WARS, COMETS TRAIL IN SKY

Vichy Appearing Predicted in East

VICHY, July 23 (AP)—France has no objection to granting Japanese demands for temporary occupation of military bases in French Indo-China if French sovereignty is not impaired, a spokesman for the Vichy government said tonight.

The statement, regarded as admission the French have accepted Japanese demands for air and naval bases in the Saigon area, said Japan desired to protect Indo-China against attack by British, Chinese and Free French forces.

German accounts claimed: That Moscow suffered additional heavy damage in another big air attack last night; that repeated Soviet counterattacks and efforts to break out of encirclement had been broken up with heavy Russian losses; that German forces and their allies continue to sweep forward on all fronts and to develop further encirclements.

ICKES PROPOSES MINING PROGRAM

WASHINGTON, July 23 (AP)—Secretary of Interior Harold I. Ickes today presented congress a program for developing the mineral resources of the west, including hydro and steam power projects which would add 4,000,000 kilowatts to the nation's power capacity by 1947.

In testimony before a senate public lands subcommittee investigating means of developing public lands resources, Ickes said that the future of the west depends upon the location of industries near the source of minerals.

Scientific development of western mineral resources, he said, demands that the "monopoly of information" concerning sources of supply be broken down. Under present circumstances only a few large companies have the funds and personnel to utilize it for their own purposes.

Ickes recommended that congress should appropriate \$10,000,000 to the bureau of geology for the purpose of making a geological survey of the west.

Ickes pointed out that under present law findings of ore on public lands are to be located by the landowner, "locked up" no matter how valuable they may be to defense or to the development of the west, by anyone who can make a claim. He recommended amendment of the mining law to "broaden the coverage of public land leasing principles as applied to the system of loc and placer claims."

Ickes specifically named the location of the proposed power developments but presented the subcommittee with a list of states where they would be located. The list of power to be developed and the dates upon which the power projects would be completed.

He also included:

- North California-Nevada, 150,000; Utah-Idaho, 150,000; Pacific north-west, 3,800,000; and Colorado, Wyoming, Nebraska, 22,000.

Under present law, construction starting in 1941 were: 1943, 658,000 kilowatts; 1944, 2,417,000; 1945, 2,493,000; 1946, 2,907,000; 1947, 890,000.

ALIENS IN JAPAN MUST REGISTER

TOKYO, July 23 (AP)—All foreigners in Japan were ordered today to list their personal assets, including clothing, with the finance ministry by July 31. After that date they must report each three months on their income and expenditures.

Agents of the finance ministry called on foreign news agencies of Tokyo, including those of the United Press, and demanded a complete list of assets within Japan. They also investigated any funds received by the agencies and the agencies' source of income.

(A United Press Shanghai dispatch reported all Japanese steamship lines serving Shanghai ceased publication of their shipping schedules effective today.)

(At the same time, the dispatch said, Japanese authorities in Shanghai clamped down a strict censorship on cable and radio messages to Japan.)

The Domei news agency quoted well informed quarters as charging that the United States was deliberately discriminating against Japan by refusing Japanese ships transit through the Panama canal so Japanese crews could not see the nature of "repair work" now in progress.

REPORTER HELD IN NAZI PUTSCH

LA PAZ, Bolivia, July 23 (AP)—Soviet authorities in a roundup of suspects after a reported "Nazi putch," announced arrest today of Herman Siles, correspondent of the German press, Otto Frankfurter, and son of the Bolivian ambassador to Chile.

Siles is being held incommunicado.

Additional arrests in connection with the alleged plot, which resulted in a state of siege and in the German minister being declared persona non grata, were reported in Cochabamba province.

THUNDER OF WAR

LONDON—Belief expressed that second big Nazi attack on Russia is being planned for the major axis, R.A.P. member Frankfurter, Main, Mannheim, Dunkirk, Ostend, Rotterdam; report German pressure down to keep troop transit rights toward Caucasus and Iran oil fields.

MOSCOW—German again attack Moscow by air, but Russians claim damage is unimportant and that 10 of 150 German planes were shot down; admit German drive to Petrozavodsk, 100 miles northeast of Leningrad and Nazi advance to Zhitomir area, 80 miles west of Kiev; charge Nazis prepared to use poison gas.

BELGRADE—Claim great destruction in second raid on Moscow; German, Hungarian, Rumanian, Slovak troops said to be advancing in Ukraine with mechanical operations progressing on rest of front.

TOKYO—All foreigners ordered to list assets, including clothing; strict censorship in effect, anger at United States because of alleged dispatches bring them back when their year of service expires.

Prerogative Emergency Call

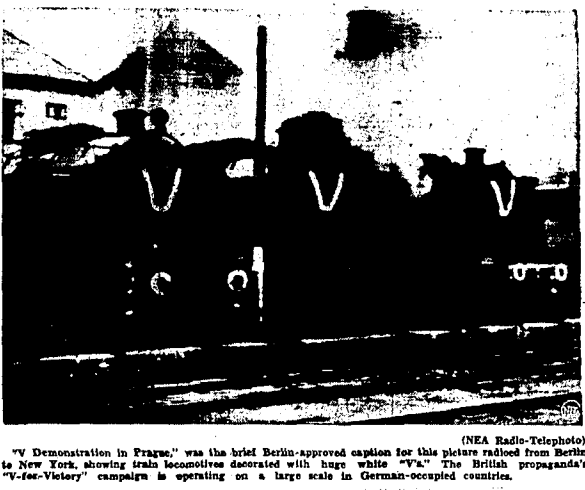

He said he preferred that congress permit extension of service through a declaration of national emergency rather than by "piecemeal" amendment of the various statutes.

Marshall said it would be "most unwise" to present the facts of the world's situation as the army sees it to congress and the people.

"The information is such a nature," he said, "that its publication would clearly be against public interest."

He said the army "does not want" an increase of 900,000 men but merely desires to prevent a breaking up of existing units.

"V" for Victory, "V" for Vitzkrieg, Signs in Prague

"V" Demonstration in Prague, was the brief Berlin-approved caption for this picture radiated from Berlin to New York, showing train locomotives decorated with huge white "V's." The British propaganda "V-for-Victory" campaign is operating on a large scale in German-occupied countries.

Petitions to Congressmen Bucking Draftee Retention Are Sabotage, General Says

WASHINGTON, July 23 (AP)—Gen. George C. Marshall, army chief of staff, today described efforts to have selectees petition congress against extending their service beyond one year as "sabotage of the most dangerous character."

"We must treat these men as soldiers," Marshall told the house military affairs committee. "We cannot build an army if it is to be used as a political club."

He warned the committee that congress would be guilty of a "colossal error" if it depended on voluntary enlistments to maintain the nation's armed forces at this critical hour.

He did not mention any names in discussing the petitions from Sen. Burton K. Wheeler, D. Mont., and Robert A. Taft, R. O. anti-interventionist leaders, repeatedly have asserted they have received numerous petitions from selectees urging they be permitted to leave the army.

Marshall testified soldiers who have asserted their opposition to extension of their service "had been told into this sort of thing."

"I regard this sort of activity as sabotage," he said.

"All I ask is that the whole problem of what we're going to do be settled before we don't want to do these things," he said.

Specculates on Nazi Thrust

Marshall's appearance coincided with speculation on the possibility that a German thrust toward Portugal or Spain may prompt President Roosevelt to occupy the island possessions of those countries in the Atlantic. The international situation is being complicated by growing tension in the far east where Japan is seeking concessions from French Indo-China leaders.

The chief of staff testified he received a telegram yesterday from Lieut. Gen. Hugh Drum, first army commander, advising he had instructed his command that efforts to get petitions from men in the Pacific railroad, said today that industry has refused to utilize western resources.

The grand winner, which moved out several other Jaberwackies in the eastern divisions, were too many in the national defense plants. He said he had proposed that this should continue without abatement the western states will be de-manded of their supplies and become a hollow shell without enough industry to support themselves."

Jeffers, who appeared before the senate public lands committee, recommended that the government locate plants for producing aluminum, ammonia, magnesium, manganese, potash, sodium phosphates, soda ash, steel and tungsten in the west near the source of supply.

Japanese Prepare To Push in East

By HARRISON SALISBURY
Germany and Russia traded heavy blows, including another Nazi air smash at Moscow, on an 1,800-mile front today and Japan appears on the verge of moving into French Indo-China.

The discrepancy of German and Russian accounts of military developments continued, with agreement on only one point—that extremely heavy fighting is going on in all sectors from the Finnish front north of Leningrad to the southern Ukraine.

Japan has not presented any ultimatum to France, the spokesman said, and Germany has not intervened in Japan's behalf of the Japanese demands.

The spokesman said Japan has demanded bases for a long-range military measure to defend Indo-China against De Gaulle's, the Chinese and the British. De Gaulle has collected the leader of the Free French movement.

Negotiations on the Japanese demands are continuing in Vichy and in Hanoi, seat of Admiral Jean De Coux, governor general of Indo-China, the spokesman said.

