## THE SCHOOL BOARD LETS CONTRACTS NEW SEWERAGE AREA VOTED IN HONOR OF THE MAN

**MAKE PLANS FOR**  
The school board has made plans for the building of a new school building. The plans were approved by the board on Monday evening of this week and the contracts were let on Tuesday morning.

**BIDS ON BUILDING VARY GREATLY, WITH WINNING BID VERY LOW.**  
A. White of Twin Falls, Gets Contract for Building, Berry & Swank the Plumbing.

**CITY COUNCIL VOTE TO PUT IN SEWER DISTRICT NUMBER TWO.**  
Estimates of Probable Cost set at \$55,000.—District Will Cover all Outside of District 1.

**CELEBRATION PLANNED FOR NEXT TUESDAY FOR F. H. MILNER.**  
Buhl Day as Planned by the Commercial Club to be Without any Obstruction.

The school board pursuant to the call for bids on the plans for a new school building, received the bids on Monday evening of this week and awarded the contracts. The bids on the building were rather surprising inasmuch as they varied greatly in the totals, the bid receiving the award being about ten thousand dollars lower than the highest bidder. Instead of the contract being let as a whole it was let in four bids, excavation already let and finished heating, plumbing, and the building proper and in every case a large number of bids were received together with the certified checks required by the board.

The building was awarded to A. White of this city, formerly in business with Paul Karzke of Burley, at \$33,800. Mr. White is now in the city and will push the work as fast as possible. Fitch Ball will be superintendent of the construction and has been in conference with the contractor this week.

The city council at a meeting held Monday evening unanimously voted to proceed with the laying out of a sewer district. The plans for the sewer have been under discussion for some time and a committee of the council have been investigating and making estimates of the expense. At the meeting last Monday night the committee reported the expense to be about \$55,000.

Upon learning that F. H. Milner, Pennsylvania was to be in Twin Falls the coming week, the members of the Commercial club thought it was a fitting time to express in at least some of the regard with Mr. Buhl is held by the settlers of the tract. While it is the custom to make the celebration general over the tract, yet out of respect to Mr. Buhl's well known dislike of play and ostentation the day given solely to a quiet meeting in the hall of the Commercial club. It is possible by his money the speaker may have some of the speakers.

**ITEMS.**  
The board endeavored to get the very best result from the bids possible and have full protection of the district with regard to the class of workmanship put into the construction and they are to be congratulated upon the figures at which the work was let.

Wanted the address of a good building contractor. J. W. Andrew, Carbide, Ill.

**TAKE RUPERT BY STORM.**  
The members of the Pythian Dramatic club are very enthusiastic in their praise of the hospitality of the Rupert people who not only packed the open house and generously and heartily applauded the club, but after the drama had been presented, invited the club to a reception and banquet, and in fact gave them the very best kind of a time from the minute they reached Rupert until they took their departure the next day.

The entertainment committee has passed the advertisement of the day over to the proper committee who will have posters and programs sent out every town in the tract. If possible the ratings will be asked to arrange for special trains in both directions in order that the people may reach Twin Falls and return home the same day.

Mr. Van has been suffering from an attack of typhoid pneumonia is convalescent.

The national house of representatives sat down on the currency bill of Aldrich so hard that it looked as thin and unimportant as any other piece of paper.

The postal department have recently ruled that any train carrying mail must not run more than a half hour behind its schedule or it will be subject to a heavy fine for every minute later than this limit. This branch of Union Pacific will appreciate a little better mail service than is handed to it about half the time.

The republican party is at last awaiting to the fact that tariff revision is inevitable and are clamoring for its adoption as a plank in the platform. The same howl has gone up each year until the party is again safely in office and then, what a silence. But it is to be hoped that the leaders of the party in congress will take the bill by the horns and work out some method of tariff revision that will accomplish the good intended without precipitating the panic which has frightened every republican congress since tariff reform has become a question.

The addition of automobiles to the vehicles of this city is presenting a problem that has been brought up before a great many times. The owners of the autos are more than careful and are doing all they can to avoid frightening teams, but in the case of teams tied on Main street

it is a tough proposition for the autos to pass without causing some teams to break away from the place where they are tied, and run away. The root of the trouble is in the tying of teams on our main streets. On many at days the main street is lined on both sides with teams tied to the posts provide by the mer-

chants. Any team become frightened would cause one of the worst panics possible when the closely packed condition is considered and the coming of the autos is making just such a panic probable. We have a great deal of unused space back of both blocks fronting on Main street which can be used for the farmers for hitching purposes. If this space was made available by the construction of strong hitching racks, the farmers would be a great deal more sure of finding their teams upon re- turning from shopping than under the present system. The city council could help this movement by the passing of an ordinance forbidding the leaving of teams without drivers on the main streets, thus not only doing away with a chance for disaster but also helping the appearance of the streets in taking away the effect of a small rural town.

