GOVERNOR TO BE GUEST OF OLD SETTLERS
Governor H. C. Hallidge has kindly accepted an invitation from the Old Settlers Society of Twin Falls county to attend a picnic meeting in the annual picnic meeting and program at the county fair grounds at Filer this Friday afternoon.

MAKING READY FOR ELECTIONS NEXT TUESDAY
Ballots are being distributed this week by Harry C. Paxon, county auditor, to the precinct chairmen of the 25 precincts in the county in preparation for the biennial primary election to take place Tuesday afternoon between 8 o'clock and 7 o'clock.

Political Ramblings
The appointment of O. W. Witham, attorney for the Democratic nomination for prosecution attorney, will be either C. T. Davitt, W. C. Han or E. Y. Larson, all good men. Judge Davitt is at present secretary for this county, and was pro-secutor in the case of years ago. Mr. Hall was a candidate about six years ago for district judge. Mr. Larson has not the same high standing in the writer's knowledge as the other candidates in Twin Falls and is not making a campaign for the judgeship for Republican support for this most important office.

GOODWIN CLUB HOLDS 100 DAY EVE
Mr. Lloyd urged the matter of getting out the vote and expressing his confidence in the nomination that had been given him during his term of office.

Milk Talks After Ride
The week was exceptionally warm throughout south and north central Idaho, but no damaging results are reported, says the weekly summary of weather and crop conditions of the U. S. Department of Agriculture weather bureau at Washington, D. C., issued Tuesday. The intense sunning and warmth hastened the ripening of grain and stimulated the rapid growth of alfalfa and truck crops. Corn grew very rapidly. Weather conditions were quite favorable for harvesting of corn and alfalfa. This week made good progress. Much wheat is now in the sheaf and the second cutting of alfalfa is well advanced in the best condition. Dry farm pastures and the low ranges are very dry. The alfalfa crop is a range stock and fair stock. North Idaho. This week was characterized by extreme heat, low humidities and the absence of rains, winds and thunderstorms. All previous records of high temperatures during the month were on the 24th, 25th and 26th. The peak of the heat wave was 113.3 degrees, which was recorded Thursday afternoon. This was just three and one-half degrees higher than the highest previous recorded during the month, but no suppression of harvesting and threshing, which operations are becoming general over the north. There was no rain in Idaho, but potatoes and ranges are dry, but there seems to be plenty of dry feed.

International Sunday School Lesson for August 5 PAUL IN A PAGAN COUNTRY Acts 14:8-20

Rev. Samuel D. Price, H. D., Associate General Secretary of the World's Sunday School Association

Melchior purpose to continue his course in each. The Lystraans had ministry possessed Paul. He was a pantheon of gods, such as are not a quarter as John Mark and Demetrius at Ephesus. This young man could not have faced up to trouble, aware of the "superhuman" he Paul and Barnabas did not event that but just taken place, fountain. Being driven out of any in their agreement that town did not cause these misadventures. "We have, reason, in their midst in the persons of Paul and Barnabas. They took and safely. Rather, they called Barnabas Jupiter—their word forward to Lystra and chief god—either because Barnabas' opportunities of telling the people who would listen about the we know that Paul was inferior. I am expected to go with him, in appearance, or because Paul as spokesman could not be thought of as the leading personage, so he was styled Mercury—the messenger.

Credit must be given to the local priests for their quiet action in bringing garlands for decorations and oxen for a worth-while sacrifice to these visiting deities. Here was Paul's chance to stay a while in popular favor and then turn that situation to advantage in carrying on his mission. He sought at once to assure the people that he and Barnabas were just plain humans, such as they were, and together they needed the help of this "gratified" and Nazarene. Indeed, the occasion was well used to prohibit the God-jock again.

Jealous Jews came from Antioch in Phoenicia and Bithynia, places from which Paul had recently been driven out—to sit up with the Lystraans against these men to whom sacrifice had nearly been offered. A man was appointed to stone Paul, who was then dragged outside the city, where he was carried on a stretcher. As the recent converts stood about, Paul uttered and the next morning both Paul and Barnabas went forward on their God-called journey.

