That Cold
An Ounce of Prevention
Is Worth a Pound of
Cure — and Is Much
Cheaper

VOLUME 9

TWIN FALLS, TWIN FALLS COUNTY, IDAHO, TUESDAY FEBRUARY 12, 1929.

A Citizen
Want Ad
Will
Do the
Trick

Present this cold. If you feel it coming on, or if everyone else in the house has one and you are quite sure that it will be your turn to get it, take a few drops of our old-time cold and prevent it.

When grandfather came home with a cold, grandmother rushed quickly for lemon and made a real hot lemonade. She didn't know why lemon was good for colds, but she knew they were good and her old-fashioned remedy produced results.

Now the scientific year has been discovered. Doctors tell us that not only is lemon juice effective in taking a hot lemonade before a cold to make one's perspiration and rid the body of toxic substances, but that lemonade should be taken several times during the day as well.

The reason this practice should be followed is that lemon juice causes an alkaline reaction in the body. More and more it is the fact being appreciated that lemons and oranges, though used in lemonade, have a final alkaline reaction which is most effective in helping to maintain the normal alkaline balance of the body.

Authorities claim that an acidosis caused from the lowering of the alkaline balance is present with every common cold and that its correction is the quickest and most effective way of curing a cold. This means that we must eliminate or greatly reduce, for as long as we can, the acids which enter while our consumption of acid-forming foods such as bread, cereal, meat, eggs, fish and food, and use the alkaline fruits and vegetables such as milk, fruits, fruit juices and vegetables in a goodly quantity.

Do not by any means understand that one should entirely eliminate acid-forming foods from the diet for a long period. The most common and many very essential foods are acid-producing but absolutely necessary on account of their calcium, iron, potassium and carbohydrate content. It is merely means that when a cold is on, or if you are likely to get one, you must make our old-time alkaline tea as readily as possible by eliminating or reducing these acid-forming foods from the diet. Do not eat and eat heavily of the milk and other products of the dairy.

Such a goodly quantity of alkaline producing beverage should be drunk at once, and then repeat at least three times during the day and if you wish, a final glass of this beverage may be taken before retiring.

LOCAL WOMAN ATTENDS WAR COURSE CONFAB

Mr. J. J. L. Frisley from Washington D. C., Friday when she attended the fourth annual National conference on the Cause and Cure of War, January 13 to 15, in company with two other Idaho delegates. She reported 500 women registered, representing ten organizations, as follows: The associations affiliated with the American Association of University Women; the League of Women Voters; Council of Women for Home Missions; the Federation of Women's Board; Foreign Missions; the Federation of Women's Clubs; the Young Women's Christian Association; the Women's Christian Temperance Union; and the National Women's Trade Union League.

The purpose of the conference was to assemble the views of women from different parts of the world and from different organizations, discuss the questions concerning war and carry back to their respective homes the results of these discussions. The Kellogg peace treaty, the Monroe doctrine and the Pan-American peace agreement, and the movement to have an agreement of the army and navy were all considered, the women being much interested in the adoption of a no-war treaty.

Miss Joslyn visited in New Baltimore, Philadelphia and St. Paul during her trip.

WORK ON BILLS GAINING SPEED IN LEGISLATURE

Anti-Fraternity Measure Is Being Introduced by Senator Cigarette Matter Creates Much Argument

With the time for introducing new bills in the state senate almost ended, action is springing up on legislation already under consideration.

The biggest attendance at any session of the legislature this term occurred on discussion of the anti-fraternity bill which is designed to prohibit fraternities in Idaho high schools. The capital was packed with every common cold and that its correction is the quickest and most effective way of curing a cold.

Another bill of interest is that to levy a poll tax of \$4 on every man between 21 and 60 years of age, while another calls for a tax of \$1 on every man over 60 years of age. The bill, which is designed to bring the total number of voters from 115 to 125 a year.

Another bill was passed to allow a bill election, the purpose being to allow a bill to be introduced in the legislature at any time during the session.

Other important bills provide for abolition of exemption of war veterans from poll taxes, extension of taxation on young people, saving for Idaho all power sites in this state and preventing the transportation of such power to other states; reduction of criminal charges and penalties on drunken auto drivers, to permit their sale by private cars, and to permit their sale by private cars.

The usual last minute rush is being done with the probability that some of the bills will be taken care of at the final session.

Old Water Suit Causes Trouble

An old water suit dating as far back as 1877 was brought into district court at Twin Falls during the week ending in Hamilton. The suit, attorneys, filed a suit in behalf of J. H. Stoner, Julia Stoner, and the Dry Creek Water Company against Frank John Terrell. His Annie Oliver and Alice Irene Williams, heirs of the late Frank Terrell and Annie Terrell.

The notice cites an agreement made between the original owners of the water right regarding division of the water right. The Terrell heirs, however, refused to sign the agreement. The Terrell heirs, however, refused to sign the agreement.

R. E. Shepherd Has Statement on Potatoes

The national Potato conference at Chicago in December adopted a resolution advising a reduction of from 10 to 20 per cent in the price of potatoes in 1929 on the part of all growers in the United States. R. E. Shepherd, president of the state chamber of commerce and chairman of the National Potato conference, said that the same average is planted this year as was planted in 1928. We may expect somewhere near the same surplus and hence about the same low price as now.

