THE JOYS OF ACCURACY

A common fault and a common element of weakness is the habit of exaggeration. You have often heard a young flapper say that up to such and such a certain number of people at the ball game, or some other matter of exaggeration. The habit that she will be flipped into, but it is an element of weakness.

The trouble is that people get so excited about their statements and are apt to believe nothing that they say. They think that by always exaggerating they will be respected.

The Christian Science Monitor points out that one of the values of scientific criticism is that it will be accurate to the joys of accuracy.

If one will acquire the habit of stating what is true, he will be able exactly what the fact. If his reputation for making the facts clearly and accurately, he will be a great element of strength.

Profanity and over-exaggeration and extreme utterances add to the trouble that our readers often run over their information.

Always state the best you can, but do not exaggerate. Do not count yourself to be accused of mere modest claims. Then you will be credited with the habit of truthfulness and people will believe what you say.

There may be joy in a certain kind of joy in exaggeration. It may appear to the imagination to overstate things.

But there is a much pleasurable after an exaggeration. It is being accurate and in telling only what is true.

Senior Class to Present Drama Two Evenings

Who of us has not wished at one time or another that we might live in the romantic past—at least for a short time? One girl at the school has answered this question to yesterday's program by the senior class, May 1 and 2 at the high school auditorium.

Fred Sanger and Lenore Osterfelder found for their excellence in a number of characterizations which appear in clever comedies. They are funny in the modern part of the play but are a perfect screen in the dream. Dorothy Parks is a beautiful heroine who becomes a little ragged girl in the dream on so to find she is trying to help the other.

The modern characters of the play are all changed into people of different ages, funny situations and amusing adventures bring the cast to a most enjoyable and interesting play.

Elma Rowberry and Martin Poole are the modern young married couple whose studio in England is the setting for the play.

Kenneth Paulton played by Carl Malherbe leaves Will Leveson's act of Elvira played by Barbara Jane Provost. Charles Blunk is the hero as Jack Greathouse. William Conroy, Noah Gillow, and John Koenig played the other.

The management of the play is in the hands of the following members of the senior class: business, Alfred Botcher and William Black; secretary, Beth Piper; treasurer, Nixon, Bob Delas; costume, Carmen Holman; art director, Alfred Dana; orchestra, W. F. Lewis; carpenter, Charles Welner and Claudius McCoy.

BERGER

BERGER, April 23—Word has been received of the marriage of Thelma Dobbie of Lone Beach, to Miss Nanacolis of Jerome, formerly of Filer. Thurston is a son of B. D. Dobbie of Berger vicinity.

Owing to the cold winds and numerous snows the wheat in this vicinity has been slow in coming up but the past few warm days have brought it out amazingly. There is plenty of water in the ground, all that is needed is warm weather. Farmers are well along with their work and fields are in good condition.

The school election at Hogerton last Saturday resulted in the election of Mrs. J. H. Berre, member of the board and Mrs. D. E. Ryan, retiring member.

The Berger Sunday school held their regular community dinner at the home of Mr. and Mrs. B. H. Ryan last Sunday. This is the nature of a pot luck dinner, the meeting being held in the lunch baskets. Among those who enjoyed the hospitality of Mr. and Mrs. Ryan, were Mr. and Mrs. Fred L. Taylor, Mr. and Mrs. Fred LeVallé, Mr. and Mrs. Tom Parrott and children, Mr. and Mrs. E. E. Grice and family, Mr. and Mrs. Stilling, Mr. and Mrs. Guy Kennedy and children, Mr. and Mrs. Elling, Mr. and Mrs. George Parrott, Mr. and Mrs. Partridge and daughter Julia, Mrs. J. H. German-Irish Air Heroes Cross Atlantic

A non-stop flight from Europe to North America, the first since the war, was accomplished by Captain Hermann Goebel, chief pilot, and Lieut. Walter G. Sweeney, co-pilot, who landed safely on Greenly Island in Belle Isle Straits, near Labrador, in the Junkers monoplane Bremen. Landings were made at various points and the landing on Greenly Island necessary. The plane was in the air for 21 hours and 15 minutes. The crew was welcomed by the natives of the island on Friday, April 13.

Mrs. George Hoffman left last Tuesday for Rupert to be with her cousin Mrs. Willis Thomas who underwent a serious operation. Mrs. Hoffman returned Saturday.

Haggardt

HAGGARDT, April 21—In spite of the inclement weather, Friday the teacher and pupils of the Haggardt school witnessed the track meet in Hogerton. Mrs. Dean took part of the pupils and Mr. Thompson the remainder. Most of the pupils entered the different contests but only Robert Vickroy won in any. He won first in the following: high jump, broad jump, baseball throw, and shot-put. He will enter the county contests April 27 at Filer.

Friday morning the ground was white with snow which continued to fall in furries most all day though it soon melted. Dale Meyers who recently broke both bones in his left arm while practicing the high jump on the school grounds is able to attend school and is making satisfactory progress toward recovery.

Night Life in Chicago After Midnight

"A gripping story of crime and a powerful sermon against it." "Chicago: After Midnight," the Ralph Ince spectacle of life and love in the Chicago underworld, now showing at the Orpheum theatre.

The picture tells the story of the crime regime in the Illinois city with such sincerity that its purpose cannot be doubted: that of showing the superb morale and discipline of those who uphold the law. A true picture of the follies and follies of cabaret and club life is painted by the music lens of Ince's camera.

About Your Health

When a man or woman dies suddenly and without visible cause, the newspaper announces that deceased was a victim of heart disease. In the majority of cases the cause of death was nothing of the kind, but it sets the public mind at rest. It is so easy to lay the blame on this most noble, unchangeable organ, the heart is easily first, the blundering tender, the heartless respecter, and take the best possible care of it.

