The Last Word In Modern Convenience Is Found In The
ALL-ELECTRIC KITCHEN

Eventually Every Home Will Have These Three Electric Services--

Cooking · Water Heating
Refrigeration

Electricity does these things better than they can be done by any other method and reduces the labor of housework to a minimum giving women more time for other things.

Today in modern homes electricity, the great servant of mankind, is performing these three fundamental tasks of homemaking—cooking, water heating and refrigeration—better than they have ever been done before.

Through the service of the Idaho Power Company supplying electric energy, and with the aid of scientific appliances, these modern conveniences are available to every home that is using electricity for lighting.

In order that all of our customers may enjoy the advantages, the comforts and labor saving features of these electrical servants, we are offering them on special terms that the average family can easily afford.

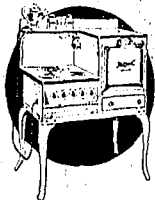

There Is No Substitute For Electric Cooking

Modern cooks are unanimous in their praise of the superior advantages of electric cooking. For no other method offers women so much in convenience or in the scientific preparation of foods. More than 10,000—which is one out of every three—of our customers now cook with electricity.

Cool, Quick, Clean and Economical

The electric range means a cleaner, cooler kitchen. It will cook meals quickly, and is economical in cost of operation. And, what is most important, an automatic electric range will cook whole meals without watching, while you are away doing some of the things that you could never find time to do if you had to cook by old-fashioned methods.

Special Offer On Any Range In Our Stocks

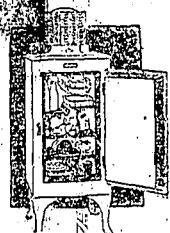

For a limited time we are making a special offer of only **ONE DOLLAR DOWN** on ANY RANGE in our stock—and the balance in convenient monthly payments.

Come in and inspect our splendid line of Westinghouse and Holpoint ranges. Select the one you want. Pay One Dollar down and we will deliver it to your home.

Economical In Cost Of Operation

Preserves Food Perfectly

A New Model All-Steel

General Electric Refrigerator

This new all-steel G. E. Refrigerator introduces a new type of construction in electric refrigerators. It is built to last a lifetime. It operates silently, maintains any desired temperature of cold and by preserving food perfectly aids materially in preserving health.

This model is now offered on special terms of \$10.00 down and the balance in easy monthly payments.

A Size And Type For Every Home

Visit our showrooms and see the complete line of General Electric Refrigerators on display. There is a type and size to meet the individual requirements of every home and family—all sold on attractive terms. Come in today.

An Adequate Supply Of Hot Water

Think of being able to go to any faucet in the home, turning it and always being sure of having a plentiful supply of HOT water. Now every home that has electric service can have this wonderful convenience—ample hot water for baths, for shaving, for laundry day and for all household uses. It is no longer a luxury but a service that every family can enjoy.

Automatic—Requires No Attention

With the new type installation the equipment is automatically controlled. It operates without any attention on your part and eliminates all waste of current. This service is thoroughly dependable and satisfactory and is low in cost of operation. Every modern home should have this convenience.

Complete Installation

With all necessary Plumbing Wiring and Equipment Completely Installed

We make this special offer in order to help our customers secure and enjoy the advantages of our water heating service. Telephone for one of our water heating specialists to call and tell you the whole story.

WHAT HAPPENED BEFORE

The Sheriff's Dramatic Club, of Twin Falls, Idaho, presented a play, "The Girl Who Wasn't," at the Idaho Soldiers' Home, on Saturday night, June 8. The play, written by Frank R. Adams, and illustrated by Frank B. Druman, was a comedy in three acts. The story is set in a small town in Idaho. The main characters are: Mrs. Hemmingway, a widow; her daughter, Mary; and a young man named Tom. The play is a comedy of errors, with many misunderstandings and humorous situations. The play was well received by the audience at the Idaho Soldiers' Home.

WHAT HAPPENED AFTER

The play was a success, and the audience was very much entertained. The Sheriff's Dramatic Club is a well-known organization in Twin Falls, Idaho, and has presented many plays in the past. The play "The Girl Who Wasn't" was one of their best. The play was well received by the audience at the Idaho Soldiers' Home.

