**THE ARMY WOMAN**  
If the Eighteenth Amendment is ever overthrown it will not be by the overcautious Dr. who will talk it out of his mouth. It will be by the woman who will talk it out of her mouth.

When one of them announces that the purchaser of a glass of wine should be sentenced to ten years in prison, or that the army should be called out to shoot down citizens who make whoopee, the common sense of people rebels. "This is too much," they murmur.

The murmur is not loud, but it is deep. The numbrers are not given to annualization and they have little talent for putting their thoughts into words. Nine the law, they are conscious that a law which makes a Christian talk a set in such an unchristian fashion must be open to serious doubt.

And, if good for enough, they will do something about it. A wonderful thing about the universe is its all-pervading law of balance. For every star there is some other star to hold it in place. For every poison there is some antidote. For every wrong there is some natural right.

"Things refuse to be mismanaged," on Emerson pointed out. "Though no checks to a new evil appear, the checks exist, if only in the government's mind, the government's law is not safe. If you tax too high, the revenue will yield more. If you make the criminal court impossible, justice will not convict."

I read recently a book on the gang of Chicago. It contained an appalling list of murders for which the law has secured no convictions. But few of the gally are now alive. The natural destroyer of the gang is the gang.

Other laws included There are several other items in the new traffic regulations, most of which are revisions of the old, designed to regulate the traffic on the highways to insure greater safety to pedestrians. They also affect signs and signs placed within restricted zones.

The new regulations have been printed in pamphlet form and are available for sale at the state capitol building. Those who wish to keep out of the way of the law by obeying the new regulations, should purchase a copy of the pamphlet. It is a small book, but it contains a great deal of information.

Other laws included There are several other items in the new traffic regulations, most of which are revisions of the old, designed to regulate the traffic on the highways to insure greater safety to pedestrians. They also affect signs and signs placed within restricted zones.

Other laws included There are several other items in the new traffic regulations, most of which are revisions of the old, designed to regulate the traffic on the highways to insure greater safety to pedestrians. They also affect signs and signs placed within restricted zones.

**NEW TRAFFIC REGULATIONS ARE EFFECTIVE**

All Car Drivers Advised to Study Pamphlets Regarding Latest Rules Approved in Twin Falls.

New traffic regulations for Twin Falls went into effect Friday, ten days having been required after the ordinance was adopted by the city council. It has given three readings and no protest was made.

Hereafter, first hand turns are permitted at the intersection of Shoshone and Main avenue, the principal streets of town. Drivers of vehicles must go straight ahead to the right. This rule was enacted to increase safety both to the driver and to the pedestrians themselves, as well as to facilitate traffic which is frequently hindered by the automobiles turning to the right.

Other laws included There are several other items in the new traffic regulations, most of which are revisions of the old, designed to regulate the traffic on the highways to insure greater safety to pedestrians. They also affect signs and signs placed within restricted zones.

**GOVERNOR BALDRIDGE TAKES ACTION**

Makes Appeal for Farm Board Member to Personally Visit This State.

Governor H. C. Baldrige wrote to Senator John Thomas at Washington this week, urging him to make a personal visit to Idaho to see the farm board member who is to be appointed to the federal farm board to visit Idaho and explain to farmers in this state just what they may expect to benefit by it.

**CHARITY WORK IS CONSIDERED**

A call has been made for all civic groups to contribute to a charity work at a meeting in the probate court room Tuesday night to discuss Christmas charity work. No family or person is to be overlooked in the supply of necessary articles of which they are in need.

**BOYS IMPROVE, GIRLS WORSE**

Prostate courts of Idaho reporting in its bi-monthly an increasing percentage of delinquent girls and a decreasing number of boys. Last year 143 less than the year before, while delinquent girls jumped from 46 to 134.

Another important tendency was that more cases were settled out of court. A total of 4039 were thus handled this year, 229 less than last year with 97 less cases in court altogether.

