TINY ISLE VITAL AIR-ROUTE BASE

Dot in Pacific Seems Slight
But Actually Has High
Importance

WASHINGTON (U.P.)—A small island in the Pacific whose mere existence was debated for years seems likely to become an important link in future American-Australian air routes.

The island is Kingman Reef, a mere dot in the wide Pacific, but important as a seaplane-landing base because it contains a deep, well-protected harbor, completely protected from ocean waves by a circular rim of land.

William T. Miller, superintendent of airways for the commerce department, recently visited the island and thereafter announced:

"Kingman Reef probably will figure prominently in the development of commercial aviation on the route to the Antipodes as one of the two stops between Honolulu and New Zealand."

Islands Announced by U. S.
Miller, during the last year, has headed four expeditions from Honolulu to Kingman Reef and the nearby islands of Palmyra, Jarvis, Howland, Baker and Samoa. His object was to obtain weather data and to survey possible landing places for airplanes.

As a result of these trips, the islands of Jarvis, Howland, Baker and Samoa and the United States and Great Britain long have been claimed without being such.

The British and American claims were formally annexed to the United States.

The interesting thing about Kingman Reef, which lies roughly at the intersection of a line drawn from Honolulu with another drawn west from Panama, is that for years its mere existence was debated.

Various sailors had sighted land there in 1897; the British warship "Penguin" advised the admiral that it had "sailed directly over the area where land was once reported," and that none had been found. The British and Americans derived it from the navigation charts.

In 1921, however, the U. S. Eagle 40, en route from Palmyra Island to Honolulu, reported to the navy department that it had seen what looked like dry land at Lat. 16° 33' north, Long. 162° 18' west. Little attention was paid to the report.

A year or so later, however, J. A. Thurston, publisher of the Honolulu Advertiser, accompanied a party to the island and, on May 10, 1922, landed there and claimed it in behalf of the United States. He left there a glass jar containing an American flag and Honolulu newspapers.

When the discovery was reported to the state department, Thurston, according to authorities here familiar with the story, was told that he must be wrong as there is no land at Kingman Reef.

The island was recognized officially in 1923, when a U. S. navy expedition landed there and found the records left by Thurston. It is now recorded on U. S. charts.

UNITY

The Relief society organization entertained recently at the ward hall—honoring Mrs. Mary Church and Mrs. Martha Manning, former officers of the organization. Games were played, directed by Mrs. C. L. Banner. Refreshments were served to 80.

Presented each guest with a gift. The meeting of the Just-A-Mere club has been held. Thursday has been postponed one week.

Mrs. Addie Huber has been chosen second counselor in the Relief society.

Mrs. and Mr. L. W. Norman, Provo, Mrs. Dorothy Hicks and Theodore Hicks, Birdseye, were guests of Mr. and Mrs. Albert Larson.

Mr. and Mrs. W. L. Cannon, the summer to assist Mr. Larson with his work.

Mrs. Audrey Warr, Mrs. Emma Mallory and Mrs. R. A. Matthews attended and received certificates of graduation from the Ired Crabs school of nursing held in Burley.

Mr. and Mrs. Dick Cox, Buhl, are living at the I. E. Harris home. Mr. Cox will have employment on the ranch this summer.

The primary organization will sponsor the program at Sunday evening service. Program will be given by the children.

Ellis Burnett made a business trip to Ogden the fore part of the week.

Mrs. Amy Marsh and three children, recent guests of Mr. and Mrs. Olson, have returned to their home in Salt Lake City.

Mrs. Elmer Wolfe and Mrs. Olive Hagman will be joint hostesses to the Happy Hour club Friday at the Elmer Wolfe home.

WHAT'S KEY TO THIS

It's obvious that this cartoonist portrays two letters—but on what do the letters appear? There are plenty of clues to guide you to the solution. Yes, it's something everyone should be familiar with. The answer box on the last page will end your puzzlement.

Your Baby's Health

By DR. MORRIS FISHER, Editor, Journal of the American Medical Association, and of the U. S. Health Magazine.
A woman who is going to have a child must not only for her child, but also for the baby. The child depends on its mother for its food supply, which comes to the baby through the blood vessels which "connect" it to the mother.