ELECTRICAL EVOLUTION

The news story revealing the evolution that is taking place in the electrification of farms in this section is remarkable from several angles.

Not only is electricity becoming a vital factor on the farm, bringing with it good lights, cooking, and power for the myriad of uses to which it can and is being put, but it is impressive from the standpoint of merchandising.

Here in this territory are 1500 farm homes all potential purchasers of electrical appliances, including electric ranges, washing machines, water heaters, refrigerators, vacuum cleaners, milk-making machines, motors of all descriptions, and all other electric equipment.

Dealers in this kind of merchandising must alert to their opportunities. The field is here, the customers are waiting.

With The Citizen reaching this great potential market, manufacturers of these commodities and their dealers have a wonderful opportunity to perform a meritorious service profitable to both buyer and seller.

AMERICAN FOREST WEEK

This week, April 22 to April 28, has been set aside this year as American Forest Week.

The purpose of American Forest Week is to stir up the people to the upholding economic waste entailed by our failure to utilize and protect forest land that is not taken over by fields and pastures.

Farmers as well as commercial-timberland owners must be alive to the great forestry problems of the nation.

The degradation of our forests presents a tremendous problem.

It deserves the attention of every wide-awake American.

This year fires in National Forests of the East and South have up to the present time shown an increase of 50 per cent over the number during the same period of 1927.

Fire prevention and the suppression of incendiarism are crying needs. Carelessness is responsible for a great many forest fires. They are unwarranted and wasteful.

Such observances as American Forest Week. It is hoped, will have a salutary effect in making the citizenry aware of the grave danger forest fires are in under present conditions.

The forestry problem is a problem for the Nation as a whole and it is hoped every American citizen will find some way of doing his "bit" for the forests during American Forest Week—and during other weeks as well!

MIRACLES UPON MIRACLES

The whole world is excited now about the three brave fliers who crossed from Europe, making the first successful east-to-west transatlantic flight. After the sacrifice of several lives, man has made another conquest of the skies.

We are throwing our hats into the air and cheering the pluck of the three flyers, who certainly more than deserve the plaudits that are coming their way.

This event makes us pause to reflect on the miracles that have come to pass practically within our own lives. We think of the advent of the phonograph, the motion picture, the telephone, the telegraph—and remember the famous first words transmitted by that instrument:

"What Hath God Wrought?"

Then we recall more recent inventions and discoveries that almost make these miracles seem commonplace.

And so it happened that the three brave flyers landed on Greenly Island in the icy Far North, news of the landing reached the civilized world at once through the use of that marvelous boon to humanity, the radio.

Modern miracles of science have demolished distance. Man has conquered the air and the sea. Just think of what man has done and what man still may do!

But it would be vainly indeed to give ourselves all the credit for these miraculous accomplishments.

We can only repeat the significant words of Morse: "What Hath God Wrought?"

If we know little about affairs in Nicaragua, what does Sandino?

The tennis matches to be held in Mexico will no doubt revolutionize the game.

When a man's pockets are empty he can usually fill them by pocketing his pride.

If anyone suggests it, we're sure Mayor William Hale Thompson will change his name to Hail William Thompson!

Now that motion pictures can come in over telephone wires, we can expect to get the "wrong film" more often than not!

ALFRED E. SMITH

Alfred Emanuel Smith was born on December 20, 1873, in an old tenement in New York City. As a small boy, he sold newspapers. His father died when Alfred was only thirteen years of age, leaving the boy's mother and younger sister to his care.

He started work in his father's trucking business. Later he took a job helping one of the men who had a stall at the Fulton Fish Market. Still later he was a laborer in the employ of a steam pump company.

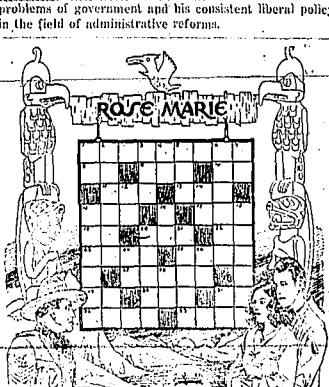

In 1900 he married Catherine A. Duma, and their union has been blessed with five children.

In 1903 he was first elected to the New York State Assembly. From then until 1915 he served in the Legislature for twelve successive terms. During this time he became majority leader in the Assembly, then floor leader of the minority, then Speaker. He served on many important committees.

From 1915 to 1917 he was Sheriff of New York County. In 1917 he was elected President of the Board of Aldermen and in November, 1918, he was elected Governor of the Empire State. He was renominated in 1920 and defeated by only 74,000 votes, although it was a presidential year.

He was again nominated in 1922, won the election by receiving 1,307,670 votes, a figure never before attained by any candidate for state or local office anywhere in the United States, and has served as Governor since that time. And in all, he was elected to the Governorship four times by the people of the State of New York.

He is noted for his thorough understanding of the problems of government and his consistent liberal policy in the field of administrative reforms.

Twin Falls Hearing Should Lead to More Equitable Freight Rates

Idaho Freight rates can be more profitably raised on our soil than in any other part of the country. The Twin Falls hearing before the Interstate Commerce Commission...

It is the opinion of most observers that Twin Falls and its allied interests make such a strong case that some relief will be granted; that rates as low as those now enjoyed by other centers will be allowed on a large number of commodities, even if a general reduction is not made.

Even if this should be all that is accomplished a great victory is won. The constant and universal discrimination against Twin Falls...

It is a pretty safe to predict that this will be but the beginning of the end. If Twin Falls gets lower rates to San Francisco, due to the shorter haul via Rogerson...