A Wool Frock In Tailored Genre
The tailored frock stretched above is just the sort that a woman likes to have on that wears with a lot of wear during the hot days of summer and the first days of fall. It is a jumper which has been treated in place, set with the effect of a single piece. Particularly interesting is the treatment of the front and back panels, made directly in front and partly overlaid. With this informal outline are worn the fine grain linen shoes of simple style. CHRISTIAN SCIENCE CHURCH

"Spirit" is the subject of the lesson sermon in all churches of Christ Scientists Sunday, August 6. Golden text: Psalm 145:10 Teach me to do thy will; for thou art my God; thy spirit is good: lead me into the land of uprightness. Among the citations which comprise the lesson sermon is the following from the Bible, And I saw a new heaven and a new earth; for the first heaven and the first earth were passed away; and there was no more sea. Rev. 21:1 The lesson sermon also includes the following passage from the Christian Science textbook "Science and Health with Key to the Scriptures," by Mary Baker Eddy. The Revelator was on our plane of existence while yet beholding what the eye cannot see—that which is invisible to the uninspired thought. This testimony of Holy writ sustains the fact in science, that the heavens and earth to one human consciousness, that consciousness which God bestows—spiritual, while to another, the unillumined human mind, the vision is material. Radically Different From All Others

And "Years Ahead" In Design

GENERAL ELECTRIC Refrigerator

MOST of the food you keep in the pantry would be better kept in a refrigerator. And if you have a General Electric Refrigerator of the size which has become popular in thousands of American households, you will have enough food storage space for everything that is subject to spoilage.

The General Electric Refrigerator is radically different from all others—"years ahead" in design. All the mechanism is upon top, sealed in an air-tight steel casing; so simple and automatic that it never even requires oiling. It is exceptionally quiet and extremely economical in operation. Keeps foods perfectly and makes all the ice cubes you need.

Come in and ask to see the different models and let us explain their features in detail.

THE OLD SETTLERS

There will be a big gathering at the county fairgrounds at Elmer Friday when the old settlers of the county get together at their annual picnic.

Those persons who arrived on this tract while it was yet a prairie for the most part, have a conception of the region that later comes do not have.

Those who actually "lazed the trails" went through experiences and hardships that they would not have missed for anything, but would not care to go through again.

They live a life that few only have appreciated by experience, and their memories dance with merriment and recollection of such things as "prave-up" shacks, sage-brush fires, whirlwinds, dead stumps, chuck holes, the water company, down roads, water holes and such, and each one could tell vitally interesting accounts of the part they played in the establishment of schools and churches in their communities, or early-day political campaigns, of locating on their land and establishing homes, together with the tragic experiences that some suffered, of thoughts of futile effort, and then of the mastery of problems, the realization of hopes and the accomplishment of ideals.

It was not all roses by any means, but most of all the pioneers will agree it was worth the effort.

Now they are dropping out, one by one, as the ravages of time takes its toll. True to the old motto were preceded by the rest of the Idaho—elder, more rugged and more cheerful—but no one can say that pioneering on the Twin Falls tract was not fraught with a deal of hardship and indefatigability and called for the stuff of which heroes are made.

A RECORD BREAKING EDITOR

Harry Hammond is a name every publisher of a country weekly or smaller city daily newspaper should remember. For 22 years he has published the Byron Times at Byron, California. It is not too much to say that during this time he has been the greatest driving force for industrial and agricultural development in the Delta country which lies back of San Francisco Bay in Contra Costa County, California.

Each two years the Byron Times issues a special edition. The current issue, just off the press, consists of 234 pages, 12 by 14 inches in size, printed on fine buck paper with colored covers. It sells for a dollar a copy and 1,000 copies are distributed. The cost of preparing the current issue exceeded \$13,000.

Editor Hammond has done what many claim is impossible—publish a successful country weekly which issues the finest special development edition in the United States, within fifty miles of a great metropolitan district comprising some million population. Such a situation is supposed to "kill" a country newspaper. Hammond has demonstrated just the opposite. He has a better paper and a better business than most of the publishers in metropolitan areas anywhere in the United States. He does this by housing industries, agricultural development and enlisting the public about the territory in which he lives. His paper has a much greater circulation than the population of the town in which it is published.

It is a pleasure to recount the record of the Byron Times, for in unselfish work for community development, Mr. Hammond has brought success to his own publication and has added to the dignity and standing of the smaller town daily, semi-weekly and weekly newspaper in all parts of the United States. Incidentally, he continues to do all the soliciting of business for his own publication as well as being its editor-in-chief.

