HEART TALK

By DR. JOHN JOSEPH GAINES

THE BRIDGE OF SIGH

Recently a very rich and nationally known citizen is sentenced to serve a term in jail, and was placed there for the first time since he was released. Just what the offense was, that brought this punishment, does not concern me particularly. Guilt must be assumed if proven beyond doubt. I did notice that the term of imprisonment was comparatively short.

Amused at the same time a poor old workman, living in a great city near me, was arrested "with the goods on her." She had in her apartment, something like a gallon of corn whiskey; she admitted depositing this liquid from time to time, in order to ease the financial agony which she was not able to turn out washing as in her younger years.

Recent enactments made here on almost capital offense. The jurors, kind and merciful men, were puzzled; she could not have done much harm to anybody, but the reason for her arrest, her taking a violating law, and knew she was doing wrong at the time. If I do not forget, she drew six months' imprisonment. She went to jail defiant.

A question as to the justice of the law, but it should not. There is no extension of the violation of law by rich or poor, young or old. The so-called crime wave is appalling; the law must be stern and prevail—or, fall down in its impotence. It must not fall down. Age and condition are no excuse for errors, ignorance and self-will are the causes of most violation of law. Even the best of men can justify a man or woman to rob, or to enter into unlawful commerce.

It is never easy, even to violate an unreasonable law. Such laws are not done away with by that method. The law must be stern and just about better conditions and crimes never. I wish we could think of Americans as a happy, thrifty people. We can't only realize this, who our people universally work for it.

SLIDING SCALE SUGAR PARAFF

Smoot, Chairman Senate Finance Committee Approves Unique Proposal.

The tariff bill as reported by Senator Reed Smoot of Utah, chairman of the finance committee, Friday, shows a number of increases in the duty on certain commodities over what was recommended in the house tariff bill. A public hearing will be held on the sliding scale for sugar Wednesday, after which the senate committee will vote on it.

Of chief interest in the revised measure are the proposed sliding scale on sugar and the increase in the duty on certain commodities. It will be a cent a pound if the sugar price goes to a low point, and one cent a pound, if the price rises.

Increased tariff rates were recommended for oats, dates, cherries, lemons and onions. Tariff rates remain the same on corn, wheat, potatoes, pineapples, rice and apples.

The daily interests are credited with having scored a victory when the senate committee approved an increase from 2 1/2 to 3 cents a pound on cash. The house tariff committee had refused this.

Brown Gives Resignation

The resignation of Charles H. Brown as assistant secretary of the Twin Falls Chamber of Commerce was submitted to and accepted by the board of directors Saturday. As he has had no vacation this season and planned to vacate the position August 16, the board voted his salary to September 1.

Mr. Brown has been assistant secretary for two years, previously as assistant county treasurer. He will return with his family to his old home in Nevada, Missouri. He has lived here a number of years.

VOLUME 9

MUGGINGS REVEALED BY S. C. C. REPORT

Airport, Health Unit and Several New Industries Principal Achievements for Last Three Months

The progress report issued by the Twin Falls Chamber of Commerce through Secretary Newell Wright on August 30, shows a notable volume of activity the last three months, the most important of which are the establishment of the county health unit, the construction of the municipal airport five miles south of town and the location of several industries on the south side.

The health unit had been functioning in Twin Falls county since June under the direction of Dr. Joseph A. Garretts, who has examined all children in the county have the privilege of being examined and advised concerning physical condition and ailments that might otherwise cause considerable trouble later in life. This is especially true with reference to contagious disease outbreaks as that of measles here last fall.

Airport Extended

The airport was extended and laid out through the efforts of the chamber of commerce for the purpose of putting it on a through air route for mail and passenger service. The area is leased from the state for \$500 a year. It is now almost complete, it is so far finished that it is ready for general passenger and express service through southern Idaho.

Cold Packing Plant

The concrete pipe company has completed its new cold packing plant which is credited with bolstering the price of cherries and other fruits in this area and providing a market for fruit that formerly went to waste; the Concrete Pipe Company took over the plant and has increased production for local dairy products; the Concrete Pipe company has completed its new cold packing plant which is credited with bolstering the price of cherries and other fruits in this area and providing a market for fruit that formerly went to waste; the Concrete Pipe Company took over the plant and has increased production for local dairy products.

The W. J. Jacobs company of Pleasant Grove, Utah; the Jerome Cooperative Creamery and the Concrete Pipe company all new plants in the Twin Falls area, including them to locate here.

Business Expansion

The progress report shows expansions in 22 Twin Falls business institutions, the location of ten new structures, the location of ten new structures, the location of ten new structures, the location of ten new structures, the location of ten new structures.

