U. S. Advances to Verge of War, Churchill Says

By WALLACE CARROLL
LONDON, July 29 (U.P.)—Prime Minister Winston Churchill said today the United States "is advancing in rising wrath and conviction to the very verge of war" but warned that neither Russia nor the United States would win the war for Britain.

Churchill spoke in the house of commons, opening a full dress debate on British war production.

He reported: "Invasion dangers are still acute and British armed forces have been ordered to be in a state of full preparedness by Sept. 1."

Britain is fighting off the German onslaught with "immense strength." Britain is slowly "but impressively" forging ahead in the battle of the Atlantic, aided by ship production far in excess of the world war period.

RAF Air Superiority Broken
Germany's air superiority has been broken and Britain has been bombed by the Luftwaffe for the last three months, and redoubled it in the following six months.

Churchill made his statement in categorical rejection of demands that he appoint a single minister of production to coordinate the entire task of Britain's war time output.

He said he would willingly risk a vote of confidence on the issue, assuring such an appointment would add an additional burden to the war effort and cause delay.

He said he would willingly risk a vote of confidence on the issue, assuring such an appointment would add an additional burden to the war effort and cause delay.

Germany still retains vast striking power as a result of her intensive air and submarine programs and conquest of territories containing vast resources, Churchill said.

He said he would willingly risk a vote of confidence on the issue, assuring such an appointment would add an additional burden to the war effort and cause delay.

Sees U. S. Near War

WASHINGTON, July 29 (U.P.)—Acting Secretary of State Sumner Welles hinted today the United States is willing to forego a complete economic embargo against Japan.

Welles assured Japanese Ambassador Kichisaburo Nomura in a minute conference late yesterday that "under present conditions the treasury department will grant prompt clearance for Japanese exports clearing from United States ports."

His assurance was expected to bring into port the 40 Japanese ships which have hovered off the Pacific coast, fearing they'd be detained should they enter American waters.

The ships include the big passenger liner, Tatuta Maru, carrying a perishable cargo of \$3,000,000 of raw silk and more than 100 American passengers.

Welles' assurance was interpreted not so much as a softening of the stiff attitude against the American-British-Dutch freezing of Japanese assets, as application to Tokyo that the way is open for normal trade relations if Japan ends her aggression in the south Pacific.

But it was pointed out the administration has this "big stick" in its hands and is willing to use it, Welles said to reporters it might be possible to win American cooperation in an all-out economic offensive against Japan under terms which would be agreed to between the United States and some of the other nations of the republic.

Welles said he would willingly risk a vote of confidence on the issue, assuring such an appointment would add an additional burden to the war effort and cause delay.

Reds, Germans Lock in Giant Ground Battle

BERLIN, July 29 (U.P.)—The Nazi high command claimed today the "greater part" of the Soviet forces left behind by the German breakthrough near Smolensk have now been smashed, and Russian troops were said to have captured Akkerman, 28 miles southwest of Russia's Black sea port of Odessa.

More than 500 Germans were killed and wounded in the armored engagement, the official reports said, and more than 100 trucks and quantities of machine guns, submachine guns and anti-tank guns were captured.

Germany Protest Bolivia Action in Opening of Mail

BERLIN, July 29 (U.P.)—German diplomatic representatives in South America called official attention of the various South American governments to a Nazi note protesting against Bolivia's unfriendly attitude "at the instance of a third power," the official news agency said today.

Attention was called to the protest in notes delivered today to the various South American governments by German diplomatic representatives, the news agency said.

The latest move was made as a fourth Nazi spokesman said Germany's recent diplomatic pouches had been returned to the German embassy in Buenos Aires after they had been "taken from an airplane with typical show of wild bad manners."

It coincided also with a promise by authorized quarters of "sensational revelations" to be published shortly regarding United States "economic penetration of South America by blackmail methods."

The source of the pouches, it was said, were found to have been broken "in violation of international rights."

NAVAL WORK HIT BY UNION STRIKE

By United Press
Construction work in the Brooklyn navy yard was brought to a virtual standstill today as result of the New York City-wide strike by 8,000 members of the Electrical Workers union (I.W.O.) and at least 100 electricians walked out at the yard.

Knox Admits Ship Dropped Depth Bombs

WASHINGTON, July 29 (U.P.)—Secretary of the Navy, Frank Knox, today admitted that an American destroyer, dropped three depth bombs to warn off a submarine which seemed to be approaching the ship in the north Atlantic, publication of his testimony revealed today.

Knox was quoted at the time of his appearance before the committee of having made the disclosure. Published portions were approved by the committee and the navy in advance of their release today.

The committee report on the hearing also confirmed that Knox had told the group the United States has not cooperated with the British navy or armed forces beyond terms of the lend-lease act.

"That is the only collaboration to date," Knox told the committee. He apparently referred to the servicing of British warships and transfer of U. S. tonnage to the royal navy.

No further probe.
Knox appeared before the committee in connection with a resolution by Sen. Burton K. Wheeler, D. Mont., for an investigation of charges that the navy has attacked German submarines.

The report stated "no further investigation need be undertaken" by Knox and other naval officials in the present because of the testimony of a Knox and Admiral Harold R. Stark, chief of naval operations, had covered the subject.

One United States destroyer operating off Greenland heard the SOS of a steamer and proceeded to the location and picked up 60 of the survivors of the steamer. Knox said "it was always intended to be a rescue mission."

Henry Ford Predicts Federation of World

DETROIT, July 29 (U.P.)—Henry Ford today predicted a "federation of the world" as the result of the present world conflict.

"I've never hated it more than I do today," Ford said. "The world is being torn apart by the first world war and 'got the boys out of the trenches by Christmas,' called, blamed 'about 100' of it, it is a million makers for current world conditions but expressed belief an unprecedented world tolerance will result from the present war.