WHAT HAPPENED NEXT

The play was a success, and the audience was very much entertained. The Sheriff's Dramatic Club is a well-known organization in Twin Falls, Idaho, and has presented many plays in the past. The play "The Girl Who Wasn't" was one of their best. The play was well received by the audience at the Idaho Soldiers' Home.

WHAT HAPPENED THEN

MAGNOLIA LEAVES THE SHOW BOAT

Laura La Plante, Emily Fitzroy and little Jane La Verne in scene from "Show Boat"

One of the most dramatic scenes in "Show Boat," the elaborate talking picture to be shown at the Idaho Theatre beginning Sunday, June 23rd, is that in which Magnolia, played by Laura La Plante, takes her small daughter, played by Jane La Verne, and bids farewell to her Puritan mother, Patsy Ann Hawkes, played by Emily Fitzroy.

LET THE CHILD COOK

EVERYONE must eat to live, and the majority of people believe it is best to let the child cook before eating. So what are you doing? Mrs. Housewife, to teach your children this ancient and honorable craft? Here's how: Get a small child, preferably a girl, and let her cook. Give her a small stove and a small pot, and let her cook. This is a good way to teach a child to cook.

Embryo Boy Scouts That doesn't mean that only the little girl should learn to cook. The chances are that her interest will lead her to that without stopping. Boys' cooking is just as important as girls' cooking. Let the child cook. This is a good way to teach a child to cook.

Makes Survey

(Continued from Page One) growing of crops under irrigation, although in some districts percentage and accumulation of alkali salts greatly reduce the value of the crop. The report contains 44 pages of text, 14 illustrations, and a large number of tables showing the extent and nature of the alkali. The report is described in considerable detail as to its characteristics, distribution and use. Separate chapters are given to the discussion of the surface conditions of the area, drainage, agriculture, irrigation and drainage.

Confined Disease

(Continued from Page One) I made haste, I am a chivalrous one, no one ever tells for nothing without getting it from me. I rush in blindly where even angels would pause to put on golf shoes. I stumbled down the stairs. Came again the faint cry: "Help!" It was Mrs. Hemmingway's voice.

To Be Continued

State Market

Plan Decided Members of farm cooperative associations in Utah met at Pocatello last week and laid plans for forming a state-wide cooperative organization as a means of getting better prices, improving the quality and securing more publicity for Utah fruits and vegetables. It was proposed to utilize the Growers' exchange market of Salt Lake with the Fruit and Vegetable Growers' association, making it a state organization. A federal agricultural official pointed out the relationship of local associations to the state cooperative plan, which would be controlled by the farmers. Committees are working to perfect the organization.

SEE GULLS KILL MICE

Some of the best of the American Falls reservoir are doing the farmers much good by flying far ahead to pick up field mice according to reports from Twin Falls this summer.

HAS HELPED THOUSANDS TO FIND PROFESSIONS

The most interesting people in the world to us are ourselves, and Chester Mills Sanford, who is one of the best of our citizens, is a good example of this. He has helped thousands of people find their professions. He has helped them find their way in the world. He has helped them find their place in the sun. He has helped them find their purpose in life. He has helped them find their destiny. He has helped them find their God.

NOTED SPEAKER AT CHAUTAUQUA GETS RESULTS

He has helped them find their place in the sun. He has helped them find their purpose in life. He has helped them find their destiny. He has helped them find their God.

STATE COLLEGE OF AGRICULTURE HAS ECONOMIST

Dr. Paul A. Eke, who is one of the best of our citizens, is a good example of this. He has helped thousands of people find their professions. He has helped them find their way in the world. He has helped them find their place in the sun. He has helped them find their purpose in life. He has helped them find their destiny. He has helped them find their God.

Dr. Paul A. Eke Will Aid Farmers in Solving Problems of Marketing, Farm Lands and Dairy Products

Dr. Paul A. Eke, who is one of the best of our citizens, is a good example of this. He has helped thousands of people find their professions. He has helped them find their way in the world. He has helped them find their place in the sun. He has helped them find their purpose in life. He has helped them find their destiny. He has helped them find their God.