Chamber Report Lists Large Number of New Enterprises

That Twin Falls is enjoying a constant and steady expansion program is attested by the progress report of the chamber of commerce, out August 1 and revealing the following:

New Industries and Businesses Expanded: Twin Falls Fish and Game, H. W. Jacobs Canning Company, New Tourist park being built, Jerome Cooperative Creamery, Concrete Pipe company, Sweet's Mattress Factory built, Stevens-Van Engelen, department store.

Idaho Dismal products company. (Flooring)

Matterson Ward company, Country Store building, Dutton Building company, garage.

Business Expansions Since January 1, 1929:

Idaho Power Co., now building.

Idaho Bean and Elevator, large warehouse.

National Laundry Company, enlarging.

Perlite Hotel, remodeling.

Monk's Paint Shop, re-building.

Wray's Cafe, newly built.

Hayes Hatchery, new feed building.

Varnay's new confinement plant, Twin Falls Feed and Ice, coal storage plant.

The Mountain Produce, fruit packing.

Mountain States Telephone company, building.

The Farmer's Auto supply building.

Sugar Beet landing station.

Willim's Variety, new branch at Buhl.

Twin Falls Natatorium improvement.

Tops put in at Idaho and Oregon theaters.

Krengel's, new machine plant, Idaho Egg Producers, new feed mill.

Trinidad Bean company, increased capacity.

Twin Falls Implement company, enlarged, and Product company.

Harbour Produce building put up.

WILL ATTEND SIXTH EGG DAY

Earl H. Bruckman, local manager of the Idaho Egg Producers' association, will attend the sixth annual Egg day at Caldwell next Wednesday. A number of people here, both in the business and pleasure circles, will likely be there, he adds.

SEASON OPEN ON SAGE HENS

The state game department has taken no action toward closing the sage hen season, these birds will be available for hunting in 17 Idaho counties between August 10 and 20. The season on this type of game bird has been closed for three years according to local game officials. There are a few brace here in each county of the state but they are not plentiful anywhere. Idaho sportsmen are hoping that the old hens will be scarce, just to show the sportsmanship of hunters in this year's season. The limit on sage hens is 4 birds. They may be hunted in the following counties from August 10 to August 20:

Adams, Blaine, Boise, Bannock, Camas, Cassia, Custer, Elmore, Fremont, Gooding, Jerome, Latah, Lincoln, Minidoka, Twin Falls, Valley and Washington.

The season is closed on sage hens in all other counties except Idaho. The season is closed on sage hens in all other counties except Idaho. The season is closed on sage hens in all other counties except Idaho.

FRIENDLY SUIT TO BE FILED

Gooding Company Will Pay \$109,091 for Miller Dam Rights.

Directors and counsel for the Twin Falls canal company met Saturday and reached a decision to have the attorney, Judge James R. Bohwell, file a friendly agreement with the American Falls project in their district No. 2 to determine the legal phase of the settlement of the water reservoir district regarding water diversion at Miller dam.

OLING HIGHWAY

Oiling and straightening of the Old Oregon Trail highway east of Durley is now under way. The project was undertaken by the state highway department, working in each direction. The project is a temporary preparation for a more permanent improvement of this highway at a later time. Many curves and bad corners are being taken out.

Biggest Farm Group Is Plan in Louisiana

Action was taken Friday at the American Institute of Cooperation in convention at Baton Rouge, Louisiana, in regard to formation of what is said to be the greatest representative union of agricultural interests ever undertaken in this country. Cotton, grain, dairy and every other division of American agriculture is included in this enterprise, which is composed of eight leading cooperatives representing 100 commodity groups and over a million farmer members throughout the United States.

Jerome Fair to Be Bigger This Season

With C. E. Hyde, grain dealer and manager and J. B. Waples, secretary appointed, the Jerome county fair is moving rapidly toward completion of details. This will be the largest fair held there according to E. F. Kennedy, secretary.

NEW MEMBERS

Recently acquired members of the Twin Falls chamber of commerce are the Western Pacific Railroad company, by C. W. Managan; the Twin Falls Cooperative Dry Goods association, by David J. Koenig; Wiley Drug company, by G. C. Wiley and Frank L. Stephan, former attorney general for Idaho. These names are listed in the report just issued.

SEED CROPS IN THIS AREA ARE FINE THIS YEAR

Climate Conditions Promise Prosperous Season for Growers of Grain Alfalfa and Red Clover Seed.