Idaho Termed Source of Vital Defense Minerals

September is now looming as a strategic source of supply for defense minerals—including the vital aluminum needed for aircraft—Arthur Campbell, state mine inspector, said here today during a brief stop on a mining inspection tour that will take him from southern Idaho to the northern limit of the state.

Campbell indicated that Idaho will have a large supply of aluminum, especially in Latah and Benewah counties of north Idaho. He said the heart of the University of Idaho geology department is now making intensive studies into the alumina ores in the northern section of the state.

The U. S. bureau of mines has recently perfected a process whereby aluminum can be recovered from these alumina ores.

AMERICA HINTS RELAXATION OF JAPAN EMBARGO

WASHINGTON, July 29 (U.P.)—Acting Secretary of State Sumner Welles hinted today the United States is willing to forego a complete economic embargo against Japan.

JAPANESE HALT LOADING OF SHIP BOUND FOR U. S.

OFFICIALS FORBID GOODS SALES TO AMERICA, BRITAIN

SHANGHAI, July 29 (AP)—Japanese military authorities today prevented loading of Japanese-owned cargo destined for the United States in the Philippines-registered steamship Dona Nani, 5,011 tons, as their retaliatory measure against the American freezing order.

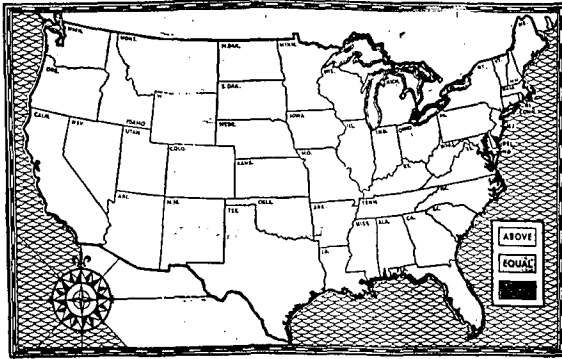

Japanese authorities had forbidden Japanese yesterday to conduct negotiations with Americans or Britons except by special permission.

In applying their regulations today they prevented the loading of \$38,500 worth of rapeseed oil for the United States and of a general cargo in the Dona Nani, which is to sail tomorrow without any cargo.

It was understood the Japanese intended to issue a list of materials which could not be exported.

Japanese authorities today cleared some shipments of machinery and small manufactured items, such as bulbs and batteries, but refused permits covering ores, oils and chemicals.

All-White Map Shows National Business Gains

This map depicts current business conditions as compared with the same period last year. It will appear in the August number of "Nation's Business," published by the United States Chamber of Commerce.

Here you see the first solid white business map in the history of the monthly map and chart issued by the U. S. Chamber of Commerce. It shows the nationwide improvement of business over last year. The barometer for June rose sharply to a new high level for many years.

HOLLISTER

Mr. and Mrs. Ollis (Buster) Cook and three children were guests at the A. E. Caldwell home Thursday. They were en route to their home in northern Texas after a trip to California. Mr. and Mrs. Cook are former residents of this vicinity.

Mr. and Mrs. D. McCullough and two children, Twin Falls, were guests of Mr. McCullough's aunt, Mrs. J. E. Pohlman, Sunday. They are former residents of Salt Lake City and moved to Twin Falls about three weeks ago where Mr. McCullough has a position.

Glen Carter, Fort Lewis, Wash., was a guest of his brother and family, Mr. and Mrs. Dick Carter, recently.

Hollister Grangers held their annual picnic at Nat-Boo-Pah Sunday. Guests at the home of Mr. and Mrs. J. E. Pohlman are Mrs. Mabel Wildman, three daughters and one son, Kankakee, Ill. Mr. Pohlman is an uncle of Mrs. Wildman.

GMC PROFITS AT FOUR-YEAR HIGH

NEW YORK, July 29 (AP)—Net earnings of General Motors corporation for the quarter ended June 30 were the best for that period since 1937 and for the six months were the largest since 1936. Alfred P. Sloan, Jr., chairman, reported today.

Sloan placed net income for the June quarter, after federal income and excess profits taxes and other charges at \$53,579,598, equal to \$1.18 a common share, compared with \$46,546,999 or \$1.02 in the corresponding 1940 period. Provision for taxes amounted to \$73,208,000, of which \$34,285,000 was for excess profits taxes, compared with \$21,592,000 a year earlier.

Young Englishmen once wore handkerchiefs, edged in gold, in their hats as gifts from young women.

BUHL

Miss Muriel Smithson, who has been attending school for 11 months, returned Friday to spend the summer with her parents, Mr. and Mrs. Clyde Smithson. She completed her college work at Willamette university, Salem, graduating in June and attended summer school at the University of Idaho, Moscow.

Mrs. Thomas Holmes left Friday on a fall buying trip for Denver, Colo. She was accompanied by her daughter, Harriette, and Mrs. R. C. Morse, who plans to visit at Longmont and Denver, Colo.

RUNAWAY TEAM INJURES MAN, 26

Condition of Clyde Nebeker, 26, July 28, was yesterday was injured when he was run over by a wagon pulled by a team of horses, was listed as "fair" by hospital attendants today.

Nebeker, who is married and the father of two children, suffered a fractured back and other injuries, according to hospital records.

"He was at work in a hay field at the time the crash occurred. For some reason the horses pulled and Nebeker tried to stop them from running away. In his attempt, he was thrown to the ground and the hay wagon passed over his body.

He was rushed to the county general hospital about 1:30 p. m. yesterday. He is a son of Mr. and Mrs. W. C. Nebeker who reside north of Twin Falls.

AUTOS CRASH ON CURVE; 6 ESCAPE

Six persons, riding in two machines, escaped serious injury last night when the autos crashed on a curve near the Orin Butler ranch, south of Kimberly.

The machines were operated by Wayne Beas and Mrs. Ray McBride. A daughter of Mrs. McBride and the daughter's baby were in the car operated by the woman while Wesley Beas and Louie Lively were passengers in the Beas machine.

