

COMPULSORY MEDIATION PROPOSED ON LABOR STRIFE

LEWIS FAILS TO MAKE ANSWER TO THIRD FOR PLEA

By James Shepley
WASHINGTON, Oct. 28 (AP)—Chairman Robert D. Thomas, D. Utah, of the senate labor committee suggested today some form of compulsory mediation for defense labor strife, following President Roosevelt's denunciation of a "dangerous" minority of labor leaders as a menace to the nation.

Thomas said an extension of the compulsory mediation features of the railway labor act to all labor disputes might be "beneficial" in such controversies as the current captive coal mine strike ordered by John L. Lewis.

This strike entered its second day today, with Lewis having made no answer to Mr. Roosevelt's third appeal for production to continue pending new negotiations arranged for tomorrow between Lewis and Henry D. Taylor, U. S. mediator.

The captive mines produce coal for exclusive use of the major steel companies.

Thomas said he did not intend to introduce compulsory mediation legislation immediately.

Whose Exhaust All Laws
"We should exhaust all the laws on our statute books before we rush into new laws," Thomas said. "But if new laws become necessary, I feel that the type of legislation might be beneficial."

Some members of the house were seeking a presidential veto on immediate drastic legislation to control all phases of the defense strike situation. Congressional leaders agreed, however, that legislation will depend largely on how fast some current strikes are settled, notably the captive mine work stoppage.

Mr. Roosevelt was said to have told his congressional leaders he felt he had more than sufficient authority generally throughout the emergency and that now the time has come to take more drastic action.

"It is now a question of who is to prevail," one leader observed, "the president of the United States or John L. Lewis."

Mr. Roosevelt sent his third appeal to Lewis late yesterday just two hours after Lewis had made a shutdown on a "ruthless corporation—the United States Steel corporation—and suggested a conference with the president as his "only adversary," Mr. J. P. Morgan.

Makes No Reply
"I am sorry," the president replied, that he had not been able early this afternoon you have not in respect of my request that, in the interest of the defense of our country, the captive mines be kept running.

"Whatever may be the latest developments," Taylor said to you and Mr. Morgan, the larger question of adequate fuel supply is of greater interest and import to the defense effort. There is no real reason for the continuance of negotiations. There is no reason for stopping at work."

"It is, therefore, essential that the mining of coal should go on without interruption."

The captive mine shutdown is based solely on the issue of whether the union shop shall be established in the mines owned by steel companies.

One Family Has Son in Marines, Another in RAF
Two of the sons of Mr. and Mrs. James H. Shewmaker, Kimberly, are now in U. S. and British armed forces—one with the marines and the other undergoing flight training at Tulsa, Okla., for service with the Royal Air Force, Sgt. W. J. Clunet, marine recruiter, said here today.

Serving with the marines and now stationed at the training station at San Diego, Calif., is Donald Shewmaker, 21. He was only recently accepted for duty.

In training for royal air force service is Lloyd, 23.

Suit for Divorce Cites Non-Support
Non-support was alleged as grounds for divorce today in a suit filed in district court by Mrs. Mary Leigh, Buhl, against Joe Leigh, Jr.

The couple married Oct. 14, 1938, and has a one-year-old daughter, Mrs. Leigh said, custody of the child. Her attorney is J. W. Taylor, Buhl.

News of Record Births
To Mr. and Mrs. Harry L. Dennis, Twin Falls, a boy, last night at the Twin Falls county general hospital maternity home.

To Mr. and Mrs. Roy Clark, Eden, a girl, last night at the Twin Falls county general hospital maternity home.

Patients Discharged
Mrs. Thelma Starr, Mrs. Nora Dahlstrom and Miss Ann Finkhauser, Twin Falls, and Mrs. Almida Ditta, Kimberly, have been discharged from the Twin Falls county general hospital.

Damage Slight
Damage to a light yesterday afternoon when a car was towed and operated by Charles Ward, Twin Falls, caught fire on a Shoshone street. The blaze started on the floorboards after Ward had driven with the emergency brake on. Local firemen responded to the alarm.

With Kelly at Washington

(From Page One)
A number of districts in Idaho have produced tons of copper, and under the spur of scarcity and increased prices this may again become active.

Department of agriculture plans a 30 per cent increase in potato acreage in 1943. Over 100,000 acres, valued at \$300,000,000, with production of about 37 million bushels. The increase will be made in the southern and northwestern regions, with decreases in the western and north central groups of states and provinces. The department expects a moderate sized crop to be produced in 1943, and income received by the potato growers should be favorable as compared to most years. This is particularly true in the event that the war is ended by a peace agreement, as is now in eastern markets.

The highway bill, passed last week without a roll call vote, gives Idaho \$2,250,000, but the bill will have to be acted upon by the senate and will then go to conference. It is in conference that the amount which Idaho will receive may be changed, possibly upward.

For federal aid highways, Idaho is listed for \$2,250,000 for secondary roads, \$410,000 for and for grade crossings, \$22,000.

As adopted by the house, Idaho will match with a 25 per cent contribution instead of 30 per cent as heretofore. Access roads to the military reservations (army air fields, etc.) will be paid for 100 per cent by the federal government, as also will flight strips for airplanes along the highways where the army so designates.

The power policy committee in agreement of the department of the interior is in the process of drafting resolutions adopted by the National Reclamation congress at Phoenix, Ariz. in August. It is expected that the congress was that it wants reclamation kept out of power politics.

One of the outspoken critics of the tendency to submerge reclamation to hydro-electric power and set up a committee, headed by James Lamper, Boise, and Mr. Lamper said, was, and he vetoed the almost unanimous view of delegates from the 11 public land states. One Idaho politician, a delegate, presented that the project was an impasse, and that no action should be taken until the delegates had time to read and discuss the resolutions.