"Prior to 1924 Idaho was producing and marketing with fair success about 16,000 cars. In 1924 we produced about 12,000 cars, and in 1925 about 14,000 cars. In 1926, crop sold for a big price, which led to a constantly increasing acreage, until we got up to near 20,000 cars and no price that we could make a profit."

"What has been going on in Idaho has happened in most of the other potato growing states of the United States. In 1928 there was a surplus of about 100,000,000 bushels, and a loss to the potato growers of the United States of about \$100,000,000. The surplus fixed the price to a large extent on the entire crop."

Jerome People Oppose Dates

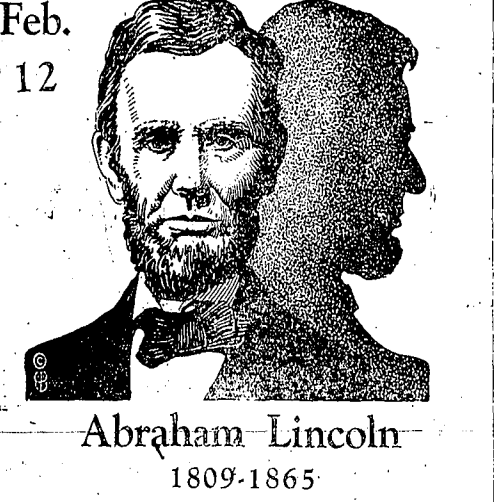

Certain citizens at Jerome have protested against the arrangement made at the meeting of the Jerome county board of health, recently when the dates for the Jerome county fair were set for August 29, 30, 31, and 31. They are opposed to the holding of the fair at Jerome county because of the fact that it would be a disadvantage to Jerome county in securing larger and better displays of outside livestock, mainly.

Bishop Brown on Visit Here

Dr. Wallace E. Brown, bishop of the Methodist church for the Helena area, has spoken in several Twin Falls county towns and neighboring communities during the last few days on his trip through this section. He spoke on the subject of the Christian religion in general and on the subject of the Christian religion in particular.

Bean Growers Hold Officers

Officers of the Southern Idaho Bean Growers' association were elected at a meeting last week of the directors. This was the first annual meeting of the association. J. H. Hildner of Twin Falls is president; W. E. Beveler is secretary; and W. E. Beveler is secretary.

Abraham Lincoln
1809-1865

Oh, light the world, great spirit! In your Creation's rare dream, the one perfect way: Those wanderers of the soul since it passed the bar: That all mortals have passed since the morn'g first began?

To find up the wounds of a state covered by: By the life blood of patriots who glory and bleed: To freedom forever his hand delivered: And those brave old, left a table of names:

On some far-flung planet, of God's commandment: Puffing the plume of a teacher of man: That all mortals have passed since the morn'g first began?

A heart full from frail blood with love's overflow: A shaft of envy or malice, that temple defile: High courage, mad hope and a faith, surely glowing: And from duty's steps path leads by cold regard.

Jerome Host to Dairymen

Gooding county is credited with being the leading county in Idaho in milk production last year having been the best experienced. The county is credited with being the leading county in Idaho in milk production last year having been the best experienced.

Five Directors to Be Elected

Directors of the Gooding county board of health will be elected at a meeting of the board on Wednesday. The board will consist of five members.

Bean Growers Hold Officers

Officers of the Southern Idaho Bean Growers' association were elected at a meeting last week of the directors. This was the first annual meeting of the association.

Lamb Pools at Gooding Lead State

Gooding county is credited with being the leading county in Idaho in milk production last year having been the best experienced. The county is credited with being the leading county in Idaho in milk production last year having been the best experienced.

Take Initiative Before Zerger

The Hay Scouts are carrying on their program for Scout week during the seven winter weather. On Saturday night 50 of them camped on South Executive J. H. Cannon on a hike into Snake river canyon where they played several games and skated on Herke's lake.

Monday Is Civil Good Turn Day

Monday was recurring day when efforts were made to carry on the membership to 100 per cent in the fourth patrol having eight new members. The boys and girls met with their fathers at a banquet.

Fruit Men of District Hear Experts at Annual Meeting Here Last Week

War Declared on Bananas by Twin Falls Horticultural Society Which Elects Will Walking of Deratur Orchard as New President.

Cold weather and rough roads prevented a large attendance at the annual district meeting of the Twin Falls County Horticultural Society in Twin Falls Friday, although the visiting men expressed appreciation to those who braved the inclement conditions to attend.

Five men directors were elected and in their organization meeting following the regular assembly, William Walking of the Deratur Orchard at Filer was named president; Roy Green, Twin Falls, secretary; George U. R. White of Buhl, Joe Dwyer of Filer and Albert Potatier of Twin Falls are the other new directors.

FARMERS PRODUCE ACTING ABILITY IN GRANGE PLAY

Large Turnout Features the Showing of "The Hurry-Up Bride" at High School Thursday Night.

The Twin Falls high school auditorium was well filled at the presentation of the play "The Hurry-Up Bride" Thursday night. The play had been in rehearsal for several weeks and was well received by the audience.

When Fruits are Ready For Canning in this Area

By ED VANCE—PUBLIC MARKET—TWIN FALLS (By future reference paste in your recipe book.)