No inconceivable

"France sees no inconceivable in Japan temporarily occupying military bases in Indo-China on condition such occupation does not menace Indo-China's integrity and French sovereignty," the spokesman said.

"Japan has made no territorial demands and merely wants to protect Indo-China."

"There is a concentration of Chinese troops in Yunnan province and the army is continuing to build up troops and aviation in Burma and Malaya, leading Japan and France to fear a 'Pan-Asian' attempt to occupy Indo-China."

"France cannot defend Indo-China. She has no military units within the 1940 pact area. Japan's present position is to maintain peace in Asia."

As the Vichy spokesman was speaking, the Japanese ambassador to correspondents here, Marshal Henri Petain was asserting in a speech at Aix-en-Provence that France is "not to defend" Indo-China "desired by our neighbors."

Late FLASHES

LONDON, July 23 (AP)—A Russian war communique said today that Russian troops were fighting stubbornly in the directions of Kiev, Liovk, Kirov, Smolensk and Zhitomir, on the Moscow and Kiev fronts, and that in other sectors there was nothing of significance.

CHUNGKING—Admiral Yang Hsiang-chen, chief of the intelligence bureau of the Chinese war operations board, said today a large Japanese fleet and 30 troop transports had moved southward following French refusal of Japanese demands for air and naval bases in French Indo-China.

Yang said he understood the French in Indo-China were prepared to resist. He said if the Japanese succeeded in establishing bases in southern Indo-China they then would invade Thailand (Siam) and British Burma.

VICHY—Diplomatic quarters said today that France and Japan were discussing a Japanese request for "guarantees" should there be a British-Free French-Chinese attack on French Indo-China.

Observers believed that as a result of current discussions, Japan might be "invited" to occupy strategic ports and air bases in southern Indo-China to safeguard French sovereignty under an arrangement similar to that under which Japan already holds control of northern Indo-China.

WASHINGTON, July 23 (AP)—Chairman Andrew J. May, D. Ky., of the house military affairs committee today after hearing testimony by chief of staff Gen. George C. Marshall that the inter-war bill authorizing expansion of the general public understandings and rapidly is getting more so.

He said his committee would approve Marshall's request for a congressional proclamation of a national emergency in order to keep selectees and national guardsmen in service longer than one year. Marshall has said this was necessary to keep the army from "disintegrating."

WASHINGTON, July 23 (AP)—The house today passed and sent to the senate the \$244,268,000 naval public works bill authorizing expansion of three facilities to provide "maximum fleet operating efficiency."

The appointments were effective Aug. 4, and will last four years.

Control of Fire in Montana Seen

FELERDA, Mont., July 23 (AP)—Forest officials here today said they expected to control before tonight a 15-acre forest fire which broke out here of here late yesterday.

The fire, believed to have been caused by a careless smoker or lantern in this area, is burning in a crew of 15 OOO men was fighting the fire.

The fire, believed to have been caused by a careless smoker or lantern in this area, is burning in a crew of 15 OOO men was fighting the fire.

Twin Falls Prisoner Escapes Elko's Jail

A Twin Falls man who last May was arrested here for Elko, Nev., officers on a charge of stealing mining equipment, was today once more the object of a police search after he escaped from Elko's jail.

The man is Cecil Dobbs, 34, who formerly resided on Falls street in this city. He is married and the father of five children, records of probate court show at the time he was arrested.

Peterson complained against the man, charging that of the mine equipment, was filed in probate court here following his arrest. But with arrival of Sheriff O. A. Harper, Elko, Dobbs was released to him and taken back to the Nevada city to face charges in a police report to the county jail there and escaped about 6 p. m. Tuesday. He had been a "trusty."

Dobbs is alleged to have stolen the equipment, weighing 3,000 pounds, from equipment owned by J. B. Minton, who was arrested in a pickup truck before driving to Twin Falls. The truck, under the heavy load, was being driven on route. Here he said the equipment to a junk dealer for only \$1.

Dobbs is six feet tall and weighs 180 pounds. He is slender. Identification marks include a knife scar on his left hand. Nevada officers told city and county authorities here that he would probably make his way toward Twin Falls.

General Foresees Lack of Hospital

BALT LAKE CITY, July 23 (AP)—Col. Gen. Frank T. Hines, administrator of U. S. Veterans Affairs, predicted here today that veterans' hospital facilities in the country would be increased from their present 85,000 beds to 100,000 beds to take care of veterans of World War I as they grow older.

Hines, who has just increased from his present 85,000 beds to 100,000 beds to take care of veterans of World War I as they grow older. He said that if this country should become engaged in the present war, hospital beds would have to be increased "many times."

RAILROAD CHIEF LASHES INDUSTRY

WASHINGTON, July 23 (AP)—W. Jeffers, president of the Union Pacific railroad, said today that industry has refused to utilize western resources.

The grand winner, which moved out several other Jaberwackies in the eastern divisions, were too many in the national defense plants. He said he had proposed that this should continue without abatement the western states will be de-manded of their supplies and become a hollow shell without enough industry to support themselves."

Jeffers, who appeared before the senate public lands committee, recommended that the government locate plants for producing aluminum, ammonia, magnesium, manganese, potash, sodium phosphates, soda ash, steel and tungsten in the west near the source of supply.

Senator Fears Price Chieftain

WASHINGTON, July 23 (AP)—Sen. Tom Connally, D. Tex., charged today that Leon Henderson, price control administrator, has become a "dangerous figure, a threat" because of his power to fix prices.

Connally's charge, made during a senate committee hearing, came while OPM Director William B. Knudsen was telling a press conference that Henderson's proposal for a 50 per cent cut in 1942 model automobile production "would have a lot of people walking the streets."

Connally testified Henderson, who was interrupted before the senate defense investigating committee, said he did not know so much he wouldn't be afraid of you. But you are so darn smart and know so much that you have become a dangerous figure—a threat.

Knudsen said Henderson had not consulted him about the proposed cut in automobile production. He said he had proposed that industry had refused to utilize western resources.

Autoists Asked to Conserve Gas

BOISE, July 23 (AP)—Idaho motorists today were asked to conserve gasoline by "frequent and proper" adjustment to automobiles to save an annual fuel loss totaling \$4,405,500.

Idaho state automobile association urged motorists to combine proper driving with frequent visits to repair shops as a means of preventing a motor fuel shortage on the east coast.

R. G. Cole, association manager, said extensive fuel tests had demonstrated that each motorist, on an average, wastes about \$20.37 of gasoline each year because he failed to maintain his automobile properly.

The tests revealed, Cole said, that of all motor fuel used, 14.7 per cent represented waste thrown away on one side—lack of proper adjustment.

The money loss for the nation as a whole amounted to well over \$400,000,000 a year, he said.

Cole said such adjustments as cleaning and adjusting carburetors and fuel pumps, checking and adjusting ignition system and timing, and checking and adjusting wheel alignment, brake clearances and tire pressure would result in "tremendous savings" in gasoline.

DID YOU HAVE A BREAKDOWN?

Often times when you farm-ers are busy in the field a breakdown may occur with any type of farm machinery. Some of you will go right down and buy a new piece of equipment, only to find it after used implements. Classified Page always contains many bargains in used equipment. Both dealers and individuals will be represented there.

Feel Wacky? "Gulp Warm Puppies and Cow Juice Rhumba" Wins Grand Prize

Grand prize winner in the Evening Times Jaberwackies contest, a board of five judges decided today, is Margaret Povey, 316 Eighth avenue north, Twin Falls, Idaho.

Miss Povey's offering, which won the \$1 award in the final week of the month-long competition, now wins the \$5 top award. Her "Jabberwocky" is a collection of poems in the comic strip, "Trockles and His Friends."

The grand winner, which moved out several other Jaberwackies in the eastern divisions, were too many in the national defense plants. He said he had proposed that this should continue without abatement the western states will be de-manded of their supplies and become a hollow shell without enough industry to support themselves."

Jeffers, who appeared before the senate public lands committee, recommended that the government locate plants for producing aluminum, ammonia, magnesium, manganese, potash, sodium phosphates, soda ash, steel and tungsten in the west near the source of supply.

BOISE AIR BASE NEEDS ONE MAN

The United States army has one vacancy in the 42nd ordnance company (aviation) at the Boise air base and, if possible, it wants a youth from this section of Idaho to fill the opening. It was announced this afternoon by Sgt. Frank Morris, local recruiter with headquarters at the city hall.

Youth accepted must be in physical condition, have no dependents and be a high school graduate. Sgt. Morris said full participation can be obtained at the city hall.

Some of the same youth recruited for the same openings are now available with the medical company, the infantry, the coast artillery, the air corps, the quartermaster corps and the medical department in Alaska, the Hawaiian and Philippine Islands. Vacancies also are open in the air corps for stations in the United States.

All applicants for service in the quartermaster corps, the medical and air corps must be high school graduates.