Sen. Shinnelso, who died March 21, 1924, at Olat, Mo., has a daughter, 11, and a son, 8. Approval of a custody and support agreement is asked by the mother, Mrs. Myra E. Shinnelso, who is the attorney for the mother.

NEW RULES SET ON CITY PARKING

A new traffic ordinance has been adopted for Twin Falls today, designed primarily to make it unnecessary to place amendments to it on the various streets as changed or new markings added.

The ordinance adopted by City Attorney George M. Paulson at suggestion of police officials, it was adopted by the council last night under suspension of rules and will go into effect in 10 days.

Pertains to Parking
The particular ordinance adopted last night did not pertain to speed limits and the like but rather confined itself to the parking problem. Main provisions of the new act follow:

1—No vehicle shall park within street feet of any fire hydrant.

2—No person shall leave any motor vehicle unattended within any alley in the city's fire district.

3—No person shall park a motor vehicle on any street or alley in the city of Twin Falls, Idaho, so as to obstruct the view of the driver or of the engine's running.

No Alley Parking
2—No person shall park a motor car or any other vehicle within any alley in the city.

3—No person shall park a motor truck or motor bus in excess of its capacity, or an automobile with trailer attached, on any city street or alley in the city of Twin Falls, Idaho, so as to obstruct the view of the driver or of the engine's running.

Parade Area
The parade area, which was set aside for the parade on Sunday, Oct. 26, is now closed to traffic. The parade area, which was set aside for the parade on Sunday, Oct. 26, is now closed to traffic.

Price Average at Bull Auction \$185
Average price for registered bulls offered at yesterday's livestock sale at the Twin Falls Livestock Commission company came to \$185, said the commission manager.

SOLDIERS, GIRLS UNHURT IN CRASH
Although two soldiers and their girl companions were in a motor car which skidded, overturned and smashed into a ditch last night, none of the quartet was injured, State Officer V. K. Barron said.

SEN. TAFT RAPS ROOSEVELT TALK
Sen. Charles McNary, who asserted that he was a "possibility" of defeating the proposal to amend the constitution to prohibit and combat zones, but doubted that they could beat the house-approved plan to arm American soldiers non-interventionists reported their own plan to repeal the neutrality act, which prohibits the export of arms and munitions to belligerent nations.

Two Couples Wed By Burley Judge
BURLY, Oct. 27 (Special)—Burton and Rachel, both of Riverside, Calif., secured a marriage license here Saturday morning and were married at 4 p. m. by Probate Judge Henry W. Tucker.

GERMANS IN RAGE AFTER ROOSEVELT SPEECH CLAIMS

NAZIS COMPARE PRESIDENT WITH INSANE MONARCH

BERLIN, Oct. 28 (U.P.)—German spokesmen, denouncing President Roosevelt's speech today in a succession of statements with increasing freedom from derision to rage, said "Roosevelt's evidently has the ambition to go down as the greatest liar and faker in world history."

"Such an example of shamelessness, rottenness, beastliness and filch never has been offered to a modern nation," an authorized informant said. "Never has such a specimen of mental breakdown been shown. One can only ask if Roosevelt is a criminal or a lunatic."

The Nazis objected above all to the President's charge that Germany planned to carve South America into slave states and destroy present religions.

Take Light Tone

In their first statement they had taken a light tone. This statement said the speech would cause the greatest amusement in Germany and the charge regarding South America was "the high point in the Roosevelt fantasy and the emanation of a crazy and absurd imagination."

The second statement called the President's speech "a continuation of suspicions, insults, slanders, forgeries and imputations such as could not be worse."

The third statement said: "Roosevelt said we should deny his allegations. We won't deny them. One does not take the trouble to deny a fool."

Compared With King

In this statement, an informant said an unidentified "high German personality" who has a great personal interest in these matters, compared the President with King Ludwig II of Bavaria, patron of Richard Wagner, who died in 1886.

"He would have days of complete mental clarity and others of complete lunacy," the statement said. "If Roosevelt's mental state is not lunacy then it must be that of a political criminal."

Fifteen generally hold that Ludwig, who was drowned in Lake Starnberg, was insane as he had been adjudged.

HENDERSON SETS GLYCERINE PRICE

WASHINGTON, Oct. 28 (U.P.)—Price Control Administrator Leon Henderson today established a maximum price schedule "slightly below current levels" for glycerine, which is essential in producing high explosives and other defense and civilian commodities.

The schedule, effective Nov. 10, sets a base maximum price of 11½ cents a pound for crude, and 18 cents a pound for refined glycerine. Current prices are 18 cents and 21½ cents respectively.

The prices apply in all parts of the nation except the area embracing sections of Oregon and Washington; Nevada, Arizona, New Mexico, parts of Colorado, Utah, Wyoming (excluding Larzac county), Idaho, and Montana. In this area, classified as zone B, a premium of two cents a pound above ceiling may be charged for refined glycerine.

Student Union Rules Chairmen Selected

UNIVERSITY OF IDAHO, Oct. 28 (Special)—Bob Leering, Rupert, and Mary Ellen Duffie, Boise, were named co-chairmen of a committee to formulate plans for the establishment of a permanent board to control the activities at the Student Union building.

Autos Collide on Road Near Burley

DECLO, Oct. 28 (Special)—An auto driven by Roy H. Droz, Declo, collided with a car driven by Odel J. McInain at 12:10 a. m., Oct. 19, in front of the Y-Bell ball room east of Burley.

McInain was driving a 1935 model auto into Burley from Rupert when his machine collided with the 1939 model driven by Droz which was coming east to Declo on highway 30. State Patrolman M. A. Reeves was investigating officer. Neither driver saw the other's car, according to reports.

Earl Munson, Declo, passenger in the Droz car, was thrown clear of the car and was unconscious for some time. He was taken to the Cottage hospital in Burley for treatment. Other passengers with him were Mrs. Ina Droz, Mrs. Earl Munson and Norma Schwartz, all of Declo.

