

Dr. Frank Crane SAYS

RIGHT INHERITANCE EASY TO GIVE Most normal men and women live for their children. Beyond getting what satisfaction they can out of their own lives, they want to see their children get satisfaction out of life. They want to see them have a better chance and more advantages than they themselves had.

Thinking people know that other things, such as character and the like, count more than money. Just how to leave our dear ones what they require is rather difficult.

In the first place, we ought to do what we can to bequeath to them an orderly and law-abiding society, a state of which the law is respected and obeyed. People, therefore, that countenance bootlegging and other illicit acts which happen to be popular among working men and women, are doing what is inimicable to the coming generation.

The second thing is character. It is the duty to ourselves to give them a good biological inheritance. This we can do by living clean lives ourselves and, in the final analysis, most of the good we do other people depends on how well we take care of ourselves.

Unfortunately, this is a more difficult thing to do. Out of many things which the law respects and the most blameless practices, come a descendant who is absolutely lacking in moral stamina. About all we can do is give as good an example as possible and good teaching. The result then is in the job of the gods. We can't help it and we turn our blame to them if they are not so crooked. It is lamentable, but it is inevitable.

Another thing we can leave our children is friendship and association with the right kind of people. This we can only do by associating with the right kind of people ourselves.

The best that can be done, in a nutshell, is to know our own children, be companions with them and influence them by our own character as much as possible.

NATIONAL GRAPE ADVOCATES PLAN FOR FARM RELIEF

L. J. Tabor Outlines Debenure Lure Proposal Designed to Favorably Affect Price of Agricultural Products. The National Grape is sponsoring an export debenture idea or plan to affect favorably the price of farm products.

It may be safely concluded that if any man has a grudge against his children and wants them to be failures the surest way is to leave them a lot of money.

"The Grange plan provides that to start, one-half of the tariff rates is certain amount of the export debenture value. For example, the present tariff on wheat is 42 cents. A cooperative association in Kansas would like to export wheat.

Thus we see that all that is necessary would be for the export of wheat to be certified as to amount exported and then the same authorities that provided his manifest and clearance papers would issue the export debenture certificate. Automatically and instantly this would have a tendency to affect favorably the price of farm products and in one result, toward which the growers are striving.

Buhl Votes Down New Bond Issue. Lacking thirteen votes of the required two-thirds majority, Buhl voted to reject the proposed bond issue for \$50,000 for the purchase of a power site and construction of a municipal power plant.

ANVIL SOLO

BY ANDY HAMMER

Dear Folks:

Have you washed your apples?

That's the latest—years ago my grandmother used her apron to wipe the apples, and I'm here to tell about it. Because a shell-shocked Englishman took sick eating his first apple we wash two times. Next we will have 2 remove the core & seed. Then cut the cores down or buzz wood; before our apples can be marketed. I'll send mine to the laundry, or have them dry-cleaned. There are a lot of people I know who could stand a lot of arsenic.

What's the difference? We clean them here, & than a lot of Italians who haven't had a bath since General Lee surrendered, hand them out at a fruit stand. Personally, I prefer Arsenic. In China, they pack tea with their bare feet. Nobody ever heard of them washing tea, or a Chinaman washing his feet! Next we will have 2 remove the "Goofier Feathers" from peaches. For those who do not know, Goofier Feathers is the fuzz on peaches, & when that fuzzy comes, I'm going to do into the newspaper business. There is not so much worry & everything is all write.

Arsenic or no arsenic, an apple a day keeps the doctor away if your mind is good!

Hope you're the same,

ANDY.

IDAHO REALTORS IN CONVENTION

September 28 and 29. Are the Dates Set for the Association Meet at Idaho Falls

The largest assembly of the real estate interests of this state will be gathered at Idaho Falls on September 28 and 29 when the Idaho division of the Pacific Northwest Real Estate association holds its convention. All licensed real estate brokers of the entire state are invited to present whether they are members of the association or not. Many real estate men at other states are expected. Some of the largest brokers of the United States have been invited to be present and address the gathering. The convention Round-Up will be held at Idaho Falls at the same time and many who attend the convention will enjoy this feature.

