IL DUCE MAKES FRIENDSHIP BID TOWARD BRITAIN

Mussolini Moves Energetically To Terminate Friction With England

OVERTURE EASES TENSION

Sends Ambassador to Confer With Eden; Emperor Due To Arrive Soon

By FREDERICK KUH

(Copyright, 1934, United Press)

LONDON, May 25 (U.P.)—Premier Benito Mussolini moved vigorously today to terminate Anglo-Italian friction and inaugurate a generation of "Roman peace" which he recognizes is necessary for constructive, profitable enjoyment of Italy's conquest of Ethiopia.

Under instructions from Il Duce Dr. Dino Grandi, Italian ambassador, visited Foreign Secretary Anthony Eden, to renew Italian efforts for reconciliation with Great Britain.

Grandi's visit to the foreign office followed immediately upon Mussolini's own bid for friendship with Great Britain voiced yesterday in a Rome interview with the London Daily Telegraph's correspondent.

The foreign office consultations, following the unexpected Mussolini overture, promised progress that Anglo-Italian tension, which has increased rapidly since Italy's annexation of Ethiopia would relax.

Special interest attached to the conference in view of the imminent arrival of the self-exiled Emperor Haile Selassie.

In the interview of the Daily Telegraph's correspondent, Mussolini insisted that unity with Britain is the guiding aim of his foreign policy now that an Italian administration has been established in Ethiopia and that the Negro is an exile without a country and without a people.

"This Is Babies' Birthday Party Day"

It apparently is just too divine to be two years old and to have a big, shiny piano to hang on to your birthday party. Which is probably why the Dionne quintuplets, as pictured above, are making the wedding ring with their happy faces. The girls are Marie, Annette (left to right) pounce the ivory and raise their young voices in glee, if not in harmony. Dr. Dato, at left, listens appreciatively. Marie, in his lap, somewhat doubtfully. At right, held by Judge J. A. Yalin, who gave the babies that apricot piano as a birthday present. Emilie appears thoughtful. Perhaps she's thinking over amusing events of the two years she has been on earth. In all, it seems a very successful Dionne birthday party day. Radio broadcasts of the babies' birthday routine were to start at 3:30 p. m. MST, and will wind up when the quintuplets go to bed 30 minutes earlier than usual this evening.

Jury Decries Extreme Penalty For Florence, Murderer of Woman Writer

NEW YORK, May 25 (U.P.)—A "blue ribbon" jury today decreed death in the electric chair for John Florence, 24-year-old white slacker, accused "madhouse murderer" of Mrs. Nancy Kavanagh, whose story was written by EARLE B. STEELE.

ANGOLA, La., May 25 (U.P.)—A posse and a pack of bloodhounds along out through the swamps today seeking Willie Lee Lindley, 35, who, while serving life for murder in Louisiana state prison, camp here, murdered the captain of the prison guard and his wife.

Lindley abandoned his victim's automobile in the hills, which are east of here and near the Mississippi river, late last night. Early today the posse believed it was no close on his trail, which the hounds were following through the damp woods with ease, that they would capture him at any moment.

Known as the "mad boy" in the hills, and convicted murderer of jealousy, Lindley was assigned to the kitchen of the prison guard's home, which was the scene of the murder.

Stabbed While Dabbling Yesterday afternoon he fatally stabbed Mrs. Kavanagh while she was in the kitchen, then fled in wait for him, killing him from ambush and once in the body, according to Coroner E. M. Leverett's report.

The crime was not discovered until 8 o'clock last night. Lindley, driving a Ford coupe, was seen leaving the prison grounds at 8:30.

36 LEAFHOPPER

BROOD IS SMALL, REPORT ASSERTS

Advance Into Cultivated Area Underway; Low Population Confirmed

By MAJOR JOHNSON

Through the movement of leafhoppers into cultivated areas commenced Monday and is expected to continue until about the first of June, the spring "white fly" brood is relatively small, according to J. R. Douglas, associate entomologist at the U. S. bureau of entomology and plant quarantine.

