

HONORS AWARDED AT SCOUT COURT

Rank advancements and merit badges went to 37 Boy Scouts of the Twin Falls district at a court of honor held at the Christian church Wednesday evening as a part of Scout week observance.

Most of the boys gaining the awards were there to receive them in person. Ivan Johnson, a Scout leader, received by proxy awards which were to have gone to his son, Ivan, Jr., an Eagle Scout now serving with the United States army.

Presiding at the session was W. W. Francis, district commissioner, while Verne Davidson, member of troop 65 of the Christian church, presented the colors. Motion pictures on industry and defense were shown following presentations.

# HOW TO MAKE YOUR CAR LAST LONGER

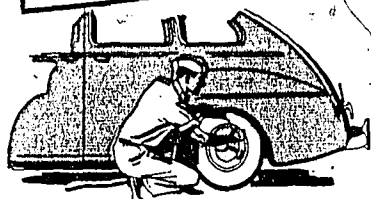

**These 15 Standard Services**  
**—Many of them FREE—**  
**are Doubly Vital to You**  
**in this War Year**

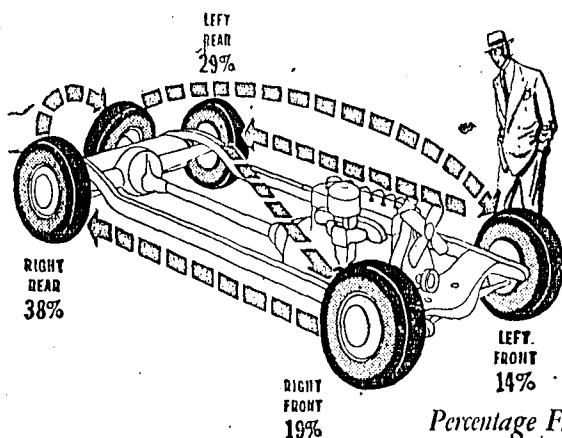

## GET YOUR FREE TIRE PROTECTION RECORD

It tells you when to switch your tires, enables you to keep tab on every important tire detail. It's free at Standard. Stop for your card—today.

### CHECK TIRE INFLATION EVERY WEEK

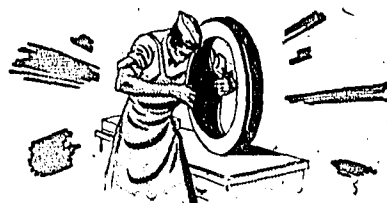

Today checking tires is a MUST if you want your tires to last. Under-inflation causes sidewall breakdown. Over-inflation causes excessive wear. When you get free tire service from Standard, we also examine treads for unequal wear. If wheels are out of alignment or brakes unbalanced, we will notify you.

Percentage Figures Show Difference in Tire Wear

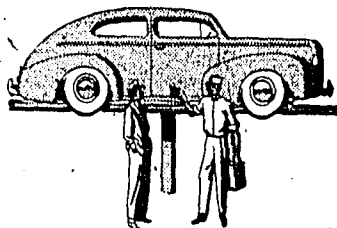

### SWITCH YOUR TIRES EVERY 5000 MILES

Rear tires wear down twice as fast as the front. The spare tire actually deteriorates when not used. Let a Standard Service man remove your wheels, and switch them scientifically to insure maximum wear from your rubber. The work is done quickly, efficiently, for a nominal charge.

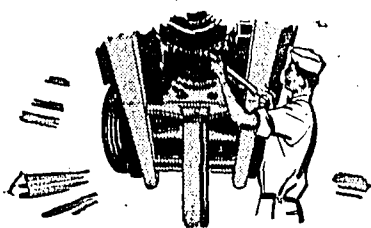

### HAVE THE INSIDE OF YOUR TIRES CHECKED

Every 5000 miles, your tires should be taken off the wheels, and the inside of the casing examined for breaks, rough spots, or foreign matter that shorten tire life. Your Standard Service man will perform this service for a nominal charge.

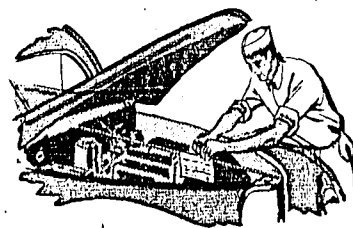

### CHANGE OIL EVERY 1000 MILES —IT PAYS

Because engine parts are precision accurate, lubrication must be constant. Hence—keep the oil at proper level. Change it every 1000 miles. Thermo-Charged "RPM" clings to hot spots other oils leave dry, gives greater protection under every weather condition.

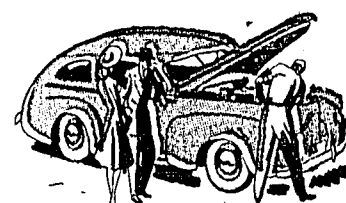

### GET A "GREASE JOB" THAT MISSES NOTHING

Much of a lubrication job is hidden, hard to check. Yet it must be thorough. When you leave your car at Standard, the work is done by thoroughly experienced men. Seven top quality lubricants are used. Every vital lubrication point is double checked.

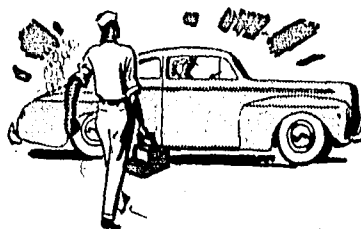

### PLAY SAFE WITH AN UNDER-THE-HOOD RECORD

Safeguard your car and put your mind at ease by carrying Standard's lubrication record that tells all. It gives you a complete record of oil changes, lubrication dates and distances, battery service, etc. Don't drive another mile without one. (It's FREE.)

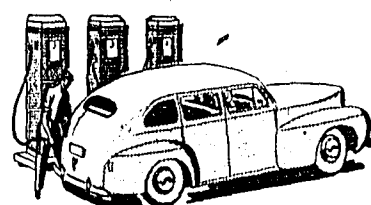

### ADJUST SPARK PLUG GAPS TO SAVE GASOLINE

Automobile manufacturers agree that after 10,000 miles spark plug efficiency rapidly decreases and gas wastage begins. Have your plugs examined at Standard. We will clean them and reset the gaps. If you need new plugs we will replace the old ones.

