Salmon River Opening Surpasses Expectation of Company.

Between Six and Seven Thousand People Attend Opening

First Numbers Drawn by Out-of-Town Men—Heavy Rainfall Fails to Abate Interest of Large Crowd who Have Strained Accommodations of this City.

Undaunted by the heavy downpour for twenty four hours previous to the drawing and which rainfall continued for some time after the drawing had begun, over three thousand people gathered about the platform where rested the churn—with the chub which were to bring joy or disappointment to the awaiting crowd. It was a good natured crowd too, despite the irritating effect of the cool wind that made necessary the use of overcoats for nearly everyone. There was but little enthusiasm manifested in the success of the fortunate holders of the first cubes drawn.

The investment company had advertised the drawing to begin promptly at ten in the morning and long before that time the arrangements were completed for running out the numbers from the churn in which the registration numbers stamped on wooden cubes had been placed. The platform where reposed the churn was at the rear of the vacant lots and space between this and the side walk was filled solidly with the spectators, part of whom were able to obtain shelter under a tent improvised for the occasion. The churn and the drawing were in charge of S. H. Hays, counsel for the Salmon River company, Miss S. A. Belle Chambliss, and Secretary of State, Robert Landrum representing the state with George A. Day who read the numbers drawn from the churn by Max Milner. Every precaution had been taken by the company to make the drawing fair in every way and they succeeded admirably.

At ten o'clock S. H. Hays in a few words informed the assembled crowd the method of drawing and filling. The churn with the cubes was given a vigorous whirl and the drawing began. No. 91 of registration was the first to be drawn and its holder, O. C. Paulson, of Greeley, Colorado, rited on a hundred and sixty acres.

The drawing proceeded rapidly and with no confusion, the numbers as drawn were offered upon the blackboard above the heads of the spectators, where each man could see plainly and as the registration number, was called the one holding the receipt for that number proceeded to the platform to have the drawing number placed upon his receipt.

At the shed a busy lot of officials

from one end of the long building to the other kept the men desiring to see moving along as their receipt passed from the plat engineer to the final group of officials representing the Salmon River company, who had their table near the front of the building. Up to the close of the filling, Monday night over 30,000 acres had been filled upon.

The first hundred names coming out of the churn are given below:

FORM TELEPHONE SYNDICATE HERE

Twin Falls as Center of a Perfect System.

M. MURTAUGH WILL PUSH THE FINANCIAL END

Exchange System for Bull, Wendall and Jerome—Farmer Lines to Be Installed at Earliest Opportunity.

A business deal of magnitude was consummated last night when a number of local capitalists headed by Mark Murtaugh secured of the Bell Telephone company concessions giving them absolute control of the great territory embracing all of the Twin Falls irrigated tracts, the Minidoka project and the Bruneau scheme. The Bell company has also granted them the right to connect with the best long distance service which embraces the entire northwestern states. The company which will organize tomorrow will make its capital stock \$300,000 and it is their intention to put in exchanges at Jerome, Wendall and Bluff and as fast as possible to put in lines for the ranchers on all of the tracts covered by their concessions.

The Twin Falls exchange, which passes into their control will be improved and connected with all of the farmers lines giving the merchants an excellent opportunity for reaching their country trade, and will prove a great convenience to the farmers as the rural routes are established. Mr. Murtaugh will have charge of the financial end of the deal and will make his home in Twin Falls, where he is well known and highly respected. His name connected with the proposition should be a guarantee of the success of the venture. Mr. Murtaugh has been in charge of many large ventures in this country and in South America and is the man carrying out the financing of the present proposition. With him will be associated H. H. Vogeler of Salt Lake and in the mechanical end will be Walter P. Burgess, who is well known

all over the east as a telephone expert. Mr. Burgess will move his family to Twin Falls and will devote his time to the superintending of the entire scheme. His experience has been gained in many lands; having been engaged by the English government to put in the telephone system for the city of London, and having been engaged by the city of Chicago to investigate the telephone system of European cities. Mr. Burgess is a thorough worker and it is probable that the new corporation shall have nothing but the best.

The territory embraced in the concession is bounded on the east by a line running due south from Minidoka to the Nevada line. The north boundary will be the main line of the O. S. L. and its west end of the territory will terminate on the western boundary of the state, while the state line of Idaho and Nevada will comprise the boundary line on the south. Work on the Jerome, Wendall and Bluff exchanges will be commenced at once and the farmers lines as soon as the matter is put up to them and they express a desire to have the service.

A KNIGHTLY HOST TO CONVE

State Grand Lodge, K. of P. Convenes Tuesday.

PROGRAM PREPARED WILL KEEP VISITORS BUSY

Twin Falls Knights Will Be Aided by the Citizens of City in Entertaining the Visitors.

The following program has been arranged for the reception of the Grand Lodge of Knights of Pythias, which will convene here next week. The special train bearing the representatives will arrive Monday and will be met by the reception committee, headed by the chairman, W. E. Nixon, with the Twin Falls band, who will escort the members to the hotel. Monday evening a reception will be tendered the members of the Grand Lodge and the Pythian Sisters at the Auditorium by the Twin Falls Lodge.

Tuesday the Grand Lodge will hold two sessions, in the morning and afternoon, at the auditorium. Tuesday evening the Pythian club will give their play, "Novena" for the visiting members only.

Wednesday the Grand Lodge will be in session in the morning and afternoon. Wednesday evening, the D. O. K. K. will convene in the K. of P. hall.

Thursday afternoon at one o'clock carriages will be in waiting to take the representatives and visitors to the Shoshone falls, Blue Lakes and other places of interest.

SPLIT UP OF DEMORATS

Anti-Mormon Plank Proves a Dividing Line for Democracy.