It was predicted in a report issued by him May 5, when it was stated that "if weather conditions continue normal in temperature, the peak of such migration as may occur should be near June 1."

Since that the weather has been only slightly above normal and the low populations of spring broods have been confirmed by later survey work, Douglas says in his report today for the southern Idaho territory.

The situation is full, follows:

Broad Small

"The spring brood of leafhoppers in this region is relatively small due to the low populations of overwintering leafhoppers and a scarcity of favorable host plants upon which to reproduce. These conditions were described in the statement which was issued on May 12 that the weather has been only slightly above normal and the low populations of spring broods have been confirmed by later survey work."

"Weather conditions during May have been generally favorable for the movement of leafhoppers into cultivated areas and consequently the time of migration will be about as expected."

"The movement into the cultivated areas began about May 25 and should reach the peak about the first of June."

WHITTIER POINTS TO HOME TRENDS

State Director of FHA Sees
Wholesome Interest in
Ownership Plans

By HARRY WHITTIER
State Director, FHA

The increased interest in home ownership is one of the most encouraging trends which indicate a healthy situation and adds to the stability of the country. Whatever part of the state you are in, people are talking home ownership and the building of new homes. You hear it on the radio in the clubs and hotels, at dinner parties, and in homes and business houses. It is everywhere and new homes are being built in every town.

The idea of home ownership is not new, but it is new in the sense that we have seen it in the past. Home ownership was a first step toward a self-sufficient family. It was a goal that many people were striving for, but it was not always easy to achieve. Now, with the FHA, it is easier than ever to own a home.

Just what has brought about this change in our thinking? Probably the days of crisis from which we have emerged have made us more serious and have caused us to re-evaluate our priorities. We are no longer content with just having a place to live; we want a home. We want a place where we can build our lives and our families.

Repair Program
The fact that homeowners everywhere are enthusiastically repairing and remodeling their homes is a sign of the times. It shows that people are taking pride in their homes and are willing to invest in them. This is a good thing, for it means that the housing industry is healthy and growing.

Longer Mortgages
Mortgage loans, under the single mortgage plan of the federal housing administration, have longer maturities—sometimes up to twenty years—bear fair interest rates, and are so arranged that people repay them in monthly payments. This makes it easier for people to own a home.

Model Town on 'Quoddy Project Facing Deserted Village Fate as Funds Drop

A splendid headquarters building which may soon have nothing to be the "headquarters of" the permanent structure is designed as offices for the builders and operators of the Quoddy project to harness for electric power the tides of the Bay of Fundy. One of the dam sites is shown at top.

(By NEA Service)

WASHINGTON—The 130 white, painted buildings of Quoddy VIII, shining on the sunny hillside, slope of Moose Island, Maine, form a beautiful picture to warm the heart of an artist.

But they bring nothing but cold chills to the hearts of New Dealers. In Washington, who are racking their brains to find out what to do with the money that has been poured into the Quoddy project, they are not so sure. They are not so sure that the project is a success. They are not so sure that the money is being used wisely.

For \$500,000 of the \$7,000,000 allotted to the Quoddy project, the federal housing administration has been the means of releasing money to the private sector.

GOVERNOR TALKS AT CASTLEFORD

Men's Group Hears Ross On Government Finance at Club Meeting

CASTLEFORD, May 28 (Special)—Gov. C. Don Ross, speaking on government finance and the duties of his office, held the interest of more than 100 persons at the regular meeting of the newly-organized Castleford Men's club in the Baptist church here last night.

The chief executive was accompanied here by Capt. W. H. Abner, Idaho state purchasing agent, and following the talk returned immediately to Boise. Appreciation for his long trip to address the club members was voiced by the committee which extended the governor the invitation.

