SEA LOCKS OUT TWO-THIRDS

RUSSIANS CLAIM INITIATIVE ALONG LENINGRAD AREA

By Henry Shapiro
MOSCOW, Sept. 30 (U.P.)—A telephone dispatch from the Soviet press agency reported today that the Red army had held the initiative in many sectors of the Leningrad front for several days and had pushed the Germans back from villages and entrenched lines. Several villages have been taken, the dispatch said, and on one sector an attack of the 1500th German division, totaling 16,000 men, was beaten back with heavy losses.

RED TROOPS DESTROYED
The Red army command reported today that Italian troops, operating east of the Dnieper river in the Ukraine, had destroyed 14,000 German troops and captured several thousand Russians, while the Germans had taken a strongly defended Russian position on the Leningrad front.

COPPER SUPPLIES TO BE RATIONED

WASHINGTON, Sept. 30 (U.P.)—Priorities Director Donald M. Nelson today placed all supplies of copper scrap under rationing control. The move is the first step in a drive to conserve the metal, which is needed for the production of war materials.

NEUTRALITY ACT BAN ASKED BY FOREIGN RELATIONS CHIEF

CONNALLY SLAPS HITLER'S AIM OF WORLD CONQUEST

WASHINGTON, Sept. 30 (Special)—Chairman Tom Connally, D. Tex., of the Senate Foreign Relations Committee has specifically called for a further boost last night in a broadcast to arm our ships and for abandonment of combat zone policies which bar them from belligerent ports.

The administration had cause for satisfaction in the Connally broadcast which the powerful peace foreign relations committee chairman endorsed Mr. Roosevelt's policies all aspects with emphatic assertion that "Hitler and his Nazi terrorism must be destroyed."

He repeated warnings that Germany has plans to "conquer" the United States and western hemisphere.

"Hitler has decreed the death of our citizens and the destruction of our ships wherever his armed vessels may find them," Connally said. "The Hitler ambition, the Nazi terror, paused at no boundary, hesitated at no sea, but with an ambition greater than Lenin's, with a savage lust for power surpassing that of Genghis Khan, with a bestial appetite for loot and plunder and mastery arising out of that Attila, hurled their swarming armies upon their neighboring nations in a campaign of world conquest and world domination."

"We should now re-assert and re-emphasize our doctrine of the freedom of the seas by modifying the so-called neutrality act. The establishment of combat zones has failed."

DANCERS CAMP WILL HAVE 400 FOR HARVEST

Roy C. Lane, manager of the farm labor camp south of the city, said this afternoon that number of workers available for harvest operations in connection with sugar beets and other crops will probably exceed 400. Lane said that at the present time there are 900 residents at the camp. About 400 of this number, some of them women, are working at the present time or will be working in the fields.

Shelters at the camp will be closed Dec. 1 and will remain closed until April 1, 1942. The labor homes, however, will remain in use throughout the winter, following the practice of past seasons.

At the present time approximately 150 students are enrolled in the camp school held daily excepting Saturday and Sunday in the community hall. These students are in grades one to eight and come from the shelter homes. Students of high school age in the shelters and all students in the labor homes attend Twin Falls public school.

Extent of the hot lunch program served daily in connection with the camp school is shown by announcement that 178 lunches were served Monday noon.

Formerly the jobs were located 300 feet from curves but are now being planted 600 feet from bends. Johnson explained that moving the status was expected to increase highway safety by allowing motorists time to reduce their speed.

The department was also eliminating signs from gradual curves where they were found unnecessary.

CURVE SIGNS ON ROADS SET BACK

BOISE, Sept. 30 (Special)—The state highway department is setting "curve" signs back farther from highway bends so as to give drivers a little more warning. Idaho Highway Director Sam E. Johnson said today.

Formerly the signs were located 300 feet from curves but are now being planted 600 feet from bends. Johnson explained that moving the status was expected to increase highway safety by allowing motorists time to reduce their speed.

The department was also eliminating signs from gradual curves where they were found unnecessary.

Otto Parry Takes Draftman's Post

BURLEY, Sept. 30 (Special)—Otto Parry, who has been at West Yellowstone in the interest of a draftsman's position, returned to make arrangements to move Saturday. Mr. and Mrs. Parry will go to Los Angeles to make their home at the termination of this position.