Ex-Senator Dubois Secures Control and Elects Delegates to Denver

Contests in Blingham County, Aired in Convention—Perky and the Ada County. Attorneys Bolt Convention—Hold Ramp Convention

Three special train loads of Jackson, Jefferson and Bryanite democrats invaded the city of Twin Falls on Tuesday and have had possession every since. They are not a practical lot at all but nevertheless have stolen the affections of a large number of our citizens who are supposedly Republicans, for it is almost impossible to find a republican place the convention has struck town. The first train to land at Twin Falls was a special from the Idaho Falls branch of the Short Line and they made a sojourn showing as headed by the Pacatello band they marched up Shoshone street with varied banners to show their contempt for the Mormon members of the convention and party. Several transparencies advertised the Capital News as the Mormon mouthpiece while a large number bore striking references to the polygamous practice of the church.

The parade wound its way to the opera house where the members disbanded to seek hotel accommodations and their dinners. The last speech which contained the anti-Dubois crowd came in about six and began to get busy with their organization. They were supported with a band and made a goodly showing in the march up the street.

Tuesday evening was devoted to caucuses of the opposing delegations and in planning for the various committees and for seating arrangements in the hall. Circles were quietly gotten out by the anti-Dubois crowd and passed around among the delegates, the circulars claiming that the decision of the supreme court was the quietus of the whole Mormon question. Judge K. I. Perky of Ada county headed the pro-Mormon delegation.

The forces of the Anti's were under the personal leadership of Ex-Senator Dubois, who has been so bitterly maligned by the pro-Mormon branch of the democracy. Mr. Dubois has entered into this campaign with the same zeal that has characterized his campaigns in the senate and a close contest is expected when the convention assembles.

Wednesday morning the two factions were very busy arranging their fighting strength and measuring up that of their opponents. From what took place in the afternoon it was evident that a definite line of action was determined upon and that the bolting delegation had fully mapped out their

course of action in case of the Dubois forces gaining control and it was carried out to the last detail when the contest came in the afternoon. As it developed later in the convention the bolt was deliberately planned and was not the spontaneous outbreak of outraged decency the faction endeavored to show it.

The state central committee had its session in the morning and made some plans for the coming campaign and endeavored to, if possible, to bring about some method of conciliating the opponents. Wednesday afternoon the convention began its work with the seating of the delegations. Here the first signs of aggression were made by the Ada county attorneys who began making complaints as soon as they entered the building on the place given them and demanded an alphabetical arrangement of the delegations. It was necessary for the local committee to clear the hall and seat the delegations one at a time in order to allay the fighting propensities of the aggregation. Blingham county had two delegations present demanding admission to the convention and this fact had evidently put the two factions on their mettle to see which should be seated as the contest foreboded a showdown.

Wednesday morning the two factions were very busy arranging their fighting strength and measuring up that of their opponents. From what took place in the afternoon it was evident that a definite line of action was determined upon and that the bolting delegation had fully mapped out their

The republican party, under the leadership of Brady did not repudiate at least half of its pledges. The party deliberately lied last year to the people. Brady dare not deny it. No republican in the state dare stand up and dispute it. It is a cold fact and lying without a single reasonable excuse in justification of the disgraceful, shameful, betrayal of the people, how can any self-respecting republican condone it? How can any honest citizen overlook it, and endorse it? The Troy News is a republican paper. Its editor is a republican and our record as a worker in the ranks of the party cannot be questioned. But never, while we retain one spark of manhood, and have any interest in good government, will we condone or endorse or support those who have once betrayed the people and brought disgrace upon the grand old party. Troy News, Republican.

A MENDACIOUS REPORT
We have paid no attention to the president running. Mr. Roosevelt is secretly but sedulously contriving to have his name presented by the Republican Convention at the physiological moment, his nomination carried by acclamation, and the honor, thrice declined, forced upon him against his will. Whatever Mr. Roosevelt's faults, lack of frankness is not one of them. He is a hard fighter, but he fights always in the open. He is temperamentally outspoken, and would be incapable of either devising or executing so dishonorable a scheme. That some over-zealous friends of the kind of friend from whom one may well pray to be delivered, have apparently been ready to applaud the

scheme given no color to the charge which is foisted upon him. It is his enemies, not his friends, who would seek to destroy his good name and his future influence by attempting to induce him to falsify all his protestations. That four years from now he may be a candidate and a successful candidate for the Presidency is among possibilities; but it is not among possibilities that he would accept a nomination this fall though it were tendered to him with untold millions. We venture to prophesy that Mr. Taft will be nominated on the first ballot; that if he is not nominated on the first ballot, there will be no stampeding of the Convention; and finally, that if the Convention should stampede, and Mr. Roosevelt nominated, he would, as he should, promptly decline the nomination.---The Outlook.

The claim of the Capital News that Mr. Taft was made the choice for the convention because of his anti-Mormon sentiment is rather ill timed coming as it does after the Ada county delegation had fully accorded in the selection of this city at the meeting of the state central committee. The claim that this section is strongly anti-Mormon was the only bit of truth manifest in the Capital News record. Twin Falls county does believe there is a political side to the Mormon question and that belief is not confined to the ranks of the democratic party and in case the anti-Mormon plank is inserted as the major portion of the voters desire it will mean a larger vote for the Union and national ticket than ever before. The question is one for the scheming politician to decide whether the Democracy of this state declares for the purity of the home, but for the freholders of that party, a few disgruntled, would be office holders from the capital of the state seem to have the idea that it is not a case of direct, vital representation of the people in the affairs of the state, and in the harmony of the states makes up the nation, such as the people have never yet had in the life of the republic.---The Literary Digest.

A HOUSE OF GOVERNORS.

It is proposed that the governors of the forty-five (now forty six) states meet annually for a session of two or three weeks to discuss, consult and confer on vital questions affecting the welfare of the states, the unifying of the state laws, and the closer unity of the states as a nation. The House of Governors would have no law making power, nor should it ever aspire to such power. Its force would be in initiative, in inspiration, and in influence. The governors would seek to unite on a general basis of action on great questions to be submitted to the legislature of the respective states in the governor's message. It would seem that an august, dignified body of forty-five governors representing their states with the lawmaking power of forty-five legislatures behind them, should in time become an inherent part in the American idea of self-government and a powerful factor for good in the nation.