Harold L. Yeaman, Buhl attorney, spoke on the New Deal and the value of such a club as the Castleford men's organization. A. H. Heiler and Mel Nihart of the commercial committee, reported on farm problems and the water system; and a committee reported on plans for street lights.

ASSIST BOY SCOUTS
Junior Hallett detailed the program being made by the Boy Scouts, and it was voted that the club supply transportation and suits for the scouts at a picnic June 22.

F. G. Thomas was among the speakers who talked on the value of the club organization. D. D. Gibby, president, presided. He appointed committees to arrange for the next meeting. L. L. Gouin is secretary-treasurer.

A feature of the session was the taking of a flashlight picture of the group. Members will each receive one of the views.

At the conclusion of the meeting a luncheon was served by the committee in charge.

CONTRACT BRIDGE SLAM ON SHORT SUITS

By William E. McKenney
Secretary, American Bridge League

Today's hand was sent to me by one who signs himself "Constant reader." I believe the hand will be of interest to all my other readers, and I also hope that my contributor will see it and accept my thanks for the hand, which displays a very interesting squeeze.

While it is a pretty general rule that a contract of six no trump should not be attempted without a five-card suit in either of the two hands, today's hand contains so many high card tricks, in the combined holdings of North and South, that it can be considered, an exception to the rule.

With a three-three break in diamonds, the hand would be a lay-down for a small game, failing this, the possibility of a squeeze is always present.

Today's Contract Problem
South is playing the contract at six clubs. Clever handling of the spade suit will permit declarer to make his contract.

NORMA KENDRICK TAKEN BY DEATH

Body of Buhl Girl Who Died At Boise Brought Back For Services

Buhl, May 28 (Special)—Body of Miss Norma Kendrick, 22, was brought here last night from Boise where death took place yesterday at St. Al's hospital following a protracted illness from a chronic ailment.

Funeral services will be conducted Friday at 2:30 p. m. at the Buhl Baptist church, with Rev. T. A. Kendrick, officiating. Burial will be in the Buhl cemetery under the direction of Heath and Johnson funeral home.

Miss Kendrick was the daughter of T. A. Kendrick, and was born June 1, 1913, at Crossville, Tenn. Her mother presided over her death.

She was a member of the Buhl Baptist church and had her schooling at the local and in the Castleford schools.

Besides her father, she is survived by two sisters, Mrs. J. M. Stover and Jean Kendrick, by four brothers, Richard, Louis, Marshall and Wallace Kendrick, and by her grandmother, Mrs. S. E. Kendrick, all of Buhl.

Now declarer realized that the squeeze had worked and that the club suit had no break, since East was marked with the jack of hearts and West with the ten of diamonds. There being only four cards left in each hand at this point, it was obvious that each dealer held three clubs.

This declarer was able to cash his small club in dummy for his fourth trick.

The word "vaudeville" originally meant a popular song. It was derived from Val de Vire, Norman, birthplace of Oliver Heastell, gay French poet of 17th century.

FORAGE IS POOR IN FOREST AREA

Minidoka Ranger Reports Need
For Drenching Hains to
Assist Livestock

BURLEY, May 28 (Special)—Drenching in the Minidoka national forest is reported in a monthly resume supplied by the forest office here.

W. J. Averill, forest ranger, says that cattle from the basin and Elba divisions started entering the forest on May 13, but the forage conditions on the divisions are much poorer this spring than a year ago and the only salvation is a good drenching rain.

The settlers adjacent to the Haft river division are becoming apprehensive for the summer, as the ground has been drying out fast in the past 10 days. The water supply is meager, with little or no chance of it increasing from the available melting snow on the higher ranges.

Head Water

"Sheepmen on the Snake river don't have been hauling water on trucks to their fields for the past three weeks," he says. "The grass is short and getting tough, consequently the feeders try to graze on the shrubs, which is not desirable. It is reported that some of the feeders are getting out of the woods. These lambs can only be brought back to normal by the feeders getting on the ground and feeding them. The feeders should practically be made to work, and in general they are on the forest mountain feed. However, this year's lambs will be greatly delayed for market and will reach the market very little ahead of the spring range lambs, which, no doubt, will reflect in price reduction. Most sheepmen report, better than usual range lamb crop."