Mr. Parry was building contractor in Los Angeles prior to his return to Burley. Last year he and his wife lived at Clear Lakes where he was instrumental in laying out the Clear Lakes golf course. He later became the manager of the station liquor store and held this position under the administrations of four Idaho governors. During the summer he has been engaged in various draftsman's positions.

Honoring Mrs. Otto Parry, who has been employed at the C. C. Anderson store for the past eight years, and Mr. Orson Mower, who has been manager of the C. Anderson shoe store and is being transferred to the store at Blackfoot, the entire store force feted them at a party Friday evening at the Mower home. Sixteen guests were present and made the honorees a gift of two wool blankets. Mrs. Kurt Kerpe and Mrs. O. Mower were in charge of arrangements.

ARMY TO BUILD DEPOT AT BOISE

BOISE, Sept. 30 (Special)—The U. S. Army has completed plans for location here of a mammoth distributing depot to supply air bases in the Pacific northwest and Alaska. It was revealed today.

Construction of the first section of the depot, estimated to be a \$10,000,000 project, was ready to start. According to Lieut. Col. Arthur J. Melanson, commanding officer of Gownen field, the depot will be constructed on an 80-acre site adjoining the present army bomber base and will be of a "permanent" type. Concrete and steel warehouses will be built to store aviation equipment, guns, ordnance material and other supplies needed for operation of army air bases in Idaho, Oregon, Washington and Alaska.

Land for the base was acquired by members of the Boise Chamber of Commerce shortly after data for establishment of the depot here was released. The land was purchased for \$1,800 and leased to the army for \$1 per year for 25 years. Lieut. Col. Melanson, who reported construction is "already to begin," said the prime reason for locating the

THE EDGE FOR YANKS

McCarthy Men Have Best in Defense Punch

By GEORGE KIRKBY
NEW YORK, Sept. 30 (UP)

The Yankees hold the winning world series ticket. You can't beat their combination of home run punch, superb defense and world series savvy. They'll win the series whether it goes four games or seven.

Enthusiasm for the Dodgers is running high and there is some reason to believe the Gloster Burns will put up a spirited battle. But any cold analysis of the two clubs must concede the advantage to the Yanks. The best club usually wins the world series but sometimes there is an upset, and if the Dodgers come through it'll be a reversal of form. The Dodgers simply haven't the all-round class of their rivals.

Except Three Stars, the Yankees have swept three in four straight, won a total of 20 games and lost only three. In other words, in five world series the National League contenders haven't won enough games to equal the Yanks. Walters and Derringer of the Reds couldn't stop the Yanks in 1939 and it's doubtful if they'll have a better chance of doing it in 1941. The Dodgers' best pitching bats may turn out to be no greater, 40-year-old Fred Fitzsimmons and 35-year-old Curt Davis. On one of their real good days either could give the Yanks trouble.

McCarthy Manager Joe McCarthy is going to have a problem in selecting his pitchers but he did an outstanding job of juggling an eight-man staff all season and getting the most out of it'll probably be a hocus-point right on through the world series. He only has to be right twice every three guesses and the Yanks' clouting circus has a way of coming to the rescue with their version of the old adage, "might makes right."

I believe Higbe and Fitzsimmons will each win a game for the Dodgers and that Ruffing, Bonham and Chandler all will pitch outstanding games for the Yanks.

Other series predictions follow: Winner—Yanks in six games. Yankee pitching hero—Ernie Bonham, who'll shutout the Dodgers with five hits.

Dodger Hero—Freddie Fitzsimmons, who'll sing his own song with a masterpiece. Yanks' No. 1 hitter—Tommy Henrich, who'll hit more than a home break-up a couple of games with his clutch hitting.

Other Yanks the Dodgers will wish they'd never seen Joe DiMaggio for his timely hitting and fielding; Joe Gordon and Phil Rizzuto, who'll perform some stunts around second that'll make Yankee pitchers leave a sign of relief more than once. Best Dodger in field—Billy Herman, who'll hit and field in outstanding style, and Dale Walker, who'll prove a pest at bat.

THE SCOREBOARD

By HARRY GRAYSON
NBA Sports Editor

NEW YORK — Basketball succeeded despite those at its head. Barney Dreyfuss made that observation years ago, and it remains there in his mind's eye. There's no such guidance. There is Larry Slaughter, for example, trying to crowd 180,000 people into the 35,000 seats of Ebbets field for the world series, with Yankee stadium and its addition, 10,000 seats a nickel subway ride away. Pride in home and league is a fine thing, but it doesn't mean much sense when there is all that business lying around and everybody crazy to see a show for which they waited 21 years.

