtime. Both AFL and CIO machinists indicated Bethlehem's acceptance would not affect the strike.

Approximately 4,000 of 17,000 members of other AFL unions have formed picket lines in back to work movement.

At Washington, the national defense contract line in back to work movement today to find a solution for the dispute which has threatened to result in a strike of 4,000 International Woodworkers of America (CIO) members in Oregon.

The NLRB had asked the union to reconsider its decision rejecting a board proposal for settlement. When the union responded unfavorably, O. L. Johnson was summoned to Washington.

**Headings Start**  
NDDM hearings will begin tomorrow on the dispute at the Inglefield, Calif., plant of the North American Aviation company. Officials of the United Automobile Workers (UAW) (CIO) left California last night with union consent for indefinite postponement of the walkout through for 3 a. m. tomorrow. The strike deadline previously had been last Wednesday. North American men and holds \$200,000,000 in defense contracts.

The Quenell motor car, however, wasn't so fortunate. State Patrolman Virgil A. Halbert said the 1940 machine suffered damaged grill and radiator, damaged right front fender and dent in the left front fender.

# U.S. FARMERS OVERWHELMINGLY FAVOR WHEAT QUOTAS

## IDAHO FOLLOWS LEAD WITH BIG VOTE APPROVAL

WASHINGTON, June 2 (Special)—Wheat farmers have voted overwhelmingly for imposition of marketing quotas on the 1941 wheat crop, expected to exceed 850,000,000 bushels, according to returns today from the agriculture department's nation-wide referendum.

Balotting in 37 states showed 80.5 per cent of the producers polled in favor of the proposed restrictions, first ever placed on the wheat crop. In all states except Alabama and Arkansas, the vote was 94,929 for quotas and 25,850 against.

Secretary of Agriculture Claude R. Wickard, who proposed the quotas in a move to prevent a glut on the market by the anticipated record crop, hailed the referendum's outcome as a decisive step by growers "to meet the challenge of the present emergency."

Wickard will establish a quota for each farm under the marketing quota program of the act in excess of that quota will be subject to a federal penalty of 15 cents a bushel.

Growers who planted within their 1941 acreage allotment will be permitted a quota for the total amount of wheat sown. Farmers whose acreage exceeds that of 15 acres or producing less than 200 bushels will not be affected by the quota program.

## 159 Students Will Graduate At Albion Exercises June 9th

ALBION, June 2 (Special)—One hundred fifty-nine students are candidates for graduation at the 47th annual commencement exercises of Albion College, which will be held Monday, June 9, in Booklet Hall at 11 a. m. Dr. Carl W. McIntosh, of the department of English, University of Idaho, southern branch, will give the commencement address.

Dr. McIntosh came to the Pocatello college from the University of Iowa where he received his Ph. D. degree in 1929. In 1927 he was acting head of the department of speech at Park College, Parkville, Mo. The subject of his address is "Aladdin Had a Lamp."

Commencement events at Albion will start with the annual faculty dinner for seniors in the hall dining room on Thursday evening, June 6. On Saturday morning, June 7, at 10:30 the senior class will present its class play in the Booklet Hall. The last formal dance of the year will be given in the Alhambra ballroom at 8 o'clock. On Sunday afternoon, June 8, from 3 to 5 o'clock will be the president's reception, which will be held in the hall. He will receive senators, faculty and alumni.

**Baccalaureate**  
Rev. E. Leslie Rolfs, rector of Trinity Episcopal church of Rupert, will deliver the baccalaureate sermon on Sunday evening at 8 o'clock in Booklet Hall.

After the commencement exercises on Monday evening, parents and friends of the graduates will be guests of the college at a picnic lunch to be served on the campus. The class this year, numbering five more than in 1940, is the largest the Albion college has graduated since 1930, when the law requiring two years of training for teachers was passed. Of the 159 diplomas to be awarded, 30 are to primary majors, 67 to intermediate majors, and 62 to junior high majors.

Four from Twin Falls  
Four students from Twin Falls are among the graduates: Mae Parker, Margaret Pratt and Doris Lee of the intermediate division; and Verna Beus, junior high division.

The band will present weekly Thursday evening concerts throughout the summer.

## MURTAUGH VOTES LEVY FOR SCHOOL

MURTAUGH, June 2 (Special)—By approving a maximum five-mill school levy proposal, Murtaugh school district voters today had averted a drastic slash that would have crippled the district and might possibly have meant loss of high school accreditation.