BLAZE DESTROYS RANCH BUILDING

KING HILLS, July 23 (Special).—Fire of unknown cause destroyed the wash house and contents on the L. R. Hill ranch near here early Monday morning.

The fire had built a fire in the stove to heat water for the washing and went on about his chores. Returning to the house he noticed that he noticed nothing wrong, but after eating he looked up and saw the building wrapped in flames.

The fire had started on the wash house and had spread to the other buildings.

LEWISTON YOUTH DROWNS IN LAKE

KALISPELL, Mont., July 23 (Special).—William E. Collins, 16, of Lewiston, Idaho, was drowned in Flathead lake late last night while swimming with 14 other youths, all members of the Idaho Future Farmers organization.

Stephens, county authorities were informed of the drowning too soon after eating candy and other sweets, and was rescued with a cramp while making for a pier. His body was recovered at midnight and brought here for transfer to the home of his parents, Mr. and Mrs. Russell Stephens, Lewiston.

Stephens and the other youths were on their way home from a tour of Glacier national park and other Montana scenic spots.

Coroner Harry Campbell said no request would be held.

Liberal Business Cleaners

News in Brief

In Babe
Mr. and Mrs. E. N. Day and J. W. Newman were among the Twin Falls business visitors in Boise this week.

Back From Oeith
Mr. and Mrs. W. N. Skinner have returned from a vacation trip to Alturas lake and Sun Valley.

Officers Visit
Sgt. Roy H. Russell and Corp. Don McKintire, Company E, 116th Engineers, Post Lewis, Wash., are visiting their parents here.

Convincing
R. L. (Colley) Colman is convincing satisfactorily at his home, 301 Third avenue north, following a heart attack, suffered last Friday.

Return to Coast
Mrs. Rex Ross and children have returned to their home in California, following a six weeks' visit with Mrs. Rogers' parents, Mr. and Mrs. June Kirkman.

Back From Chicago
Mr. and Mrs. Duncan Munn and family have returned from a trip to Chicago, former home of Mr. and Mrs. Munn and Duncan Munn.

From California
Mrs. Arlene McRoberts, Twin Falls, and Mrs. Raymond McLean, Burley, have returned from a vacation trip to San Francisco and Los Angeles.

Visit in Nampa
Mrs. Arlene Palmist and sons, Bob and Jim, and her mother, Mrs. P. J. McCarty, Los Angeles, who have been guests of Mr. and Mrs. E. B. Reid, left today for Nampa for a brief visit. They will return here Friday.

Undergo Surgery
Miss Mildred Andrus, Jerome, daughter of Mrs. C. C. Andrus, who underwent an appendectomy this morning at the Twin Falls county general hospital, is in satisfactory condition. It was announced early this afternoon.

Kansas Visitors
Rev. and Mrs. Fred Blanding and daughter, Miss Velma Blanding, Minneapolis, Kan., and Mrs. Addie Fyren, Bartlesville, Okla., visited briefly with Mr. and Mrs. F. R. Darling this week, en route to Garfield, Idaho, to visit the home of Mrs. Blanding and Mrs. Fyren.

Return Home
Miss Maudie Norton, W. A. Norton and daughter, Miss Donna Norton, have returned to their home in Lewiston, Idaho, after a visit in the E. W. Collins home here. The Iowans are the sister, brother and niece of Mrs. Collins.

Visit Mother
Lieut. Walter W. Olson, reserve officer, Camp Roberts, Calif., and Mrs. Olson, and Mrs. L. A. Marks, Los Angeles, are here to visit Mrs. Olson, mother of Lieut. Olson, who is receiving treatment at the Twin Falls county general hospital for injuries sustained when she fell down a stairway recently.

At the Hospital
Patients admitted to the Twin Falls county general hospital include Ben Koch, Mrs. Ina Seebred, Mrs. Charles E. Roy, Roseann, Charles Bates, Mrs. Edith Robbins, Eva Stokes, Barbara McConnelly, Mrs. Charles E. Roy, Roseann, George Paxton and Margaret Paxton, all of Twin Falls.

Visit in Wyoming
Mrs. O. H. Wehrlich and son, Richard, Wehrlich, and Miss Betty Leinen, left the fore part of this week for Sheridan, Wyo., to meet members of the C. K. Cormany family, en route to Yellowstone national park and Jackson Hole country. The Cormans formerly lived in Twin Falls.

Will Serve Time
Unable to pay a fine of \$100 assessed by Justice of the Peace Guy T. Swopes, Falls Van Hook, Twin Falls, who pleaded guilty to a charge of driving while intoxicated, is now serving out his term in the county jail. Van Hook's case was heard yesterday afternoon. The charge against him was filed by city police.

Guests
Mr. and Mrs. Frederick Getchell and daughter, Miss Betty Getchell, Boston, Mass., are guests of Mr. and Mrs. Asher A. Getchell. They are on a transcontinental tour of the United States, and will leave Twin Falls for the coast, returning to the east through the southern states, expecting to arrive in Boston Sept. 1.

Enter Hospital
Among patients recently admitted to the Twin Falls county general hospital are Mrs. Clara Walker, Kimberly; Mrs. Mildred Andrus, Jerome; Irene and Arlette Blackham, Castleford; Mrs. C. G. Pope, Hagerman; Mrs. Albert Olesinger, Stella and Veda Hansen, Buhl; Mrs. Terrence Lauer, Hansen, and Claude Merchant, Murtaugh.

Patients Discharged
Patients discharged from the Twin Falls county general hospital include Master Edward Muller, Fallsfield; John Werner, Mrs. Neal Carlson, George Atwood, Roy Brewer, Florida Brewer, Mrs. M. J. Atwood, Mrs. Stewart Mortson, Twin Falls; Mrs. Susan Kinney, Mrs. W. H. Johnson, Florence Kollmeyer, Buhl, and Kenneth Briggs, Murtaugh.

RITES HELD FOR VICTIM OF FEVER

Final rites were held yesterday afternoon at the Twin Falls mortuary chapel for Miss Helen Sophia Hansen, formerly of Hansen, who died Sunday at a Boise hospital from the effects of spotted fever. Quantities of floral tributes bore messages of esteem.

Rev. E. L. White, Filer Methodist church, officiated, assisted by Rev. J. H. Coulter, of Hansen and Murtaugh Community churches.

A quartet, Miss Maude Laycock, Sirt Scott, Donald Dietz and Mrs. Blake Froelich, accompanied by Mrs. H. E. Coulter, sang "Sometimes We'll Understand" and Mrs. Froelich sang "Face to Face" with E. Hill at the piano.

Interment was in Sunset Memorial park.

Seen Today

Col. Herb Lauterbach, on furloing, roaming the streets again in civvies, looking very much like a man who has just been released from prison. . . . New idea in chain letters—Message asking recipient to send \$100.00 to the author of the letter. . . . Big neon sign located on truck: "Trail Creek Lodge, California." . . . Brand-new counter-top radio, model "A-100" by Harold Hove, Kearns-Riar publisher, wearing startled expression as he observed a local draftsman exchanging two-bit piece as result of performance test. . . . Police report that Twin Falls information request from Fresno, Calif. . . . And these tourist licenses observed with three brands of each other—Massachusetts, Virginia, Tennessee, Mississippi and Vermont.

YOUTH INJURED IN TRUCK ACCIDENT

OLENSKY FERRY, July 23 (Special).—A 16-year-old boy, who was driving, lost control of the truck which had been used to haul the ice cream, pop, etc., for the picnic, and ran into a tree, killing the boy. The driver of the truck was forced onto the soft shoulder of the grade about 15 miles north of town by the sudden loss of control of the truck, which turned over, throwing the two young men out of the truck. The boys were severely injured and abrasions, and Lawrence a bruised knee. The truck was badly damaged.

Commons brought on in to town, where his injuries were treated, a wrecker was sent out to pull in the damaged truck.

The Public Forum

MAYOR ANSWERS CLAIM THAT HE SERVED IN THE IGNORED
Editor, The Times:
When Co. E left we personally took them 25 cartons of cigarettes for the boys and myself. We also informed them that we would be glad to write to any of them if they were asked to do so. We also extended them an invitation to be the guests of the Roxy theater at any time they were on leave and in Twin Falls.

It has been our rule to invite the draftees when notified that they are up to be inducted into the service that they can be our guests until they entrain.

All men in a uniform of Uncle Sara are exempt from paying admission tax, and the Roxy admits all men in Uncle Sara's uniform free and at any time that the theater is open.

MAYOR JOE KOEHLER
Twin Falls, July 23.

Idahoan Commits Suicide in River

PAVETTE, Ida., July 23 (AP).—Sheriff's office reported today Louis Huber, 72, committed suicide by drowning in a pond forming in a dam at Whitley Island on Snake river two miles north of here.

Huber's boat, floating face down in the pond, was found by a fisherman.

Sheriff Ernest Vaughn said a suitcase was left in Huber's automobile, parked nearby.

