Japs Increase Fury of Attack

BOMBER WAVES HURL SHELLS AT BATAAN TROOPS

By HARRISON SALISBURY WASHINGTON, Jan. 16 (U.P.)—Special Japanese shock troops, dive bombers and attack planes are being hurled against Gen. Douglas MacArthur's Bataan perimeter lines in "incessant" attacks, the war department reported today.

The communique indicated that the Japanese assault has hit a new peak of fury. It did not indicate how well the American and Filipino forces are standing up under the furious assault.

MacArthur's report indicated that the Japanese attack may be the most deadly of the war. "Enemy shock troops with special training are attempting aggressive infiltration said the communique. "Attack planes and dive bombers are being used incessantly by the Japanese against our front lines and artillery positions."

Second Day It was the second successive day that the communique had reported Japanese efforts to infiltrate MacArthur's lines. This indicated that the Japanese are sending forward special jungle and mountain fighters who are attempting to slip behind MacArthur's lines to attack his communications and his fortified positions from the rear.

Japanese broadcast communique claimed that a fierce attack on the Bataan lines is imminent and that one corner of MacArthur's lines has been destroyed by determined air bombardment. However, Tokyo admitted the strength of MacArthur's lines which were said to be camouflaged "in a new manner."

The western defense command revealed nine officers and men died late Wednesday when a medium bomber crashed and burned in brush-covered hills 13 miles southeast of Boise, Ida.

It also revealed that a twin-motor bomber which disappeared Dec. 30 in California's San Bernardino mountains had been found near Lake Arrowhead with all nine of its occupants dead.

Search still was under way for Maj. Gen. Herbert A. Dargue, five other officers and two enlisted men, whose plane disappeared in the Tehachapi mountains Dec. 12.

At the National Capitol

WASHINGTON, Jan. 16 (Special)—The most important drive by the government will be announced and Idahoans will be asked to take extensive part.

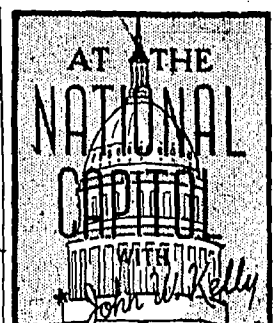

It will be the collection of scrap iron and steel. Increased war production will make enormous demands on the capacity of steel mills, and the mills are already crying for scrap to carry on the present program.

Price will be fixed per pound, if the owner wishes pay, and the material may be either collected at some central point, or left in front of the house where it will be picked up.

There is pending a tremendous shake-up in war defense agencies in the national capital which will affect every state.

Clark said the state board of examiners would trim present appropriations by \$300,000. The economies would amount to about one per cent of the state's annual expenditures.

TANKS SMASHED, 200 ARE KILLED IN MALAY AREAS

By HAROLD GUARD WITH THE ADVANCED IMPERIAL FORCES ON THE WEST MALAYA FRONT, Jan. 16 (U.P.)—Remnants of a Japanese tank and infantry column were retreating in disorder today after a dawn attack by Australian troops which have delayed the enemy advance by at least 24 hours.

As I write the Australians and the Japanese are in fighting contact over a widening front.

As the battle developed, big British bombing planes roared high over the fields and groves of the area and, in one of the largest imperial aerial attacks of the war, attacked Japanese air bases, rolling stock on railroad lines and highways in the Tampin area on the west coast 120 miles north of Singapore.

Major Gen. Henry Gordon Bennett, commanding the Australian imperial force, told me that the Australians, specially trained in jungle fighting, had gone into action at 4:15 p. m. Wednesday for the first time, only a few hours after their arrival at the front in a great and perfectly affected movement northward.

Then at dawn, in their first offensive action of the battle for Singapore, the Australians ambushed a Japanese tank and infantry column which was pushing southward.

They waited until the Japanese had approached and then attacked. Two Japanese heavy tanks were destroyed in the first assault.

BURLEY, Jan. 16 (Special)—Technical Sergeant Clarence Cunningham, Gowen air base, Boise, is here supervising dismantling and removal of the U. S. bomber which was damaged when it landed in icy-covered Snake river Sunday while on a reconnaissance flight out of Boise.

Sergeant Cunningham said he expects the plane to be removed from the river by this evening. The two engines and wings are being dismantled to prevent further damage to the bomber.

No blame for the accident could be laid to Burley airport, Sergeant Cunningham pointed out. A bulldozer and truck from Paul CCC camp is aiding the army wrecker and crew of 15 men brought here Tuesday from Boise.

PATRIOTIC FARM RESPONSE ASKED

BURLEY, Jan. 16 (Special)—Immediate need for patriotism in the farmers' program was stressed by Savoy Boyer, Salt Lake City, secretary of the Utah State Farm Bureau federation, principal speaker at the banquet session of the annual meeting of the Idaho State Farm Bureau federation here yesterday.

Cooperation of farm bureaus with the "food for defense" program was outlined by Mr. Boyer when he addressed 80 guests at the banquet, concluding session of the annual meeting, last night at the National hotel dining room.

Must Organize
Attendance increased at each session during the day. Need for agriculture to organize before it can accomplish work comparable with the achievements of labor and business, was emphasized in several short talks presented yesterday afternoon at the Oct. Fellows hall.

NO INFORMATION ON WPA DEFENSE

WPA projects in the south central district, as well as in the entire state, have been posted with a warning against release of information concerning defense activities, district officials announced today.

Only release of such information is to officers of the federal government entitled to receive the facts. District WPA leaders quoted a statement received from Dean W. Miller, state head of the federal agency. Miller pointed out that many people do not realize "to what extent the WPA is engaged in defense activities having a vital bearing on our war effort."

Heading such activities, it was pointed out, are airports—since every major airport in the state has been, or is being constructed with WPA funds and labor.

It has been announced that "only very general information" concerning defense projects will be released to the public from time to time. This is in line with orders from the national office.

Major defense projects by Idaho WPA include airports, airport access roads, armories and army camp improvements, military roads, national defense vocational training project, research studies and immigration records, all certified by the secretary of war as necessary in the war program.

Listed as non-certified, but nevertheless having a relation to the defense program, were such projects as roads, conservation, education, school lunches, etc.

Solemn Doings Are Afoot Up at Moscow

Dear Fitz Patsy:

Again the voice from Univeya at Moscow.

Crazy collegians! They're starting again.

Last year, goldfish gulping college students astounded vegetarians and nutritionists, with their odd diet—one of the many college fads conceived in a smoke-filled room during a bullfight.

And now three new fads have sprung up on the Idaho campus during the past week.

1. Jerry Cook, freshman from Ephrata, Wash., has founded a "Remember Samson" club, strictly a sub-rosa organization whose members are forbidden, under penalty of a \$5 fine, to obtain a haircut. Two recruits have flocked to the Samson club.