Wayne was treated by a private physician for head lacerations which required several stitches. His condition was good. He was the only one of the six persons requiring medical attention.

Both cars were damaged as a result of the crash which took place on a "blind" curve.

Doctor Finds Two Pelts, Paid Him As Fee, Cost \$25

Medical fee paid in the form of two beaver hides five or six years ago had proved an inadvertent boomerang today for Dr. J. E. Langenwaller.

Dr. Langenwaller paid \$25, five years ago in July, to buy two beaver hides in possession. He told Justice today that a Nevada trapper had given him the hides in payment for medical care, but had failed to keep a promise to send address of the company to which the hides could be sent for manufacture into fur clothing.

The physician said he recently decided to throw away the hides. They were put on the rubbish pile near his home. Small boys saw the pelts and told authorities.

Grover O. Davis, district conservation officer, filed the complaint.

GOODING GRANGE ARRANGES PICNIC

GOODING, July 29 (Special)—Grange met Friday in Good Fellowship hall with Harold Bryant, president presiding. Announcement was made of a Gooding county Grange picnic to be held Aug. 2 at Sheldon's ranch at Clear lakes. All members of Grange and their families are invited.

Mrs. Clair Bryant resigned as matron of the juvenile Grange, and her successor will be appointed by the matron.

Committee appointments were made for members to have charge of Grange exhibits for Gooding county fair, which will be held Aug. 21, 22 and 23.

Committees are sheet grain, C. T. Brown, Frank Amos, Richard Brown and C. E. Bissett; both, Mrs. Otto Carriero, Mrs. Roy Mink, William Lewis, Ralph Smith, building both, Lewis Boatman, Frank Groves, Bud Quigley; threshed grain and seeds, Gabe Beyer, Harold Bown, Manuel Hoodenpey; potatoes, beets and onions, Sam Simis, C. R. Paus, Melvin Beck.

Garden crops, Mrs. Clinton Abercrombie, Mrs. Harold Bloomquist, Mrs. Dean Bryan, Mrs. Hank Mason, Mrs. Dan Engstrom, Mrs. Harold Steele, Mrs. Loren Prince, Mrs. W. M. Van Hook, Mrs. C. J. Brown, flowers, Mrs. Ed Nelson, Mrs. Joe Kyster, Mrs. Frank Amos, Mrs. Harkins, Miss Dorothy Simis; float, Mrs. L. R. Boatman, Harold Bryant, Mrs. Irving Robinson, Roy Mink.

A program on safety was presented by lecturer, Mrs. Gabe Beyer. Betty Taylor sang, accompanied by Georgia Lee Groves, and a contest game was won by Clint Abercrombie.

Curtis, Fred Harting, Al Kircher, Gan Thompson, Stan Webber, Harry Wilson and Lee Howard were guests of Burley Rotary club Thursday, at its inter-city meeting and heard international commissioner Julie Gerstein Comelin, Barranquilla, Colombia, as guest speaker, describe his country, emphasize the need for closer ties between North and South America, and extend greetings from the southern hemisphere.

Paul CCC Assumes Work in Minidoka

PAUL, July 29 (Special)—Despite a low company strength, work on the project of Camp Paul 2B-56 is being continued by personnel of CCC company 5719. Since abandonment of Camp BR-27 on July 1, camp Paul has taken over the entire CCC phase of activities on the Minidoka project.

A summary of CCC accomplishments on the Minidoka project shows a major portion of the year's activity was devoted to rock paving of the distribution system of the irrigation project, with 4381 man-days being expended in the laying of 79,880 square yards of rock paving.

Rock for this was hauled from the nearby desert and placed by hand on the banks of canals and satecas to prevent wind and water erosion. In addition to the rock paving, canals and laterals were lined with clay and gravel to reduce seepage and aid in preventing erosion. On this latter project 50,192 yards of materials were placed with 2,849 man-days being expended.

Many minor projects were completed, including rodent control over a large area, weed control along canals, construction of minor irrigation structures, construction of service roads and trails, extension of wild life refuge, emergency work on suppression of range fires and improvement of Walcott park.

Continuation of this work will constitute the principal work project for Camp Paul during the coming year. While improvement of irrigation facilities will occupy the minds of enrollees during work hours, their leisure time will be given to the development of a huge defense training program at Camp Paul.

LATINS MAY JOIN NIPPON BOYCOTT

WASHINGTON, July 29 (AP)—Acting Secretary of State Sumner Welles yesterday indicated possibility of Latin-American cooperation in this nation's economic offensive against Japan under terms of existing agreements between the United States and other American republics.

He told a press conference he was referring to the agreements for United States purchase of surpluses of strategic raw materials in a number of Latin-American nations and prohibitions against re-exportation of certain goods shipped to them from this country.

Those agreements, particularly the first, have made it difficult, in most cases, for Japan to obtain supplies in Latin-America. She has succeeded, however, in buying substantial amounts of cotton and other strategic materials from Brazil.

Welles discussed possibility of parallel Latin-American action against Japan after he had talked over the far eastern situation with British Ambassador Lord Halifax, who has returned to Washington after a tour of the west coast.

Halifax told newsmen he had no fresh information on developments in the far east, but he was gratified at the progress being made in American warplane factories on the Pacific coast.

The newly arrived Russian military mission, meantime, began consultations at the state department on the problem of coordinating

Father's Truck Injures Child, 4

PAUL, July 29 (Special)—Falling to see his little daughter, Patricia Rae, 4, who was playing behind his truck, Vernal Munnsee backed the machine over the child, fracturing her left leg above the knee and bruising the other leg badly.

The child was taken to Rupert general hospital. Her condition is satisfactory.

The Gentleman in the Third Row

WITH
BY JERRY BRONDFIELD

Pol Shola notices a press item saying that a motorist crashed into a deer in the mountains. We claim that the prospect of incompetency and something ought to be done about it. We don't see how any autocrat could possibly think a deer looks like a pedestrian.