Each summer numerous thousands of bushels of certain kinds of fruit are canned and either get left out entirely or do not get the desired article at its best.

Strawberries are the first thing in the canning line. The first part of the crop is always the most and firmest. For canning or preserving a tart variety should be selected, also one that stays red.

The red Raspberry has a long season. It is very important to secure some black caps from the first few pickings as they are nearly always the best after that.

The Red Raspberry has a long season. It is very important to secure some black caps from the first few pickings as they are nearly always the best after that.

Some varieties of plum can be had from that time on until October. The time after July 20. Some varieties are late as late as October 1, but the insomuch as they require a good choice of varieties ripen in August.

Childs Details History of Great Northerns in Idaho

The following brief history of the Great Northern bean industry in southern Idaho was given at a recent station RGIQ, Twin Falls, Idaho evening by O. J. Childs, seed company manager.

In the early spring of 1917 there came from Billings, Montana a consignment containing a small quantity of a variety of Swedish brock, and Hugh Tamm, a Japanese farmer, they had with them a sample consisting of only one bushel of seed.

White, and which they claimed was the best of any in the world. The speaker inquired of the farmer in the Yellowstone valley, they requested the speaker to show the sample to farmers when they came to the office of the speaker.

When the speaker was then manager, Mr. Carlson assumed that he would come back and buy all the beans the farmers, about Filer could produce.

The speaker succeeded after several years in interesting William Council, Charles E. Alden, and Joe Simon, then White and Herbert Frame, in buying one bushel of six variety beans, each of the new variety beans.

It had been found that the late that freight received could not be depended upon to get the beans to Filer in time for planting, so we ordered them by express as a cost to the five farmers of 20¢ a pound.

Mr. Carlsson returned to Idaho early in the spring of 1918 and succeeded in interesting Victor, Hugh and Leonard Holway, a Floyd Neale, Tom Blair, and a few other farmers in the Knoll district in the new beans, referring them to me to find out what results were obtained from the five bushels planted by the farmers.

Mr. Carlsson returned to Idaho early in the spring of 1918 and succeeded in interesting Victor, Hugh and Leonard Holway, a Floyd Neale, Tom Blair, and a few other farmers in the Knoll district in the new beans, referring them to me to find out what results were obtained from the five bushels planted by the farmers.

Democrats to Have Talk-Fest

Democratic members of the Idaho state legislature held a meeting several days ago and decided to hold a platform meeting of delegates at the Cayuse hotel in Twin Falls, Feb. 12-13.

The invitation is sent out for all democrats who wish to attend the meeting. There will be an old fashioned get-together and a banquet, plates to cost \$1.25 each.

The dinner was signed by Robert Goulter, state representative from Valley county; Senator E. G. VanHooker of Mesa Claude McCarter; W. J. Lammie and W. A. Dunmore, the committee in charge.

Cold Weather Helps Market

The Caroten Packing company at Kimberly has been forced to buy large quantities of hay on the north side of the Snake river near the main highway since the only possible roads of the last few days made it possible to reach the supplies of hay purchased earlier in the season.

Fights Drug Evil

Rep. S. G. Porter, author of the Narcotic Farm Bill, signed by President Coolidge, which will require about 1,800 more beds from Federal institutions to two local full care institutions.

10 More Days!

I want to rare right back on your two hind heels and TELL THE WHOLE COCK-EYED WORLD that H. A. TAYLOR, The Electrical Research, Products, Inc. E-R-G-N-E-E-R, landed in TWIN FALLS SATURDAY and started right in to SUPERINTEND the INSTALLATION of the Western Electric sound equipment thru which we are going to let you both, HEAR and SEE the VITAPHONE and MOVIE TONE PICTURES.

When Mr. Taylor arrived, I said; How listen, Harry! I want you to tell me the whole secret about these machines; the why, and where-for, and what-nots. So H. A. started right in and told me everything.

After the 3 minutes were up, I figured that it would take at least 12 days to do the work that he outlined and that we would be ready to open on schedule FRIDAY, FEBRUARY 22nd, with—

AL JOLSON

IN "The Singing Fool"

P. S.—Watch the advertising columns of the Citizen next Friday for further information about the workings of the 'TALKIES' that I got from 'Har'.

Public Sale

Horsey and my ranch, I will sell at Public Auction, 4 miles south of Hazelton, on road from Hazelton to Declo, school house.

Wednesday, February 13 Commencing at 12 o'clock sharp

HORSES
Gray team Percheron mares, 10 years old, weight 3100 lbs.
Black Gelding, 7 years old, weight 1850 lbs.
Black mare, 10 years old, weight 1850 lbs.
Brown Gelding, 10 years old, weight 1600 lbs.
Bay Gelding, smooth mouth, weight 1400 lbs.

ROOS—A registered registered Chester White blood sow, bred to sire in March 1 registered registered Chester White boar 35 pounds Chester White sows.

WHEN SCOUT MEETS SCOUT

Hardly anyone ever thinks of boys making a real contribution to the peace of the world. Yet that is one of the results that is being achieved by the Boy Scout movement, according to some of its world leaders, and it is in direct opposition to the groundless charge made at times that the Scouts are a militaristic organization.