**ONE MILLION DOLLAR ROAD ORDERED BUILT**

J. C. Favon Connection Giving Boise Territory Direct Contact With The West Coast Market.

An event that was held in the Boise arena with a great deal of jubilation over the last of the Oregon and Idaho interstate commerce commission's decision ordering the Union Pacific Railroad company to build a connecting line between the Boise and eastern Oregon and Crescent in western Oregon.

**WOULD SAVE 400 MILLION**

There is a railroad line between Boise and Crane but from there to Coeur d'Alene there is a gap in the line. It is estimated that this connection would save 400 million dollars according to Samuel Newland, president of the Idaho Building and Loan Association.

**KUNA DIVIDING LINE**

Kuna in the dividing line of distance from the Boise area, points east of here being closer to California via the Stageron-Wells road, and points west closer via the new Crane-to-Crescent link now under construction.

**Wheatgrowers Vote to Organize to Secure Federal Farm Finances**

About 50 farmers from Twin Falls, Jerome, Lincoln and Cassia counties attended the Twin Falls meeting Friday when the proposal to organize a local regional unit of wheatgrowers was discussed. Gooding, Camas, Blaine and Minidoka counties were invited but not represented.

Frank L. Atkins, Dahl, southern Idaho representative on the Northwestern Regional Wheatgrowers Marketing corporation, presided. He introduced Dean E. J. Jiddings of the college of agriculture; J. R. Howard, former president of the American farm bureau; G. P. Mix of Moscow, and R. E. Shepherd, of Jerome, as the speakers.

Farmers asked questions of these men about the farm loan plan and at the close of the meeting voted in strong favor of organizing to secure a farm loan to finance storage and marketing of their wheat crop.

Atkins was made chairman of a committee to develop further plans. Each county delegation met alone and selected a member of the committee. These men will sponsor meetings in their various districts, explain there what transpired at the Twin Falls meeting and line them up in support of the regional organization which is planned to be affiliated with the Northwestern Regional association.

F. W. Powell of Richfield represents Lincoln county; J. W. White of Eden for Jerome county; Luke Sonner of Buhl for Twin Falls county, and Thomas Scraggs of Darby for Cassia county.

R. E. Shepherd recommended H. E. Harry for Camas county, and the other county not personally represented are expected to join.

Action taken by these men must be approved by the farm board and in accordance with their regulations. The plan is to have the organization functioning in time to receive loans to provide storage facilities for next year's crop.

A similar organization is under way in southeastern Idaho, the meeting having been held there Thursday with Senator James Webster of Rigby chairman. He and Atkins represented southern Idaho on the northwestern regional group.

Four outstanding addresses were given at the wheatgrowers meeting in Twin Falls Friday by men who have made a study of the farm law. The bill was explained and its benefits foretold to prospective members of the local regional unit which is now in process of formation.

Digests of the addresses follow: R. E. SHEPHERD, Chairman of the Northwest Wheatgrowers Marketing Corporation. The greatest trouble today is the gambling element in wheat. It is the farmer's board and farmer's corporation which can assure the farmer a profit on his wheat. The local unit will collect the wheat and sell it at the storage warehouse and distribute it to the larger regional organizations which will handle it upon the market in an orderly and profitable manner.

**PLAN REVIVAL OF BASEBALL**

Reports from Coeur d'Alene indicate that the Twin Falls baseball team has been revived next year with four teams instead of the former six. Salt Lake, Twin Falls, Odean and another team are to have expressed interest, their representatives saying they were willing to attend a meeting to give further consideration to the new plan proposed.

Parties officials said they had already discussed the matter and would meet again in the next few days of the Pacific Coast League of Idaho before next year. H. H. Miller of Salt Lake was the only one to come from outside of Twin Falls who was present.

**TAKES ACTION TO PREVENT A DRAIN ON WATER**

Prolonged Dry Season. In view of the unusually dry season which is said to have prevailed over the entire Northwest this year, the Twin Falls water supply is a considerable problem.