Heglar Section

Bert Henglar, forest ranger, reports on examination of the Heglar springs range water development constructed last season by R. A. labor, on May 19, shows both reservoirs filled to capacity and a good stream of water running through the overflow pipe.

The North Heglar road on the Heglar pass, and also the Sublett leading north on the Hartley pass are still blocked by snow.

May 19th was the first timber sale day for North Heglar this season. Sales were made for nine lots of D. F. Derrick, 100 poles, and 36,000 feet of saw timber.

MARKETS CLOSE MEMORIAL DAY

By United Press

Security and commodity markets in the United States, Europe and South America will be closed Saturday, May 30, in observance of holidays.

With a few exceptions in the south where the New Orleans cotton market will remain open, all primary markets in the United States will close Saturday in observance of Memorial day.

Markets in England and in most of the continent will close early Friday and remain closed until Tuesday for the Whitlout holiday. A similar week-end holiday also will be observed by most South American nations.

Egyptian markets will close Monday, June 1, for Whitlout. Canadian markets will remain open as usual.

HANDBALL MEET

LOS ANGELES, May 28 (Special)—The final round play in the National A. U. U. handball championship matches opened today with three of the four favorites still undefeated.

Jack Hillebrand of St. Louis, ranked among the four best in the country, was eliminated yesterday by Joe Powers of Los Angeles, 21-20, 21-11.

Hoe Plunk of Chicago, defending champion, was forced to three sets in defeating Joe Goldsmith of Long Beach, Calif., 21-21, 21-19, 21-4.

THEATERS IN IDAHO OFFER HUMAN TORCH

Beginning tomorrow at the Idaho theater in "Law in Her Hands," with Margaret Lindsay, Gloria Farrell (above), Warren Hull and Lyda Talbot. The story is woven about the operations of two women lawyers, who after nearly starving to death as honest and upright barristers, decide the public game is one of tricks and to be for criminal law, becoming rich and successful as the "mouthpieces" of a band of racketeers. The program is completed with "Darkie Africa," No. 2, cartoon, novelty and news. Showing for the last times today, "The Night Light," with Ann Dvorak and Patricia Ellis.

WITH ANNE

Phillips Holmes returns to the American screen after successful appearances in European films as Anne Shirley's sweetheart in "Chatterbox." "Chatterbox" is playing at Uncle Joe's. Beginning today and tomorrow is a comedy, romance guaranteed to please.

DEATH SUMMONS BERT SCHWARTZ

BURLEY, May 28 (Special)—Death came at 7 a. m. today to Bert H. Schwartz, 49, at the home of Mrs. Peter Stark, north of here. He had been the victim of illness for the past seven weeks.

Surviving are his wife, Mrs. Retta Schwartz, a brother, LeRoy Schwartz, and three sisters: Mrs. Anna May Schaffer, San Francisco, Mrs. Grace Anderson, Fernvale, Calif., and Mrs. Lila A. Hays, Ukiah, Calif.

He was born April 8, 1887, at Middleton, Calif., and was a member of the B'nai B'rith, O. E. O. P. lodge.

The body rests at the Evans and Johnson funeral home pending arrangements for burial.

MEETING SCHEDULED

HEATHERMAN, May 28 (Special)—Harry Pearson, Clatsop county local conservation chairman, has announced that a meeting of the conservationists will be held here within the next 10 days. A series of such meetings will be held in Clatsop and will be of interest to all farmers, he states.