For an inspiration along lines of better journalism, it would pay every one interested to look over a regular edition of the Byron Times as well as its marvelous special edition. Contra Costa county is fortunate in having an editor like Hammond, for without him the valley would have known no such development as it enjoys today.

BEEF SUGAR VS. CANE

By every test known to science and cookery beet sugar cannot be distinguished in the laboratory or in its many uses from cane sugar. They are one and the same chemical compound, sucrose—although derived from different sources. To admit a prejudice against beet sugar is to admit ignorance of the advance of this great industry.

The buying of more beet sugar means better prices—hence more profit—for farmers of many states.

Now is the time to be preparing exhibits for the county fair. Remember, the fair is only a month away!

Don't forget to vote Tuesday. Vote as you please, but VOTE!

POLITICAL RAMBLINGS

(Continued from Page One).

More is rousing out ten years service on the county board, and if nominated and elected again will have 12 years in his credit. The other candidates are: W. C. Moyes and W. F. Hrekonk. Mr. Hrekonk has previously served as commissioner and two years ago was defeated by only a few votes for the nomination of the Democratic nomination in the Twin Falls county board. Both are well known. Mr. Winding being at present, member of Twin Falls highway district board. He served as county commissioner for several years. Mr. Moyes is coming to Idaho about 17 years ago. Mr. Denay has long been in the produce and shipping business. He is a native of Idaho, and is known as a successful business man.

The sheriff race is the most interesting one to watch. From the outside looking in, the Republican contest seems to have a decided edge toward Husted, Rice, Gilbert and Rodman. Republican hands in a problem on their hands in Idaho, but for some time now, and as it is, the vote is likely to be so badly split that it will be necessary to make a compromise. This exists in Democratic ranks with sheriff Phil being opposed for nomination by E. F. Prater. Prater is a native of Idaho, and has served three terms as sheriff. All are experienced and well known. Mr. Husted will have served three terms as sheriff in the present term. He has always been a wonderful vote getter. Prater is a native of Idaho, and has served three terms as sheriff. Prater, admittedly, has a formidable campaign for the place.

One other contest comes to mind. It is the contest between I. G. Grossman and E. F. Prater for the Republican nomination. Prater is a native of Idaho, and has served three terms as sheriff. Grossman is a native of Idaho, and has served three terms as sheriff. Prater is a native of Idaho, and has served three terms as sheriff. Grossman is a native of Idaho, and has served three terms as sheriff.

AN ILLUMINATING ARTICLE

An article in the August issue of The National Farm Journal entitled "What Import a Million Farmers' Year" should be carefully read by every citizen of the United States and by every one who realizes that the prosperity of the country depends upon the welfare of the farmer. The author, who is a farmer himself, points out that the farmer is indispensable to the prosperity of the country. He says we import a million dollars' worth of agricultural products that we could grow here, to require a million dollars of average land to produce them. He says we import a million dollars' worth of agricultural products that we could grow here, to require a million dollars of average land to produce them.

Coroner's Verdict Is Possible Suicide

HAGERMAN, July 29—On Saturday afternoon Mrs. Joe B. Tinn and daughter came to town to do some shopping, and when they returned home the daughter found her father dead, lying face down with his gun beneath his head. The coroner's verdict rendered yesterday by the jury was that of possible suicide.

Mr. and Mrs. Thompson came from Woodbine, Kansas, and purchased the Fred J. Thompson place, and moved on only a week ago. Mrs. Tinn and close friends of the family think he had intended shooting a hawk and in going around bushes where the hawk was nesting, he was stumbled and the gun caught in some way discharging it accidentally.

The body was prepared for shipment and Mrs. Tinn and daughter accompanied it back to Woodbine, Kansas, for burial.

They will not return to Hagerman and it is not known yet what disposition will be made of the property. The coroner and his pathless deeply with the stricken wife and daughter.

Miss Lina Johnson returned Thursday from Moscow where she has been attending summer school. She spent a few days at home and then returned to Moscow, where she will be for some time.

Mr. and Mrs. Donald D. Smith came Thursday to make a visit with friends and look after his property here. He left for his home Saturday. His sister Frances is visiting at Hilly, Mr. Du Lora is the instructor at the university and Paul and Frances are students there.