2. "The girls will surely be tickled when they find out about our new club," said Harvey Thomson, from Nampa way, founder of the Society for Advancement and Furtherance of Mustache Raising.

Four members of the society have agreed to attempt to raise "cookie dusters" and pecuniary fines have been imposed to help enforce the regulation. All money saved by the ban on razor blades will be donated to buy food for the feeding of pigeons in Moscow's city park. Members of the organization are Bud Elmore, George Redford and Bob Leight, from Rupert, and the Thomson guy.

3. Even the co-eds aren't spared from the "fad" rage. Alpha Chi Omega sorority sisters Peggy Massey, Anaconda, Mont.; Barbara Mears, Priest River, and Mary Stokslager, Clarkston, Wash., have banned the use of lipstick from Sunday evening to Friday afternoon. Penalty for violation of the pact consists of buying the entire membership a \$2 dinner.

SERIAL STORY

TAMBAY GOLD

BY SAMUEL HOPKINS ADAMS

COPYRIGHT 1941, NEA SERVICE, INC.

THE STORY: Mom Egan sets a fellow to pass up a better offer from another school. As a practical matter, you can see that, yourself, Mom.

WELL, I could of course. But I doubted whether Judy would be that broadminded. She never had the advantages of business training. I told him so.

"Have you put it up to her?" I asked him.

Yes, he had. She didn't like the smell of it, he told me.

"There's another way, too," he said. "That rat, Oliver, is all set to flunk me in Am. Eth. Suppose I oblige him? That would put me on probation and ease me off the football squad automatically."

He rambled on, mostly about how, unreasonable Judy was about some things. She was dead set that he must stick to his Am. Eth. till he'd licked it. She'd got it up her little snoot that Doc Oliver wasn't giving him a fair deal. So Angelo's line was to make a monkey of him by passing the exam. She'd help him work on it, evenings.

Oh, yeah?—I said to myself. And he'd be working on her at the same time. From Angelo's long rigmorale, I didn't make out whether Judy was for the marriage or not.

Anyway, I had an alternative idea for Judy. And I figured it was about time to spring it. I got an opening the next night.

It was raining hard when the hedgehawk showed up at the Federia. She was a plump, pink old gal, with pop eyes and an innocent expression which she used in her business. At dinner she asked Judy could she look around the place, because she had heard a lot about Tambay, which was reasonable enough. Rain or no rain she took her flashlight and went prowling around the old garden, and I could see that bright streak making lines along the earth, like she was down on her knees, spooking under the box-wood hedge and some of the big japonica bushes.

That ought to have made me leery, but it wasn't till I got home after cleaning up that I caught her with her printed contract, and Judy all ready to put her John Hancock on the dotted line. The boxwood hedge and six of the best japonicas, all for one hundred and twenty-five bucks.

I took the hedgehawk by the slack of her mackintosh and ran her out of there.

"Don't be a sucker," I told her. "That boxwood alone is good for two thousand smackers, if the right purchaser sees it. You need a sucker."

"I expect so," she said. She let her head go down. "What am I going to do?" she said, low and kind of scared.

"Hook up with Mom and make some money," I said.

"The tourist camp?" she said.

"Tambay Tourist Camp. Grade A Lodgings for Grade A Folks. Judson & Baumer, Proprietors."

I got out pad and pencil and gave her a high pressure sales-talk. For five hundred and fifty dollars per unit we could put up a row of log-and-wattle cabins with hillbilly labor, which is cheap and quick and good, because the hillies build their own houses that way. That figure would include plumbing and furnishing. Add 10 per cent for error and make it six hundred. To pipe water down from Tambay Spring would spoil a thousand more, and there'd be another grand, at least, in an electric light outfit and a couple tanks.

"How many cabins would we have?" Judy said. "That 'we' sounded good to me."

"Twelve to start with. That's going to push a ten thousand dollar bill right up against the wall and cut its sweet throat."

She looked me between the eyes. "Where do we get the ten thousand?"

"That's the point, Judy. How much have you got?"

"A little more than six thousand dollars in the world. Not counting Tambay, and that's mortgaged right up to the moss on the roof."

"You can't live on the income of that," I told her.

"No, I can't."

"Then—what's left to you but to take a chance? Not that you're taking much. This is a sure winner. Cabins like those rent for two dollars, single, three double. And look what the Federia will take in. How can we lose?"

Judy's face was mighty serious. "Have you ever worked out any of these schemes that wouldn't lose, Mom?"

"Well, you had to be honest with Judy. 'Some of them did,' I said. 'But I am still eating three a day.'"

"How much would I have to put in?"

"I've got five thousand in the sock," I said. "Will you match it?"

She shut her eyes and took a long breath. "Yes," she said.

"Let's go over and see Maurie Sears," I said. "He'll draw up the contract."

MOM PLANS A PARTNERSHIP

CHAPTER X

ANGEL TODD blew in for breakfast one morning, looking like he'd slept in the hosegaw.

"Mom," he said, kind of sad and thoughtful.

"What?"

"I've been thinking. Don't ask me what with; I'm serious."

"What are you serious about, Big Boy?"

"Your little pal. She's got me going. She sure is fast on her feet."

"A girl's got to be, to stay in the same ring with you. And I don't mean wedding ring."

"That's when I got my first surprise. 'I do,' he said, 'I'm going to marry you Judy.'"

"Kid stuff!" I said.

"KKK, nothing. Mom, I'm 25 years old."

He gave me a quick sketch of his life. Since high school days he'd been really a pro under cover. It wasn't false coils, because in those coast schools where he played, that sort of thing was perfectly kosher. Baseball, basketball, hockey; he was a dab at all of them, but football was his best bet.

"Next fall I can be in the money, Mom," he said. "Real money. You know this is under your shirt. Did you notice a sleek-looking bird that called me out one night when Judy and I were eating?"

It happened I did.

"He's a flier for a bunch that follow championship football. Big money birds. He hinted around about how easy an end might fumble a pass or miss a tackle or two. Well, I wasn't having any of that. Then he came out flat and said I'd be worth a year's pay if I had to quit football before the Baletier game."

"Haven't you got an agreement with Welliver?"

"Nothing in writing. Anyway, those deals are full of holes."

"I suppose they are," I said.

CLEARING UP

Federal Income Tax

NO. 11

Returns of Income of Decedents

A return is required to be filed for a decedent individual if the gross income to the date of death is \$750 or over, and the individual was single, or married and not living with husband or wife for any part of the taxable year, or if the gross income to the date of death is equal to, or in excess of the credit for personal exemption (not including credit as head of family or for dependent), and the individual was married and living with husband or wife for all or any part of the taxable year. The return for a decedent must include all items of income and deductions accrued up to the date of death, regardless of the fact that the decedent may have kept his books on a cash receipts and disbursement basis or did not keep books.