ESSAY ON CHILDREN AND THE WELL-PLACED PALM
Dear Pol Shola: Since I always give two cents worth in this already warning output of psychological pediatrics? Personally, I have already won my medal from pediatrics and I agree the imprint of their acknowledgment around just like I was a toy recommended by my knowledge I pass on to those readers who have gathered around the hot stove of the "how to raise a child" issue.

First, there is nothing to replace a well placed open palm when administered to the back of any child's lap who has an age of somewhere between 25 months and upward. I say this respectfully in full knowledge that some of the mothers will rise up in horror with a lifted eyebrow bent in my direction. Nevertheless, my track still goes and this is the cold logic.

Children 25 months or more know a darned sight more than you know them credit for. They know when they are not supposed to handle a particular piece of glassware left within easy reach. They know when they are to come in from out-of-doors or they know when they have committed some of the things which they have been warned. Children of this age do not need to reason—

CHILDREN DO NOT NEED TO REASON—

As to the internal issues on which the Talmadge row hinges, national audiences are not so directly concerned as they are in whether there is any chance that another of the sisterhood of states may be debauched by the same kind of demagoguery and machine spoliation that made Louisiana for several years a clinic of native fascism and threatened to project that leadership on a national scale.

CONTRAST
While the governor of Georgia rails against "furriners" and insists that only local talent shall fill local posts, three cities are striking out sharply in the opposite direction.

ONCE AGAIN, THE WARNING
People have almost stopped talking about whether we shall have inflation or not. Now the usual topic is, "How much inflation?"

THE GENTLEMAN IN THE THIRD ROW

LESSONS IN LOVE

Illustrated by George Scarbo.

"I'll get you excitement, if that's what you want," Uncle Hank promised. "One of our men from the west is coming in—Chief Leaping Water."
"Chief Leaping—???" Barbara echoed. She could picture him, in full tribal regalia. This was going to be fun.

CHAPTER I
THE look on Barbara Chase's face was one of utmost displeasure as she curled up on the sofa and lifted the telephone to her ear.

"It's that amemic Lester Burton again," she hissed to her Uncle Hank as she prepared to speak. Hank Chase shook his head. Poor Lester. Poor fish.

"No, Lester. . . . No, I'm busy. . . . No, busy Friday, too. No, no—no, no, Lester, maybe next week. Yes, that's a good boy. Don't fret, now. Bye."

Barbara put down the phone. She rested an elbow on a knee and cupped her chin in her hand. "Uncle Hank," she intoned, "I've to use this house as a focal point and then draw a circle with a 100-mile radius, do you think there might be a man somewhere in that circle who had a spark of interest?"

His answer was nothing more than a snort. Barbara shook her head, and the long blond curls swished about her shoulders.

GOODING
Lieut. Richard King has returned to Fort Lewis, Wash., after spending a brief furlough with his wife and children. Mrs. King is making her home with her parents, Mr. and Mrs. E. L. Billson.

EDSON IN WASHINGTON

By PETER EDSON
Evening Times Washington Correspondent
WASHINGTON, July 28.—Whenever a new government agency is set up in Washington, or when an old agency is reorganized, one of the first things to be done is to prepare a diagram of organization.

The form of these blueprints is not only new, but it is also different from the old-fashioned organizational charts of the past. These charts are now made up of boxes, each of which represents a department, function, assistant, and so on. The boxes are connected by lines, and the lines are arranged in a way that shows the flow of information and the relationship between different parts of the organization.

EVERY MAN IN HIS OWN FIGURE
The new OPM diagram isn't, unfortunately, a map of where everybody's office is. Yet it will have to ask at the information desk or get a working number or two in case you're looking for anyone in particular.

WILLIAM CARTER RITES CONDUCTED
RUPERT, July 28 (Special)—The rites of William Carter were conducted in an impressive ceremony at 2 p. m. Friday in the local Methodist church.

UNITY
Mrs. Addie Huber was hostess to a luncheon at the home of Mrs. Fred Schodde on Monday in Twin Falls—Burley.

HISTORY Of Twin Falls City & County
As Cleared from Pile of The Times
15 YEARS AGO
Eugene Cottrander, local Texaco manager, rescued an unknown young lady last evening a few miles below the Twin Falls. The girl was attempting to swim the river but half-way across called for help and was on the verge of drowning when Cottrander rescued her. He was assisted in bringing the young lady up by "Polly" Lintner, Pocatello.

77 YEARS AGO
At a meeting of the Commercial Club Tuesday evening it was decided to hold the 25th annual picnic field day on Saturday, Sept. 26. This annual fall festival given by the club has been named "B. B. Blythe Day" in honor of the late B. B. Blythe, one of the farmers who lives in this territory.

A small town is a place where there is no munitions factories.

"GRAND OPENING" PLANNED FOR GOLF COURSE

SPORTS QUIBS!

by Hal Wood

TWO EX-PIIONEER LEAGUERS MAY MAKE BIG LEAGUE GRADE... FISHERMEN STILL HAULING IN BIG SALMON FROM MIDDLE FORK

Back from a short vacation with several scattered and very probably unimportant thoughts and information:

No player from the Pioneer League has yet made the leap into major league baseball—but two players this year are being groomed for advancement. Larry Jameson of the San Francisco Giants and Mel Duzaboa of the Oakland A's.

Jameson was picked on the all-star Pacific Coast league team which plays today at San Francisco. Duzaboa is still believed to be a year or two from the big time.

Veteran Earl Williams of the Jerome entry in the South Central Idaho league is being coached by Bob Davis, Jerome outfielder, for a shot in professional baseball. Davis is pin-pointed for an outfielder, weight is only 190 pounds, but packs a terrific punch, closing nine home runs in the few games that the Jerome club has played this year. Wouldn't hurt the Cowboy officials to look into his prospects...

