ACUTE FARM LABOR SHORTAGE SEEN DURING HARVEST

ARMY TIME-OFFS MAY ALLEVIATE SERIOUS DAMAGE

By LLOYD TUPLING
United Press Staff Correspondent
BOISE, Aug. 5 (Special)—An increasingly acute farm labor shortage during the next few important harvest weeks was forecast today by agricultural officials as machinery was mobilized to cope with the newest problem of Idaho farmers resulting from the national defense program.

Confident the shortage can be met by proper coordination of governmental agencies, the state employment service, was emphatic in declaring no lack of labor sufficient to cause loss of crops was in sight.

If the shortage becomes too serious, civilian defense officials are prepared to ask army officials for release of several hundred soldiers during the harvest season to man farm machinery. C. E. Arney, state director of agriculture, said that a furlough may be sought for skilled farm workers now in the army if the crews continue in northern Idaho grain fields.

Less drastic methods of obtaining labor than furloughing soldiers will be exhausted, officials said. Arney expressed the belief that by coordinating the work of state placement offices operated by the employment service and by informing the employment officers of other states of the labor needs in Idaho, a sufficient supply can be obtained.

He pointed out that for the first time in its operation, the state employment service has a regular check on labor needs. This is being done by agents located at each of the state's farm labor camps to keep in touch with labor requirements.

The selective service program and departure of farm laborers for more lucrative jobs in defense industries were cited as reason for the present shortage.

Recognizes Need
Recognizing the need for farm labor in the state, Mrs. Helen M. McConnell has urged local draft boards "to be more lenient in dealing with farm workers on students of agriculture" from draft service. State WPA Administrator Dean W. Miller also reported his agency was doing its utmost to aid in supplying agricultural workers. Miller said WPA officials are urging workers to find seasonal farm employment whenever possible.

Although optimistic about labor prospects in the next few weeks, Tupling said the employment service might not always be able to find a full labor supply for farmers requesting assistance.

No Crop Lost Seen
They might ask for 50 workers and we may be able to supply only about 20," he said, "but there will always be enough workers to get the harvest jobs done without loss of crop."

It was pointed out that farmers might be inclined to become jittery when faced with the labor shortage and a resultant crop loss, picturing the situation worse than it is.

More and more farmers are turning to the state employment service for aid in locating farm hands, Tupling reported. During the first six months of the year, the service made more than 12,000 placements throughout the state.

More Vegetables Available Under Food Stamp Plan

BOISE, Aug. 5 (Special)—An increased amount of fresh fruits and vegetables will be made available to participants in the federal food stamp plan in Idaho, the list of commodities which may be purchased during August disclosed today.

Willard Walter, area supervisor of the surplus marketing administration, said the list includes fresh vegetables, fresh plums, fresh pears, fresh prunes, fresh oranges, fresh peaches, fresh apples, corn meal, shell eggs, hominy grits, bean, wheat flour, enriched wheat flour, self-rising flour, enriched self-rising whole wheat flour, dried prunes and raisins.

AG CONSERVATION EMPHASIS NOTED

BOISE, Ida., Aug. 5 (UP)—Agricultural conservation in Idaho during 1942, agricultural adjustment act officials here today disclosed.

Among the new requirements will be those calling for wheat and potato growers receiving special crop payments to devote at least 20 per cent of their crop land to soil-conserving uses.

Payments will be proportionate for growers who do not meet the 20 per cent minimum, officials pointed out. Soil building allowances under the 1942 program will be computed on about the same basis as the former plan. Rates for special crops will remain about the same although reductions for exceeding special crop acreages will be set at 10 times the payment rate, the state office said.

IDAHOANS WATCH MINE MEASURES

BOISE, Aug. 5 (UP)—Idaho miners are closely watching congressional action on the measure, which would remove duties on lead, zinc, copper, mercury, tungsten, manganese and other metals.

Some sources expected apprehension the duties lifted by the legislation might remain in force until after the present emergency.

The mining committee of the House committee of commerce issued a statement in which it was stated that mining people were not opposed to the government being in large quantities of vital defense minerals duty free.

The committee expressed opposition to "plans to lift the duties without any condition, which would remove legislation a date on which the duties will again be restored."

"Once duties are lifted by law, it may be difficult to have them restored. This accounts for the widespread opposition to the legislation as now written."

We--The Women

American fashion authorities are fighting it out. Shall American women who volunteer for defense work wear uniforms, and if so, when should they be worn, and what should they look like?

In the whole discussion the remainder of the evening, a fashion editor—stands out. She made her say short and sweet and to the point: "Let's not have any more talk about what we wear—let's get busy."

Right idea. There's a woman with the right idea. Most of the women in the country haven't the slightest idea of how they can fit into national uniforms. They're willing, even eager, to help, but they don't yet know what their country would like to have them trained to do.