In the congress of the United States the senators, chosen as they are by the state legislatures, nominally represent their states, but in fact have no direct voice in their selection. The members of the House of Representatives do not represent their states, but simply districts of their states. With ties to their constituents and with duties and obligations to them, they may in theory have the interest of the entire state as a matter of paramount importance in their hearts, but in fact they never lose sight of finally of value in the congressional district. The governor of the state, however, is elected by the people, is directly responsible to the people, and is in constant touch with the people, keeping his fingers close-pressed on the pulse of their needs and problems. The voice of the governor, therefore, in the proposed new house means a new direct, vital representation of the people in the affairs of the state, and in the harmony of the states makes up the nation, such as the people have never yet had in the life of the republic.---The Literary Digest.

The criminal element in every community is ever on the lookout for more liberty in its efforts to prey upon society. Slight infringements of the law which pass unchecked only serve as an enticement for a more open and bold transgression of the laws for the government of humanity in its relations to the individuals. Every town and city has its criminal elements ready to make license of lib-

erty. Every town has its abettors of the criminal offerings. These two factions together constitute the enemies of society and good government. The evil that these two can do is only measured by the extent to which public opinion is silent when they first overstep the bounds of the law. If when that first lawbreaking step is taken, an outcry from the law-abiding class arises, then the criminal and his sympathizer shank away to await the subsidence of the outcry. On the other hand if the overt act passes unchallenged the encouragement for the next is given and it is only a short time until the community is controlled by its worst element and a wide-open town results in which vice flaunts its crimson colors in the face of purity. Where lies the fault? Is it because people as a whole like a crime burdened city? Rather it is because of the lack of moral back bone of the better class of society. In every community can be found business men of respectability, men who would not do a mean or criminal act and who pass as the standard of citizenship. It is to this class that the open town and the unbridled vice can be directly traced. It is to their hidden yet none the less clear sympathy with the law breaker that the responsibility for the supremacy of the evil element in any community can be traced. The business man who for commercial or business reasons will shut his eyes to the violations of the law by the saloon or the prostitute element is merely laying his good name and citizenship on the altar of greed. The man who says by his action that his price is measured by the trade he can get from the wrongdoer is just as surely adding his influence for impurity as the lowest type of degraded humanity. The misliver who toadies to the man of the above class because of his donations to the church is merely adding his influence to the force that will sooner or later crumble the structure of righteous government. The man or woman who makes outcry against Sunday baseball and refuses to allow his employees to get off on a week day to see a week day game is not adding to any great extent in doing away with Sunday baseball. To just the extent that any citizen backs up his professed love for law and order by actual aid in building up public sentiment against viciousness can he be called consistent. It is a fair question to ask any man whether he is on the side of right and decency or on the side of vice when it comes to the question of his own community and

this city of Twin Falls. Will each man endeavor to make this little city what it by rights ought to be, a truly American city in which every man has equal rights and where each man is made to obey the law regardless of creed or political pull?

The spectacle presented to the people of this state and more especially of this city is a great deal like the Kilkenny Cats or the Donnybrook Fair. It only lacks the briar shilleghans and the bravery that to be complete. It was a disgrace to the party and the end seems scarcely to justify the means used by both sides. Luckily the principles involved outweigh the significance of the petty squabble.

The Flier Films, one of the best printed and ably edited of any of the newspapers coming to our exchange table appeared last week and is a credit to the editor, Mr. Hewa, and to the busy town of Flier. The Times wishes to congratulate the citizens of that place on its home printed product and wish Mr. Hewa success with his new publication.

The O. S. L. railway is certainly to be congratulated by the people for the way it came to the rescue during the land opening in this city, and provided sleepers and diners to assist the city in caring for its guests. With out the aid of the railroad a number of visitors would have had to spend the night in the streets.

The Flier Films has won a reputation although not a week old, Mr. Hewes, the editor, deserves not only a visit amount of glory, but the support of all Filer and the community for we have a paper to be proud of and let everyone stand by it, great and small. Subscribe for it, and don't be slow, you need it, in your home.

Frank Allen, Filer's bank cashier, has had many friends in the first week showing a number of his Michigan friends over the Twin Falls tract.

Mr. Allen has been entertaining the following Michigan gentlemen at his home in Filer: L. E. Lowry, C. E. Fousel, F. E. Beatty, T. W. Watt, A. K. Lanning, F. L. Galloway, A. A. Quinn, J. Keith and Geo. W. Hartson. Every member of the party was more than pleased with this great country of ours, regardless of the few bad days that was "rained" to us at this time which means many a dollar in the rafter's pocket. All of the party will locate here or nearby.

Miss Dingenen will take a limited number of pupils in shorthand and typewriting. Office with Twin Falls Transfer Co. May 28th

CANADA

The land of the golden harvest—the golden opportunity. The Canadian Pacific Railway is opening for settlement three million acres of choice lands in the famous Bow River Valley.

The quality of this soil cannot be surpassed. The climate is mild and delightful, the water-right is the best on the continent; the market for farm products the best in America.

We can sell you an irrigated tract, a winter wheat farm, or a large grazing tract at prices that are exceedingly low and on terms to suit.

For particulars and railroad rates, address

CRAPO & ROBINSON,
ST. ANTHONY, IDAHO.

BUILD.

R. J. Nuttall, H. Spall and J. I. Stone of Salem, Utah, were land seekers here Monday.

W. O. Thompson, of Rexburg, is the new manager of the Consolidated Wagon and Machine Co. here.

F. K. Thurlock and Dr. H. C. Robinson of Cincinnati, Ohio, were in Buhl Tuesday and bought lands.

Chas. Wherry from Washington is here visiting with his friends. P. G. Chamberlain a few days this week.