The Droz car, Reeves estimated, was damaged to the extent of \$125, and the McInain car \$50.

MAKINGS of a CHAMPION

But He Needs Your Help!

If he's going to make a recreational half-back in 1953, he has a big job on his hands. It will take lots of fresh air and exercise, and above all, the necessary foods that combine to build strong, healthy bodies. He can well take care of the fresh air and exercise himself, but it's up to you to see that he gets the foods required to make him a champion.

COAL PRICE CUT URGED IN IDAHO

WASHINGTON, Oct. 28 (U.P.)—The bluminous coal division today recommended an increase in the minimum price bases for seven soft coal producing areas, and decreases in the other two, including the Wyoming-Idaho-Utah sector.

The report was based on extensive hearings to determine if adjustments were necessary in view of changes in the costs of production. The division had found that costs in 1930 and 1940 had decreased, but this spring the United Mine Workers obtained higher wages.

The new recommendations, against the present weighted average cost figures per ton include:

Recommended Present
 Wyo., Idaho, Utah, 2.1041 2.1691
 Montana, 1.4859 1.4551
 Wash., Ore., 2.4913 2.2247

The average costs are used in formulating minimum prices under the new coal act designed to stabilize the market.

The same engine speed required to develop a road pace of 35 miles per hour with the 1942 Lincoln standard transmission, produces 50 miles per hour when the car is equipped with the extra-cost overdrive—Adv.

FLAG PRESENTED TO STATE SCHOOL

GOODING, Oct. 28 (Special)—With impressive ceremony an American flag and flag pole were presented to the state school for the Deaf and Blind at Gooding Friday. Ceremonies were held at the new flag pole which has been erected in the center of the state school campus by the workers who have been engaged in the construction of the new dormitories and other improvements. The program was arranged by members of the Perry Byam post of the American Legion, who presented the flag.

Homer Huelston, manager of the veterans' facilities at Boise and a past department commander of the Legion of Idaho, gave the address for the occasion and Dr. J. H. Cromwell, a Legionnaire, was master of ceremonies. Rev. Theo. B. Miltzer gave the invocation and Dr. Cromwell presented the flag to Burton Driggs, superintendent of the state school. In the name of Perry Byam post, the workers and the officer of Commerce who cooperated in the project.

Sign Interpretation

Mr. Driggs accepted the flag and spoke in behalf of the institution and expressed gratitude for the gift. Mr. Driggs also interpreted the entire program in the sign language for the state school children.

The flag was unfurled by the Legion color guard, Fred Craig and Oscar Edholm, and the national anthem was played by the Gooding high school band, which also played a selection for the opening of the program. Jimmie Rosenbaum, Boy Scout of troop 32, Gooding, led in the pledge of allegiance to the flag. Mr. Edholm stressed the meaning of the flag, and that it represents all of us. He spoke briefly of its history and said: "Then let us think of the flag, not as woven threads of silk or wool. Let us think of the stars and stripes as the threads of lives of the men and women who have made this country what it is today—with standards of living, standards of liberty, and standards of freedom unequalled anywhere in the world."

"Let us think that in 'Old Glory' are threads of lives of brave men who fought our wars to win and maintain democracy and liberty."

Typifies the Best

"Let us think that in the stars and stripes are the threads of lives of our great inventors, great statesmen, great generals, great scholars, great educators and great leaders of business and labor," he said. "In that flag are the threads of lives of those who completed the great plains and deserts and turned them into productive farms that the American people might be the best fed and best clothed."

"Let us think in 'Old Glory' are threads of lives of our American fathers and mothers who instilled in the hearts of their children, the patriotism, and the courage and the

FOOD FUND SUIT HITS EAST FIRM

WASHINGTON, D. C., Oct. 28 (Special)—Following an investigation conducted by the surplus marketing administration of the department of agriculture into the handling of food stamps under the food stamp plan, the department of justice, through the United States attorney, recently made demand on John D. Page Sons company, Inc., a Pittsburgh dairy firm, for \$20,000. This represents the total amount paid to that firm on claims supported by food stamps.

The SMA investigation into the handling of food stamps by the Pittsburgh company disclosed continued irregularities in connection with the acquisition of food stamps and the presentation by his firm from April 13, 1940 through March 18, 1941, of such stamps to the government for redemption.

Denied Privileges

Through administrative action, the surplus marketing administration had previously denied the Pittsburgh firm the privilege of participating in the Food Stamp Plan, for failure to comply with the regulations. The Food Stamp program has been operating in Pittsburgh since March 19, 1940.

In commenting upon the demand for surplus marketing administration, by the department of justice, Roy P. Hendrickson, administrator of the said:

"The food stamp program has proved to be an efficient and effective instrument in coping with the dual problem of providing wider markets for farm products and distributing food commodities among needy families. The Food Stamp Plan has made it possible for under-

FOUR MEN TAKEN TO STATE PRISON

BURLEY, Oct. 28 (Special)—Guards from the Idaho state penitentiary came here Saturday to take four prisoners to Boise to begin serving terms after they had entered guilty pleas to various charges.

Bertrium Hall, Pocatello, charged with grand larceny in connection with stealing a truck, after pleading guilty was sentenced from one to 14 years.

Marion W. Reynolds, charged with second degree burglary, was sentenced to one to five years. Reynolds pleaded guilty to stealing clothing and money from the old service station near the entrance to the county fairgrounds, the station now being used as a residence.

William E. Brown, who entered a plea of guilty to the charge of forging a check for \$2 on Mrs. Katie Hall, local restaurant owner, was sentenced to from one to 14 years in state prison, and H. C. Gaines, who attempted to force a check for \$10.72, received a one to seven year sentence.

Judge T. Bailey Lee presided over the district court session here.