The income return of a decedent for the year in which he died is considered a return for 12 months and not for a fractional part of a year, and is due on the 15th day of the third month following the close of the taxable year during which the decedent died. After his appointment and qualification, an executor or administrator may immediately file a return for the decedent without waiting for the close of the taxable year.

Don't Play Hitler's Game

The President, in the inspiring speech in which he set new goals for the national war effort, also called attention to still another answer to the question "What can I do?"

He pointed to a field in which every man, woman, and child can serve his country. It is the field of morale.

Be vigilant, he urged, against racial discrimination in any of its ugly forms. Be wary of any who try to breed mistrust and suspicion between one individual and another, one group and another, one race and another, one government and another.

When you hear a person doing any of those things, the chances are that he or she is merely an innocent dupe. In that case merely make it plain that you do not agree, for the mere challenging of such statements is usually enough to shake them and rob them of their effect.

There is no place in great cosmopolitan America at any time for this group-against-group, race-against-race business at any time. Today we simply cannot afford it, for there lie failure and defeat.

The person who spreads this kind of talk may not be a deliberate Hitler agent. He is probably innocent. But what he does serves Hitler, and may be actually planned by Hitler agents.

In his most serviceable book, "The Strategy of Terror," Edmond Taylor shows clearly how the deliberate spreading of defeatist rumors by Hitler agents definitely contributed to the fall of France. The confidence of the French people in their leaders, in their army, in the British allies, was systematically shaken by a barrage of rumors planted among them by Quislings and Hitler agents. This is a definitely demonstrated fact. Why should we expect to be immune from this tactic?

Resist the temptation to seem a "wise guy," with "inside dope." When a particularly juicy rumor is dangled before you, question it at once, search for its source, and let it die there without giving yourself the warming satisfaction of passing it on. All the news that is definitely authenticated will be in the newspapers. Take everything that is not officially authenticated with at least one grain of salt, or better yet, pickle it in brine and forget it.

With the pitifully clear examples of Europe before us, we of the United States have a better chance than anyone else has had to squelch the whispers of a division and defeat.

Our 'Young' Country

We like to think of our country as a "young" country. It is young, thank God, in its spirit and in its buoyant faith in the future.

It is not so young in years as some people think. This year will mark the 450th anniversary of the discovery of America by Columbus. That is not old as historical time is measured, but it is older again than some of the European institutions which preen themselves on age alone. New York City, for instance, is nearly a hundred years older than Leningrad, and our own government is more than 150 years old to set against the eight years of the German "Third Reich" and the 20 years of the Italian Fascist state, to say nothing of the six years of the "Italian Empire," which has already crumbled. Our own government is one of the oldest continuous governments in the world.

It will be older, too, when a number of the present governments now befouling the earth have ceased to exist at all.

Is the Gold Tide Turning?

Since 1933 a steady financial tide has been washing up on the American shores almost all the gold in the world. Nearly twenty-three billions of gold filled the bulging coffers of the United States, while many, many foreign countries had none at all.

Was there no end? people asked. Must we have it all, making it perhaps useless for trading purposes? Now perhaps the limit has been reached. In five of the last nine weeks there was a decrease, with a net decrease of \$60,000,000. It is too early to tell whether this is a turn of the golden tide that has come so close to overwhelming us, but it is not too early to consider whether some use may not yet be made of this gold in buying outright needed war supplies, thus preparing for the day when some kind of common denominator must be found for world currencies. That will be hard enough at the best; easier, perhaps, if other countries have at that time some gold to form a common factor.

Liver Casserole Meal Suggested By Nutritionists

An "inexpensive, simple" meal, which is delicious and unusual, is every cook's ambition.

Here is a dinner that meets those qualifications, and is especially recommended by the Twin Falls Home Economics association to be served during Potato and onion week, Jan. 16 to 24.

- Dinner Menu
- Liver Casserole
- Baked Idaho Potatoes
- Mixed Vegetable Salad
- Butter
- Baked Custard

- Beverage
- Liver Casserole
- 6 thin slices liver
- 1 teaspoon salt
- 1/2 teaspoon pepper
- 1 cup finely cut apple
- 1 cup finely cut onions
- 3 tablespoons bacon fat or butter
- 6 slices bacon
- 1 cup whole milk

Dredge each slice of liver with flour. Sprinkle with salt and pepper. Spread each slice with some of apple and onion. Dot with bacon fat and roll tightly. Wrap each liver roll in a strip of bacon and skewer with tooth picks. Place in baking dish and add milk. Bake at 350 degrees about one-half hour.

And that dinner, Twin Falls county homemakers, has everything the nutritionist can ask for—from vitamins to minerals to "delicious goodness."

COAST LEAGUE PLANS FULL BALL SCHEDULE

Night Games To Be Played, Says Leader

By CHARLES R. MOORE
LOS ANGELES, Jan. 16 (U.P.)—The Pacific Coast league expects to play baseball as always this winter, spring, even to the extent of keeping night games on the schedule.

League executives are making plans for a regular season, starting April 2. Emergency restrictions already in force would not ban baseball, and the clubs hope, that even these will be eased further.

At present crowds of more than 5,000 are not permitted. As long as this order is in force, it means the end of regular home racing and football. Other sports, like midget auto racing, might get by through limiting their crowds.

3,000 Per Game Average
But the P.C.L. League President W. C. Tuttle pointed out today, averages only about 3,000 persons per game on weekdays. On Sundays, if necessary, the gates could be closed after admitting 5,000 fans.

"And it doesn't look as if there would be any trouble regarding night baseball," Tuttle said. "There is plenty of electric power out here, so there should be no question of conserving electricity. And if a blackout comes—well, a ball park can be blacked out in about one-fifth of a second."

Tuttle said he believed day baseball might draw much better than in previous years.

"We have thousands of men in war industries working three shifts," he said, "where formerly they worked only one or two. This means more fans will be free in the afternoons than under an ordinary work day."

Worker Concentration
The concentration of war workers is particularly heavy in the Los Angeles area, home of the Angels and the Hollywood Stars, and in San Diego, where the Padres have their park.

Tuttle said he felt the Coast League was fortunate that it did not begin play until April, because by that time the war situation may have improved.

Few players have been drafted, he said. Larry Powell, pitcher for San Diego, and Herman Reach, Portland first baseman, are among the half dozen now in the army.

"Under present league rules, the clubs are allowed 25 players each," Tuttle said. "In an emergency they could get along with 16 or 18 players. That has been demonstrated in other Class A leagues. There are thousands of men on the clubs now, so we feel safe in saying that baseball will be played as usual—whether in the daytime, during the twilight hours or at night."

Vandals Open Fight Season With Cougars

UNIVERSITY OF IDAHO, Jan. 16 (Special)—Chas. Anderson, Twin Falls, only remaining member of last year's national championship Vandal boxing team, will lead the Idahoans tonight in their first dual meet with the Washington State Cougars, heavily favored to cop the Pacific Coast ring crown this year.