CARD OF THANKS

We wish to express our sincere appreciation to all our friends and neighbors for the sympathy and kindness extended during our recent bereavement.

Mrs. O. A. Love
Mrs. and Mrs. Ralph Love
Mr. and Mrs. Carl Love
Mr. and Mrs. Ernest Bjork
Mrs. Agnes Day
and all our friends and Grandchildren

Potlatch Potluck

Queen of Seattle's annual Potlatch festa, July 29 to Aug. 1, is welcome Shirley Gail Fleetwood, 19, of Twin Falls, a member of the University of Washington's women's rifle team, carries a private pilot's license and is working for a commercial flying license.

NURSES TO MEET HERE IN OCTOBER

Idaho State Nurses' association will meet in convention session in Twin Falls Oct. 13 and 14. It was announced today, following a meeting of the First District Nurses' association last night.

Announcement was made at a business session, following a picnic at the home of Mrs. T. Dan Connor, held by 30 members and guests.

Mrs. Blanche Clark, Mrs. Rosemary Reynolds, Mrs. June Garrett and Mrs. Connor were co-hostesses.

Geography

The lady from California seems to be making her mark in Idaho. That's what the Chamber of Commerce, slightly surprised, decided.

The lady is Mamie E. Anderson, Requa, Calif. Her hobby seems to be collecting the scenic spots of Idaho distributed by a major oil company.

She wrote the Chamber of Commerce to say she wants pictures of Multnomah falls and the Redwood highway out of your county. It is as if she were asking to do so. We also extended them an invitation to be the guests of the Roxy theater at any time they were on leave and in Twin Falls.

It has been our rule to invite the draftees when notified that they are up to be inducted into the service that they can be our guests until they entrain.

All men in a uniform of Uncle Sara are exempt from paying admission tax, and the Roxy admits all men in Uncle Sara's uniform free and at any time that the theater is open.

MAYOR JOE KOEHLER
Twin Falls, July 23.

DECISION FRIDAY FOR RADIO PLAN

County commissioners, at regular session next Friday, will study and act on a proposed agreement whereby the city and county would jointly operate a police radio station. It was announced today after Everett M. Sweeley, county prosecutor, sent the proposal to the commissioners' desk.

The agreement was approved by members of the Twin Falls city council at regular session last Monday night. It provides, among other things, that the cost of the transmitter be divided equally between the city and county and that maintenance costs be handled the same way. Receiving and sending sets in the police cars would be paid for individually.

Under the plan the police radio station which will be in operation here soon would be increased in power from 50 to 100 watts and would give county-wide coverage. Both police and sheriff's cars would be equipped with two-way radio sets and a special wire would run from the sheriff's office to the police station.

Don't Wait Longer for AUTOMATIC HEATING

Genuine Iron Fireman automatic coal heating is now available for any size home. Bigger value than ever before. GERMANS ADVANCE BUT FAIL TO CRACK RUSSIAN DEFENSE

NAZIS CONFRONT RED OPPOSITION ON NEW FRONTS

After 22 days of what is being called one of history's greatest battles, over the longest front ever known, Adolf Hitler's great war machine has not succeeded in breaking Russia's resistance.

It is making some progress, but despite conflicts in the Ukraine on both sides, it is obvious the advance has been considerably slowed and the rate is not one-half what it was. That is partly due to the fact that the earlier phase of the campaign carried the Germans through territory less well-defended than the present field of battle, but there probably are other elements.

One is the fierce fighting spirit of the Russians and their ability to counterattack. Another is their ability so far to keep their three main armies in orderly units despite losses, and to retreat slowly and in good order, instead of being put to confused flight, as the German high command had expected.

Time Table Upset

The German time table seems without doubt to have been upset. It may be that this second phase of the campaign has reached its crest and another lull may result while the Germans reorganize, perfect their lengthening communication lines and gather their forces for a new assault. That was the case two weeks ago, when the impetus of the first drive spent itself against the main Russian defenses.

If the Germans are to make marked advances by end of this week, it would not be surprising to see the fighting tapering off in the central and northern sectors. At present, it is reported in full blast all the way from Finland to the Ukraine.

The Germans have made some advances in the Smolensk sector fronting Moscow, but it is not yet certain Smolensk has fallen. Although the Germans claimed it 10 days ago, some German advance units are reported to be on the east side of Smolensk, but there seem to be Russian units and guerrillas still west of Smolensk, harassing the Germans from the rear.

Advance in North

The Germans and their Finnish allies also have advanced to the region of Petrozavodsk on Lake Onega east of Lake Ladoga. They claim to have taken the town, which was the cutting of the Arctic railroad from Murmansk to Leningrad. That would impair Russia's ability to hold the important Arctic port of Murmansk, from which sector there have been no recent reports.

Out of the fog of contradictory communiques, the fact emerges that German claims frequently have been exaggerated, less by the high command than by official news agencies and anonymous "authoritative" spokesmen.

Apparently the Germans will have to achieve some spectacular success before Hitler can launch his expected general European peace proposal on the basis of an imminent Russian collapse.

Large Crowd Jams Utah to Celebrate

SALT LAKE CITY, July 23 (AP)—Record crowds were reported at major Utah cities today at the second-day celebration of pioneer week—commemorating the entrance of the Mormon pioneers into Salt Lake valley 84 years ago.

The celebrations will reach their climax tomorrow, Pioneer day, a legal holiday in Utah that is celebrated with even greater vigor than residents of the state celebrate Fourth of July.

In Salt Lake City and Ogden, the festivities included rodeos. At the arena here, top honors in the principal events of the opening night's program went to Clyde Brown, Tulsa, Okla., who roped and tied a brahma calf in 23 seconds, and Elmo Walls, Cleburne, Tex., who bulldozed a steer in 9.8 seconds.

Brothers Get Acquainted!

If this picture had been taken 43 years ago the two men might have been seated on a sawhorse—but both they and the sawhorse would have been a lot younger. The two men are (left to right) Frederick Getchell, Boston, Mass., and Asher A. Getchell, local druggist. They are brothers and this picture, taken yesterday afternoon, shows them together and getting acquainted after not having seen each other for 43 years. (Times Photo and Engraving)

Two Brothers Meet for First Time in 43 Years

Forty-three years is a mighty long time. It's an especially long time for brothers to be apart—but yesterday afternoon Frederick Getchell, Boston, Mass., and Asher A. Getchell, Twin Falls, got acquainted again as they met for the first time in just that many years.

Educator

Frederick is head of a department in the Boston Latin school, where he has served for 23 years, while Asher is a local pharmacist. They parted in Waterville, Me., and although they have corresponded quite regularly they had not seen each other from that time until yesterday. Fred was then 22 years old and Asher 24.

"I recognized him right off," Asher said of his brother when interviewed by a Times reporter. "He hasn't changed a bit."

Fred said the same thing of Asher.

Transcontinental Tour

The visiting brother is accompanied by his wife and daughter, Betty, and they are on a civic tour of the United States by motor. From here they go to the coast, down to southern California, and back home the southern route.

The three Bostonians are visiting Asher and his wife at their home in the Bellville apartments.

When the brothers said goodbye those 43 years ago—Fred to remain in the east and Asher to come west to seek his fortune in the new land—Fred was a student at Colby university, Waterville, Me. That parting was brought close to them when Asher, during the interview, produced a street sign which 43 years ago was secured on a lamp post in Waterville. The sign said "Getchell St."

Different Story

Asher recalled that a "couple of boys" had secured it for him and had given it to him as he left to

come west. Fred recalled a different story, however, but the conversation shifted at this point.

Fred said that he would stay in Twin Falls and visit the scenic section surrounding the city just as long as he could. He must be back in Boston by Sept. 1 to prepare for start of school.

Incidentally, Fred is department head in a school which is more or less of a permanent nature. The institution this year celebrated the 325th year of its existence.

Both men opined that it was "swell" to be together again and so today, and the other "all too few" days they will be together, a discussion of the "old times" will be much in order.

School Cash Needs

Fixed at \$148,460

BURLEY, July 23 (Special)—Mrs. Florence Haight, Cassia county superintendent of schools, this week announced the anticipated figures for county school finances for the year 1941-42, taken from the classroom unit work sheet which she mailed to the state superintendent of public instruction in Boise.

Minimum grade school requirements of the year will be \$5,820.40, and minimum high school need is \$82,524.80. This makes a total required fund of \$148,460.60.

The minimum district levy will be \$21,397.47, which leaves an anticipated county state figure of \$127,063.13.

Parachutist Fire-Fighter Jobs Open

The United States civil service commission is now planning examinations for positions which, figuratively speaking, are "up in the air." It was announced this afternoon by A. P. Anderson, secretary of the local board of civil service examiners.

The positions for which examinations will be held are chief foreman of parachute squads; smoke jumper, squad leader; smoke jumper, rigger, and smoke jumper, fireman. These examinations are for the purpose of filling existing and future vacancies in the U. S. forest service in the states of Idaho, Montana, Oregon and Washington.