Plan Clerk Suits

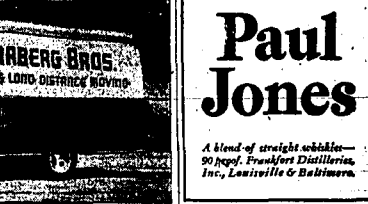

"In instances where the facts justify such action, the government is prepared to institute civil suits for the recovery of any funds paid out on claims supported by food stamps obtained in violation of the regulations. Whenever the facts in any case disclose fraud on the part of a participant in the food stamp plan, the government may institute civil action for double damages, plus a forfeiture, as provided in section 231, Title 18, United States Code."

Action to insure compliance with the regulations has included use of SMA administrative authority to disallow payment on irregular claims, and to deny violators further participation in the program. Criminal actions have also been instituted against a number of food dealers and other who filed false claims. The demand made today by the department of justice indicates that the government may seek recovery of amounts previously paid to retailers during their entire participation in the program in cases where subsequent investigation discloses that funds have been obtained on food stamps accepted in violation of the regulations.

SPORTS

TEXAS LOOMS AS POWERFUL BOWL CANDIDATE

Tough Slate Still Ahead Of Bible Club

BY HARRY GRAYSON
NEA Service Sports Editor
NEW YORK, Oct. 23 — Texas is the outstanding choice as the "eastern" representative in the Pasadena Rose bowl Jan. 1.

Oregon easily could prevail in the Pacific Coast conference despite its recent reverses. The teams meet in Austin, Dec. 6, in what easily could be a preview to the feature of the Tournament of Roses. Texas has three fine teams. Dana Z. Bible uses the team to position system, but doesn't like to call teams "first," "second," "third," etc. Calls the "Crimson" team, "Bardens" team and "Roberts" team.

Speed, aggressive down field blocking, experience, morale and recovery explain Texas' success. Close into the Rice game, the starters had played about 100 minutes out of 120. They had scored 12 touchdowns. His rushing netted 1,204 yards to 138 for opponents. It hadn't used passes extensively, but had a 336 completion average for 388 yards.

Weak on Pass Defense
Texas' most obvious deficiency is pass defense. All four opposing quarterbacks were scored on or set up by passes. Ten were intercepted, however, and that's something in the way of evidence that the defenders were alert.

Jack Crain, the signal-caller, is considered by Coach Bible, with Bernie Masterson. He is a breakaway runner who spreads the defense. Crain is a tremendously popular leader. He passes and punts, and bunts the middle from fullback to quarterback, being by Martin, Noble, Deas, Garris, Henry Harkins and Kuttner. Layden's record going into the Rice battle was 27 in 28 carries, Crain netted 23.

Kuttner is rated by Bible as one of the finest all-round ends. He is swift, smart and an excellent pass receiver. Daniel is a slick 200-pound guard. The starting line averages 201 average size. All four opposing linebacks were scored on or set up by passes. Ten were intercepted, however, and that's something in the way of evidence that the defenders were alert.

Following the Rice game, six hard battles are left. No bowl talk is contemplated. Bible said the boys will decide the choice of bowls, but all want the Rose bowl. Faculty permission is necessary, but it would be a foregone conclusion.

The Southwest conference sponsors the Cotton bowl and likes to have the champion play there, but there is no commitment. The hardest games ahead are Southern Methodist, Texas Aggies and Oregon.

Texas students distributed 10,000 stickers. "One at a Time" Texas isn't counting its chickens, but is supremely confident.

Cage 'Expert' Will Show Wares Here
"Big time" basketball comes to Twin Falls on Wednesday evening. It was pointed out today by high school officials as they set the times for appearance here of "Chuck" Taylor, nationally known basketball expert.

Taylor, agent for a sporting goods firm, will present a film at the high school at 8 p. m. Wednesday and will follow with a demonstration in the gymnasium at 8 p. m. There will be no admission charge and all students, fans and athletes and coaches from throughout the area are invited to attend the clinic, at which Taylor would point out various forms of basketball offenses and defenses. His film will probably show some of the top-notch U. S. college teams in action.

Here's the Proof: Greeley State Is Stronger Than Minnesota Gophers
BY HARRY FRINGSON
NEW YORK, Oct. 23 (AP)—Without the aid of mirrors and with nothing up my sleeve except a copy of all the scores for the season, I shall now proceed to explode the theory that Minnesota is the nation's leading football team.

Minnesota is not even among the first 10 teams and I'll thank you not to mention that the Gophers are undefeated and have scored 94 points to their opponents' 12. That has nothing to do with the matter. There are plenty of teams stronger than Minnesota. Personally, my choice is Greeley State of Greeley, Colo. I don't have the names of any of the Greeley players and it's true they have been the body beaten a couple of times this year, but Minnesota would be their dish.

Figure don't lie and figures say Minnesota is in fair weather. Minnesota is in fair weather. Minnesota is in fair weather. Minnesota is in fair weather.

Takes Louis' Measure

Fort Custer, Mich., quartermaster will be ready for him when Joe Louis is inducted into army shortly. Champion is fitted following exhibition there.

Army Base at Henry's Lake Is Opposed by Fish and Game Group

BOISE, Ida., Oct. 23 (UP)—The Idaho state fish and game commission was on record today as opposed to establishment of an army ski-training base at Henry's lake.

By a vote of 3 to 0, the commission adopted a resolution urging the army to seek another location for the winter training camp or to exclude the lake and adjoining lands from the area acquired for the base.

The resolution said "Henry's lake is one of Idaho's chief spawning and nursery areas, producing great numbers of large cutthroat trout and providing wonderful fishing for thousands of Idaho citizens. The commission expressed the hope that another site be found for the camp to protect the fish resources of the lake."