The voters approved the levy Saturday by 53 to 11. At an earlier election the proposal was defeated. Following that defeat half the system's faculty members resigned.

Mrs. F. J. Payne, Mrs. G. H. Tolman and Mrs. D. G. Moyes were election officials.

## FREE SPEECH IS ASKED BY ENVOY

SOUTH BEND, Ind., June 2 (AP)—Joseph P. Kennedy, former U. S. ambassador to Britain, offered a formula Sunday to reconcile the exercise of free speech with patriotism.

He said he would like to see an audience at Notre Dame university that threatened to national security disrupted "unlimited loyalty" from all, but rights of free speech must be protected.

"Only too well do we know from the history of modern Europe how the silencing of the voice of protest was a prelude to national disaster," he said.

"But in exercising that freedom of speech, which includes the right to criticize, we must each one of us try to approximate a formula of which conscience and patriotism must be the monitors."

## FOR UNCERTAIN

INDIANOLA, Ia., June 2 (AP)—All M. Landon, 1938 Republican presidential candidate, said today President Roosevelt had not made up his mind about the war.

"The best trained reporters cannot agree as to the meaning of the President's speech, and the meaning of what he said in the press conference the next day in relation to it," he said in an address at Simpson college commencement exercises.

"Therefore," he continued, "the country must reach the conclusion the President still believes we can help England in ways that will not involve us in war. The country must also reach the conclusion that the war party in America is trying to force us into a situation that is not in our best interests."

Landon said he long ago had considered "all possibilities of a Hitler victory," but never once have he wavered in his belief that we should arm to the teeth, but stay out of armed participation in this European war."

## Jenny Dolly, Half of Famous 'Dancing Act, Takes Own Life

HOLLYWOOD, June 2 (AP)—Jenny Dolly didn't think the physicians and surgeons who saved her life and restored her beauty after an automobile accident eight years ago had done her favor.

She and her twin sister, Rosie, had been an internationally famous dancing team for 20 years, when the accident happened near Bordeaux, France. Her chauffeur died, and her automobile crashed into a tree while it was going more than 60 miles an hour.

Fanny Dolly's lungs were punctured. Her skull and several ribs were fractured. Her stomach was slashed and her face was slashed and bruised.

Nevertheless, physicians saved her. She sold her jewels and plastic surgeons restored her face with the exception of a slight scar on her left cheek.

"Broken Shell"  
"I may look the same, but I am just a broken shell," she said several weeks ago.

She never regained her health. She was morose. She was 48, and her dancing career was done.

"This apparently was why, officers said today she made a noise from a dark red curtain in her apartment last night, climbed on the window sill, put the nose around her neck and stepped off.

Jenny came to Hollywood several months ago from Chicago with her adopted daughter, Ickar Vintsky, 19, and Manzi Vintsky, 18.

Her husband was Bernard Vintsky, a Chicago attorney. It was reported they had decided to separate, but no steps had been taken toward legal separation or divorce.

She and her sister came to the United States from Hungary, when they were children. They made their first stage appearance in 1920, when they were 17 at Keith's Union Square theater in New York.

Famous and Wealthy  
They soon became internationally famous, and wealthy. Jenny had a jewel collection worth more than \$1,000,000, which she auctioned at a

**IDEAS FOR O.E.D.-MAIDS**

Pot Shots finds, on scanning the census figures which somehow got buried in his desk, that:

Old maids and any other females seeking mates had better stay away from 22 of the 23 American cities which have 250,000 to 500,000 population.

Because 22 of the 23 have more women than men.

The only one that doesn't is Toledo, O., which has 102 men for every 100 women.

So if you must go to a larger city, try Toledo where you at least have a chance to grab off two-tenths of a man.

**BACK TO SANITY!**

Dear Pot Shots:  
I knew it. Sure as I knew anything, I knew it!

It couldn't tell me that the aboriginal gyrations of acrobatic contortionists, jockeying hectically around like somersault games a combination of St. Vitus dance and locomotor ataxia, could possibly survive as a permanent form of public entertainment.

Now I see it was right.

A little notation in the Radio Record advertisement in the Evening Times told the funeral bell. Said this brief notation: Jitterbug dancing forbidden.

It was like a game, Paula thought, a hard-fought game with enmity forgotten in the thrill of the struggle. But once the door fell, everything would change. "They're coming," Kilo gasped. The door, ripped from its hinges, was being pushed inward like a sheet.