### NEVER LET YOUR BATTERY RUN DRY

Standard Battery Service is not only free but is promptly and efficiently performed. Terminal connections are cleaned and greased, the solution tested, distilled water added. It takes little time and it's something you should do every two or three weeks.

### TAKE NO CHANCES WITH YOUR GASOLINE

Most reputable brands of gasoline are of good quality. But no matter what kind you have been using, next time fill your tank with Standard. At a time when there may be doubt about some of the products you buy you can always depend on Standard.

## Keep Liberty for Which We Fight

A free country always faces certain difficulties in time of war. Certain quick and temporarily effective means of protecting the state and furthering the war effort are not open to it, simply because there is no sense in making freedom itself the first sacrifice in a war for freedom.

In a totalitarian country where nobody has any rights anyway, it is a simple matter to arrest or shoot anybody who seems to someone in authority to be in the way. Free countries can't operate that way. They are faced with the problem of preserving their safety and winning a war, and at the same time leaving people as much freedom as possible.

As the war effort grows more and more serious, it is going to take all the brains and stamina we can muster to secure the safety of our people and government and at the same time leave them free. It can be done, however, and it must be done.

Every proposal to curtail liberties, even temporarily, must be very carefully examined, and not rushed through simply because it seems a quick solution to some problem. Attorney General Francis Biddle put the thing very well a few days after Pearl harbor. He said:

"The enemy has attacked more than the soil of America. He has attacked our institutions, our freedoms the principles on which this nation was founded and has grown to greatness. Every American must remember that the war we wage today is in defense of these principles. It, therefore, behooves us to guard them zealously at home."

A typical example is in an amendment to the Nationality act already passed by the House, which contains a provision that courts may revoke, without jury trial, the citizenship of naturalized citizens whose "utterances, writings, actions, or course of conduct establishes that his political allegiance is to a foreign state of sovereignty."

A citizen is a citizen, and all are equal before the law. That is a basic American principle. Yet here it is proposed to apply different standards to naturalized citizens than those applying to native-born citizens. It creates a sort of "second-class citizenship." Aside from doubt as to the constitutionality of such a law, is it wise thus to divide citizenship? Certainly any such proposal demands most careful consideration.

There will be many such proposals, and when it can be shown that the safety of the government and the people can be protected in no other way, some of them may be adopted. But they should not be adopted hurriedly or without the fullest consideration of the long-range results. We may well keep in mind the words of the United States Supreme court in the Milligan case after the Civil war:

"The constitution of the United States is a law for rulers and people, equally in war and peace, and covers with the shield all circumstances. No doctrine involving more pernicious consequences was ever invented by wit of man than that any of its provisions can be suspended during any of the great exigencies of government."

## What's Going on Here?

Somebody in the State department ought to give a simple, clear, public explanation of how these two news items happened to be capable of appearing almost at the same time:

1. A shipload of American supplies left for Vichy, France, during the last week of January.

2. British broadcast reports that "Vice Premier" Darlan of France has agreed to send two shiploads of supplies weekly to Nazi General Rommel's forces in North Africa.

Unless a fairly clear definition is made as to just what is American policy toward France since we entered the war (and bear in mind that General Rommel is now fighting us and our policy can scarcely be what it was before Dec. 7) people are going to begin to wonder what's going on here.

Maybe it's all baby-food that is going to France; maybe it's something that cannot even be used to substitute for what is being sent to Rommel. Maybe there is a good answer. Oughtn't the American people to know what it is?

It all amounts to a total loss when you spend all your money to prove that you have it.

It's likely that blowouts are going to make a lot of touring plans fall flat this coming summer.

## SNITCHING ON RUSS AND THE JAYCEES!

This is telling a tale out of school, but we feel Mrs. Russ Thomas should know about it.

The Jaycees were confabbing about the quarterly meeting scheduled at Sun Valley come March 14-16. Russ offered an informal resolution to make the shindig a stag party.

(For information of Mrs. Russ and other Jaycee wives, we reveal that the official program for the Jaycee meeting shows this: "Trail creek cabin—12:01 a. m. to 8 a. m., first committee meeting.")

## A TIDY LITTLE LEAP!

Dear Mister:  
 The guy must have TNT in his legs.

According to your estimable sport page, Torger Tokle is quite some ski jumper. As in this: "Tokle's first jump—1,014 feet—was the longest of the day."

Also the longest in history, past, present and to come.

## VOCABULARY DEPT.

A certain prominent Twin Falls sking girl telephoned the sports editor to tell him about a ski club meeting.

Said the skier, in conclusion: "All members should attend this meeting because important business will be reached."

## WHICH JAYCEE COULD THIS FELLOW BE?

Dear Potato:  
 Did you hear about the local Jaycee who came home from a night's ramble the other evening—to catch Hall, Columbia, from his wife.

Of course, he tried to explain—like this:

"I'm not under the influence of alcohol, even though some think I am. I'm not so drunk as you drink, but I feel so foolish I don't know who is me. The dunker I saw here, the longer I get."

P. S.—He didn't convince anybody of anything—except that he was inebriated.

## MR. DWORSHAK AND A GUY FROM BLACKFOOT

We find now that while the Idaho senators and congressmen didn't vote in favor of the congress pension bill, they didn't vote against it . . . because every last one of 'em was absent at the time of the vote.

We have on hand an explanation from Cong. Hank Dworshak. He explains that conference reports can be called up any time by the committee chairman and members therefore don't have any advance notice. Adds Hank: "I regret that I was not present in the house at that particular time, because I was conferring with a constituent from Blackfoot . . . on some important business."

He says if there'd been a roll call he would have registered his opposition. And adds: "I cannot qualify under the bill because I do not have a minimum of five years service, and, of course, my age is 15 years below the qualifying age for annuities, so that I cannot be accused of having a personal and selfish interest in the passage of this legislation."

Okay, Hank. Okay. If this satisfies your constituents it's all right with us. But we suggest you arrange for some nut to call you hereafter when something pops up. Then you skedaddle over to the house chambers.

As for Messrs. Thomas, Clark and White, we suppose they were conferring with guys from Rock Creek, Picabo and Niter (hah, didn't know there was a Niter in Idaho, did you?)