Anderson will meet Fred Spiegelberg, Pacific Coast champion last year, in the 175-pound class. The bout is billed for the feature attraction of the card and will be a grudge fight. Spiegelberg defeated Anderson in both their matches last year.

The Cougars' schedule for the last fall. Both are ends.

Making his debut in intercollegiate boxing will be Bill Williams, sensational 145-pound Idaho sophomore, the Vandals' hope for a national champion. Since 1937, the Vandals have had at least one national champ every year and last year three men won titles.

Williams, star of the yearling team last year, won all his matches, all but one of them by knockouts. Williams and Anderson didn't fight in the Vandals' first card last Saturday against Lewiston normal, being "too much competition" for the inexperienced normal ringmen. Idaho won six bouts to the Teachers' one.

Five of the Vandal boxers entering the ring against Washington State will be sophomores. The Cougars have three returning lettermen, two of whom were coast champions.

Beginners' Luck

Their initial visit to a race track and first bet results in \$2 daily double ticket paying \$3,627.80 to Mr. and Mrs. Harry Witte of Ellendale, N. D. Three tickets were sold on Silent Host and High Luck at Tropical park. Double was topped in entire country only once last year. Police took the Wittes to postoffice, where they paid \$2,250 for \$3,000 worth of defense bonds, deposited \$1,000 in postal savings account and retained \$377.80 to pay balance due on automobile.

Twin Falls Tackles Tigers Here Tonight

Twin Falls Bruins get a chance to climb a notch in the standings here tonight when they take on the Idaho Falls Tigers in a Big Six conference engagement.

The game will be the fifth conference tilt of the season for Coach Dode Cranney's boys and they will be gunning for their second victory.

The Bruins, who have lost two games to Nampa and one to Boise, cannot yet be counted out of the race—because their losses have been by the narrowest of margins and if they can have a little more luck on their shots the chances are they may yet finish high in the race.

Good Condition
Well rested and in the best of physical condition, the Bruins will give another stiff test against the Tigers as coached by the famous J. Y. Nichols. Idaho Falls lost to Nampa by two points—just one more than did the Bruins in their last go here—and can be figured on to handle Cranney's crew all it can.

Major scoring burden for the local crew will again fall on Glenn Gibb—and as Gibb goes so will go the chances of the Twin Falls quintet.

In four conference games Glenn has scored 38 points and holds double second spot in individual scoring. Rex Taylor of Nampa is tops with 54. Other leading scorers in the local team are Otto Florence with 20 and Tommy Cartney with 18 in conference play.

Preliminary Game
Preliminary encounter is slated to start at 7:30 p. m. with the Cubs meeting one of the top-ranking Donut league games.

In the Big Six conference play, one game was performed last night—Pocatello trouncing Caldwell by a 46-18 score.

While the Bruins are meeting the Tigers here tonight, Pocatello visits Nampa and on Saturday night the Indians tackle Boise.

Standings to date:

Nampa	4	0	120
Boise	2	0	65
Pocatello	2	1	113
Twin Falls	1	3	114

Sabin Defeats Gillespie in Miami Tourney

CORAL GABLES, Fla., Jan. 16 (U.P.)—Top-seeded Wayne Sabin of Portland, Ore., eliminated Billy Gillespie of Miami, 4-6, 6-4, 6-2 in the quarter-finals of the University of Miami's annual invitational tennis tournament yesterday.

Gardner Mulloy, amateur coach at the university, defeated Jerry Growther of Los Angeles, 6-0, 7-5 in the other quarter-final match.

Mulloy and Jack Kramer of Oakland, Calif., advanced to the doubles semi-finals with a 6-1, 6-4 victory over Jack Waters and Mal McAllister of Miami. Sabin and Billy Talbert of Cincinnati won their quarter-final doubles match from Guy Chamber and Billy Blake of Miami, 6-4, 7-5.

George Lytleton-Hogers, former Irish Davis cup player, was ill and defaulted in first round singles and doubles matches which had been postponed in the hope that he would be able to compete.

Hogan Stays Near Lead in Oakland Open

By DAVE LOEWING
OAKLAND, Calif., Jan. 16 (U.P.)—If open golf tournaments were played under handicap rules, there should be an immediate clamor to blindfold Benny Hogan of Hershey, Penn., when he sets out today on his second round of the Oakland \$5,000 golf tourney.

Hogan, winner of the \$10,000 Los Angeles pot, played the difficult Sequoyah course from memory yesterday and chalked up a 68, just one stroke behind the three under par card of Byron Nelson of Toledo, O., and equal to the scores of Lawson Little, San Francisco; Mike de Mascsey, Morro Bay, Calif.; and Bill Nary, Rancho Santa Fe, Calif.

No Practice Round
Little Benny, who weighs 139 pounds dripping wet—and he was yesterday—started without the benefits of a practice round. But he vividly recalled the course from last year, when he turned in an astounding card of 62 to gain a three-way playoff for the championship.

With such a memory, maybe a blindfold would be no handicap at all.

Anyone is to beat Hogan, it probably will be Nelson. He had bogged down in recent weeks but came back yesterday with a vengeance. Unforeseen meteorological conditions caught up with him on the 16th tee, yet he scored three successive birdies to lead the field.

Nelson has been coming to California since 1933; and still has to win his first coast tournament. This, he thinks, will be it.

Close behind the leaders, and still under par, were Joe Mozell, Portland; amateur Johnny Dawson; Johnny Revolta, Chicago; Tony Penna, Dayton; Lloyd Mangrum, Monterey Park, Calif.; Paul Runyan, Rumson, N. J.; and Dennis Shute, Chicago, all with 69's.

Bunched at 70
Defending Champion Leonard Dodson of Kansas City was bunched at 70 with John Geertsens, Denver; Herman Kelsor, Akron; Pat Cioel, Westbury, N. Y.; Mark Fry, Oakland; and Chick Harbert, Battle Creek.

Jimmy Thomson of Del Monte, who lost the Los Angeles playoff to Hogan by a stroke, slipped badly and scored a 76 yesterday. One of the toughest performances of the day was Johnny Bull's six putts on the seventh hole, a mark equaled only by Thomson's six in a Bing Crosby tournament several years ago. Despite the blowup, Bull had a 73.

The 165 golfers play 18 holes again, tomorrow and Sunday.

Skiers Open Competition For Inter-State Crown

Burley Elks Score 102 Points to Trim Shoshone Redskins

SUN VALLEY, Jan. 16 (U.P.)—Top skiers from eight western states were on hand today for opening of competition in the first major ski tournament of the Sun Valley season—the three-day Jeffers' cup interstate meet.

