

JAPS PUSH TWO-WAY OFFENSIVE AGAINST SINGAPORE

BRITISH RETREAT AS INVASION UNIT CONTINUES GAINS

SINGAPORE, Dec. 16 (AP)—Official reports today said that Japanese troops based on the island of Sumatra are developing a powerful two-way offensive, northward into the British Malaya and southward against the British resistance into the Malay states approaches to Singapore.

Heavy fighting was reported from the northwest corner of Kedah, just south of the Thailand frontier. There Japanese were driving toward the railroad and highway from Singora with the apparent intention of cutting off British secondary forces here on the air force.

The British, a communique admitted, are falling back in Kedah, but the main imperial defense forces have not yet followed them.

A second Japanese southward drive was reported from the highway through Kelantan from Kota Bharu, strategic northern airbase used by the Japanese in the initial stages of the campaign.

To the north the hard-fighting imperial garrison at Hong Kong was strongly defended on the inner defense lines of the island metropolis. The Japanese were shelling Hong Kong from the Rowloon shore, but all reports indicated that the British forces there are prepared for a last-ditch fight.

BOOM CONTINUES FOR RECRUITERS

Young men today continued to report to local recruiting stations for enlistment in the armed services.

At the city hall Denver E. Kelly, 21, 427 Third avenue north, was tentatively accepted for army duty with the air corps at Jefferson barracks, Mo., Sgt. Frank Morris said. Kelly is a son of Mr. and Mrs. Tolley H. Kelly.

At the same time C. A. Edmonson, navy recruiter with headquarters in the postoffice, said that two more men had been tentatively accepted through that office. They are Dallas R. Coombes, 20, Richfield, and Lester J. Reese, 18, Bull.

Coombes was honorably discharged from the navy three years ago and is receiving a \$1000 bonus. Reese probably enter as a second class machinist's mate. Reese agreed up for two years in the navy and will probably enter as a second class machinist's mate.

Navy figures show that 20 men have been tentatively accepted for enlistment in the navy.

All local recruiting stations, including that of the marine corps, which is located at the postoffice, are now open all day and in the evenings every day including Sunday.

Seen Today

Small boy brought into police station by officer, and small dog being tried. The dog wouldn't leave boy's side, either. Chief Howard Gillette advised that the boy's father took the dog to the police station. The dog was brought to the station by the boy's father. The dog was brought to the station by the boy's father.

Youths Escape Although Car Does Leap Act

Although their auto smoldered "leaping Lena" with a vengeance, four Hansen youths escaped serious injuries in a car crash. The car was reported at old Rock Creek village.

The machine, driven by Frank Vernon Hills, 15, route 2, Hansen, went out of control on the gravel road over a culvert, according to the police. The car was seen to leap a distance of 20 feet, uprooted a small tree at the side of the road, averaged 75 m.p.h. in a westerly direction across the road, and sheared off two large cedar posts at a corral.

The car did not turn over. Hills, his brother Paul and Archie Turner sustained only slight bruises. Eldon Hills, who suffered a broken arm, received treatment at the office of a Kimberly physician.

Last Rites Held For Mrs. Sparks

CASTLEFORD, Dec. 16 (Special)—Last rites for Mrs. Florence Sparks, 50, who died at her home in Hills, 15, route 2, Hansen, on Monday, were held at the Evans and Johnson funeral home chapel in Bull Thursday.

Rev. Isaac Reid and Rev. Logan Vining, retired Baptist ministers of Castleford, officiated.

Survivors include Mrs. Arthur Brown, Mrs. Claude Shrum, W. P. Smith and B. W. Williams, sons of the late Mrs. Sparks, and her daughters, Kathleen Byrne, Idaho Falls, and Mrs. Evelyn McCampbell, Cheshyre, Wyo.

Steer Slain After Crash With Auto

Nobody knew exactly today why a yearling whitehead steer was wandering through the streets of Twin Falls, but the animal was dead today and a Jerome man had found the dead end of the steer.

