

THE IDAHO CITIZEN

WEEKLY FEB. YEAR. 1929

Published on Tuesday and Friday of each week at Twin Falls, Idaho, by the Citizen Publishing Company

MARCH OF PROGRESS

Mergers, combines, chains, consolidations. These are the battle cries of the business world.

The two following quotations from a current business publication, will be received by the reading public with regret if the publications involved suffer thereby, but with pleasure if of mutual benefit.

More than a hundred years ago Nathaniel Willis, proprietor of a religious weekly published in Boston, founded the Youth's Companion.

The other periodical merger involves The Dairy Farmer and Successful Farmer.

Because of the westward movement of the dairy industry, said President and General Manager Fred Bohm of the Meredith Publishing Company, Des Moines, there has been necessary a constantly increasing duplication of editorial function between Successful Farming, a magazine whose circulation is concentrated chiefly among the diversified farmers of the Ohio, Mississippi and Missouri river valley, and The Dairy Farmer.

Last week their merger was officially announced. Successful Farming was founded 27 years ago by the late H. E. Meredith.

Kirk Fox, for the last seven years a member of the Successful Farming editorial staff, and for the last two years managing editor of that publication, will serve as editor of the merged magazine.

Thus, there is ushered from the scene two more magazines. There are other periodicals that might well be dispensed with much more advantageously than these here mentioned.

U. S. GOVERNMENT ENCOURAGES COOPERATION

Arthur M. Hyde, Secretary of Agriculture, speaking before the American Institute of Cooperation in its fifth summer session at Baton Rouge, La., on July 29, outlined the attitude of the Government toward the cause of agricultural cooperation, and told of some of the measures already adopted to aid and encourage the movement.

In concluding his address the Secretary said: "The objective of cooperative marketing is not swollen cash balances or large surpluses in the cooperative treasury. Co-operative banks beyond these. It demands strong, well-financed, close-knit organizations to achieve its purposes, but its purposes are prosperous farm homes, affording to the members of the farm family an American standard of living, an American education, and an equal opportunity in the race of life."

"In the service of such a cause many men of this audience have enrolled themselves. It is in some respects an adventure on a new frontier. Agriculture is entitled to a position of equality in the economic structure of America. Through its own farm organizations and by its own efforts, agriculture can regain that place and, having gained it, hold it. In that cause agriculture has the sympathy and the aid of the Government of the United States of America."

From a funeral oration: "Friends we have here only the shell of a man; the nut is gone."

An exchange tells of a man who "lay in a state of coma for eight days." But wouldn't that be a period?

"King Zog of Albania has been smoking 150 cigarettes a day. He must reach for them with both hands."

Youngsters will probably pass along the news that a New York father dropped dead while spanking his son.

Bospo, the circus freak, ate glass, pins, nails and other junk for years without ill effects. But a pint of bootleg put him in the hospital.

It would be terrible if the plan to put the postal service on a paying basis were to deprive us of our postage-free Congressional Record.

Even though pajamas for street wear may not be unacceptably adopted, the idea may encourage venturesome to leave off their coats.

What New... A Digest of Industrial Progress

The "most potent in its history" is the opinion of M. H. Rimmer, vice-president and general manager of the Philadelphia Electric Company.

Officials of the Southern Express Manufacturers' Association, makers of water-tight Express, declare that a steady increase of users of the wood which furnished the shingles for Mount Vernon, is being noted and that with its use there is a steady increase of wide shingling timber houses of the colonial type.

Plans for Colonial architecture are not the sole means for this pleasing interior colonial type, which is in its final plain expression.

Manufacturers of all products and methods have found it difficult to find the place where they can best control the spending of a large part of their income.

Advertisers in the "new world" are not so much interested in the "new world" as they are in the "old world."

They have sought to connect their products with the "new world" and to make it a part of the "old world" and to make it a part of the "old world."

It is a pleasure to make a fresh start.

GOOD-BYE FAMILY TOWEL

Daddy has a peach towel. Bobby has a jade.

Mother's towel is turquoise. Orchid for the maid.

Sister's towel is colored rose. Grandmama's towel is mauve.

"Every one a different towel" Is the rule these days.