## Charting South Idaho Farm Machinery Clinics

Ten chairmen of Magic Valley farm machinery repair committees were getting pointers from T. H. Van Meter, Boise, as this photo was snapped at Jerome Wednesday afternoon. Mr. Van Meter, discussing the food for victory campaign and Idaho farmers' vital share in it, represented the Idaho USDA war board at the Jerome conference. He is a member of the state board, forestry division. Left to right, seated, farm machinery repair chairmen are Donald Chisholm, Burley; George Carman, Hazelton; Harley Williams, Twin Falls; Glenn Patterson, Gooding. Standing, left to right, Bill Barton, Wendell; Paul Jones, Bellevue; R. R. Love, Buhl; Reed Hanson, Rupert; R. J. Lemmon, Richfield; Ross Borden, Shoshone. Chairmen not in the picture include Robert Daley, Jerome, and Del Hollwell, Fairfield.

## New Serial Story Monday

"Kings Row," best-selling novel, will start in the Times-News Monday.

Termed "a great American novel" by such critics as those who write for the New York Herald Tribune's "Books" supplement, the new story will offer Times-News readers a grand yarn.

It's the greatest serial of 1942. The New York Sun says: "Any line could happen in Kings Row and nearly everything does." Watch for it Monday, Feb. 16.

## Mock Wedding for Iamit Club Party

BUHL, Feb. 12 (Special)—A mock wedding presented by the Iamit club proved to be a highly entertaining feature when the club entertained their husbands at a pot-luck dinner party Friday night at the home of Mr. and Mrs. Fred Koch.

Mrs. Walter Tannier was in charge of the program and played the wedding march, and also accompanied Mrs. Ed Johnson as she sang a parody on "O Promise Me." Following the ceremony Mrs. Johnson sang several songs.

In the wedding cast were Mrs. Nellie Chelline, minister; Mrs. Adolph Machacek, bride; Mrs. S. C. Orr, bridegroom; Mrs. Clint West, bride's mother, and Mrs. Arnold Tannier, ring bearer.

## Red Cross Sewing Nearly Completed

BUHL, Feb. 12 (Special)—Red Cross production chairman announce that the refugee sewing that was on hand at the Buhl chapter's rooms is almost completed. This is the shipment sent here by the government prior to the United States' entry into the war. As soon as more sewing and knitting materials arrive an announcement will be made.

## Eight-County Plans Drafted For Farm Equipment Clinics

JEROME, Feb. 12 (Special)—Plans were set up in Jerome yesterday to conduct farm machinery clinics in eight south Idaho counties.

Gathering here at 1 p. m. in the county court rooms were chairmen of the county war boards in this district which include the counties of Jerome, Twin Falls, Blaine, Cassia, Lincoln, Minidoka and Camas. Present also were county extension agents and leaders; implement dealers, hardware men, blacksmiths, repair men, representatives of electrical repair and appliance shops and Smith-Hughes instructors.

The session was directed by T. H. Van Meter, war service representative on the Idaho USDA war board, who was in Jerome representing Milford J. Vaughn, chairman of the state war board and chairman of the Triple-A.

A similar session was conducted Thursday, Feb. 12, in Ada county.

The session in Jerome was called to formulate a campaign which will result in the completion of a program to assist the farmers in repairing their own farm machinery now, in order that production of food may be expanded.

Various methods of attacking the problem were suggested and the discussions were led later on accomplishing this program. Following the meeting, other sessions were held for county agents, Smith-Hughes instructors, A. C. A. representatives, and by the county chairmen, where further details were arranged in formulating the campaign.

Up to Chairmen  
 Full details of launching the program and completing it in the various counties were left to the discretion of the respective county chairmen who will work out a mutual date for beginning the work.

County machinery repair chairmen named in the eight counties are as follows: Jerome county—Robert Daley, of the Daley Hardware Co., Jerome; George Carman, Hazelton. Twin Falls county—Harley Williams, Twin Falls, and R. R. Love, Buhl. Blaine—Paul Jones, Bellevue. Cassia—Chisholm Brothers of Burley. Lincoln—Ross Borden, Shoshone, and R. J. Lemmon, Richfield. Gooding county—Glenn Patterson, Gooding, and Barton Implement Co., Wendell. Minidoka—Reed Hansen, Rupert. Camas—Del Hollwell, Fairfield.

Through this plan, Van Meter said, there will be assurance of "uninterrupted production of farm crops necessary not only to furnish food for our own nation but to our neighboring nations who are helping us to win this war," officials pointed out.

Vital to Act Soon  
 Because of the fact that most metals which go into the making of farm implements and other such equipment are now vitally needed in making war goods, it was termed essential that all farmers term their own machinery in the best condition and working order.

At the present time, it was stressed, there is acute shortage of materials, such as steel and iron, and farmers everywhere should not wait until the day harvesting or planting season arrives to check up on the condition of their farm equipment. "It is necessary now to protect and maintain all machinery, the Magic Valley group was told.

"We are at war, and it is imperative that we keep everything on our farms up to par," said Prof. Hobart Beresford, head of the department of agricultural engineering, University of Idaho, Moscow, who conducted a part of the session.

He further urged farmers to be careful with everything they own, and "that your farm machinery as you would watch your own automobile tires."

Big Job for Farmer  
 J. P. Williams, district representative of the International Harvester Co., also addressed the meeting, stressing importance of taking care of all machinery. He stated: "It falls on the American farmer, not only to feed our own armies and our population, but the greater part of the world, not alone for the duration but afterwards as well. So it is necessary that all of us farmers be ready to bring forth increased crop yields, such objective to be reached by men who have less equipment and less materials with which to work."

Williams emphasized the serious situation of limited supplies of materials for farm machinery making. He predicted that under the present trend, there will be even greater shortage next year.

Need for returning to channels of trade any surplus scrap iron was brought up during the conference, and it was urged that all persons gather up any such surplus which can be used to contribute to this war effort.

Mass Instruction  
 The county repair programs will be carried out through mass instruction and mass contact with all farmers.

Presiding at the session for the county chairman was Van Meter, who declared that "Time is short, and the job we have to do must be done now!"