Last week the Forest service was attacked in both branches of Congress. The assault was apparently part of the general scheme of the opposers of forest preservation. Without forest preservation we cannot have a proper lumber supply. And since the forest is the chief

water reservoir without forest conservation we cannot have a proper water supply. Not only do Spain, Syria and China show the effects of deforestation, we need look no farther than our own country. In one year floods directly traceable to forest destruction in the southern

Appalachian Mountains destroyed several million dollars' worth of property. The quality of the adverse criticism in the House of Representatives last week may be gathered from the following statement by Mr. Mondell, of Wyoming:

"There are many other factors affecting water conservation besides forests, and in my opinion, a vast territory could and often has a fairly regular water flow without forests; and, as far as water flow is concerned, a territory could in my opinion, get along very well without any considerable forests at all, if it were not for the fact that we need lumber and love trees. The gentleman from Texas (Mr. Burleson) looks horrified. I am not surprised at that, in view of the vigorous and exaggerated propaganda we have had on the other side of the subject for a long time. In my opinion, an acre of well-cultivated ground is worth ten acres in woodland in the conservation of water. In my opinion, there is nothing that conserves water like cultivated areas."

However this be—and the general opinion of well informed people will hardly coincide with Mr. Mondell's—without the conservation of water itself we cannot have a sufficient supply for drinking and domestic purposes, for irrigation and canals, for water power and the generation of electricity. In the conservation of water on the navigable streams, the public domain, and the National Forests, the Federal Government is and must be

aided by private enterprise. How shall these relations be adjusted? By practically perpetual and unrestricted grant of rights of way and storage dam privileges, say the greedy, as is evident in the bills before Congress. Mr. Mondell, a foremost critic of the Forest Service,

is the author of one of them. Such bills, if passed, would be a blow at the Forest service. As Mr. Pinchot, the Forester, says: "They would deprive the Secretary of agriculture of power, now enjoyed by him, to make regulations affecting rights of way. Without such regulation the rights granted would often conflict with the people's interests. Aside from these general grounds the proposed measures leave no power to control location, to insure safe construction, or to protect timber. Such measures simply trench monopoly as represented by large and wealthy corporations with great financial backing. The proposals is to obtain for nothing privileges involving the monopolistic control of the daily life of our people to an unparalleled degree. Of course the Forest Service, already providing for legitimate uses of its forests, opposes any measures looking toward unfair special and private advantage." President Roosevelt agrees in this, as may be gathered from his message to Congress a fortnight ago:

"I shall be obliged, hereafter, in accordance with the policy stated in a recent message, to veto any water power bill which does not provide for a time limit and for the right of the President or Secretary concerned to fix and collect such charge as he may find to be just and reasonable in each case.—Outlook.

Assisting the Miracle.

By JOHN HARTY.

Jesus thrilled at the sight of the tall, grave man slowly descending the steps to the boat landing. He was a governor, the governor of his own state, and in his hands he held the power of life and death.

He smiled brightly upon her as she came upon the dock. "See that it is not a woman, the only bird in the quiver," he said as he raised his hat.

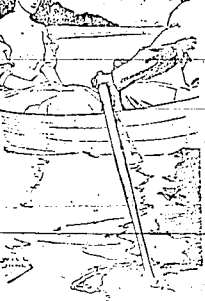

"Won't you come with me?" she inquired. "I am going out alone and don't wish to start to have you come along."

"I was afraid that I came to lose my sport," he said as he stepped into the boat. "I have only a week, and—well, you are a fisherman yourself, it occurs to me."

"I would like to go with you," he said. "I would like to know you, even if it means that I must leave the water. (Have I not seen you somewhere?)"

"At the executive building," she answered, coloring. "I came to plead for 'Tim Darlington.'"

"Ah, yes," he answered. "I know that I had seen you before. I seldom forget a face, though sometimes I cannot exactly place it. It was a very unfortunate case. I truly regretted that I had not seen you sooner."

"I shall resign your fiancée's release as soon as I return," he said. "I would like to know you, even if it means that I must leave the water. (Have I not seen you somewhere?)"

"But they proved untrue," he said. "I was not a man, but a woman. I had been the dishonest means of some of Darlington's savings."