Mr. Gibson said \$5 per cent of potato growers in Idaho are members of the Idaho potato growers' association. He said that the association is now planning to have a meeting in Boise to discuss the matter.

**URGE BUYING OF HOME PRODUCT**

Association Names Many Articles That May Be Purchased at Christmas.

The bulletin of the Idaho Wood-growers' association urges support of the quality of this state's products by purchasing Christmas presents which are made of the product of this industry.

**THIRD PAYMENT MADE ON BEANS**

An additional price of one-half cent a pound was paid to members of the Southern Idaho Bean-growers' association for the third payment of approximately \$700,000 paid to the 700 members this year's crop.

**URGE POTATO GROWERS TO GET ORGANIZED**

W. H. Gilson Outlines Benefits to Be Received by Forming Efficient Co-operative Association.

At the state convention of county agents in Pocatello Thursday, W. H. Gilson, secretary of the Idaho Potato Bureau, recommended that potato growers in this state organize into an efficient association to deal with the national potato bureau as a means of establishing stabilized prices of marketing and distribution.

Mr. Gilson said \$5 per cent of potato growers in Idaho are members of the Idaho potato growers' association. He said that the association is now planning to have a meeting in Boise to discuss the matter.

**URGE BUYING OF HOME PRODUCT**

Association Names Many Articles That May Be Purchased at Christmas.

The bulletin of the Idaho Wood-growers' association urges support of the quality of this state's products by purchasing Christmas presents which are made of the product of this industry.

**THIRD PAYMENT MADE ON BEANS**

An additional price of one-half cent a pound was paid to members of the Southern Idaho Bean-growers' association for the third payment of approximately \$700,000 paid to the 700 members this year's crop.

This was the third payment and would have been one cent a pound on the first two were it not for the fact that the market had not improved. Instead of sending out a surplus of beans to get one cent a pound for members, it was thought best to cut the market and send out a surplus of beans to get one cent a pound for members.

Manager Hayes advised Commissioner Carter and Waterman Carter in return to water diversify along the river in order to prevent damage to the Jackson dam by excessive pressure in the winter. During the last busy first reduction of the water supply in American Falls reservoir from the latter this summer by the Twin Falls Canal company which had 125,000 acre feet of water in storage, it is estimated that the total amount of water in the reservoir. This leaves a substantial surplus for the 1930 season.

## THE IDAHO CITIZEN

# THE IDAHO CITIZEN

SEMI-WEEKLY PUBLISHED ON TUESDAY AND FRIDAY OF EACH WEEK AT TWIN FALLS, IDAHO, BY THE TWIN FALLS PRINTING COMPANY.

Entered as second class mail matter at the postoffice at Twin Falls, Idaho, under the act of March 3, 1879.

TWIN FALLS PRINTING CO., 203 Second Avenue North, Twin Falls, Idaho. Phone 472.

### MANCHURIAN BEANS

If the purchase by the United States government of forty million pounds of Manchurian beans during October is an example of the farm relief program of the present administration the federal farm board will require an additional 500 million dollars for agricultural purposes.

The surplus of the U. S. crop this season would normally tend to keep the price low enough, but when foreign-grown beans are purchased and imported by the government itself and brought into an already glutted market, there is little wonder that bean-growers think there is glaring inconsistency when the frantic appeal goes out from the head of the government itself to speed up construction work to preserve the economic structure.

### JUSTICE ONLY

The trial opened yesterday in district court wherein the state is attempting to fix personal responsibility for the looting of common school district funds in an amount now reported by the examining auditor to exceed \$13,000.

A serious task confronts the prosecuting attorney, the jury, yet to be chosen, and the court itself.

Justice will only be dispensed when the innocent are absolved and the guilty are adjudged.