Two great world gatherings of Boy Scouts—Jamborees—they were called—one in London in 1920 and one in Denmark in 1924, brought together boys from every corner of the world to meet in friendly displays and contests. Thousands of Boy Scouts each year as groups and individuals visit the scouts of other countries. A hundred and fifty American Boy Scouts spent vacation days visiting Danish Scouts last summer. A group of Philadelphia Scouts toured England with their Scoutmaster, meeting and fraternizing with British Boy Scouts.

This year, again, Scouts of the world will meet on common grounds. Another international jamboree will bring together more Boy Scouts than ever before, in an exemplification of the Fourth Scout Law, that a Scout is "a friend to all and a brother to every other Scout." Fully thirty thousand boys, it is estimated, will gather at Birkenhead, across the Mersey from Liverpool, at the end of July. A thousand of the number are expected from the United States. For two weeks they will foregather, giving displays of national Scout activities and traveling together in groups over England and other countries of Europe.

WE CAN'T EAT OUR CAKE AND HAVE IT

What profiteth a nation if it save the taxpayers two billion dollars in eight years and the total taxes paid in that time exceed the national production? President Coolidge recently made the two billion showing. The department of commerce took it away and then a lot, by revealing the heavy increase in local taxation.

We see taxes more clearly from afar. The telescope sweeps the national and state files but is not often enough focused on the villages, cities, school district and counties.

We blow in the money at home with gurgling abandon and then come the larger units of government and their executives because of our predicament when the tax collector knocks at our doors.

There will never be any material reduction in taxation under the present mental attitude of the taxpayer himself. If he really wants reductions, and the local departments associated therewith, he must get out the old home ax and go to whacking.

With all the comforts and luxuries he needs, or thinks he needs (and he is entitled to all of them if he can afford them) and with his commendable pride in the community and its advancement, his steady dosage will be the gall and wormwood before there will be any material relief.

He must not only cut off some of the comforts and luxuries and swallow some of his pride but he must wade into the constantly increasing official army that is being maintained on the ground of necessity, and which may be absolutely necessary in harmony with ability to pay therefor.

What we are trying to do has been going on for centuries—trying to eat our cake and have it.

The picture is not of Idaho alone, but most every state. In fact, Idaho's per centage is lower than many. That is beside the question of decreasing our own expenses, however, to a point that will be able to pay without unnecessary hardship. Irrespective of what others may be doing, our job, if we really mean business, is to commence at the bottom of the tax structure, which is rooted right at home.

TELEPHONE AND PLANE SAVE TETANUS VICTIM

Shoshone School Insurance Accepted
The Shoshone school board last week accepted the offer of \$68,808.86 as insurance indemnification for the loss of the school building by fire early in January. Full insurance of \$15,000 on equipment was allowed by the insurance concern, but the balance on the building was reduced because the gymnasium was not covered. Total insurance of \$79,000 was carried by the school district. Plans have already been made for construction of two new modern buildings.

Friends of The Citizen, having legal notices to print, will confer a favor by ordering their notices in this publication.

High School News Notes

From THE BRUIN

REVIEW OF IDAHO GIVEN ASSEMBLY BY C. D. THOMAS

"The year know that we live in the best city in the best county in the best state in the Union!" asked Mr. C. D. Thomas, a prominent local business man who spoke to the high school students in the auditorium at 10:30 Thursday-morning. Mr. Thomas gave a brief history of the Gem State.

Mr. Thomas came to Idaho at the age of eleven years with his sister and stayed with his uncle at Granite, Idaho. This was at the time of the great gold rush into northern Idaho. He pictured the coming of the men that traveled from one camp to another.

"This is but a drama in which each person must play his part," Mr. Thomas said, "and history is but a human drama."

Mr. Thomas told of all the Indians that lived in Idaho, saying that the Indians lived in the mountains were superior to those in the lowlands in every respect. "The Nez Perce Indians were the highest in intellectual ability of the natives of Idaho."

"Chief Joseph was the greatest of Indian generals," Mr. Thomas said. "He is the greatest general ever known in the United States army for a long time. He led the Indians from the Nez Perce country over into Yellowstone park before he surrendered."

Mr. Thomas also spoke of the great gold rushes into the northern part of the state. "More gold was taken out of Idaho than was taken from the Klondike in Alaska. Most of the gold was taken by the so-called placer mining. The first placer mine named after a man named Pierce who was an early placerer."

Mr. Thomas told an interesting story of the "Rocky Mountain Canary" small four-legged animal sometimes called the burro. An "Irish man" once took a burro and one of these little animals and let it run up and down the street. As some of his boys were going prospecting, they borrowed the animal to pack supplies without the owner's permission. When they arrived at their destination they left the burro to a small tree and they to prospect in a canyon.

As the burro is an animal that likes company, he began to imitate his men, copy and stamp. When the men returned they noticed they noticed the place where the dog had stamped and discovered the burro. The burro had stamped in gold and the famous "Lava Rock" was treated where the dog had stamped.

Mr. Thomas gave many other statistics favorable to our community. Students found the lecture educational as well as interesting and hope Mr. Thomas will continue his review of Idaho history in the near future.