Geo. Dunn left here for North Yakima Thursday where he will make his home. We are sorry to lose him but wish him good luck where he goes.

J. A. Howard has sold his interest in the Talley & Howard saloon to his brother Bruce Howard and he will go to farming again. He says he likes farming better.

W. B. Colthorp and R. L. Connors of Hagerman were in Buhl Monday to the interest of their telephone line from Hagerman and Wendell to Buhl. They promise to commence work at once.

F. C. Marqueson, of Heppner, Ida., was here Saturday and Sunday looking after his land interests. His farm joins the Hagerman farm on the south and he would not sell at any price for 10 years.

Dr. J. G. Gathers, J. Petermichel and W. A. Collier of Valparaiso, Nebraska, came down to Buhl Tuesday and each bought 80 acres on Wednesday. They bought these places for homes and will come to live here some day.

Judge F. E. Chamberlain in company with a friend of his, Dr. W. E. Young of Marysville, Idaho, were in Buhl looking over some land buys. The Doctor will come again and promises to try some of our dust at that time.

The following were land seekers in Buhl this week all of which bought land: H. A. Corrie, J. A. Johnson, of Baker City, Oregon, Dr. Duckett, and J. E. Smith, Chicago; A. R. Wilcox, Minnisk, Minn.; and T. E. Pickett, G. R. Mann of Olympia, Washington.

M. M. Albrecht of Bligham, Utah was induced to go to Buhl on Tuesday and look at lands after he had not succeeded in getting a good number on the Salmon tract, and he says we have the finest country he ever saw. He bought the blacksmith business of Heath & Bennett and will return here in 60 days with his family.

New Shoes.

The newest novelties in ladies shoes Oxfords and pumps are to be found at Booths Dry Goods store. Mr. Booth is supplied with an extensive line of shoes and is offering some exceptional values in Oxfords—some \$3.50 Oxfords in styles up to date styles are on sale at \$2.50 and others in proportion. The Booth store has extensive sale of Ute and Dunn's Rochester, N. Y. shoes. The best quality and lowest line made. Bargains are offered in children's shoes this week making a cut of 25 to 50 cents per pair.

Glove Lost.

On the street Saturday evening, a long, tan, band glove. Finder will be suitably rewarded by returning it to this office.

Wanted.

Late Monday afternoon, owing to the desire of a number of those interested but who did not wish to file on land, to leave the company opened up temporary quarters in the warehouse at the rear of Perrine and Burton's store and as fast as the applicants presented their receipts, the certified checks given at the time of registering were returned.

The papers which give the man filing on land his water contract will have to pass through the Miller office of the company from whence they will be sent to the entryman at his postoffice address.

SPLIT UP OF DEMOCRATS.

(Continued from first page.)

to a vote after each man had become winded and could filibuster no longer and the vote stood McKinlay 145, Perry 132 and the Twin Falls man was placed in the chair. Seeing that he had lost out the Ada, Canyon and Elmore county delegation with scattering members from other counties, after holding their rump convention in one corner of the hall, bolted and left the convention. From this time on the convention with the Dubois men in control, proceeded quietly to appoint the following committees from which the bolting counties were excluded:

Committee on Organization and Order of Business:
Bannock, W. H. Pock; Bear Lake, E. Anderson; Bingham, Ben. R. Hadden; Blaine, F. M. Bonner; Bonner, S. P.; Donnelly; Boise, L. R. Walter; Cassia, W. L. Searns; Canyon, Clay Vance; Fremont, C. W. Wyman; Idaho, E. M. Griffith; Latah, Jerome J. Day; Lincoln, Bert Bowler; Lemhi, W. M. Mulkey; Oregonia, W. W. Jones; Shoshone, C. H. Jackson; Twin Falls, T. D. Conner; Washington, B. L. Burtenshaw.

Committee on Credentials:
Bannock, W. H. Pock; Bear Lake, E. Anderson; Bingham, W. A. Berkeley; Blaine, Ben R. Gray; Bonner, S. P.; Donnelly; Boise, L. R. Walter; Canyon, L. R. Wertz; Cassia, O. R. Hale; Custer, J. N. Hannahan; Fremont, B. W. Hopkins; Idaho, L. Vinyard; Kootenai, Earl Sanders; Latah, R. M. Wale; Lincoln, Thomas P. Noy; Nez Perce, Geo. E. Erb; Oregonia, W. E. Frost; Owyhee, J. C. Conner; Oregonia, W. M. Burke; Shoshone, John H. Wormes; Twin Falls, P. W. Monahan; Washington, Frank Harris.

Committee on Resolutions:
Bannock, A. C. Anderson; Bear Lake, E. Anderson; Bingham, E. M. Holden; Blaine, R. B. French; Bonner, S. P.; Donnelly; Cassia, W. N. Searns; Custer, M. D. Kiger; Fremont, C. H. Moore; Idaho, L. A. Winer; Kootenai, T. L. Quarles; Latah, J. W. Leuland; Lincoln, S. C. Hixler; Nez Perce, Geo. B. Erb; Lemhi, W. C. Whitwell; Oregonia, W. T. Oliver; Shoshone, Tom Henry; Twin Falls, J. E. Davies; Washington, A. L. Freehafer.

A recess was taken until seven-thirty in the evening.
At seven-thirty the assembly gathered and listened for some time to the minority efforts of the Pocotello band who helped all through the evening to liven up the spirits of the crowd.

