

# RIPP MARKETING PLAN IS MAKING RAPID PROGRESS

### Shippers Have Elected Officers — Blanks Now Ready for All Interested Apple Districts

Latest information received by the Citizen in regard to the Ripp marketing plan, proposed here early this year by H. Ripp, manager of the marketing department of the Portland Chamber of Commerce, is to the effect that the shippers have completed its organization by electing F. F. Clark, Hood River, president and Clifford White of Wenatchee, secretary.

"Says Mr. Ripp in a communication to this newspaper: "The only change we know of in their form of organization different from that of the previous year is that the shippers have agreed to accept for membership in the different local shippers' organizations any grower who actually grows and markets as much as one hundred acres a year.

"Since my last letter, the plan as agreed upon at the Seattle conference has been unanimously approved by the Agricultural Council and the Pacific Northwest Advisory Board as a whole, the latter having a membership of several hundred business men, and we hope this action may cause other business men in different apple districts to take a more active interest in the organization of growers, which is the really big job to be done, because of the large territory to cover.

"To Place Contacts, Man. "We have a letter from Lloyd S. Tenny, Chief of the Bureau of Agricultural Economics, United States Department of Agriculture, in which he states they have decided to place a contact man from their department in the Pacific northwest.

"All organization work on the part of growers will be determined by the local committee. "We are advised that meetings will be held during this month in both the Yakima and Walla Walla districts to ascertain whether the growers are actually ready to sign up in the organization they have approved, and we have mailed contracts to both these districts.

"Whether or not it costs \$50,000 to organize the apple growers of the Northwest depends entirely upon the activities and interest of the growers themselves. If men have to be employed to explain the details to each individual grower, \$50,000 will not do the job.

"The expense of securing membership in cooperatives runs from

## BROADWAY HIT ON CHAUTAUQUA

### "The First Year" Coming

Never has it been more true, "The play's the thing," than in recent years. Chautauqua audiences have been insistent in their demand for plays and are highly appreciative of the really plays that the Chautauqua organizations have been bringing under the Big Brown Top.

One of the greatest Broadway successes in recent years is "The First Year" in which Frank Craven played the lead for so long in New York, and afterward in other metropolitan cities.

"The First Year" is a delightful story of the first year of marriage life. The trials and tribulations are familiar to all married people and presented in a pleasing way. The adventures of the young couple as they set out on the adventure of building a home are shown in a fashion that causes the audience to burst into peals of laughter followed occasionally by a stray tear as the tribulation seem

to be rising too high for the young couple to conquer. The scene is laid in the middle west in the sort of situation familiar to everyone.

Like all Chautauqua plays, "The First Year" is clean from beginning to end. It is the sort of production that not only can be enjoyed by every member of the family, but that each is proud to have seen. It combines entertainment and inspiration in a way that few plays can do.

When it is considered that "The First Year" can be seen along with many other programs for the price of a season ticket, and when metropolitan appearances were charged for the play itself, this is being asked for the season ticket, the great success of Chautauqua is understandable. "The First Year" alone would cost a city theatergoer more than the local committee is asking for the whole week's entertainment. It is a marvelous production and one that will long be remembered.

\$3.00 to \$30.00 each, with a general average of about \$8.00.

"Grower Should Work. "This organization work will be forwarded on its own account. Somebody has to do it and if the grower does not do it himself he will have to pay somebody else for it.

"If the district wants grower contracts we will furnish them upon request of the local committee.

"It is generally admitted that this movement has gone farther already than any other movement of the kind.

and the question is now: Will it go forward or will all this work have to be done over again at some future time and at a cost of at least another \$10,000."

**Cat's Camouflage**  
When a cat is frightened or angry it ruffles up the hair of its body and tail in order that it may appear more dangerous. The cat does this by a chemical discharge by its adrenal glands.

## BERGER

Word has been received recently of the death of Mrs. Amasa Hunt, at the home of a sister in Arkansas. Mrs. Hunt was one of the earliest settlers in the Tugardt flat, where she resided with her daughter and family, Mrs. A. G. Ayer until within about three weeks past. She was well and favorably known and had a host of friends who will be sorry to hear of her death.