**EDSON IN WASHINGTON**

By FETTER EDSON  
Evening Times Washington

WASHINGTON, June 2—For some time the bright collegiate head of the office of price administration and chief supply, have been doing a little job as post-graduate research for their master's thesis on the subject of price control legislation.

They have honed up on the crazy proposals that have been submitted to congress in years past, and they have gone into experiments of European countries with price control legislation and administered. All their research has been highly confidential.

Henderson himself, testifying recently before the House ways and means committee, indicated that his office had all the legislation now ready to be introduced. He had indicated to a conference of retailers that if he got 85 per cent compliance, that would be sufficient. He had indicated to a conference of departments was simply to prepare a bill for price control legislation, should it be needed.

Don't be too surprised, therefore, if some fine day the President reaches into his hat and pulls out a message to congress asking for a little more legislation to stiffen price control administration.

It isn't from the previous American thinking on this subject that the best laboratory material is obtained today, but from experiences of Germany. Ever since World War I, the Germany of the Kaiser, the Weimar Republic and the National Socialists have dabbled with price fixing until now they have it down to a science, if not a racket.

**WHAT YOU HOPE WON'T HAPPEN**

Don't expect the National Socialists to take over the OPACs. Louis Demerutsky, regional information chief of the bureau of foreign and domestic commerce, has made a thorough study of the German system, and his findings form an illuminating display of what you hope won't happen here.

A totalitarian regime is, as Demerutsky points out, in a better position for price control since it doesn't have to fear political opposition, and its people take regulation with better grace. Back in the "free" days of the Kaiser's days, however, one of the first acts was a decree fixing maximum prices on all necessities, particularly food. That policy failed throughout the war with various later controls on consumption, and it is held responsible for the economic catastrophe of the bounds by regulation of source of supply and limitation of middlemen.

It is his study of the German system in the last war when wholesale prices doubled.

**WRIGHT PICTURES HELD AT RUPERT**

Mrs. Fred Schuchbach with piano accompaniment by Mrs. Williams. Pallbearers were David Geanora Thacker, Dale Thacker, Raymond McNeely and Thomas Calvin Long.

Interment, under the direction of the Goodman mortuary, was in the Rupert cemetery with a brief committal service by Mr. Stump.

## Helen E. Voeller, Daughter of Buhl Mayor, Marries D. Cronin

**BUHL, June 2 (Special)**—One of the largest and most beautifully arranged social functions scheduled for the summer season was the marriage of Miss Helen Elizabeth Voeller, San Francisco, daughter of Mayor and Mrs. C. C. Voeller, Buhl, and Donald Christian Cronin, son of Mr. and Mrs. James C. Cronin, San Francisco.

The wedding took place Sunday morning, June 1, at the new and spacious home of the bride's parents, 705 Maple avenue east. The double ring service was read at 9:30 o'clock by Rev. A. A. Howard, pastor of the First Presbyterian church, Buhl, and in the presence of 50 relatives and close friends of the couple.

Leading in the march of popular June brides, Miss Voeller and her wedding party descended the circular stairway to the strains of the Mendelssohn wedding march, played by Dr. F. A. Kallusky, and proceeded through the long living room to be met at the dining room entrance by the bridegroom and his best man, Rex Voeller, Los Angeles, brother of the bride.

**Mirrored Fireplace**—The wedding party took the stations on a large white handmade rug before the fireplace which was elaborately decorated with a trellis background of ivy, dillennium and white peonies.

In the center of the fireplace proper was placed a long mirror reflecting the beauty of the floral arrangement, and on either side of the fireplace burned four-foot white tapers in tall gold standards.

On the mantle were graduated tapers in gold candelabras placed on either side of the large round mirror hung above the mantle to reflect the faces of the wedding party.

The bride chose for her wedding a trail crepe ascension pleated gown fashioned with short full sleeves, a round neck, and with tightly fitted waist line. Her fingertip veil of silk illusion was carried with a cluster of orange blossoms, and she carried a bride's bouquet of gardenias.

## Sponsors Tell Judging Points For Flower Show

"Quality and not quantity" counts in judging the entries in the second annual flower show of the Twin Falls Garden club here Thursday, June 5. It was announced today by Mrs. Elmer F. Ross, publicity chairman.

J. J. Brennan, Buhl, and Mrs. P. E. Fisher and Mrs. Curtis Eaton, both of Twin Falls, will be judges. The following conditions should be considered by exhibitors. All interested men, women and children of Twin Falls and community are invited to enter displays.

