Strong Complaint Indicated at London as Result of New Hospital Barrages

LONDON, March 6 (UP)—The government instructed Sir Eric Drummond, ambassador at Rome, to make an immediate protest to the Italian government against the bombing of the Ethiopian Red Cross unit at Koran in Ethiopia.

Steak Aroma Ends Strike

PHILADELPHIA, March 6 (UP)—The sight and aroma of steaks helped to break the five-day hunger strike of 10 Eastern penitentiary convicts, prison officials revealed today.

The steaks, surrounded by potatoes, were placed in the punishment cell block where the 10 had been separated from other prisoners following rioting last Saturday.

The aroma filled the block. The convicts held a cell-to-cell consultation and shouted for the guards.

"Give us good," they cried. "The prisoners were returned to their regular cells. Guards then brought them the regular prison menu—hot oatmeal, coffee and bread."

COOL RECEPTION MEETS PLAN FOR NUISANCE TAXES

Chilly Attitude of Committee Points to Enactment of Original Bill

TREASURY IS LUKE WARM

Unassigned Note-Takers Show Originators Themselves Are Not in Favor

WASHINGTON, March 6 (UP)—A schedule of sharp increases in nuisance and inheritance taxes has been submitted to the house tax sub-committee by the treasury as possible alternatives to President Roosevelt's proposal to increase revenues \$200,000,000 by a corporate surplus tax.

These proposals, with other alternative schedules submitted to the sub-committee of the house ways and means committee, met with a cool reception that prospect of enactment of a tax measure in the bill proposed by President Roosevelt was strengthened substantially.

Treasury Also Cool

This committee sentiment appeared to be strong for all features of the President's proposal, except that for enactment of a modified processing tax. There were indications this tax might be dropped.

Latest Alternatives

The latest alternative schedules submitted by the treasury included:

1. An increase of 1 cent in the tax on a gallon of gasoline.

2. A tax of ten per cent of slot machine receipts.

3. A special unearned income tax on the basis of the present rate of 10 per cent.

4. A special unearned income tax on the basis of the present rate of 10 per cent.

Governor Refuses Trooper Plea as New York's Walkout Spreads Rapidly

NEW YORK, March 6 (UP)—Union elevator operators and service workers aimed their six-day-old strike at a cluster of the tallest buildings and 15 of the largest hotels in the world today.

Their offers to arbitrate, rebuffed, union leaders ordered elevator operators, janitors, superintendents, mechanics, mail boys, bell boys, and telephone operators out of 2,500 buildings in New York City.

The strike spread with efficiency but little violence. Police who arrested more than 100 strikers and strike breakers in the strike's first four days had few calls yesterday or today.

WASHINGTON, March 6 (AP)—
Testimony was presented to senate

"His holdings were disposed of to avoid a forced sale by his estate," Burns testified. "He wanted to have liquid assets to meet his inheritances."

Sen. Lewis B. Schwellenbach, D-Wash., said Cities' Service stood salesmen were informing employees in 1920 that "the stock was liquid."

"But," he added, "the owner was out selling his own stocks so that he could get into a liquid position."

"That's not a fair statement," Burns replied.

BASKETBALL

High school athletes of south central Idaho have converged upon Twin Falls for the annual boys' basketball tournament of class A teams, resolved to determine the championship of this section.

With eight fast teams from Rupert, Wendell, Ogden, Kimberly, Gooding, Bluff, Hilday and Twin Falls starting in the tournament, the fans are witnessing some thrilling games on the huge court in the high school gymnasium.

This section is basketball-conscious, if there is such a thing. There is universal interest here in the sport which attracts players of skill from the time they are in grade school.

With keen competition throughout the season between the schools, a high standard of sportsmanship brought into the game and the encouragement which large attendance lends the playing there are some outstanding players and teams developed each year.

From the standpoint of the general public, there is little concern over who wins the tournament. What is hoped is that there will be strong rivalry, brilliant playing, no serious accidents, a fine display of good sportsmanship by players and spectators alike and without a successful basketball tournament.

The city and school welcome the many persons here in connection with the games series and trust this will be one of the outstanding tournaments in local history.

What is more, it is to be hoped that the teams will want to continue to accept the hospitality of Twin Falls for future contests.

With baseball players heading south for the training camps, bachelors must exercise special caution because of the possibility of being mistaken for imps.

NO PLACE FOR POLITICS

Minneapolis continues to find itself a sensational news center on the heels of the Liggett assassination. The latest development is the indictment of two police captains for alleged neglect of duty in permitting dance hall and tavern proprietors to violate the law.

The vital significance of the situation is expressed best in the words of Federal Judge Gunnar H. Nollbye of Minneapolis, who stated that "we can never expect a healthy condition in our community as long as those sworn to uphold the law permit mobs to violate laws with impunity."