The meet opened with downhill races on Baldy mountain's steep Warm Springs trail. Saturday the slalom will be held in the Christmas bowl on Baldy mountain, and the tournament will end Sunday with jumping events on Ruud mountain.

In an effort to speed up running of heats in the slalom, two courses were laid out—the second starting a short distance below the finish line of the first. Formerly, skiers ran gates of the first course and then the trail for the second run was shifted. The new innovation will permit skiers to finish the first run, take a rest and then complete the second run.

Favorites Lose Matches in Billiard Meet

CHICAGO, Jan. 16 (U.P.)—Unexpected defeats for defending champion Willie Hoppe, New York, and Welker Cochran, San Francisco, three times titleholder, gave Joe Chamao of Mexico City, undefeated lead in the world's three-cushion billiard tournament today.

Chamao, ill yesterday, saw two tournament all-enders put on inspired exhibitions to top Hoppe and Cochran from the ranks of the undefeated. The two favorites with two victories and one defeat, fell into a tie for second place. Chamao was undefeated in three matches.

Arthur Rubin, Brooklyn, beaten four times in four matches, routed Hoppe, 50-37 in 39 innings. Playing a careful defensive game, Rubin moved into a 32-30 lead in the 28th inning and chalked up 14 billiards in eight innings to win the match. Next to Hoppe's opening match, it was the shortest game of the tournament. Both scored high runs of five.

It was the defending champion's second defeat in 38 successive tournament games during the last three years.

Cochran was noosed out by Earl Lookabaugh, Chicago, 50-48 in 56 innings, after two sustained rallies failed to overcome an early 16-point advantage. Lookabaugh has lost three of his four previous matches.

Heyburn Rally Wins Over Oakley, 22-18

OAKLEY, Jan. 16 (Special)—Coach Dick Stevens' Heyburn Panthers beat the Oakley Hornets at their own game here last night.

The Hornets were in front 7-5 at the quarter, 13-7 at the half-time and 15-13 at the start of the final stanza.

But with Foster showing the way, the visitors went on a scoring spree to clinch the victory. The ace Heyburn center scored 14 of his team's points for top honors. Larson topped the local crew with eight.

FDR LISTS WIDE NELSON POWERS

(From Page One)

war procurement and production; and perform such other duties as the President may direct."

In addition, the army and navy munitions board was ordered to report to the President through Nelson.

Mr. Roosevelt formalized the war production board as a part of the office for emergency management, and although the order abolished SPAB, the membership of SPAB automatically was made the members of the war production board.

The war production board thus will comprise Nelson, Vice-President Henry A. Wallace, OPM Co-Directors William S. Knudsen and Sidney Hillman, Secretary of Navy Frank Knox, Secretary of Navy Henry L. Stimson, Secretary of Commerce Jesse Jones, Price Administrator Leon Henderson, and Harry L. Hopkins.

The executive order directed units of the government—"including all departments and agencies to comply with the policies, plans, methods, and procedures with respect to war procurement and production as determined by the chairman."

This gave Nelson virtually complete authority over governmental supply and production, even extending to procurement by the various branches of the armed forces.

The chief executive also conferred upon Nelson the authority to employ necessary personnel and make provisions for necessary supplies and services.

FDR Supports Continuation For Baseball

WASHINGTON, Jan. 16 (UP)—President Roosevelt today urged the high commissioner of baseball, Judge Kenesaw Mountain Landis, that he felt it was best for the country to keep professional baseball going during the war.

The President's reply to an inquiry by Landis expressed solely his personal opinion, the President recognizing that the final decision rests with the individual club owners.

Secretary Stephen T. Early said the President wrote Landis that because there were few unemployed and because the war was going on, the nation was tolling longer and harder than ever before, they should have an opportunity for recreation to take their minds off their war labors.

The President said, however, that individual players of active military or naval age should go into the services, when called.

Landis, in his inquiry written from Chicago Jan. 14, pointed out to the President that the time was approaching when under ordinary conditions the nation's baseball teams would head for their spring training camps. He asked what the President had in mind regarding continuation of professional baseball in time of war.

Early said the President's letter expressed the opinion that night games could be extended because this would allow day workers to see an occasional game.

Drive Passes Original Goal

With quickening response shown in late reports, volunteer solicitors in the war relief campaign of the Twin Falls Red Cross chapter and its affiliated units passed the original \$5,000 goal today.

"We expect to reach 'way above that first quota," said Dr. Charles R. Scott, general chairman.

Students Agree With Press Group On No. 1 Story but Not Other Nine

Japan's attack on the U. S., while talking peace, was the most important event of the year 1941, according to 18 of 18 journalists at Twin Falls high school, who pitted their judgment against that of one press association in choosing this 10 man news stories of the year, in the order of their importance.

Brin staff members chose from a scrambled list of the press association rating, the order in which they ranked the outstanding happenings.

The press association listed these events as follows:

1. Japan attacks while talking peace.
2. Reuben James sunk; it's a World war.
3. Germany turns on Russia, meets first reverses.
4. Lend-Lease billions flow to England, Russia.
5. Taxes leap with 220 billions earmarked for defense.
6. Roosevelt and Churchill draft Atlantic charter.
7. Six major battleships go to the bottom.
8. Rudolph Hess parachutes "to give humanity."
9. Army breaks up defense plant strikes.
10. Brooklyn Dodgers win pennant.

The other two of the 18 students at the high school listed Germany's turn on Russia and the Atlantic charter of Roosevelt and Churchill as ranking foremost.

No one chose the second story to agree with the press choice. Twelve students rated Germany's turn on Russia second; two gave Japan's attack that prominence in world events for the year, and two more thought second place should go to the report of 220 billions of taxes earmarked for defense. One thought the army breaking up defense strikes was in second place.

Heartily disagreeing with the press association, Brin staff members listed the sinking of the Reuben James in third place three times; fourth, twice; fifth, three times; sixth, four times; seventh, twice, and eighth, four times.

DEATH SUMMONS FRED CONNERLEY

Fred Connerley, 67, who went to North Benaville, last September to visit his daughter, died yesterday at that place, according to word received here.

Interment will be in Sunset memorial park.

Mr. Connerley, a resident of Twin Falls for the past 14 years, was born Oct. 14, 1874, in Nebraska.

EARLY NORTHSIDE RESIDENT PASSES

JEROME, Jan. 16 (Special)—Carl K. Bricker, 62, early resident of the north side tract, and brother of E. C. Bricker, Jerome pioneer orchardist, died at his home in Jerome, Ark., according to word received here by his brother, who is the only surviving relative. Mr. Bricker was 68 and succumbed last Friday in the Arkansas town where he had gone last March to look after business interests. Funeral services were held Sunday afternoon.