HUGE FOE QUITS IN NINTH ROUND

Negro Batter Ends Career Of Italian But Gains No New Prestige

By GEORGE KIRKBY
NEW YORK, May 28 (AP)—Lottoy Haynes, "Brown Howitzer" from Philadelphia, blasted Primo Carnera into pugilistic oblivion last night but the achievement could only add to the heavyweight division's reputation for being a technical knockout out over Carnera in the ninth round of a scheduled 15-round bout at Ebbets field. Haynes added to his campaign to menace Joe Louis, who had three times as long to triumph over the giant Italian as he took last March in Philadelphia.

Carnera quit under fire. His face distorted in pain, one of his massive legs paralyzed and his head hanging, he was forced to surrender after the start of the ninth round and mumbled surrender to Referee Artie Donovan.

Carnera's manager, Don Cummings, paid \$2,500 to see the fight. Haynes, who had been fighting a boxing but unimpressive battle, was dumfounded. He hadn't hit Carnera a punching blow in the ninth round, he said, but after the fight, Haynes said: "I didn't know what was coming off."

Left Leg Goes Dead
Carnera abandoned the battle, he said, because his left leg went dead. It wouldn't move. He was a 265-pound former prizefighter. He was carried to his dressing room. They dumped him on a rubber table, and Carnera mumbled: "The leg—go go dead! No feel no feel. Paralyzed. Feel like piece of wood."

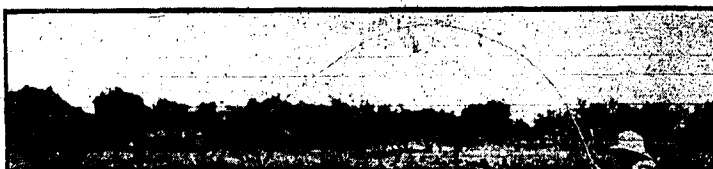

Three physicians examined him, put him in vital signs, thumped him and there and jabbed a safety pin three inches into his leg. The leg didn't move. The pin was jabbed in his right leg, and Primo yelled: "They quit that!"

Temporarily Paralyzed
The doctor poked Primo from the toes of his left leg, nearly to his waist but he showed no visible sign of pain. The referee decided that Carnera's left leg had been temporarily paralyzed by a blow. One of them said: "A blow to the kidney might have done it or he might have been twisting away from one of Haynes' right hooks when a blow to the stomach stopped him and paralyzed a nerve center."

Joe Louis cut at the ring-side. Haynes' left leg went dead. After the end he mumbled and said: "Yes, he's a great boy." Gene Tunney, looking on from a first row seat, said Haynes had a first way to go before he reached Louis' class. Jack Dempsey thought Haynes lacked finishing power.

Haynes hurt his right hand, but not badly, and will try to wipe out the stigma of two defeats at the hands of Al Epstein in a 25th match at Philadelphia, June 22. Carnera is through with the prize prize rings he said for at least next month, and probably will embark on a wrestling career in Europe.

THIS WILL LURE FISHING ARMY AS SEASON OPENS SATURDAY

The lure of favorite fishing spots will attract an army of fishermen as the Idaho season opens Saturday, Memorial day. The success of the angler above typifies the hope of the waiters, but Deputy Game Warden Grover C. Davis warned southern Idaho's fishermen today that prospects aren't too good for the opening.

Poor Prospects Greet Start of Fishing Season

With the 1936 fishing season opening at 12:01 a. m. Saturday, southern Idaho's army of Memorial day fishermen will find "very poor" angling in all except a few spots. Deputy Game Warden Grover C. Davis declared this afternoon.

High and rainy, water conditions in most fishing havens brought forth Davis' gloomy outlook as the season's inaugural morning.

Conceding with a double bottom of start of open fishing in Idaho lakes and streams is expected to produce a near-record exodus from south central communities as Frank Walton's disciples hunt out their favorite reservoirs.

The season opens generally on lakes and streams with certain exceptions, Davis pointed out. In Twin Falls county all waters will be open with the exception of property immediately in front of the two hatcheries on Rock creek.

"Wood river this year is entirely open, Silver creek is the same as last season, with certain portions remaining closed," Rocky creek in Gooding county remains closed as usual.