Each individual flower should be free of flaws or insect scars, and this applies to the foliage as well. When masses of flowers are arranged in a single container for exhibit, it is difficult, almost impossible, for the judges to see the quality of individual flowers. Therefore, it is best not to include too many flowers in an entry.

**Uniformity Essential**—Uniformity of specimen is also essential. It is better to have six medium-sized flowers in an exhibit than four choice ones, mingled with some that are not so good.

Flowers should not be too far advanced in development and all should have strong stems, so they can hold up their heads in all climates. It is essential that flowers be arranged in containers.

In the pointed plant division it is difficult, almost impossible, for the judges to see the quality of individual flowers. Therefore, it is best not to include too many flowers in an entry.

It is in regard to the high and low basket division, the committee states that a low arrangement is to be desired as a tall basket display.

Roses should be exhibited in the half-bush (open) stage, with no buds attached.

**Official Judging Place**—In judging the rose entries, the American Rose society's official scale will be used. This scale which applies to the Hybrid T variety is: color, 30 points; form, 30 points; size, 10 points; foliage, 10 points; stem, 10 points.

Cluster roses of the Polyantha variety will be judged 20 points each for color, number of flowers in spray, size of flowers, quality and condition of foliage.

The points will be judged by the official scale of the American Rose society, which is: color, 30 points; condition, 30 points; size of bloom, etc., 30 points; variety of color, 20 points and proper care, 10 points.

Most displays of peonies will be judged for uniformity, freshness and attractiveness of display.

The Dodgers won it, playing for the first time in the Cardinals Sunday, 3-2, but they shouldn't have. The Cards gave away two runs and probably cost themselves another.

## Russlets Hand Cowboys 7th Defeat in Row

IDAHO FALLS, June 2 (Special)—Twin Falls Cowboys got most of the hills—but the Idaho Falls team scored most of the runs, so the Russlets handed the Twin Falls club its seventh consecutive loss here last night by a score of 6-2.

After dropping three games at Boise over the week-end, the Russlets showed up here last night determined to reverse the loss procedure. But while they pounded out 10 safe blows—double their usual amount—they could not connect with men on base.

Al Lowe, Verne Reynolds, Bill Randall and Vic Oehler each got two safe blows, but the total only resulted in two runs.

Meanwhile, the Russlets shelled the offerings of Merrill Read and Dick Mosey for nine hits, bunting them for four runs in the sixth frame—and the ball game.

At Boise on Saturday the Twin Falls club ran into some fine hitting by the opposition—in fact, just a shade better than the Cowboys offered themselves.

Victor Bob Fitzke, he of the marvelous control, pitched two home runs and that beat him by a score of 3-2. Bob allowed only three safe blows, one less than Lamanaka gave the Wranglers, but the overcast by Wally Low was a factor on base and one to Manager Jim Keesey spelled his downfall.

Lawson Little, preparing to defend the National Open championship at the Colonial club in Fort Worth, June 5-7, sees no disadvantage for northern golfers in this particular Texas course.

The broad-shouldered Californian considers the battle ground a fine test.

Indeed, considering par and the distance involved, the Colonial layout easily may turn out to be far and away the toughest test. National Open field has faced in six seasons.

Officials have made no effort to make the course unattractively tough by pulling the fairways too narrow, letting the greens get wet and the stream often slants that have been tried in the past.

If the players are able to shoot 65 or better, a 7,000-yard layout, well and good, says Marvin Leonard, creator of the course.

"We will not penalize them unjustly."

"But I believe the course will take care of itself."

Interesting Approaches  
Par for the test is a 72-hole course along the banks of Trinity river is some greens and some tees have been laid in such positions that the stream often intersects placement with the driver.

Fairways are of Bermuda grass and the course has bent greens.

The course has been tried up to some extent since Little shot it 67 on the winter tour.

Little especially likes the 427-yard finishing hole, a par 4 bounded by the river with beautifully banked greens running down from the clubhouse as described here being pretty tight on the left.

Cleveland's Canterbury, scene of Little's 1940 triumph, measured 6,911 with a par of 72. Spring Mill of Philadelphia, where the 39 tournament was played, was 6,982 yards long with a normal par of 71 that was cut to 69 for the meet. Denver's Cherry Hills in '38 played at 6,888 yards with par 71. Oakland Hills at Birmingham, Mich., in '37 was 7,000 yards, with a par of 72.