Two of the crops that are reported to be showing up unusually well on the Twin Falls tract this year as well as in adjoining counties of the Twinland Empire, are grain alfalfa seed and clover seed. Alfalfa and clover seed are being raised in the neighborhood of Twin Falls, Holtzler, Wendell and Jerome states they have excellent prospect for a bumper yield on the 1929 crop if weather conditions have been favorable.

The purpose of this group is to give all phases of agriculture a unified voice in matters pertaining to this industry. C. A. Moore, president of the American Institute of Cooperation, is temporary head of this association.

Jerome Fair to Be Bigger This Season

With C. E. Hyde, grain dealer and manager and J. B. Waples, secretary appointed, the Jerome county fair is moving rapidly toward completion of details. This will be the largest fair held there according to E. F. Kennedy, secretary.

DAIRYING SAID TO BE RETAINED BY CASH CROPS

Urges Expansion and Price Uniformity. Gooding Co-operative Leads Challenge Association in Growth.

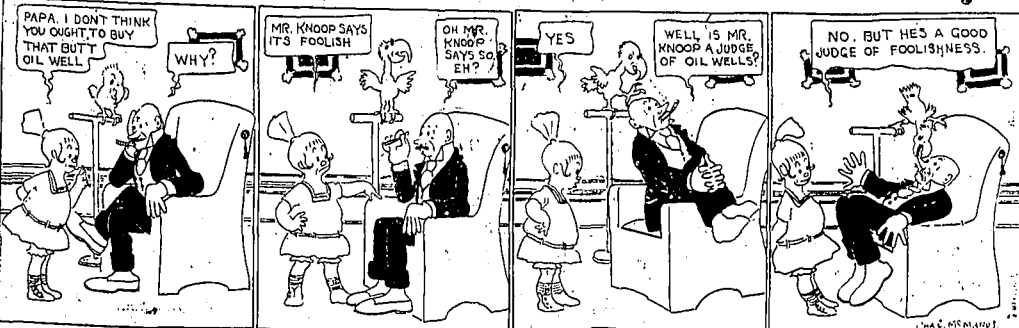

Touring over the Twinland Empire ten days ago the party of 48 California dairymen and creamery officials expressed surprise and admiration at the extent and variety of agricultural produce here. They were also surprised at what they considered the comparative small size of the dairy business, but expressed the opinion that this was due to the commercial volume of other agricultural products.

Wherever cash crops are raised on an extensive scale, they found a solution in price from reason to grass and timber on the industry, while it uniformly on the market resources the dairyman a more uniform business to a greater extent.

The Gooding creamery was credited with a meeting to select the officials visited here, as having made the largest percentage of the production of the 17 member associations in the county.

The production of the Gooding Co-operative creamery for the fiscal year ending August 1 was reported at 400,000 pounds of butter, most of which was shipped through the Challenge association. Of this amount, about 120,000 pounds were sold locally. These prospects are for an output considerably in excess of 1,000,000 pounds of butter for the Gooding creamery during the coming year, it was said.

DOROTHY DARNIT

SELLING OUT SALE

Census Will Include More Than People

Not only will there be a count of all persons in the United States next spring, but the census bill which Congress has passed in final action this week also provides for an enumeration of the cows and the horses, the farmers and the plows on the farms; the manufactured articles from pig iron to dolls and a complete story of what becomes of money in the country.

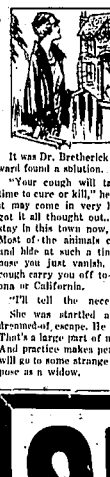

The plain fact is that while there is fairly accurate information as to production of manufactured goods and agricultural products and of imports, nobody knows what becomes of these commodities. They buy the greatest or least volume, what kind of store distributes them.

Salmon—Site purchased for establishment of airport. Sandpoint—"Daily Pandian" and "Pend D'Oroville Review" changed hands. Mrs. Edith Avery of Chicago testified in her divorce suit that she had lived "in hell" for 23 years.

SURVIVAL OF THE FITTEST.

As a result of the statement from the federal farm loan board at Chicago several days ago saying that a \$20,000,000 organization would be formed to buy wheat from cooperative organizations as a means of stabilizing the industry...

There are reported to be 4000 farmers' cooperative grain elevator associations and 8 state grain pools in the United States. The federal farm board may loan money to any cooperative but is not 'required' to loan money to any of them.

As these 4000 local cooperatives and 8 state pools control about one-half the wheat grown for the commercial market in the United States, the federal farm board will acquire control over that proportion of the country's crop.

With such a powerful hand to begin with, the Washington observers believe the farm board will be able to control the wheat market situation and take it out of the hands of the federal loan pools and speculators.