Snake River Pool
"Snake river fishing is extremely poor at present," Davis said. "Any 25 hours is likely to produce another high water run, although the level is slightly down right now."

His summary of other frequent spots, with the conditions that will greet fishermen on Memorial day, was as follows:

Big Wood river—fairly high but reasonable. Probably good trout catches "are out of the lake here."

Silver creek—reasonably fair. Recreation agency offers an "unknown quantity" because of high water and still.

Mountain streams—generally high and rocky. Those to the south especially poor in prospect because of these factors.

Snake River Pool
Mortgage lake—a perfect fishing spot but trout catches "are out of the lake here."

SENATORS ANNEX PITCHERS' DUEL

Down Portland as Moundmen Give Four Hits; Seattle Beats Leaders

After a day's lapse, pitchers again took command in Wednesday's play in the Pacific Coast League, and held scoring to a minimum.

Top-notch game of the day was a duel between Nathan Andrews of Sacramento and Ad Liska of Portland with Andrews getting the decision, 2 to 0. The Salons got to Liska for a single run in the second inning and another in the eighth, while the big Senator pitcher handed out zeros to the Beavers throughout the game.

Seattle Nips Leaders
In another night game, the Seattle Indians, behind the five-hit pitching of Paul Croy, beat the Los Angeles Misioneros, 5 to 0.

Idaho Wins, Ruins Husky Title Hopes
MOSCOW, Idaho, May 28 (AP)—University of Idaho picked a surprise victory in its third conference game out of 16, defeating University of Washington, 12 to 7, and thereby knocking the Huskies out of any hope of winning the northern division title.

Idaho won by scoring five runs in the first inning and then adding six more in the third by a barrage that included two home runs—one of which went through the infield and rolled deep into the outfield.

LONE POST OPEN IN AUTOCLASSIC

All Except One of 33 Places Filled as Final Trials Come Today

INDIANAPOLIS, May 28 (AP)—All but one of the 33 places in the starting line for the Memorial day speedway races were filled as the last seven prospective entries awaited final trial today.

Los Angeles, who has placed third in the speedway classic twice—and was runner-up once—qualified Wednesday with an average speed of 118.8 miles per hour. Mauri Rose, Columbus, O., qualified with 115.80.

Crashes Into Wall
Russell Snowberger, Detroit, was eliminated when he crashed into the southwest wall during a test run. He escaped without injury but his machine was too badly damaged to be repaired in time for another attempt.

Free France, Los Angeles, who won the race in 1932, abandoned his trial run after negotiating three laps at 100 miles per hour. Although the minimum qualifying speed is 100 miles per hour, using not more than two and a half gallons of fuel for the 25 miles, it is expected that at least 110 miles an hour will be necessary for a place in final trials.

Frame is expected to try again Wednesday, before test runs are completed this French champion, matchmaker afternoon.

THIS CURIOUS WORLD

By William Ferguson

A SHAPELESS, BROKEN SLAB OF BLACK BASALT UNLOCKED THE SECRETS OF 4,000 YEARS OF ANCIENT EGYPTIAN HISTORY. THIS SLAB, KNOWN AS THE "ROSETTA STONE," AND DISCOVERED IN 1799, WAS INSCRIBED IN TRIPPLICATE, IN THREE LANGUAGES, AND FROM IT THE EGYPTIAN ALPHABET WAS DECIPHERED.

POISON IVY
HAS FANGS ON ITS LEAVES! THE SPINES, SHOWN AT LEFT, HIGHLY MAGNIFIED, REACH OUT AND EXTREMELY POISONOUS FLUID WHEN DISTURBED.

Recent investigations into the private life of poison ivy have brought to light more and more of the plant's drugging qualities. Not only the leaves and berries, but the bark, stems and roots, as well as those from a burning field of ivy will irritate the eyes, and even smother the pollen of the ivy plant in pollenage.