E. J. Colbert was a business caller in Berger, Saturday.

## BAND CONCERT

The Twin Falls city band was scheduled to present the following concert at the city park Thursday evening:

**The WOLVERINE is here!**

**The Newest American Car**

**By One of the Oldest American Builders**

FOUR months ago, the Reo Motor Car Company announced the Reo Flying Cloud. Its instant acceptance by the public has been the outstanding feature of an otherwise colorless automobile season.

Now the Reo Motor Car Company announces the Wolverine.

Named for the strongest animal of its size in all the world, the Wolverine—substantially lower in price and somewhat smaller in size than the Reo Flying Cloud—will bring to an even wider field of motorists that honesty of construction and sureness of performance for which Reo automobiles have always been known.

The Wolverine is small enough for easy handling and low operating costs—but no power, nor brawn nor beauty was sacrificed in making it smaller.

It's fast—fast on the getaway, fast on the open road and quick to stop.

Both its performance and its appearance will be a delight to those who, in the past, have looked in vain for something decidedly superior in a moderate priced automobile.

THE IDAHO CITIZEN

SEMI-WEEKLY Per Year, \$2.50
Successor to the Twin Falls County Independent
A semi-weekly newspaper published on Tuesday and Friday of each week at Twin Falls, Idaho.

Entered as second class mail matter at the postoffice at Twin Falls, Idaho, under the act of March 3, 1879
CITIZEN PUBLISHING CO., 262 Second Ave North, Twin Falls, Idaho, Publishers

OUR DUTY TO THE TOURIST

The automobile has made every section a tourist country. Where out we spoke of Los Angeles as a tourist city and Florida as a tourist state, now Idaho and Arkansas and New England are all tourist countries.

Just count the out-of-state cars you see on the highways any day during the summer, and realize that all the passengers are potential residents of this section; that these persons are giving the out-look, and farms and highways and scenery a critical "once-over"; that they are spending money as they pass by for food, and gas, and tires and lodging and refreshments. Just what is our individual responsibility to the tourist? Should we treat him as an intruder or as a guest?

He is entitled to our kindest treatment; he should be made to feel the true hospitality of the West. Answer his questions; direct him if you can. Try to make him glad he came this way. There are all types of tourists, of course. The largest percentage are respectable, self-to-be persons, always on the lookout for opportunity, who, because of extensive travel, perhaps, can readily sense at a glance the apparent prosperity of this valley.

Their first impressions are bound to be favorable. Do not spoil that attitude. Large sums are being spent to bring the tourists this way. We want them to come to Idaho and see us anyway; we would like to have them stop and investigate our possibilities and enjoy our climate and scenery.

Our responsibility to the tourist is to make him welcome, and to make him want to come back someday and live here with us.

In the end it becomes a personal matter with each of us.

SPARE HOURS ON THE FARM

President Coolidge, predicting more "intensive farming" told 200 scientists gathered in a 'soil congress' that bigger crops per acre, rather than more acreage, will solve the agricultural problem.

Already the President's prediction begins to come true. Fewer stony on the farms but farms produce more. One wheat harvesting machine has reduced by 25,000 the number of extra harvest hands needed in Kansas.

Henry Ford, who proves his theory in a dozen places along the River Rouge, says improved machinery will let the farmer do his farming in eight weeks and give him a chance to rest and do other lucrative work during the forty-four remaining weeks of the year.

A new western serial starts this week—"Cal of the Black Hills." Read it every week.

Most certainly pedestrians have their rights—but when the other guy is in an auto—it's hard to get close enough to use them.

These short skirts flappers year have made American men handsome—or, perhaps 'good looking' would express it better.

"We" are having a tough time on this column voyage this week—meaning ye scribe and his typewriter, in Lindy language.

Byrd now plans an air hop to Paris—and return, with only a twelve hour lay-over in Paris. It's too bad—but some French official will have to go without his kiss this time.

Strange that with all the medals and honors bestowed upon "Lindy" that none thought of an M. D.—because, like most of our doctors—he never starts anything he can't finish.

A local farmer has announced his land for sale on the cash and carry plan. Pay all the cash you can and carry the mortgage.

Congress will not meet in special session to consider the Mississippi flood situation. We've heard before, that "water" is of very little interest to congressmen.

Here lies the body of "Jazzbo" Kent. He drank some safe stuff and away he went. "Safe" stuff is right. Nitro-glycerine or TNT.

Just as the cynics had about agreed that modern youth had gone to the dogs they learned it was "New York to Paris" by air instead.