The belief is that with almost unlimited funds available, and with the advantage of working through a system of combined cooperative groups, the federal farm board will be able to force the big independent dealers to either come into the fold themselves or retire from the wheat speculative business.

PRIMARY ELECTION ONE YEAR AWAY

No one delights in reminding readers of an unpleasant subject, but just as advised that one year from today the 1920 primary election will be a thing of the past.

Two years rolls around rather rapidly, as is illustrated by the fact that it was a year ago come Wednesday when our present set of county officials (and some also runs) were nominated.

In fact, it is not too early right now to talk politics for next year's election; figuring out what officials have made good and who haven't; what pledges have been kept, and who would make suitable timber in the opposing parties for county and legislative office.

Certainly some of the present legislative officials for this county will get the skirts put under them if they seek reelection; the balance of the officials have another year in which to prove themselves.

Enjoy an off-election year while you may!

EVEN BEANS COOPERATE

With the government planning the biggest agricultural combine in history, everything these days is getting the urge of cooperation. Even the beans in the garden have it. Over at Thousand Springs ranch in Snake river canyon near Wendell the gardener pointed out a long row of beans. Part of them, he said, had been planted in hills and the rest singly. They had all been given exactly the same chance, being planted in the same soil, the same depth, same kind of beans, the same amount of watering and cultivation.

"The reason is," said the gardener, "the beans in these hills help each other by pushing up the soil so the others in that hill can get out faster, while the beans planted singly have to do the whole job alone."

"The moral is—Help your neighbor and he helps you."

JAMES H. HAWLEY

All Idaho is in mourning as the result of the lamented death Saturday of that "Grand Old Man," ex-Governor James H. Hawley, whose illustrious service to his state makes us all, his debtors, and whose record is a challenge to the present generation to aspire to.

A life-span of 82 years was overflowing with rich experience; his character was one of which all can feel proud; and as one of the outstanding citizens of the Commonwealth, his honored career will ever be one of the important episodes in the history of Idaho—the state he loved so well.

And then there was the cub reporter who went home without writing anything about the wedding because the groom dropped dead.

The iceman who dropped a fifty-pound cake on the landlady's foot begged to be excused for a slip of the tongue.

PRIZE EDITORIAL

Some time ago The Omaha Bee offered a prize for the best editorial submitted by a reader. This prize was won by Mrs. Chas. T. Kelly of Nebraska City. She wrote of the Revolutionary war, the transmigration of souls, nor the Einstein theory. As the mother of five children she wrote in simple language of home affairs in a way to be clearly understood by home folks. Her editorial is well worth reading. Here it is:

"My neighbor has prospered. His home is the last word in modern architecture and equipment. It is his hobby. He loves every block and every board in it. He surrounds it with grassy plot and flowers, and adorns it inside and outside according to his sense of artistic grace and beauty.

"Not only is the home a source of pride and satisfaction to my neighbor, but by its beauty and grace and general attractiveness it sheds distinction and adds to the value of the property around it.

"Now my home is a modest affair. It needs paint and the roof does not cover it all shows bare patches like the exposed portion of a little boy's trousers. And instead of graceful flowing vines my house is run over by little rosy rambblers who clamor about scraping off paint and leaving muddy streaks in their wake. There are five of them, and all the hard work, sacrifice and care they mean to me is nothing compared to the pride I have in their clear eyes, clean minds and sturdy bodies.

"To the hope I hold in their future and the present struggle to keep them clothed, housed and fed is a small affair. They represent my family estate. To them I hope to leave an inheritance of character and courage. And to the world I shall not bequeath large sums to charity, schools, hospitals, but a family of men and women equipped to take up the problems of life.

"But when my neighbor begins to talk taxes I have an uneasy feeling that according to his way of looking at it, I should have drowned these dimpled babies before their eyes were open. He has figured out to the penny how much it is costing to educate one of my children.

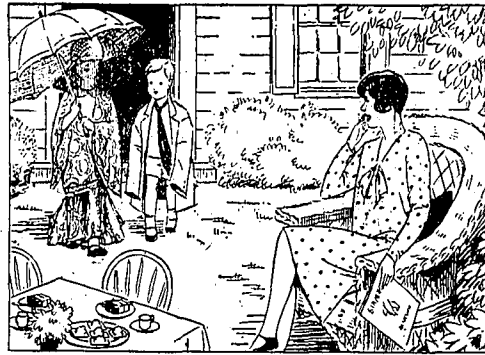

"Now I am paying taxes, too, but for nine months of the year my children are under the supervision of trained teachers, men and women of unquestionable character and high ideals. It doesn't seem to me that they are receiving exorbitant wages. But my neighbor has no children. To him school is just a building that costs too much in the first place, it is costing too much in the upkeep and doesn't give back a profit to the town.