MINIDOKA TRENDS

An agricultural report just issued by Federal officials shows that the population of Minidoka has increased from a few scattered huts barely 17 years ago to more than 16,000 people now, with 25 farms totaling more than 95,000 acres in crops. The Minidoka land value is estimated to vary from \$25 to \$500 an acre.

SAUNDERS LEGAL HOLIDAY

Saturday, June 15, will be a legal holiday in Idaho. It is announced by Governor H. C. Ballard. The Eleventh session of the Idaho legislature set this day apart to be observed annually in grateful remembrance of the early career of Idaho. The state capital at Boise will be closed that day.

Horse Pulling Contests Are Great Sport

A new form of sport that is just beginning to be adopted by county fairs in Idaho is horse-pulling contests by means of the dynamometer which registers the weight a team can pull. Jerome county is the only one in the state that is expected to have a dynamometer as a feature of the next county fair.

This has taken the place of horse racing in some places and is being introduced in others. It is a sport that is rapidly gaining popularity. The dynamometer used there is in charge of Dean Kenneth C. Baker of the Utah Agricultural College, formerly with the University of Idaho at Moscow.

Dean Baker is enthusiastic over the sport provided by a horse-pulling contest of this kind. The machine enables teams to compete on a straightaway pull, registering the number of pounds of dead weight moved by the team over a distance of 27 1/2 feet. Some teams in the United States have pulled as much as 500 pounds more than their own weight. Other teams cannot pull their own weight.

CITIZEN PUBLISHING CO., 203 Second Avenue North, Twin Falls, Idaho, Phone 172

INCREASED COOPERATION BY DAIRY FARMERS

Dairy products to the value of \$640,000,000 were marketed through farmer-controlled cooperative associations in 1928.

The items making up the total are: cooperative creameries, \$245,000,000; milk buying associations, \$200,000,000; milk distributing associations, \$150,000,000; cheese factories, \$30,000,000 and cream stations, \$15,000,000.

Nearly a half billion pounds of butter was made in producer-owned plants in 1928. More than 100,000,000 pounds of cheese and about 50,000,000 pounds of milk powder were also manufactured by the cooperatively inclined farmers.

About 2,500 separate farmer-owned dairy enterprises stretching from ocean to ocean, were active during the year.

Present indications are that a larger business will be transacted in 1929 than in 1928.

NEW FIGURE ON HORIZON

There looms on the horizon a political figure with which the citizens of the United States must sooner or later give their thoughtful consideration.

For the accomplishments of this man and his associates in Europe last week, history will pay its everlasting tribute and for the qualities of genius he has already exhibited his name is one of which all America may well feel proud.

Of presidential calibre, the name of this man and the office now held by his distinguished superior, Herbert Hoover, must henceforth be linked.

He is none other than Owen D. Young, Democrat, diplomat, distinguished door, former ploughboy. Watch Young these next few years.

NEW PROBLEMS COMING

Australia is planning to rehabilitate land, impetus to the movement having been given by the irrigation in America of previously unproductive parts of Texas and Arizona which have become very productive agricultural areas.

In the western district of Victoria, an effort will be made to reclaim thousands of acres now given over to rabbits and bracken.

A canal is planned in Central Australia, partly to improve transport, partly because it would so affect the climate as to increase rainfall.

At the same time an American engineer has incorporated a company to reclaim more than 100,000 miles of the great Sahara Desert.

If the scheme goes through and brings about the effect promised for it, thousands of acres now barren will be made productive.

All of these undertakings are commendable and show what rapid agricultural strides are being made. They are unmistakably, strong signs of a mighty progress.

At the same time the successful completion of these plans, and the subsequent greater area of thriving farm land, will give farmers new problems to solve.

EQUALITY—NOT RELIEF

Farmers have long wanted some government help and protection in their endeavors and the present congress sitting in extra session was especially called to consider farm relief.

Those who hoped the extra session of congress would immediately raise the prices of farm products, will be disappointed," reads this editorial.

The program must be to build slowly; to establish an agricultural policy for future years. A board with broad powers and ample finance can work best without hampering restrictions put into the law. The term "farm relief" has been overworked.