The food substances going to the baby are, for the most part, governed by the food the mother takes. If her food supply lacks substances that the child requires, then the child must be extracted from the mother's tissues and organs to her considerable detriment.

There used to be an idea that a mother had to lose a tooth for every child that was born to her. It was a well-established fact that the mother's teeth would become loose and decay during that period.

Now we know that, if the mother eats enough calcium and phosphorus and gets enough vitamin D during this period, her tissues need not be compelled to give up these elements to supply the child.

This does not mean, of course, that she ought to overeat. Overeating would throw an excess burden on her digestive organs and certainly her body is not in any condition to undergo excess of any kind.

There is some slight increase of weight of the mother, which is normal during this period, but any abnormal increase in weight will have a bad effect. At the same time, the prospective mother need not think that she can keep down the weight of the baby by starving herself. The baby's weight is not dependent entirely on the amount of food its mother eats.

During this period, this period should be well chewed to aid digestion, exactly as it should be well chewed at any other time. In fact, a good general rule for the prospective mother is to eat the same food that she usually eats, but to make certain she also gets plenty of milk and more fresh fruits and vegetables than she would take ordinarily.

She should watch particularly her supply of vitamins and such salts as calcium, phosphorus, iron and iodine. She ought to have eight to 10 glasses of water a day, unless her amount of fluid are restricted by her doctor for some special reason.

The necessary proteins will be supplied by meat, eggs, milk, and such vegetables as peas and beans. The fats are important, particularly butter, cream, and cheese, because they provide vitamin A. The carbohydrates and starches, including bread, potatoes and cereals, are needed to provide calories. Much care of the mother's demands for extra energy.

Besides getting a rich supply of vitamins and minerals, the mother should eat a diet of extra food and fruits, particularly citrus fruits and tomatoes, the prospective mother may require.

The carbohydrates and starches, including bread, potatoes and cereals, are needed to provide calories. Much care of the mother's demands for extra energy.

AIRPLANES WILL HUNT METEORITE

Russia Plans Intensive Search
for Huge Mass Recorded
28 Years Ago

MOSCOW (U.P.)—Airplanes will be used this spring in a renewal of the search for the largest meteorite known to have fallen during recorded history.

The meteorite, which fell in 1908 in the valley of the river Podkamennaya Tunguska, Siberia, remains unlocated—despite numerous searches by the Academy of Sciences of the U. S. S. R.

This year airplane photographs will be taken of the area when the snow melts and the trees are still bare, in the hope that both the direction from which the trees were knocked down and the crater formed by the impact will be shown.

In this manner it is hoped that maps may be drawn which will enable an expedition to reach the meteorite.

WILKERSON RITES

A large number of friends and relatives attended services yesterday afternoon at the Twin Falls cemetery for Eugene B. Wilkerson, 63, who died last week.

Rev. C. I. Andrews, pastor of the Kimberly Methodist church, officiated.

Palbearers were O. M. Fisher, W. E. Taylor, C. R. Detwiler, G. M. McVey, J. M. Van Hook and J. J. Colbert. Interment was directed by the Twin Falls mortuary.

High School News

The Commercial club met yesterday during afternoon advisory with Bill Schifman, president, presiding. It was decided that a special meeting would be held in the near future for the purpose of deciding whether or not a swimmer would be held.

The local chapter of the Pan-American Student League in the meeting yesterday set the tentative date of April 29 for a swimmer to be held at Nat. 55, Nat. 55, Nat. 55.

The Blue Triangle cabinet met yesterday noon and notified of the next year. Election will take place tomorrow in the regular meeting.

Marie Minger, club sponsor, who ever is elected president will be sent by the district to the Girl Reserve conference at Payette lakes this summer. Marie Nelson and Joan Clark were nominated for president; Maxine Dora and Alice Peavy, vice president; Myrtle Minger, Barbara Baines, secretary; Caroline Dudley and Lucile Alford, treasurer.

Records club, under the sponsorship of Miss Minger Minger, is giving a winter most tomorrow afternoon at the Twin Falls cemetery for Eugene B. Wilkerson, 63, who died last week.

Rev. C. I. Andrews, pastor of the Kimberly Methodist church, officiated.