Fishing in the Wood river country this year is reported to be very much on the "in and out" scale—with big catches reported one week—and practically nothing except "briars" the next.

Went up to an unnamed lake during the past week—and there found that all fish caught were

South Idaho Shotmakers To Be Invited

By HAL WOOD

Evening Times Sports Editor

Grand opening of the "new" Twin Falls municipal golf course will be held within the next two or three weeks, it was announced today by Fred Stone, starter at the course, as he laid plans for a big-time "blow-out" and all-around tourney that will bring players here from nearly every golf-minded city in southern Idaho.

While the greens still need a little more time for growing purposes, opening the course and new greens to general play will be held some time the latter part of August. While no definite arrangements have yet been made, Stone pointed out that golfers from such cities as Boise, Burley, Boise, Oodling and Pocatello may participate in the grand opening and that there is the strong chance all of them for the opening season of play will be free.

Fairways Best

"Our greens are coming along just fine," Stone states, "and the fairways are in the best condition in the history of the course." Sprinkling by the new water system, rather than the old method of irrigation, has made the big difference in the fairways.

The course will be 3,188 yards long and par will be 35. This is 150 yards longer than the old course and is one stroke less than the old 36.

Golfers from around the Intermountain area who have played on the course this summer have told Stone that the Twin Falls layout will be one of the finest in the state when completed.

"Sporty" Course

The new course was built by Bob James of the University of Idaho, who has been chosen by one of the finer courses at Spokane, Seattle, Portland and other large cities in the northwest. He is of the opinion that the Twin Falls layout will be one of the "sportiest" little nine-hole courses in the area.

Stone announced that following the grand opening the club will again present its annual summer tournament, including the two-day tournament, the southern Idaho Invitational and the city championship.

Usually, these tournaments are held during the early months of the summer, but with the construction work going forward at the course, they will be postponed until the new greens would be in shape for use.

Hutchinson, Bust in Majors, Again Minor League Wonder

By LUTHER EVANS

(NEA Service)

BUFFALO—It is no stranger story in baseball than that of Frederick Charles Hutchinson.

Here is a strapping right-hander whom everybody agrees knows how to pitch and who is a small-sized riot in the Double A's, but who to date has been unable to stick his nose into a major league box without having his ears pinned back.

Fred Hutchinson has never performed in a circuit lower than AA.

Detroit gave Seattle \$75,000, the bulk of it in cash, and players, including Jo-Jo White, the fleet center fielder who helped the Tigers to the pennant, and a world championship, for Hutch.

Walter O. Briggs did this in 1938 against the advice of practically all scouts who agreed that Hutchinson was not fast enough for the big show.

But Body Builder Briggs has money to burn, and brought on the Seattle kid anyway.

Hutchinson at 28 stepped out of high school to join the Seattle and Pacific Coast league attraction in Pacific Coast league history. He established attendance records in every city in the wheel.

But, in addition to not being swift enough, Hutchinson, supposedly a control pitcher far in advance of his years in polo, became wild.

"They just batted hell out of me," says the person Hutchinson frankly, discussing five different trials with the Tigers at the start and finish of three campaigns.

Hutch Swift Enough

But Hutchinson is confident that this fall he will make it perfectly clear to Detroit that he is a Tiger. After all, he's only 21.

He says the Buffalo season indicates Hutch has all the replies... and then some.

Going into a night double-header at Newark in the other evening, Hutchinson was gunning for his 20th victory with the season only a little more than half completed. At that rate, he should coast 30 or more for the second-place Blues. He had worked 20 complete games, lost only one and was riding an 11-game winning string. He had been knocked out only once—by the front-running Detroit.

He had struck out 107, walked only 31 in 190 innings for a nine-inning average of 1.8. His nine-inning average was riding an 11-game winning string.

Hutchinson helps himself with his batting, fielding and base-running. He is a good all-around player, did considerable catching as a pitcher and sandlotter.

He had been in 47 games in all, 24 of them as a pinch-hitter, and is

Wranglers Run Wild in 11th Frame to Win

IDAHO FALLS, July 29 (Special)

There's the strong possibility that Hank Bushman, the former Indian athlete from Washington State college, has "arrived" as a professional baseball player.

After being hammered hard in his first two or three appearances, the diminutive pitcher started to show some of the stuff that made him feared in collegiate circles. He beat Salt Lake City with ease at Twin Falls a week ago and last night he turned in a no-error run game as he beat Idaho Falls.

11-Inning Game

The score was 10-1 in, believe it or not, 11 innings.

During the 11 frames Hank struck out eight batters, walked three, was picked for a base on balls and allowed no earned runs. The victory gave him a record of one win and one loss for the campaign. He has appeared in seven games.

Twin Falls got three earned runs off McKinney. Idaho Falls hurler, scoring first in the eighth, Idaho Falls came back in the last of the ninth to knot the score and send the game into extra innings. The two teams went scoreless in the 10th, but the Cowboys broke loose, with the pitcher five Idaho Falls errors, to win in the big 11th.

Every man in the lineup scored in that big frame. Bill Randall and Manager Andy Harrington were the big guns in the batting attack for the evening, each getting three safe hits.

Double Play

The Twin Falls club turned in another double play—its fifth in two games against the Russes. Each side had plenty of chances for double-plays last night, with 11 men being stranded on sacks by each club.

For tonight's game, Manager Harrington will send Hank Anderson to the mound for the Cowboys, while McKinney will pitch for Idaho. Anderson will lead off, while Barr has a record of no victories and one

Chuck Henson Takes Pioneer Batting Lead

Charles Henson of Salt Lake City topped out 14 hits in 27 times at bat last week, and increased his average to .345.

Henson, who appeared in fourth place in batting last week, also made most hits, 103, and is close behind leader in batting average.

William Knox of Salt Lake City is high man in the total base department with 144 and still tops the field in runs batted in with 22.