Mr. Bricker had many friends in south Idaho. He first came to Jerome in the early days and was employed in farm and construction work. He was a bachelor and came here first in 1914, working for John P. McIntyre during crop season. He was employed in assisting with the cement work at Milner when the flume was changed. Later he moved to California to do construction work. He returned to Arkansas and came back to Jerome in 1938, residing here with his brother until departing for Arkansas in March of last year.

He was born in Roscoe, O., June 9, 1873.

During the first World war, Mr. Bricker was in San Francisco where he engaged in work in the shipyards, returning to Jerome in 1918.

He was a life-long member of the Baptist church and a member of the I. O. O. F. lodge.

During his last stay in this vicinity, Mr. Bricker was employed on the Carey dam project on Little Wood river.

TWO JUNK FIRMS TAKING SALVAGE

With the wastepaper collection program well underway in Twin Falls today, Boy Scout area officials announced that the salvage material is being disposed of through two local junk handling concerns.

"There has been some comment in regard to the fact that the Scouts sell the wastepaper and other material," said Gordon A. Day, area executive. "This method, by which the Scouts receive some return for their defense labors, was specifically proposed by the government because federal agencies themselves were not equipped to do the big job of collecting waste throughout the country."

Chief goal of the government, Mr. Day said, was to get the wastepaper into defense channels. "That's exactly what the cooperating junk handlers are doing," he said, "and what small financial return accrues to the Scouts is put into troop treasures, for worthy purposes."

He pointed out that any householder who wishes to sell his waste material directly can do so by taking it either to the Idaho Junk house or the Tarr Wrecking company.

Most Haven't Time

"That would also get the material into defense channels—which is what's wanted. Most people, however, haven't time or inclination to bother with the matter so the Scouts are helping defense by making regular collections at homes and business places."

Request that the Scouts collect the salvage and sell it through junk dealers came from William S. Knudsen, director general of OPM. Mr. Day quoted Knudsen's telegram as follows:

"I wish to congratulate the Boy Scouts of America on the excellent work they are doing in collecting wastepaper and speeding it on its way to war factories. Today the need for other waste materials is as critical as wastepaper and I ask the Boy Scouts of America to expand their work to cover collection of scrap metals, old rubber and any other waste materials which can be disposed of locally through waste material dealers."

BAG OF COYOTES TOTALS 1 DOZEN

Score thus far: One dozen coyotes. That was the total achieved in three "runs" by the Coyote Runners club, which bagged jaunt No. 3 Thursday and staged three coyotes. In their first time out the horsemen got three and last Sunday added six more.

I. G. Prescott, president of the club, said another chase will be held at 10:30 a. m. next Sunday at the old gun club grounds south of the Twin Falls airport. If the turnout reaches 25 or 40 horsemen, he predicted a catch of at least 10 coyotes in the sagebrush area.

Most of the funds realized from sale of the coyote pelts is to be contributed to the Red Cross war relief drive Prescott said. Since the price of such a pelt is about \$7, the season's aggregate is expected to be substantial.

Nine horsemen look part in yesterday's run. No guns are permitted; the riders use clubs to kill the coyotes.

"Ida," registered Holstein owned by Mr. Hager, was second with 85.3 pounds of fat and 2,244 of milk. Third was "N-6-J," grade Holstein owned by C. E. McClain, Twin Falls. Herd leaders for the month: Over 20 cows-Carl Harder, Buhl, first; L. A. Hansen, Twin Falls, second. Ten to 20 cows-Mr. Hager, Rupert, first; Leon Morris, Buhl, second. Under 10 cows-Thomas Maberly, Rupert, first; Arthur Begener, Burley, second. Supervisor Law reported 100 cows in the association produced 40 pounds or more of butterfat during the month. Total milk was 415,273 pounds; butterfat, 18,000.8 pounds.

ON 'OFFENSIVE' NOW, CLUB TOLD

It's no longer "defense"-from now on it's "fight," pro-actor Everett M. Sweeley, Spanish-American and World war captain, told the Twin Falls Kiwanis club Thursday. Mr. Sweeley outlined the secret process by which he has been able to convert the ordinary shotgun into a terrific weapon against parachute invading troops. The program, he said, is soon to get underway. When it swings into action, the thousands of pheasant-hunting guns in Magic Valley will holdify this area's protection against invaders from the air.

In his call for abandonment of the word "defense," the pro-actor asserted: "We must go all-out on the offensive. We're going to win but we must recognize we're in this war and we're merely waiting for someone to attack."

Sweeley refuted the complacent belief that Magic Valley would not be an objective of invading Japanese troops. He told just what Japs would aim at here and how the citizenry can circumvent such a move.

Chairman John Carrett, Kiwanis civilian defense leader, warned against spreading rumors and against taking part in any "hysterical buying wave."

Cecil Jones, treasurer, presented the audited financial report for last year.

E. J. Valiton was program chairman.

Only Second-Degree Freezes Count in Nazis' Disabilities

By ILYA EHRENBURG Soviet War Correspondent Written for United Press MALOYAROSLAVETS, USSR, Jan. 16 (UP)-How are they dressed, these German troops, to endure the Russian frost? Here is a German corporal, a prisoner. His footwear is remarkable. On one foot he has a leather shoe which has seen considerable wear. On the other is a piece of felt and a wooden sole. It develops that the felt-shod foot is frostbitten and no shoe will go on it. "We now have standing instructions," the corporal explained to me, "not to send first degree freezes to hospital, but only second degree freezes." He explains further that a second degree freeze is when the flesh begins to rot away. The Difference A first degree freeze is one which merely makes it hard for soldiers to walk. For headgear these soldiers have aviator's caps. In the summer they cocked them jauntily. Today they try to get their ears beneath them, but you cannot expect such abbreviated headgear to be much use at 30 below zero. I saw a sergeant-major wearing a woman's knitted jumper. They all have their heads swathed in women's kerchiefs. There is little about the looks of these troops which would stamp them as German warriors. They sit about in the warm prisoners' huts and scratch. They all have lice. "There is rash between their fingers. This lieutenant was made a prisoner two hours ago. He must have spilled a whole bottle of eau de Cologne on himself this morning. Now he has raised his pullover so he can scratch himself better. Farmers of freed villages speak of revulsion of their former uninvited guests. "Kultur" Vanishes The thin veneer of German kultur cracked when they lost touch with the mechanical aspects of civilization. Kultur did not prevent them from burning libraries, though one officer housed by a farm wife always threw his cigarette ashes in the stove, explaining elaborately that German kultur would not permit him to drop them on the floor. He was one of those who burned an entire house to keep warm, then froze outdoors when this fuel was gone. Even in captivity these officers are not afraid of us, but of Hitler. When they speak freely they cast furtive glances about them. At other times they talk in phrases learned by heart, sonorously repeating the tirades of Goebbels. A lieutenant told me that he "took Paris" and was "supposed to take London." I asked him why he did not take London. He maintained a long, frigid silence, then replied: "There was no order to that effect."