Present at the sessions in addition to Mr. Van Meter were J. Carl Baldridge, Idaho director of Intermountain hardware association, Boise; Prof. Beresford; Stanley Richardson, state supervisor of vocational training; J. P. Williams; R. R. Love, district chairman of the hardware dealers' association of this district, and representative of the J. I. Case tractor and implement company, and other officials, and farmers.

## CIVILIAN DEFENSE LISTS HELD OPEN

BOISE, Feb. 12 (UP)—C. E. Arney, state civilian defense coordinator, said today Idaho's registration of civilian defense volunteers will not be closed until a system for filling the forms has been worked out.

Arney said a system of card-indexing the qualifications of each volunteer was expected to be completed within a couple of weeks.

"In the meanwhile, we are discouraging county defense councils from sending in the blanks," he declared.

Volunteers will be classified, by counties and by occupations, Arney said. Such a system, he explained, would provide a record of each available civilian defense worker for immediate call in case of emergency.

Arney estimated more than 100,000 registration forms would be returned throughout the state. About 300,000 forms were printed for the defense enrollment which started last month.

## Red Cross Quotas Upped 30 Per Cent

BUHL, Feb. 12 (Special)—Norman C. Davis, general chairman of the American Red Cross, Washington, D. C., has notified all chapters that their quotas for war relief have to be increased 30 per cent. This brings the Buhl chapter quota up to \$2,600.

The Buhl chapter has subscribed to date \$2,300 and will continue to accept donations and solicit until the \$2,600 has been raised. All chapters are urged to do this as quickly as possible. Because of the greatly expanded war program which the Red Cross has been called on to assume, they are urging every man, woman and child who have not already donated to this war fund to do so. Donations may be left at the banks, Boring's, or the C. W. M. company.

Presiding at the session for the county chairman was Van Meter, who declared that "Time is short, and the job we have to do must be done now!"

Present at the sessions in addition to Mr. Van Meter were J. Carl Baldridge, Idaho director of Intermountain hardware association, Boise; Prof. Beresford; Stanley Richardson, state supervisor of vocational training; J. P. Williams; R. R. ## HISTORY Of Twin Falls City & County

As Gleaned from Files of The Times

### 15 YEARS AGO

FEB. 12, 1927

Of interest to Twin Falls people will be the wedding of Miss Elma Jean Ducker, daughter of Mrs. W. A. Ducker, formerly of Twin Falls, and Harold F. Logue, the ceremony taking place Sunday noon at the S. E. club house at the College of Idaho where the bride was a junior.

Mr. Logue was graduated from the college last spring. Following the wedding, a reception was held. Guests at the wedding included members of the S. E. and Bachelor clubs; Mrs. Ducker and son; Mrs. Martha E. Paskley, Miss Frances Westfall, Dr. and Mrs. W. J. Boone and Dr. Carl Salomon. Mr. and Mrs. Logue will make their home at Monroeville, Wash.

Dr. and Mrs. J. F. Johnston were hosts at dinner Friday evening. Mrs. W. I. McFarland and Paul R. Taber won awards at cards.

Wilton Peck was host at an attractive dinner party Sunday at his home on Eighth avenue, where he entertained Misses Grace Barger, Mildred Conway, Willy Turner, Stella Perrine, Messrs. Rev. Turner, Ted Rantzeau, Curtis Turner and Mr. and Mrs. Harry Alexander. The table had an effective centerpiece of pick roses in a crystal bowl. Pink shaded candles added to the color scheme. Character dolls were used as favors.

The Pricillas were entertained by Mrs. Arthur Hollingsworth last Thursday. Mrs. Housman will be the next hostess.

Green light has been given for what may be the largest military cantonment in the northwest, in the Albany-Corvallis district, where plans have been laid to house 40,000 troops, or about 10,000 more than the usual camp. Cost will be not less than \$22,000,000. Architects have been working on the layout for more than 18 months.

With navy selecting four large colleges (Notre Dame and Stanford announced) to teach 30,000 students how to fly and war department about to launch a school for officers, the prospects for ROTC are not so favorable as they were. Army has been saying that it can not very well spare officers to act as instructors at ROTC colleges, a subject now being discussed between colleges with ROTC and army high command.

## 600 TO ATTEND LINCOLN DINNER

BOISE, Feb. 12 (AP)—Idaho Republican leaders gathered here today for their annual Lincoln day banquet at which Gov. Charles A. Sprague of Oregon will be chief speaker.

The session will also serve to lay the groundwork for the 1942 election campaign and may bring a change in official party leadership.

D. C. Nelfert, president of the Lincoln Day Banquet association, said 600 persons were expected to attend. A guest of honor will be Albert G. Jones, a Civil war veteran and one of the four remaining members of the Idaho department of the Grand Army of the Republic.

The banquet will be followed by a session of the state Republican central committee at which chairmanship of the party was expected to be offered to Tom Heath, who resigned the post last spring to run a Canadian sugar beet factory. Mrs. Carlisle Smith of Caldwell now fills the post of chairman, but members of the central committee were reported to be considering means of returning the job to Heath.

### TRICK?

HOLLYWOOD, Feb. 12 (AP)—Humphrey Bogart, who has faced knives, fists and guns in motion picture battles, nursed two broken ribs today because he was outmaneuvered by an old-fashioned rocking chair.

During the filming of a movie scene, an overstuffed rocker tossed Bogart over backwards. He admitted he didn't have the knack of sitting in a rocker.

"Come to think of it," he said, "I don't remember ever sitting in a rocking chair before in my life. Is there some trick to it? Must be."

## U. S. Soldiers Guard Oil on Dutch Isles

WASHINGTON, Feb. 12 (AP)—American soldiers are guarding vital oil supplies in the Dutch West Indies islands of Aruba and Curacao today in conformance with President Roosevelt's expressed policy of sending troops wherever their services are needed most.

United States forces previously had been assigned to the Netherlands possession of Surinam, which is on the north coast of South America. Their primary purpose is to guard important bauxite mines.

On Curacao and Aruba, off the northern coast of Venezuela, are some of the world's greatest oil refineries. With the supply of oil in the Dutch East Indies threatened by Japan's smashing southern drive, the West Indies are more than ever essential to the allied war effort.

### Dutch Request

The state department announced the arrival of the American contingent in the Dutch Islands. The forces were dispatched, it was said, at the request of the Netherlands government, and they will assist Dutch armed forces in defending the islands and the refineries.