Driver of the machine was Fred Gerike, route two, Jerome. His auto rammed the yearling at 6:15 p. m. Saturday on the highway a mile and a half north of Washington school.

State Officer V. K. Barron said a saleyard tag on the animal showed it had been sold to Lord Goodrich, Jerome, perhaps indicating the yearling might have jumped out of Goodrich's trailer. The animal was so severely hurt that the officer dispatched it to end its suffering.

Beef production in the United States is estimated to 28,000,000 pounds in 1939.

PHYSICAL EXAMS ARE SLATED HERE

Preliminary physical examinations for those seeking enlistment in the navy will, in the future, be given by Frank C. Pack, pharmacist's mate, C. A. Edmonson, head recruiter, said today.

Pack, who served with the navy in World war I, enlisted through the Salt Lake City office on Dec. 11. He went through a brief training course before being stationed at the Twin Falls office.

His arrival brings to three the men stationed here and within a short time a yeoman (stenographer) is to be stationed here, Edmonson said.

POLICE HUNT FOR STOLEN '35 CAR

Police and sheriff's officers today were on the alert for a 1935 Ford sedan which was stolen from a parking place in the 200 block of Second avenue south early this morning.

The machine, belonging to Fred Brown, route one, Jerome, was seen sometime between 2:30 a. m. and 4:45 a. m. by the police. The car was being driven by a man wearing glasses 95-3042. The radiator was damaged after the car was parked by the owner, the police report shows.

BOY INJURED IN AUTO-BIKE CRASH

A 15-year-old Hansen boy was slightly injured Sunday afternoon in a bicycle accident in front of the A. F. Durr potato cellar in Hansen. State Officer V. K. Barron said this afternoon.

The boy is Joseph Richard Norman. He was taken to the Twin Falls county hospital but was released some time after treatment for facial lacerations.

Driver of the auto involved was Charles Paul Johansson, 18, Athena. One investigation showed that young Norman apparently swung in front of the auto on his way to the spur cellar, where his father was at work, according to the officer.

The boy's bicycle was smashed and the front of the auto was damaged slightly.

Although Johansson's head crashed through the windshield of his machine, he escaped with minor bruises. Difficult surgery was done. With Johansson were his two sisters.

Keep the White Flag of Safety Flying

Flying fortresses destroyed on the ground were not concealed, and why the warplane was so close to the ground was not known. The pilot was killed. They want to know how it was possible for an enemy carrier to sneak for a week to the coast harbor without being detected by the air and water patrol which is supposed to keep "liberal" day and night.

Usual explanation offered is that the officers in command suffered from a case of over-confidence; that they never expected the enemy to have the audacity to attempt to bomb the forts, airfield, barracks and navy at Pearl harbor; that they supposed the Japanese attack would be made on the Philippines, but not Pearl harbor. Congress is determined to find out why the navy was so lax in its patrol of the air sea.

Included in the inquiry is, what was the matter with naval intelligence that organization is supposed to have agents everywhere, yet no reports were received of the impending attack, and the warplane congressmen would like light on how many enemy planes could sneak inland on the Pacific coast in the vicinity of industrial sections, getting inside the barrier extending from the coast to the mountains. The investigation has always allowed could not be penetrated. Congress wants to know.

Something worth thinking about

The start your child gets means a lot toward whether he will grow up into a strong, healthy adult. Plenty of sunshine, the proper diet, and food that is wholesome, all are strong determining factors. If your child doesn't seem as robust as he might be, consult your doctor. But if he's already strong and healthy, make sure he stays that way. Put him on the right road toward keeping this nation a strong democracy.

"Enriched" BUTTER-KRUST Bread provides food elements vital to growing children.

In keeping with this national objective, the Committee on Food and Nutrition of the National Research Council, has endorsed a simple method of providing food elements that are too often lacking, by including them in bread. As a result the bakers of BUTTER-KRUST were quick to "enrich" their bread according to these scientific specifications, calling for Vitamin B1, iron and other vital ingredients. So sure your children are getting sufficient amounts of these important food vitamins. Feed them BUTTER-KRUST "Enriched" Bread regularly.