Earl Middle of Idaho Falls, is second in batting with a mark of .335, while Jim Keeley, manager of Boise, remained stationary in third place with .332. Gordon Williamson

Baseball Team Discussed by Business Men

With "no holds barred" problems of the Twin Falls baseball team were discussed frankly by local business directors and a selected group of business and professional men at a luncheon in the Park hotel Monday noon.

The invited businessmen presented a number of suggestions, pointing out the need for a more active management of the team. The main theme of the discussion was the need for a more active management of the team. The main theme of the discussion was the need for a more active management of the team.

Dad Hails Groom, 67

EDINBURGH, Ind. (AP)—When 67-year-old Alfred Kirk took his new bride, aged 47, home, the father-in-law gave the young couple a present. He gave them a new car.

The bride, Mrs. Kirk, is the daughter of a local merchant. The father, William Kirk, is 101.

Dodgers and Cardinals Tangle at St. Louis

NEW YORK, July 29 (AP)—The Brooklyn Dodgers, early favorites to win the 1941 National league fly, are hanging on the ropes and the St. Louis Cardinals, leading the circuit by two games, hope to give them the knockout punch in their two-game series opening in St. Louis today.

When Brooklyn left on the current "train junket," it promised to be the toughest test of the season. That forecast has been borne out during the last seven days. The Dodgers have won only two games out of seven and now rest precariously in second place.

For the rest of the league, New York resumes at Cincinnati, Philadelphia at Chicago and Boston at Pittsburgh. In the American, the New York Yankees, leading by 1 1/2 games, have ended the flag "race" for all but the statistical giants. They have won 26 out of their last 29, 40 out of their last 47 and have outed a season's total of 100 home runs.

As for the remainder of the circuit, they'll go through the motions as follows: Detroit at Yankee stadium, Cleveland at Washington, St. Louis at Boston and Chicago at Philadelphia.

Reds Boost Lead Again As Pilots, Bees Split

The Ogden Reds today had gained another half-game in their pursuit of the Pioneer league baseball pennant.

The Reds blanked Pocatello last night, 4-0, behind the five-hit pitching of Vernon Stone. Stone's masterful performance was the main reason for the Reds' victory.

Yankee Records, Fight for 7th Place Feature American Chase

By HARRY FERGUSON
 NEW YORK, July 29 (UP)—Now that the Yankees have rolled right up to the door of the world series, there are only two things left to keep up the suspense in the American league.

You can see them both any day the team is in town, and they are:

1. The race among the individual Yankees to break records.
2. The death struggle that is going on for seventh place in the league.

You see one of them on the field where the Yankees are hitting, fielding and running. You see the other one in the big scoreboard where the team's batting scores of the other teams are posted. That enables you to keep up with the terrific battle being waged by the Washington Senators and the St. Louis Browns.

Attendance Holds

The records and streaks the Yankees are going in for have caused the attendance to hold up remarkably well considering the team now is so far out in front that nobody believes it can be caught. Here are some of the streaks, individual Yankees are working on at the moment:

Joe DiMaggio, after setting a major league record by hitting in 30 consecutive games, has now started another streak. He has batted safely in 11 games.

Phil Rizzuto, who is developing into a star at shortstop, has hit in 10 consecutive games.

Charlie Ruffing, the veteran pitcher, has won nine straight games and has raised his lifetime victories to 241.

DiMaggio and Charlie Keller are having a hard fight in two important departments of hitting. Keller has hit 25 home runs; DiMaggio 23. Keller has batted in 69 runs; DiMaggio 68.

The neck and neck race between the Senators and Browns has been going on for two months. At start of the season it seemed it would be a three-cornered fight with the Philadelphia Athletics involved, but Connie Mack's boys double-crossed everybody and played good ball in spurts. A team has to be consistently bad to stay in the Browns-Senators fight.

Trade Places

Last week it seemed the Browns also were going to get going and play some decent baseball, thereby leaving the Senators in possession of last place. The Browns moved into Washington Friday and knocked over the Senators. Next day they again smacked 'em down.

It looked like the end of the thrilling "cellar series," but on Sunday the Browns promptly dropped back to their normal form and got licked in a double header. That left the Senators only half a game ahead of the Browns. The fight probably will go right on down to the wire.

Do you think you can stand the suspense?

2 Tennis Players Are Held for Assault Charge

MAAMARONECK, N. Y., July 29 (UP)—Two tennis players were held today on charges of raping Claire Berlinger, 17, a beautiful blond model, at the point of a gun.

They are Jack March, 21, of Pelham, and Robert Decker, 22, a student at Miami University, Miami, Fla. Both pleaded not guilty in police court and their hearing was adjourned until tomorrow.

Miss Berlinger told police March had drawn a gun while they were parked in his car and ordered Decker to rape her. He watched, laughing and gesturing with the gun, she said, while Decker obeyed him.

Miss Berlinger told reporters she had known Decker for some time, and had refused several times to marry him.

Cobb and Ruth Meet Today in Final Match

DETROIT, July 29 (UP)—Two portly men whose names are indelibly written in baseball's hall of fame battle on the golf course today.

Tyrus Raymond Cobb, the "Georgia Peach," and George Herman Ruth, the greatest home run hitter of all time, meet on the Grossie Ice Country club course in the third and deciding 18 holes of a match they started at Weston a month ago.

Cobb got a 3 to 2 victory in the first match, but Ruth squared matters at New York June 27 when Cobb three-putted on the 10th green from 20 feet.

Tagging along with them will be Walter Hagen, veteran professional, and the once-mysterious John Montague.

Proceeds of the matches go to the United Service organizations.

WORLD EVERYTHING

And me in the parachute division!

Ump Banned From Russet-Cowboy Game

IDAHO FALLS, July 29 (UP)—Business Manager Lou Garland of the Idaho Falls Russet-Cowboy baseball team has banned Walter Woodard, Potomac, from serving as umpire in tonight's baseball match between Twin Falls and Idaho Falls.