The American soldiers will be under the general supervision of the governor of Curacao and will be withdrawn when the emergency has passed. The state department reported that Venezuela had given its wholehearted approval of the agreement between the Netherlands and United States governments. The wells which supply oil to the refineries on the Dutch islands are in Venezuela, near Maracaibo.

### Other Islands

Both Curacao and Aruba are in the colony of islands known as

## LOCAL RED CROSS RATED WITH BEST

Twin Falls chapter, American Red Cross, today was listed as one of the outstanding units in the current war relief drive, a national release received by Dr. C. R. Scott, Twin Falls campaign chairman.

The Twin Falls chapter is singled out and listed with 11 other chapters over the western states as "outstanding" in the fact that original quota for the drive was far exceeded. Twin Falls' quota was \$6,500 while amount raised to date stands at \$9,100. While other chapters like Sacramento, Spokane and Salt Lake City raised more money, there were very few of the 12 listed which went so far in percentage above their set quota, the tabulation shows.

Today Dr. Scott announced request had been received for an increase of 30 per cent in funds received to date and for this reason he urged "continued effort by those who have been aiding in the past either by donations or by volunteer services."

## Lottery Plan Looms to Aid In War Cash

WASHINGTON, Feb. 12 (AP)—Today's civilian war notes:

Gamblers—Spend \$1 or \$2 and win, maybe, \$100,000. Rep. Harold Knutson, R., Minn., believes there are enough people willing to do that to raise \$1,500,000,000—annually in war revenues. He'll introduce a bill for such a national lottery today.

Tin Cans—No more variety. Instead of 150 different sizes there'll be only 10. No more cans to be used after this month, for beer, tobacco, cereals, flour, petroleum products or dog food.

Aplaris—Bees, essential to the war effort because they produce honey and pollinate fruits, vegetables and forage crops, will get all

the sugar they want even if you don't. Beekeepers need only prove their bees need it.

Rubber—Current stocks must last into 1944, rationing of retreaded and recycled tires and tubes starts Feb. 19. Crude rubber content of a pair of rubbers is to be reduced one third. Rubber content of bicycle tires, canning jar rings, garden hose, rubber boots and coats to be reduced, too.

# County GOP Leave For Lincoln Banquet

Several prominent Twin Falls county Republicans will be among those attending the annual Lincoln day banquet this evening in Boise.

Women members of the local delegation were also present at the Lincoln day luncheon. Top "pup rally" of the year for loyal G. O. P. party members are these events.

National Official  
Comprising the vanguard of the Twin Falls county representation were Mrs. Emma Clouche, Twin Falls, national Republican committeewoman from Idaho, and Mrs. Harold Koenig, Hansen, who left last night for the capital city.

A. Howard Hall, chairman of the Idaho Young Republican league, and Mrs. Hall; Mr. and Mrs. C. A. Robinson, prominent in Republican activities for many years, and Harold Koenig, Hansen, one of Twin Falls county's representatives to the state legislature last year, left this morning for Boise.

Also leaving today for the sessions were Sen. and Mrs. F. W. Neale and Mr. and Mrs. T. M. Baird.

Many From County  
Several other Twin Falls county Republicans also were in attendance, and others will leave this afternoon in time for the banquet session.

Absent from the sessions for the first time in 10 years was Miss M. I. Zetka McCoy, Twin Falls county committeewoman, who was unable to attend because of illness in the family.

# Alert Signal in Styles: Nation Dons Sportswear

East coast, west coast, sportswear has captured the spirit that is America. America entering on "different times." Sports clothes on the "alert" clothes of today—and tomorrow.

Such was the observation made by Mrs. Martha Turner, manager of the ready-to-wear department of the Idaho Department store, who has just returned from buying trips to New York and California.

"We can take a cue from Britain. During their most trying period there was never a lessening of interest in fashion. Their choice at first was for the practical, but later they turned to the pretty and feminine," Mrs. Turner commented yesterday afternoon.

"Alert" fashions  
Discussing the easy-to-wear, practical and youthful matching jackets and skirts—the slacks—that she refers to as "alert fashion," she added that sweaters are more popular than ever in light colors; that skirts are good, and that all types of blouses are slated for a big season.

Because of varied war activities suits of all types, two-piece casual, sport, dress and three-piece will be equally good this spring.

"Last year suits were fashionable; this season they are a necessity. And because of the 'suit season,' coats in the big fashion news are casual, the kind that can be worn over suits. There are coats that, due to their simplicity of styling, can be either casual or dressy, as the accessories may dictate.

Best suit fabrics, Mrs. Turner believes, will be gaberdine, wool covert and all smooth rib weaves. "For coats, the softest-up fabrics will be the leaders."

She predicted that "in color, this will be a big year because of its patriotic significance. We also are entering one of the most colorful spring seasons in many years."

Indoubtedly, metal buttons and certain other types of trimmings that come under priorities will cause garments to be made with more self-trims.

Suit-Dresses  
"First-big fashion theme in the dress is the one that looks like a suit," she said. The one-piece dress is still good in sports to casual as well as dressy.

"At the openings I saw lingerie trims, deep necklines, short sleeves, every type of detailing that places women in the niche of femininity. Skirts go straighter, but never tight. Most important are the yoke top skirts."

The fabrics are sheers, dress weight suitings, prints, spun rayons, sharkskin weaves and shantung. Although there has been a great deal said about the scarcity of fabrics, yet the new lines are as colorful and varied as ever.

A well-known line may be without its featured linen fabrics, but in its place is something newer and perhaps smarter, she added.

"Hats this season are good for the morale—a wisp of chiffon may be frivolous but it's good for our morale. Bonnets for spring will be radiant with color, lovely pastels and

## PROSPECTS IMPROVE ON COWBOY PLAYER AID

### Carl Anderson Confers With Coast Leaders

Prospects brightened today for the future of professional baseball in Twin Falls as word arrived here from San Francisco that the Twin Falls Cowboys would get help from Pacific Coast league clubs when the season opened.

Business Manager Carl Anderson, who is in the bay area conferring with Coast league magnates, sent word here that Seattle Rainier President Emil Sick and Manager Bill Skiff had "promised" player help for the coming season.