Mr. and Mrs. R. H. Greene and Mr. J. J. Farver were to Boise Monday for a short trip. Clarence Kington of Kimberly and Mrs. Tupper were married Saturday at Jerome. Rev. Mr. Tall performed the ceremony. Mr. Kington has been doing pastoral work at the church here the past year while pursuing his studies at Gooding College, and Mrs. Tupper is a Hagerman girl. The left the county points on their wedding trip Sunday afternoon.

Out a group of Twin Falls parties were picnickers at Colthrop park Sunday. Ed Guthrie and family from Twin Falls were visitors at the Andy Bimler home Sunday. Elvys Lavery, granddaughter of Mr. and Mrs. Courtney came Saturday for a few days' visit.

Mr. John Jones' two children have whooping cough. John C. Barkson is on sick bed having had an influenza and lately tonsillitis.

Don Lu Gates of Wendell,

The V. J. Lichey family met her in Salt Lake, and all went to visit. They visited two sisters of Mrs. A. D. Lichey in Lincoln, Nebraska, whom they had not seen in 20 years and also visited with other relatives in Scottsbluff, Nebraska. Also while in Kansas they visited the Hobbs at Hallett farm at Eldorado, and on the way home they stopped at Cheyenne.

Season has arrived. They are yielding good right now. After the nights get cool, they are not so nice or plentiful. Can furnish any size or quantity you wish; create your order and it will fill it. There are still apricots, but the demand is larger than the supply here. In June grown melons have started coming in. ED VANCE, PUBLIC MARKET Adu.

CUSTOM CIDER MILL I have bought Templeman's cider mill and will be prepared to do custom work this fall. Also have fine vinegar, Frank McCormick, phone 6931, half mile east on Ad-dison and south at sign—advise.

Who is a candidate for the office of County Assessor subject to the decision of the voters of the Republican Primary Tuesday, August 2, submits the following code: QUALIFICATIONS: Republican; Resident of Twin Falls county 15 years; Candidate for office, 1926; Six years' experience as Clerk District Court; Eight Years as Deputy Assessor. REQUEST: Any courtesies granted will be accepted as a compliment. — H. M. HOLLER.

The V. J. Lichey family with their mother, Mrs. A. V. Lichey, came in Tuesday evening from their three week vacation trip. The mother came on from San Pedro, California, where she has been spending several months with her daughter, Mrs. V. C. White.

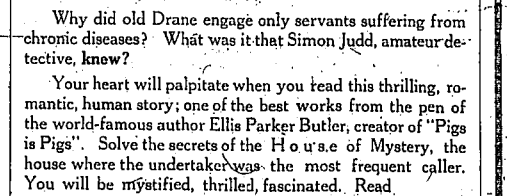

Mrs. Gertrude Bick and children of Monmouth, Illinois, who have been visiting the Harry Pratt family for several weeks left this week for Portland, Oregon, to visit the Arthur Suenkan family where they will return home.

Mrs. Dell Johnson arrived home from Butte, Montana, two days ago after spending three weeks with her parents and other relatives.

Mrs. Julian Bickets was pleasantly surprised on Thursday afternoon by the Falls City club ladies who gave her a house warming. The afternoon was spent in playing games pertaining to the home. Miss Rolaux Corbin and Mrs. Corbin were the prize winners. After looking the new home over a delightful lunch was served by the club ladies.

Mr. and Mrs. Charles Bailey, Missoula, Montana, visited over Sunday at the home of his sister, Mrs. C. A. Overfield. They were accompanied from Puyette by Mrs. Sara Bailey who is staying for a visit with relatives.

The Ever-Popular Black Satin

No woman nowadays can afford to be without a black satin frock for a season's wear. It is a fashion that no other dress does. The one described above is suitable for all types of hair. It is especially fitting for a mature woman, and, of course, after a smart. The frock of honey better concrete in quite feminine and it distinguishes her because of the left of the skirt, where it breaks the hemline. There is added interest in the material. It is a black satin. A flared skirt is attached across the front, but there is a complete back, which gives the dress an extremely slender line.