When Your Family Needs A Doctor

do you employ the cheapest one you can find? No, you employ the best one you know for you want RESULTS. A good doctor never starts by trying to weaken and half kill his patient, No, he stimulates him and builds him up. When you treat your Seed Potatoes it isn't a matter of price, but Results. It's clean spuds and increased yields that you're after and that is what you get when you use

Semesan Bel

Never Injures Seed, Increases Germination and Plant Vitality, Yield and Keeping Quality. It's cost is returned to you many times at the end of the season.

EMPLOY THE BEST DOCTOR

DARROW BROS. SEED & SUPPLY CO. Distributors—Twin Falls Open Saturday Evenings

Mrs. Cooksley, Former Resident of Twin Falls, Wins Fame as Butter Modeler, Says American

Mrs. Alice M. Cooksley, formerly of Twin Falls but now of San Francisco, is the subject for an article in the current issue of the American Magazine, which has aroused widespread interest in this locality.

Mrs. Cooksley, it will be remembered, had a reputation during her residence here as an expert modeler of butter. In 1916 her art was exhibited at the San Francisco exposition and since then she has proceeded to make an enviable reputation.

Her buttercup model of real butter, with pink and yellow roses and stately calla lilies, all of which can be spread on bread and eaten, are a feature of big Western agricultural fairs.

These interesting novelties, the American Magazine has discovered, are the result of the work of Mrs. Cooksley, of San Francisco, who has laid aside clay and marble as a sculptress.

DEATHS

Funeral services were conducted at the Blue and Company undertaking parlors here Wednesday afternoon for Elena, daughter of Mr. and Mrs. Alfred Melton of Hamlet. She died here last night.

Baby McDowell, son of Mr. and Mrs. J. W. McDowell of Hollister died Thursday morning here, being taken to the Twin Falls cemetery Thursday afternoon under the direction of F. E. Drake.

REAPPOINT WALTER

The board of county commissioners in session Saturday reappointed H. L. Walter, county chemist.

MADGE BELLAMY SCORES TRIUMPH IN GREAT PLAY

Quite more the beautiful and always talented actress, Madge Bellamy scores a triumph. This time it is Fox Films "Bertha, the Sewing Machine Girl" first showing at the Orpheum Theatre.

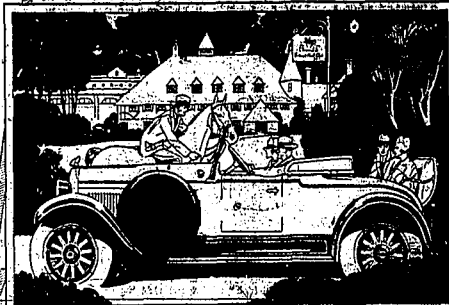

These of an older generation will recall "Bertha, the Sewing Machine Girl" as one of the better types of melodramatic pictures of the past.

Madge Bellamy's struggle against these social surroundings, are at their best in the play "Bertha, the Sewing Machine Girl." This picture gives a side-splitting performance as the high-powered little girl, who is a "society" girl, is thrown from her high-class life into a shackled existence every time she appears in a scene.

Bertha is a girl of the East Side who is born to riches but is anxious to wear silk. A cast of stellar players support her in her colorful story and not only drama but humor of the kind that gives an audience laughing is supplied by them in plentiful measure.

Allan Simpson, as the Prince charming of the story gives an splendid performance. Sally Phipps and Anita Gravin, the friends and shavers of the heroine, are also excellent.

World's most popular low-priced quality six

Pontiac Six sales are now at record-breaking heights. No other low-priced quality six ever enjoyed such popularity—and no other car ever deserved its popularity more! For the New and Finer Pontiac Six is exactly the car that hundreds of thousands had hoped some day would be available.

# BRING CIRCUS AS BENEFIT FOR BASEBALL CLUB

Worham Shows Will Open Monday For Week's Run South of Railway—400 Persons in 30 Cars

The Worham Shows Arabian circus will exhibit in Twin Falls all next week starting Monday, June 27. This announcement was given out yesterday by officials of the Twin Falls baseball club who are bringing the Worham shows here and will receive a portion of the gross receipts and a guarantee from the show company. The baseball club has been in need of funds for some time and this is going on now to make money in town. "Sponsoring a show is new to us," said George E. Sandholm, president of the club, "but this means of raising money will more than meet with success, I'm sure."