However, that wasn't the only contact made by Anderson. He conferred with Victor Devenecio, president of the Oakland A's and got a promise there that the A's would keep Twin Falls "in mind" this year when sending out young players for experience.

#### Coast League Cuts

But the big news of today was the wire story that the Pacific Coast league would cut its player limit from 25 to 20 for the coming season. That move assures teams such as the Cowboys of a chance to pick up at least five more good players that they would have been without under former Pacific Coast rules.

Meanwhile, President Frank Magel of the Twin Falls team awaited conversations with Anderson. The two were slated to talk by telephone on plans today and a full report on the future may be available by tomorrow, Magel indicated. Anderson is expected to arrive in Twin Falls Friday night from the San Francisco meeting.

#### Good Prospects

Seattle is expected to take 15 players above the limit to its spring training camp this year and of these at least a half dozen are expected to be outstanding candidates that could help considerably for Class C outfit.

No further action has been taken here regarding the proposed sale of stock to southern Idaho fans. As soon as Anderson returns and the outlook is cleared up, work is expected to start, according to George Paulson, member of a committee named to handle promotion of the stock sale.

### Richfield Host To Northside Cage Tourney

RICHFIELD, Feb. 12 (Special)—Plans for the north side sub-district high school basketball tourney, which will be held at Richfield, Thursday, Friday and Saturday, Feb. 20-22, have been completed. It has been announced by H. E. Baldrige, superintendent of Richfield schools.

This year's tourney will feature only four boys' teams, representing the host school, Richfield, Dietrich and Shoshone. There will be four sessions of games, all being night games with the exception of the semi-finals Saturday morning.

The schedule calls for two games Thursday evening, two Friday evening, one Saturday morning, and the championship game Saturday night. Thursday and Friday evening games will start at 7:30, the semi-finals at 10 a. m. and the finals at 8 p. m.

The opening games will pit Dietrich vs. Fairfield, and Shoshone vs. Richfield. As special entertainment during the tourney sessions the Richfield physical education classes will perform.

### Play Starts Tonight in Gooding Meet

GOODING, Feb. 12 (Special)—The whistle will blow tonight at 7:30 opening the 17th annual Gooding outlaws tourney—Idaho's premier independent event.

Teeling off in the initial game of the three-day meet will be the Tri-umph Miners of Halley and the Fairfield town team. The game will be the first of four slated for the evening.

In the second, Gooding Lions meet Shoshone Redskins at 8:40 and in the third Jerome Jaycees, de-

clash between the Brooklyn Dodgers and New York Giants at Havana on Feb. 28. Funny thing, Charley Gelbert coming to work for the Dodgers and Leo Durocher this year. When this Nov. 16, 1932 load of bucks shot the great Cardinal shortstop and 340 right out of baseball stardom, Durocher took his place and the club went on to win the pennant.

## Ultimates of Yesterday Are Track Marks, Goals of Today

By BURTON BENJAMIN (NEA Service)

NEW YORK—Where are the track ultimates of yesterday... those supposedly impregnable standards which defied the efforts of ordinary humans?

Fathered by Brutus Hamilton, Californian coach, whose deductions were based on tables of Finnish mathematical physicists, these barriers represented the greatest possible track and field achievements. Natural laws of energy, expectancy and fatigue made them safe from human encroachment.

Where is the 4-minute mile, the 9-second 100-yard dash, the 7-foot high jump?

Still in the offing, but not nearly so remote. Hardly ultimate. Definitely not impossible—graph fatigues, physiological compensations and human frailty to the contrary notwithstanding.

Several years ago, Professor Hamilton, who takes his track almost piously, gathered his graphs, charts, stopwatch, tape measure and slide rule and set up several equations of Einsteinian dimensions.

#### Compiles Tough List

By means of these higher mathematics, Professor Hamilton deduced the following were the absolute aches of human achievement:

100-yard dash—9.13-100 seconds.

Pole vault—15 feet, 18-100 inches.

Broad jump—27 feet, 4 74-100 inches.

220-yards—20 18-100 seconds.

2-mile run—8 minutes, 44 2-10 seconds.

Javelin—255 feet, 10 32-100 inches.

Hop, step and jump—54 feet, 8 28-100 inches.

High jump—6 feet, 11 inches.

Shot put—Jack Torrance's record of 57 feet, 5-32 inches was the limit.

400 meters (two turns)—Bill Carr's 46 2-10 seconds was possible of only slight bettering.

110-yard hurdles—137 seconds was impossible.

#### Verge of Falling

Checking the list, the 100, mile, and 2-mile are still fairly safe, although hardly out of reach.

The broad jump, 220 yard, step and jump, shot put and high jump are on the verge of falling.

The pole vault, javelin, 400 meters and 110 hurdles have already been smashed.

Jessie Owens and Frank Wykoff still hold the 100-yard dash title at 9.4 seconds. Barney Ewell, best of the current sprinters, has not threatened the mark.

Glenn Cunningham's indoor mile record of 4 minutes, 4 4-10 seconds is the closest approach to the Hamilton standard. Brutus himself believes it will be "the speed of an Eastman or Wooderson, the endur-

Up and over goes Cornelius Warmerdam—15 feet 3/4 inch indoors and 15 feet 5 1/2 inches outdoors

ance of a Lash, kick of a Bonthron and knowledge of pace and competitive ability of a Cunningham." "I run a four-minute mile."

#### Explores Heights

Cornelius Warmerdam has given the bird to the Hamilton pole vault standard. He has soared 15 feet not less than 14 times, holds the indoor record at 15 feet 3/4 inches, the outdoor at 15 feet 5 1/2 inches.

Owens' 26 feet, 8 1/2 inches still holds in the broad jump and no one seems to have the kick to break 27 feet at this time. Incomparable Jesse also holds the 220-yard dash record of 20.3 seconds, just a shade off Hamilton's never-never.

Greg Rise is the 2-mile king with an 8-minute, 51.1 second job in Chicago, March 22, 1941, still a good way from the Hamilton limit. Gil Dodds, formerly of Ashland College of Ohio, may be the one to break into the eight-forties.

#### Threatens Torrance's Toss

Math Jarvinen of Finland holds the official world javelin record of 253 feet 4 1/2 inches, but a fellow countryman, Yarro Nikkonen, has topped the Hamilton quota with an unofficial heave of 258 feet, 2 1/2 inches.