Among those invited to be present and address the convention are Hon. H. C. Baldrige, governor of Idaho, Boise, Idaho; Harry Cuijver of Los Angeles, one of the world's largest real estate operators in California; J. W. Wheeler, president of the Pacific Northwest Real Estate association; T. J. Zimmerman of Portland, Oregon, secretary of the Pacific Northwest Real Estate association; Judge Wilson McCarthy of Salt Lake City, Utah, secretary of the Pacific Northwest Real Estate association; and Mayor Ben Ross of Pocatello, who will tell the realtors and guests of "The Future Development of Idaho".

Special entertainment will be provided for the ladies. A banquet and dinner dance will be enjoyed on the evening of September 28. A program full of punch and vim has been arranged. The convention will adjourn at noon September 29. The entire assembly will then attend the War Bonnet Round-Up. Those enjoying Idaho will join in a caravan to the Yellowstone park for a few days enjoyment of this America's wonderland, to be followed by a few hours' drive from Idaho Falls.

The committee of the Idaho Falls Real Estate board working hard and efficiently to put over the biggest and best convention of the kind ever held in Idaho. Idaho's largest and beautiful Hotel Bonaventure, just finished at a cost of one-third of a million dollars, will be headquarters for the convention.

JEROME

District court convened on Tuesday at the Twin Falls county fair and brought to Jerome under a change of venue. Judge Ensign of Halley presided, Judge Baker having disqualified himself. F. P. Edson was complaining witness. The charge was criminal libel against John P. Morris. Forty jurors were drawn and soon exhausted. Trial more were drawn and the jury finally empaneled.

The most activity on the north side for the past week has been at the fair grounds. The race track has been worked over and the new holes filled, new railing has been put up and painted. A dance pavilion is nearly completed, more stalls are being built for stock and it is believed Jerome county fair will be the largest equal to any county fair in the state.

Thursday seemed to be Jerome day at the Twin Falls county fair as a great many north riders visited the fair on that day. The Jerome Cooperative Creamery held its regular monthly board meeting Monday and a committee from Eden was present to see about replacing the cream station that burned down when the Eden Grange hall burned.

Jerome school district held school election Tuesday with nine candidates in the field for trustee, the largest vote the district ever turned out was the result. W. W. Henry, William Mier and O. J. Wilson were the winners.

A big enrollment was recorded in the Jerome schools. The September census of Lincoln school totaled 694, Canyonside 130, Pleasant Plains 116, and a good many are yet to be reported, as a large number were out on picnic the first day. The high school enrolled 243.

Mr. and Mrs. Adby Huston arrived in Jerome from Portland, Ore., a few days ago for a couple of weeks' visit with Adby's parents, Mr. and Mrs. Frank Huston. W. W. Dean, master of the Idaho State Grange, stopped in Jerome for a short time last week en route to Lincoln county. Fomora, Mr. Dean is a Methodist minister and was on

Charles Kays received from 17-8 acres of land 162 bushels of wheat. Kays is a dairy farmer and not a grower. Mr. and Mrs. Kays and family are spending a week in the hills resting and fishing.

C. D. Callentine is putting in two large storage cellars, one for apples and one for potatoes. The storage pits are 70x200 feet and will be built on a truck end drive in one and load material and opt the other end. Mr. and Mrs. McIntyre have gone east for a visit with relatives.

Upon hearing an unusual noise among the hills last Monday evening, George Howard armed with a garden rake went to see what was the trouble and found that Arldino had been used and was mauling all the logs, horses and other stock. Help was called from the neighbors and the dog was killed.

Johnstone Lind, one of Jerome's leading farmers, spent several days on the south side the past week on business and attending the fair.

J. P. Newman reports a yield of 30 bushels per acre. The total amount harvested was 2,600 bushels.

Fred Miller, local manager of the Boise-Taylors Lumber company for several years in Jerome, has been transferred to Parma. P. H. Beverage of Wendell will take his place in Jerome and Francis Greke of Jerome will go to Wendell.