Hunting Hours Extended
The group also recommended extension of hunting hours for migratory waterfowl in private lands from flocks of ducks and geese that settle down after the 4 p. m. shooting deadline.

On the subject of waterfowl, the commission adopted by voice vote the following resolution: "Be it resolved by the Idaho fish and game commission that, whereas farmers and agriculturists residing in the vicinity of a migratory waterfowl refuge are having a very difficult time in preventing destruction of crops by migratory waterfowl and, whereas, it appears that the number of ducks is increasing annually and there is no serious anticipation of shortage in supply; therefore, be it resolved that—

Longer Hours
"That every effort be made to establish the shooting day extending from one-half hour before sunrise to sunset in order that the additional shooting hours may prevent damage from gathering in vast numbers of ducks, geese and other migrating birds. Be it further resolved that the Idaho fish and game commission is willing to acquiesce in a program which will shorten the

third door from the left and say the rest you.

On the basis of football played so far this year California is 14 points better than Southern California, which in turn, is six points better than Oregon State. It's a happy chance, Oregon State is the nation's leading football team.

Now it happens that early in the season Minnesota defeated Washington, 14 to 0, making the Gophers only eight points better than Washington. Thus California is 10 points better than Minnesota at this point we are

And what has happened to California aside from the San Francisco earthquake and the death of Lana Turner? Why, Washington State proved itself to be seven points better than California. Whereupon, UCLA turned around and played a game that made it one point better than Washington State. At this point we are

Navy Gridders May Accept Bowl Offer

NEW YORK, Oct. 23 (UP)—The Navy turned up unexpectedly in the ranks of bowl-bound football teams today when academy officials disclosed they already have received the position offer and would consider any and all others if the Middies continued undefeated.

The invitation was made public by Commander J. S. Perry, graduate manager of athletics, in Annapolis, Md., shortly after Major Emory (Swain) Larson, the Navy coach, said here "I certainly hope we go through the season unbeaten because I'd like to see the boys in a postseason game."

Commander Perry said the present offer had come from California and was an excellent one. It was forwarded by officials of the Rose bowl. However, he emphasized Navy would set no precedent by accepting such an invitation.

Navy played Washington in the Rose bowl in 1924, he explained. Perry who was assistant coach of the only Navy bowl team, said the current offer had been widely discussed in Annapolis but the Middies declined to participate at the present time because the Middies were only halfway through their schedule with four more games to play.

Bowlers Win Cash, Prizes In Tournament

Bowlers from the Twin Falls area "cash" in on the first week of the \$5,000 national "bowling carnival" sponsored by the National Bowling Manufacturers Association and manufacturers to the tune of \$33 in cash and merchandise.

Top money was won by Tom Brown by Dean Freeman, 244 fifth avenue north, Twin Falls, with a 320 cash award for placing fourth in the national tournament.

In the local competition, Gladys Shaw won the \$5 bowling cash—posting a 418 score to come closest to the 418 it would have hit the prize total on the nose.

Other national contest prizes (in bowling order) went to: E. T. Telfer, 123 Pilmore, Twin Falls, \$2; J. P. Ford, Liberty Market, Twin Falls, \$2; Fred S. Rex, 112 Main street, Twin Falls, \$1; William Hoops, Rogerson hotel, Twin Falls, \$1; E. A. Brinegar, 201 Reed apartment, Twin Falls, \$1; Frank Smith, route two, Arco, \$1.

Ted Lake and Robertson Star on Track

UNIVERSITY OF IDAHO, Oct. 23 (Special)—Two Twin Falls freshmen paced the yearling track team to an outstanding 20 to 20 victory over their sophomore rivals, Ted Lake, former Bruin hurdling ace, took three heats, tied for another, and took one second. Joe Hill Robertson, captured two firsts, tied with Lake for another first, and won two second places.

Lake skinned over the 70 yard high hurdles and the 120 yard hurdles in 2.4 seconds and 14 seconds flat. He took the 200 yard run in 31.4 seconds and tied with Robertson, Twin Falls, and Bob Ryan, Moscow, for first place in the high jump. Robertson won the 400 yard race with a leap of 21 feet 2 1/2 inches. He tied for first in the high jump with a leap of 4 feet 4 inches and 12 pound shot put.

ROBERTSON captured the century dash. Robertson captured the century dash with a leap of 21 feet 2 1/2 inches. He tied for first in the high jump with a leap of 4 feet 4 inches and 12 pound shot put.

CORVALLIS, Ore.—Coach Lon Sling drilled his Oregon State Beavers against the razzle-dazzle plays today, assured that his team will be given a good example of the system when it meets Idaho this week-end. Don Durand and George Peters, backfield stars, were named heroes but the squad otherwise was intact.

SEATTLE, Wash.—The University of Washington probably will start its second and third sprints against Montana Saturday, Coach Jimmy Hamilton said as he drilled the Huskies in passing and kicking, two departments in which they appeared woefully weak against Stanford. Bob Friedman, tackle, probably will be out of action for two weeks with a leg injury.

LOS ANGELES—Coach Babe Harrell took no chances of a setback after a week's rest from the Oregon Saturday and sent the UCLA squad through a spirited practice today in preparation for California.

by Hal Wood
PHEASANT HUNTING SEASON OPENS AND USUAL CROP OF STORIES PUTS IN APPEARANCE IN SOUTH CENTRAL IDAHO

There's no denying that the pheasant season is very much a success to date. In fact, what little we've seen of the pheasant is really "blacker 'n' flies," as the big-shot sportsman might claim.

And the heavy population has, as usual, resulted in a big increase in the pheasant stories—little tales that make the fish items of the past season pale in comparison.

Here's one coming down from Sun Valley: Walter Wittwer, a Sun Valley resident, went hunting for the first time on Sunday. Although he shot two boxes of shells at close targets, he failed to connect.