THE LADY OF THE TERRACE IS PLAY TITLE

A plot full of Irish legend and fancy thrills, fun, love, dancing, clever lines, hilarious situations, and funny characters, are all found in "The Lady of the Terrace," a musical comedy in two acts which is to be presented in the high school auditorium this evening, February 23, under the direction of Miss Gertrude Boken.

Long Perrine takes the part of a young Irish nobleman who inherits the castle Croughmoun. He finds himself very much run down and heavily mortgaged by his uncle, Burton Dehoun, who plays the role of "The Lady of the Terrace." Burton tries his best to get possession of Eugene's inherited estate and title by clever scheming. Eugene becomes very interested in Lois Pool, who with her father, Mallon Guest, a wealthy New York business man, visits the castle of Croughmoun. Lois wishes to go to Ireland with Eugene and finds her about the "Lady of the Terrace" which is taken by Lois. She is interested in his tale of woe and hard luck.

Imagine the complications which Eugene and Lois cope with to rescue the castle from being bought by Burton Dehoun, the light-fingered Squire Mallon.

Margaret Wehnera playing the part of Lady Ellen Standford, Eugene's aunt, and Miriam Ballantyne do outstanding work and will furnish enjoyment and amusement to all.

By all means come and see Wayne Dehoun, the "Lady of the Terrace," two Irish servants, and Ben Mumpower playing the role of a dulle Englishman. They can furnish you with enough laughs and thrills to last a lifetime.

HONOR ROLL IS GIVEN OUT

SEMESTER HONOR ROLL Post Graduates

The honor roll percentage for the third six weeks period and the semester were comparatively good as to previous student records. The third six weeks grades found 118 students and the semester grades 102 students all with A or B grades. The all "A" students are as follows:

Seniors
Irene Hill and Dorothy Evans, 5 A's; Ruth Snow and Edgar Wheeler had 4 A's.

Juniors
Josephine Bullis, Owen Thomas and Kathleen Wilson had 1 A's.

Sophomores
Billy Scott received 6 A's; Vera Erickson, Ardis Gosselin, and Charles Runyon had 4 A's.

Freshmen
John Dwight 5 A's, and Kathleen Boone, Mary Ellen Brown, Marian Graham, Bert Larson, and Margaret McLean had 4 A's.

Seniors
Genevieve Bolster, Ruth Bruggeman, Dorcas Christensen, Marjorie Ebling, Dorothy Evans, George Evans, Arnold Hultgren, Ruth Leavelle, Edna Leith, Pearl Nelson, Ardis Erickson, Eugene Erickson, Grace Summers, Maurine Taylor, Dorothy Weaver, Jean Woody, Edgar Wheeler, John Rutter.

Juniors
Carl Allen, Clyde Bacon, Pauline Bevern, Bernice Bullis, Olga Ginzrey, Maymie Coleman, Allison Grogan, Lewis Lindsey, Harry McCoy, Albert Grooms, Larry Grogan, Bernice Ottman, I'lla Rice, Wayne Brown.

Sophomores
Mildred Rank, Barbara Sanger, Jean Sprague, Elizabeth Stephens, Anne Swanson, Owen Thomas, Maurine Walker, Gerald Walker, Kathleen Wilson, Mildred Ward.

Freshmen
Virginia Adams, Miriam Babcock, Mildred Blackburn, Alma Carson, Alma Davison, Vera Erickson, Marie Jorie Flowerdew, Ardis Gosselin, Jennie Hoop, Tildora Hranac, Myrtle King, Altra Madigan, Margaret Melis, Miles Nichols, Malcolm Parsons, Frank Peavey, Ruth Powell, Charles Runyon, Helen Taylor, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

Seniors
Dorothy Albright, Charles Anderson, James Barnhart, Marjorie Blevy, Mary Ellen Brown, Vera Erickson, Marie Jorie Flowerdew, Ardis Gosselin, Jennie Hoop, Tildora Hranac, Myrtle King, Altra Madigan, Margaret Melis, Miles Nichols, Malcolm Parsons, Frank Peavey, Ruth Powell, Charles Runyon, Helen Taylor, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

Juniors
Carl Allen, Clyde Bacon, Pauline Bevern, Bernice Bullis, Olga Ginzrey, Maymie Coleman, Allison Grogan, Lewis Lindsey, Harry McCoy, Albert Grooms, Larry Grogan, Bernice Ottman, I'lla Rice, Wayne Brown.

Sophomores
Mildred Rank, Barbara Sanger, Jean Sprague, Elizabeth Stephens, Anne Swanson, Owen Thomas, Maurine Walker, Gerald Walker, Kathleen Wilson, Mildred Ward.

Freshmen
Virginia Adams, Miriam Babcock, Mildred Blackburn, Alma Carson, Alma Davison, Vera Erickson, Marie Jorie Flowerdew, Ardis Gosselin, Jennie Hoop, Tildora Hranac, Myrtle King, Altra Madigan, Margaret Melis, Miles Nichols, Malcolm Parsons, Frank Peavey, Ruth Powell, Charles Runyon, Helen Taylor, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

THIRD PERIOD HONOR ROLL

Lena Bohm.