The Worham shows are considered one of the largest of their kind now touring America. They have their own special train of 30 circus cars over 400 people travel with them and it requires a plot of ground covering nearly four acres for them to erect the many tents.

The big show is coming in this vicinity with practically no circus billing or advertising, on account of the advertising far being tied up at Billie, Montana, where a recent flood washed out the Oregon Short line bridge. The show company was routed through Montana but on account of the flood were forced to connect all the towns booked and re-route to the coast by way of Twin Falls, Boise, Baker, and Portland, Oregon.

The special train bringing the show here will arrive late Sunday evening and will be unladen soon after arrival. The 100 or more big red wagons will be hauled to the circus grounds, where a city of tents will be found early Monday morning. Many features will be presented during the show's engagement here such as all kinds of circus acts, clowns, jugglers, acrobats, and trained animals of all kinds. Frequently separate attractions are carried by the Worham Shows with every nature of side show features available. There will be band concerts, free tickets and numerous other entertainment features during the week. Six big days and nights of real cir-

## LOCAL NEWS

Cus amusements are admired every visitor by the baseball club.

Three county officials are home from Canada where they went recently to attend a convention of Northwest police and law enforcement officers. They are D. W. Whitam, county attorney; M. E. Finch, sheriff, and Charles E. Jones, deputy sheriff, who piloted the car.

The president of the Twin Falls Kiwanis club, D. J. Linnell, returned home Tuesday from Memphis, Tenn. where he attended the annual convention of Kiwanis International. He took relatives in Kansas on his return trip.

Members of the Twin Falls and Oakley telephone exchanges joined in a picnic at Artesian, Sunday.

Mr. and Mrs. James A. Campbell are the parents of a son, born Saturday at the county general hospital.

E. J. Ekdalstad, secretary of the Pocatello chamber of commerce, was here the first of the week. Mrs. Ekdalstad is visiting at the home of her mother, Mrs. Margaret Fields.

Col. C. L. Longley, in charge of the government assay office at Boise, spent the first of the week here.

Mrs. H. C. Gettner has been called to Chicago by the illness of her mother. She left Monday.

Rudolph Piger, proprietor of the Idaho Toilet Chain company of Butte, left Tuesday with Mrs. Piger and two children for Stanley, Idaho.

Ray A. Reed, editor of the Twin Falls News, spoke before the Kiwanis club at Piler Tuesday on the subject of advertising and newspapers.

A picnic is to be held by members of the Woodmen of the World, lodges of Twin Falls and Burley at Artesian on July 9. The event will close a membership contest between the two orders.

James R. Bothwell, attorney for the Twin Falls Canal company and the Salmon River Canal company is home from a trip to Chicago, where

he transacted legal business for these corporations.

Orville L. Hicks, advertising manager of the Twin Falls News attended a convention of the Pacific Coast Advertising association in Portland this week.

The loss of a finger resulted Wednesday, when Mrs. John Batsch got the member in washing machine gears and amputation was necessary at the county general hospital.

Twin Falls Grange will meet at a strawberry festival at the C. A. Baker home on Kimberly road Friday evening.

J. E. DeWitt, former Twin Falls undertaker, arrived Monday from Seattle with his daughter, Miss Cleo. Mrs. DeWitt remained in the coast city, but will arrive by train later. She is reported slight recovered from her recent illness.

Rosin From Eucalyptus - The bark of several species of the eucalyptus tree yields a resin, hence the tree is called the "gum tree."

# J.C. PENNEY Co.

"where savings are greatest"

## Work Clothes Week

Featured Values - American Workmen, the backbone of Industrial America, demand J. C. Penney Co. Work Clothes. They KNOW the Values - the Long Wear - the Quality - are SURE!

### Who Gets Your Salary This Month?

To: Worried Housewives: When you sit down with that first-of-the-month stack of unpaid bills, don't you think it would be wise to do a bit of calculating. Cash will always get you a lower price than credit. Always, since the world began, you have had to pay for the use of money. A dozen articles are purchased more cheaply than one, and if you could buy a thousand dozen you would get still closer to the actual cost of manufacture.

Every bit of merchandise sold in a J. C. Penney Company store is bought for cash and the resultant savings passed on to you. That means that the average family in a year can save from \$50 to \$100 by the Pay-As-You-Go plan, and spend this money on some luxury they could not otherwise afford.