The hop, step and jump seems safe at the moment although Nanto Tojima of Japan came within three inches of the limit.

Jack Torrance's shot put record is threatened by gigantic Al Blozis of Georgetown, who has tossed the ball more than 56 feet several times.

Achie Williams, a Hamilton protegee, made a poor prognosticator of his coach with a 46-1-second 400-meter dash, while Rudy Harbig of Germany has an unofficial 46 flat performance on file.

Les Steers is one inch away from the 7-foot high jump.

Spec Townes ended any doubts about a 13-7-second 110-yard high hurdle performance.

The ultimates of yesterday have become the records and goals of today.

### Lawson Little, Hogan Favored In Texas Open

SAN ANTONIO, Tex., Feb. 12.—Most of the big name golfers, touring the winter circuit, tune up in pro-amateur competition today for the opening Friday of the \$6,000 Texas Open Golf tournament.

Long-hitting Ben Hogan, the nation's leading money-winning pro, and Lawson Little, defending champion, were favorites to win. Hogan's odds are expected Friday afternoon when prize competition opens with the first 18-holes tomorrow.

A second 18 holes will be played Saturday and 36 holes on Sunday. Sponsors hoped for fair weather in the tournament, which has been jinxed in past years by rain.

Other best-liked competitors entered included Herman Barron, who won the Western Open at Phoenix last week; Jimmy Demaret, Houston star, and Byron Nelson, former National and Texas Open champion. Biggest crowds are expected Friday afternoon when Bing Crosby and Bob Hope, the movie colony's famous golfers, begin first-round play.

Hogan was considered to be in top form after turning in a par-breaking 67 yesterday over Brook Hollow course at Dallas in Red Cross exhibition matches. Husky Lawson Little ran into trouble at Dallas and turned in a 70. He shattered all Texas Open records last year with a 72-hole total of 673.

RIGBY, Feb. 12 (Special)—A strong band of Rupert Pirates from south central Idaho upset the Rigby club here Tuesday night by a score of 45-33 in a hard-fought battle.

Scoring honors for the evening went to big Ed Schenck, Pirate center, who came through with 23 points. The smaller Rigby players were unable to stop the Rupert giant under the basket.

Rupert led 10-9 at the quarter, 24-12 at the half and 37-19 at the third quarter.

#### ADDED POINTERS ON WHY BASEBALL SHOULD BE GOOD INVESTMENT

#### IN TWIN FALLS AREA... NEED

#### TIE-UP WITH COAST LEAGUE CLUB

Along with the thousands of other south central Idaho baseball fans, this department is still living in hopes that Pioneer league baseball will be kept in Twin Falls another season.

At recent "fan" meetings, directors of the Cowboys have pointed out that they "look it on the chin" to the extent of \$1,400 each during the past season—being a total of \$12,600 in losses.

Of course, in this loss must be included the purchase price of the Twin Falls franchise, which probably ran around \$3,500. That makes a \$1,000 loss per director—if they can realize anything on a sale of their franchise in the future.

However, the future doesn't look nearly as dark as it would if Twin Falls were starting from scratch.

In the first place, a fine park with a very good-lighting system is all ready for use.

In the second, there are still a few ball players on the club that might bring in something.

The third is that nearly \$1,000 in equipment, that the club was forced to purchase last season, is available for operation of the Cowboys this year.

A fourth is that there may be a better collaboration in expenses from the city for the forthcoming year—although previous owners have no complaint on that record.

The main feature is that it would take an experienced baseball man with plenty of time to handle the setup and make a go of it.

Carl Anderson, business manager for the past season, would probably do a much better job in another year than he did during the past when he was getting his baseball baptism.

However, Mr. Anderson has made it very certain that he is supposed to be "retired" and that running a ball club is a pretty heavy item for a "retired" businessman.

And with additional duties being hoisted on him by the federal rationing chiefs, he's going to have nearly a full-time job in that government post—for which, you might be interested to know, he is unable to collect a cent of pay of any kind for labor or expenses from the government.

So it appears, if Mr. Anderson is unable to come back with some sort of a tie-up from San Francisco, that a new man will have to take over operation of the Wranglers.

As has been mentioned time and again in this column, there's nothing wrong with Twin Falls and the Magic Valley as a baseball area.

All the fans here ask—and they seek no more than do the baseball backers in Detroit, Philadelphia, St. Louis, or any other city—is a team that has at least a fighting chance to get out of the cellar.

We haven't the figures available, but we're willing to make a stab at it.

### Coast League Cuts Player Limit to 20

SAN FRANCISCO, Feb. 12 (UP)

—The Pacific Coast baseball league today imposed a 20-player limit on clubs of the circuit and established a 30 cent admission price for all service men in uniform.

League directors at a special meeting, determined to cut the player limit from 25 after May 1 not only an expense-saving means but also as an aid to transportation problems facing the teams.

It will be optional with the club owners as to whether they want to carry veterans or rookies within that limit, although league rules prescribe at least 15 men must be of Class AA experience.

The 30-cent admission charge for service men was imposed at the behest of Maj. Charles Lott, president of the San Diego Padres. He said he followed original rules of the league to admit all service men free, he soon would be bankrupt, for, he added, there are close to 100,000 uniformed men in San Diego.

The charge will be effective on three days a week, except Sundays and holidays.

The ladies, too, who have been attending games for the small price of two-bits, will be forced to bounce 30 cents through the ticket window henceforth.

A tacit agreement was reached among the loop directors to experiment with twilight baseball now that wartime has been placed in effect.

The directors also voted a lifetime gold pass to President Roosevelt in "appreciation" for his signal to continue baseball, day and night, come what may.

A football and baseball star during his four years at West Point, Ellinger after graduation was assistant football coach at the academy until 1933. He then went to Dartmouth as assistant to Earl (Red) Blaik, returning as the latter's assistant when Blaik became Army's head coach in 1940.

#### BOXING

—Watch for Charles (Lulu) Constantino to become one of the country's biggest box-office attractions... The flashy New York featherweight, unbeaten in 52 fights, already ranks close to Harry's Ray Robinson as a local attraction. He meets Bobby (Polon) Ivy of Hartford, Conn., in Madison Square Garden on Feb. 27 in a semi-final to the Allie Stolz-Bobby Ruffin bout and the match has aroused as much interest as the main go. Billy Conn is a 5-1 favorite over Tony Zale of Chicago in tomorrow night's fight at the Garden.