Examinations are also set for senior operating engineer (sawage disposal plant) and operator, sewage disposal plant. These examinations are for the purpose of filling existing and future vacancies in the U. S. quartermaster corps, war department, air bases at Boise, Pendleton, Portland, Everett, Spokane and the U. S. naval air station at Seattle.

Applications must be on file not later than Aug. 11. Full particulars regarding any of the positions can be had by contacting Mr. Anderson at the local postoffice or W. Clyde Williams at the local Idaho state employment service.

RELIEF COSTS IN IDAHO INCREASED

BOISE, July 23 (AP)—Despite the fact the 1941 legislature shifted the direct relief burden to the counties, relief costs in Idaho rose sharply during the first six months of the year, department of public assistance reported today.

Department reported \$2,005,135 was spent for all branches of relief during the period from Jan. 1 to July 1, compared with \$1,533,379.96 spent during a corresponding period in 1940.

Relief cost during June 1941, totaled \$309,591.33, or \$11,891.43 more than in June of 1940.

The department said there were 9,218 persons receiving old age assistance in June 1941, compared with 8,933 in June of last year. Aid to dependent children was extended through 3,098 families, compared with 2,894 families in June 1940.

Public assistance officials noted, however, that most counties have not had time to levy an extra mill authorized by the legislature to shift relief cost away from the state.

The Effective Phase Begins

There have been three phases of the defense program since the President called for the building of effective defense in May, 1940. From May until that autumn there was a great scurrying to pass appropriations, to let contracts, to draw plans; everything was on paper. It had to be so.

From last autumn through this spring and summer, there was a period of "tooling up"—of providing the specialized tools necessary before production could begin, of building factories from the ground up. Now at last we enter a third phase—when production in effective volume is beginning to roll. Now we begin to get the stuff, and from now on the stream of that production must continue to rise in heightening crescendo until the world comes again, as it will some day, to peace.

Watch the needle flicker across the face of the arms production gauge!

Now it reads "More than 1500 new-model rifles and sub-machine guns are coming off the production lines every day."

Now "The thousandth Hudson bomber is already on its way to England."

Now "Shells will begin to roll off the production line of the army's \$20,000,000 munitions plant at Milan, Tenn., on Aug. 10. Six months ago this plant was a hayfield."

Now "Every naval ship under construction is far ahead of schedule."

Now "Three tank plants are simultaneously getting into actual production on medium tanks, the type the army has needed most urgently, since light tanks are already in quantity production, and are good enough to have been most helpful to the British in Libya."

Each of these is only a small flick of the needle, but together they show how the defense effort is entering the productive stage. It has been a weary strain to wait month after month, plugging ever harder at the job, with so little apparent result. Now the results begin to come.

With actual tangible guns, tanks, and planes in sight, it should be easier to redouble the effort that will keep them coming in an increasing stream. In that lies the best hope for the American future.

Tuning in on Termites

We don't think we've ever been unduly friendly toward termites, especially the fifth column kind. But after all, there was this to be said for termites: They were the last stand of privacy in a goldfish-globe world. Termites worked silently and privately; nobody ever bothered a termite, for the simple reason that nobody ever knew they were there until it was too late. They were able to enjoy their frugal repast of door-sill salad unmolested.

Now a super-microphone has been invented which makes the minuscule munchings of the termites sound louder than a man eating celery in a railway station restaurant. The termite's loss will be man's gain, but it is disconcerting to think that no living creature is any longer safe from the keen ear of the microphone—unless even the termites have been tuned in.

War Casualties in the U. S.

Nobody doubts any longer that the United States is tremendously affected by the war in Europe. It now has begun to touch every phase of daily life.

But would you think it was actually causing traffic deaths? Col. John W. Bosworth, state police superintendent of West Virginia, says it is. Highway accidents actually increase in West Virginia with Hitler's movements, Bosworth says, and warfare in Europe is spilling the lives of Americans thousands of miles away from it. People feel uncertain and insecure, he thinks, and thus they grow careless and reckless.

It seems far-fetched, but there might be something to it, at that. It is surely true that the long months of uncertainty wear some people's nerves thin. Trying to pass that car ahead on a rising curve, however, will do Hitler no harm whatever; much more is accomplished by staying behind, arriving two minutes later, and being on the job the next morning instead of on a slab.

Shortage of men had forced Benton Harbor, Mich., and company to hire women drivers. The back-seat driver moves up front.

Home on the range. MR. DICKARD, OUTDOORSMAN!

Mr. Robert Dickard, who modestly admits he is a cowboy, is negotiating for his services as result of the three-baggers he hit in the Jerome Twin Falls game "jance".

THIS MONTH OPPOSES THE SPANNING SYSTEM!

Dear FETTER EDSON: That outbreak Tuesday by Tiny Tim smacks very strongly of a man who is not a father and who hasn't given any thought whatever to child psychology.

Spank the kids, he says. It won't hurt 'em and it's the only way to get obedience. I don't like to get insulting to one of your contributors, Pot Shots, but these sentiments are the Voice of the Nineties and I don't want to see them repeated in your column.

Right there is the weak point in his argument. Speaking as a mother of two youngsters, I feel that the thing he is recommending is to spank the children and make them see sooner—instead of later, as they did in the old days—the reason behind what we tell them to do or not to do. If you can make them see these reasons, there's no need for paddling them.

In spite of what you say, we can surely and emphatically, we can show the children the force of the reasons they have to accept until doom's day, either, no matter what he thinks. However, I will admit that the reason-why-of-it-all spanking technique takes more time and requires a great deal more patience.

I am convinced that the spanking parent is one who won't devote that time and patience to his child.

A BOOSTER-IN-REVERSE

What Pot Shots likes is a guy who sold his home town. So it would take triple-strength anti-boosting to get him to print what he thought of certain elderly Twin Falls gent yesterday.

This will interest the Chamber of Commerce "sell Twin Falls residents before you can sell tourists" committee.

The tourist lady and her husband asked this article what there is to see in this section.

"Not much," said he glumly. "What about Shoshone falls?" said she. "We've heard a lot about that. The Twin Falls booster looked so."

"No water," he remarked shortly. "Oh," said the tourist lady. "Use all the water for irrigation and power," said the gent in financial tones. "Mostly irrigation."

What this area needs to argue is that the water is there before they take the water.

"Well, what about the Twin Falls?"

The gent looked lugubrious. "Nothing there, either. Oh, there might be a trickle. But not much."

The tourist was thoroughly into it. "Wonder if the gent knows Shoshone falls and the canyon, even without any water going over the falls?"

What this area needs is fewer gent's winking a hammer and more blowing a horn, if you understand our crude expressions.

FAMOUS LAST LINE "How many lines have I said you're right back in that too?"

HEYBURN

Hyrum Harris and Wilford Harris, Salt Lake City, were guests of Frank Darrough Sunday.

Mrs. Andy Johnson left Saturday for her home in Stanley after visiting here at the home of Mr. and Mrs. Chas. Dwyer for several days.

Gale Pullman, Idaho Falls, is visiting here with relatives.

Grant Fields and his P.F.A. boys returned from a trip to Yellowstone park Sunday.

John Hanway left Monday for Ogden for a week's visit.

Mrs. Joe Brewer and son, Grant, went to Marsden City, Utah, Sunday to visit relatives and bring back Ella Brewer, who has been there on a visit.

Mr. and Mrs. Virgil Jenks and James Hellewell and daughter, visited the Salt Lake visitors in Salt Lake last week.

Mrs. Ford Maxwell left Saturday for Richfield to visit relatives.

Mr. and Mrs. John Jones, Sharon and Jeanette, went to Logan, Utah, Saturday for a visit with her sister, Mrs. M. G. R.

Mr. and Mrs. Wilford Wilcox, Mr. and Mrs. Joe Lee and Willard Willcox and children returned from a trip to Yellowstone park Monday.

Mr. and Mrs. Howard Jensen and children and Mr. and Mrs. Paul W. Wyman, returned from a visit to the week-end in Woods Cross, Utah.

Mrs. Ruby Connor left Saturday for Marsden City, Utah, to visit with Frank Jensen, and family for California, where she will spend the next two weeks.

Mr. and Mrs. Carl Mera and family, went several days last week at the MacFae summer home near Halley.

Mrs. Ted Iansburg and children of Shelley spent a few days last week at the home of Mrs. H. C. Brown.

Mrs. O. C. Lott attended a party in Deeds Thursday given for Mrs. Warren Roberts who is leaving soon for Wyoming.

Mr. and Mrs. Noble Bohon, San Francisco, are visiting at the home of Mrs. H. C. Brown.

Belth Payne, who has been visiting in Salt Lake, returned home Sunday.

Edwin Peiler arrived from Camp Lewis Friday to visit with his family.

Frederic left Sunday for Roy, Utah, where he will be employed.

Maxine Maughn left Sunday for a visit to Marsden City, Utah.

Heber Hellewell and Alton McComb, Elv. Nev., spent the week-end in Marsden City.