"I am sorry," he said gently. "but let us not discuss the matter. I am convinced that with a bit of help from the man could not have fallen overboard. That is the weak point in the defense—the statement that the man fell out of the boat while changing places. Why, I have changed places in a boat hundreds of times and never lost my balance."

"I didn't mean to imply you," cried Jesus indignantly. "You are down here for a rest, not to be bothered with affairs of state."

"You do not annoy me," he assured. "I am only fish. It can be proved that the fence was accurate. If you could argue a new point I would gladly listen."

of a position that was open to me and came here in the country to go to the governor's. That night—There was nothing secret about it. I thought I could not do it, but I thought I would try it. I had waited—first hopefully, then despondently.

"Bradley asked her hands eagerly. "But, Katharine, you forget that your betrothed girl's wife have given up their flat—they are not in the district, and I had also given up my own."

"I never thought of it," she said slowly. "but you seemed to the Miss Bradford."

"I never thought of it," she said slowly. "but you seemed to the Miss Bradford."

"Which Are You?" he asked. "In this world there are two kinds of men those who look upon the bright side of things and those who look upon the shadow, and see nothing but discouragement ahead."

"The cheerful man when he goes work accomplishes it heartily and soon clears it away," he said. "I am glad to see you, regarding his work as a man. The other looks and looks, his face growing hungrier each minute, and then says to himself, 'How much work do they expect me to do on my part? I can't possibly get through all today.'"

"Then presently when he settles down to work he finds that the cheerful man has already finished and invites him to his night job."

"The cheerless man when he goes work accomplishes it heartily and soon clears it away," he said. "I am glad to see you, regarding his work as a man. The other looks and looks, his face growing hungrier each minute, and then says to himself, 'How much work do they expect me to do on my part? I can't possibly get through all today.'"

The House Of the Ogre.

By TROY ALLISON.

Kitty Trembled along to her government and told the story with the tears of delight. "She lives in these old times, Miss Bradley," she said in her child, childish voice, "and nobody knows but what she's a ghost."

"Now, Kitty, some one has been hitting your little head with the rusty tongs," Katharine Jervis said indignantly. "It had not been like this since the house had been built, and she couldn't be a ghost."

The only Department store on the Twin Falls tract; the only store in Southern Idaho with a resident buyer in New York City, and who is ever alert for specials in all departments for two of the largest stores in the State of Idaho. Spot cash purchases at the head of the market, is why we can give the public the prices. While the prices in many instances may seem ridiculously low, every article we sell is sold on a positive guarantee: it must be satisfactory. Quality is the one word always in our buyer's mind, as well as price. Our buyer has scoured the market especially for this White and Mill-End sale. Here you will buy staple muslins, gingham sheeting, batistes, nainsooks, embroideries and laces at, in many instances, from 1-3 to 1-2 less than regular price. Note the prices in all departments during this sale. The fitting in our big ready-to-wear department for ladies will be looked after by Miss Howard, who is an artist in cutting and fitting never excelled and seldom equaled. In this department we have 100 wash suits on sale and the price we can assure you will be so low that you cannot afford even to do your own sewing.

### Sale Begins Saturday, May 2, and Continues One Week

A wonderful cut in Men's and Boys' Clothing will be a feature of the sale. Ladies' trimmed hats, including the famous Gage make, will be priced at 1-4 less than regular; also thousands of yards of wash goods of every description. While we have a large stock we ask you to come early. This Great Sale will not stop at the dry goods, shoes and clothing, but will go into the large grocery department where values in many instances will be cut in half. We especially invite you to visit this part of the great store and see the perfect order and cleanliness of this department, where nothing is handled that does not comply strictly to the pure food laws. Our shoe department is a shoe store complete within itself and stocked with all modern appliances for fitting the feet perfectly. If you have trouble with your feet give us a chance to show you how easy we can fit you out.

### 100 Ladies' Wash Suits and Waists!

Don't sew when you can buy your suit ready made at barely a little more than half regular price. You are invited to look through this immense stock. Our salespeople will be pleased to show, whether you wish to buy or not.

The Chance of Getting Good or Bad Clothing.

AS SPECIALISTS in wearing apparel we owe it to our customers to point out the weakness and defects in the average run of clothing, either custom or ready-made. Most of it is shaped with the hot iron; for any garment may be "doctored up" this way to sell. You probably have worn coats that began to lose shape only a few days after you bought them. Usually the trouble is that you can't see the inside of the coat—the materials and workmanship.

ELDRIDGE CLOTHING AND TAILORING COMPANY

CREAMERY-FOR FILER.