"I believe my neighbor is wrong. My children have a monetary value to the town. For their needs my earnings are spent. I buy from him such things as he has to sell, thereby adding to his riches."

"I go farther. I am raising no hogs for profit nor cattle to market but raw materials for the nation tomorrow. They are not mine alone. They belong to my neighbor as well. It is to his interest as well as to mine that they become fit and useful citizens. As they become trained, as they are educated, they will develop. The community has a part in that development.

"My neighbor has no more right to spread ignorantly propaganda for cheap schools, a nightward system that will devour the future of my children, than I have to throw trash in his yard."

COLD AND SWEET

OLD and sweet and oh so popular is ice cream when summer rolls around. Regardless of whether it is served at dinner or at a party, or at the outdoor luncheon for children joyfully held in their parents' ostentatious clothes and grandly playing 'come see'.

Among the favored frozen desserts are those containing fruit, soft-serve fruit, whether fresh or canned, may be used. Canned fruit is usually more economical than the fresh when using large amounts. Inexpensive grades may be bought for this purpose.

Following are some recipes for frozen desserts which will be greeted by the family with cries of 'More!'

Easy to Make

And ice cream is an easy dessert to make. Only a few rules are necessary for success. To make ice cream, sherbet or water ices, use three level measures of ice to one of milk. A larger proportion of salt will cause the mixture to freeze more quickly and to be granular. This is desirable in a fridge, which is frozen with equal parts of salt and ice, but is to be rejected in other frozen desserts.

Another rule is never to fill the can more than three-fourths full of the ice-cream mixture; if it is too full the resulting dessert will be granular.

Turn the crank slowly and steadily at first, but when the cream is made to a thick crank may be turned more rapidly.

Another rule is never to fill the can more than three-fourths full of the ice-cream mixture; if it is too full the resulting dessert will be granular.

What to Make

Lopsberry and Banana Sherbet: Chill two cups of evaporated milk thoroughly. Add one unbleached egg white and beat with a rotary egg beater until stiff. In a bowl set in a pan of cracked ice. Beat in one cup sugar, one-half cup banana pulp, and the juice of one-half a lemon and one-half cup of canned lopsberry pulp. Pack in ice and salt, but do not turn. This quantities make eight servings. Cherry, grape, orange or lemon sherbet may be used instead of the lopsberry pulp.

Frozen Recipes

Frozen Apple Sauce: Mix together the contents of a number 2 can of apple sauce, one-fourth cup of lemon juice, one-half cup of orange juice, one-half teaspoon grated orange rind and one-half cup sugar. Fold in one stiff-beaten egg white. Pour mixture into the ice-cream freezer, and freeze five or six hours. Serve as you like.

Junket Ice Cream: Scald together one quart of milk, one cup of evaporated milk and three-fourths cup of sugar, then cool to lukewarm. Add one tablespoon vanilla. Crush one and one-half junket tablets, and dissolve them in two tablespoons of cold water. Add to the lukewarm mixture in the ice cream can, and let stand until firm. Then freeze like any other ice cream. Serve a few spoons of cherry, red raspberries or other canned berries over each portion. Top with marshmallow cream. This recipe will serve eight people.

EXPLAINS OLEO LAW IN IDAHO

To clear up the situation regarding the oleomargarine law in Idaho, Attorney General W. D. Gillis submitted to post a \$10,000 bond, then a letter last week to Prosec. Attorney E. V. Larson at the state from possible loss of Twin Falls because the law is so very much in effect and that, in case, as the four concerns did not furnish the bond the injunction which had secured was of no effect, and the oleomargarine law is therefore fully in force.

The attorney general stated that neither of the four companies which started suit against the law, had complied with the court's ruling.

KITCHEN KNOCK

ONION DELICACIES By Betty Barclay

Onions are in season, onions are inexpensive, and onions are very healthful. When eaten raw they are rich in one of our important vitamins—and unlike many vegetables, they retain much of their vitamin content when cooked. Use them frequently. A small amount of sugar added while cooking will help to bring out their delicate flavor.

BAKED APPLES AND ONIONS

Slice three medium-sized apples and six medium-sized onions into a greased casserole in alternate layers. Season each layer with salt, pepper, sugar and butter, using a quarter cup of sugar and two tablespoons of butter for the dish. Add a half cup of water and bake in a moderate oven about three-quarters of an hour.