Those who really needed relief from the distressing conditions brought on in 1920 have either dropped out of the picture, or have recovered. It is not relief for which agriculture is crying, but equality of opportunity.

At a special election in the Third Kentucky district Monday John W. Moore, Democrat, won by a majority of 1058. The only significance in this is that this district went Republican by a majority of 4007 in the general election last fall. If that indicates the trend in the country, what about it?—Exchange.

Mabel Whitehurst, bored to tears, simply running this menial little terrestrial footstool, seeks other worlds to conquer—she has taken to the air where she may have allow room, where she may reach out and juggle the asteroids. Star: Mabel—Halley Times.

UP-TO-DATE REVUE STARTS CHAUTAUQUA

Features Jay Tobias

FADS AND FANCIES OF 1929

A musical revue, one of the most popular forms of modern entertainment, is to be the opening number of this season's Chautauqua. Jay Tobias is the original and chief attraction in the program that embodies everything to be expected in recent entertainment. 'Fads and Fancies of 1929' is a vivid, colorful play, sparkling with wit and heavily accented by a company of well-trained artists in their line. Musical material presented in such a pleasing manner that one will want to see it a second and third time, and free from suggestive film and scenes that conceals ruin an otherwise good production.

BUHL

Funeral services were held from the Presbyterian church Sunday for the late Mrs. Van Halbeek, widow of the late Dr. Van Halbeek, who died at Twin Falls hospital Saturday.

CASTLEFORD

The local Grange entertained as a party and handkerchief shower for Mr. and Mrs. Van Harsen, Thursday night in the Grange hall. The party was given by the Grange of Wenechee, Washington, being called there by the arrival of the bride and groom.

Hagerman

Decorative Day was fittingly observed in Hagerman with appropriate exercises at the school auditorium. The school was decorated with the graves following. Among the Hagerman people shipping lambs this week are many whose names were mentioned Saturday. Miss Alexander is in charge of same. Alex Gardner is a bunch of lambs due from Fairfield. Marion Trout is with Hill City Sunday preparatory to ship lambs. He was accompanied by his wife, Mrs. M. Trout. Jensen Garage changed hands during the week. Dale Cady and James Bunting buy the purchases. The new owners were the purchase July 1, in Hagerman. To continue his residence in Hagerman, where he retained his property house and lot, Mrs. Bunting, who was exchanged in the deal. Mrs. Bunting valley experienced heavy wind early Friday evening and rain and hail Saturday doing considerable damage to local crops.

EDEN

Two new buildings are now under way in Eden—One is an addition to the present Eden elevator building and is a large seven-story building. The building is to be the first and will have a beam closer. The other building is a new garage to be constructed next to the present Eden garage. The station is being built by the Shell Oil and company and Jim Davis will be the manager. Mr. and Mrs. Fred Walker and son, Billie of Buhl, were Eden Thursday on their way to attend the Legion meeting at Hagerman on Memorial Day. Mr. and Mrs. George B. Fisher of Rupert and daughter, Mrs. Lyle Watson of Paul, passed through Eden Saturday and stopped for a brief visit. Mr. and Mrs. Fleischer were on their way to Caldwell where Mr. Fleischer will attend a meeting of the Executive Committee of the Idaho State Teachers Association at Hagerman on Monday. Mr. and Mrs. William Thompson of Twin Falls visited friends in Eden Thursday on their way to attend the Legion meeting at Hagerman on Memorial Day. Mr. and Mrs. George B. Fisher of Rupert and daughter, Mrs. Lyle Watson of Paul, passed through Eden Saturday and stopped for a brief visit. Mr. and Mrs. Fleischer were on their way to Caldwell where Mr. Fleischer will attend a meeting of the Executive Committee of the Idaho State Teachers Association at Hagerman on Monday. Mr. and Mrs. William Thompson of Twin Falls visited friends in Eden Thursday on their way to attend the Legion meeting at Hagerman on Memorial Day.