Little has averaged 71 or 72 since winning the Open last June, in

over the river. No. 13 has similar condition in 192 yards. No. 16 is 207 yards.

Other holes which Little and other experts figure will play a big part are No. 5, a mighty 469-yard par 4, and No. 15, a difficult 455-yard abounding in traps.

## Boise Pilots Close in on Ogden's Reds

By United Press  
A 5-1 victory over the Salt Lake Bees today placed the Boise Pilots within a half game of tying the Ogden Reds for first place in the Pioneer league.

The Pilots collected but 10 hits in yesterday's game with Salt Lake, but they included a home run by Joe Egnatic, triples by Bill Stenger and Ray Bauer and a double by Egnatic.

Boise's Egnatic and Stenger held the bees scoreless until the last of the ninth when three singles and a walk chased home a Salt Lake tally.

Pocatello Cardinals saved the strength for the fifth and eighth innings, bunched their runs, and trimmed the league-leading Ogden Reds, 9-5.

Dave Christensen pitched eight innings, held up in the fourth, however, and three Cardinal runs

## Rainiers and Angels Play 16-Inning Tie

By United Press  
Talk about love's labor lost—Ira Scribner pitched 15 innings for Seattle, Hollywood yesterday retired in favor of a pinch-runner, and after 16 innings the game was called a 2-2 tie as the Stars could catch a southbound train.

Three hours and 30 minutes of wasted effort.

The pitcher didn't do so badly. He worked 12 innings for Hollywood, giving way to a pinch-hitter, and 111 Bithorn finished. Harry Rosenberg drove in both runs for the Stars, singling Johnny Barrett home in the first and Herman Schulte home in the 11th. Scribner's single scored Les Scarsella in the fifth for Seattle, and Al Niemiec pulled the game out of the fire in the 11th by scoring Johnny Fallon with the tying run. The second game was called off. Hollywood took the series, three games to two.

Excite! Papa  
Next time Wally Hebert is a papa, he'll withhold the news for a while. Wally, pitching the nightcap for San Diego, had Los Angeles eating out of his hand for five innings yesterday. In the sixth, he was told he had become a papa. He promptly blew up, giving the Seraphs four runs on four hits and four walks. The Angels continued their assault against Brewer and Dilbeck and finally won in the ninth, 9 to 8. San Diego had captured the first game 9 to 10. The team won four games during the series.

Bohons Lose Series  
The Sacramento Solons lost their first series of the season—and by the healthy margin of five games to two—when San Francisco twice slumped them, 7 to 5 and 5 to 4.

Oakland took both games from Portland, 5 to 0 and 7 to 2, to gain an even break in the series.

# Hogan, Nelson, Demaret, Little And Snead Favored in Open Play

**By HARRY FERGUSON**  
 Editor  
**EN ROUTE TO THE NATIONAL OPEN GOLF CHAMPIONSHIP, June 2 (AP)—**Jack Doyle, the Broadway commissioner, has scanned the stars peered into crystal balls, cloudy and clear and has made five men favorites to win the National Open starting in Fort Worth, Tex., on Thursday.

The select list out of the 170 who will go after the biggest prize in golf includes three Texans, the present champion and the biggest question mark in golf. They are: Byron Nelson, former Open titleholder; Jimmy Demaret, the Texan; Little, defending champion, and Sam Snead, professor of the sweetest swing in the business among the five of them eight-to-one, meaning that if you risk one dollar on any of them you will get eight in return if your man comes home the winner.

The professor once confided to your agent he put considerable emphasis on "hitting when he set the odds on a game as unpredictable as golf."

By that he means the boys who have the best chance of winning are the ones who can keep their nerve during the last, hysterical 18 holes on Saturday afternoon, when the most yapping at their heels, when they have to shoot down narrow lanes cleared through the gallery and when gold and glory ride on each cutting putt.

The fact Snead has missed the boat on the Open so many times has led many to contend he will never win it. Their argument is he gets the leaping fingers when he hits the ball, but Prof. Doyle has his own special respect for Sam's honey-smooth swing that swings in the breeze among the big five. There can't be much argument about the other four—they have the shots and they have the nerve. Demaret, Hogan, and Nelson will be playing on fami-

lar ground among friendly faces. Little is a tough competitor and the only thing working against him is the fact that he won it last year and has to buck the law of averages.