Religion Linked With Democracy

BUHL, Jan. 16 (Special)-Fundamentals of American democracy stressing the four premises in the American creed was the subject of Dr. R. E. Snodgrass' address at the Kiwanis club luncheon Wednesday. These premises, taken from the Declaration of Independence, are: "First, the privilege and immunities of a citizen shall not be abridged; second, that all men are created free and equal; third, the unalienable rights are life, liberty and the pursuit of happiness; fourth, the free exercise of religion." Dr. Snodgrass cited examples of what had happened in Europe where religion had been abolished and the Bible substituted for "Mein Kampf." He said that "so long as our belief in God endures, so long will our democracy endure." Dr. Snodgrass, formerly pastor of the Temple Christian church in Los Angeles, has been in the evangelical field the last year, and for the past two weeks has been conducting meetings at the Buhl Christian church. He is also president of the Evangelical association. The Kiwanis programs for the month of January are being presented by Rev. Muriel Jones.

Army of 3,600,000 Will Be Made up of Single Men

NO DISRUPTION IN FAMILY LIFE IS SLATED FOR 1942

WASHINGTON, Jan. 16 (U.P.)—United States army officials set out today to build and equip a mighty mechanized army of 3,600,000 men in the next 12 months without disrupting family life.

Brig. Gen. Lewis B. Hershey, national selective service director, said his organization probably could supply that many men without calling upon men with dependents.

If it should become necessary to exceed 3,600,000 goal authorized by President Roosevelt and announced yesterday by Secretary of War Henry L. Stimson, selective service officials may have to adopt "just a little different conception of the family," Hershey said.

Double Present Force

The great expansion in the army would more than double the present force of 1,700,000. The numerical peak of this country's ground forces was the 3,673,888 who were under arms when the first World War ended.

The 1942 program includes doubling the air combat strength, doubling the armored forces, and adding 32 new triangular infantry divisions, the bulk of which will be motorized.

Hershey told a press conference yesterday that there are "something over" 1,000,000 men already in a reservoir of class 1-A registrants; that the other 900,000 can be obtained from reclassifications now under way and from the men who will register Feb. 16.

High Percentage Eligible

Between 50 and 60 per cent of the men in the 20-21 age classification will be eligible for military service, Hershey estimated, and about five per cent of the 8,000,000 between 36 and 44.

He warned that those seeking to avoid duty with the armed forces by marriage would get little sympathy from their draft boards.

Student Vote Will Pick out 1942 Galahad

In connection with presentation of the junior class play at Twin Falls high school Feb. 12-13, under the direction of Miss Florence M. Rees, instructor, a ballot will be cast by students of the school for the boy whom they think comes nearest to fill the qualifications of Sir Galahad. Galahad is one of the characters of the three-act comedy, "A Connecticut Yankee in King Arthur's Court," by John G. Fuller, from Mark Twain's book of the same name.

The comedy is a full-length dramatization of the adventures of a Yankee from Connecticut, who finds himself thrown back into the middle ages. His actions portray his ideas that he is in an insane asylum; he is later convinced that he is subject to a death sentence handed down by King Arthur.

BRUIN DEBATERS' SQUAD SELECTED

Twin Falls high school varsity debate squad has been chosen and has received invitations to debate some time during January at Burley, and on Jan. 24 at the Sugar-Salem round robin debate tournament. Invitations, although not yet accepted, will be acted upon in the immediate future, according to Gerald Wallace, sponsor.

Bob Barnett, Ed Chapin, Leeroy Elmers, Dick Salladay, Bill March, Murray North, Margaret Detweiler and Harold Merritt have been chosen for the squad. Other tryouts were by Charles Gilt, Jim Williams, Ruth Adell Smith, Julia McBride, Clark Robertson, Steve Cox, Dorothy Ann Neely, Don Balschi and Nora Funk.

Question for this season's debate is "Resolved: That every able-bodied male citizen in the United States should be required to have one year of full-time military training before attaining the present draft age."

Injured Sailors Anxious To Get Back at Japanese

By GEORGE McFADDEN
SAN FRANCISCO, Jan. 16 (U.P.)—Sailors injured in the attack on Pearl harbor are anxious to get back into action against the Japanese. Many already have returned to duty.

Newspapermen were permitted to interview the casualties at a naval hospital for the first time yesterday and found some men, borne aboard only a few weeks ago as stretcher cases, almost completely recovered.

Lieut. Commander W. E. Walsh, chief of the surgical service, said there had been no fatalities among the wounded returned to the hospital from Hawaii.

J. T. Trammell of Waurika, Okla., came ashore several weeks ago on a stretcher with shrapnel in both legs. Now he is wearing his uniform and walking with only a slight limp.

"They did a swell job on me," said Trammell, tapping his leg. "And I sure got swell treatment here. I expect to be back on duty in a month or so."

The state department's latest blacklist includes 1,800 companies and individuals operating in Sweden, Turkey, Switzerland, Spain and Portugal.

Axel Wenner-Gren, wealthy Swedish industrialist who is a friend of the Duke of Windsor, was on the list. Wenner-Gren recently arrived in Mexico from Peru and transferred his yacht, Southern Cross, to Mexican registry.

AMERICAN PORT SLATED IN IRAN

LONDON, Jan. 16 (U.P.)—Great Britain, in a double move to speed American supplies and to strengthen its bulwark in the middle east, moved today to implement plans for an all-American port in Iran and named a new commander in chief for all British and Indian forces in Iran and Iraq.

A United Press Tehran dispatch announced that Gen. Edward P. Quinan, British general of command in Iraq and Iran, had arrived in Tehran from Baghdad to discuss an American project for an American port as a feeder for American materials for tank and plane assembly and repair plants and to speed deliveries for Russia against the expected German spring offensive.

Gen. Quinan said that the port would be all-American, with American personnel, and that it would be established at a point some 30 miles from Basra on the Persian Gulf.

The war office here announced the appointment of Lieut. Gen. Sir Charles Auchincloss, British commander in chief in the middle east, as commander in chief of all British and Indian forces in Iran and Iraq.

CODE ISSUED FOR NEWS CENSORING

WASHINGTON, Jan. 16 (U.P.)—The office of censorship today issued a code to guide newspapers, magazines and other periodicals in their publication of news that is either incidental to or directly related to the war.

The regulations will not permit "business as usual" on the news desks, the office of censorship said.

"On the contrary," it was said, "it will mean some sacrifices of the journalistic enterprise of ordinary times. But it will not mean a news or editorial blackout."

"It is the hope and expectation of the office of censorship that the columns of American publications will remain the freest in the world, and will tell the story of our national successes and shortcomings accurately and in full measure."

IDAHO IS STILL STATE OF FARMS

BOISE, Jan. 16 (U.P.)—Idaho is still primarily an agricultural state despite the strides made by determined industrial and manufacturing concerns during the past decade.