And why not? We shudder at the thought of choosing the wrong toothbrush while half awake, certainly, should be deeply interested in the latest idea which calls for the various members of the household—the very color mentioned in the little rhyme, in fact.

A famous laboratory, after clinical tests, has recently announced that bacteria, deposited from one's hands to a towel, live on that towel for 24 to 48 hours—and that they definitely can be transferred from the towel to the hands of any other person who uses it.

We avoid the toothbrush, the napkin and the handkerchief of our dearest friend, yet are often far too careless when reaching for a towel. Four members of a family have four times the possibility of depositing transferable bacteria upon one piece of towel as if one member, so that the family towel becomes an easy medium through which a disease contracted by one may spread to several.

It has always been difficult to mark towels of one color or design so that each member of family will be sure to recognize his or hers. Today, however, it is possible to secure towels of similar texture yet different colors—all over colors, from top to bottom and even on the reverse side.

Peach, jade, turquoise, orchid, rose, mauve—there have to be six in the family before the colors are exhausted. If there be seven, poor dad may at last have the bath towel for himself—if he's fortunate.

LINDBERGH FINDS LOST CITY

Always in the news! And he deserves to be. Charles Lindbergh.

His most interesting is air photography. While flying over a Yucatan jungle he discovered a lost city of Mayan. He also has done some very important aerial photography of ancient ruins in New Mexico and Arizona.

The story of these latest accomplishments had to be pieced out from clues. Lindbergh, who has one of the "biggest" news mums in the world, says very little about what he has done, and much less about what he intends to do.

In Sweden, where Lindbergh's ancestors came from people believe in accomplishment rather than talk. This seems to be Lindbergh's belief too—and he is going right on, doing one important, vitally significant thing after the other. Constantly widening his interests.

And—refreshing in this day when everyone seeks the limelight—he is letting others do the talking.

They have a joke out now in which it is claimed that Lindbergh is noted for his boots and shoes while poor old Charlie is famous for his shoes and boots. That's nice, Evangeline. Tain't nice.

KITCHEN KNOCK

USE SUGAR WITH VEGETABLES. By Daily Daily. Allowing the sugar when cooking...

CARROT LOAF. Scraps carrots and boil in sweet water until tender. Mash one to a pint of the pulp add ten well-beaten eggs...

FLORIDA BEETS. Cook until tender three large or six small beets in water to which a quarter teaspoon onion salt, a quarter teaspoon onion juice, one tablespoon vinegar and five tablespoons olive oil. Mix and dress in a salad bowl...

Asparagus Salad. Cook the asparagus in salted water. The dressing consists of one-half teaspoon salt, a quarter lemon juice, one-quarter onion juice, a quarter teaspoon onion salt, one tablespoon vinegar and five tablespoons olive oil. Mix and dress in a salad bowl...

House Wives, who are in the habit of visiting relatives at Des Moines, Neb. They were accompanied by their sister, Miss Mary Helmsch...

Miss Alice Borch came home from the hospital Thursday. She is getting along nicely after her recent operation.

Miss Luella Borch and Miss Stephanie Lierman of Twin Falls were over Sunday visitors at Clover.

HANSEN

The regular session of the Women's Community Council was held at the church Thursday afternoon with the president, Mrs. Albert McLeary, presiding. The devotional services were in charge of Mrs. J. S. Wiseman. Members responded to roll call by giving verses of scripture. A barrel of fruit given by the Home at Boise and those making a contribution of fruit are asked to bring them to the church...

EVERYBODY IS TAXED TOO HIGH

While the state board of equalization is hearing applications for the railroad company in Idaho to pay an equal proportion of the property taxes, there centers are making constant efforts to reduce their valuations equal to those of the counties.

Representatives of the Northern Pacific and Great Northern railroad and Navigation companies appeared before the board in their session Monday morning for this purpose.

They contended that their properties are already taxed far in excess of other properties and that their investments have not been increased, and that his lines were already taken over by the passenger service while they were the same time forced to pay large taxes for the building of better roads to be used by the railroad.

Secretary of State Fred E. Lusk as replied that the growth of the business in Idaho was bringing the counties more than \$6,000,000 a year in extra local revenue.