The Shadow of Death Hovered Over This House of Mystery

O.P. DUWALL CANDIDATE FOR Prosecuting Attorney Republican Primary (Vote as you please, but VOTE) Of course I would be pleased to have you vote for me for Prosecuting Attorney, but the nomination of any one candidate is of minor significance compared to the importance of exercising your right of franchise in this great country of ours where all men are granted equal rights and privileges under the Constitution. From an electorate that shortly after the Civil War cast 86 per cent of its vote, we have fallen down to the astonishing figure of 49 per cent. Instead of a representative Government by a majority of the people, we are ruled by a minority. Twin Falls County is made up of progressive, intelligent and aggressive people. Let's not deteriorate into the "Vote Slacker" class. I urge everyone to vote at the Primaries Tuesday.

Among Our Neighbors

BOX FACTORY BURNS

Industry Times—Fire started in the boiler box factory on Tuesday afternoon about 1:00 o'clock and before anything could be done to stop the blaze the building, machinery and contents were completely destroyed. The fire engine was late in reaching the place and could do but little to save any of the water on the place and the chemical hose did not work. The building was drenched anyway but a job that might have been entirely saved was partly buried.

Heavy firing was assigned as the cause. Scattered were being used and a spark flew into the framework of the building. The place was so extremely dry that it burned like tinder. The factory property was owned by T. J. Cutler and he carried no insurance. It seems, to the fact that the companies do not care to insure such steam risks and therefore demand extremely high rates. The loss is estimated between \$4,000 and \$5,000. Mr. Cutler is undecided as yet but believes he will start up again after a time.

SCOUT DIES

PUCATELLO — Joseph Rainey, born in 1847 near what is now the site of Pocatello, succumbed to an attack of pneumonia Friday night at a local hospital, and in his passing is lost to the west one of the men largely responsible for its settlement. He fought in several Indian wars and assisted the government as interpreter in effecting treaties which included peace to white and red man, and prevented much bloodshed in Indian war.

Mr. Rainey lived to see Pocatello grow from a small brush clearing and building place for scores of Indians to the largest city in southeastern Idaho, and to glory in its progress. He was a factor in adding the Indian name of peace and assisted in many years of peace and assisted in many years of peace and assisted in many years of peace.

He headed the Fort Hall Indians who took part in the filming of "The Covered Wagon."

Mr. Rainey fought with General Crook in the Big Horn country which included most of Montana and Wyoming and contingent territory, and in the Nez Perce under General William Tecumseh Sherman. His heroic deed in saving the people and settlement of Challis, he was presented with a fine rifle on which was engraved the incident and date—Salt Lake Tribune.

Joseph Rainey figured prominently in the Indian fight at Battle Ground six miles above Mackay, in 1878, for it was due Rainey, it is believed, that the Indians, who were surrounded by Indians, slipped off during the night and kept their fingers up, the river for several miles and then hurried to Challis to warn the people of the attack by the Indians and to receive reinforcements.

FURTHER SHORTAGE FOUND

O. C. Hall

Candidate for Nomination for PROSECUTING ATTORNEY on the Republican Ticket.

For the past seven years I have conducted a law office in Twin Falls, with extensive practice in this and adjoining counties, and in the Federal Courts. During all this time I have been successful in trying my own cases without assistance from other attorneys.

It is my conviction that a prosecuting attorney should try every criminal case in which the State has a fighting chance to win, and that violators of the law should be taught to expect stern and uncompromising prosecution when brought to the bar of justice.

If elected to this office, I propose to maintain this policy, together with the strictest economy that is possible without lowering the effectiveness of the office.

Yulcan Mines Co. Reporting Progress

At the annual stockholders meeting of the Yulcan Mines company which was held Monday evening in the company's office located above McElwain's shoe store, reports of the officers indicate excellent progress, ample material and machinery on the ground and cash available to take care of the operations for the coming year.

The Yulcan company owns valuable gold and silver claims in the northern part of Elko county, Nevada, in the Wild Horse district, and about 80 miles from Twin Falls.

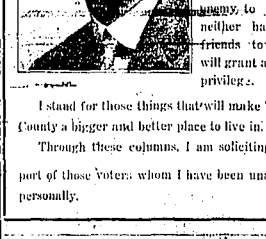

Three veins cross the path of the working tunnel now being driven and the first one is anticipated to be reached inside another 200 feet. This prediction is based on the surface workings and showings exposed, and the reports of mining engineers who have examined the property.

Machinery, compressor, cars and track are on the ground in sufficient quantity to take extensive development.