"Charge it" is one of the most dangerous phrases in the English language. "I'll pay for it" on the other hand makes you a shrewd judge of values, curbs useless purchases and is a sure cure for those First-Of-The-Month-Blues.

25th Anniversary "Pay Day" Work Shirts - With the Union Label. Big, roomy, well-made. Of fine and coarse yarns for long wear. Coat style, cut full, continuous faced sleeves; two big, reinforced pockets. 79c

### Skim Milk Makes Valuable Cheese

### Farmers Could Get Good Money for Product Now Given to Swine.

By converting it into cottage cheese, farmers could get from 35 to 50 cents a gallon for the skim milk, according to P. H. Tracy of the dairy manufacturers division, college of agriculture, University of Illinois. A gallon of milk will make from 1 1/2 to 1 3/4 pounds of cottage cheese, which usually sells for 22 1/2 to 25 cents a pound, he pointed out. Cottage cheese is easy to make on the farm and takes only a limited amount of equipment.

"There are various methods of making cottage cheese. The following procedure probably would be most convenient for the farm. In one method, junket, a tablet containing rennet is used, whereas in the other method the curd is set through the natural process of souring. The rennet cheese is a little more desirable.

**Must Be High Quality.**  
"The milk used must be of high quality. It should come from clean, healthy cows. Care should be taken to see that the milk utensils have been thoroughly washed and rinsed with scalding water. They should be rinsed again just before they are used. This applies to the separator as well as the milk strainers and cans.

"The separated milk to 75 degrees and place that to be made into cheese in a vessel such as a large double boiler. If junket is to be used, dissolve the tablet in a pint of cold water and then add to the milk, stirring well. One tablet contains enough rennet to set about 50 gallons of milk and the above solution should be used accordingly. The rennet should be kept cold until used, as it deteriorates rapidly at room temperatures.

"Hold the milk at a temperature as near 75 degrees as possible for about 18 to 20 hours. When it is ready to cut there will be a slight amount of whey on top, the curd will be firm and will cut clean when a spoon is passed through it.

"Gently break up the curd into small cubes and heat slowly with very gentle agitation. If no junket has been added heat to about 92 degrees in about 20 minutes and hold that temperature until the curd is firm enough to split open when agitated. It should not be heated so long that it is tough and rubbery. Usually from 5 to 10 minutes will be necessary to firm the curd. If junket has been used, heat the curd slower, but to a higher temperature, going to about 110 degrees in 112 degrees in about 60 to 75 minutes' time. Hold the cheese at 110 degrees to 112 degrees until the curd is firm.

"Drain the whey through cheesecloth or strainer and wash curd, twice with cold water in order to chill curd and remove excess acid. The whey water is removed each time the same as whey.

"As soon as the curd seems to have drained dry mix salt at the rate of 2 ounces for each 10 pounds of curd, and package. A little cream will make the cheese more palatable. Glass jars or paraffined paper containers may be used to advantage for marketing the product.

"The finished product should be in the form of large mellow flakes and should not be soft or pulsy or tough. Neither should it have a high acid flavor."

### Ethics of Fertilizer

### Industry Are Improved

The fertilizer industry has become highly established among legitimate business institutions, according to E. B. Wells, soil specialist at the Kansas State Agricultural college. When commercial fertilizers were first introduced into Kansas, he explained, little attention was paid either to quality or grade. Fertilizers, together with low prices, largely determined the sale of the product.

"Today manufacturers have found that if the business is to be legitimate it must be founded upon scientific training and experimental evidence. The number of brands is being reduced and the quality of products are being improved. Few low grade mixtures are put upon the market today by reputable companies.

### Agricultural Items

More and better maple sap comes from maple lots that are not grazed.

The waste is greater than the benefits if cattle are turned on pasture too early.

Newspapers are devoting twice as much space to agricultural news as they did five years ago.

New York ordinarily raises a surplus of dairy cattle, but last year 10,000 more dairy cows were shipped into the state than were shipped out.

In buying baby chicks, it is wise to buy them locally so you may have a chance to visit the farm and see the parent stock before placing an order.

Well-rotted barnyard manure is a good fertilizer for the garden. It should be applied at the rate of 20 spuds to an acre and should be worked into the soil.