VISITS CALIFORNIA

Harold Harvey of Dubuque is in California taking and indulging in other outdoor activities with his wife, who will undoubtedly describe in the "Idaho Star" in the sports magazine which he has been writing for the last several years. He has visited his brother, Clarence Harvey, at Pasadena where the latter has been living. Clarence Harvey just left Chicago for Idaho to take the advantage of entering business there. Bill Perry, formerly of Dubuque, also went.

Clover

Mr. and Mrs. Louis Schroeder and Rufus and Gordon...

Following the Wendell Monday to visit old business season the ladies adjourned to the basement where refreshments were served. Mrs. Fred Mueder and Mrs. Lloyd Seeger. About thirty ladies were present. The usual Sunday School was held in the church building. The church service was held at the home of Mr. and Mrs. Commonly church Sunday morning followed by a pot luck luncheon. The ladies of the Fourth Street church were in the church building for the annual district conference which meets in Twin Falls September 4.

After a two weeks vacation the boys' Scout met at the church Monday evening. Scout Master Kendall in charge. The regular meeting Thursday evening. The Royal Neighbors held their regular meeting at the Woodmen hall. Tuesday evening with Grace Minnie Beck in the chair. Twenty-one members and one visitor were present. The usual business of the order was taken care of, followed by drill practice in preparation for the district conference which meets in Rupert, September 24.

The regular meeting of Shefano Circle Ladies of the G. A. R. was held at the home of Mrs. Ralph Teague, Tuesday afternoon. The usual order of business which was taken care of, plans which will be given to the members of the community who are leaving to attend various colleges.

The village board held a crew of men at work putting in new streets, grading some of the needed improvements.

The hotel building has again changed hands. F. C. Fabb trading for Twin Falls property. Mrs. J. C. Fabb and children of Pendleton, Ore., who spent several weeks here visiting her mother, Mrs. Mary Helmsch, returned to their home last week.

Mr. and Mrs. A. H. Hites and daughter, Winnifred, returned from a camping trip in the mountains.

Mr. and Mrs. Weston August 10-10. Mr. and Mrs. Weston August 10-10. daughter, Mrs. Dennis was formerly Miss Maude Steinhilber.

Mrs. Charles Hartman, member of Rev. O. L. Kendall went to...

THE RETURN FROM CAPTIVITY
Esa. 11:1-8; Psalm 126:1-6
Rev. Samuel D. Price, D. D.

Fulfillment of prophecy is finely exemplified in this lesson study. Years before, Isaiah had declared that there would be deliverance for Israel in bondage by one named Cyrus. It was just seventy years from the first deportation, to the first year of King Jehoiakim, in the fifth year of Cyrus. At the same period between the destruction of Jerusalem and the completion of the second temple.

Keep in mind that Daniel was an old man when he interpreted that handwriting on the wall on which might in which the Chaldeans were captured by Darius, as the waters of the Euphrates were turned aside and the enemy entered under the city walls. Just thirty years Cyrus became king in Babylon. If Daniel was still living he would surely be a man that Cyrus would wish to meet and to grant a great fame as a man of wisdom and one who could interpret dreams. He had been a prime inter-

preter and anything he said would be taken as a prophet from a thoughtful mind.

When it was read from the scroll in prophesy that one named Cyrus would be the man to restore Jerusalem special attention was given thereto. Further, it was stated that he would have a favorable people. He would be a man of wisdom and one who could interpret dreams. He had been a prime inter-

Jerome

Mr. and Mrs. P. R. Sargent are spending the week on Calumet summit. They were accompanied by Mr. and Mrs. Bill Baker.

Mr. and Mrs. R. E. Stephens and Mrs. W. E. Stephens are spending the week at their home in Jerome.

Mr. and Mrs. H. K. Graves are spending the week at their home in Jerome.

ROGERSON

Forty of the Hollister and American people pleasantly surprised the evening by giving them a musical and social evening.

The house previously occupied by the Larson family has been moved to the Y. Y. service.

Mr. Emma Kubus of Hollister was visiting at the home of her son, Fred.

Mr. and Mrs. H. A. Street spent the weekend in Idaho Falls at the home of Mr. and Mrs. Frank Fashbaugh.

Mr. and Mrs. McPherson have purchased the Goodrich house and moved in Thursday afternoon.