The Citizen believes that Prosecutor Larson recognizes his stern duty, that he will lay bare the entire scandalous mess; and that he will attempt to have placed back in the treasuries of the many struggling school districts every dollar that was brazenly stolen. The public will be satisfied with nothing less.

Whether the present defendant, Viola Love, is guilty, is a matter yet to be decided, not by this or any other newspaper, or individual, but by the court. The urgency is not that Viola Love be convicted, but that whoever robbed the treasury be branded with guilt.

The money is gone. That is undisputed. Orders for warrants were forged. That is too manifest to repeat. This prosecution and court's duties will consist of attaching the responsibility for these crimes—and high crimes they are.

The public's duty is to hold no one guilty until proven. And finally—the victims of this wholesale treachery—the school districts—are entitled to have their money restored. Certainly, out of a \$13,000 robbery—much of this money must still be in existence. Years behind prison bars will not restore this tax money. It is not vengeance that the victims seek, so much as financial relief and knowledge that similar offenses may not again be so readily committed!

After all that, the plea in this instance—as it should be in all other court matters, is simply, JUSTICE.

### MISTER GRUNDY

The appointment of Mider Grundy to the exalted position of United States Senator from Pennsylvania, only a few days after his impudent references to Idaho and other so-called back states is an insult to the intelligence of the people of the United States. It was the last straw in a series of brazenly stupid actions on the part of "Miding," heralded in the faces of the clarity of this nation. It is news that best not be imparted to the youth of the country lest they lose their respect for "the land of the free and the home of the brave."

December 16 and not a solitary snow in this part of Idaho to date. All of which makes the "weather news," but unfortunately is an unwelcome condition. Maybe a snow-maker will have to be imported. Fancy the novel experience of a day of public prayer for snow—such as is sometimes resorted to in other sections during periods of drought. A great snow would make a welcome Christmas gift to the Twinland Empire.

Jeel Priest, genial O. S. L. representative, arrived in Twin Falls the morning after the local chamber of commerce bodies passed resolutions urgent the extension of the branch line from Buhl. One local was volunteered the opinion that Jeel was here, perhaps, to get a certified copy of the resolutions so he could turn it over to Union Pacific officials for their information and instruction in just how, and when to proceed with actual construction of the line?

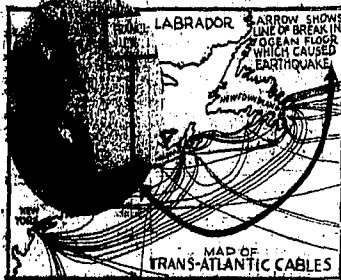

The Citizen not long ago voiced its wonderment at the variation in gasoline prices between Twin Falls and Pocatello. Indications now point to lower gas prices in Twin Falls. We shall see what we shall see.

Bishop Cannon's critics who are suggesting that he resign are short-sighted. They wouldn't enjoy razzing him, if he were no longer a bishop.

There seems to be some controversy between Uncle Sam and John Bull regarding the ownership of land around the South Pole. Probably both want to start a filling station down there.

Next week is Christmas!

## Radio Comes to Rescue When Earthquake Severs Cables

Photograph shows General James G. Harbord, President of Radio Corporation of America, with chief radio operator receiving news from France. Ten of the telegraph cables shown on the map were cut by the earthquake.

The most serious disaster in the history of submarine cables has proved to be the most effective demonstration of the value of radio as a means of international communication.

On Monday the 18th of November a earthquake at sea off the North Atlantic Coast of the Western Hemisphere interrupted the service of the twenty-one cables connecting North America with Europe. Many large cable users diverted their international radio communications, according to W. A. Winterbottom, Vice President of R. C. A., communications.