In the bracket below the big five Prof. Doyle has the following group at 12 to 1:

Gene Garzen, Horton Smith, Henry Picard, Ralph Guldahl, Vic Ghessi, Paul Runyan, Clayton Heafner, Jug Mespiano, Johnny Revolta and Bud Ward.

Below them he has another group at 20 to 1:

Dick Metz, Lloyd Manrum, Ray Mangrum, Harry Cooper, Dutch Harrison, Denny Shute, Johnny Goodman, Sam Byrd, Jimmy Hunt, Dick Chapman, Johnny Bulla, Willie Turnesa and Walter Hagen.

So far as the rest of the field is concerned, the professor says you can have 'em. You can get anything from 50 to 1 up to 100 to 1 on any other man in the field, depending on how much you want to wager.

**hif into the stands. One ball some- times lasted three innings.**

"If we got a new one, it would go around the infield and every man a plug of tobacco in his mouth. By the time the ball got back to the pitcher, it could be passed for a round ace of spades."

"Give Feller that ball with his speed and curve? Br-r-r!"

"Not with guys swinging from the end of the bat as they all do now."

It is unnecessary for Roger Peckinpugh to remind you of what batters don't do to Bob Feller with the white ball.

**Vandal Pitcher Is Signed by Red Sox**

**OPOPINO, Ida., June 2 (AP)—**Chuck Bechtel, right-handed pitcher for the University of Idaho baseball team this year, said today he will sign a contract June 5 with the Boston Red Sox.

Bechtel first attracted the attention of Ernie Johnson, Boston scout, while pitching last year for Lewiston Normal school. It was indicated the contract probably would be farmed out to a Class O league.

# New Records Set at Intermountain Meet

**SALT LAKE CITY, June 2 (AP)—** New records fell by the wayside here Saturday as track and field stars competed in the annual Intermountain A.A.U. tourney.

The two marks that will go officially on the books were set by Mac Speedie, Utah, who ran the 200-yard dash in 23.8 seconds, setting the old mark of 24.1, and Don Anderson, Utah A.C., broad jumper, who leaped 23 feet, 9 1/2 inches.

Marks also were set by Jimmy O'Reilly, USC freshman, in the 200-yard dash in an exhibition and Joe Funston, George Pepperville college, in the half mile—but both were rejected as new marks because they were not run in competition.

# THE SCOREBOARD

**By HARRY GRAYSON**  
 NEA Service Sports Editor

Roger Peckinpugh gives Walter Johnson a slight edge over William Andrew Feller in the matter of sheer speed, but doubts that there has ever been a greater pitcher than Cleveland's wonder boy.

"When Bob Feller is right he doesn't have to make apologies to Johnson, Christy Mathewson or anybody else," says the famous shortstop who made good Indians of the Tribe.

Like every other baseball man, Rog Peckinpugh stresses the disadvantage under which Feller works in comparison to pitchers of 20 years ago.

A new and shiny ball is now tossed out at the slightest excuse.

Old-timers throw balls that had wings as they used to say.

"With the old ball, in my day, no club would beat Feller," asserts Peck. "I wouldn't get a hit off him in a week."

"I want a good hook, but I bill Johnson. You could look for fast balls at least on the first two strikes. Maybe that is proof of the Big Train's greatness. He could spot you that knowledge and still beat you. It was always a fast ball until he got two strikes on you, and in nine cases out of 10, he still had the fast ball after that, although now and then he would cross you with what he called his curve."

"Feller would make a ball with a rough cover on it. You'd be swinging at a balloon expansion."

"When I played, we never got a new ball unless the one in use was

Did you ever slam shut the doors on your automobile and find the keys inside the car? Mr. tool Mrs. came out of the movies to get in the Plymouth, but last night she forgot the keys on the outside, and there were the keys inside.

Mr. C said: "All right, John, let's see your previous Union Minute!" Well I walked down to the Union Oil station and told the guys about it. One of 'em got a long wire and came back to the car with me. He twisted the wire under the window, and looked the door here—and presto!

Then, on top of that, he presented both Mr. Clinton and me with a perfectly swell leather key-locator. There are no keys to this car, no contrivance, no gimmick, no sales slip—nothing!

Just address a post card to John Clinton, Room 725, Union Oil Bldg., Los Angeles, and I'll send you a leather key-locator with love and kisses, and the compliments of the Union Minute Men.

But I'd like to suggest that many requests you had to make the late Mr. Clinton. And in the meantime, when you need a friend—stop at a Union Oil station.