Earl Kennedy, Jerome county treasurer, left Monday for Boise to attend the national Jerome convention, August 18 to 20. His family accompanied him to the station.

Miss Anna Miller and Miss Ida Street left Saturday for Boise to attend the national Jerome convention, August 18 to 20.

Mr. and Mrs. George Gillette are spending a few days in the hills.

WELL KNOWN PIONEERS WILL TALK AT CILER

Historical Figures of Southern Idaho Are On Program for Reunion of Old Settlers Sunday.

Five of the best known pioneers of this part of Idaho are to appear on the program for the Fourth Annual Reunion of the Old Settlers Society to be held at the country grounds in Filer Sunday, August 18.

The five pioneer speakers will be J. J. Gilliam of Wendon, W. E. Faller and Judge C. D. Starckler of Shoshone, C. D. Thomas and John E. Hayes of Twin Falls.

Judge Starckler was called to Idaho in 1888 by appointment of President Grover Cleveland as receiver of the General Land Office at Hailey. His brother was commissioner of the General Land Office in Washington, D. C.

Faulty Cream Separators Make Big Loss

In Jerome county a campaign is being carried on by County Agent Tom Skaggs to eliminate faulty cream separators or to make them efficient to prevent loss of cream.

Jerome county is reported to have about 600 separators. Of this number, 112 have been examined and 35 found to be losing a larger volume of cream than normal. The loss ranges from a few cents to \$50 and the 35 separators are losing \$401 for their cream.

The individual loss is so small, Skaggs says, that farmers are inclined to neglect it and think it of no importance, but the aggregate loss is so great that a definite effort is being made to correct it.

In practically all cases the operators are to blame by having their separators in a poor condition at the time of exhibition. The machines themselves are usually efficient when handled right.

COUNTY FAIR IS GETTING READY

Abundant Crops Promise Exciting Show Which Is More Educational.

Secretary H. W. Graves of the Twin Falls county fair and workers are visiting the towns in this territory to induce a large attendance September 3, 4, 5 and 6.

The last several years the county fair has been developed along the lines of a more educational character. It is now a member of the Democratic state committee and is one of the numerous outstanding fairs over which he presided in the early days of the mucker trial at Blainville.

This year's county fair is more real worth to the people who attend. In this connection the baby clinic was established two years ago and has been a great deal of good by revealing physical defects of children in their own homes.

Practically all of the exhibitors' grounds have already been placed on a week ago and were rapidly disposed of.

Drop of Prunes Has Been Large

The prune crop has been a little less in quantity than last year, according to Edgar W. Gilson, horticulturist.

Fires Destroy Much Timber

Forest officials, lumber companies and citizens of northern Idaho, eastern Washington and western Montana are praying for rain as the only means of stopping the "red devil" which has been stepping on the necks of the trees.

PINKY DINKY

IT'S PINKY'S BIRTHDAY

EASTERN IDAHO DISTRICT FAIR IS EXPANDING

The Eastern Idaho district fair is becoming one of the largest in the state. It is now being held in the city of Pocatello.

Four Counties Now Are Members With All Southern Idaho Participating in Annual Exhibition.

The Eastern Idaho district fair is becoming one of the largest in the state. It is now being held in the city of Pocatello.

The fair gives employment to many people outside that county. It is a great help to the community.

Directors of the Eastern Idaho district fair are Paul V. Nash, for Blaine county, secretary of the Pocatello chamber of commerce, H. C. Toews for Blain county, Carl Johnson for Bonneville county, and have invited Frank Gracie, clerk of Blaine county, to be the building program this season.

Bean Shipping Abuses Told

C. P. Bowles, sales manager for the Southern Idaho Wholesale Grocery company, addressed the annual luncheon of the Idaho Prunes and Beans Association.

JEROME FAIR IS IMPROVING

The Jerome county fair board has issued the premium list for the exhibition in September. This year a larger amount of funds for cash prizes. Community awards have been enlarged and exhibits in many of the departments have been added to, according to Earl F. Kennedy, secretary.

The entertainment program has been enlarged and improved by the signing of several special contracts for the fair.

BETTER ROADS HELP TRAVEL

More tourists come from California through the Twin Falls Empire than from any other state. It is revealed by registrations at the various points of interest.