Huntlers of Town-Land Another Great Proposition. The Commercial club called a special meeting on Monday evening, to try and push the creamery proposition along. The results are that Filer is pronounced a creamery in full operation by October 1st. A committee of the following members were appointed to get out and do the building: Carl Farnsworth, W. R. Swasegood, A. A. Davis and H. G. Myronson.

The following gentlemen were elected delegates to the convention at Hild, Saturday, April 25th: H. Gurnahan, Geo. E. Johnson, M. A. Barney, E. H. Bettle, and Charles Spencer. Rev. E. H. Wright of the Congregational home missionary society of Boise will preach in the Nibley Church hall Sunday afternoon, April 26th. Every one should attend. C. D. Thomas and T. J. Woods took a spin in Filer from Hild on Friday day. Sign holder and Harry Weatherly drove to Twin Falls Tuesday. Miss Elphinstone Pond enjoyed a spin in an automobile to Thousand Springs on Sunday. Miss Evans spent Sunday in Hild. The Filer Produce company are shipping four car. of potatoes this week. The townsite company have about 50 people about to dig holes for the newly planted trees to be set out & planted. Hereafter we can say "Watch the trees grow" and we will all be happy. Cleary Johnson sold 10 acres of land lying south of Filer to C. C. Stevens for \$500 bonus. Many Fileries will go to Hild Friday and Saturday to attend Traders day. Rev. Archer was one of the many who turned out in all their glory to dig for the townsite. John Utter and Frank Barnes have returned to Filer for a few days after a camping trip around the Salmon river project. They will start out again in a few days for the Salmon Basin. Arthur day will forever remain fresh in the hearts of the school children of Filer, for the planting of trees on their new school grounds was to them the

laying of the foundation of their town which for school which they now feel will soon materialize. Misses Pond and Evans deserve much credit for the excellent manner in which the children carried out the program. Miss Alice Gurnahan has returned to Filer to keep up the pleasant task of book-keeping for her father's lumber company for the Nibley Channel Lumber company. Karl Paalick's father arrived this week from Kansas. Dr. J. G. Jones and family of Lost River are visiting the Fileries, looking after their interests in Filer. We are beginning to get acquainted when it comes to the Filer ball teams, both Juniors and Seniors, have cleaned up every ball team that has come to Filer so far. Sunday witnessed a good game but our own boys won out, score six to seven. F. M. Campbell of Blackfoot, Idaho, an old time newspaper man, has been spending a few days with his friend, E. H. Brown here. John Utter and Frank Barnes drove to Twin Falls Tuesday. Mrs. Gladys Kasperick has been on the sick list. Lester Ard has just returned from a fishing trip. It is rumored that Filer will have a dance in two months by a South Idaho man.

The Commercial club will give a dance cream and cake sold in the club rooms on Thursday evening, April 29. All are invited. The Filer ball team will give a dance on Friday evening, May 1st, in the Nibley Channel hall. The Woodmen's smoker, Monday night was very well attended, about fifty being present. After the serving of light refreshments consisting of sand wiches, doughnuts and coffee, a number of toasts were proposed. Frank Burlington acted as toast master. Among those who valedictorian from Twin Falls were Dr. W. H. and Mr. Anderson. Filing applications for membership in the order were received during the evening. Through the kindness of Mr. Thomas the lights were not turned off until two o'clock when the meeting adjourned. The mill town is booming. A recent block building will be erected here in the very near future. The department is to be used for a hardware and furniture store. A large hotel is to be built in our town. Joe McMillan has sold his farm and moved into town. Mr. Anderson son of rural home was in Kimberly Friday looking over the two tracts that have been partitioned far out of Kimberly, Messrs. Thomas and C. E. Parks accompanying him. The project seems very good for the proposed routes to soon be established. The Ladies of the Filers Club met at the home of Mrs. Kendall last Wednesday and will meet with Mrs. Belcom next this week. The motor and main shaft of the mill were in town Friday night. Mrs. Chester Horbach and Mrs. Osburn visited Mrs. Ed Demore Monday. The Nibley Channel Lumber Co. received a car load of coal Tuesday. Mr. Elphinstone and family moved to Kimberly Monday. Mr. and Mrs. Demore and family went to Hagerman Sunday. Mr. Wilkins sold his team of heavy horses to Mr. Kendall who is farming the Burrington ranch this year. Roy McMaster is busy drilling in oats on W. E. Lewis place. Misses Dora Rippen and Bertha Newberry were entertained by Mrs. Kendall Tuesday evening. Little Miss Mildred O'Brien visited our primary schools Monday. All of Kimberly's public buildings now have electric light and we hope to have the streets lighted in the same way soon. Mr. Parker has contracted to sell 40 acres of his quarter section to Mr. Cheney. Consideration one hundred dollars per acre. Last Thursday evening a small party of Kimberly's young folks invited C. T. Newberry bachelor auctioneer, where he found them in possession on returning from his work. He did not return the invitation but seemed rather to enjoy it and was heard to say during the evening that he "wished his birthday came three times a year and every year was leap year."