They're sitting around waiting for a business-like plan that will utilize the diversified abilities of American women, both working women and housewives.

And while they are waiting, their enthusiasm is dulling just a little, as it is bound to do, the women leaders of the country are worrying about what the women, once organized, will wear.

What difference does it make what they wear? Whether they wear house dresses, tailored suits, slacks, or a Girl Scout uniform?

No Costume Party. We aren't getting ready for a national festival in which the costumes are an important. The idea is for us to get ready to do the jobs that will have to be done in case of a national emergency.

Nobody is going to care what the woman who reports an unexploded bomb to the proper person is wearing, and no pocket lying on an ambulance is going to notice what the driver has on.

What we women had better be spending our time and thought on is finding out where we are needed and then getting the proper training to fill the jobs.

If we're efficient at what we have to do, what we wear won't matter. After all, we're preparing for the possibility of war—not a fashion show.

Fall Styles Go Western

California college clothes seem to be going "wild west" and wooly, with cowboy styles providing many colorful notes. Here are two trends. At left: One of the new knits in Buffalo Brown, that doesn't look knitted. Right: An example of the "cowboy and Indian" influence pictures bands of suede, in red and green, laced by thought at the do-main sleeves of a sheer wool dress with tasseled belt.

Present also were Miss Lois Fletcher and Miss Lois Slyter, Kimberly, Mrs. Slyter sang "Because" and "I Love You Truly," accompanied by Mrs. Charles Shorthouse.

The couple is at home in Los Angeles, Calif., where Mr. Shorthouse is timekeeper at the Lockheed Aircraft plant.

Clover Nuptials for Lautenschlager-Lutz

CLOVER, Aug. 5 (Special)—Miss Arlene Lutz, daughter of Mr. and Mrs. William Lutz, and Adam Lautenschlager, son of Mr. and Mrs. Conrad Lautenschlager, Endicott, Wash., were united in marriage Sunday evening at 7 o'clock at Trinity Lutheran church.

Rev. W. F. Dannenfeldt read the double ring service. G. C. Westerkamp presided at the organ, playing the traditional wedding marches as professional and recessional.

The ceremony was performed against a floral background composed of baskets and bouquets of summer flowers with lighted tapers on the altar. Pink and white streamers lined the aisle. Bride was given in marriage by her father.

Her wedding gown was fashioned of white silk chiffon, with softly draped bodice, v-neckline, short puffed sleeves, and full floor length skirt. Her hair was held in a bun by steel beads and myrtle. She carried pink rosebuds.

Attending the bride as maid of honor was Miss Mildred Boehke, who wore a teal blue silk gown and carried pink gladioli.

Best man was Miss Mildred Boehke, who wore a teal blue silk gown and carried pink gladioli.

Junior bridesmaids were Wilma and Inez Lutz, Ruby Lierman and Frances Ahrens, all cousins of the bride, who wore pink and blue georgette.

Attended by Brother Harold Lutz, brother of the bride, attended the bridegroom as best man. He wore a white tuxedo and Ralph Kruse were the ushers.

Wedding supper was served to the 100 guests following the ceremony. Guests were served at long tables, with pink and white decor. Assisting in serving were Melba and Marjorie Urich, and Thelma Lierman. At the coffee service were Elrich Wegener, Elmer Fischer, Walter Martens, and Alfred Boehke. Norma Jagels was in charge of the punch tables.

A. H. Jagels acted as toastmaster during the supper hour.

At Reception During the social hour were songs by the Boehke brothers, readings by Marvin Jagels and violin numbers

of music festival's committee. Prof. Macklin's selection will be played by hundreds of bands throughout the country, and it has been selected for Chicago national festival being held this month.

In addition to his tone-poem, Prof. Macklin has also recently published another work, "A Compositions for Pipe Organ." He is well known as a concert pianist and composer.

Prof. and Mrs. Macklin, accompanied by Mrs. Bertha Macklin, left yesterday on a trip to Lake Louise and Banff, Canada. The group will return to Moscow prior to the opening of the fall term.

Before coming to Twin Falls Mrs. Bertha Macklin had been visiting Miss Helen Marshall and her mother in Salt Lake City.

Pickett's Class Arranges Picnic

Pickett's Sunday school class of the First Methodist church held a picnic dinner last Sunday following morning services at the home of Mr. and Mrs. H. Riedeman.

Forty-two members were in attendance. Mrs. Annie Powers, mother of Mrs. L. P. Jones, and honorary member of the class, was present.

H. C. Erlyson was a guest during the picnic and social hour.

ENTRIES SHOW COMPETITION KEEN IN WRITERS CONTEST

Entries in both the prose and poetry divisions of the contest sponsored by the Idaho Writers' league are coming in at a gratifying rate at this early date, reports Mrs. Martina Yeiter, Buhl, state president.