Seniors
Genevieve Bolster, Ruth Bruggeman, Dorcas Christensen, Marjorie Ebling, Dorothy Evans, George Evans, Arnold Hultgren, Ruth Leavelle, Edna Leith, Pearl Nelson, Ardis Erickson, Eugene Erickson, Grace Summers, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

Juniors
Carl Allen, Clyde Bacon, Pauline Bevern, Bernice Bullis, Olga Ginzrey, Maymie Coleman, Allison Grogan, Lewis Lindsey, Harry McCoy, Albert Grooms, Larry Grogan, Bernice Ottman, I'lla Rice, Wayne Brown.

Sophomores
Mildred Rank, Barbara Sanger, Jean Sprague, Elizabeth Stephens, Anne Swanson, Owen Thomas, Maurine Walker, Gerald Walker, Kathleen Wilson, Mildred Ward.

Freshmen
Virginia Adams, Miriam Babcock, Mildred Blackburn, Alma Carson, Alma Davison, Vera Erickson, Marie Jorie Flowerdew, Ardis Gosselin, Jennie Hoop, Tildora Hranac, Myrtle King, Altra Madigan, Margaret Melis, Miles Nichols, Malcolm Parsons, Frank Peavey, Ruth Powell, Charles Runyon, Helen Taylor, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

Seniors
Dorothy Albright, Charles Anderson, James Barnhart, Marjorie Blevy, Mary Ellen Brown, Vera Erickson, Marie Jorie Flowerdew, Ardis Gosselin, Jennie Hoop, Tildora Hranac, Myrtle King, Altra Madigan, Margaret Melis, Miles Nichols, Malcolm Parsons, Frank Peavey, Ruth Powell, Charles Runyon, Helen Taylor, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

Juniors
Carl Allen, Clyde Bacon, Pauline Bevern, Bernice Bullis, Olga Ginzrey, Maymie Coleman, Allison Grogan, Lewis Lindsey, Harry McCoy, Albert Grooms, Larry Grogan, Bernice Ottman, I'lla Rice, Wayne Brown.

Sophomores
Mildred Rank, Barbara Sanger, Jean Sprague, Elizabeth Stephens, Anne Swanson, Owen Thomas, Maurine Walker, Gerald Walker, Kathleen Wilson, Mildred Ward.

Freshmen
Virginia Adams, Miriam Babcock, Mildred Blackburn, Alma Carson, Alma Davison, Vera Erickson, Marie Jorie Flowerdew, Ardis Gosselin, Jennie Hoop, Tildora Hranac, Myrtle King, Altra Madigan, Margaret Melis, Miles Nichols, Malcolm Parsons, Frank Peavey, Ruth Powell, Charles Runyon, Helen Taylor, Maurine Taylor, Dorothy Weaver, Edna Wheeler, Helen Whitsett, Virginia Young.

Members of the M. C. Club obtained their pledges at a dancing party given by the High School Glee Club on Poplar avenue, January 25. Decorations of pink and green, the colors adopted by the group and the program were in the same scheme. In addition the usual dances, one dance each, was dedicated to the girls pledged.

They Thought

They Did Not Need to Advertise...

Here is an excellent example of the gradual breaking down of a fundamental industry: Lumber manufacturers figured they did not need to advertise. There would always be a ready demand for lumber, they thought:

But the seemingly impossible thing happened! Substitutes for wood came into existence. The manufacturers of the substitute materials began to advertise.

Somehow, people conceived the false impression that the lumber supply was rapidly being exhausted and that lumber should be conserved by the use of substitutes. The lumber industry continued to be silent.

Instead of telling the world that trees should be cut when they ripened, and that the plan of reforestation provided for a continuous supply of timber as large as that which was then standing, the lumber industry remained aloof, ignoring what was happening. It was not until the lumber market was defeated that the lumbermen awoke to the true situation. And now the lumber manufacturers are forced to spend large sums of money trying to overcome the calamitous result of their own inertia.

Naturally the manufacturer was not the only one to suffer. The lumber retailer shared in the misfortune. He may not have believed in advertising 10 years ago, but today he is a real convert. When it came to the question of survival, he was glad to have the good old raft of advertising to cling to. Advertising alone offered hope for recovery of the lost market.

This is the true story of the lumber industry, the truth of which is shown by the full page advertisements of a lumber trade association in the national magazines. These advertisements are carefully prepared to counteract the false impressions gained of the lumber market.

Community Sunday school was postponed last Sunday on account of several roads in the east end of the community, being still blocked with snow...

Mr. and Mrs. Jim Smith, residing at the Olington place where the M. S. Stary family lived, moved Friday. The Biggerstaff family will live on this farm this season.

Mr. and Mrs. Clarence Campbell moved Saturday to the south end of the Walker-Hanson place where they will farm this year.

Mr. and Mrs. W. H. Mellifield and William Mumford family and the J. W. Moore family have a family reunion Sunday. Those present were the W. H. Mellifield and William Mumford families and the J. W. Moore family.

Mr. W. H. Gowan is recovering from his recent illness. Mrs. Sven Klindt is recovering from an attack of erysipelas. Mrs. Brady returns to her home in Central Wash., after visiting her daughter, Mrs. E. J. Goodrich.

J. H. Glendon attended the annual meeting of the Southern Idaho Bean Growers' association of which is presiding over the J. W. McDowell and J. H. Glendon attended a directors' meeting of the Federal Farm Loan association Saturday.