Hon. F. T. Dubois appeared upon the stage at this time and received an ovation which certainly was unusual and hearty and showed that he had a strong hold on the loyalty of his followers. In a brief address he spoke of the work which is nearest his heart and delivered in a straight, forward manner the following:

Mr. Chairman, gentlemen and ladies:

We will now have the first harmonious and democratic convention that has ever been held in Idaho since the Mormon church moved over into and took possession of the Republican party. (Great Applause)

You know that in 1902 when the subject was not mentioned in the platform of any party, when the Mormons were not referred to by any public speaker of the state, when I was not a candidate for office, having been elected two years prior to the Senate with no excuse the Mormon apostles were called to South Eastern Idaho, and instructed to vote the Republican ticket, and they voted it. I recall when D. L. Evans was a candidate for State Senator from Owyhee county, he was at that time five or six thousand majority Democratic. When I reached

that county D. L. said, "We will be beaten. The apostles have been in the eastern part of the state instructing the people how they should vote." D. L. was a Mormon. (Great applause)

During the legislature of 1903-4 when Mormonism was not an issue J. H. Smith, a polygamist apostle of the Mormon church in Utah went to Boise and had passed a resolution through the legislature, and it passed unanimously, such was their power to have the lost taken out of the constitution of the state. They intended to put us completely under the polygamist banner. And at that time the Democratic party of Idaho rebelled.

At a meeting of the Democratic State central committee during the campaign of 1904, attention was also called to the fact that that same legislature passed a bear sugar bill by which the Mormon church was given one-half million dollars, and the republican party had not had the courage to say it.

We insisted that they should take the test oath out of their constitution. A resolution had been passed unanimously, but when the Democratic party attempted to have it enforced, the Attorney General of the state of Idaho ruled that the resolution had been improperly passed, and they would not submit to it. The Attorney General of the state of Idaho would not have made this ruling had he not known that the people of the state would not take the test oath out of the constitution. I say this advisedly because the Attorney General at that time was a Mormon. The Attorney General, the highest officer-judicial officer—four years ago, while holding that high office took a new polygamist wife. We think that that law should be passed and enforced.

The Supreme Court of the state of Idaho ruled that the test oath is self-executing, self-operative. They tried at the polls to put the test oath to the Mormons, and they arrested the challengers and put them in jail. They will not do that under the ruling of the Supreme Court. The Mormons will not take the test oath. They commit perjury when they take the test oath and they know it. Not one of them but practices plural and celestial marriage. That accounts for the fight witnessed in this convention here today. I regret our departed friends have taken their leave so early. They have fought us every since our party has taken the high ground which it now occupies. We have done here today what will be flashed over the wires throughout the length and breadth of this great country of ours tonight and there will be good men and women who will applaud and say, "We thank God for the protection given our American homes."

"They claim that we cannot win with out the Mormon vote. That makes no difference to this assembly. (Great cheering) There is something higher than winning an office. We are met under the great commonwealth of this country, and the American people entrusted to us safe guardianship of this great heritage. It is our duty as American citizens to do so. It is a pleasure to talk to men actuated by the higher principles which guide you, but I want to mention in a personal way that I have been more than amply rewarded for anything I have done. I have lived in Bingham county for twenty-eight years and in the village of Blackfoot for twenty-eight years, and it is sometimes said of me that I am a pretty fierce fighter. At any rate during the 28 years in my county of Bingham there is not an American citizen who has not been with me in the fight, and no higher reward than that. If the Mormon claim that I will abandon the men and women in

the south east and turn them over to this polygamist outfit, they have studied my character in vain. I thank you.

C. H. Jackson of Shoshone county was then called on for a few remarks and responded in a happy vein and showed that he was the master of oratory and a worthy follower of the Commissioner. He was followed by W. A. Beakley of Bingham, who at the request of the chairman told of the contest in Bingham and how that the second delegation had never published their call for a county convention, but had gotten together in a back room and selected men to come to the convention and contest the seats of the regularly elected delegates.

The chairman then called for the report of the committee on credentials which was read by the secretary, here Mr. Erb of Nez Perce county arose and stated that the report called for the vote of the 21 delegates from his county, and as they had all bolted but himself, he did not care to cast but one vote and that one his own. Mr. Span of Boise county also said that part of his delegation had left the convention and wished to know how many votes he would be allowed to cast. The convention granted him the right to cast three and one-third votes, after which on motion the report of the committee was accepted. The report of the committee on permanent organization and order of business then reported and the report was adopted as read. C. E. Davis of Latah, was on recommendation of the foregoing committee elected as assistant secretary.

The report of the committee on resolutions was read by Attorney A. L. Freehafer of Washington county and the report follows:

The platform of the State Democratic Convention held at Twin Falls, June 3rd, 1908.

We, the representatives of the Democratic Party of the state of Idaho, in delegate convention assembled in the city of Twin Falls, do hereby renew our allegiance to the doctrine of equal rights to all, and special privileges to none, as enacted and practiced by Jefferson, Jackson and Bryan.

In view of the early meeting of the

National Democratic Convention at Denver, which will present the platform of our party on all national questions, and implicitly trusting to the wisdom of that body for a declaration of Democratic principles, we forego any extended announcement on national issues.

We favor the revision of the tariff by men not prejudiced by personal interests; the election of senators by popular vote; the enactment of a national income tax and inheritance tax law; the effective control of trusts, and that effective control be added to and not substituted for state remedies; the Postal Savings Bank; we believe in the Democratic idea of guaranteeing bank deposits as successfully done in the Democratic state of Oklahoma; we favor the eight-hour day law; we believe in and favor every legitimate means for the adjustment of disputes between corporate employers and their employees, in the end that justice may be done to those who toil and that society may be relieved from the embarrassment occasioned by prolonged strikes and lockouts.

We hereby and enthusiastically endorse the presidential candidacy of Wm. J. Bryan, and instruct the entire Idaho delegation to vote for his nomination at the Democratic National Convention, first, last and all the time, firm in the belief that his nomination will insure an overwhelming national victory at the polls in November.

Believing that it is the province of the state nominating convention to formulate our state platform, we refrain from any extended review of state issues at this time but we favor the initiative and referendum in state and local matters; a direct primary election law; an anti-pass law for public officials and an effective grain warehouse commission law.

We demand a complete separation of church and state and denounce any and all attempts at church dictation and interference in the political affairs of Idaho.