### FIRST CHURCH OF CHRIST, SCIENTIST

160 Ninth Avenue East

"Christian Science" is the subject of the lesson sermon in all churches of Christ, Scientist, Sunday, June 26, 1927.

(Golden text: Isaiah 12:2 Behold, God is my salvation; I will trust and not be afraid; for the Lord Jehovah is my strength and my song; he also is become my salvation.")

Among the citations which comprise the lesson sermon is the following from the Bible: But the comforter, which is the Holy Ghost, whom the Father will send in my name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you, John 14:26. The lesson sermon also includes the following passage from the Christian Science textbook: "Science and Health with Key to Scriptures," by Mary Baker Eddy. Our Master said, "But the Comforter . . . shall teach you all things. When the Science of Christianity appears, it will lead you into all truth." The sermon on the Mount is the essence of this Science, and the eternal life, not the death of Jesus, is its outcome, page 271.

Sunday services are held at 11 a. m. Sunday school for pupils under 20 years of age is at 10 a. m.

The Wednesday evening meeting, at which testimonials of Christian Science healing are given is at 8 o'clock. A reading room at 134 1/2 Main Avenue north is open daily from 1:30 to 4:30 p. m.

All are welcome to attend our services and to visit the reading room.

### GREGG SCHOOL CHATS

Mrs. Virginia Morehouse of Hollister enrolled in the shorthand department last week. Mrs. Morehouse has received several medals for expert typing, and we are anxious to see her do equally well in the other department.

Mrs. Monne Zemo, formerly a student who is now employed in the office at the American Falls Pharmacy, visited over the week end in Twin Falls.

Mrs. Ruby Denton has accepted a position in the typing department as instructor, a place formerly held by Mrs. Edna Winstan.

Mrs. Marjorie Keating with Mrs. Seal Royer of Los Angeles, went to Jerome to spend a few days with some folks.

The students of the advanced department of office training received instruction as to the use of the revised addressograph by Lillian Olsen at the Elk's club last week.

The students of the advanced classes of typing have been quite busy this week doing outside work. Miss Florian Brewer is instructing this work.

Mrs. Jean Vulland enrolled in the shorthand department this week. Mrs. Vulland is from Kansas.

Other new students for the week are: Mrs. Mildred Houston and Charles H. Barrett, both of Twin Falls.

### OREGON GROWERS WARNED

Count Agent W. L. Shorell of Ontario, Ore., has issued a warning to vegetable growers concerning the danger of injury to onions caused by the thrip in that section. The thrip is a small "whitish" or "brownish" insect, which feeds in large numbers on one part of "Black Land" in 1900. It was first discovered in 1901, and it is now being introduced to the west to prevent isolation from collecting to the west. For protection to the crops instead of spreading.

**FAIRVIEW**

Mr. and Mrs. Oscar Peterson and family spent Sunday afternoon at the Nelson home north of Buhl Sunday.

Mr. and Mrs. Herbert Pamber and daughter Ethel and Alice Lorrain went to Mackay's Friday.

Mr. and Mrs. John Dlass attended the band concert in the park Sunday. Mrs. Ida Towner is recovering from the measles.

Herbert Pamber returned from Grassy Hill Saturday.

Mr. and Mrs. John Dlass and Adam Dlass had Sunday dinner with Mr. and Mrs. John Mothven.

Mrs. O. G. Anderson spent the week-end in Boise.

Mr. and Mrs. Thomas Novasak were at the John Palat home Wednesday.

Adam Dlass, father of John Dlass who has been visiting here returned to his home in Denver, Saturday.

The Misses Desale Downey, Edith Ludson, Lillian Spike, Emily and Marion Ward and Miss Ida Nobles formed a swimming party at Banbury's Sunday evening.

**The Other Mother**  
Mrs. E. C. Chamberlin of Dargison, Iowa, mother of Clarence Chamberlin, American seaman, air ace and now holder of the long distance flying record, New York to Germany.

**Idaho Editors to Hold Convention**

The midsummer meeting of the Idaho State Editorial will this year be held at Mack's Inn near the West entrance of Yellowstone national park.

It is planned that the editors with members of their families will meet at Halley Tuesday, July 19 and the first day proceed through the Craters of the Moon country to Arco where they will be overnight guests Wednesday of the Arco chamber of commerce, going on to Idaho Falls Thursday, July 21 to be entertained at luncheon at the new Hotel Bonaventure as guests of Senator Yeaman, publisher of the Times-Register.