LINDERBERG'S MANY OFFERS! The visit of Colonel Lindbergh to this spot makes interesting the following recital of the "offer" he has received to "make money."

He was offered \$1,000,000 to go through a bonafide marriage ceremony with a woman, to receive a check for \$5,000,000 and to receive a "business" offers made from him since his non-stop trans-Atlantic flight. He has received 3,600,000 letters and 100,000 telegrams and cables. There were three proposals that the young flyer join in an attempt to reach the moon by a rocket shot from the earth. He received more than a thousand proposals of marriage and more than 100 propositions to go in partnership with him in enterprises varying from building airships to promoting wells, starting banks and opening movie-picture show houses.

Lindbergh's poems, received in his mail, numbered around 6,000 and included \$10,000 in postage. More than "50 close relatives," asked him "to do something for them," and many others have a habit of becoming his friends when their names or old-time acquaintances. More letters came from women than from men and letters from girls outnumbered those from boys four to one.

Light Bulbs Before discarding an electric light bulb place it on a drop light, turn on the current and shake the bulb, holding it between your hands. Then try it on the light the chances are it may do service for several months longer. The fine wires of the filament have a habit of becoming disconnected. By shaking it the parts come together again, making the bulb as good as new.

MAKES REPORT ON NEW POWER RATES

An opinion entirely favorable to the Idaho Power company and the new combination rates available to those who choose to use them, has been given by E. M. Sweeney, city attorney, who was asked by Twin Falls city council to look into the new rate schedule and report his findings. He, along with the power company, recommended that only those who will benefit by the new rate, change from the present system of metering. His conclusions, in the main agree that the new rate will be beneficial to some, and for those to whom it is not, the present rates will continue, the effect of the new rates tending to lower instead of increasing the costs to residence consumers. His report, as given to the city council Monday night, and which was laid on the table without discussion follows:

COOPERATIVES MAKE GAINS

Although the cooperative movement has been under way in the United States for only about 25 years, in 1925 there were 10,803 agricultural cooperatives, with 2,700,000 members in this country, and the total volume of business transacted cooperatively that year aggregated \$2,400,000,000, approximately 95 per cent of which business represented sales of farm products, according to a statement issued recently by the federal department of agriculture.

This means that almost 20 per cent of the sales of agricultural products in this country are made through cooperative organizations and it denotes a most healthful and promising condition.

When we consider that in Denmark, a little country about one-fourth as large as the state of Washington, it took half a century to bring the membership in its cooperatives to 80 per cent, the progress that has been made in the United States is highly encouraging.—Idaho Farmer.

FARM RELIEF COMING THIS WINTER

Farm relief at the coming session of congress is imperative. Such were the words this week of Senator Borah of Idaho, an opinion expressed after interviews with informed persons in travels from Chicago, west to the Pacific coast. They are in line only with an idea agricultural leaders have had since the last failure of the McNary-Haugen bill to be enacted into law. Agriculture knows that it rightly asks and expects the same federal aid, protection—or what have you—accorded American manufacturers or other industries enjoying a high tariff. That agriculture means to attain its objective was thoroughly demonstrated at the St. Paul conference of agricultural leaders this summer.

While capital always yields a powerful hand when opposed to an issue, in this particular instance the forces are divided and for a very good reason, namely that there are manufacturers with vision enough to see and know that agriculture must be put on a sound basis for the nation's prosperity to be economically sound.

The mid-western manufacturer, closer than his eastern brother to the seat of trouble, is in many instances now advocating the passage of a farm relief bill as sponsored by agriculture. Evidence of this comes in reports of an interview with Paul F. Becher, vice president of the Blountington, Ill., president of the Illinois Manufacturing Association, which has broadened quite generally last week. Mr. Becher said: "We must help the farmer. He works hard and gets less for his toil than almost anyone else in this land of prosperity and luxury."

Such expressions substantiate Senator Borah's latest declaration. And didn't he say a mouthful; "Farm relief is imperative?"

The best salesman the automobile companies have is Mr. Pride of the buyer.

Being the under dog in any kind of a mixup gets a lot of sympathy for anyone—while the thing most desired at such times is a little assistance.