One player from each team will act as umpire on bases.

Action in barring Woodard followed Garland's protest of an eight-inning decision in which an Idaho Falls player was declared out between third and home.

"The Twin Falls catcher was five feet off the base line when he called 'I got him' and Woodard took his word for it," Garland charged.

Voting Closes For All-Star Grid Contest

CHICAGO, July 29 (UP)—Six Big Ten players, two from the south, two from the east and one from the far west led today on the final day of balloting for the college all-star football team.

The all-stars play the professional champion Chicago Bears in a charity game here Aug. 25.

Halfback Tommy Harmon of Michigan topped the field with 989-114 votes and Avale Lio, Georgetown guard, was second with 624. The contest for the other guard position was the tightest of the poll with Tommy O'Rourke, Tulsa, leading Joe Lokan, Northwestern, by 14,212.

Hoyt's Improved My Health Says Mrs. Henry Litz

Gas, Bloating, Indigestion, and Constipation Have Been Eliminated by Hoyt's Compound, Says Boise Lady

Mrs. Henry Litz of 1201 River St., Boise, Idaho, says: "It's no wonder so many people praise Hoyt's, for after giving it a trial I am glad to add my endorsement. I had a bad stomach for years. My food would not digest but caused terrible gas and bloating. The gas crowded my heart and I had to gasp for breath. I had back pains and had to arise nights on account of over-active kidneys. I was constipated.

"Hoyt's Compound has made all the difference in the world in my general health. My foods digest and I can eat anything without suffering. My kidneys have been cleansed up and my elimination is regular. I owe much to this fine medicine.

"Hoyt's Compound is recommended and sold by the Majestic Drug Store and leading druggists in this area.

MRS. HENRY LITZ

Coast League Presents 1st All-Star Game

By United Press
 The Pacific Coast League presents its first all-star game tonight at San Francisco Seals' stadium, with teams representing northern and southern divisions of the league.

Pepper Martin, manager of the pace-setting Sacramento Senators, head the northern division, with Sacramento, Oakland, Portland and Seattle. Frank (Lefty) O'Doul of San Francisco leads the southern team, chosen from Hollywood, Los Angeles, San Diego and San Francisco clubs.

Proceeds of the contest, which the league hopes to make an annual affair will be given to the Association of Professional Baseball Players of America for welfare work among ball players.

The south team: Fielder; Manager O'Dwinn; Coach William Swenney, Hollywood; catchers, Dapper, Hollywood, Deane, San Diego, Campbell, Hollywood; pitchers, Eicher, San Diego, Terry, San Diego, Jensen, San Francisco, Bithorn, Hollywood; infielders, Fain, San Francisco, Schulte, Hollywood, Madan and Sperry, San Diego, Fernandez, San Francisco and Kahle, Hollywood; outfielders, Lowrey, Los Angeles, White, San Francisco, Herman and Rosenberg, Hollywood, Patchett, San Diego.

The northern army: Manager Martin, Coach Johnny Vergez of Oakland; catchers, Collins, Seattle, Richmond, Oakland and Kintz, Sacramento; pitchers, Turpin, Seattle, Liska, Portland, Phippen, Oakland, Sacramento, Hollywood; infielders, fielders, Retch, Brown and Owen, Portland, Hendley, Blittner and Galt, Sacramento; outfielders, Adams and Endicot, Sacramento, White, Seattle, Tauby and Gudat, Oakland.

BALLOT

Pioneer League All-Star Game to be Played in Ordon Aug. 1

I hereby cast my ballot for the following to be members of the northern (Twin Falls, Boise, Idaho Falls) all-star team.

(Choose five players from each team.)

Indicate choice of four umpires for all-star game.

THE SCOREBOARD

BY HENRY GRAYSON
 NEA Service Sports Editor
 NEW YORK — Tom Brennan, police cop and an old friend, is waiting for James Dykes when the White Sox pull into New York.

"Where you been?" he asks.

"You know we aren't due till 10:45," replies Jimmy Dykes.

"The way the White Sox are playing, I expect you'd be here," says Policeman Brennan.

Officer Brennan owes the Chicagoans a big favor. He was in St. Louis fight. He wants to know the score.

"Well," asserts Dykes "I need to be 74, but make it 7. Harridge and his umpire and looking at this ball club."

Brennan inquires about the Chicago? What's wrong?

"They're hitting their weight," explains Dykes. "And they're amler! I'd have to wrap two of my blocks together to not a 400 hitter."

Dykes is convinced Connie Mack is wrong in contending that pitching is 80 per cent of baseball, or even 75.

"Look at the Reds," he shouts, "and take a gander at us. We have Lee, Higney, Lyons and Edgar New, backed up by Dietrich, Rose, Halflert and Humphries, and Hayes and Appleton for relief. Why, old Pete Appleton hasn't batted out there in a long time, probably couldn't find his way to the box."

"But what good is all that pitching when we think we're 100 miles in front with a two-run lead. Our Men of a hitting is a base on balls, a hit batsman, two runs and a passed ball. If the other side is guilty of an error somewhere in

VARIED U. S. JOBS OPEN FOR EXAMS

Examinations for various civil service positions were announced here this afternoon by A. T. Anderson, secretary of the local board of examiners.

Full particulars regarding any of the positions listed can be had by calling the postoffice or at the local office of the Idaho state employment service, Mr. Anderson said. One position open is that for a rigger for the purpose of filling existing and future vacancies at the Puget sound navy yard at Bremerton, Wash. Applications may be filed until further notice with the recorder, labor board, Puget sound navy yard, Bremerton.