With Crime Body

Dr. A. L. Gustafson, New York, president of Rockville, appointed by the United States District Court as a member of the National Relief Commission. Mr. and Mrs. Jennie Glenn were on their way to Hagerman on Monday evening. Mrs. J. B. Lewis who is a patient at the county general hospital, following an operation for the removal of tonsils and appendix, is reported to be recovering satisfactorily. Ash Craig who lives on the Simpson ranch is reported to be ill. Mr. J. F. Goodwill has been very ill with rheumatism but is some better at this time. Celebration school which was taught by Mr. and Mrs. Charles Romig closed last Friday with a picnic. Reverend Kendall and family left by auto Sunday night for Stuckton, California, where he will visit relatives and also attend commencement exercises of Pacific university of which their daughter Twila is a member of the graduating class.

HAZELTON

Thursday evening the members of the local Old Fellows lodge surprised the members of the Hazleton lodge, immediately following their regular lodge evening. The affair was in the nature of a farewell to Mr. and Mrs. C. H. Taylor who are leaving soon for Washington. Milton Hagar who has been staying with the Harker family here for the past year, has gone to Los Angeles, California, where he will make his home. Miss Wilma Wood and Jesse Geier of this place were married in Twin Falls, Tuesday, June 4. Mrs. Geier taught in the Hazleton grade school the past term and her many friends are extending congratulations to the young couple. M. Christopheron, Hazleton has been employed by Jerome county on field man, to look after the work of the first segregation. He will assist Elmer Flowers, weed supervisor, and assist in an advisory any anyone having weeds and wishing the county to take care of them. Mr. and Mrs. H. Myers returned Friday from Hagerman where they spent a few days with relatives. Tuesday evening the Hazleton Club met at the home of Mrs. Leo Smith with Mesdames Leanne, Ruth, Robinet, assisting. The first delegates to the convention of the Federated women clubs which was held in Caldwell last week, was given by Mrs. M. E. Smith, who is president of the club secretary and treasurer were given. Mrs. Kathryn Waite field representative of the Children Home association of Boise was the guest of the club and gave a very interesting talk.

HANSEN

Thirteen members of the Hazleton unit of the Music Valley division of the Young Women's Christian Association met for an afternoon at the home of Mrs. Stager, Severn. Miss Edie Sult, district secretary was present and led in short devotional. This was the business meeting. The local meeting of the association was given by Mrs. E. E. Hansen. Miss Edie Sult, district secretary invited the unit to meet at her home for their first meeting next Tuesday. Mrs. E. E. Hansen will be the first speaker. Mr. H. E. Hansen will be the first speaker. Mr. H. E. Hansen will be the first speaker.

POST-GRADUATE—Leona Bohm.

Jean Hersholt At Orpheum Thursday Friday, Saturday

The management of the Orpheum Theatre announces that Jean Hersholt's latest photoplay, a special adapted from the popular Rupert Hughes story, "The Girl on the Harp," is coming to that theatre next Thursday. Added interest to this news is contained in the information that vivacious Sally O'Neil and Helen H. Grogan have featured roles in the picture.

"The Girl on the Harp" is a story of young love, of love, of love, and the picture actually was photographed along the picturesque waterways in upper New York State. Edward Blomquist, the director brought the principals and a large technical staff all the way from California to see the elegant backgrounds for the entertaining Hughes story.

The plot concerns a hard drinking but gloriously honest Scotch barge captain with four mischievous children. First, the eldest daughter, falls in love with the pilot of the tugboat which carries the barge upon which she lives. This engages her father, who causes the pilot's dismissal. After a severe beating, Eric deserts the barge and flees to the pilot's roomy mother, but is dragged back to her unhappy home and once again, her sweetheart cruelly battered by her father's powerful fist. Here the pilot's bravery during a terrific storm in which the barge is threatened by destruction saves the lives of the barge captain's family and wins his admiring thanks. An exciting and fitting climax to the picture.

Scrub Sire Is Out of Date As Old Car

UNIVERSITY OF IDAHO, Moscow. "The scrub dairy herd sire is out of date as the new cylinder right-hand drive automobile, replaces the dairy division of the University of Idaho's agricultural department, according to dairy farmers that give full consideration to selecting qualified herd sires the college shows that the future herd depends on the present sire.