● SERIAL STORY
LADY BY REQUEST
BY HELEN R. WOODWARD
"THE STORY: The climax of many chapters closed at Diana Curt by her marriage to Stephen. She returned to her home town, Idaho, to a meeting between Diana and her father, Mr. Stephen. Stephen had a great deal to say to her, but she was not listening. She was thinking of the man who had been with her in the hospital, the man who had been with her in the hospital, the man who had been with her in the hospital.

shrank back against Richard Thorpe.
But Stephen's eyes were on Diana's face—a face flooded with blinding radiance—incapacitatingly joyful to certainty—doubt to joyful realization. And just as he had spoken once before, he said, "Diana, my beloved—" and held out his arms.
With a little cry, she flung herself into them, felt them close around her strong and brave, comforting. Felt his lips, hungry, demanding, passionate, claim her own eager ones. They clung together, those two whom time and space and a threatening eternity had not been able to part, and something of the magnificence of the moment thrilled the heart of each spectator.

HOLD EVERYTHING
"Good morning, gentlemen—at the sound of the musical notes it will be exactly 5:45."
EDEN
Mr. and Mrs. Carl Stephens are here from Hermiston, Ore., where they have spent the past several months. Mr. Stephens has been employed in defense work there. Betty Lou Black, daughter of Mr. and Mrs. E. H. Almy, returned to her home here Wednesday from Portland, Ore., where she has been patient in a children's hospital for the past several weeks.

We Have Our Jobs—Let's Do Them
It is difficult to take eyes and ears for a single moment from the far Pacific where American men and women are carrying on the fight of every one of us.
Yet to every man and woman a task is given in this war. Ultimate success depends not only on what the men in the service do, but on what we do at home. The task, the job at home, is without the thrill that goes with military service, without its glamor born of intimacy with danger. Even the home jobs may yet taste that acquaintance with death, as they have in Britain and in many other countries, where once the war came home, civilian life proved as dangerous as military.

A OBST RETURNING?
CHAPTER XXIV
THE room hung breathless with stillness, then Evelyn threw up her head and faced them. "I'm glad, Richard! If you've been a part of this dishonest plot against my dear Diana, then you deserve nothing better than a miserable, vindictive person like Adela to share your life! I wish you both the happiest you deserve!"
This speech, coming from the gentle Evelyn, had the effect of compelling complete silence. Then the officer, growing wither with impatience, turned once more to Diana.

TH short time the news of Diana when Curt's return would be spread across the headlines of a nation—how a tramp steamer had picked up the remnants of the party far off the regular paths of ships. How he insisted on being flown directly home unannounced, his fabulous rescue kept secret from the world until he had first held his wife in his arms.
But now the man who was to figure as the hero of that amazing story held Diana close against his breast and in that moment all the strangeness and doubt of the last few weeks were swept away.

GLENN'S FERRY
Burley Group Has Christmas Party
Walter C. White, who has been manager of the King Hill Irrigation district the past year, has tendered his resignation to the district director. He expects to move his family back to Vale, Ore., and take over the position of manager of the irrigation district there next year, when which position he held before coming to King Hill.

The first duty of every man, woman, and child, is to do his or her job better than ever before, right up to limit of ability. Not only the direct defense jobs in factory or shipyard, but every job, for in a total effort every job is important.
That is first, but there are other duties on the home front without which the outer fronts cannot succeed. The time is past when to buy defense bonds and stamps was merely laudable. It is now a duty. Every American with income above the level of decent living owes it to his country to lend that money to the prosecution of the war—by regularly buying savings bonds or stamps each week. The greater percentage of war finance needs are met by direct loans and taxes; the better chance to avoid financial collapse after the war.

Letter to Santy Claws
Dear Santy Claws:
It is only the good little boys who are present from you. I should have anyway two presents each. That's how good we have been during a very trying year.
We don't presents each Santy, all we want is one present divided between the five of us. So Santy Claws please, from you, I would like to see you with a wand which all we got to do with it is to wave it in front of conscientious objectors who are aint conscientious objectors no more.