ONIONS BAKED IN TOMATO SAUCE

Strain a quart can of tomatoes and cook fifteen minutes with two tablespoons of sugar, one teaspoon

of salt, two tablespoons of flour, and one-quarter teaspoon pepper. Then add two tablespoons of butter. Cut six or eight onions into lengths and put them in a boiling dish. Pour the tomato sauce over the onions and bake about one hour in a moderate oven.

GLAZED ONIONS

Peel medium-size, silver-skin onions and prick them through the centers to prevent breaking while cooking. Place in boiling salted water to which a teaspoon of sugar to a quart of water has been added. Simmer until tender and drain. For a quart of onions, melt two tablespoons of butter in a pan, add one tablespoon of granulated sugar, and cook to the bubbling stage. Then add the onions and stir until they are well glazed.

1929 TAX ROLLS SHOW BIG INCREASE IN EXEMPTIONS

Report issued Monday—Important Changes in Grazing and Waste Lands, Few Variations in Items.

With the exception of three items there are no outstanding changes in the real property assessment roll for Twin Falls county according to the abstract compiled Monday by the office of the county auditor, Harry C. Parsons.

These three exceptions are the excise on automobiles, on waste land. Exemptions this year amount to \$164,016 compared with \$227,170 last year, a reduction of \$63,154.

The new law which requires all applicants for exemptions to personally appear in the auditor's office and state the value of their property, that is not more than \$5000, with the result that many who had hitherto received exemptions undisturbed themselves declined this year.

Grazing land is \$1,413,192 compared with \$1,472,228 last year and waste land is \$7,412 next this year against only \$4,776 last year. This is due to the fact that Twin Falls and Crook counties transferred their acreage of sagebrush from the grazing lands to the waste land division. Jerome has been doing this, Mr. Parsons explained, and the state board of county assessors may make a change in their system, so Twin Falls and Cassia decided to adopt this practice.

Privileged lands in the county this year are \$20,852,400 as compared with \$20,400 less last year. The assessment per acre is \$50.16 compared with \$49.06 in 1928.

The value of grazing and woodlands is \$2,118 to \$2,410 per acre, and waste land valuation is \$1.10 to \$1.20 per acre.

Improvements on residence and business lots outside the cities have increased. This year's value (lots being \$1,282,840 and \$1,093,100, respectively. Four mill schools and electric are worth more this year, the valuation being \$172,350.

There is a big increase in the valuation of automobiles and motorcycles. This year they are worth \$46,000 and last year were worth only \$14,000.

Improvements done at the sugar factory occurred after assessments were made, as last year's valuation is greater than this year's by about \$100.

Features of the livestock assessments are the decrease in amount of purchased dairy cattle, although this year's assessment is slightly greater than in 1928, indicating better quality cows. There are 9,920 more yearlings, showing a trend for better cattle. Sheep stock also has been increased by about 8000 head.

The 4404 dairy cows this year were valued at \$1,105,000, which is about \$16,000 more than last year.

Number of hogs last year was 2656 and this year is 3000, an increase of \$24,000.

Turkeys have also increased with last year's number 2085, an increase of about 500.

There is a big decrease in the valuation of personal property because of change in the assessment of migratory live stock to \$750 out of the 1928 assessment of \$1,028,000. This year's assessment is \$750,000 compared with \$1,486,750 a difference of about \$800,000.

This fact shows that while there were 2010 more cars and personal property last year, there are 10,560 this year, and 23,221 common sheep in 1928 compared with 12,822 this year. Last year's valuation on common sheep was \$240,740 and is only \$90,000 this year.

Mr. Parsons said the new feature is the inclusion in this year's personal property roll of private and professional libraries. This was never done before.

THE YOUNG LADY ACROSS THE WAY

How much, contained the young lady when she saw the young man. "You are not so tall as you look," she said, and he smiled. "I am not so tall as you look," he said, and she smiled back at him.

CHILDREN WILL BE REGISTERED FOR THE CLINIC

Women Named in 14 Committees to Accept Registrations for the August 21, 1929 Babies Expected.

Registrars have been named for each town in Twin Falls county for the baby clinic to be held on August 21, 1929. The following women will register the babies to be given free medical examinations on that occasion:

Mr. Alex. J. Cline Book Store, Twin Falls: Mrs. Alice Nellie Sundersen, Boring drug store, Burh; Mrs. E. E. Hammett, Filer; Mrs. H. J. Henderson, Brewer; Mrs. G. L. Ballard, Clover; Mrs. V. B. Binkey, Knoll; Mrs. Fred Schaefer, Hansen; Mrs. Wesley Arnold, Kimberly; Mrs. C. H. Ross, Kimberly; Mrs. L. G. Newman, Maroon; Mrs. L. Jenkins, St. Paul; Mrs. E. E. Lawrence, Hollister; Mrs. L. L. Bates, Castlegate; Mrs. R. W. August 24 will be the final day for registration and all mothers wishing to have their children examined free of charge, register as soon as possible, Mrs. Smith advised. All youngsters from one to six years of age are eligible for these free clinical examinations when recommendations will be given for correcting any physical defects or unusual conditions that may be found.