Mrs. Maxine Croft returned Sunday from Patterson, where she visited at the home of Elizabeth Taylor.

Mrs. E. C. Brown, returned from the week-end in Payette at the home of Mr. and Mrs. Agner Jensen.

FAMOUS LAST LINE "How many lines have I said you're right back in that too?"

Credits Presented For Attending Camp

GOODING, July 23 (Special)—Rev. O. H. Northrop was in charge of the regular morning service at the Baptist church last night.

On Monday evening a party consisting of fourteen young ladies enjoyed the hospitality of Misses Marguerite and Frances Putnam at a summer party.

Mr. and Mrs. Howard Jensen and children and Mr. and Mrs. Paul W. Wyman, returned from a visit to the week-end in Woods Cross, Utah.

Mrs. Ruby Connor left Saturday for Marsden City, Utah, to visit with Frank Jensen, and family for California, where she will spend the next two weeks.

Mr. and Mrs. Carl Mera and family, went several days last week at the MacFae summer home near Halley.

HEAVY FLOOD

It is all the rain that fell on the earth during the course of a year could be estimated. In some places, it would cover the entire globe to an average depth of 2 1/2 inches.

HISTORY Of Twin Falls City & County

As Gleaned from Files of THE TIMES

15 YEARS AGO JULY 23, 1926

Asher B. Wilson and family left this week for Jackson Hole, where they will meet relatives and spend a week.

Adopting resolutions thanking the members of the attending ladies and the local organization for courtesy extended, the Idaho State War Mothers' association adjourned here last evening at 8 o'clock.

Honoring Miss Minnie Farrar, who has just returned from an extended visit to the Salt Lake, Mrs. Robert White was hostess at a table set for Thursday afternoon. Mrs. Floyd West and Miss Adda Thompson were the prizes.

Mr. and Mrs. A. E. Merriman, Richard and Nancy, spent several days here last night in Boise, Homedale and Marsden.

Mrs. P. A. Speers and granddaughter, Miss Iva Lou Speers, who have been visiting at Mrs. O'Brien's, returned to Salt Lake City Sunday.

Friends of the William Shively family are glad to hear that the family is residing at South Tacoma, Wash., where Mr. Shively is employed as clerk in the building department near Camp Murray and Fort Lewis.

Mr. and Mrs. L. E. Balladay and family, J. L. Eutolph and family left the first of the week for the mountains north of Halley.

GOODING Gooding County Women's Republican club meeting for July 22, 1941, was held in the business building at 10 o'clock Monday afternoon, July 22, Mrs. Philip Kennicot, jr., Hagerman, will be the featured business speaker. Her report will be reports of current topics.

Mr. and Mrs. Lamar Proctor and family, returned from their trip to Polk, Kan., Saturday after visiting with his parents, Mr. and Mrs. J. W. Proctor, Gooding. Mrs. Proctor has been in Gooding since June 1 and Mr. Proctor had visited here during the past two weeks.

American Legion officers of Perry Ryan post and auxiliary unit have received notice of a fourth district council meeting to be held in Gooding Thursday, July 31. Principal business will be the election and installation of officers for the coming year. The auxiliary district group will be installed as a second vice-commander of 20, and the district president will be installed as a second vice-president of the Idaho auxiliary.

Tenor Gives Solo At Park Program

YELLOWSTONE PARK, Wyo., July 23 (Special)—"When It's Springtime in The Rockies" was the solo given by tenor, Robert...

When he arrived, a conspiracy had been worked up among the other artists to have the tenor, who had the community singing which precedes the lecture each evening. After a little coaxing from both the audience and the naturalist, he consented.

According to the naturalist, the guest of opening night, the tenor's harmonizing in perfect voice. The audience responded to every cue from the talented artist, but they would not let him sing solo for them.

CLASSIFIED

scores a hit with these folks!

Mr. H. L. Dinkelacker, pioneer electrical man, lost a pair of valuable glasses; inserted an ad in the Classified Lost and Found column. Within two days his glasses were returned. "I am well pleased with the results."

Mrs. Annie Powers, 548 Second Ave. North, has typical success in using Classified ads. Says Mrs. Powers, "The ad rented my apartment in 3 days. I had a sign on the house but the ad got the results."

Mr. John Clore, local coal dealer, and hunting enthusiast, lost a valuable hunting dog. A Classified ad scored a hit! "I wouldn't have taken a hundred dollars for that dog, but I now have her back thanks to your effective ads," said Mr. Clore.

Mrs. Roy Evans, route No. 1, Twin Falls, sold all her excess black raspberries by using Classified Ads. Says she, "From the first day we put the ad in we were busy answering the phone from morning 'til night. These ads are do bring us results."

Mrs. Quinn Wilson, ranch N.W. of Twin Falls, uses Classified consistently during her rush season. Mrs. Wilson said, "We are more than pleased with our results in using Classified. We sold over 700 chickens during the season and while we had the ad running."

Ray Moon, local furniture man, uses Classified every day. He says, "We advertise almost everything in our store in the Classified. For the past two weeks we ran an ad on rug samples. We have been swamped ever since and have only a few left."

Mrs. Shad L. Hodgins, pioneer Twin Falls resident, has a home on Ninth Ave. E. which she rents for income purposes. Mrs. Hodgins says, "My house is seldom empty, but when it is I always insert a Classified Ad in the 'For Rent' column. It never fails to bring me a good renter."

Elvis Cain, local C. C. Anderson Appliance Dept. manager, says, "Our used appliances have moved faster this year than ever before in the history of this department. We attribute a lot of this success to our Classified Ad which we run every day in the News and Times."

Mr. R. L. Anderson, who resides at 451 2nd Ave. West, Twin Falls, has had excellent results in the use of Classified Ads. "I sold a Hotpoint range by using an inexpensive Classified Ad. We surely had lots of calls."

Miss Nina Hart, a new resident in Twin Falls, wanted employment. She answered a News & Times Classified ad. An interview brought prompt employment. "I'm certainly happy I looked in Classified," said Miss Hart.

Each one of these persons pictured above had an exceptionally successful experience with their Classified Advertising in the Times and News. And they're typical of hundreds of other Magic Valley folks who have sold, leased, rented, hired, purchased or found employment or recovered lost articles through this inexpensive form of advertising. They've enjoyed the one cost coverage of our Magic Valley through these newspapers—but regardless of cost, they've enjoyed—even more—the satisfaction of finding that their advertising "scored" in getting results. You, too, can find this same satisfaction! We suggest you try Classified. Cost—on the word basis—is easy to figure. You're "in" Classified the moment you pick up your phone and call 38 or 32.

Classified Advertising Brings Assured Results Because It's One of Your Paper's Most Popular Features! Everyone Reads Them! Everyone Can Use Them!

Remember! Use full description in the composition of your Classified ad. It will bring better results and the cost is only a few cents more.

BRITAIN, U. S. PREPARE TO FREEZE JAPANESE CREDITS

NIPPON SEIZURE OF INDO-CHINESE BASES EXPECTED

By FREDERICK KUH.
LONDON, July 23 (U.P.)—Usually well informed financial quarters received intimations today that Britain and the United States were preparing to take steps to freeze Japanese assets, either arbitrarily or as a reprisal in event of a Japanese blow at French Indo-China.

Diplomatic quarters had reported previously British and American officials had agreed on measures to be taken in event that Japan seized new bases in Indo-China.

These intimations, predicting Japan would strike within two or three days to seize the great Camranh port base and other strategic areas, had suggested that as a first move Britain and the United States might impose economic sanctions on goods which Japan needs.

Some experts suggested that in view of the reports of possible freezing of Japanese assets by the Japanese government, which it was assumed would have received information through its own channels, might reconsider its position.

Menace American interests. Any reprisals against a Japanese thrust into Indo-China would be based on the belief that Japanese domination of the southeastern corner of Asia would menace British and American interests directly.

Foreign Secretary Anthony Eden took note in the house of commons today of the indications of an imminent Japanese move in the far east, warning Tokyo to keep hands off Thailand and Indonesia.

It was believed here, unlike the Vichy attitude in Syria, the Vichy government and Vichy authorities here would give in to Japan.

Informants estimated there were about 25,000 French soldiers in the Indo-Chinese forces and 20,000 natives and that another 50,000 men could be mobilized.

Adolf Hitler was reported to be putting pressure on the Vichy government to yield to Japan.

Diplomats here inclined to believe Japan might not strike at Siberia for the present, if only because of Russia's strong forces there.

Britain Aware of Move. Eden said the government was well aware of the persistent reports that Japan intends to obtain naval and air bases in southern Indo-China.

The reports, Eden said, "are more significant since they coincide with a Japanese press campaign of innuendo against Britain in both Indo-China and Thailand."

He said Britain's relations with Indo-China had been most restricted since the collapse of France in 1940.