Helping Hand Club: Afternoon entertainment was provided by two entertainers given by Mrs. H. J. Wright and Mrs. Edith Clevenger, and by competitive games. Prize in the games went to Mrs. Wright.

The American Red Cross is launching a \$50,000,000 war relief fund. Every American man, woman and child should be a member of the Red Cross, and if possible should contribute something to its work. Great relief burdens may fall on it at any moment, due to moving civilian populations. However terrible the attacks on Hawaii and the Philippines may have been, they were less so because the Red Cross was on hand and ready to mitigate the suffering.

It is easy, and fun to boot, simply to sit back and do a lot of amateur master-minding on the war's strategic phases.
It is hard, and distinctly less stimulating, to buckle in and do the job at hand.
In just this tight-lipped and relentless effort, however, lies ultimate victory.

The Governor Disapproves
Governor Talmadge of Georgia has refused to pardon or parole the six floggers for whom his prison and parole board had refused to recommend clemency.
We believe the governor is right in this refusal, which came in spite of a brief flirtation with Pauline ethics which led some to believe the gubernatorial imprimatur was about to be placed on flogging and terrorism. Georgia and the whole country are to be congratulated.

Christmas Theme For Senior Ball
GOODING, Dec. 16 (Special)—Senior ball, annual event of the high school, was held Friday evening in the junior high school gymnasium. The Christmas theme was carried out in decorations, carried out by the military band from Gooding field at Boise.
The decorations in the center of the gym with plants arranged from the tree to the center of the gym, were in charge of Mrs. E. J. Peterson, class president, and Miss Lois Stone, the grand march which opened the ball.

Helping Relievers to Help Themselves
A large percentage of the people now on relief are unable to work. But not all of them. As the nation approaches total mobilization of its manpower and a possible shortage of labor, it becomes desirable to help all relief clients to get jobs whenever possible.
Minneapolis is one city making a scientific effort to achieve this, according to the American public welfare association. More than 600 relief clients have taken tests in the vocational guidance clinic set up through the city relief administration and WPA. And of those 600, one of every three has been placed in a steady job. That means 200 families off the relief rolls, and saving to the city \$6,000 a month. The work was started a year ago, and by uncovering aptitudes was opened the way for job-training even for those who had been deemed unemployable.

ALL STATE WILL JOIN BOND PARTY

BOISE, Dec. 16 (Special)—The whole state of Idaho will play Santa Claus to that grand old man, Uncle Sam, on Dec. 22, in plans announced here today by the state defense saving committee and the State Junior Chamber of Commerce.

"Let's give this grand old boy the finest Christmas gift within our power to bestow—a huge package of defense savings bonds," said John Schenck, executive chairman of the state defense savings committee. "This is one Christmas present we can afford to dig deep into the jeans for."

In a program designed to open today in all sections of the state through service clubs, women's organizations, fraternal groups and other forms, Idaho is being urged to buy and buy and buy bonds for defense.

County defense savings committees have received instructions from John R. Wiley, state administrator, to establish bond sales committees and places to sell bonds, and to "step them up in the boiler" until Dec. 22, final day of the movement in this Santa Claus special.

County chairmen are to call upon all sub-committee chiefs at once and outline to them a general plan of intense selling. Applications will be taken and the money turned over to the postmasters in the communities where these activities take place. The bonds will be delivered to the owners by registered mail.

In the meantime, the State Junior Chamber of Commerce addressed a plea to all its affiliated chambers to "go to work without further instructions," and help the state administration put over the party.

"Don't wait until you hear from me," said William Galloway, state chairman of the defense committee of the Junior Chamber of Commerce, "but go ahead on your own initiative, and we know you will, and put this Christmas party for Uncle Sam in the record as Idaho's greatest effort thus far in a war that was forced upon us by a savage attack of barbarians. We've got to lick 'em—and we've got to keep the airplane flying and the tanks rolling. Dollars piled upon dollars for defense bonds will furnish Uncle Sam with the funds he needs. Our boys will get the guns and ammunition and our foes will get smothered under a pile of defense bonds."