Mrs. Marjorie Glendon and Bruce Glendon stayed with their grandmother, Mrs. Mary Glendon last week while attending school in Twin Falls. Mrs. Marjorie is attending high school and Bruce is in junior high.

Mr. and Mrs. H. W. Reidsman and family motored to Kimberly Sunday to visit the Jacob Maun family. They found snow in the Kimberly country than here.

The Shamrock club held an all-day meeting and dinner for members and their families at 2 P. M. on Thursday. About 200 persons were present. After dinner the most told several interesting stories about the Alaska gold rush.

Shamrock Parents' Teachers' association met at its regular meeting January 25. Subject of discussion was the county lunch school system. Mrs. Albin and Mrs. Bunch attended the meeting.

Mr. and Mrs. F. M. T. C. met at Mrs. McCoy's Friday January 25 in the city.

Hagerman

Mr. Finch was called Wednesday night to nurse Johnny Curran at the Curran ranch. Mr. and Mrs. Glenn Bell received word Tuesday morning of the death of his mother, Mrs. Jennie Bell at Blackfoot.

Mrs. Charles Green has been caring for her daughter, Mrs. Fred Thompson, who has been ill the past 10 days. Mrs. Thompson is again able to be up.

Mrs. Bonidotte was called to Nampa today to see the serious illness of her father, Mrs. Nellie Rogers helped with the cooking at the Rainbow café during her absence.

Civic club met with Mrs. Sveetland, February 7. Mrs. Johnson attended hostess.

Some out-of-town basketball teams have already made reservations for the tournament to be held in Hagerman Feb. 14 to 16. The girls' basketball team was defeated last week by two points by the girls.

Little Jacko Martin, son of Mr. and Mrs. George Martin, is recovering from flu and pneumonia.

Rules for 2cfe. Life is, in fact, a system of relations matter than a positive and independent existence; and he who would be happy himself, and make others happy, must ever carefully preserve these relations.

The total number of public telephone exchanges in operation on March 30, 1925, was 21,654, according to the British Postmaster General.

The total number of telephones in the United States is estimated at 12,000,000. Eight of the twelve largest cities in the world are in the United States.

For the year 1928 the average number of telephone conversations completed in the United States was about 72,000,000.

Eight of the twelve largest cities in the world are in the United States. New York, London, Berlin, Chicago, Paris, Philadelphia, Vienna and Detroit.

It is estimated that during 1923 the telephone companies in the United States had a total of 1,500 miles of underground cable between Geneva and the Battle Coast at Stroud, 100 miles of submarine cable between the Straits of Gibraltar and 1,500 miles of overhead wire between Matipo and Kirova.

ABOVE THE ARCTIC CIRCLE. A telephone cable has been opened with Upper Lyland, 100 miles in length, in the Arctic Circle. The line extends from Geneva to Kirova and consists of 2,500 miles of which there are 1,000 miles of underground cable between Geneva and the Battle Coast at Stroud, 100 miles of submarine cable between the Straits of Gibraltar and 1,500 miles of overhead wire between Matipo and Kirova.

COLD WEATHER MAKES RECORD IN MANY PLACES

Mercury Drops to Lowest Mark of Season. Twin Falls Has 16 Sub-Zero Days.

Last winter was not disposed to give us the warm weather after all. He came back stronger than ever in some respects, sending the mercury into the bottom of the glass where it still is. Showed Thursday registered the coldest day of the year, with a below zero, three degrees lower than the previous coldest day.

Twin Falls has not yet seen a below zero, as follows: Monday morning, 1 below; Sunday morning, 2 below; Saturday morning, 3 below; Friday morning, 4 below; Thursday morning, 5 below; Wednesday morning, 6 below; Tuesday morning, 7 below; Monday morning, 8 below; Sunday morning, 9 below; Saturday morning, 10 below; Friday morning, 11 below; Thursday morning, 12 below; Wednesday morning, 13 below; Tuesday morning, 14 below; Monday morning, 15 below; Sunday morning, 16 below.

There have been 16 sub-zero days, this winter as registered by the official thermometer in Twin Falls, six in December, six in January and four in February. There were in addition a number of zero days, making the longest, coldest and worst winter season experienced in this region since the first pioneers selected it as the ideal place for a home.

As it is all well that allude to "good" farmers and business men in general have cause to rejoice in this prolonged spell of frost, since it is generally recognized that the white fly which gave the way of the Dodo bird, at least for the time being, is the official report of the winter season. Saturday, with alternating periods of cold, snow and rain, was cold, sugar beet growers are anything but excellent prospects for a record best crop this year.

The last cold spell sent the temperature down to record-breaking marks at a number of places throughout the West and middle-west. When the south feeling the intense chilliness. Wyoming and Colorado points reported 40 degrees or more below zero, with Montana, Idaho and other states having almost equal temperatures.

While much of the roads were opened up before the winter, in the country, rural highways in some places were left blocked, while roads in general are very rough and difficult for traffic, with deep frozen ruts seriously handicapping travelers.

Stingers are able to make their routes, though better than usual schedule time, while private parties are able in most cases to get through.