About 400 young children were examined in the clinic at the county fair last year and about the same number will be examined this year, according to present expectations. Mrs. Emily Bolt, in charge of the clinic at the 1928 examination.

These will be continued through the summer, Mrs. Smith explained. All children of school age enrolled student in the county will be examined as a means of preventing the spread of disease, such as occurred last fall. These examinations will be directed by the county health unit.

Seattle Boy Gets Award

Willis S. Hanson of Seattle was the lucky boy in the Edison contest as decided by the judges whose duty was to determine the highest boy of the 48 states winner. He is 16, the son of a church musician, wears spectacles, valiantly in his graduating class this year and has a high record in different schools of which he attended a number.

The Massachusetts Institute of Technology and will be there for four years at the expense of Thomas A. Edison to present the exhibit this year. It is to be held from September 21 to 27, the plan being to develop it eventually into a state fair.

Parsons — Recently organized Spring Lake Lubricants, Inc., purchased Lava also located in the valley claims but sometimes doing a little prospecting themselves.

PINKY DINKY

Bowles Optimistic Concerning Bean Price Outlook This Fall

Abundance of high-grade stocks of beans in the hands of drosters, jobbers, and growers, is the reason for good price prospects on Great Northern beans, according to W. W. Bowles of the Southern Idaho Wholesale Grocery company, who with members of his family, returned Saturday from an extended business and pleasure trip through the middle west and east.

The whole-bean crops of which Mr. Bowles is a member, is the marketing agent for the Southern Idaho Bean Growers' association, which last year secured an average return to member growers of Great Northern of approximately 7 cents a pound.

"The bean crops in both Michigan and Colorado are exceptional, by time," said Mr. Bowles. "The beans in Michigan have not been out to see how the good crop looks, but as it is good as mine, I am in my travels, then there should be plenty of beans to supply the unusual demand that exists right now. Bean price prospects are good."

Men Say No Money But Expect Higher Wool Tariff Will Restore Prices

According to T. C. Bacon of Twin Falls, one of the leading sheepmen of this territory, sheep growers of the country will make a heavy net this year on account of the low prices. Idaho will fare better than most sections, however, because growers in the Central state have not relied so much on range feed which has suffered considerably in most sections.

"I have a very heavy crop and accordingly in a little better situation than sheepmen elsewhere," Bacon already said. Mr. Bacon said, have been from \$2 to \$3 less than last year while the 1929 prices on a white will probably average from \$1.00 to \$2 less than in 1928.

The production of early spring lambs fell off about ten per cent while late spring lambs dropped about 16 per cent from last year. Uncertain weather conditions this spring caused considerable loss in many cases and by making a deficient quantity if feed also prevented the lambs from reaching an average weight as usual.

Bacon is a member of the Idaho Sheep Raisers' Association and he said, have been from \$1.00 to \$2 less than in 1928.

The Idaho State Chamber of Commerce is extremely fortunate to obtain the services of L. E. Shepherd, president of the organization, in a statement recently published. He has just returned from a visit of 10 weeks in the east. His statement in full follows:

"The Idaho State Chamber of Commerce is extremely fortunate to obtain the services of Mr. Thomas as secretary of the organization."

"Mr. Parsons is not only an Idaho man of many years' residence but for the past 12 years he has been actively engaged in the promotion of the state through his connection with the University of Idaho as executive secretary of that institution. His work has taken him into every section of the state and has afforded him an opportunity to become acquainted with the state, its people and resources, and gain a knowledge that will serve him well in his position. There are few men in the state probably better able or qualified to render the service which the Chamber will receive from Mr. Parsons' residence in the east. The University he published the Star-Mirror, a daily newspaper at Moscow."

"Commercial organization work is not new to Mr. Parsons. Ever since the State Chamber of Commerce was organized he has served on its board of directors and his advice on the many problems arising has proved valuable. He has taken an active interest in the growth and development of the Northern Idaho Chamber of Commerce and at the present time is president of the same."

"Mr. Parsons is a successful educator and the standing of the University of Idaho among the educational institutions of the west is largely by his ability and vision."