Positions for which examinations are slated include the following:

Fireman (steam) for filling the position of head, principal, and senior operating engineer at a heating plant.
Assistant engineer (steam) for filling the positions of operating engineer (heating plant) and junior operating engineer, also at a heating plant. These examinations are for the purpose of filling existing and future vacancies in the U. S. quartermaster corps, war department, in the states of Idaho, Montana, Oregon and Washington.
Aircraft mechanic, general; aircraft mechanic, motor; metallurgy, aviation; radio mechanic, general. These examinations are for the purpose of filling existing and future vacancies in the U. S. naval air station, Seattle, Wash. Applications must be on file with the manager, 11th U. S. civil service district, post office building, Seattle, not later than Aug. 18.

CITY REAPPROVES JOINT RADIO PLAN

As forecast in yesterday's Evening Times, city councilmen last night approved an agreement whereby the city and county would cooperate in operating and operation of the local police radio station.

The council accepted unanimously an agreement which was approved earlier in the day by the county commissioners. With exception of a minor change, it was the same one that had been voted a week ago by the city officials.
Under the plan the city and county will share the expense of establishing and operating the station which will benefit both the sheriff's office and the police department. The station will be increased from 50 to 100-watts and two-way equipment will be installed. A 30-day test period under the 50-watt power and with one-way equipment gets underway Friday under authority from Washington, D. C.
At the session last night a petition signed by residents of Polk street was presented commending the plan. The petition was headed by Earl E. Walker. The petition asked that Polk street be closed.

MISSOURI FREES EX-GOODING MAN

GOODING, July 29 (Special)—After two trials, a former Gooding man has been cleared in Dade county, Mo., of charges that he killed a wealthy reclusive, Dave McWhorter, in 1934.
The defendant who was acquitted in Olathe, Mo., July 21, had lived in Gooding about 12 months as Samuel D. Steen. His wife and son, 6, went back to Missouri at the time Melch was returned to face the murder claim.
In his first trial the jury was unable to reach a verdict.
During his residence here Melch was favorably known to Gooding residents.

GONE

BALT LAKE CITY, July 29 (UP)—The internment camp was about to lose its weather man, J. Cecil Alter, meteorologist in charge of the Balt lake weather bureau office for 24 years, was transferred to Cincinnati, O., effective Sept. 1.
Prior to his elevation to director of the bureau here, Alter served in the weather service in Utah for more than 10 years.
He will be succeeded by H. M. Hightman, supervisor of the airport weather station for several years.

From Farm to Farm with the Times Traveler

Barley Block

James Hebrant, farmer northeast of Buhl, was one of the first in the district to combine his barley last week. It made 100 bushels per acre. Most of the grain he stored to feed the milk cows and the stock cattle this winter.

Mrs. Hebrant's flower plot adjoining her vegetable garden is one of the most beautiful in the community. The orchard plots are one of the best, and much larger than the ordinary bloom. They were planted to border the lawn and shade the border. The gladioli are also particularly beautiful, due to patient care and extra rainfall in June.

shelter
An improved shelter of Virginia creepers winding their way through ordinary farm fencing stretching across evenly cut pine poles is a highly desirable back porch covering at the Buhl.

Quire farm southwest of Buhl. This shelter is not only beautiful all summer but has a rich brilliant coloring of much charm in the early fall after the first nights of light frost.

The shelter of vines is arranged in an L shape across the back side of the Quire home, and Mrs. Quire says it is the most pleasant room of the home in summer. Directly off the kitchen it is convenient for the serving of summer meals and is a quiet restful nook to shell peas, string beans, and so on.

Returns
Jack Tingey, owner and operator of the Snake river trout farm near Clear Lake resort in the canyon north of Buhl has returned home from a business trip to San Francisco and Los Angeles.

As an experiment a year ago Hugh Law, farmer northeast of Buhl, planted a bag of soybean seed James H. Shields had given him. In the garden the beans grew into spreading bush-like vines, three feet tall and were loaded with pods. Having only a few rows in the garden Mr. Law treated the seed by hand and sowed a portion of one acre in the field this spring. The crop is reported "excellent". The full grown branches being loaded with pods to the stalk. According to research the beans are expected to ripen for marketing in 10 to 12 days. In the field the experimental crop has had the same care and watering as the other crops.

Mr. Law was a member of the recent countywide excursion sponsored by the U. S. department of agriculture in cooperation with the Idaho department of agriculture extension service. The 100 business men and farmers of the Twin Falls county were guests at the Aberdeen experimental station July 18. At this meeting extensive experiments were observed in wheat, oats and barley, and also several different kinds of grasses were observed growing at the station. They are being raised for use as a chemical fertilizer their worth to seed on the range.

Of unique interest was a large field of oriental poppies being raised by an eastern truck company interested in determining their medicinal properties. There was also an experimental plot of binding broom grass being raised for seed.

Frank Southwick, youthful farmer with his father, F. E. Southwick west of Buhl, is milking nine head of extra fine Guernsey cows. These cows he raised the year he started active and prominent member of the Buhl Progressive Dairy club where he has been interested in stock raising for several years he served as club leader for three consecutive years and last year was general chairman for the west end 4-H council.

This club of which young Southwick is justly proud, was organized by I. E. Stansell who served as its leader for five years, being followed by Woody Oida for two years, and by Southwick. This year the club is functioning under the direction of Fred Oida who also received his 4-H training in the club. All leaders of this Progressive Dairy club are also active members of the Buhl Grange.

This year Frank is equally interested in his 118 head of hogs. If hogs can have a "contented look" they certainly would have, for they not only have fresh berries but plenty of greenery in their diet, with warm milk—and a private bath of fresh running water. The contented look comes when they grab a mouthful of grain and stand in the laceral of cold water, with only their heads above, and chew. This is real hog luxury.

At the present time Frank is feeding more than 200 hogs. He has a market 87 head this fall and will keep the rest for breeding stock. They are spotted Poland Chinas crossed with Berkshire. Frank is anxious to raise hogs during his 4-H Pig club work.

Rubber reclaimers now consume about 250,000 tons of scrap a year.