As he was returning home a pheasant popped out right at his feet. Wittwer scooped up the startled bird with his hand. As he examined his find, Wittwer in turn became startled.

He was afraid a game warden, finding him with a live bird, might bring the law down on him. So Wittwer went to his neighbor, Mr. W. W. Dowsby, which they claim will be easily beaten. After that they have two two-schedule games left in the conference.

Then there's the case of Wayne Lilly Kimberly. And we can verify the story—because we were in the same party and watched the proceedings. We had been going through a field of sweet clover about ankle high—and already the dog had gotten up a half-ton bird.

So we started down the sidelines when the dog made a perfect point. With set gun, Wayne sneaks around behind the dog and slowly approaches. The dog held the point and Wayne's snicker. Up—and sure enough, there's the bird. So Wayne goes down his gun and makes a kill.

He came up with a tiny pheasant not more than a month old. It was very much alive and unharmed—so he tossed it in the air. Along the same lines we must repeat the story of Kenny Ridgeway.

Vandal Frosh Prepare For Battle With WSC

MOSCOW, Oct. 23 (Special)—Since opening the 1941 grid season with a 6 to 0 victory over Montclair freshmen, University of Idaho frosh gridders have been brushing up on their offense in preparation for a battle with Washington State college yearlings at Pullman Nov. 1.

Coach J. A. (Babe) Brown has announced that a few more plays have been added to the frosh attack, and that the team has been drilled extensively on blocking. Against Montana, the yearling defense was exceptionally good, but the offensive attack was a little ragged, Brown reported.

Platoon Returns
The return of Charles Platoon, 175-pound Jerome boy to the left halfback spot for the Washington State game will give Vandal offense a boost, Brown said. Platoon, the best passer on the club, was out of the Montana game because of an ankle injury.

Other backs who marked against Montana, and are expected to lead the Idaho offense at Pullman are Dell Owens, of Lewiston, 152-pound fullback, who is a shifty runner and a fine kicker and Lyle Kirby of Moscow, an exceptional blocker who plays quarterback.

In the line Jerry Eide of Moscow and Jack Schutte of Spokane, tackle and guard, respectively, have been outstanding. Seeds at Center James Swarbrick of Shelby, 133-

Junior Students See Sports Film

Students of Twin Falls Junior high school Monday were shown a motion picture of a hunting trip through the wilds of Oregon.

The film, shown during social living classes, portrayed dramatic scenes of the animal life of that region—the skunk, the woodcock, the chipmunk, the wildcat and various other animals in their native haunts.

Africa Could Be Invasion Springboard, Wells Warns

Africa could easily provide Adolf Hitler with a springboard for invasion of the western hemisphere. Orval Wells, noted explorer, author and lecturer, told the Twin Falls Times last night in a talk that sparked the interest of the audience. Wells said that the strategic value of Africa and ended with a vigorous question-and-answer forum.

Wells summarized his analysis with the following statement: "In recent years Germany has been making a study of Africa and she has abruptly launched into a concise analysis of Africa and its possibilities in the war. He climaxed his analysis with the following statement: 'In recent years Germany has been making a study of Africa and she has abruptly launched into a concise analysis of Africa and its possibilities in the war.'

Wells was introduced by Edward B. Rogel, high school principal, after Perry, Town Hall president. He said that the present generation of workers are responsible for the unemployment problem. He said that the present generation of workers are responsible for the unemployment problem. He said that the present generation of workers are responsible for the unemployment problem.

15 BODIES TAKEN FROM COAL MINE

NORTONVILLE, Ky., Oct. 28 (AP)—Rescue squads pumped muddy gases from the Daniel Boone mine today and recovered bodies of 15 explosion victims.

The squads, working in shifts of 21 men, had lowered themselves through the mine's shaft on a black Kenton mine to repair the ventilating system and drive out gases hampering their rescue efforts.

The dead, badly burned, were lying in a tunnel 120 feet below the surface and 1,500 feet from the air shaft. Fifty-eight men, when the mine went down, had been working there yesterday, but 23 were rescued two hours later.

2 SOLONS DIFFER ON FDR'S SPEECH

WASHINGTON, Oct. 28 (AP)—Typical congressional comment on President Roosevelt's speech was given by Chairman Carl Albert of the House foreign affairs committee and Sen. Gerald P. Nye.

Nye—"The President struck a new low in executive leadership in the speech which he made last night. He said that the American people are being misled by the President's speech. He said that the American people are being misled by the President's speech.

Albert—"The President's speech was a masterpiece of statesmanship. He said that the American people are being misled by the President's speech. He said that the American people are being misled by the President's speech.

AROUND THE WORLD

By United Press SHANGHAI—The former German merchantman Quilo, reported in foreign naval quarters to be a supply ship for the Japanese, arrived today, camouflaged, with its name painted out and manned by a German crew but flying the Japanese merchant and military flags.

MEXICO CITY—Newspapers halted President Roosevelt's Navy day celebration today as probably his "deliberate" attempt to glorify the war effort. He said that the American people are being misled by the President's speech.

U. S. STEEL CURTAILS PRODUCTION DUE TO COAL SHORTAGE

FDR THREATENS TO PAGE CURB ON ALL STRIKES

By United Press

The giant United States Steel corporation curtailed operations today because of the work stoppage in its captive mines, while President Roosevelt threatened to place a curfew on all strikes.

John L. Lewis, chief of the striking United Mine Workers (UMW), said today that he would not be intimidated by the president's threat.

Benjamin F. Fairless, president of U. S. Steel, announced the corporation's curtailment of production in its captive mines and in its steel plants in the Chicago, Pittsburgh and Youngstown districts, which would be required to reduce operations from 100 to 80 per cent of capacity today.

Mr. Roosevelt renewed his demand for resumption of work in the mines and steel plants, and threatened to appeal to Lewis. The UMW president had replied to the president's second appeal by blaming the strike on J. P. Morgan and "traitors U. S. Steel corporation."