Census bureau reports for the 10 years ending in 1940 placed the total number of persons engaged in farming at 58,130. The labor force of the state is 101,100.

Wholesale and retail trade employees were placed second in number with 25,954 at work in the subdivisions such as service stations, eating places, food and dairy product stores and other wholesale and retail trade.

The third highest group is listed as on public emergency or relief work. A total of 13,067 was employed by the works project administration, national youth administration, civilian conservation corps and other types of emergency employment.

Manufacturing concerns claimed fourth place with 12,559 persons at work in logging operations, machine, chemical, leather, stone and other fabricating industries.

Mining industries, such as coal, mineral and petroleum operations, listed 6,735 workers. Engaged in transportation were 10,428 persons; finance, insurance and real estate, 2,884; professional services, 11,679; government work 5,227.

Courses in Home Nursing Started

JEROME, Jan. 16 (Special)—As another project in aiding in the national defense emergency, Miss Elva M. Pugmire, county health nurse, has begun classes in home hygiene and care of the sick, she announced today.

At present time there are 14 members enrolled in the class at Hazelton; 12 enrolled in Eden and six enrolled in the class at Jerome. By the end of this week class grouping will be completed, when it is anticipated that more interested persons will have become members of the classes now under way.

Classwork is being conducted once each week, from 2 until 4 p. m. The nurse said, and all classes must be taught by a registered nurse, holding a Red Cross certificate. Classes in Eden began Thursday, and in Hazelton will begin Monday, in Jerome, Tuesday.

LINDY GOES TO NON-ARMY POST

WASHINGTON, Jan. 16 (U.P.)—Charles A. Lindbergh has been assigned to a "technical commercial project" in which the war department is interested and will serve in a civilian capacity, Secretary of War Henry L. Stimson announced today.

Stimson did not elaborate, except to add that Lindbergh would be assigned to other duties when the present project is completed. He stressed that Lindbergh had not been re-commissioned as a reserve officer.

Stimson said he conferred with Lindbergh Monday afternoon. Lindbergh told him he was "forming plans for the future" and wanted to know if he could be of use to the army before committing himself.

Stimson said he referred Lindbergh to Lieut. Gen. Henry H. Arnold, chief of the air forces, and Assistant Secretary of War Robert A. Lovett in charge of air, after Lindbergh had said he felt particularly qualified for "technical experimentation."

Lindbergh conferred with Arnold and Lovett Tuesday, at which time he was assigned his duties.

Lindbergh formerly held a reserve commission as a colonel, but resigned it last spring when President Roosevelt described his isolationist views as similar to those of the copperheads of Civil War days. A couple of weeks after the Japanese attack on Pearl Harbor, Lindbergh offered to serve the army in any capacity.

In view of his previous experience in pioneering commercial air development among the Americas, there was some speculation that his new post might entail work of a similar nature at this time.

Aha! So That's What Kuala Lumpur Means!

By United Press

Those strange Malay names appearing in the daily war dispatches—Kuala Lumpur, Kota Bharu and the like—actually are more mysterious in meaning than American commonplaces like Big Smoky, Twin Falls, Ida, or White Sulphur Springs.

Kuala means "river mouth" and Lumpur means "mud," hence "muddy river mouth" is the name of the capital of the Federated Malay states. Kota means "fort" and Bharu means "new," so the east coast town which the Japanese captured early in their campaign simply means "new fort" to the Malaysians.

Here are some other Malay names, which probably will be encountered in the news and their meanings:

Alor—river bed, as in Alor Gajah, "riverbed where the elephants go."

Bandar—town, as in Bandar Maharan, "Queenstown."

Besar—big, as in Pulau Besar, "big island."

Bukit—hill.

Datoh—Grandfather, or headman, as in Telok Datoh, "headman's bay."

Gunong—Mountain.

Kampung—Village.

Mati—Dead, as in Sungei Mati, "dead river."

Negro—Country, as Negri Sembilan, "country of the nine (states)."

Batu means "stone" or "milestone" and, used in conjunction with Malay numerals, indicates a village. Batu Sembilan would be "village of the ninth milestone."

C. OF C. ASKS CUT IN STATE COSTS

BOISE, Jan. 16 (U.P.)—Reduction of expenses of state and local governments during the war was emphasized Thursday at opening sessions of the annual convention of the Idaho State Chamber of Commerce.

Earl W. Murphy, secretary of the state chamber, reported that "unless the local requirements for state revenues are reduced, the ad valorem levy will have to be increased, some of the excise tax rates will have to be sharply boosted, or some new sources of revenue will have to be found."

Meet Highlight

Murphy's report on the financial status of Idaho's governmental agencies was the highlight of the opening session. Other convention meetings will air reports on social security, agriculture and livestock, developments in the field of chemistry, and various problems of Idaho businessmen.

Murphy's contention that present taxes would have to be increased unless state governmental expenditures were cut was based on the belief that two types of taxes—state income taxes and motor fuels taxes—would be "subject to violent readjustment this year" because of the war. The income tax and motor fuels levy supplied nearly one-fourth of the state's revenue last year.

Bound to Drop

The motor fuel tax revenues are bound to drop and while there are a variety of opinions on the question of what the state income tax will yield during the current year, it is his belief that it will show a drop in 1942 and a more severe shrinkage of 1943, resulting from amendments at the last legislative session and general business curtailment," he declared.

STAY IN SCHOOL, STUDENTS URGED

MOSCOW, Jan. 16 (Special)—"Think twice before enlisting," was President Harrison C. Dale's advice to all University of Idaho men at a special assembly Tuesday afternoon.

President Dale called attention to the increasing need for trained officer material in the navy, the marine corps, and the army, pointing out that at a recent conference with representatives of the war department and the navy department in Washington there was unanimous agreement that university students, particularly those enrolled in a very wide range of technical subjects, should by all means continue their university training.

He said that while he had been hesitant to give this advice at the university convocation held just after the outbreak of war, after conferring with the military authorities in Washington he had no hesitancy whatever in urging students to stay in the university and that he made this recommendation on the basis of national rather than individual student interest.

He pointed out that directives have been issued by the national selective service administration to local selective service boards urging deferment for students whose numbers came up in the midst of a semester, pointing out that in the case of candidates for navy commissions there was a guaranteed deferment for all seniors till they had finished their course and a very strong probability of deferment for juniors till their graduation.

Military and naval authorities, President Dale added, urged the colleges and universities to abandon the luxury of the long summer vacation and to install an accelerated program that would run throughout the year. The University of Idaho pledged itself to this program and in addition will inaugurate a 12 week summer term in 1942 for those who wish to take advantage of it. Students enrolled in the summer term will be entitled to the same deferment consideration as those registered in a regular semester, he explained.