Expensive Suit Comes to End

A suit of several years standing which has caused great expense to both parties was ended last week by a decision from the state supreme court in favor of the North-Side Clothing company, Ltd., which was sued by landowners on the First Strazeration project for surplus water in Jackson lake reservoir in Wyoming.

The landowners brought suit when the canal company refused to deliver water as they demanded. The court ruled on all points in favor of the company, on the grounds that there is no surplus water which that involved in the contract made by the two parties to the action, and that division of any surplus that may exist must be made within a half mile of the farmer's headgate and not at the reservoir. The canal company contended that had no authority to deliver water demanded by the plaintiff and the supreme court upheld this argument.

Character

The one quality that stood out above all others in the make-up of Abraham Lincoln was character. His character was such that long before coming to fame he was known to his friends as "Honest Abe." His career is an unending inspiration.

In striving to strengthen character, the best step a self young man or woman can make is to open a savings account and put a small amount aside regularly.

How to Raise Pulley

By Dr. L. D. LeGree, V. S., St. Louis, Mo.

Dr. LeGree is a graduate of the Ohio Veterinary College, 1902. There is a vast literature on the subject of raising pulley. He has published a book on pulley and much related. National Veterinary Publishing House, Des Moines, Iowa, 1919.

LAYERS OR LIARS?

Scientific Culling Out of Drones
has been the leading poultry product, says Dr. L. D. LeGree, V. S., of St. Louis, Mo.

"Chicken, you lay!" or "you you lay!" exclaimed hectors as they pointed their flock burst forth into loud acclamations of approval. That an old hen, who has been laying for a long time, should be a drone, is a fact which is not generally known. The drone is a male bird which is unable to lay eggs. It is a drone because it is a drone, and it is a drone because it is a drone.

The value of regular, scientific culling out of drones from a poultry flock is vividly illustrated in the result of a survey conducted last year by the College of Agriculture of the University of California and their farm adviser. The survey was conducted on 251 flocks, covering 120,000 birds, and cost \$100,000. The average of the best two-thirds was \$2.28 per hen, but the average of the last two-thirds was \$1.28 per hen, or all of the last part of the flock was \$1.28 per hen, or all of the last part of the flock was \$1.28 per hen.

There is nothing difficult or mysterious about culling, nothing that requires a person of average intelligence. First of all, start with the chicks as soon as they are out of the shell. Any that are obviously deformed should be killed at once. Culling should be made a continuous process from that time on.

At least once a month the culling stock should be looked over and the undesirable removed from the flock. All thin, underdeveloped, scrawny, and feeble birds should be discarded. Such pullets will eat their heads off, but will never develop into profitable layers.

TWIN FALLS NATIONAL BANK

not laying. If it is two fingers or more, it generally indicates that she is laying.

To accommodate the extra food a good laying hen must eat and the expansion of the laying organs, the rest of the keel bone of the sound layer will be a greater distance from the pelvic bones than it will be in the poor layer. This shows abdominal capacity, which is very important and measured by the number of fingers that can be placed between the keel bones and the pelvic bones. With the smaller breeds like Leghorns, a spread of three or four fingers indicates laying condition. With larger breeds, the spread should be four fingers or more. Other things being equal, a long bodied bird measuring three fingers, is equal to a short bodied four measuring four.

New Steel Gate At Magic Dam

The first new steel gate installed in the control tower at Magic dam above Shoshone has been put in operation with good results according to a report of Manager S. T. Baer of the Big Wood Canal company. The second gate is now being installed and will be ready for operation by the time storage is begun for the season's irrigation supply. The new equipment is larger and of a more efficient type than the two old iron gates replaced, with the result that water for the Big Wood project will be more dependable than heretofore.

Primrose Path At the Orpheum

An interesting story, pictured by a well-known all-star cast, makes "The Primrose Path" at the Orpheum Theatre, a picture which will be readily forgotten, as anyone writing me in care of this newspaper. Do not depend on the factor in judging picture, but form an opinion based on all considered together. Call carefully, persistently and relentlessly and before long you will be prominent, bold, bright, snappy set in an oval socket. The comb and needles will be large, full, smooth, waxy to the touch and bright red in color. Poor layers will show exactly the opposite characteristics in these aspects. The state of the vent is another important indication of lay condition. The laying hen has a large, moist, dilated vent. That of the non-layer, is small, hard and puckered.

Storage Plant Is Considered

Following the announcement a week ago that certain interests are considering establishment of a fruit and vegetable cold storage plant for Twin Falls, a meeting was called for Monday night at the chamber of commerce to discuss the proposition. Mr. Dorsey of Los Angeles made an investigation of the situation here and reported the prospects as good. He collected data determining the feasibility of putting in such a plant.

HAPPY with the Gulbransen Your Children Need Piano Music

The exclusive features of the Gulbransen Registering Piano enable your whole family to play with all the deep enjoyment of personal expression, without knowing a note!

The patented "Pedal Touch" enables you to press down each key, through the pedals, with the same ease as hand-playing. The "Time Lever" acts quickly and in saving complete control of the time in which the work is played, particularly important in accompaniments.

The "Graduating Expression Lever," in conjunction with "Pedal Touch," enables you to play music of child and give it a quick, sharp accent or to subdue it to a note, thus according to the taste and your mood.