That's the top scoring feat this season.

# Babe Ruth, Other Stars Work on Gehrig Movie

By FREDERICK C. OTHMAN  
**WHIGLEY FIELD, Los Angeles, Feb. 12 (UP)**—With a big black cigar in his face and a \$25,000 check in his pocket, the mighty Babe Ruth ran onto the diamond today to fight it out for home run honors with Gary (Lou Gehrig) Cooper. They and some 40 other baseball players, mostly genuine, were swatting the ball around for Sam Goldwyn, who has in production a movie called "The Pride of the Yankees" concerning the career of Larrupin' Lou.

"And if that Cooper doesn't get in there and play ball like Gehrig, I'm going to be in the doghouse for sure," reported Lefty O'Doul, manager of the San Francisco Seals, who has been trying to teach movie hero Cooper how to play baseball, and left-handed at that.

Recalls Last Fight  
 Ruth, O'Doul, Babe Herman and company agreed that Cooper's efforts as a ball pitcher in a previous picture, "Meet John Doe," had been a shame and a caution and a blot on the game of baseball. In this one he's going to do better, or a lot of ball players associated with Producer Goldwyn will know the reason why.

Cooper's already feeling like one big charlie-horse, with aches in every muscle and creaks in every joint. That's on account of O'Doul's constant ministrations with bal, ball, and mitt.

"He even made me go down to the Venice amusement pier last night," Cooper said, "and spend the whole evening in one of those automatic ball pitching booths. The machine would pitch out the ball and I'd whang at it, left-handed. That kind of business."

Redeclared Stands  
 With some extra papermache fingers in the grandstand and false fronts on the box seats, Whigley field had become the Yankee sta-

dium. The grass in the infield was real and the despair of the groundskeeper. How, he demanded, was he going to have grass for the opening day of the coast league if the movie-makers kept dragging machinery over it?

Drum machinery they did. Director Sam Wood, who used to play semi-pro himself, laid a track between home plate and third and on it he mounted a perambulating camera, which followed Cooper-Gehrig in the re-enactment of the first homer he ever hit for the Yankees.

Five hundred fans cheered silently in the stands so they wouldn't interfere with the microphones. They earned their \$8.50 per day each, because they had to look like 40,000. Whichever way the camera turned, they had to run to be in the scene.

Ruth Worries  
 While Cooper worked out his aching muscles beside the camera track, Ruth sat in the dugout and worried about his whiskers. He said he'd been trying to shave himself for 20 years without ever learning how. But he has to get to work before his barber shop opens and where does that leave him? With his face all chopped up, like a cannibal sandwich. That's where.

Ruth received \$25,000 for his movie acting career and said he expected to earn every cent of it. He acts throughout the picture, and according to Wood, is performing like a veteran. Years ago, Ruth said, he starred in two silent epics of the diamond and made five two-reel comedies. Movie acting doesn't scare him. He doesn't even mind the paint and the powder. Just shuts his eyes and lets the makeup man do his stuff.

He looks about like he always did, too, except that right now he's got a bad cold. Caught it on the train coming west. A couple more days of bawling practice and he figures he'll be feeling better.

# Ben Chapman Guns for Big League Return

By FREDERICK WILLIAMS  
**MONTGOMERY, Ala., Feb. 12 (UP)**—Ben Chapman, released from major league baseball last season after 12 years of big time, is ready and anxious to get back.

The former American league star, who set a modern league record in base stealing in 1931 by swiping 61 during the season, says "nobody ever wants to leave the majors. And don't believe it when they say they are glad to get out."

Chapman, now 33, says he has "plenty of baseball, real major league stuff, left for three or four more seasons." Draft exempt—he has a wife and two infant boys—he's willing to take a cut, say around 50 per cent of his previous salaries, just to get back in big time ball.

Gets Release  
 The right-handed outfielder was released by the White Sox at the end of last season after 12 years in the American league. But Chapman knew that one day his major league career was going to end—and he was set for it.

Chapman today is "well fixed." He owns a large bowling alley in Montgomery and has just opened a bakery "on which all the bills are paid."

He owns his own home in a swanky suburb here, right next to a golf course where he keeps in shape.

Signs Contract  
 Chapman already has signed as playing manager of Richmond in the Class B Piedmont league next season. "And in three years, maybe a little longer, I may get back to the majors as a manager," he hopes.

Despite his secure setup, the big righthander is itching for another crack at the majors. Chapman, who made between \$12,000 and \$15,000 during his playing days, realizes he isn't the young man he once was. "But I've got several more good years. They released me after a bad season last year when I was hurt three times. Now I'm back in shape and will throw up everything just for another crack at the big time."

## WEST END POLIO DRIVE NETS \$187

BUHL, Feb. 12 (Special)—A total of \$187.79 is the contribution from Buhl and the surrounding territory in the infantile paralysis drive put on by the Junior Chamber of Commerce, according to the report given by John Barker, who was left in charge by Kurt Kerpa, Jaycee president.

In Buhl a net of \$83.13 was raised mostly from mugs of dimes letters sent out by the junior chamber and from the use of "wishing wells" in the business houses.

**Clover Assistants**  
The Clover community, whose chairman, Rev. W. F. Dannenfeldt, brought to headquarters \$58.85, which came largely from members of the Trinity Lutheran church of Clover, helped the Buhl total tremendously.

Another big subscription came from Castelford, where the women's organizations banded together to give a tea that netted \$33.85.

Included in the Buhl total is the contribution of the Nazarene church, Buhl.

From the Buhl-Shoshone basketball receipts, 10 per cent of which was given as the high school's participation in the state wide sports anti-polio drive \$2.96 was derived. Supt. George Likeness said. The Buhl total was exclusive of this.

**Jaycee Committee**  
Working on the junior chamber committee were Marlon Ambrose, Gus Topley, Ed Kavenaugh, Gus Avered, and John Barker. Miss Mabel Sandgren mimeographed the letter the chamber sent out.

About 50 per cent of the money raised is to stay in Twin Falls county for local use.