Palbearers were O. M. Fisher, W. E. Taylor, C. R. Detwiler, G. M. McVey, J. M. Van Hook and J. J. Colbert. Interment was directed by the Twin Falls mortuary.

PLANES WILL BE FOREST FIRE AID

Program of Aerial Attack on
Blazes Planned by U. S.
Department

WASHINGTON (U.P.)—A program of aerial attack on forest fires and the development of new ground equipment, will be announced by the forest service of the agricultural department, Roy Hedley, chief of the fire control division, announced.

Hedley, after his return from a fire control meeting at Spokane, said that "aerial fire control" which is opening up an entirely new field of forest fire combat, is perhaps the most important reform in combating the menace of fires.

The division, he said, is planning to experiment further "to find out how far we can go, in using planes in combating fires."

Planes work in this field has been done by forest service officers, he said, and the next step will be experimenting in dropping water or chemicals in direct attack on fires to retard their progress.

"Merely dropping chemicals on fires cannot solve the whole fire problem, however," Hedley continued. "If it ever becomes practical to carry chemicals in airplanes to fight fires, it will be a great help. As yet the conventional type of plane is not adaptable for this work."

Fire forces also are experimenting with dropping bombs on small fires to retard progress of the flames until ground crews arrive. Bette Magel, Catherine Caldwell and Pan Rogers to attend a chapter meeting this afternoon to nominate officers who will be most valuable for transporting supplies and equipment quickly. Removable success has been evident in dropping supplies to ground crews. Such work is a great help in fighting fires deep in the back country."

Dr. Boyce, Foot Specialist, O. C. C. Anderson, Ph. 353-J, Adv.

**ANGELS SINK TO
DEEPER CELLAR**

**Sacramento Sends Los Angeles
Further Down; Seattle
Takes Second**

By United Press
Rain washed out a scheduled game between the league leading Oakland Oaks and the San Francisco Seals in San Francisco Tuesday.

Los Angeles is in the cellar. The Sacramento Senators pushed their deeper into their unenviable position Tuesday by winning their series opener in Los Angeles 10 to 8.

The Senators smacked out five hits, scored five runs and chased Hugh Casey to the showers in the first two innings of the contest. Buxton met a similar fate late and Whitey Campbell finally halted the parade, but only after the Senators had piled up a total of

10 baschits, including homers by Garibaldi and Adams.

Missions Drop Notch

Another favored team, the Missions, dropped back to third place by losing a 12 to 9 decision to the Portland Beavers in a Pacific Northwest league battle. The crowd of 16,000 persons, the largest crowd of the season in any park.

Tom Flynn, Ad Liska and Ulicki permitted the Missions 13 hits

but the Beavers landed on Lamanaki, Gallisloh and Johnson for 13, saving the day. Sixteen batter smacked two-baggers.

Seattle in 2nd Place

Seattle took advantage of the Missions defeat to pull into undisputed possession of second position by bowling over the San Diego Padres, 5 to 4, in baseball's debut at Seattle. Ten thousand fans turned out and Gov. Clarence W. Martin pitched the first ball.

Lou Koupal, holding the Padres to seven hits, won his sixth victory in as many starts. Herm Pilletti allowed Seattle 12 blows and took the loss. Seattle won out in the ninth inning when Outfielder Jerry Donovan singled to score two runs

Deliberate Approval Resolution
for Retention of Long
and Short Haul

A banquet and dance last evening at Elmer's hall concluded a two-day session of the 10th annual convention of the Idaho Coal Dealers Association, and today saw the more than 100 attendees en route to their homes.

The convention was declared by El H. Coffin, Boise, re-elected president, to have been the most successful in the history of the group. He paid tribute to the committee and to the hosts.

Long-Short Haul
At the final business session resolutions were adopted in favor of the retention of the long and short haul clause of the interstate commerce commission, transportation act, and asking for simplification of grades of coal, especially in relation to asking for members of the resolution committee were George Winters, Twin Falls; E. E. Hughes, Oregon; and Harry E. Fisher, Idaho Falls.

At the banquet, B. P. Manley, Salt Lake City, served as master, and a floor show was presented by the Diamond-Bates school of dance. Winners of a cash prize of \$100 each were Herman Hines, Home Lumber and Coal Co., Twin Falls; and M. M. Hatfield, New Plymouth. The meal was given by Utah and Wyoming mine operators.