"This year's contest promises to be the greatest yet, if entries to date are any indication," says Mrs. Yeiter.

In the meantime, all Idaho writers are urged to contribute. Prose and poetry heretofore untried are eligible for the competition.

Entries for both light and serious verse will be judged separately. In mailing each entry must be submitted unsigned with the author's full name and address in a sealed envelope attached to the manuscript. If the contestant desires the return of the manuscript, sufficient postage must be enclosed. It is suggested that bulky manuscripts be carefully weighed. Entries must be typewritten, double-spaced, on one side of the paper only.

Cash prizes of \$10 each will be awarded for the best short story and the best human interest article with a western slant, and a cash prize of \$5 each will be awarded for the best entry of light and serious verse.

Qualified, distinguished judges will pass upon all entries. Awards and honorable mentions will be made at the close of the annual Idaho Writers' conference to be held here in October.

Idaho Composer Receives Honor For Tone-Poem

Prof. Hall M. Macklin, who together with Mrs. Macklin and his mother, Mrs. Bertha Macklin, Morristown, Ill., has been visiting the past week-end at the home of Mr. and Mrs. Theodore Welker and Mr. and Mrs. R. R. Spafford, has been selected for the national school music festival.

Associated with the University of Idaho at Moscow, Prof. Macklin is assistant professor of music and head of the piano division.

His recently published symphonic tone-poem for band entitled, "Mood Pastoral" has been selected as a required number for Class A high schools for 1941-42 by the national school

NAZIS CLAIM CAPTURE OF TAPA, RED RAILROAD CENTER

GERMAN TROOPS "CHISEL" POCKET NEAR SMOLENSK

BERLIN, Aug. 5 (AP)—The high command reported today the capture of Tapa, north Estonian railroad center, virtually isolating the Soviet defenders of Tallinn. It also said that German troops are chiseling out a new "pocket" area 62 miles southeast of Smolensk.

However, the official communique admitted heavy Russian attacks were in progress in the Ukraine where Soviet armies were fighting to break through an encirclement despite what were described here as heavy losses.

Capture of Tapa had the appearance of a major Nazi success on the Baltic front. Russian forces have been resisting strongly in northern Estonia. With Tapa in German hands, however, the main communications links between Tallinn and the Russian front were cut. Tapa is 50 miles east of Tallinn and 80 miles west of the Russo-Estonian frontier.

Extend Break-Through
The high command did not give the specific location of the pocket area on the central front, except to say that it is about 62 miles southeast of Smolensk. The communique said that German forces are extending their break-through in that area, encircling more troops and destroying others.

The high command said that German bombers again attacked military and industrial objectives in Moscow.

MOSCOW, Aug. 5 (AP)—German pressure on the new Kholm front where a Nazi attempt to strike through to the main Moscow-Leningrad railroad 110 miles distant is in progress appears to have relaxed somewhat today.

The high command communique did not report any action on the Kholm front during the night although heavy battles were reported to have continued on the main Smolensk front, said the Belya Terkov and Korosten fronts in the Kiev area.

Fail to Mention Novoshev
For the second successive day, the high command failed to mention Novoshev, 80 miles west of Kholm, a possible indication that Soviet forces have been forced to fall back on Kholm from their Novoshev positions.

There was a three hour air alarm in Moscow during the night and the Red air fleet carried out night attacks upon German mechanized units, infantry concentrations and air bases.

A Russian communique reported that a Russian naval landing party has captured five islands held by the Poles, apparently in the gulf of Finland. The Poles were said to have lost 90 men killed and 13 officers and men captured in the surprise move by Red troops.

The communique reported a violent battle in the direction of Belya Terkov, 80 miles south-southwest of Kiev, but apparently the fighting had subsided to some extent along the other claw of the German pincers movement, toward Korosten, 90 miles west-northwest of Kiev.

TOWNSENDS PLAN DISTRICT SESSION

Plans were completed here today for the district convention of Townsends clubs which will be held at the city park Wednesday starting at 8 p. m. with a basket dinner.

From 7 to 8 p. m. the district council will be in executive session after which the public session will be held with Orland A. Scott, Coeur d'Alene, national club representative for Idaho, as principal speaker. He will also preside. Other speakers are expected to be heard during the evening.

Community singing will be led by Harry Barry and featured entertainers will include the Teague sisters of Kimberly and the Duff sisters of Twin Falls.

Sound equipment will be provided by Bob Miller.

The general public is welcome to attend the session.

Idaho Libraries To Get WPA Help

BOISE, Aug. 5 (AP)—The works projects administration has obtained the approval of President Roosevelt on a project to supply funds for operating and organizing library services throughout Idaho.