A certain percentage of the alcohol seized and confiscated by the federal prohibition forces is being turned to the United States postal service, "to be used," it is said, "chiefly as an antiseptic in postal automobile trucks."—It is said.

"Science will characterize the second period in the nation's agricultural life," says Doc C. J. Galpin of the department of agriculture. All right Doc. Now tell us, scientifically, how to get \$10 for that hog which it cost us \$16.80 to raise.

Chunney M. Dewey has the first \$100 he ever earned—and it has grown to be \$1,100—earning \$1,000 for him in 66 years deposited in a savings account. Almost enough to buy a ringside seat in the 13th row at the Dempsey-Tunney fight. It pays to be thrifty.

A famous New York actress has quit the stage to go into the real estate business. From the "land of make-believe" to just land, eh?

Gov. Peay of Tennessee is told that the lost geologist in Nick-A-Jack cave was a publicly stunt for a new highway. We'd say tunnel.

FILER

Misses Alyce McNealey, Elizabeth Smith, Lola Conrad, Frances Butler, Theodore Brackenburg, Theodore Hicks and Ray Reid have enrolled at the Albion State Normal school. Mrs. W. E. Benjamin, Miss Lola and Laurence Benjamin accompanied Claire Gillilan to Salem, Oregon, where they reside. Miss Lols expects to enter the university. Miss Madeline Arnold of Chinook, Montana spent the past ten days visiting at the F. A. Dejeu home. Miss Arnold left Tuesday for Los Angeles where she expects to enter the university of Southern California. Mrs. Clyde Musgrave and children of Jerome, Mrs. William Inge of Emmett, Mrs. Maude Umphrey of Twin Falls visited at Walter Musgrave home Wednesday.

The File Women's club is planning an informal reception and dinner September 30 in the M. E. church basement for the faculty of the Filer grade and rural high schools and husbands of the club members.

The Ladies Aid of the M. E. church held their regular monthly meeting Wednesday afternoon in the church basement. Officers elected for the coming year were Mrs. E. L. Dralio, president; Mrs. George Potter, vice-president. The ladies decided to serve a dinner for the Filer Women's club on September 24. Hostesses for the affair were Mesdames M. J. Good, Ronald Graves and George Potter. Miss Francis Wilson, daughter of Mr. and Mrs. E. D. Wilson left Thursday for Madrid, where she will teach in the public schools. Mr. and Mrs. Juneau H. Shinn entertained at dinner Tuesday evening for Mr. and Mrs. W. D. Gills. Miss Ellen Getrost and Miss Alice Turner. The Woman's Home Missionary society met with Mrs. S. A. Huffman Thursday afternoon. All Right If the Bailor Holds Out

By Albert T. Reid

The Livestock Situation

LOS ANGELES, Sept. 15.—The population of the City of Los Angeles has increased from a half million in 1917 to one and one-quarter million in 1927 and the population of the county from eight hundred thousand in 1917 to two and one-quarter million. Value of manufactured products has increased from two hundred million to one and one-quarter billion and the number of factories from twenty-five hundred to fifty-eight hundred; more than double in ten years. This means consumer demand which is so essential to agricultural producers, particularly livestock, for the whole territory west of the Rocky Mountains and even beyond. For instance, last month nearly one-half of the hogs required to meet the Los Angeles demand came from as far east as Kansas and Nebraska.

The amount of wool shorn in the United States in 1927 is eleven million pounds greater than in 1926. Production will total 272 million pounds and represents the largest clip since 1911. This increase is due to the larger number of sheep shorn which is general throughout the country. All of the important sheep states except Montana show an increase over last year.

Scenes of Rare Beauty Shown in 'Canyon of Light'

FOX Films, living up to their promise of showing the beauty spots of America in all their productions where it may be consistently done, filmed many scenes of "The Canyon of Light," which had its first showing at the Orpheum theater yesterday afternoon in Yellowstone National Park. The result is a picture not only with an absorbing story, but a scenic rare beauty. Tom Mix is cast in the stellar role of Tom Mills, the ranchman who at the opening of the World War rode to France, where he serves as a dispatch bearer. But before and after this event he is the hero in a series of episodes all of which are a part of the story of the war-torn West.