COLON SHARPLY REBUKES D. A. R.

"Go Back to Knitting," Says
Rep. Vito Marcantonio
to Women

WASHINGTON, April 22 (AP)—The chairman of the Daughters of the American Revolution convention, Mrs. J. B. Sullivan, attempted to amend the constitution during sharp rebuffs today from congressmen, including Rep. Vito Marcantonio, who said they "go back to their knitting."

The D.A.R. convention's committee on national defense through patriotic education, cautiously commented on proposals by Marcantonio, D. N. Y.; Sen. Lynn J. Frazier, R. N. D.; and Rep. Paul J. Kelly, D. N. Y., who asserted the organization would battle any attack on the American form of government, whether by Republic or Democrat or Socialist.

Rep. Marcantonio, whose amendment for governmental ownership and operation of national resources was described as "very similar to the Socialist party's workers' rights amendment," replied:

"I am not interested in the amendment of the American Revolution. I am interested, however, in the famous and glorious history of the Mothers of the American Revolution. Their progeny have certainly degenerated tremendously in intellectuality."

"If in 1776 we had had the D.A.R. in place of the mothers, the revolution would have failed. If they went back to their knitting, they would accomplish a great deal more than in sitting in convention."

SERVICES HONOR GOODING WOMAN

GOODING, April 22 (Special).—Funeral services were held for Mrs. Evangeline Barker yesterday afternoon at services at the Methodist Episcopal church with Rev. H. W. Foxman officiating. Burial was in the Hill cemetery under supervision of the White mortuary, Twin Falls.

Funeral services were held for Mrs. Barker yesterday afternoon at services at the Methodist Episcopal church with Rev. H. W. Foxman officiating. Burial was in the Hill cemetery under supervision of the White mortuary, Twin Falls.

BREAKS RECORD

NEW YORK, April 22 (AP).—Howard Hughes, holder of the new speed record between Miami and New York, failed on his fourth attempt today. He will not attempt to break the record the other way, nor will he make an attempt at any other record in the near future, he announced.

Hughes, motion picture director and speed flyer, raced his plane over the 1,196 mile course from Miami yesterday in four hours, 21 minutes and 32 seconds. The previous record was five hours, one minute, 30 seconds.

Mother of L. D. S. Missionary Passes

PAID, Idaho, April 22 (AP).—Mrs. Clara O'Connell Walker, 70, mother of Roy A. Walker, president of the German-American League for Boy Scouts mission, died last Tuesday from ailments incident to age.

Mrs. Walker lived in Blomington for 71 years. She was here visiting her daughter, Mrs. Floyd Hays.

Funeral services will be held Thursday.

**RENO SPORTSMAN
KILLED IN CRASH**
Morrison Burns to Death on
"Last Airplane Flight"
at Alameda

ALAMEDA, Calif., April 22 (AP)—Charred bodies of Gibson, K. (Buzz) Morrison, Reno sportsman and aviator, and Joseph F. Long, Alameda aviator, lay in a morgue here today, horribly burned in an airplane crash which terminated Morrison's "last flight."

The two airplanes took off from San Francisco Bay airport on a flight to test the five-place cabin monoplane Morrison reportedly intended to sell in accordance with his young wife's wishes that he give up flying.

Burst into flames
Twenty or 30 feet above the ground, the ship nosed downward, wing tip smashed and it crashed, bursting into flames.

Emergency flares for night landings were believed to have ignited the blaze. Apparently knocked unconscious in the crash, the bodies were burned to death while the intense heat prevented airport attendants and firemen from rescuing them.

Mrs. Morrison, who flew from Reno with her husband, did not witness the accident. She was in an Alameda hotel. The couple had a one-year-old daughter.

Captured by Rebels
Morrison was the son of Dr. and Mrs. Sidney K. Morrison of Reno. He received wide publicity in 1928 when he became a pilot for the Mexican government, was forced down in Sonora, Mexico, and captured by rebels. His release was arranged through diplomatic channels.

Long, repair service operator, was an expert mechanic, chairman of the Automotive Engineers' association here, and had intended to sell the ship for Morrison after conditioning it. He leaves a widow and his mother, Mrs. Katherine Long of Seattle.