Two Sets of Delegates Will Demand Admission to Convention. Brant, Idaho, April 27. The primary election, general and special excitement in town Monday. The editor of the Pioneer, who opposed the proposition for the election, came out with a ticket with "no" on it as a delegate, which caused trouble, all the other candidates for delegates being satisfied with the judges and announced the vote at 5 o'clock, the vote said from 1 to 5 o'clock, so that the Republicans took possession of the polls and held an election, electing an entirely new set of 11 delegates, and conducting the election according to the laws and making proper returns. There will probably be something doing at the county convention next Saturday, when two sets of delegates appear. L. N. Clark of Colorado is here visiting with the Lalle family south of town who are old friends of his. He will buy land and locate here. Andy Wilson is the proud father of a seven pound boy, which arrived at his home Saturday morning. Mother and child doing well, and Andy can't say a word but what will you have. John Havlock of Twin Falls is out on his last load of Bull, going up. Mr. and Mrs. M. J. Swesley were in Saturday and Sunday. W. D. Cole came down from Filer on Sunday regarding that evening. Mrs. M. E. Edge, mother of Mr. J. W. White and his daughter Miss Grace Edge, were visiting in Hild Sunday. A B. Hinchelbush came down Tuesday from Filer and gave a lecture at the school house that night. Mr. and Mrs. Wilson arrived here Saturday from Walla Walla, Wash., and will farm on their land south west of town. Many will remember Mrs. Wilson when she was here a year ago, as Miss Stella Nixen. Peter Shank left here Tuesday for Grand Junction Colorado and will return in about ten days with a car load of horses and household goods. Pat Lynch who owns land here returned Monday from North Idaho. He has been gone some time and was in Idaho and other mining camps in Nevada. John Henderson of Pittsburg Pa. is in Hild looking over the country. J. W. and C. A. Anderson of White Sulphur Springs, Montana were here Monday looking at land. J. M. King, Boise; C. E. Lloyd, Logan Utah; Barney Stayner, Chicago; J. W. Smith, F. W. Penfield, H. B. Frazer of San Francisco registered at Hotel Hild Monday. John D. Haughey and B. S. Weaver of Castle Ford were in town Monday. Hobt. N. Bell, State Mine Inspector was in Hild Monday and Tuesday looking after his investments near here. H. O. Miller came down on Tuesday night a few days with Dave Ford and family.

Said bids to be submitted to be on per cent basis for man and team with the option of additional teams and a man each. Territory to be sprinkled to be designated by the council. Sprinkling wagons and water to be furnished by the city. The right is reserved to reject any or all bids. BY ORDER OF THE CITY CLERK. APR. 16. 1908. W. J. GIERLE.

CANAL TURNED OVER. North Side Settlers Receive Completed Section. The state land board at a meeting April 24th authorized the turning over of the first section of the Twin Falls north side canal to the operating company to be organized by the settler from the 30,000 acre tract of the north side segregation first thrown open to entry. The water was turned into it at 11 o'clock March 23, when Governor F. B. Steiwer, President Kahn, members of the state land board and many of the officers and directors of the company were present at the celebration which marked the opening of the first irrigation season for the north side Twin Falls tract. Although the board authorized the turning over of the canal to the Twin Falls North Side Land & Water company to the operating company the action is not exactly the final turning over of the tract for the regular water users as acceptance of the work of the construction company by the state. The action of the board was in accordance with the recommendations of State Engineer James Stephenson, as follows: "Knowing the situation as I do I can say that in my opinion your honorable committee has acted in a most judicious manner in its conduct with the provisions of the contract with the Twin Falls North Side Land & Water company as well as in the turning over of this system at this time for the purpose of operation. I would recommend, however, that such action should properly be taken."—Statesman.

The Creamery Failed

Whenever a cooperative enterprise fails to prove a success the opponents of the cooperative system hold up their hands in apparent horror and remark...

Three or four years ago the business was in a flourishing condition and the future of the creamery seemed very promising...

The creamery is foundering in conditions as they have existed and now exist in that locality...

The creamery board put up with this for some time but finally they were badly disappointed for the faithful service...

They made a serious mistake. Business success is not attained by such methods...

We can draw a moral from the fall of this one prospective creamery...