We demand a literal enforcement of the provisions of Section 3 of Article 6 of our state constitution re-

lating to suffrage and the enactment of any laws that may be necessary for its effective operation, and we instruct our delegates here elected to the Denver convention to vote for the adoption of a plank in our national platform favoring an amendment to the constitution of the United States prohibiting polygamy and unlawful cohabitation.

The reading of the report brought Mr. Erb of Nez Perce to his feet with an amendment to strike out the later clauses pertaining to the Mormon plank and the amendment was put over to the convention with the result that 213 votes were cast against its withdrawal with two exceptions were in favor of the much contested plank. The original motion to adopt was subject to two changes as it passed the critical gaze of the Dubois crowd. One adding to the clause concerning polygamy the words unlawful cohabitation, and adding to the instructions to the national delegate the instructions to vote and work for tyrant, first, last and all the time.

The nomination for delegates to the national convention at Denver resulted in nine men being placed before the convention. Fred T. Dubois of Bingham, Henry Helfelt of Nez Perce, W. H. Beekley of Washington, E. J. Colman of Bingham, H. W. Lockhart of Bannock, Charles H. Jackson of Shoshone, Thomas Tim Regan of Ada and Harry L. Day of Shoshone. Ex-Senator Dubois and Helfelt were greeted by acclamation and on motion the remaining four delegates were greeted for as the roll call by counts was called and the following four men received the highest votes: Harry L. Day, 191; Tim Regan, 176; Charles H. Jackson, 176 and W. H. Beekley, 118 and were elected.

The alternates were then elected from the convention: E. P. Colman of Bingham; H. W. Lockhart of Bannock; William Hunter of Latah; J. H. Green of Custer; Milton Cagle of Ada; W. H. Babcock of Twin Falls. Speeches were then made by some of the prominent democrats and the convention adjourned.

HANSEN HAPPENINGS

Hansen June 12, '08
Mrs. Ed. Smith and family took the train today to join her husband at Filer.

The frame is up for the new house on the Judge Sweeney place, now owned by Mr. Fale.

W. T. Hargrove and O. M. Banta were the latest to secure fish and game license of Justice Crator.

"The trickle of the raindrops on the shingles," is a familiar sound these days and our farmers and gardeners are taking a rest from irrigating.

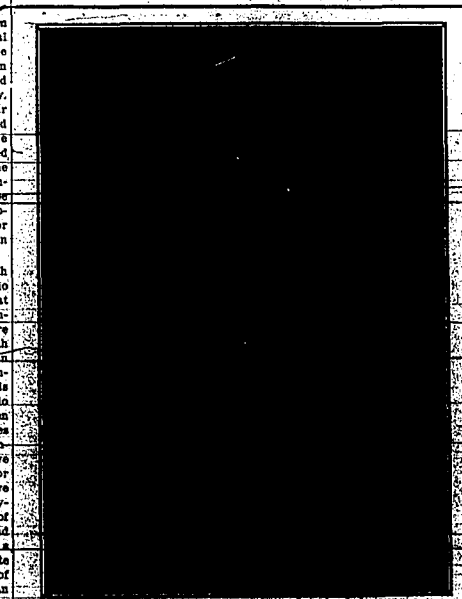

"Real estate" have been plentiful in this region and our stall farm horses are getting used to the honk of the automobile.

G. E. Noble, State Veterinarian, made an official trip to Hansen on Thursday, called by G. W. Crater to inspect a cow suspected of having tuberculosis. No trace of that disease was found, a ruptured ligament being the cause of the poor condition of the animal.

Mrs. John Nichols has been quite ill, with fever.

Mrs. Arthur Babcock has so far recovered from her recent illness as to be able to return to her own home. Mr. Robert Taylor, who recently was called east by the serious illness of a brother, has returned bringing his brother and family with him to the health giving climate. They will reside on Mr. Taylor's ranch north of Hansen.

WILL PUT ON NIGHT SHIFT

Kimberly Electric Mills Have More Orders Than Can Be Supplied.

Kimberly, June 2nd, '08. A. O. Marton made a flying trip to Caldwell last week on business.

Geo. Baker, assistant cashier of the Payette National Bank is in town.

Messrs. Strodehn and Amann, of Payette are in town looking over the country.

Several of the Kimberly boys were taking the "Dunay Degree" in Woodcraft last Tuesday night.

Sunday morning A. S. Soule received the sad news of the death of his father at Emmett. He left on the night train for that place.

The Electric Mills are contemplating putting on a night shift to enable them to fill the large orders that are coming in every day.

The Odd Fellow and Woodman Hall company, have placed a piano in the hall, which will be of value to them in their efforts to entertain.

Men employed by W. H. Thomas, manager of the Kimberly Townsite Co., to set out trees over the town have almost completed their work.

J. A. Harter identified with the Kimberly Real Estate Agency arrived from Payette Thursday and will probably remain during the summer.

Kimberly has a Commercial club that is hard to beat, every member has his shoulder to the wheel and is willing to push. Watch the results of the club.

Our town was enthralled the past week by a goodly number of visitors all of whom stated that they were favorably impressed with the country.

W. H. Thomas made a trip to Payette last Friday on business, and while there attended the commencement exercises of the class of '08, of which his daughter was president, and valedictorian.

The game which the local baseball team had scheduled for Sunday with Hammon, was called off on account of wet ground and the Kimberly team was robbed of the revenge of which it was so sure.

Contractors were quite numerous in town Saturday, as the contract was to be let for our new school house on that day. The deal is not settled yet, but quite likely a Boise man will get the contract.

Kimberly will soon boast one of the finest churches on the tract, work having been started the past week on the M. E. church. A sufficient force of men will be put on so as to complete same in 30 days.

A. E. Wood of Payette, manager of the Kimberly Real Estate Agency, was in town the first of last week on business. Mr. Wood had just returned from an eastern trip where he has been planning for our town and community and as usual has some parties headed for Kimberly.