Giants aren't the only club the Browns kept in the National league this season. A sell-out for the Sunday double-header in Philadelphia doubled the Browns' total attendance to more than 100,000. The Browns even had the trade excited in St. Louis, which is something. More than 18,000 beat it from Brooklyn to Philadelphia for the weekend end. You never saw anything like it.

The Cardinals didn't deserve to win the National league. Neither did St. Louis, where only handouts turned out to see the Red Birds make their flight. The Cardinals' success apparently after opportunity because they went into a batting slump when they needed been hit. They batted only a little more than .300 when the heat was on. It was the only team to lose. While Howard Pollet and Merton Cooper which kept them there or thereabouts.

Meanwhile, the Beautiful Bums were soiling as though the first eight innings didn't count in one race-tracking hair-trigger race another. National league umpiring really got funny, and so were some of the Bums' games on the road. White committed two balks in the St. Louis series, one with the potential winning run on third.

"Well, maybe he did balk," Umpire Al Barlick told Leo Durocher, "but it would be a shame to blame on him at this stage of such an important game." "Neutral observers agreed that Hugh Casey balked in Pittsburgh," reads one account of the Bums' loss there. "But at the same time admitted that in each of the two games in a game so important to the pennant race, victory should not have been handed out on a technical and so minor a rule." Maybe they ought to just tear up the book when a race gets tight. Glenn was trying to get a check of records who might just as well have been around all season. Bill Derry's idea of rehabilitating the Polo grounds is buying someone Brunck-Bleak doesn't want.

Louis Moved—So, Nova Cosmic Punch Failed!

By HARRY FERGUSON
NEW YORK, Sept. 30 (UP)—This is a comic essay, written from a dynamic stance with assistance of the laws of physics.

It is cosmic and dynamic because the typewriter is firmly anchored and cannot move. You cannot use the comic punch and the dynamic stance if your opponent moves. And how do I know that?

Because Lou Nova told me so. Yes, sir, the man who made the comic punch and the dynamic stance famous sat on a bench in his dressing room after last night's hostilities and revealed that Joe Louis had been churlish enough to put one foot in front of the other, swinging his arms occasionally, duck, side-step and, in other ways, move around the ring.

Bohagote, that's what it was. Louis is in the same position as a dynamo when he sits on the bench of the Wright brothers' first plane or throw a brick at Edison's first light bulb. If he had any interest at all in development of science he should have stood there, rooted like an ancient elm, and since Nova to develop his theories on a stationary target.

Cosmic Punch? It was a happy gathering that assembled in Nova's dressing room and it took some time to get around to the delicate question of the dynamic stance and the comic punch. Nova sat on a table while they cut the laces off his shoes and let the blood that flowed from above his right eye.

He said the usual things. He was a fighter, he thought, he thought Louis was a great fighter, he could do better the next time.

But after considerable polite conversation an old man far back in the crowd cracked out with: "Say, Lou, you got the comic punch and the dynamic stance?"

"Nova considered the question carefully, and then said: "Well, Louis moved."

"As luck would have it, your agent was the first to recover his powers of speech, and he quickly inquired: "You mean the comic punch and the dynamic stance won't work if a man moves while you're trying to hit him?"

"Yes," said Nova. "Now Get Cockey." Then it developed that, in the heat of battle, Nova had become un-cosmic and non-dynamic at times—and usually at the wrong times. The dynamic stance demands the body be bent in the shape of a bow.

"But I got cocky," Nova explained, "and started fighting low upright. In other words, I changed my stance." That was enough for this ardent student of science and he repaired to Louis' dressing room to inquire whether Joe had taken up the practice of yoga. One yoga exercise is to stand on the head so the blood can circulate freely. In the sixth round Louis demonstrated an extreme interest in the yoga theory. He stood Nova on his head and allowed the blood to circulate in the brain for some five or six seconds.

In Louis' dressing room your agent found no interest whatsoever in the practice of yoga or any other phase of science or metaphysics. In fact, the topic of whether or not the Yankies could take the Beloved Bums in four straight.

Vitt Bows out As Manager At Portland

OAKLAND, Calif., Sept. 30 (UP)—Oscar Vitt has bowed out as manager of the Portland club of the Pacific Coast league, but he will have no truck with the Cleveland Indians, he made plain today.