The attraction for the California tourist is the location of Yellowstone park and Glacier National park in the general direction of the route along which they want to go toward the Great Lakes territory.

The Old Oregon trail has also been greatly improved the year or two, increasing travel over it both ways.

Rupert Man Wants Power

W. C. Paul, president of the Minidoka Irrigation project board on 800 acre feet of Snake river water west of Rupert, Idaho, is developing power for irrigation water in that district.

PRUNE HARVEST SOON TO START

Most of the prunes in Twin Falls county are raised on four orchards. The largest is the Margardene orchard of 250 acres.

The crop is better than last year, but a little reduced from the year before. This is due to the fact that the prunes which prevent a good harvest of them from grading first class, although they will sell on the market for a high price.

IN DISTRICT COURT

Cases filed this week in district court consist of the following: Robert Brown, vs. E. J. Frater, sheriff, et al. Injunction.

OFFICERS ELECTED

Recently elected officers of the Ruhl University club are Troy Moore, president; Bernice Ripley, vice president; Alice McGowan, secretary; and Alvin Smith, treasurer.

JEROME FINDS A NEW WEED

A new weed was found in Jerome county and eradicated the season past. It was called 'Frank's Avey' because it was first seen in the county of the Oregon Short Line.

The plant has not been found in this region before, although it is said to be common in California. It is a dark, fern-like leaves and small, four-lobed blossoms which produce sharp bristles that eventually hook into four parts. The thorn protrudes from each of the four lobes.

Storage Less Than In 1928

There will be no shortage of irrigation water for farm districts using the American Falls and Jackson Lake reservoirs, according to the state department of reclamation, although the storage volume of these two reservoirs was substantially lower than it was a year ago at this time.

The Snake river flow is about 35 per cent below normal due to the short water year. This has caused a heavier draw on the two Jackson lakes.

CROP REPORT FOR STATE IS MADE PUBLIC

HOISE, Idaho - A wheat crop of 25,029,000 bushels for Idaho was forecast for this year, according to Julius H. Jacobson, federal crop statistician, on the basis of the condition of crops on August 10.

This compared with 28,702,000 bushels a year ago. The winter wheat crop showed an increase, the estimate was 12,229,000 bushels, compared with 10,488,000 bushels last year.

Prospects were for 4,840,000 bushels of apples compared with 4,000,000 bushels last year, a crop which was to be marketed with limited competition because of national crop decreases.

Bean prospects were favorable with a forecast of 1,700,000 bushels compared with 1,470,000 bushels last year.

The sugar beet crop is large with an estimated production of 90,000 tons and with 297,000 tons last year.

CROPS GROWING FAST IN IDAHO

Excellent growing conditions for practically all parts of the state are typified by the latest weekly weather report from the department of agriculture at Boise.

EMBARGO LIFTED

As each has been eradicated from each herd of Saline and Harney counties in Oregon, the state-of-fair-trade embargo against importations of stock from that region according to Dr. A. J. Dickman, director of animal industry of the state department of agriculture. The quarantine was imposed early this year and has proven effective.

MINES BOOMING

New mining machinery is being installed at several mines in Central Idaho, including unusual activity in that field according to Stewart Campbell, state mine inspector. The Mackay Metals mine is installing the largest compressor in the state. Development work is also proceeding well at the Livingston mine and at mine near Hatfield. The million dollar cement plant of the Portland Cement company at Treon, near Pocatello, is in planning and work.

GETS PROMOTION

Be Careful

Floes are vicious germ carriers. Hundreds of thousands of children and grown people are ill every summer from eating foods containing a. s. c. d. files. Some of these illnesses are serious, others fatal. An educated and conscientious food dealer will not display his edibles in the open and expose them to the millions of flies that are sure to come. Nor will he allow flies to accumulate in his storeroom or meat department.

Not Here

You will observe there are very few or no flies in our store. And that no unwelcome flies are ever displayed in the open. We have a greater duty to our patrons than to safeguard their health. There is no extra cost for this health protection. On the contrary, O. P. Skaggs System patrons enjoy big savings in addition to our safeguard against fly germ diseases. See our store. Note its cleanliness. To a fly you'll want your food to come from it regularly.