Mr. Roosevelt countered with the charge that the strike was not an "economic" strike, but was "a political strike" designed to force the government to take action.

The president indicated to congressional leaders yesterday he was ready to call for legislation to curtail strikes hampering defense production.

Will Hays Say Nay? Lupe Strips Anyway

In "Honolulu Lou" honky-tonky Lupe Velez loses her longies, revealing lingerie of cellophane style as a hula skirt. Lupe Velez has leaped clear of Hayes' horri-fication so far, but the lovely Latin may not get the purely safe this time.

Lupe Velez May Not Escape Censors in New Strip Tease

By PAUL HARRISON

HOLLYWOOD—Lupe Velez rarely has any trouble with the Hays Office. Some of her costuming, costumes and comments before the camera would curtail the whippers of film censorship if any other actress were involved. But Lupe's soubriquet comedy wins her a lot of latitude.

It's a matter of degree, though, what will happen when "Honolulu Lou" is submitted for a Purity Seal and Miss Velez is seen in a sailor's honky-tonk taking off her pants. To be sure, they're merely sailor pants, and it's true that she is found to be wearing a cellophane hula skirt under them. But she still constitutes a strip tease and, combined with the dance that follows, she'll be regarded as more seductive than ally.

Mr. Leo Carrillo's reaction is significant. After most of a day spent in watching the preliminary strip and the Latinized version of a South Seas ship-sinking, he went home to bed with a temperature of 104.

Also on the set was a parade audience of about 100 extras in naval uniforms. There was some talk among them of marching in Columbia's front office and handing back their checks in appreciation of the day's entertainment.

Easy to Look at

Miss Velez, I must say, looks fine. There are times when I think that

ARMISTICE PLANS MAPPED AT BUHL

BUHL, Oct. 28 (Special)—The American Legion and auxiliary held their 10th annual meetings and a joint social session at the Legion hall Thursday.

Commander Harry Ray, presided at the Legion meeting and appointed committees to make arrangements for the Armistice day program to be conducted in the Buhl schools the annual Armistice banquets and public dance to be held in the evening of Nov. 11.

Mrs. Vivian Brown, president, presided at the auxiliary meeting and appointed committees on the work of the Legion committees on the Armistice day program and activities.

Plans were made to serve a dinner to Legion members and members of the Scout troop sponsored by the Legion and its Scoutmaster, Jack Nelson, within the next two weeks.

John Jones, who was sponsored by American Legion 100, was State last summer at Boise gave a report of a name and expressed his appreciation of having had the privilege to attend.

The Legion served a luncheon "army style" in honor of the auxiliary following the formal meetings.

Follow Law or Face Arrest, Card Table Operators Told

Local police and city councilmen today had served notice in no uncertain terms on the card table operators that they would be expected to "follow the letter of the law" or be subject to arrest, and a municipal court fine for violation.

The notice was publicly served at last night's council session when councilmen, by a vote of four to one, returned to C. E. Wadsworth, operator of the Mint Club store here, the card table license which they had taken from him a week ago on recommendation of Chief of Police Howard Gillette.

Promise Obedience

Return of his license came after Wadsworth appeared before the council and presented a petition urging that he be permitted once again to conduct his card table in place. In the petition he admitted that the violation of the card table ordinance was "an error" on his part and that in the future he "promised to abide by and obey the ordinance of the city," and that he would cooperate with police and city officials in any manner he could.

The councilmen gave him back his license after Chief Gillette pointed out that it was "the purpose of myself or the council to be unfair or ruin any man. However, there was no understanding between Wadsworth and myself. This is all known when they are out of line and judging." He continued:

Took Necessary Action

"There was only one action that could be taken in this case and we took it. I want to thank the council for backing me up in this matter. I believe that this man knows now that he can't beat the law and get away with it. I also believe that all card operators know this now. It might not be the best thing for all such violation will result in an arrest being made on the spot."

It might be added that the council was of the opinion that as Wadsworth "will go ahead and do as he says" and added that if it was not with the chief of police, the license would be returned. The chief agreed to this move.

Coleman added, however, that future violations would not only result in the taking away of the license of the operator, but would also result in an arrest being made and a stiff fine as we are able to give through municipal court."

Hallow'en Party Given by Grange

GOODING, Oct. 28 (Special)—Gooding Grange held a regular meeting and a Halloween costume party at the Odd Fellows hall Friday evening with Master Joel Brummett presiding for the business. Mrs. Emma Thornton took the obligation in the third and fourth degrees. It was announced that the home economics committee would serve at the J. A. Brummett sale. Plans were made for the annual pleasant picnic to be held on the next regular meeting date.

In behalf of the Grange Mrs. Frances Brummett presided and Mr. and Mrs. Gabe Beyer and J. A. Brummett. The Beyer family is leaving soon to live in Wisconsin and included the judging of the costumes of those present; all came in costume. Mr. and Mrs. William Bryan, who were dressed as a "hill billy" couple received first prize. Mr. and Mrs. Irving Robinson, dressed as a Japanese couple, Mr. Frank Amos as a Negro mummy and Bud Quigley as a devil, received honorable mention from the judges.

Mrs. K. T. Butler read a "Horse Story" and games were played under the direction of Mrs. Brummett.

NOT T. B. FOUND IN 800 'UP STUDENTS

MOSCOW, Oct. 28 (Special)—Not a single case of tuberculosis was found in 800 students at the University of Idaho this fall.

Physical examination revealed that 800 students, 400 of whom were predominantly healthy, included the usual percentage with other ailments and physical defects. Corrective measures are being taken to prevent the disease. A few are rechecked at regular intervals, warned to carry lighter loads, or occasionally urged to drop out of the university to regain their health.