In other words, a city must divorce politics from law enforcement to keep a clean house. And in this respect Minneapolis is, perhaps, no worse than many other metropolitan cities.

The point to grasp is the need for constant and pitiless publicity. Without it, an indifferent electorate unconsciously paves the way for corruption.

An opera is banned in Russia because the writer was not red enough. Did they get a look at him after he heard of the ban?

TRIAL BY GOVERNOR

The American public is witnessing these days the unprecedented spectacle of trial by governor. There have been instances of trial by mobs, and occasional trials of trial by newspapers, but Governor Hoffman of New Jersey provides, in the Hauptmann case, the lone example of trial by a state executive.

In the face of rulings of four courts, he has reopened the case to examine one or more of the state's witnesses, and publicly has declared his conclusions as to the weight of the evidence of each.

Consequently, of course, the sensational case has been allowed to enter politics.

This is no brief for or against Bruno Hauptmann. The law decided his unfortunate case long ago. Neither is this a question of Governor Hoffman's right to examine the case, although under New Jersey law, he does not so much as hold the power of pardon.

But one wonders if there isn't something woefully lacking in a system that permits hypothetical retrial of a case by a governor, with consequent circumvention of orderly legal processes.

Astronomers say that distant objects in the heavens rush away from the earth, which indicates that, in these times, they have hit us.

QUOTE QUOTATION CRAZY

The one distinguishing hallmark of the 1936 presidential campaign so far is its heavy reliance on shades of other days. As speakers approach the platform and announce the lack of Jefferson, Washington, Lincoln, Jackson, Wilson and occasionally Socrates.

The amusing angle of this wide-spread use of quotations is that other side can use the same words. There seems to be a wholesale disregard for what Washington may have done or Lincoln recommended. If the quotations fit, that is what counts.

One wonders how the campaigners would fare if they were suddenly forced to rely on cold, sound logic, devoid of the support of half the former presidents of the United States. Certainly an anti-quotation speaker just now would refresh the political scene.

A geese is a low, heavy necked bird which is mostly meat and feathers. His head is on one side and he sits on the other. He can't sing very much on account of dampness of the neck. He ain't got no between his feet, and he can't go to a bathroom on his stomach to keep him from stinking. Some geese grow up and have curls on their tails and is called ganders. They don't have to sit and hatch, but just eat, sleep and go swimming. If I was a goose, I'd rather be a gander.

BULLETS DRILL BLAZING GAS TRUCK TO AVERT BLAST

A new hazard added to the flood and snow dangers that beset highway traffic in California was taken following blaze, with its explosion peril, resulting when a truck carrying 5700 gallons of gasoline caught fire between Auburn and Gaspar Valley. The driver fled to safety and all traffic was halted some distance away. At the extreme left is Capt. Joseph Blake of the state highway patrol as he shot holes in the side of the tank to provide gasoline outlets and lessen danger of a blast.

COMMUNIST HEAD SPEAKS ON RADIO

Occasion Passes Quickly as
Broadner Gets Facilities
from Columbia

NEW YORK, March 6 (AP)—Earl Browder, secretary of the communist party in the United States, addressed the nation by radio last night—the first of his political persuasions to enjoy network facilities free.

Columbia, which has been the building housing the studios of the Columbia Broadcasting System, 100 men calling themselves patriots, whom the communists called fascists, picketed and a few stations dropped off the network, but otherwise the occasion passed uneventfully.

Fish Will Answer
Among Browder's listeners was Congressman Hamilton Fish, who will answer him tonight over the same network. At the same time Browder spoke on "The Communist Party of 1936." Fish will speak on "Communist versus Americanism."

Columbia Broadcasting System and received a number of protests predicting dire results because it had allotted free time to the communist party. Officials had prepared a copy of his speech in advance and it was carefully watched for any hint of subversive doctrine. And while he addressed the microphone, an engineer stood up to cut him off the air the instant he deviated from his text.

Browder is a native Russian and now is considered the most powerful man in the American communist party.

Farmer-Labor Plan
He pleaded for formation of a Farmer-Labor party—conceded the American people were not ready for such a move. He attacked the two political and Democratic parties, the New Deal, the two party system, Wall Street and the House of Morgan, Publishers William Randolph Hearst and Bernard McFadden, Governor Eugene Tamm of Georgia and the Rev. Charles C. Cowley, and by inference, compared his party's ideals with those of Abraham Lincoln.

He said the National Stations of the "yankee network," affiliated with the Columbia System, dropped the network for the period of his speech, but for the period Lee network of the Pacific coast. Columbia offered the speech as a "controversial" feature and its members were free to accept or reject as they wished. A few other scattered stations rejected.