Tony, his wonder house, has a prominent part and the beautiful Dorothy Dwan is in the leading feminine role. Probably one of the most heart stimulating scenes that can be imagined is the wrecking of an old boom town in the western mountains. In this scene, Tom, a fight with a gang of desperadoes, wrecks the entire "ghost city." Building after building collapses during the battle and how the actors manage to keep from being seriously injured is a miracle, for obviously no trick photography is employed in this scene. The wrecking and building are seen falling amid the wreckage of buildings and even the most sophisticated movie patron is bound to thrill at the excitement. An unusually fine cast supports the picture and it is in the role of Ed Bardin, the bandit leader, while Ralph Sipperly plays the part of the humorous Jerry Clunka, Tom's

elder Deane, father of Ricardo. Duke Lee and Carmella Germaine have important roles. Don Stioff directed the picture.

BERGER

Mrs. L. Cliver and grandson, Carl Anderson left last week for Nampa, where they will visit a few days with Mrs. Cliver's daughter and family. Mr. and Mrs. Anderson. The Andersons are driving through to California. Mrs. Cliver will accompany them as far as Portland, where she will visit a sister there.

Mrs. C. Stansbury moved into Twin Falls the first of the week. Her granddaughter, Harriet, will stay with her this winter and attend the Bickel school.

T. J. Shaw, Jr., left Monday for Colorado after spending two weeks with home folks. Miss Thelma Shaw stopped for a short visit with her brother, en route to Richfield where she will teach in the Richfield high school, this coming year. The Berger school opened Monday under the supervision of the Misses Wallace.

Named Lindbergh Born to Mr. and Mrs. Bay Dudley, recently, a son. The little fellow has been named Lindbergh.

Mrs. Hanna Henderson and Miss Emma McGregor were Twin Falls shoppers Monday. The Hingard school opened Monday with Mrs. Dehn of Amsterdam as teacher.

Miss Elizabeth Daugherty went to spreading the grass cattle supply throughout the year by the utilization of supplemental feeds.

Mr. and Mrs. J. M. Pierce visited Mrs. Pierce's sister and family. Mr. and Mrs. W. Teague, south of Hansen, last Saturday.

Been threshing has started around to save in vain on a littlefield in France and William Walling is the held up the work somewhat.

KITCHEN NOOK

A New Citizen Department—To Appear Regularly Readers Are Invited To Send In Their Proven Recipes

NEW PICNIC SANDWICH Try to get away from ordinary picnic foods. Try a few of the old standby, of course, but always have something novel. Vary the cheese and ham sandwich with something lighter. Leave the hard-boiled eggs at home and take some fresh eggs to fry over your camp-fire embers. Here is a tasty sandwich for the next picnic: Spread this piece of bread with cold baked beans. Spread another slice with finely minced, stuffed olives. Make a sandwich out of the two. Graham, rye or even white bread will do.

SOUP MILK CAKE One cup sugar, 1 egg, 2 large lump butter, 1 large lump lard, mix well together, then add 1/2 cup baking molasses, 1 teaspoon baking soda dissolved in 1/4 cup of sour milk, 1 full cup sour milk—1 teaspoon cinnamon, 1 teaspoon nutmeg, 1 teaspoon cloves, 1/2 cup flour, sealers and raisins, 2 cups sifted flour. Mix all together and bake in a medium oven about twenty-five minutes.

TWO TEN-MINUTE SALADS Cabbage Fruit Peel oranges, removing all white skin. Cut into one-fourth inch slices and then into segments. Cover with lettuce with finely-shredded cabbage. Sprinkle with orange juice and a little sugar. Serve with French dressing. Cheese Ball Salad Peel oranges and divide into segments, reflecting all white inner skin. Arrange on salad plates covered with lettuce. Garnish with balls of cream rolled in grated orange rind.