At the December board of review of the Boy Scouts the following Gooding Scouts passed tests: Eddie Ryan and Jimmie Farmer, second class tests; Ralph Lucke and Glenn Demery, signaling, second class; Frank Cramblet, merit badge in reading; Jimmy Raby, first class first aid; Elsworth Clark, second class first aid. The board of review was under the direction of Joe McFadden.

On Thursday a recognition assembly was held at the Gooding high school in honor of the boys who played football during the past season. Coach Mack Saunders introduced the boys who earned their letters and gave special mention to the players who were named to the team.

Key dinner was served to 18 officers and one guest, Mrs. Hazel Rhoads. Contract bridge was played during the evening with prizes being won by Mrs. Elva Meeks and Mrs. Rhoads.

GOODING

Gooding schools will dismiss Tuesday, Dec. 23 for the Christmas holidays and will re-convene on Monday, Jan. 3. On Tuesday at 1:30 p. m. school will be dismissed for all of the students to attend the annual free movie given by the Schubert theater after which treats will be given to all by the Senior Chamber of Commerce.

An original play "The Way of Democracy" was presented by children of the sixth grade of Miss Leona Friedrich's room at the junior high school Friday. The students wrote the three-act play as a part of their study of democracy and the school Rotary club had as their guests at the meeting held last week farmers of the community. Speaker was Dr. Ralph E. Gale, who spoke on the emergency program. As an entertainment feature the grade school lamberts from Jerome, with Miss Helen Mitchell instructor, put on a program of stunts. Koepfen's old-time orchestra provided music for the evening. Walt Fraher, son of Mr. and Mrs. Van Fraher, west Gooding, was recipient of a 17-jevel gold watch which he earned for his several years of outstanding 4-H club work. The presentation was made by Ernest J. Palmer, county agent.

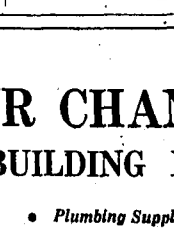

Gooding Women's Christian Temperance union met Thursday at the home of Mrs. E. G. Randolph with Mrs. J. V. Bunsamer as assistant hostess. Mrs. Ina Rogers led the devotional period and Mrs. Anson Thompson was in charge of the lesson study. The group voted to see one day a month for the Red Cross and also voted to begin regular meetings at 2 p. m. The next meeting will be Jan. 8.

Dr. James O. Cromwell, formerly of Gooding, now stationed at the Barnes Base hospital, Vancouver, Wash., has received a promotion to the rank of a captain in the army, according to word received by his father, Dr. J. H. Cromwell, Gooding.

YOUR CHANCE FOR BUILDING NEEDS

- Plumbing Supplies
- Electrical Supplies
- Pumps and Hardware

Our stocks are still fairly complete, but due to the defense requirements we are suggesting that you buy your building materials now. In cooperation with the defense program we anticipate switching over to a repair business only for the duration of the present conflict.

This means that our retail and wholesale business will be almost discontinued with only a few absolutely essential stocks to be sold.

If you have already started a building project or need immediate repairs or replacement in electrical, plumbing or pumps and hardware lines, get them at once.

Remember—Krenzel's shop will continue in business and plans to have adequate material on hand to weld or repair farm machinery and other essential machines.

SPORTS

ARMY ENDS RACING SEASON FOR BAY MEADOWS IS ORDERED CANCELLED

By PAUL SCHEFFELS
United Press Staff Correspondent
A swift succession of military mandates today promised the extinction of all west coast traditional sports events for the duration but backers of annual sports classics planned to carry on at new locations meeting with army approval.

Orders by Lieut. Gen. DeWitt, in the interest of national defense, cancelled—as far as Californians are concerned—the Rose bowl and Shrine East-West football games scheduled for Pasadena and San Francisco, respectively, the rich Santa Anita racing meet, scheduled to start Dec. 31, at Bay Meadows racing meet at San Mateo listed for next spring, and the annual All-Star football game at Los Angeles on New Year's day between the National league's pro champion and an All-Star aggregation.