"I feel sure that the State Chamber of Commerce will prosper and prosper under Mr. Parsons' administration for he is in a particularly good position to understand and value the service that he has given our Idaho organizations."

Shepherd Has Only Praise For Parsons

To Rebuild Foss Structure At Once

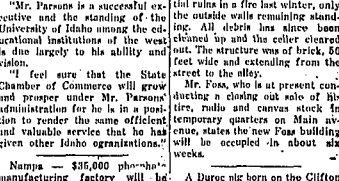

Workmen started Monday morning rebuilding the Foss building on Second avenue east, opposite the fire station.

The structure was laid in part during a fire last winter, only the outside wall remaining standing. All inside has since been cleared up and the ceiling is up. The structure was of brick, 60 feet wide and extending from the street to the alley.

Mr. Foss, who is at present conducting a closing out sale of his fire, rubber and canvas stock in temporary quarters, Main avenue, states the new Foss building will be occupied in about six weeks.

A Durac pig born on the Clifton Hunt farm near Bennett, Neb., had two eyes, two mouths and three legs.

Flavor-Sealed Ham

Did you know you could buy ham with the flavor sealed in it? You can. You can buy a ham that will keep for months and still be as good as fresh. It's called Flavor-Sealed Ham.

For instance, cut one or two inch-thick slices of ham and broil it in a hot oven. Pour a little melted butter over the ham and add one-half cup water. Bake slowly until tender. Remove to hot platter and pour hot pineapple syrup around it.

Tomatoes stuffed with ham are delicious. Remove a thin slice from the top of each tomato and remove seeds and pulp. Run canned ham through the meat grinder and mix with half as much bread crumbs and the tomato pulp and pepper and salt. Stuff tomatoes with this mixture, cover with buttered crumbs and bake thirty minutes in a moderate oven.

Celerery and ham may be creamed together and served on toast, garnished with mixed relishes.

BOISE INVITES BIG CONVENTION

Entering Diplomacy

The Idaho county farm grange, Idaho chapter of commerce and other city organizations there are seeking the 1930 convention of the National Institute of Cooperation which is a convention of farmers, Louisiana. This is one of the largest agricultural organizations in the country, representing many farm cooperatives of every division of agriculture.

It is supported entirely by voluntary contributions, is made up of 20 organizations, has a board of trustees and the following objectives:

First, to collect complete information on cooperatives in America and other countries.

Second, to explain what a cooperative really is and to establish greater harmony among the different groups.

Third, to train and develop leaders in the cooperative movement.

Fourth, to meet educational deficiencies toward improvement of cooperative principles and practices.

Fifth, to make the cooperative community and national enterprise.

John N. Willey, veteran Ohio soldier, may be offered the post of U. S. Ambassador to Turkey or the diplomatically in Paris.

Noun — A \$1000 L. H. S. chapel being erected for Newman Ward, south of rock school house.

Farm Granges Prepare for County Fair

At a grange meeting last Wednesday the Natchez organization organized a full list of department heads to prepare exhibits for the county fair, Tuesday, September 3, 4, 5, and 6, at the fair grounds. The Natchez organization has reported some time ago and other granges in Twin Falls county are rapidly getting things in shape for this forthcoming exhibition.

The fair is less than a month away. Grains are fast ripening, livestock are being fed and fattened and home economists workers are assembling exhibits for that department, including all lines of handicraft and art work.

The grange program is being improved. The community exhibits building has been provided with a new table and the stock sheds have been repaired.

One beneficial feature in the removal of the old shed back from the entrance area to give autoists a view of the highway is either side to prevent accidents.

The traffic program is being improved. The community exhibits building has been provided with a new table and the stock sheds have been repaired.

One beneficial feature in the removal of the old shed back from the entrance area to give autoists a view of the highway is either side to prevent accidents.

250,000 Trout To Be Released

Within the next ten days, according to W. Hawkins, game warden of Filer, there will be released from the Southern Idaho Fish and Game battery 250,000 rainbow trout to make room for a new batch of cutthroat trout that have reached sufficient growth to be released to the ponds for a few fish at this time, he said Monday.

The rainbow trout is planted in tributary streams of the Snake River below Shoshone Falls. The cutthroat trout is planted in the Snake River at this time, he said Monday.

BRIDGE FINISHED

Dis. J. Cavanagh, Twin Falls contractor, reported to be nearly through with construction of the Snake River bridge at a crossing Wood river in the Hailey region. Grading of the approaches will be finished by August 15 and the bridge opened over to the Blaine county commission. This is nearly a month before schedule time.

Pacello — Grading completed on 240-acre tract of Forest Hill road.