"Regarding Thailand," he said, "our policy is governed by our treaty of non-aggression with that country. That treaty is not designed to obtain exclusive advantages and is not directed against any third party except insofar as such third party may attempt to interfere with those exclusive neighborly relations, political, economic and otherwise, which have always existed between Britain and Thailand."

Japanese See Vladivostok as Pawn in Oriental War Games

TOKYO, July 23 (U.P.)—Japan's belief in a speedy German victory over Russia has thrown the spotlight on the strategic Russian Pacific port of Vladivostok, only 600 miles north of the main Japanese islands.

Japanese commentators are speculating on the possibility that Vladivostok—in the event of a Russian collapse—might be occupied by either Germany or the United States.

Some quarters believe that Japan's counter-move would be to occupy Vladivostok. However, there has been no indication thus far that the Japanese government is considering such a move.

Possible Peace Foreseen. The Japanese do not expect the Germans to light their way across Siberia to reach Vladivostok, but point out that the German occupation of Vladivostok might be one of Germany's peace terms if Russia were forced to sue for peace.

A German base on the Pacific would have far reaching effects on the Far Eastern situation, as well as the course of the war in Europe, it is believed here.

Japan, thus far has felt comparatively safe in the tripartite axis because neither Germany nor Italy was in a position to menace Japan immediately.

However, with German planes and ships poised on Russia's Pacific coast, Japan would find itself in a changed position.

Thailand and Indonesia as a neighbor on the Pacific, Japan would be confronted by a "dynamic nation"—a nation "on the march"—and precluding with an eye on the islands East Indies—instead of the Russian bear with whom the Japanese recently learned to associate on fairly friendly terms.

U. S. Attitude Welcomed. Japanese commentators also foresee the possibility that Russo-American collaboration against Germany may result in an agreement affording the United States navy and air force the use of Vladivostok in event of necessity.

Japanese Target?

Map shows how Japanese islands and Japanese-controlled areas on continent ring strategic Vladivostok, Russian far east port believed menaced by axis maneuvers.

The Japanese believe that the United States already has such a secret agreement with Britain regarding the Singapore naval base and has been impressed by the United States' acquisition of naval and air bases in other parts of the world.

A German-controlled Russia also might present a challenge to Japan in China, according to some observers.

Imperial hotel lobby goasps are predicting that the Nazi legions may reach Chungking before the Japanese do.

However, the Japanese government has taken no official recognition of these possibilities to date and apparently intends to watch the course of events in Russia during the summer before deciding on any concrete action.

IDAHO FAMILIES UP 31 PER CENT

WASHINGTON, July 23 (U.P.)—Bureau of census reported today the number of families in the State of Idaho increased 31.2 percent in the ten-year period preceding 1940.

Final count of the housing census, the bureau said, showed 153,835 dwelling units in Idaho on April 1, 1940, an increase of nearly one-third since 1930.

Urban areas reported 53.4 percent increase, rural-nonfarm area, 24.8 percent, and rural-farm area, 18.7 percent.

At the same time the bureau reported home ownership increased slightly between 1930 and 1940. In 1940, the report said, 57.5 percent of all occupied dwelling units were occupied by their owners, as compared with 57 percent in 1930.

Overcrowding was indicated, the bureau said, by the fact that 16.4 percent of the occupied dwelling units had more than one and one-half persons per room. More than one-third had private baths, however, and 75 percent were not in need of major repairs.

Average monthly rental was \$12.21.

Almost Unanimous

When James Monroe was elected to a second term as President in 1820, he received 231 electoral college votes against one vote for John Adams. Of the seven votes cast in New Hampshire, one went to Adams.

When James Monroe was elected to a second term as President in 1820, he received 231 electoral college votes against one vote for John Adams. Of the seven votes cast in New Hampshire, one went to Adams.

More Water Flows Over Park Sites

YELLOWSTONE PARK, Wyo., July 23 (Special)—The Jupiter and Angel Terraces at Mammoth hot springs in Yellowstone national park are showing renewed activity according to Dr. C. Max Bauer, park naturalist.

In the past week there has been an increased amount of water flowing over the front of these beautiful and colorful formations.

Many years ago park employees are said to have ditched the water out over the front of the terraces which may have been responsible for their added beauty for early visitors in the park.

For at least the past twenty-five years, the water has been permitted to follow its natural course; consequently, as soon as one terrace was built up too high for the water to flow over, it chose another way to come down.

"It has been the common belief that the terraces are drying up," says Dr. Bauer, "but this is not true, for the amount of water and the amount of material added to the formations each year are not in proportion to one another. The amount of water stays the same while more and more material is added to the terraces each year, giving it that dried up appearance."

"A great portion of the water on the terraces comes from snow and rain. It seeps into the ground, is heated and charged with carbon dioxide and then expelled as hot water, very solvent. Being solvent, it dissolves lime particles and carries them along depositing them as it flows. This accounts for the beautiful formations that have been built through the years."

Clear Lakes Club Has Ladies' Day

BUHL, July 23 (Special)—Ladies' day was observed Friday at the Clear Lakes country club. Golf was played during the morning. They played a blind bogey and Mrs. J. W. Tinsley won the ball.

A post-luck dinner was served at 12:30 p.m. Three tables of bridge were in play in the afternoon. Honors were won by Mrs. A. J. Finke, Mrs. C. M. Pickrel, Mrs. Andrew Wahl, Mrs. Helen Prilluck was social chairman for the day.

Trio of Divorce Decrees Granted

BURLEY, July 23 (Special)—One complaint for divorce and three final decrees were in district court this week.

A. F. Hutchings entered a complaint against Waneta Hutchings charging extreme cruelty and desertion. There are no children and he asks the ownership of all jointly held property.

Divorce decrees were granted to Julia Clawson from John Clawson with the custody of two minor children; to DeVos Swoford from Elaine S. Swoford; and to Donald E. Rich from Sylvia Mae Rich.

Cattle Guards Being Installed at Forest

BURLEY, July 23 (Special)—Cattle guards are being installed this week at two places in the Minidoka national forest, according to Supervisor Curtis R. Price.

The first is a zone line fence which connects with a fence intended to keep cattle from grazing in the higher lands too quickly. It is located above Elba near the forest's edge.

Another guard is in the Elba canyon at the forest boundary. These are in the Albion boundary district.

Cool is formed by the decomposition of vegetable matter under conditions of moisture and in mass cases of increased heat and pressure.

Lewisston Chosen For Airport Site

WASHINGTON, July 23 (U.P.)—Sen. D. Worth Clark, D. Id., received assurances today that a joint Army-navy-civil aeronautics board has selected Lewisston, Ida., as the site for a defense airport.

The board, which has selected Lewisston, Ida., as the site for a defense airport.

water, very solvent. Being solvent, it dissolves lime particles and carries them along depositing them as it flows. This accounts for the beautiful formations that have been built through the years."

WASH AWAY YOUR WORRIES

You Can Do It With Low Cost ELECTRIC WATER HEATING!

- Don't let washing problems get you down! Climb over on the sunny side of the fence and live like royalty with the constant supply of running hot water an automatic electric water heater offers you! You'll find there's a new meaning for the word "comfort"!
- Your electric dealer has a display of the new, modern, heavily insulated electric water heaters—and he's waiting to show them to you. You'll be surprised how little it takes in down payment to install one in your home, and how small the monthly payments will be. See him today and get the facts on automatic electric hot water. It's a convenience every household should enjoy.

ADD CONOCO N# OIL OIL-PLATES YOUR ENGINE

Long the keystones of Conoco success, OIL-PLATING comes from another great Conoco synthetic... man-made under the famed Germ Processed oil patent. Magna-like action bonds OIL-PLATING to engine parts. It can't all quickly drain down—not while you're using Conoco N# oil. So OIL-PLATING is on guard to advance against wear... and helps mileage, as it did in Death Valley. An OIL-PLATING engine is one more economy you get from a change to popular-priced new Conoco N# oil.

Economy like that counts up into dollars! Change to N# oil today at Your Mileage Merchant Conoco station. Continental Oil Company—Pioneers in Bettering America's Oil with Synthetics

CERTIFIED I hereby certify that the Death Valley Test and related tests were thoroughly and fairly conducted. Engine Destruction occurred in each case at the places stated.

"ATTEN-SHUN!"

Come to Your Nearest Electric Dealer, I'll give you the facts about Electric Water Heating.

KIMBERLY BOARD SELECTS ADVISER

KIMBERLY, July 23 (Special)—Dr. Thomas R. Cole, the University of Washington expert who chaired the big building program of the Twin Falls school system, has been chosen to make the survey of present and future building needs for Kimberly schools.

Acceptance of the invitation has been received from Doctor Cole, according to Eug. L. A. Thomas, the survey was authorized at the meeting of Kimberly school board Monday night.

The U. W. expert, formerly head of the Seattle school system, will arrive this week-end to make his survey. His recommendations, when submitted, will signal start of the gym-auditorium construction program and changes in elementary and high school buildings.