"I exploded Vitt. 'Not Oscar Vitt has bowed out as manager of the Portland club of the Pacific Coast league, but he will have no truck with the Cleveland Indians, he made plain today.' Vitt said he had talked over the plight of Portland's Beavers—they wound up in the cellar for the third straight year—at close of the season last Sunday with President E. J. Schaefer and that they had come to an 'amicable agreement.'

"I'll just sit tight until something shows up," said Vitt. "I have no immediate plans for the future." Vitt said he had talked over the plight of Portland's Beavers—they wound up in the cellar for the third straight year—at close of the season last Sunday with President E. J. Schaefer and that they had come to an 'amicable agreement.'

By United Press
STANFORD UNIVERSITY—Harry Armstrong, right halfback on the Stanford eleven, came out of Oregon game with a pulled groin muscle but probably will be ready for action against UCLA Saturday.

BERKELEY, Calif.—California expects 'lots of passing from Washington State' next Saturday against the freshmen on pass defense.

CORVALLIS, Ore.—Coach Lon Bluner plans to make more use of his Oregon State sophomore backs in the Washington game. He said to get a needed rest to his star backs, Don Durand and Bob DeHman who completed 14 passes for 194 yards against USC Saturday.

EUGENE, Ore.—Sirenous passing drill was ordered for University of Oregon today by Coach Tex Oliver, who was disappointed in the interception five passes by Stanford Saturday.

SEATTLE — Quarterback Don Means, who dicated an elbow against Minnesota, is out to the Washington team for 10 days.

FULLMAN, Wash.—Coach Babe Lomborg today moved Frank London, 207 pound handyman of the Washington State team, fullback to replace Les McLennan, declared ineligible for further competition.

MOSCOW, Ida.—Coach Francis Schmidt sent the University of Idaho team back to drill on fundamentals today after reviewing the Vandals' loss to Utah. Scouts told Schmidt that Oregon, next Idaho opponent, is "one of the fastest teams in the conference."

LOS ANGELES—The USC Trojans worked against Ohio State plays brought back by scout Tay Brown today in their first serious scrimmage of the week.

LOS ANGELES — Coach Babe Horrell, loaded with information from three of his assistants who watched Stanford last Saturday, sent the UCLA eleven into a five-man line to test the Trojans' offensive measure against Indian plays.

DAVIS GETS BUS FRANCHISE HERE

A motor bus line will be operating on the streets of Twin Falls within the next four months, barring possible inability of J. Ted Davis to secure equipment, because of national defense activities.

Last night, at the regular city council meeting, Mr. Davis saw councilmen accept his bid to operate the bus line here and award him the franchise. Within the next five days Davis will place a performance bond with the council and the ordinance awarding him the franchise will be adopted.

Under terms of the agreement the city is to receive one per cent of the gross revenue during the first 10 years of operation and two per cent during the following 10 years. At the start, Davis expects to have one 18-passenger bus in operation running on a regularly scheduled route. The fare was set at 10 cents a passenger, with reduced rates for those buying ride books in advance. If business demands it, another bus would be added. Under terms of the franchise, Davis has four months to place the first bus in operation. He orders the city to issue the license.

At the session, which lasted until 10:30 p. m. and which saw a complete report of a conference he had with CAA officials in Seattle being given by Mayor Joe Koehler, he announced that he accepted an investigation from the "Fight for Freedom" organization to be a delegate to the national convention which will be held in Washington, D. C., Oct. 8 and 10. Koehler was asked by the organization to be one of two delegates from Idaho.

Store Plans Celebration on Remodeling; Managers Meet

Opening celebration of the local J. C. Penney company store, following extensive improvements including installation of added equipment and addition of new departments, will get underway Wednesday and will last through the week. It was announced this afternoon by store officials.

In connection with the celebration, and also as a part of it, will be a junior convention which will bring Penney store managers and their wives from southeastern Idaho to Twin Falls for a three-day session starting Wednesday. Headquarters for the convention will be the Ferguson hotel.

New lighting and opening following the improvement period, local store officials said that foremost of the new features is the new fluorescent lighting in the downtown store, on the apparel balcony and in the enlarged shoe department.

The newest innovation for displaying apparel, of which Penney is the first in the western states, is the flush panel arrangement to eliminate dark, dingy garment cabinets and to bring coats and dresses in the open for customer acceptance. Flush panels are perfectly plain masonite board with a delicate peach tone, topped with off-white letters of old English blue to indicate the type of merchandise offered.