As cable ships rushed to the scene of the disaster, the pressure on radio facilities increased daily. By the end of the first week the European radio circuit was handling a traffic volume almost 100 per cent greater than normal. Mr. Winterbottom stated, "radio has had a splendid opportunity to demonstrate its ability as a means of international service for normal cable service, but the remarkable power of statistics in its capacity to receive, encode, and transmit messages is being demonstrated by the fact that the volume of communication with other countries when the cables are interrupted. The operating personnel of the R. C. A. Communications was instantly increased and the working hours of the regular force were extended to meet the emergency. Notice of the interruption of the cables was posted on the operating room at 66 Broadway, New York. This was authorized by Major General James G. Harbord, President of the Radio Corporation of America, as a reward for the efforts of the staff, which General Harbord described as "having the best traditions of a communications service."

### THE FAMILY DOCTOR

JOHN JOSEPH GAINES, M.D.

**A BLESSING.**—Just a small, glittering, unadorned fragment of cold steel. There is the hint of creepiness at its mere mention; it is such a stern thing after all its business and its make wounds—most feared of all, wounds upon the bodies of our dear ones; wounds upon and within the bodies of the ones we sympathize with most—the ones stricken, with death just around the next bend of the road.

Yes—it's the surgeon's knife that I am talking about. A few specks of it as a blessing; some orate from the house-tops that it is the tool of murderers; they try to inflame us against this little benefactor, too often for our own personal financial ends.

**Nerves!**—A night of broken rest followed by hours of mental or physical strain; nerves tensed almost to the breaking point; irritable; unable to concentrate. My entire life is filled with Nerve quieta the nerves, bring calm and quiet, and permit refreshing sleep.

**Effervescent NERVE TONIC**—A deep-seated force of deadly poisons that will fill the human structure with...

They had seen the Wise Old Owl before. They stood at the foot of the tree and looked and looked. The Wise-Old Owl was not there.

**COWBOY SCREEN STARS SING FOR TALKIES IN TWO LANGUAGES**

Ken Maynard, whose latest Universal picture, "Senior American," comes to the Orpheum Theatre Thursday, sings in both Spanish and English now. Between rides and fights during the filming of this picture, Maynard learned the words of several Spanish songs, to be played to guitar accompaniment. Maynard already was expert on the guitar. Ever since childhood he had been at home with that instrument and the "fiddle" for the playing of old cowboy songs, concerning which he is authority. Learning Spanish love songs was a different matter. There's the young American cowboy, who has to arrange beautiful Kathryn Crawford, playing the role of an aristocratic Spanish Californian.

### EDEN

One of the worst auto wrecks which the North Side has ever known occurred in a car. Hennessey, jumping up and down, when one of the occupants, Francis-Jurby of Twin Falls, was killed when he was hurled from the car and struck a solid wall of rock, crushing his head. Through the air and in a jiffy, an other occupant, Henry Houch, alive at Toyland and see Santa Claus at work in his big factory.

Lane, Ut 74 to his opponents of Hillside, Ut 28 40 his opponents 12, and at Greenwood he received 20 to the opposition 10.

A tree and a bird organized in the high school and has been a success so far. The club is equipped with such all birds which provide excellent recreation.

### AMSTERDAM

The Christmas program to be given by the school, will on Thursday night, December 19. School will be dismissed for the vacation period on Friday evening December 20, and work again resumed on December 30.

Cloudy and windy weather has been prevalent here the past week, with a decidedly mild temperature most of the time. Very little rain or snow fell during the stormy period. Moisture is very much needed in this section.

Mr. and Mrs. G. Poston, and family, Twin Falls, have moved into the house west of here, recently vacated by the Guy McCormack family.

Miss Jeanette Petza has returned home, after spending a week with her sister, Mr. and Mrs. Stanley Strickling, near Knoll.

### HEH! HEH!

A boy on his way to school lost two many green apples. As he took his seat the teacher asked him to name the present season. The boy arose in spite of the pain in his stomach.

"I'm sure it's not the apple season," he said, smiling. "How do you know that?" inquired the instructor.

Without a second's hesitation, the boy replied, "I have inside information."