BAKED PEACH CUSTARD Six large, well-ripened peaches, 1/2 cup sweetened condensed milk, 1/2 cup water, 8 eggs beaten slightly, 1/4 teaspoon salt, grating of nutmeg. Peel, cut in halves and remove pits from peaches. Place in a buttered baking dish. Put in a bit of butter and a teaspoon of sugar in each cavity and sprinkle with a little nutmeg. Make a custard mixture of milk, diluted with water, eggs and salt; pour over peaches, set dish in pan of hot water and bake in moderate oven until firm. Serve lukewarm or very cold.

MARRIAGE LICENSES September 8.—Hiram Howard, of Buhl, and Winno Wilson, Buhl, September 10.—Lloyd Berry, Burlington and Ruth-Donoh, Burlington. George Sampson, Kimberly, and Elizabeth Wilson, Kimberly. September 10.—James Barulish, Twin Falls and Bernice James, of Union, Oregon. September 14.—Floyd Hines, Sah-Jacinto, Nev., and Ruby McBride, Hyrum, Utah. Joe Palat and Vida Weaver, Buhl.

WISHES GODSPEED Boise.—Governor H. C. Baldrige wished Paris-bound legionnaires a pleasant pilgrimage in a telegram to National Commander Savage just before he sailed on the Leviathan. The dispatch read: "May your pilgrimage to France in time of peace strengthen friendships formed during the conflict of war, revivify high ideals of patriotism and promote better international understanding. Best wishes attend you for a safe and pleasant voyage."

Announcing THE NEW ZEROLENE

To the motoring public of the Pacific West the Standard Oil Company of California presents The New Zerolene, "The Standard Oil for Motor Cars".

Its new lubricant is the latest achievement in petroleum products of the Company's research laboratories—a modern oil for modern motor cars.

The New Zerolene is a wholly distilled oil—by Company processes which take only the highest lubricating values from the best of California crude oils. Every drop is pure lubricant.

The New Zerolene "stands up" at any engine temperature.

The New Zerolene forms no hard carbon.

The New Zerolene does not "thin out"—when the crankcase is drained, it is still "live" and "oily".

The New Zerolene is economical—in initial cost and in amount consumed.

The New Zerolene is made in three grades or bodies, No. 3, No. 5 and No. 7. There is a correct grade for your car and every car made.

Zerolene "Fit" for Fords, an oil especially manufactured to meet the demands of the Model T Ford, remains unchanged.

At all Standard Oil Service Stations and at dealers.

MORE WOMEN THAN MEN
Boise—W. D. Vincent, commissioner of education, has compiled one interesting feature on enrollment at the various summer schools held throughout the state. They show that very few men are interested in becoming teachers in Idaho schools.
Lewiston Normal school had enrollment of 371, largest in the state, yet less than one in ten of the students was a man. Boise's summer school had 204 and showed a somewhat higher percentage of men. Enrollments at the University of Idaho, the Altam Normal school and the Hixes Normal school were 217, 195 and 104 respectively.
Kangaroo Outcasted
"Kangaroo here!" roared Mrs. Groch, "that kangaroo can jump 80 feet." "That's nothing," growled her husband. "I jumped a hundred feet today when a haughty motorist tested his horse just behind me as I started to cross the street."—Cincinnati Enquirer.

URGENT MR. BORAH FOR PRESIDENT

Progressive State Central Committee on Adopts Resolutions and Vote for Meeting

The state central committee of the Progressive party last week urged the drafting of Senator Borah for president of the United States in resolutions adopted. The committee men also arranged for a state meeting of Progressives for the early winter.

Borah Resolution
The Borah resolution follows: "Whereas, we, the members of the state central committee of the Idaho Progressive party, for three successive campaigns, second in strength in our state, now believe the time has come when the people of the United States have a golden opportunity to draft as president of the United States, Senator William E. Borah.

"Whereas, we supported William E. Borah three years ago when he received four votes out of five cast for United States senator, and "Whereas, realizing that party lines are often prejudicial and detrimental to the good of our country; "Therefore, we demand of Senator Borah that he become a candidate for the presidency, pledging him our support on any ticket upon which he chooses to run.

"We call upon our party membership to strengthen party ties and assist all efforts in drafting Senator Borah for president."