New taupe carpet enhances the chrome garment racks and sets of the new curtain corner shelves for millinery have been installed.

Added Departments

New departments have been arranged in the downtown store. As visitors descend the rear stairs, they will find a complete girls' department with all of the style apparel of the 1940s. The apparel shop, across from the girls' shop is the boys' store. Additional departments include a complete men's department and the cotton frock shop. All fixtures are colorful and new to match the surrounding improvements.

Among officials slated to attend the store managers' convention will be L. A. Warner, Salt Lake City, who will conduct the session.

Managers Coming

Store managers who will arrive Wednesday for the convention will include the following:

J. H. Jeffers, Idaho Falls; L. R. Jeppesen, Blackfoot; H. Gentles, Rexburg; L. E. Erickson, Anthony; E. R. Korzeberg, Montpelier; C. E. Roberts, Downey; C. H. Campbell, Soda Springs; C. H. Stephens, Madras; J. S. Blumhagen, Rigby; E. L. Dale, Pocatello; E. J. Burns, Burley; C. C. Balch, Rupert; W. G. Berman, P. O. 75; W. C. Hartman, Shoshone; W. C. Hansen, Halley; J. W. Edgett, Buhl, and Ernest Gyer, Twin Falls.

ORCHESTRA WILL ASSIST AT PLAY

Special orchestra will offer popular numbers at the beginning and between acts of the Twin Falls high school all-school play, "Magnificent Obsession," to be presented at the high school auditorium Oct. 16-17. The orchestra members are chosen from members of the regular school orchestra. The school Mr. Smith, music instructor, said yesterday.

The selections will include "You're My Heart Alone," "Marie Elena," "Castle of Dreams" and "When the Swallows Come Back to Capistrano." The theme song of the presentation will be "Lead, Kindly Light" and will be played as a duet, by Julia McBride, violin, and Murray North at the piano.

Young North will also be at the piano with the orchestra; Larry Meach will play the tenor saxophone and clarinet; Ed Chapin, the alto and clarinet; and Bob Mills will play the alto.

Playing the cornets will be Ted Beecher and Howard Allen; Glenn Terry and Bill Stevens will play trombones, and Bill Merritt plays the snare drums. Two bass parts will be taken by Glen Jones, Betty Busby and Elms Eyster.

Julia McBride, Ruby Kawaii, John McNeely, Glenora Evans, Dorothy Ann Hartman and June Seaton will play violins.

Eight persons, riding in two automobiles, escaped injury early Saturday morning at a police and one-half miles south of Hansen near the bridge over Rock creek when the machines sideswiped and one was ended up by hanging over the bridge's edge.

A car driven by Robert D. Harrington, 21, Murtaugh, was the machine breaking the bridge rail and ending up with two wheels over the edge. Passengers with Harrington were Harley Eldred, 21, Ammon; Mr. and Mrs. Ralph DeKey, Murtaugh; Hal Randall, 23, Murtaugh; and Harold Harrington, 27, Murtaugh.

The other machine was operated by the driver's wife, who was a passenger. Both machines were damaged. The accident was investigated by State Policeman V. K. Barron. No arrests were made.

The city of Twin Falls today took out a "class A" membership in the Pacific Coast Building Officials conference. Approval of the membership was given Councilman C. H. Coleman at last night's council session.

Only recently Twin Falls adopted national building codes which is now in effect and which covers all construction within the city limits. By belonging to the building conference the city will be kept informed of the latest developments in the code and will also receive building building activities in other sections of the nation. In addition the city may, at any time, seek legal advice through the conference.

MANGANESE FOR U. S. SUFFICIENT

SAN FRANCISCO, Sept. 30 (AP)— Outlook for supplying America's domestic requirements of manganese appears favorable without going outside our own boundaries and the western hemisphere, the American mining congress was told today.

Frederick Laist, general metallurgical manager of Ansonida Copper Mining Co., of Butte, Mont., there appeared to be abundant ore supplies, although of low grade, and that problems which are metallurgical, requiring adaptation of various new methods of concentration, smelting and leaching.

Laist said establishment of ferro manganese furnaces in the Chicago area would secure better prices for the metal, which he predicted presently must be shipped to Pennsylvania and Virginia for smelting.