Pennies in Pool Choke off Inlet Of Park Spring

YELLOWSTONE PARK, Wyo., July 23 (Special)—How would you like to get a coin in your throat?

For some unknown reason superstitious people believe that throwing pennies, pennies, or silver coins in Morning Glory pool, in the Upper Geysers basin of Yellowstone national park, will bring them good luck.

Such is not the case for all those caught throwing coins in the pool are violating park regulations and are subject to fine.

Morning Glory pool receives its water supply through very small openings at the base and on the sides called throats. Everytime a visitor throws a coin into the pool, the possibility of choking off the water supply is almost certain.

When the openings are closed off, the pool will cease being active and then one of the most famous of all pools in Yellowstone may become just a hole in the ground.

The color in Morning Glory pool is regulated by the amount of silica present and this in turn explains the pool's beautiful yellow, sides and purple border. Every time a visitor throws a coin into the pool the National park service is required to remove it, involving a difficult and expensive procedure. When such an operation takes place, the soft algae is damaged and this destroys the beauty of Morning Glory pool.

National park service officials are appealing to the Yellowstone visitor to discontinue the custom of throwing articles into the beautiful pools of the park.

Chemist Addresses Gooding Rotarians

GOODING, July 23 (Special)—Rotary club met Friday noon at Flynn's banquet room with R. M. Roberts, president, Lamar Proctor, Poisen, Kana, who is chief chemist of the oil refinery there, talked the production of a gallon of gasoline and what goes into it.

Speakers were the speaker, Mr. Proctor, D. J. Miller, M. E. Calkins, Mrs. Anderson, Wendell; Rotarians Art Biele, Nampa; Ernest Johnson, Blackfoot, and Dr. Forrest Howard, Sheehans.

Nothing Important

One of the most important advances ever made in the science of computation was the Hindu invention of the zero symbol to represent nothing.

CONOCO N# MOTOR OIL

Which 5-Quart fill lasted all of 13,398 miles?... Certified

One oil outlasted the other test oils by 5,688 miles of more... Certified. And the whole lot of them—8 big-name oils—averaged not over half of the 13,398 miles delivered by the new long-lasting oil. You can have it in your engine right now—at popular prices—by asking for CONOCO N# MOTOR OIL.

Its mileage and economy come straight from Conoco N# oil's new synthetic or man-made extra substance—Thiathene inhibitor. (Conoco Patent 2,216,132.) To understand, merely think a moment of Voodoostation—the right protective substance put on guard to keep a trouble from starting. Now the trouble aiming to start on motor oils lurks in the normal firing of every engine. Fifth is formed that can spoil one drop—then two drops "catch it"—then four—then sixteen—faster, faster, FASTER, till the whole fill weakens and the oil level sinks too fast... but not when the start of this oil-fouling trouble is inhibited—held back—by life-giving Thiathene inhibitor in new Conoco N# motor oil, on sale today for your car.

You'll never Death... That your Conoco N# oil not repeat other proving-ground tortures. You'll still drain and refill at recommended intervals. But how you'll expect to stretch the distance before you ever add a quart, judging by this big fact: 8 heavily advertised oils in the Ceru-Death Valley Test were outlasted 74% to 181% by Conoco N# oil.

Nothing Important

One of the most important advances ever made in the science of computation was the Hindu invention of the zero symbol to represent nothing.

In building the San Francisco-Oakland Bay bridge, and the Golden Gate bridge, 500,000 tons of steel were consumed.

DEWEILER TOPS STARCH CONCERN

Stockholders of the Magic Valley Processing company, a new industry organized for the purpose of making starch from cull potatoes, today had selected directors and named Claude H. Deweiler president.

Election of the board and naming of officers took place last night during a dinner session at the Regency hotel. Aside from Deweiler, other officers named were O. T. Kozler, vice-president; Guy H. Shier, treasurer, and C. J. Bohne, secretary. Other members of the board are R. E. Gale and John S. Kimes. Frank L. Stephens, Twin Falls, was named counsel for the stockholders.

The corporation is capitalized at \$50,000 and, at the present time, \$20,000 has been subscribed in stock, the records show.

The plant will be located on Fourth avenue south and equipment valued at \$18,000 has been ordered at the present time. It was announced in last night's session.

Actual operation of the plant is expected to get underway late in September or early October. Annual run of the factory has been estimated at 210 days during which time 18,000 tons of cull potatoes will be used.

A preliminary survey, instigated by the Idaho Power company, indicated that the new industry should result in bringing \$150,000 in "new" agricultural dollars into this section.

Stockholders last night also ratified and adopted by-laws for the new organization.

AUTO TRAVELERS MEET ACCIDENTS

Three automobile accidents were recorded in this section of Idaho between 10:30 a. m. and 8:30 p. m. Tuesday, state, county and city police records show today. All the accidents involved out-of-state drivers.

At 8:30 p. m. yesterday a truck and car crashed three miles west of Dale north of Buhl on highway 30. The auto was operated by William Reth, 36, Laramie, Wyo., and the truck by Fred E. Sawyer, 46, Fargo, Ind. No personal injuries resulted although the truck and car were both damaged. Reth was en route to Elberton, Wash., to accept a national defense job.

At 4:30 p. m. on the same highway, 14 miles northwest of Buhl, car operated by Dr. R. C. McCormick, 62, Colorado Springs, Colo., was involved in a crash with a road scraper. The police said, however, he had been flagged down and warned to proceed with caution. The car was considerably damaged and Mrs. McCormick was bruised.

Yesterday morning at a point two miles east of Twin Falls on highway 10 cars driven by S. Anderson, 46, Meridian, S. D., and Leland Cunningham, 22, Twin Falls, crashed when Cunningham attempted to turn from the highway into a logging camp. The Anderson car struck the Cunningham auto from the rear.

RADIO NETWORK PLANS APPROVED

Police representatives and radio technicians from five Idaho communities today had voted to cooperate in the matter of a hookup of police radio stations.

The vote was taken yesterday at the technicians and police officials met at the Park hotel. Idaho Falls, Pocatello, Boise, Nampa and Twin Falls were represented at the session.

Also approved was a tentative plan to relay messages between the various stations. In the event a station could not contact another because of the distance involved or because of atmospheric conditions at that particular time.

When the tentative setup is completed, and the Twin Falls station is in operation, details here will be set for sending and receiving calls between two or more stations.

Third Library
The library at Cambridge University, England, is the third largest in the world. It contains 1,500,000 volumes in addition to vast numbers of manuscripts, pamphlets and maps.

AROUND the WORLD

With United Press LONDON—British radio stations and the new "freedom radio" continued today to broadcast to Germany and German-occupied countries programs calculated to undermine German morale and authority as part of the "V" campaign, the allied war of nerves.

BERLIN—The official German news agency DNB reported German motor torpedo boats scattered eastern Baltic sea had scattered a Russian naval unit yesterday. It was claimed a Russian speed boat and an auxiliary vessel were sunk.

LONDON—Reports reached here that Germany had put pressure on Turkey to cooperate in a German sweep across its territory to the oil fields in the Russian Caucasus and Iran.

ROME—New British air raids on Benghazi, axis base in Libya, were reported by the Italian high command today in a communique which said there has been artillery activity on the Tobruk front.

MOSCOW—Russia charged today that Germany is preparing to use poison gas.

TOKYO—A typhoon which roared in from the Pacific ocean changed course before reaching Tokyo, but 7,000 homes were inundated here today by torrential rains.

ANKARA—Turkey—Turkish anti-aircraft guns shot down a German reconnaissance plane in the Karadaghdag area of western Turkey today.

BERLIN—British planes dropped a number of bombs on various places in southwest Germany during the night but damage was "inconceivable," it was said today.

BERLIN—The German high command said today that 15 British planes were shot down during German daylight raids on England yesterday.

KIMBERLY GETS HOUSING MONEY

President Roosevelt today approved a loan and annual contributory contracts for slum clearance and low-rent housing money to Kimberly in the amount of \$10,000, it was announced this afternoon in a telegram received from Sen. D. Woodcock.

The senator wired that the President had given his approval to the project, similar to one now starting in Twin Falls, yesterday.

The Kimberly set, however, will be different from the Twin Falls plan inasmuch as the houses there will be scattered over the community rather than being grouped as they will be in Twin Falls.

Plans at Kimberly call for the construction of 30 units, according to Mervin Gill, executive director of the Kimberly housing authority. Next step in the work will be the drawing of plans and specifications and acquiring of the land.

Shifting Railroad Workers Opposed

CHICAGO, July 23 (AP)—Defense Transportation Civil Control Administration today protested against a proposal to shift 100,000 railroad mechanical workers into shipbuilding and aircraft industries.

The plan was announced at Washington by associate director Sidney Hillman of the office of production management.

"The railroads' part in defense is as vital as any other part," Budd commented.

"I never heard of a suggestion more threatening to the transportation structure during its defense emergency. Railroads not only cannot sacrifice manpower at this time but they need every available mechanical service if they are to escape being crippled."