Our popular station agent, B. F. Hovey, has been on duty for the past 10 days in order to look over the Salmon River land and be on hand at the drawing, June 1st. Mr. Hovey is taking care of the Oregon Short Line business during his absence.

A goodly number of our people were in Twin Falls Monday attending the land drawing. "We know of two or three highly thought of men who for some reason failed to make connection with the 'G. S. train.' It is the belief here that they walked home and will be, until they convince us otherwise.

The following is clipped from the Payette Independent, and may be of interest to our people.

The Payette Valley Real Estate Agency, of which A. E. Wood, J. A. Harter and A. S. Soule are officers, is this week opening a branch agency at Kimberly to be known as the Kimberly Real Estate Agency. Mr. Soule visited Kimberly the first of the week and returned to that place again last night. He says that people are flocking to the Twin Falls

tract now by the thousands. He could find no room for an office so a large tent has been purchased and will be used for an office until a building can be erected. The company has the agency for the Kimberly townsite.

Commencement Week at Normal:

Announcements are out telling of the graduation of the Albion State Normal school class of 1908. The following program is announced for commencement week, June 6 to June 10:

Saturday, June 6, 8 p. m.: Training department exhibition; cantata.

Sunday, June 7, 8 p. m.: Baccalaureate address, President Axline.

Monday, June 8, 8 p. m.: Annual exercises of literary societies.

Tuesday, June 9, 8 p. m.: Class day exercises; class play 10 p. m.; Alumni banquet.

Wednesday, June 10, 8 p. m.: Commencement. Charles L. Chalfant, commencement orator; 10 p. m.: Alumni reception.

The Police Draw Net.

On Sunday night, Richard Harding, was arrested for trying to make a target out of the electric lights that were being across Main avenue, he was summoned the court costs and released on promise to be good hereafter.

A. M. Shuman was found being on the streets Thursday and was taken before his honor, the police judge, who sentenced him to 60 days on the rock pile, with the privilege of getting out of the city in thirty minutes.

Frank McElrath was brought up before the police judge Thursday last on a charge of being drunk. The court listened to his tale of woe and found him guilty, giving him 90 days or 15 minutes to leave town.

Fuses Are Made to Blow Out.

With everybody traveling more or less, usually more, the electrically driven cars and trains, the time has certainly come for general appreciation of the fact that the blowing out of fuses is nothing to excite alarm.

To be started to "jump" as the saying here is, the electrically driven cars and trains, the time has certainly come for general appreciation of the fact that the blowing out of fuses is nothing to excite alarm.

To blow out is the duty and destiny of fuses, and when they have done it such danger as there is all over. Nothing worse than delay can follow, unless the passengers proceed to make wild rushes for which there is no need whatever. Travelers should keep these facts carefully in mind—New York Times.

It Was His Friend.

"A little story in German and English, accompanied by an interpreter, drifted into the Indianapolis News office. Here it is: Two Germans stepped into an auction house where a sale of watches was going on. They occupied front seats and soon attracted the attention of the auctioneer. As he dwelt upon the merits of a watch he was offering for sale to the highest bidder the auctioneer turned to the Germans from time to time as the price mounted—\$8, \$6.50, \$7, \$7.50. As the auctioneer nodded at one of the Germans there came an answering nod, which he took to be a bid.

"That fellow knows me," said one German to the other.

"Yes, sure," said the other.

The nodding kept on. Finally the auctioneer extended the watch to the nodders. "It's yours," he said. "Ten dollars. You're the buyer."

"Ach, nein," said the German. "I'm the Schvob (Swabian), male friend bet der Bayer (Bavarian)."

POCATELLO'S POKEY GAME

Little Doing in Baseball From the Gate City.

Twin Falls is too fast for Pocatello and the fact was very apparent from the first inning of Saturday's game on the local diamond. . . .

Nine nice round pokey games were all that the visitors could take home with them in a package, but they took their medicine with good grace and played a good sportman like game all the way through without a single kick. . . .

Twin Falls with Wilson in the box played an almost errorless game and at no time did the visitors seem able to connect to any great extent with the delectable "pokey" handed by the new twirler. . . .

The catching of Chapin and the fielding of Kinney was a class to make their stay in the amateur grade of sport duration. . . .

The score at the close was so one-sided that little interest was felt. The boys did not roll up an high a score as possible. The Times was unable to get the score book in time to have a more detailed account of the game. . . .

Measuring a Spirit.

A man of St. Joseph, Mo., relates a story in connection with a spiritualistic meeting once held in that town. A man named Daniel Miller, who was some six feet seven inches in height, had died recently. . . .

The spirit of Daniel was called for by some one at the séance meeting. When it had appeared and announced its readiness to reply to any question, some one asked: . . .

"Are you in heaven?"

"Yes," came from the shade of Daniel.

"Are you an angel, Dan?"

"Yes," came from the shade of Daniel.

At this juncture the questioner paused, having apparently exhausted his fund of questions. But to the amusement of all, he suddenly added, "And what do you expect from tip to tip, Dan?"—St. Louis Republic.

Took Kindly to the Water.

They tell this story of the experience of two Maine boys in trying to catch a woodchuck. . . .

They had tried quite a number of times to capture the animal, but unsuccessfully. At last they decided to drown him out, so, procuring four pails, each took one and they carried water for two solid hours, and poured it into the hole in the ground in which the sick chuk had taken up his abode. Getting tired, they sat down. After about half an hour the woodchuck cautiously left the hole and unceremoniously walked down to the brook and took a long drink of water and then scooted, much to the disgust of the two boys.

Mexican Rapid Transit.

The newest mode of travel I saw in all Mexico was that adopted by a woman who was on her way to the doctor, seated complacently in a chair borne on the back of a man. Some Mexican women are afraid even of the mule car, while they look upon the rapidly spinning trolley with such trembling of knees they cannot be persuaded to put foot upon it. Unable to pay coach hire, they employ the human carrier at a few cents for each trip. —Travel Magazine.