A recent survey of 236 dairy farms in one region in Idaho showed that less than one half of the bulls in use were registered, one fourth were just scrub, only 43 per cent of the farmers in the region owned bulls.

Herds headed by registered bulls and an average income of \$96,143, while those with unregistered sires averaged \$81,072. The average herd was 10.6 cows. The registered bulls averaged 10.6, while the average cow of the unregistered bulls was \$4,148. This is a saving of \$56,111 in cost of bullocks, after the loss of \$12,141 yearly per herd.

In selecting a sire the breeder should consider the production type of his ancestors and his daughters. The daughters of a good sire may be expected to produce a greater income to the breeder than a poor sire.

Good dairies are too valuable to be sold to the butcher for hogs. Thirty-three dairy sires have been proved in Idaho for the past several years before their value was determined.

Much has been accomplished by the Idaho through cooperative bullock associations. Such organizations reduce the cost of herd improvement. The bull associations in Idaho are: the Idaho Cattle Raisers' Association, the Idaho Cattle Raisers' Association, the Idaho Cattle Raisers' Association, the Idaho Cattle Raisers' Association.

"Ardent patriots throughout the land are looking forward to June 14 as an occasion for expression of national spirit, loyalty and love of country by fingering to our ears the music of the Star Spangled Banner. June 14 is Flag Day. So speaks Governor L. C. Bales, in a message to the citizens of Idaho calling their attention to Flag Day. Continuing he says:

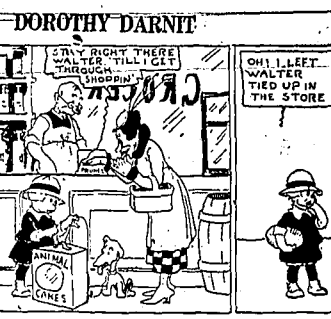

"Who is not proud to own, revere and display the flag that is the emblem of our nation, and the symbol of the living, the emblem of truth and righteousness, inspiring men's hearts on the land and on sea with hope and the symbol of the power, the unity and the purpose of our republic, now and forever."

Cupid's Workings In Blaine County

The vital statistics column of the Blaine Times last week was featured by the following outstanding items regarding the workings of Cupid in the Sawtooth country:

WARFIELD-COUGH Harry E. Warfield, 42, Ketchikan and Lillian Irene Cough of Newton, Utah, 27, obtained a marriage license at Shoshone, June 2, and were married in Shoshone Sunday June 2, by Rev. E. W. White. The bride is a sister. They came to Ketchikan Monday where they will make their home. Mr. Warfield's former wife died in Ketchikan three days later.

LEMP-DAVIS A quiet wedding was solemnized by Rev. James Ople of the Episcopal church on his way home on Sunday afternoon for 2:30 o'clock at Davidson camp, Sullivan lake, on Silver creek, where the union of Charles Lemp and Miss Helen Elsie Davis in marriage took place. Both are socially prominent there. Clayton Davidson acted as best man at the wedding, and with Miss Thelma Aveline, a cousin of the bride, were the legal witnesses.

Salmon Tract Hearing to Be Resumed on Wednesday

A hearing being conducted by the board of county commissioners will be resumed Wednesday in the commissioner's rooms at the courthouse, at which time more evidence is expected to be submitted by advocates and opponents of the proposal to create an irrigation district on the Salmon river tract. A second hearing was held by the commissioners Friday at which testimony was taken to aid the commission in determining whether or not an election should be held to vote on the matter.

Advocates of the district have their attorneys, Walter, Parry and Thomas, while those opposing the creation of the district are represented by the firm of Hathaway and Chapman, County Attorney E. J. Lynch and Chief of the Board of Water and Irrigation, Mr. and Mrs. M. P. Becken. It was an attorney in Idaho was a applicant for the county general hospital for the past several months. Owners of approximately 10,000 acres of land on the Salmon tract have signed the petition asking the board to call an election to create the district, while owners of some 20,000 acres have signed petitions to the board opposing such procedure. The latter assert that nothing can be gained from an irrigation district that is not obtainable through the present method of getting the water supply through the system of the Salmon River Canal Company.