NEW CALL ASKS JUNIOR CCC MEN

Urgent call for additional enrollments in the Junior C.C.C. has been received by H. H. Burkhardt, county relief supervisor, those accepted to enter upon their duties Friday. Registrations must be completed not later than Thursday. Eligible are men between 17 and 28 years of age whose families are on relief. Additional information may be secured at the Idaho Cooperative Relief office at the corner of Second and Third streets east.

The life of a hair from a human head is estimated at six to 10 years.

HEALTH SERVICE HIRES EMPLOYEES

Federal Funds Help Idaho's
Set-Up as Nurses Are
Put on Staff

BOISE, April 22 (AP)—Federal health service funds today made 16 Idahoans richer and happier through increased salaries and new jobs.

Idaho's department of public welfare, cooperating with the federal health service, is adding nurses and increasing the salaries of technical workers in the department.

Those who benefited from the public health funds are: Mary Cosgrove, Elizabeth Pugmire, Virginia Stinson, Eleanor Chapman, Nell Hullett, Gladys Devlin, Mary May, Doreen Jensen, Mildred Miner and Irene Heimann, nurses at \$100 a month; Cleo B. Nelson, trainee, \$125 a month; J. Peterson, increase of \$85 a month; W. V. Leonard, state chemist, increase of \$50 a month.

M. J. Hammond was added to the accounting staff of the department. Dr. J. D. Dunsmuir, state medical adviser, was boosted to \$100 a month, and Echo Dell Watson was appointed his secretary at \$125 a month.

PLAN RITES FOR W. H. FOWLER, 65

BOISE, April 22 (AP)—After months of uncertainty, a moratorium on mining claim assessment work for the year beginning July 1, 1936, became practically assured when the act passed the house yesterday.

The moratorium passed the senate last month and now needs only the signature of the President to become a law. It was introduced by Senator W. E. Dora.

WENDELL, April 22 (Special).—Funeral arrangements are being made today for W. H. Fowler, 65, resident of Wendell for the past 20 years, who died yesterday at his home west of here. He had been ill for a long period.

Surviving him are his wife and two sons, Capt. William Fowler, C.C.C. camp commander, and Lee Fowler.

The body rests at the Thompson mortuary, Gooding.

The convention was declared by E. H. Coffin, Boise, re-elected president, to have been the most successful in the history of the group. He paid tribute to the committee and to the hosts.

At the final business session resolutions were adopted in favor of the retention of the long and short haul routes of the interstate commerce commission transportation act, asking for simplification of procedure and "velocity" in relation to "black" members of the regulatory committee were George W. Debar, Twin Falls; H. H. Hengge, Oregon; and Harry E. Fisher, Idaho Falls.

At the banquet, H. P. Manley, Salt Lake City, served as toastmaster, and a floor show was presented by the Debar-Bates school of dance. Winners of prizes of a car load of coal each were Herman Hinz, Home Lumber and Coal Co., Twin Falls; and M. A. Strickland, New Plymouth. The coal was given by Utah and Wyoming mine operators.

SOLON SHARPLY REBUKES D. A. R.

"Go Back to Knitting," Says
Rep. Vito Marcantonio
to Women

WASHINGTON, April 22 (AP).—The campaign of the Daughters of the American Revolution convention against "goody" attempts to amend the constitution drew sharp rebuffs today from congressmen, including Rep. Vito Marcantonio, who said they "go back to their knitting."

The DAR convention's committee on national defense through patriotic education, excellently commented on proposals by Marcantonio, D. N. Y. Sen. John A. Freese, R. N. D., and Rep. Paul J. Keville, F. L. Minn., and asserted the organization would battle any attack on the American form of government "whether by Republican, Democrat or House of Representatives."

Replics Cautiously
Marcantonio, whose amendment for governmental reform was described as "very similar to the Socialist party's workers' rights amendment," replied:

"I am not interested in the Daughters of the American Revolution. I am interested, however, in the famous and glorious history of the Mothers of the American Revolution. Their property have certainly degenerated tremendously intellectually.

"If in 1776 we had had the DAR in place of the mothers, the revolution would have failed. If they went back to their knitting, they would accomplish a great deal more than in sitting in convention."

SERVICES HONOR GOODING WOMAN