Unchanged.

"I met Dunkey today for the first time in years. He hasn't changed much."

"Oh, he hasn't changed at all, but he doesn't seem to realize it."

"How do you mean?"

"Oh, he's forever talking about 'what a fool he used to be.'"

CROMWELL'S BODY.

Conflicting Stories as to Its Disposal After Death.

"What became of Cromwell?" The question is a vexed one. According to an ancient tradition Cromwell's body was conveyed away immediately after his death in obedience to his last orders and was buried on a rocky hill, where he had ordered the greatest victory and glory." According to another account, Mrs. Lady Fauconberg, Cromwell's daughter, was able to convey the body away from its grave in the abbey and to have it buried in her husband's house of Newburg, in Yorkshire, where the tomb, an impenetrable marble one, is still shown. . . .

Another corpse was substituted for Cromwell's in the abbey, and it was this nameless corpse which underwent the indignities put upon it in January, 1601, when the putative body was hanged on the gallows at Tyburn, together with those of Bradshaw, . . .

This head, still transfixed by a spike which was let through the cranium by means of a specially drilled hole, is now in the possession of Harry Wentworth of Sevenoaks. It is the head, curiously enough, of some one whose body has probably been embalmed, for the top of the skull has been saved off in order, presumably, to admit of the removal of the brain. . . .

The body to which the head belonged was buried under the gillows of Tyburn; unless, which is probable, the Fauconbergs obtained the body there and carried it off—London Lancet.

A TRAGIC EXPERIMENT.

How a Husband Tried to Cure His Wife's Fear of Pythonas.

Concerning pythonas, the following is a true story: A young lady in England for a long time had been so overcome by her fear of snakes that she had been obliged to go out to India with him as his wife. She had a horror of the wild animals she believed, she might encounter there, especially, serpents. At length, however, after he had secured a sort of immunity, she consented to accompany him. She did not, however, leave her fears behind her and lived in constant terror of some day meeting what she so intensely feared. Her husband did his best to lighten her fears, but without avail. Then he resolved to try more drastic means. . . .

A huge python was killed in the neighborhood of his bungalow. Without telling his wife anything about it, he ordered the reptile to be brought into the drawing room and coiled up as if asleep on the hearth rug. Then he went out and called his wife, telling her to go into the drawing-room and see what was going on in a few minutes. Soon after he heard a dreadful scream. "That will cure her of her fear of serpents," he smiled to himself and purposely delayed his entry. . . .

When at last he went into the drawing room he found his wife lying dead on the floor, and coiled around her was another huge python, the mate to the one that lay dead on the hearth rug. —St. James' Gazette.

The Tunnel Battery.

In 1812, in the nineteenth century, in early Colonel John Stevens conceived the idea of the construction of an iron plated vessel or war with a saucer shaped hull, propelled by screws so arranged as to give it rotary motion in the structure. The battery was to be of the heaviest ordnance of the time and the plating heavy enough to resist the shot of similar guns at short range. . . .

The purpose of the craft was to harbor destroyers and the plan of action was to moor the vessel by a chain leading down through the bottom of the ship at its center and to spin it around this center, firing gun after gun as it came in its line of fire and displacing the later Timbly turret, which in turn was the germ of the modern monitor armored. Such a vessel was actually built half a century later by the British government and was a good representative of the first Stevens battery—Cassell's Magazine.

Paved With Tombstones.

"Not the least noteworthy thing about the beautiful building" writes Dr. Robinson from Marquette to the Wochenschrift, referring to the cathedral of that place, "is the pavement. There are Hebrew letters, which aroused our curiosity, inscribed on the stones at the graves at one time marked graves in the Jewish cemetery had been taken there when there was a scarcity of building material and used to pave the cathedral. They have recently been removed and the old and the inscriptions are still in a fair state of preservation."

DEMOCRATIC RUMP CONVENTION

Boilers from State Convention Elect Delegates to Denver.

While the tumult was at its height the dissonant delegates from Ada Elmore, Nez Perce and a few scattering members from other counties proceeded to hold their convention in one corner of the hall, by electing K. I. Peiky of Ada county chairman and elected the following delegates and alternates to the convention at Denver: Geo. B. Erb, Lewistown; J. F. Pence, Ada; John C. Evans, Oatman; John C. Rice, Canyon; J. H. Hawley, Ada and Ben H. Gray of Blaine. The alternates are J. H. Garrett, Elmore; W. H. Cassidy, Idaho; J. F. Nugent, Adhi; C. H. Chamberlain, Elmore and J. D. Millsaps, Fremont.

The delegation was instructed, it was stated in the convention, to cast its vote for William J. Bryan as long as his name was before the convention.

IT'S A WHOPPER

Twin Falls Can Beat the State on Fish Stories.

The largest elephant in captivity is not in it with the monster sturgeon which Mr. Lind, of the firm of Carter, Clear & Lind, is exhibiting in a tent next to the office of the above firm. The fish which was caught in the Snake river last week by a man from Colorado, is ten and one-half feet long from head to tip of tail and weighs only 750 pounds. This is the largest of its kind taken from the river in a number of years and only one larger has ever been pulled out in the history of the state. . . .

One weighing about 800 pounds was taken about ten years ago near Glen's Ferry. The fish which was brought to this city was alive but died shortly after being placed on exhibition. It is Mr. Lind's intention to stuff the whale and place it on exhibition.

Forest Service Bulletin.

"The Forest Service" has just announced the following appointments of Forest Guards on Idaho National Forests.

Cluid B. McCreedy and Robert M. Gummer on the Priest River National Forest.

Earl C. Payne on the Salmon River National Forest.

These appointments are made to meet the increased demands of the Forest Service due to the opening of the grazing season, resumption of active lumbering operations on forests, and permanent improvement work after the cessation of practically all business of this kind during the winter months.
