

GROUP OF GOP MEMBERS SEEKS TO OUST WENDELL WILLKIE

'40 PRESIDENTIAL NOMINEE DRAWS FIRE OF LEADERS

By LYLE C. WILSON
WASHINGTON, Nov. 3 (UP)—A group of congressional Republicans is organizing today in an effort to oust Wendell L. Willkie, last year's G.O.P. presidential nominee, out of the party.

About half a dozen isolationist members of the house have taken the initiative in the anti-Willkie movement but they claim that ultimately they will have the support of 80 per cent of house Republicans.

Over the week-end in Indiana, one Indiana senator and four Republican Indiana congressmen tried the first formal anti-Willkie shot by pledging opposition to the administration's effort to involve this country in an undeclared war.

The party's standard bearer of peace, Anti-Willkie Move.

This was a significant anti-Willkie move inasmuch as one of the signers of the joint pledge was Rep. Charles A. Halleck who nominated Willkie for the presidential nomination at the Republican convention in 1940.

Other signers were Sen. Raymond E. Willis, senior G.O.P. legislator from Indiana, and Reps. Forrest A. Hatcher, Noble J. Johnson and Gerald W. Landis. The five comprise a majority of Indiana's representation in congress.

Among promoters of the anti-Willkie movement, at least feeling is bitter. It is comparable in intensity to anger in which Sen. Burton K. Wheeler, D. Mont., and Sen. Bennett Champ Clark, D. Mo., and Rep. Charles McNary, R. Ind., have repudiated the leadership of President Roosevelt on foreign policy.

London Boom on
It had been noted here, that as Willkie's support of Mr. Roosevelt's foreign policies became more vigorous and effective, Al M. Landon of Kansas, the 1936 Republican presidential candidate, has been increasingly outspoken in criticism of administration moves. Any repudiation of Willkie would tend to focus Landon more sharply in the party picture.

But what the anti-Willkie group in congress wants to do is make Rep. Joseph W. Martin, Jr. R. Mass., the party spokesman. Martin, Republican leader of the house and also chairman of the Republican national committee, for which job he was hand-picked by Willkie last June.

Publicity Director Charles Mitchell, son of the Democratic national committee, devoted his weekly newsletter to Landon and asserted the latter's current criticism of Mr. Roosevelt forebodes a 1944 election boom.

YOUTH CONFESSES EASTERN SLAYING

SALT LAKE CITY, Nov. 3 (UP)—Harold J. Elling, 19, formerly of Billings, Mont., today was on his way back to New York to face trial for murder of a man he confessed shooting "to put him out of his misery."

Elling was arrested here as a car prowler and identified as a suspect in the murder Oct. 8 near Birmingham, N. Y., of Paul Skaritz through his fingerprints.

When three New York state police officers arrived here, Elling confessed shooting Skaritz after hitching a ride with him, taking his wallet, to find it contained only \$3, hitting him over the head and knocking him to the ground.

"When he slumped to the ground," officers quoted Elling as describing the murder, "he began to moan. I decided to put him out of his misery so I put a gun to his temple and pulled the trigger."

As his accomplice in the crime, Elling named John Bender, 19, Rochester, N. Y., already in jail in Birmingham. They split up after the murder, Bender staying in the east and Elling stealing a car in Chicago to come west.

Bender Mountain, also in custody here, has admitted stealing the car with Elling but denied a part in the murder. Mountain, Salt Lake detectives said, will be returned to New York state as a parole violator. Both also face federal Dyer act charges.

POTATO HARVEST NEARLY FINISHED

JEROME, Nov. 3 (Special)—The potato harvesting being done in this county is estimated to be nearly 90 per cent completed, and at the outset of the season, a large number of high school youths were dismissed from classes to assist in the work. There were 98 students who were registered at the employment office to help.

Sugar beet harvesting is almost half way finished with approximately 50 per cent of the 3,000 acres of beets out of the ground.

Although still somewhat uncertain, there are some 2,000 beet workers who are employed in this section of the country in the beet harvesting. Farmers can use additional laborers at this time if the harvesting is to be completed on schedule.

BATTLE LOOMING ON 'OLEO' DRIVE

Battling what has been termed "a punch below the belt" to Idaho dairymen, the state "Farm Bureau" is doing everything possible to support the dairy industry in the emergency caused by federal boycotting of oleomargarine. President H. H. Day, Murtaugh, said this afternoon.

Day's statement followed advice sent by the federal attorney, Alfred C. Gordon, Portland, to C. W. Ross, Burley manager for the Jerome Cooperative Creamery.

The Idaho State Grange and practically all Pomona and subordinate units are already on record with strong opposition to the federal "oleo" propaganda. Renewed boycotting of oleomargarine has aroused high resentment among south Idaho dairymen. The consumer's council and the federal administrator have inaugurated a campaign to convince the public that "oleo" is equal if not superior to butter in food value.

Cites Haber

Day's quoted Gordon's reply to Mr. Ross: "Did anyone ever hear that healthy baby oil can be raised on oleomargarine as well as on dairy products?"

The federal chief pointed out that only "united and determined effort" by all dairymen and farm organizations will save the industry in the crisis which will follow the present war emergency.

Baking Spuds Gift Planned For Soldiers

If you've got any potatoes—and want to give the 11th engineers at Fort Lewis a Thanksgiving treat—here's your chance.

Plans were underway today to send the entire 11th engineers regiment, including Buhi, Twin Falls and Burley units, as many Idaho-baking potatoes as are donated by Nov. 15. Mayor Joe Kociler said that any youth Idahoans with sons or relatives at Fort Lewis are urged to contribute "spuds" to the shipment which will leave here in time to reach the soldiers by Thanksgiving, Nov. 20.

There won't be any limit on the amount of spuds acceptable, he said. The regiment can use all we send," according to Kociler.

Potatoes can be taken to the Bacon warehouse in Twin Falls, and if not already graded, they will leave here in time to reach the soldiers by Thanksgiving, Nov. 20.

The population of Montana, in 1940, was 554,136, as compared to 537,696 in 1930.