Required entrance examinations for all students are the foundation upon which the university health fee which amounts to group health insurance for students are entitled to the services and facilities of a modern infirmary staffed by Dr. H. D. Cramer, physician-director, and graduate nurses, and a laboratory technician—all full time.

From September to June last year an average of 250 students a day were cared for at the infirmary. They were routine clinic calls for minor ailments and mishaps of every description, but also included a few serious cases, such as typhoid, diphtheria, and meningitis.

Naval Display Is Posted at School

Appropriately posted for Navy day Monday, the display of the Twin Falls high school displayed selections from a portfolio of historic paintings and prints, a story of the history of the navy and illustrations with descriptions of naval insignia and officer's and enlisted men's uniforms. The display also told of American naval uniforms being copied from those of the British navy.

"A Critical Moment," painting by Jurnell Pool, showed a U. S. World War escort vessel narrowly averting a collision with a troopship which it was conveying to France, "Constitution and Guerriere," by Thomas Birch, portrayed "Old Ironsides" under Captain Isaac Hull at the moment that she was sinking the crippled British frigate with broadsides during the first decisive naval action of the War of 1812 on Aug. 19, southeast of Halifax.

There were prints of vessels and merchant ships at the time when home ruled the world of the Spanish galleon, of a battleship of the early Civil War days, a warship of World War I, and a battleship of the present day.

Among illustrations of officers' uniforms were the white service uniform, the aviator's working dress, the admiral's dress uniform, the mess jacket and evening full dress party.

Chief petty officer's uniform featured the display of enlisted men's work, which also portrayed the sailor's work, the peasant, enlisted man's blue uniform for winter, the blue uniform for summer, the blue uniform for winter, the blue uniform for summer, the blue uniform for winter, the blue uniform for summer.

INCREASE SLATED FOR WPA QUOTA

BOISE, Oct. 28 (UP)—Idaho has been assigned a quota of 5,253 WPA workers during November, an increase of 355 over the October figure. State WPA Administrator Dean W. Miller announced today.

Miller said a large percentage of the 5,000 workers now assigned to WPA projects were in temporary private employment, but seasonal agricultural labor will be over within the next two weeks and it was anticipated requests for employment will utilize the increased November quota.

With a wage increase effective Nov. 1, November employment will require approximately \$25,000 for wages of project workers in the state.

The November quota will be divided as follows: 1,500 in the Pocatello district, 1,000 in the Boise district, 700 in the Lewiston district, and 1,050 in the Coeur d'Alene district.

Miller estimated that about 20 per cent of the total workers engaged will be assigned to national defense projects next month.

"Victory" Dinner Given at Rupert

RUPERT, Oct. 28 (Special)—Over 100 members of the local Baptist church, with the pastor Rev. Orville Johnson, joined in a "Victory" dinner and special program at the church Thursday evening.

The entire celebration of the completion of a remodeling and enlargement of the church edifice program, which, under the direction of Mr. Johnson, was begun over a year ago. The entire project is now complete and debt-free.

The dinner program consisted of a piano solo by Miss Roberta Culley; vocal solo, "Thanks Be to God," Miss Grace Ward accompanied by Mrs. Culley; vocal solo, "O Lord, Bless This Church," Cleve Turner, American Falls, with piano accompaniment by Mrs. Culley; prayer, Rev. W. P. H. Hartley, former pastor; address, Rev. H. D. Douglas, Salt Lake City, former pastor.

The program concluded with the burning of mortgages as the entire audience sang "God From Whom All Blessings Flow."

ASSAULT CHARGE AIMED AT UTAHN

WASHINGTON, Oct. 28 (UP)—Orman W. Ewing, former Democratic national committee member in Utah, got a preliminary hearing in police court today on a charge of attacking a 19-year-old government worker.

Ewing's accuser, who recently came here from Utah to accept a defense job with the OPM, told police she was sleeping in her first floor apartment about 2 a. m., Sunday, when a man she recognized as Ewing broke a chain lock on her door and sexually assaulted her.

After the girl told her story to police she was taken to Chandler hospital and examined by Dr. H. H. Stolar who reported that there was evidence she had been attacked.

Police then arrested Ewing and held him for a hearing today. Bond was set at \$5,000.

A member of Ewing's family described the charge as the "dirty blackmailing story that never was perpetrated."

Ewing is 33 and has been practicing law here for some time. He is the father of five children.

He is described in Who's Who in America as an oil man, a large western landowner and a lecturer on early western history. He won prominence in Utah and Wyoming where he was a railroad brakeman before entering the insurance and law business. He was elected to the Democratic national committee in 1932 and came here from Salt Lake City.

Ping-Pong Finals Slated by Nov. 7

Ping-pong tournament at the Twin Falls recreation center will be completed by Nov. 7, it was announced today by Mrs. Erna Guld, supervisor.

Play in the tournament goes forward in the evening, Wednesday and Friday nights at the recreation center under the direction of W. Barnett, meet director. Barnett points out that at the present time "A Love-Land" is in final play. Mrs. Frances McDonald is second and Robert McDonald is third.

Materials in the 1942 Mercury cars are the result of a research and development program of the Ford Motor Company. It has enabled the factory to have top-quality, light weight materials ready for the Mercury car along "aviation engineered" lines.—Adv.

Hobo Party Given At Rupert Church

RUPERT, Oct. 28 (Special)—In a realistic hobo "jungle" setting, complete with hobo camp fire, and further embellished with Halloween decorations, 25 members of the Christian Endeavor societies of the local Christian church gathered in the church annex Friday evening in a hobo convention. The program consisted of a hobo amateur radio hour, games, group singing, stories and various stunts.

With Margaret Carpenter and Lynn Carpenter as judges first prize for best costumes were awarded to Kathryn Kohler and Basil Tramm.

After the evening concluded with a hobo "milk collection" and "eat" all assembled by the "hoboes."
