

Car Owners Warned to Be Careful

Taking advantage of the tremendous increase in the demand on the part of the motorist for service, a swarm of "zipp" operators has descended upon the state of Idaho and many car owners are paying thousands of dollars as a graft logo to fly-by-night concerns that are magnifying the cost of a motor service organization.

This statement was issued today by the Idaho State Automobile Association, the local A. A. club, based on representative reports from its own executives and scores of motorists from individuals who have been misled. The evidence of "zipp" activity is confirmed by the records of federal agents and letters of reprimand sent throughout the country.

"There is one simple way in which a motorist or garage owner can determine for himself the nature of the service he receives. He should call on the secretary of the local chapter of Consumers and insist that an investigation be made."

Statistics of automobile thefts in the United States show that the loss of a car is the most common type of property loss. The loss of a car is the most common type of property loss. The loss of a car is the most common type of property loss.

Among Our Neighbors

Mr. Mann cited the following rules for the motorists' protection: "Park on a well-lighted street, as far from the curb as possible. Lock the transmission or ignition carefully, and then, if the car is a closed model, close the windows and lock the doors."

ON VACATIONING

Everybody and his dog seems to be either coming, to go, or getting over a vacation. If it is not a period of two, three or several weeks, then it is for that many days.

Literally thousands from here have gone to the mountains, to other towns, other states, other places to visit relatives, to see sights, to spend money, or just to be going.

Other thousands from over the state and from other commonwealths have come to the Twinland empire to visit Brother John; or Cousin Ann or Neighbor Brown; and mostly via the automobile.

This section, as well as all other desirable places to go, is certainly on display during the summer. From "back east" they come, and from all over, getting, maybe, their first impression of the West, of Idaho, of Twin Falls and other cities.

How necessary that we have our best "bit and tucker" that we make all these visitors welcome, even if they are our relatives; that our homes be in order, our yards and gardens sightly, the weeds burned, the fences up and that the premises of homes and farms bespeak the prosperity that is here.

In the towns we must keep clean streets, trim lawns, fight weeds on vacant lots, encourage slightly store and shop windows and a well-ordered appearance about the municipality through the use of paint. This latter is a god-send, for cover the surface and you hide all!

A "flashing" glimpse is all many tourists, travelers and visitors get of this section. But that remains their life-long impression of southern Idaho. They say either "The country looks prosperous," or "That section does not appear to me."

We are all very much alike in this regard and furthermore we are all travelers. Those vacationists who here cannot but be well impressed with our towns, our country, our mountains, our scenery.

The kind of vacations we now take are certainly conducive to a better understanding between states, and communities and sections.

If you have not had your this year, take it. Go this year or next, but go!

\$5,000,000 WISELY USED

John D. Rockefeller, Jr., in restoring the old town of Williamsburg, Va., has donated five million dollars for this purpose.

The wisdom and graciousness of this donation should be shouted from the roof-tops! Think of it! One individual giving five millions of dollars for the common cause of beauty. Rockefeller is saving beauty from decay and is perpetuating historical monuments. He is doing something fine and noble for the Soul of America.

The old Colonial houses of Williamsburg, Va., with their wide chimneys and fan-windowed doors, were rapidly going to ruin.

Now the city, which was once the seat of American government, is to be reproduced just as it was a hundred years ago. The buildings of historic William and Mary College are to be restored. The old capital building will be rebuilt. Even the pavements and street lamps will be made to look as they did in the old days.

When the renovations are completed in the town, it will be the mecca of all interested in American history. It will be possible to see the actual places where immortal words were said and where immortal documents were signed.

The gratitude of all Americans is due Mr. Rockefeller for his inspiring and public-spirited gift.

The summer is fleeting. Fair comes week after next; school opens the following week. It won't be long, now!

The movement in favor of adding another month to the calendar is gaining headway. Must be sponsored by landlords!

What is the use of having a dictionary as an aid to spelling words? You have to know how to spell a word anyway, before you look it up.

Senator Curtis will be officially notified of his nomination for Vice President on August 18. We hope he appears properly surprised.

There is no doubt, any more as to how to pronounce the name of Tunney. The reports that he is leaving the ring with \$2,000,000 in his pockets make it sure that it is pronounced to rhyme with money!

One of the defeated candidates in the recent Republican primary in this county, said the way he ran reminded him of the manner they have in England of designating candidates. A man stands for office there. Here he runs. The local man said, after emerging from the primary votes, that he was convinced he had only stood in fact he believed he was tied!