A grant of \$33,318 was approved by the President for use in public libraries and public school libraries.

DISCUSSION

Members of the city council last night confined their activities to a discussion of topics of activities in general in the municipality and approved various monthly reports submitted to them.

Reports approved, all for the month of July, were from W. F. Green, weighmaster; Clay Smith, electrical inspector; Frank Healy, plumbing inspector; and Jessie Frazer, librarian.

Twin Falls Youth Tells Of Life on Midway Isle

Life on Midway Island, a pin-point in the Pacific ocean hundreds of miles from nowhere, today was vividly outlined in a letter which was received here from David Fix, only Twin Falls youth on the island which is the scene of thrilling defense action.

Fix wrote the letter to Robert Dickard, deputy county auditor for Twin Falls. The letter, written on light paper, came from the island to Twin Falls by clipper plane for 30 cents. Fix is on Midway island in the construction work now underway.

Guas Protect Island

"There must be 3,000 men here now," Fix wrote. "The operation is immense. Hundreds of buildings everywhere, machine guns, big gun spotters everywhere you walk; barbed wire entanglements around the ammunition magazines and range finders hid behind every tree. The marines are here now and the navy is coming in September, or sooner."

In the letter the writer points out that the island is really two islands, one called Sand and the other Eastern. Eastern island is not more than five feet above sea level at any point and is being converted into a land plane base. Fix is on Sand island where the seaplane base, living quarters, contractor's camp and other structures are located.

Fix writes that the islands are entirely of sand and that it is so white and the sun so bright that all workers wear extra dark glasses during daylight hours. He added

that the heat "almost" killed him the first few days but that now he is getting used to it.

Lets of Albatross

At one point in the letter he tells of the thousands of "gooney" birds or albatross which make their home there.

"These are the most amazing of all and the most stupid," he wrote. "They are very large and on the ground are clumsy beyond all description, but in the air they fly with the gracefulness no other bird can match."

"They are as large as turkeys and until they reach their full growth they are unable to fly, but stand in one spot and flap their big wings slowly."

"When they finally reach the stage of flight they must run like hell for the take off and then when they land they fall all over themselves sometimes rolling over two or three times. After this they get up real slow and gaze around with a foolish expression to see if anybody caught them in such a ridiculous situation. About 50 per cent of these birds are eaten by sharks which grab them when they land in the water for the first time."

and can't get up again."
Helenia Auld Fishing
The workers, Fix said, enjoy fishing with aid of special water proof helmets which permit good visibility. Because of the clearness of the water it is possible to see 150 feet in any direction when the swimmer is under the surface.
Fix said that the "grub is fine" and that he likes his work and associates.
"I believe I'll stay my year although the percentage is very low among those that do, about two and one-half per cent in fact. Most never stay more than three months. The heat and sun are intense, although the mercury seldom goes above 85 the humidity makes up for it," he wrote.
He added that he is the only Twin Falls youth at Midway although there are lots from Boise and three kids from Wendell.

"AUTO ROW" AMAZED!

THERMO-CHARGED "RPM" stays put at the "hot spots" where it's needed most
OTHER OILS actually climb uphill to get away from "the hot spots"

"These Pennsylvania boys tell a swell story!"
"Yeah... but none of these oils or any others can do all 7 things Thermo-Charged 'RPM' does!"

Thermo-Charged RPM MOTOR OIL
1 Absolutely outstanding in its ability to spread over and lubricate engine hot spots.
2 Cuts wear because it keeps a better oil film on engine parts running either hot or cold.
3 Keeps your engine cleaner than other motor oils.
4 Ends carbon, sludge, varnish trouble.
5 Keeps all rings free—unclogged.
6 Non-corrosive.
7 Keeps oil filters cleaner than ever before.
8 Gives you mileage, as good as, or better than any other oil.
9 Definitely lengthens engine life.

ILLUSTRATED above is one of the spectacular HOT SPOT performance tests that Thermo-Charged "RPM" is putting on along "Auto Row." And maybe it isn't making service men sit up and take notice!
In this demonstration, test tubes are set in a hot plate. One is filled with Thermo-Charged "RPM"; the rest with other leading oils. (It makes no difference whether they're Pennsylvania, Mid-Continent or Western.) A curved metal strip or "seepage ladder" is placed in each tube.
Then the heat is turned on! As the temperature goes up and up, Thermo-Charged "RPM" holds its ground—stays put where the heat is greatest. But, suddenly, the other oils climb straight uphill along the metal strip. They can't stand this heat test—they run away every time!
Think of the extra protection Thermo-Charged "RPM" gives light-titting, hot-running bearings, cylinders, piston rings! Try this one oil that other oils can't match!