The San Francisco \$5,000 Open golf tournament, previously cancelled, was reinstated today when its sponsor, the Junior Chamber of Commerce, was informed that the army had "no present objection" to its being played Jan. 21-25. The fate of three other tournaments, the \$10,000 Los Angeles Open on Jan. 9-12, the \$5,000 Oakland Open on Jan. 15-18 and the \$5,000 Bing Crosby Amateur Pro is undetermined.

Bowl tilt to Durham
The Rose bowl, first big event to feel the army's austerities, was cancelled by the coast officials and everything will be the same but the weather. "If you forget the possibility of snow," said Frank A. Pierson, secretary of the Durham Chamber of Commerce, "the weather will be California."

The Shrine charity classic considered bids from several cities including New Orleans, Norman, Okla., Denver, Philadelphia, Spokane, and Chicago. The game had been played in San Francisco 16 years.

Santa Anita shocked
Santa Anita greeted the suspension of the annual Santa Anita regatta for the eighth running of the \$100,000 Santa Anita handicap—with W. L. Brant's Chalcedon and C. S. Howard's Knight topping the list at 130 pounds but had been announced only Monday. Nominations for the \$500 Santa Anita derby, scheduled for Feb. 25, were to have been announced Friday.

The remaining bowl games apparently are free from possible suspension.
Fordham was rated as 7-5 choice over Missouri in the Sugar bowl at New Orleans, Oregon slumped to a 6-6 edge over Texas Christian in the Orange bowl at Miami, Texas, A. M. retained a 1-2 favorite to romp Alabama in the Cotton bowl at Dallas and the Tulsa-Texas Tech Sun Bowl battle at El Paso, Tex., was listed as a "lock-up."

Minnesota's Record, Wave of Upsets Feature '41 National Grid Picture

By JACK GUENTHER
NEW YORK, Dec. 16 (U.P.)—The return of Minnesota to the mythical national championship, the revival of the Army and Navy as major powers and five defeats for the national champion in college football—these are the highlights of the 1941 season.
The Golden Gridders, heading the list with second straight undefeated records, swept the national title in 1941, having outscored the United Press champion, the Rose Bowl game, 35-0.
The Army, which had been beaten twice, the Texas Aggie wrapped up the southwest title for the third straight year although crushed 23-0 by Texas, and returned to the Cotton bowl to represent the conference.
The Navy's conference lapse, Missouri returned to top as champion of the Big Six and was invited to meet Fordham in the Sugar bowl. Utah was called to oppose Texas A. & M. in the Cotton bowl.
Regional strength centered in the south, Mississippi State replaced Tennessee as Southeastern conference champion but Georgia's Bulldogs, although defeated, were invited to the Orange bowl in Texas. Texas Christian and another Southern team, Air Force, were invited to meet Texas A. & M. in the Cotton bowl.
Regional strength centered in the north, Notre Dame, Michigan, Ohio State and Northwestern were cul-

BURLEY, Dec. 16 (Special)—A powerful last-night rally last night brought a 38-28 victory to the Burley Elks over the invading Twin Falls Elks club in a Southern Idaho Outlaw league encounter.
After trailing 18-16 at the half-time, St. Anderson and Lovel Turner worked to click the Elks, eventually led the Elks to victory. Each scored 14 points during the engagement but were big guns in the Burley show.

During the first half Coxy Carlson and Ray Wells had been the stand-outs for the Coca Cola club, but they faded in the last half—as did the full squad, which was playing its first game of the season today.

However, the tilt was the first for the Burley aggregation, too, and both teams tried the late stages of the hard-fought contest.
Next game on the local schedule sends the Elks to Rupert on Wednesday.

JOBS AS SEAMEN AWAIT IDAHOANS

The Idaho state employment service, through the bureau of employment security, has been requested by the United States maritime service to assist in locating applicants to be enrolled as apprentice seamen. W. Clyde Williams, local office manager, said here today.