The trip will be made to Mack's Inn by motorcycle arriving there Thursday night for the convention which will be in session Friday and Saturday until after lunch, permitting the newspapers to go on to the park Saturday evenings, if desired.

Entertainment at Mack's Inn is to be provided free.

**MAGIC HOT SPRINGS NEWS**

Bathers and visitors at Magic Hot Springs for the week ending June 12 were: Alna Murphy, Filer; Pauline Anderson, Filer; Byron Rendahl, Twin Falls; B. N. Rendahl, Twin Falls; Earl Munyon and family, Twin Falls; Fred Belleville, Twin Falls; Anna Louise Gillette, Twin Falls; Mrs. Alice Abe, Twin Falls; Charles P. Larson and family, Twin Falls; Charles Lindgren, Lost Creek; Lawrence Robinson, Buhl; C. W. Ross, Latta, Muleshoe, Texas; Augusta Culbulka, Buhl; Mrs. Jos. Macharock and daughter Viola, Buhl; J. Parker, Filer; Mr. and Mrs. J. W. Kinney, Castelford; Mrs. Frank Kinney, Castelford.

**AMSTERDAM**

Ranchers in this vicinity are beginning to put up the first cutting of alfalfa hay. Ideal weather for growing conditions has prevailed the past two weeks, combined with a full head of irrigation water, has made crops look much better.

Ruth Reed, seven year old daughter of Mr. and Mrs. Paul Reed, is somewhat improved after a week of illness. She was taken to Twin Falls on Friday for medical attention.

Miss Jeannette Peters went to Twin Falls on Saturday to remain for several days visiting relatives.

George Fisher from Twin Falls, is helping on the ranch work, at the Dale Kunkel place.

# HERE IS A NEW LAW

## LAW PERTAINING TO SALE AND LEASE BY COUNTY OF PROPERTY-SIGNED BY EXECUTIVE OF STATE

To permit counties to enter into contracts for sale or to offer for lease property accrued to the county through delinquent tax sales, the recent legislature added a number of amendments to the old law. Under the new law, the county is permitted to sell property for a small down payment and the deferred payments may be extended over a term of 5 years. Provision also is made to permit counties to lease property for two-year periods.

The law, which was sponsored by the committee on revenue and taxation is known as House Bill No. 105 and is as follows:

(Asterisks denote that portions of the old law have been eliminated, and the amendatory matter is indicated by bold face type.)

Be It Enacted by the Legislature of the State of Idaho:

Section 1. That section 3423 of the Idaho Compiled Statutes, as amended by section 7 of chapter 120 of the 1925 session laws of the state of Idaho, be, and the same is hereby amended to read as follows:

Section 3423. SALE OF COUNTY PROPERTY. To sell or offer for sale at public auction at the courthouse door, after 30 days' previous notice given by publication in a newspaper of the county, or by personal, belonging to the county, not necessary for its use, and such sale of real property may be made by the board of county commissioners, either for cash or upon such terms as the board of county commissioners may determine, and the same must be sold to the highest bidder. The proceeds from such sales shall be paid into the county treasury for the use of the county, unless such property has been acquired by tax deed, in which event the proceeds from such sales shall be granted to the taxing districts in which the property is situated in proportion to the amount of such tax for the year in delinquency upon which the tax deed was issued to the county. If such property is sold on terms the board of county commissioners may contract for the sale of the same

for a period of years, not exceeding 5 years, with an annual rate of interest on all deferred payments not to exceed 6 per cent per annum. The title to all property sold on contract shall be retained in the name of the county until full payment has been made by the purchaser. Any property sold by the board of county commissioners under the provisions of this section, either for cash or on contract, shall be assessed by the county assessor in the same manner and upon the same basis of valuation as though the purchaser had the record title to the property as sold. The board of county commissioners shall have authority to cancel any contract of sale if the purchaser shall fail to comply with any of the terms of such contract, and retain all payments made thereon. Any such sale made by the board of county commissioners of property acquired through tax deed shall, subject to the provisions of this section, vest in the purchaser all of the right, title and interest of the county in the property so sold, including all delinquent taxes which have become a lien on the property since the date of the tax sale certificate upon which any tax deed has been issued, and it is hereby made the duty of the board