Laist described a tremendous deposit of ore averaging 10 per cent manganese in the foothills of the Arizone and Rawhide mountains of western Arizona, near the Bull Williams river.

Other speakers told the congress gold still is needed by the United States and that a tremendous deposit in the northwest was a tremendous aid to the treatment of aluminum and magnesium ores.

Industry Pays: \$11,000 Ranch Payment Ended

P. B. Johnston was pretty happy yesterday afternoon.

But not nearly as happy as Mike Kambrich, Buhl farmer. Six years ago Johnston bought the 100-acre, one mile east and one south of Buhl, to Kambrich. Yesterday Kambrich made the final payment on the \$11,000 time-payment transaction, and received the deed to his farm from Johnston.

To hear Johnston talk about it, you'd think it was his own farm—he was that proud of Kambrich's accomplishment.

"Mike not only has his farm paid for, but he has a \$3,000 cash crop; 10 milk cows; six head of horses; complete farm equipment; 60 head of hogs; 1,000 bushels of wheat in the bin—and a night life wife," was the way Johnston summed it up.

Besides completing his farm payments yesterday, Kambrich is celebrating the successful farm venture, Mr. and Mrs. Kambrich are going to Los Angeles this winter for a vacation.

Beans have been Kambrich's principal crop, he said modestly. He preferred to let Johnston tell his story.

BRITISH BOMBARD NAZI BALTIC PORT

LONDON, Sept. 30 (AP)—Powerful forces of British bombers last night attacked the German Baltic port of Stettin and strewed bombs on the dock area of Hamburg, with lesser air forces leading Cherbourg and Le Havre in occupied France, the air ministry said today.

It was understood between 200 and 300 of Britain's heaviest bombers participated in the Stettin raid. The military said "The fires were left burning" at Stettin. This raid was designed to alleviate pressure on Leningrad by hampering the water supply route to German armies on the northern front. Stettin is Germany's largest Baltic port.

The raid involved a route trip flight of about 1,200 miles and marked the second night in succession that British bombers have attacked German ports in the Baltic. The night before RAF raiders threw 400 incendiary attack bombs, Thurn and other points in northern Italy.

Indicating the scale of last night's attacks, the air ministry said the raids cost the British eight planes.

Employment Office Opens at Gooding

GOODING, Sept. 30 (Special)— Gooding employment office, a subsidiary of the district office of the Federal Bureau of Investigation, opened Monday morning in the commissioner's room at the court house and will be maintained open for approximately two months during the harvest season. Merrill Gee, Gooding, has been appointed by A. J. Hecox, Jerome to have charge of the local office. The office will be open early in the morning, during working hours and evening hours will be kept, if necessary. Ranchers and others needing extra hands are urged to take advantage of this service and laborers are invited to register for employment.

Lutheran Council Opens Fall Meet

BOISE, Sept. 30 (AP)— Sunday school enrollment and confirmation and profession of faith were the convention topics of the Lutheran council of the intermountain district, which delegates open their fall meeting tonight.

Stanley Sandberg, Seattle, regional director of the Columbia conference, will address the opening session.

JAYCEES WILL AID WITH FIRE PREVENTION WEEK— Assistance in National Fire Prevention week observance will be offered by the Twin Falls Fire Prevention Committee. Plans include an unusual downtown demonstration during the week session Oct. 7, probably Frank Laist, fire prevention expert of Salt Lake City, presentation of "Smoking" trails, and distribution of fire prevention folders.

CITY ENROLLS IN BUILDING GROUP

The city of Twin Falls today took out a "class A" membership in the Pacific Coast Building Officials conference. Approval of the membership was given Councilman C. H. Coleman at last night's council session.

TAX PROFITEERS GIVEN WARNINGS

WASHINGTON, Sept. 30 (AP)—The treasury prepared today to crack down on any "tax profiteers"—dealers who attempt to reap large profits by misrepresenting the new federal excise taxes which go into effect tomorrow.

The bureau of internal revenue, an official said, will seek prosecution of:

1. Any merchant, for example, who increases the price of an article 20 per cent to cover a 10 per cent tax, and then advertises that the entire increase is due to added taxation.
2. Any dealer, who by purchasing in large quantities, undervalues smaller competitors and calls attention to his accomplishment by telling the public: "We absorb the tax."

The bureau is relying on its recently increased staff of field agents and upon the consumer public to detect law violations. The office of price administration also plans to watch price increases closely.