Upon the satisfactory completion of the training period, these enrollees will be employed as seamen in the merchant marine which is being expanded by the addition of 1,200 new vessels under a program which calls for completion by the end of 1943. At the present time approximately 50 vessels are being commissioned each month.

Applications are available at the employment office here together with information booklets. Similar information is available at the Bureau and Jerome offices.

YOUTH PROMOTED AT PLANE PLANT

Wayne Minnick, former Twin Falls resident and son of Mr. and Mrs. W. A. Minnick, Blue Lakes boulevard, has been promoted to pre-flight crew chief at the present time, the youths coming here from England for the training. Among the new students is the only son of England's air minister, he wrote.

NO SHORTAGE ON U. S. OIL SUPPLY

WASHINGTON, Dec. 16 (U.P.)—Secretary of the Interior Harold I. Ickes asserted today that no immediate shortage of petroleum sources exists, the United States can, in an emergency, begin "full-scale" production of oil and related products from coal.

In his annual report to President Roosevelt, he said that the production of the bureau of mines in obtaining petroleum products from coal in a hydrogenation process indicate that commercial production could be started at any time natural resources show signs of depletion.

Ickes said the world oil conflict has "opened our eyes as never before to the extent and the possibilities of America's resources" and that the nation has been able to turn to its natural heritage and in the wealth of minerals, water power, grazing land and timber to find the vital necessities for constructing defenses.

"The development of hydro-electric power in the west has been speeded in order that the nation may fulfill its function as the arsenal of democracy."

HERO

WASHINGTON, Dec. 16 (U.P.)—The dying captain of a battleship displayed the outstanding American heroism of the Japanese attack on Pearl Harbor, Secretary Frank Knox said yesterday.

"As he emerged from the conning tower to the bridge, the water to fight his ship, his stomach was laid completely open by a shrapnel burst," Knox said.

He fell to the deck, refusing to be carried to safety, he continued to direct the action. When the bridges became blazing inferno, two officers attempted to remove him. But he ordered them to abandon him and save themselves. The latter found themselves blocked by the flames.

Only the heroic efforts of a third officer enabled them to rescue him. He climbed through the fire to a higher level from which he passed on the line to an adjoining battleship, to direct the fire to the trapped ships. By this feat means they made their way to safety.

Insurance Group Helps Bond Sale

Cooperation of all underwriters in the sale of defense bonds and stamps was discussed and pledged by all members who attended the luncheon meeting of the Southern Idaho Life Underwriters' association Saturday at the Park hotel.

Dale Baker, president, Burley, presided, and 11 members were present. Kent Trolack was elected secretary to fill out the unexpired term of Duane Bingham, resigned.

Plans were made for 1942, and the next meeting was set for Jan. 10.

Former Worker on Wake Isle Wishes He Was Still There

BOISE, Dec. 16 (U.P.)—Construction workers on Wake Island are undoubtedly fighting shoulder to shoulder with U. S. Marines now defending the "Alamo" of the Pacific, Carl Turley, Boise, who recently returned from the island, reported today.

Preparations were made months ago for workers on the island to fill out the unexpired term of Duane Bingham, resigned.

Turley was forced to return to the mainland to recover from an appendicitis.

"I would give anything in the world to be there now," he declared.

Glenns Ferry Railmen Plan Bond-Buying With Back Pay

GLENN'S FERRY, Dec. 16 (Special)—"Keep our freedom with back pay," but U. S. bonds without delay," is the slogan of a group of Glenn's Ferry railroad employees who have started a drive among members of the railroad fraternal here to invest a part, at least, of their contemplated back pay in U. S. bonds.

The employees were granted an increase in pay a few weeks ago, retroactive to Sept. 1 of this year. Interrelated state there will be several thousand dollars received by local employees, and it is known quite a number here who expect to help Uncle Sam, at the same time, investing in securities that will be available when and if needed.

A luncheon meeting was held Saturday noon by representatives of the railroads and Glenn's Ferry defense savings committee, when the latter offered all cooperation possible in the movement which started here and which it is expected will be carried into other railroad divisions. With America at the war and the country needing funds as it never has before, Glenn's Ferry people are going "all out" to do their part.

The numerous way in which citizens can help, some of which are already in practice, Glenn's Ferry, include the giving of stamps and bonds as prizes at various functions; organizations can invest some of their funds in bonds as securities; stamps and bonds make excellent Christmas and birthday gifts. Postmaster H. H. Tate states a large number of bonds has already been purchased and sent on the way as Christmas gifts.

Glenn's Ferry is rapidly helping its stride in its efforts to help defeat the axis powers.

STATE SALVAGE UNITS PLANNED

WASHINGTON, Dec. 16 (U.P.)—Defense officials today buckled down to the task of encouraging war-conscious Americans to dig waste paper, rags, metals and old rubber out of homes, shops, farms, factories and city dumps for war production. Appealing for every American to join in a "salvage for victory campaign," the OPM's bureau of industrial conservation said every pound of salvagable material was needed to wage war against the axis.

"The sudden and drastic change in the whole program of scarce materials brought on by Japan's attack," the bureau declared, "now demands immediate action."

Bureau officials said state and local salvage committees will be set up in all the 48 states. They warned that it will be some time, however, until facilities for collection and transportation of the waste materials can be set up.

Waste materials needed for war production include clean rags, all types of waste paper and cardboard scrap from steel, zinc, copper, aluminum, brass, tin, old tires and inner-tubes as well as other rubber articles and all metals. Because the need varies by areas, officials said that citizens desiring to aid the campaign should contact local junk dealers or charities to determine the materials and quantities needed.

City's Heads Shape Plans For War Emergency Here

O. H. Coleman, city commissioner of health and safety, last night told other members of the city council that "things have shaped up pretty good" in the matter of providing for any emergency which may come to Twin Falls during the present hostilities.

Coleman revealed for the first time "possibility" exists that arrest of some aliens, including Japanese, Germans and others, may be made before very long. He did not indicate whether he had any information or in Twin Falls proper but his statement was made to show that "police are on their toes."

Coleman announced that 40 members of the Twin Falls Junior Chamber of Commerce will be designated for emergency police and fire duty. Under present plans the names, addresses and telephone numbers of members will be filed at the police station and the names of a similar number at the fire station. They will be subject to call any hour of the day or night in an emergency. Subject of a warning signal in case of the approval of such plans was also discussed and in a whole probably a special signal, a whistle operated under compressed air, will be installed on the new city barn. The present siren would continue to be used for fire alarms with the special whistle blown only as an emergency warning.

Separate Fire Equipment

Coleman also said that plans were being worked out for separation of local fire equipment in case this area was bombed.

"It sounds remote but it could happen and if a bomb should drop on the city fire station we don't want all our equipment there where it would be put out of commission. In case of a raid the three city trucks would probably be moved to separate sections of the city. Chances are that all three would not be damaged at the same time under those conditions."

Action was taken last night warning all local and visiting pilots not to fly over the city except on the filter tent. Both of these strategic sites are south of the city in a direct line between the community and the airport. Maynard Craig, airport manager, will post warnings at the field.

Medical Precautions

The commissioner also announced that in planning a local set up which would see emergency quarters established, complete with beds and equipment. A certain number of local persons will be trained in first aid and many samples of blood will be taken among citizens to be classified in order that they will be immediately available for transfusions should these be needed.

In the meantime several local physicians, headed by Dr. H. L. Shove, will be subject to emergency call at any time. This system will remain in operation until the emergency quarters have been set up.

While most of the council discussion last night concerned the war and protection for local citizens, commissioners did get some other business transacted. Jeff Swim and Bert Sweet were named new members of the zoning commission, succeeding Thomas M. Robertson, sr., and the late Burton E. Morse.

Regular bills were approved on motion of Finance Commissioner Lionel A. Dean.
